**Legislative Framework**

- Disaster Management Act, 57 of 2002

- Chris Hani Disaster Management Policy Framework

**Background:**

On the **11<sup>th</sup> of October 2019** an updated report on the status of drought in the District was tabled to the Council reflecting the decline in water levels in all water sources due to the effects of climate change. This has resulted to serious water shortages that are now posing a threat to the livelihoods. Furthermore, the report indicated the intent of declaring a municipal state of disaster to source additional funding to mitigate the situation. Upon deliberations, the Special Council meeting took a resolution to declare a municipal state of disaster for drought.

**Exposition of facts:**

Subsequent to the resolution taken by Council on the **11<sup>th</sup> of October 2019** a notice was issued to the Provincial Gazette on the **14<sup>th</sup> of October 2019** to declare a local state of disaster. On the **18<sup>th</sup> of November 2019** a drought declaration was gazetted (**34 No. 4346**) in the Provincial Notice **320 of 2019**. In terms of the Disaster Management Act (57 of 2002) as amended Section 55 paragraph 5 (c) state clearly that a municipal state of disaster that has

been declared in terms of subsection (1) – may be extended by the Council through publication of a notice in the Provincial Gazette for one month as per the provisions of Section 55 (5) of a Disaster Management Act 57 of 2002 as amended by Act, No 16 of 2015. The current declaration is now coming to an end on the **18<sup>th</sup> of February 2020** and this report is necessitated by that.

### **Areas to Note**

In terms of Section 55 (5) of a Disaster Management Act 57 of 2002 as amended by Act, No 16 of 2015 a municipal state of disaster that has been declared :-

- (a) lapses three months after it has so been declared;
- (b) may be terminated by the Council by notice in the Provincial Gazette before it lapses in terms of paragraph (a) and
- (c) may be extended by the Council by notice in the Provincial Gazette for one month at a time before it lapses in terms of paragraph (a) or the existing extension is due to expire.

### **Recommendations:**

#### **It is recommended that:**

- 1) The Mayoral Committee recommends to Council the extension of the gazetted declaration of a municipal state of disaster on a month to month basis until the declaration is fulfilled in terms of required resources.

## PROVINCIAL NOTICE 320 OF 2019

EXTRACT OUT OF MINUTES A SPECIAL COUNCIL MEETING HELD ON 11 OCTOBER  
2019C830. UPDATE REPORT ON DECLARATION OF STATE OF MUNICIPAL  
DISASTER: DROUGHT**Purpose:**

To report to Council about the status of drought in the district. To further report to Council for the purposes of declaring a state of municipal disaster throughout the district.

**Authority:**

CHDM Council

**Legislative framework:**

The Municipal Structures Act (117 of 1998) section 84 provides that district municipalities are responsible for the provision of bulk and reticulation services in relation to 'potable water supply, domestic wastewater and sewage disposal systems'. Therefore under the Municipal Structures Act, Chris Hani District Municipality is designated both as a Water Services Authority and a Water Services Provider. In its capacity has a duty to all consumers or potential consumers, in its area of jurisdiction to progressively ensure efficient, affordable, economical and sustainable access to water and sanitation services.

**Background:**

The current status of Chris Hani DM is that all water sources are declining in levels and most of them have since dried out leaving the communities vulnerable. This decline in water levels and drying out is associated with prolonged drought. CHDM last had the rain as far back as February 2019. The shortage of rain has serious water resources challenges. The sources are drying out leaving communities with compromised livelihood. This state of affairs is attributed to poor rainfall patterns. The report seeks the declaration

of the district as drought stricken region so as to source additional funding to mitigate the situation before human lives are lost due to day zero status

#### Exposition of facts:

CHDM has benefitted from the previous declaration through the WSIG Drought funding. An allocation of R87.3 million was made available for the district to mitigate the situation. Drilling and retrofitting was prioritised for the district. Certain boreholes that were drilled happen to be unsuccessful and resulted in delays with implementation of the projects. Other projects were delayed through Supply Chain Processes that were to be followed. In some instances it was an issue with community interests that have to be considered. Nonetheless, most projects have started with implementation. Those projects that received the grant will not form part of this submission.

This submission seeks the declaration of the Mayoral to declare the district as drought stricken in order to source funding from Provincial and National Government. The submission will further be subjected to the verification process that will confirm the state of affairs of the affected areas. It is also possible that certain areas will be serviced by water-carting as there are no possible sources including groundwater itself due to the dryness of the area. Certain sources have dried completely and communities rely now on water-carting that is also not guaranteed because of the distances of hauling water. Carting is also considered in areas where there are no alternative sources. Below is the table of prioritised schemes and areas in need of financial assistance and intervention.

CHDM has conducted workshops for Operators on groundwater monitoring with an aim of capacitating them to be able to manage the groundwater. These workshops are meant to ensure that the groundwater is being monitored to avoid over-abstraction and collapse of boreholes. CHDM had about 2 Interns graduated as Geologist with Hydrogeology

Only 1 Intern that is currently available to assist with groundwater monitoring and exploration working with Hydrogeologists that are Professional Service Providers. The effect of drought on businesses, farmers, etc can never be measurable. The area of Komani has factories that produce Dairy products and Fizzy drinks (Twizza) which are threatened with closure thus resulting to job losses
