PART II: TARIFFS

SECTION 3: OBJECTIVE

In setting its annual tariffs the council shall at all times take due cognisance of the tariffs applicable elsewhere in the economic region, and of the impact which its own tariffs may have on local economic development.

SECTION 4: GENERAL PRINCIPLES

- (a) Service tariffs imposed by the local municipality shall be viewed as user charges and shall not be viewed as taxes, and therefore the ability of the relevant consumer or user of the services to which such tariffs relate, shall not be considered as a relevant criterion (except in the case of the indigency relief measures approved by the municipality from time to time).
- (b) The municipality shall ensure that its tariffs are uniformly and fairly applied throughout the municipal region.
- (c) Tariffs for the four major services rendered by the municipality, namely:
- electricity
 - water
 - sewerage (waste water)
 - refuse removal (solids waste),
- shall as far as possible recover the expenses associated with the rendering of each service concerned, and – where feasible – generate a modest surplus as determined in each annual budget. Such surplus shall be applied in relief of property rates or for the future capital expansion of the service concerned, or both.
- (d) The tariff which a particular consumer or user pays shall therefore be directly related to the standard of service received and the quantity of the particular service used or consumed.
- (e) The municipality shall develop, approve and at least annually review an indigency support programme for the municipal area. This programme shall set out clearly the municipality's cost recovery policy in respect of the tariffs which it levies on registered indigents, and the implications of such policy for the tariffs which it imposes on other users and consumers in the municipal region.
- (f) In line with the principles embodied in the Constitution and in other legislation pertaining to local government, the municipality may differentiate between different categories of users and consumers in regard to the tariffs which it levies. Such differentiation shall, however, at all times be reasonable, and shall be fully disclosed in each annual budget.
- (g) The municipality's tariff policy shall be transparent, and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service in question.

- (h) The municipality further undertakes to ensure that its tariffs shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned.
- (i) The municipality also undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery.
- (j) In the case of directly measurable services, namely electricity and water, the consumption of such services shall be properly metered by the municipality, and meters shall be read, wherever circumstances reasonably permit, on a monthly basis. The charges levied on consumers shall be proportionate to the quantity of the service which they consume.
- (k) In addition, the municipality shall levy monthly availability charges for the services concerned, and these charges shall be fixed for each type of property as determined in accordance with its appropriate policies. Generally, consumers of water and electricity shall therefore pay two charges: one, relatively minor, which is unrelated to the volume of consumption and is levied because of the availability of the service concerned; and another directly related to the consumption of the service in question.
- (l) In considering the costing of its water, electricity and sewerage services, the municipality shall take due cognisance of the high capital cost of establishing and expanding such services, and of the resultant high fixed costs, as opposed to variable costs of operating these services.

In adopting what is fundamentally a two-part tariff structure, namely a fixed availability charge coupled with a charge based on consumption, the municipality believes that it is properly attending to the demands which both future expansion and variable demand cycles and other fluctuations will make on service delivery.

- (m) The municipality's tariffs for electricity services will be determined to ensure that those consumers who are mainly responsible for peak demand, and therefore for the incurring by the municipality of the associated demand charges from Eskom, will have to bear the costs associated with these charges. To this end the municipality shall therefore install demand meters to measure the maximum demand of such consumers during certain periods. Such consumers shall therefore pay the relevant demand charge as well as a service charge directly related to their actual consumption of electricity during the relevant metering period.

SECTION 5: CALCULATION OF TARIFFS FOR MAJOR SERVICES

In order to determine the tariffs which must be charged for the supply of the four major services, the municipality shall identify all the costs of operation of the undertakings concerned, including specifically the following:

- (a) Cost of bulk purchases in the case of water and electricity.
- (b) Distribution costs.

- (c) Distribution losses in the case of electricity and water.
- (d) Depreciation expenses.
- (e) Maintenance of infrastructure and other fixed assets.
- (f) Administration and service costs, including:
 - (i) service charges levied by other departments such as finance, human resources and legal services;
 - (ii) reasonable general overheads, such as the costs associated with the office of the municipal manager;
 - (iii) adequate contributions to the provisions for bad debts and obsolescence of stock;
 - (iv) all other ordinary operating expenses associated with the service concerned including, in the case of the electricity service, the cost of providing street lighting in the municipal area (note: the costs of the democratic process in the municipality – that is, all expenses associated with the political structures of the municipality – shall form part of the expenses to be financed from property rates and general revenues, and shall not be included in the costing of the major services of the municipality).
- (g) The intended surplus to be generated for the financial year, such surplus to be applied:
 - (i) as an appropriation to capital reserves; and/or
 - (ii) generally in relief of rates and general services.
- (h) The cost of approved indigency relief measures.

