## 2. CONDITIONS OF TITLE

### 2.1 NAME

The name of the township shall be **Homes Haven Extension 11**

### 2.2 DESIGN

The township shall consist of erven and streets as indicated on **General Plan S.G. No 9051/2005**.

### 2.3 STORMWATER DRAINAGE AND STREET DESIGN

- (a) The township owner shall at the request of the Local Government supply the Local Government with a detailed scheme including plans, cross sections and specifications as compiled by a civil engineer approved by the Local Government for the provision of a underground water drainage system. Such system must be designed in order to dispose off the runoff of a 1:10 year rainstorm and must ensure that the runoff of a 1:50 year be guided to the nearest defined watercourse without flooding any adjacent properties. The design of the drainage system must contain and describe aspects like tar macadamization, kerbing and canalization of roads as well as the provision of retaining walls if required by the Local Government.

The drainage system must, where necessary, make provision for the catchment of stormwater in catchment pits from where it must be disposed of in water tight pipes in such a way that no water collections or seepage shall occur on or near the ground surface. The mentioned water pipes must be manufactured from durable material and must be approved by the Local Government. The scheme must also indicate the route and gradient of access to each individual erf from the adjoining street.

- (b) The township owner must construct roads according to the approved scheme at own costs and to the satisfaction of the local government, under the supervision of a civil engineer approved by the local government.
- (c) The township owner is responsible for the maintenance of streets to the satisfaction of the local government until the streets are completed according to sub-clause (b) above.
- (d) The township owner must make a proportional contribution, as determined by the Director: Infrastructure Management, for the provision of a traffic light at the intersection of Viljoen Street and Hendrik Potgieter Drive.

- (e) If the township owner fails to comply with the stipulations of sub clauses (a), (b) and (c) above, the local government will be entitled to do the required construction at the cost of the township owner.

## 2.4 SEWERAGE

The township owner must, at the request of the local government, supply the following detail regarding the sewerage system of the proposed township:

- (i) Comprehensive lay-out plans;
- (ii) Cross sections; and
- (iii) Specifications of materials and equipment to be used during the construction of such sewerage system.

The sewerage system must be designed by an approved professional engineer according to the specifications and standards laid down by the local government, to the satisfaction of the Director: Water and Sanitation;

All materials to be used with the construction of the sewerage system is subject to the approval and/or amendment of the Director: Water and Sanitation.

## 2.5 WATER

The township owner must, at the request of the local government submit a detailed scheme with plans, cross sections and specifications for the provision of an underground water reticulation system, for approval.

The proposed network must make provision for a pressurised water connection for each individual erf and must be designed by a professional engineer approved by the local government. All materials to be used in the proposed water network must be approved by the local government.

## 2.6 DISPOSAL OF EXISTING TITLE CONDITIONS

All erven must be made subject to existing conditions and servitudes, if any, with the exception of:-

- (a) The following conditions which must not be transferred to the erven in the township:

Conditions A and B which does not affect the erven in the township and C(1), C(2), C(3) and C(4), in Deed of Transfer T142891/2006.

**2.7 FORMATION, DUTIES AND RESPONSIBILITIES OF THE HOME OWNERS ASSOCIATION**

- (a) The applicant shall legally and properly constitute a Home Owners Association prior to the transfer of any erf in the township.
- (b) All streets and internal engineering services in the township shall, prior to or simultaneously with the registration of the first erven in the township be transferred to the Home Owners Association who shall take full responsibility for the maintenance of said streets and internal engineering services in the township.
- (c) All owners of stands (or subdivided/consolidated portions thereof) in the township shall become and remain members of the Home Owners Association and shall be subject to its memorandum and articles until such owners legally cease to be owners as aforesaid.

**2.8 REMOVAL OF REFUSE**

The township owner must at own cost remove refuse within the township to the satisfaction of the Local Government, if required by the Local Government.

**2.9 REMOVAL OR REPLACEMENT OF MUNICIPAL SERVICES**

If the establishment of the township results in any municipal services to be removed or replaced the costs of such removal/replacement must be borne by the township owner.

**2.10 RELOCATION OF POWERLINES**

If the establishment of the township results in any ESKOM equipment or services to be relocated the costs of such relocation must be borne by the township owner.

**2.11 RELOCATION OF TELKOM EQUIPMENT**