SECTION 6: STRUCTURE OF TARIFFS

- (a) The structure of Tariffs for the provision of water, electricity, refuse removal and sewerage services, as well as minor tariffs will be as determined from time to time, whether in the annual budget or otherwise as provided for in law.
- (b) The following charges and tariffs shall be considered as regulatory or punitive, and shall be determined as appropriate in each annual budget:
 - (i) fines for lost or overdue library books
 - (ii) advertising sign fees
 - (iii) pound fees
 - (iv) electricity, water: disconnection and reconnection fees
 - (v) penalty and other charges imposed in terms of the approved policy on credit control and debt collection
 - (vi) penalty charges for the submission of dishonoured, stale, post-dated or otherwise unacceptable cheques.
- (c) Market-related rentals shall be levied for the lease of municipal properties.
- (d) In the case of rentals for the use of municipal halls and premises, if the municipal manager is satisfied that the halls or premises are required for non-profit making

purposes and for the provision of a service to the community, the municipal manager may waive 50% of the applicable rental.

- (e) The municipal manager shall determine whether an indemnity or guarantee must in each instance be lodged for the rental of municipal halls, premises and sports fields, and in so determining shall be guided by the likelihood of the municipality's sustaining damages as a result of the use of the facilities concerned.

PART III: RATES

SECTION 7: OBJECTIVE

- (a) In developing and adopting this rates policy, the council has sought to give effect to the sentiments expressed in the preamble of the Property Rates Act, namely that:
- (i) the Constitution enjoins local government to be developmental in nature, in addressing the service delivery priorities of our country and promoting the economic and financial viability of our municipalities;
 - (ii) there is a need to provide local government with access to a sufficient and buoyant source of revenue necessary to fulfill its developmental responsibilities;
 - (iii) revenues derived from property rates represent a critical source of income for municipalities to achieve their constitutional objectives, especially in areas neglected in the past because of racially discriminatory legislation and practices; and
 - (iv) it is essential that municipalities exercise their power to impose rates within a statutory framework which enhances certainty, uniformity and simplicity across the nation, and which takes account of historical imbalances and the burden of rates on the poor.
- (b) In applying its rates policy, the council shall adhere to all the requirements of the Property Rates Act 2004, including any regulations promulgated in terms of that Act.

SECTION 8: IMPOSITION OF RATES

- (a) The council shall as part of each annual operating budget component impose a rate in the rand on the market value of all rateable property as recorded in the municipality's valuation roll and supplementary valuation roll. Rateable property shall include any rights registered against such property, with the exception of a mortgage bond.
- (b) The council shall, in imposing the rate for each financial year, take proper cognisance of the aggregate burden of rates and service charges on representative property owners, in the various categories of property ownership, and of the extent to which this burden is or remains competitive with the comparable burden in other municipalities within the local economic region.

SECTION 9: REBATES ON RATES

- (a) In imposing the rate in the rand for each annual operating budget component, the council shall grant the rebates to the categories of properties and categories of owners in terms of the circumstances of a particular annual budget which the Council in its discretion deems appropriate.
- (b) In determining whether a property forms part of a particular category, the municipality shall have regard to the actual use to which the relevant property is put. In the case of vacant land not specifically included in any of the categories indicated below, the permitted use of the property shall determine into which category it falls.
- (c) Municipal properties shall include properties owned by municipal entities
- (d) Properties used for multiple purposes, as deemed relevant by the Council, shall be rated on the value assigned to each component, and shall receive the rebate applicable to such component. Where one component on average represents 90% or more of the property's actual use, such property shall be rated as though it were used for that use only.
- (e) The municipal manager shall ensure that the revenues forgone in respect of the foregoing rebates are appropriately disclosed in each annual operating budget component and in the annual financial statements and annual report, and that such rebates are also clearly indicated on the rates accounts submitted to each property owner.

SECTION 10: FREQUENCY OF PAYMENTS

Payments for rates shall be made monthly on or before the date specified in each monthly rate account.

SECTION 11: CORRECTION OF ERRORS AND OMISSIONS

- (a) Where the rates levied on a particular property have been incorrectly determined, whether because of an error or omission on the part of the municipality or false information provided by the property owner concerned or a contravention of the permitted use to which the property concerned may be put, the rates payable shall be appropriately adjusted for the period extending from the date on which the error or omission is detected back to the date on which rates were first levied in terms of the current valuation roll, but a period not longer than 12 months.
- (b) In addition, where the error occurred because of false information provided by the property owner or as a result of a contravention of the permitted use of the property concerned, interest on the unpaid portion of the adjusted rates payable shall be levied at the maximum rate permitted by prevailing legislation.

SECTION 12: FREQUENCY OF VALUATIONS

The municipality shall prepare a new valuation roll every 4 (four) years and supplementary valuation rolls every 6 (six) months.

PART IV: CREDIT CONTROL AND DEBT COLLECTION

SECTION 13: OBJECTIVE CONSTITUTIONAL OBLIGATIONS

The council of the municipality, in adopting this policy on credit control and debt collection, recognises its constitutional obligations to develop the local economy and to provide acceptable services to its residents. It simultaneously acknowledges that it cannot fulfill these constitutional obligations unless it exacts payment for the services which it provides and for the taxes which it legitimately levies – in full from those residents who can afford to pay, and in accordance with its indigency relief measures for those who have registered as indigents in terms of the council's approved indigency management policy.

SECTION 14: NOTICE OF DEFAULT AND INTENDED TERMINATION OR RESTRICTION OF SERVICES

Within 7 (seven) calendar days after each monthly due date for payment of municipal accounts for property rates and/or service charges, the municipal manager shall dispatch to every defaulting accountholder, that is, every accountholder who as at the date of the notice has not paid the monthly account in full or has not made an acceptable arrangement with the municipal manager for partial or late payment, a notice stating that unless full payment is received or an acceptable arrangement made with the municipal manager for partial or late payment, the municipal electricity or water supply or both such supplies to the property to which the account in arrears relates shall be terminated or restricted 14 (fourteen) calendar days after the date of the notice concerned.

SECTION 15: RECONNECTION OR REINSTATEMENT OF TERMINATED OR RESTRICTED SERVICES

- (a) Services to defaulting accountholders terminated or restricted in terms of Section 19 above shall be reconnected or reinstated by the municipal manager only when all the following conditions have been met:
- (i) the arrear account has been paid in full, including the interest raised on such account; or an acceptable arrangement has been made with the municipal manager for the payment of the arrear account, including the interest raised on such account;
 - (ii) the charge(s) for the notice sent in terms of Section 19 above and for the reconnection or reinstatement of the terminated or restricted service(s), as determined by the council from time to time, have been paid in full;
 - (iii) a service contract has been entered into with the municipality, as contemplated in Section 26 below; and
 - (iv) a cash deposit has been lodged with the municipal manager in compliance with Section 27, such deposit to be newly determined on the basis of currently prevailing consumption and usage of services in respect of the property concerned or, if insufficient data is available in regard to such consumption, of

the currently prevailing consumption and usage of services in respect of a comparable property.

- (b) In the case of consumers using prepaid meters, but who have fallen into arrears with the remainder of their obligations to the municipality, no prepaid purchases shall be accepted until the outstanding arrears have been settled or an acceptable arrangement made for the payment of the arrear account, as contemplated above: such arrangement may entail the limitation of the amount of prepaid services which may be purchased until the arrears or a stated percentage of the arrears has been settled.

SECTION 16: PERIODS FOR RECONNECTIONS OR REINSTATEMENTS

The municipal manager shall reconnect or reinstate terminated or restricted services within 3 (three) working days after the date on which the conditions set out in Section 20 above have been met, unless the municipal manager is unable to do so because of circumstances beyond the control of the municipality.

SECTION 17: ILLEGAL RECONNECTIONS

- (a) The municipal manager shall, as soon as it comes to the notice of the municipal manager that any terminated or restricted service has been irregularly reconnected or reinstated, report such action to the South African Police Service, disconnect or restrict such service(s), and not reconnect or reinstate such service(s) until the arrear account, including the interest raised on such account, the charges for the notice sent in terms of Section 19 above and the charges for both the original and subsequent reconnection or reinstatement of the service(s) and the revised deposit have been paid in full, together with such penalty as may be determined by the council from time to time.
- (b) In addition, all metered consumption since the date of the illegal reconnection, or the estimated consumption if a reliable meter reading is not possible, shall also be paid full before any reconnection or reinstatement is considered.

SECTION 18: RESTRICTION OF SERVICES

If the municipal manager is of the opinion that the termination of services, in the case of a particular property in respect of which the account is in arrear, is not in the best interests of the community – specifically because of the potential endangerment of the life of any person, whether resident in or outside the property concerned – the municipal manager may appropriately restrict rather than terminate the services in question.

SECTION 19: SERVICES NOT RECONNECTED OR REINSTATED AFTER FOUR WEEKS

- (a) If services have been terminated or restricted in the case of a property in respect of which the account is in arrear, and the accountholder has not paid such arrears, including the interest raised on such account, or made an acceptable arrangement with the municipal manager for the payment of the arrear account, including the interest raised on such account, within a period of 28 (twenty eight) calendar days after the date of termination or restriction of the service(s) concerned, the municipal manager shall forthwith hand such account over for collection and such further action as is deemed necessary to the municipality's attorneys or any debt collecting agency appointed by the council.
- (b) Such further action shall include if necessary the sale in execution of such property to recover arrear property rates and service charges (if the accountholder is also the owner of the property).
- (c) All legal expenses incurred by the municipality shall be for the account of the defaulting accountholder.

SECTION 20: ARRANGEMENTS FOR PAYMENT OF ARREAR ACCOUNTS

- (a) Allowing defaulting accountholders to make arrangements for the payment of arrear accounts shall be at the discretion of the municipal manager.
- (b) Each defaulting accountholder shall be allowed a maximum period of 3 (three) months within which to pay an arrear account, together with the interest raised on such account, and it shall be a condition for the conclusion of any arrangement that the accountholder is bound to pay every current municipal account in full and on time during the period over which such arrangement extends.
- (c) If an accountholder breaches any material term of an arrangement, the balance of the arrear account, together with the balance of interest raised on such account, shall immediately become due and payable to the municipality, and if the accountholder defaults on such payment, the municipal manager shall terminate or restrict services to the property in question and shall forthwith hand such account over for collection as envisaged in Section 24 above.
- (d) An accountholder who has breached an arrangement as set out above shall not be allowed to make any further arrangements for the payment of arrear accounts, but shall be proceeded against, after the dispatch of the initial notice of default as envisaged in Section 19 above and failure by the accountholder to pay the arrear account, together with interest raised on such arrears as required in terms of such notice, as though such accountholder had breached a material term of an arrangement.

SECTION 21: SERVICE CONTRACT

- (a) A service contract shall henceforth be entered into with the municipality for each property to which the municipality is expected to provide electricity and water services:
- (i) electricity (Consumer)
 - (ii) water (Consumer)
 - (iii) refuse collection (Owner of property – levied with assessment rates)
 - (iv) sewerage. (Owner of property – levied with assessment rates)
- (b) Such contract shall set out the conditions on which services are provided and shall require the signatory to note the contents of the municipality's credit control and debt collection policy, a copy of which shall be provided to such signatory, as well as the provision of the Municipal Systems Act in regard to the municipality's right of access to property.
- (c) Where the signatory is not the owner of the property to which the services are to be provided, a properly executed letter from such owner indicating that the signatory is the lawful occupant of the property shall be attached to the service contract.
- (d) Current consumers and users of the municipality's services who have not entered in a service contract as envisaged above, must do so within 2 (two) years from the date on which the by-laws to implement the present policy are published, and failure to do so shall be considered as a default equivalent to non-payment in terms of Section 19 above.

SECTION 22: PAYMENT OF DEPOSITS

Whenever a service contract is entered into in terms of Section 26 above, the signatory shall lodge a cash deposit with the municipality, such deposit to be determined as follows:

- (a) in the case of the signatory's being the registered owner or spouse of the registered owner of the property concerned, an amount equal to one quarter of the aggregate monetary value of the relevant service(s) provided to the property over the immediately preceding 12 (twelve) month period, or – where no such information is available – one quarter of the aggregate monetary value of the relevant service(s) provided to a comparable property over the immediately preceding 12 (twelve) month period;
- (b) in the case of the signatory's not being the registered owner or spouse of the registered owner of the property concerned, an amount equal to one third of the aggregate monetary value of the relevant service(s) as determined above.

SECTION 23: ALLOCATION OF PART-PAYMENTS AND APPROPRIATION OF DEPOSITS

- (a) If an accountholder pays only part of any municipal account due, the municipal manager or nominee shall allocate such payment in terms of his/her discretion as permitted in law.

- (b) The sequence of allocation decided in terms of (a) above shall be followed notwithstanding any instructions to the contrary given by the accountholder.
- (c) In the event of an accountholder's defaulting on the payment of an arrear account, as contemplated in Section 22, 24 and 25 above, the municipal manager shall forthwith appropriate as much of such deposit as is necessary to defray any costs incurred by the municipality and the arrear amount owing to the municipality in the same sequence that is applicable to the allocation of part payments, as contemplated above.

SECTION 24: QUERIES BY ACCOUNTHOLDERS

- (a) In the event of an accountholder in the view of the municipal manager reasonably querying any item or items on the monthly municipal account, no action shall be taken against the accountholder as contemplated in Section 19 above, provided
 - (i) the accountholder has paid by due date an amount equal to the monthly average monetary value of the three most recent unqueried accounts in respect of the service under query,
 - (ii) all unqueried balances on such account, and
 - (iii) such query is made in writing by the accountholder or is recorded in writing by the municipal manager on behalf of the accountholder on or before the due date for the payment of the relevant account.
- (b) Any query raised by an accountholder in the circumstances contemplated in Section 30 below shall not constitute a reasonable query for the purposes of the sub-section (a) above.

SECTION 25: INABILITY TO READ METERS

- (a) If the municipality is unable to read any meter on any property because the meter has been rendered inaccessible through any act or omission of the accountholder or owner of the property concerned, the municipal manager shall estimate the consumption of the service concerned by determining the monthly average of the metered consumption recorded on the three most recent accounts in respect of which meter readings were obtained, and thereafter bill the accountholder for the monetary value of such estimated consumption plus a provisional surcharge of 10% of such value for the first month in which the metered reading could not be obtained, escalating to 20% in the second month, 30% in the third month, and so on by 10 percentage points for each subsequent month, until the meter is again rendered accessible.
- (b) The accountholder shall be liable for the initial payment of such surcharge(s) as though the surcharge were part of the service charge concerned, but the municipal manager shall reverse such surcharge(s) against the first account for which a meter reading is again obtained.

SECTION 26: DISHONOURED AND OTHER UNACCEPTABLE CHEQUES

If an accountholder tenders a cheque which is subsequently dishonoured by or is found to be unacceptable to the accountholder's or the municipality's bankers, the municipal manager shall – in addition to taking the steps contemplated in these by-laws against defaulting accountholders – charge such accountholder the penalty charge for unacceptable cheques, as determined by the council from time to time, and such charge shall rank equally with the costs and expenses incurred by the municipality for purposes of determining the sequence of allocations and appropriations contemplated in Section 28 above.

SECTION 27: INTEREST ON ARREARS AND OTHER PENALTY CHARGES

- (a) Interest shall be charged on all arrear accounts at the prevailing overdraft rate offered to the municipality by the municipality's bankers plus 2 (two) percentage points.
- (b) If the municipality uses more than one banking institution it shall for purposes of determining the interest on arrear accounts apply the overdraft rate offered by the institution with which its primary bank account is placed.
- (c) Interest shall be calculated on a daily basis. For purposes of determining arrear amounts, all amounts unpaid including interest previously raised and penalty charges, but excluding value added tax, shall be taken into account.
- (d) In considering each annual budget the council shall review the adequacy of its interest charges, and shall determine the following for the financial year concerned:
 - (i) charges for disconnection or restriction of services (Section 19)
 - (ii) charges for reconnection or reinstatement of services (Section 20)
 - (iii) charges for notices of default (Section 19)
 - (iv) penalty charges for illegal reconnections (Section 22)
 - (v) penalty charges for dishonoured and unacceptable cheques (Section 31).

SECTION 28: INDIGENCY MANAGEMENT

In regard to the payments expected from registered indigents, and the credit control and debt collection actions contemplated in respect of such residents, this part of the by-laws must be read in conjunction with the by-laws on indigency management.

SECTION 29: ARREARS WHICH HAVE ARISEN PRIOR TO THE ADOPTION OF THE PRESENT POLICY

- (a) The council shall separately consider arrears which arose prior to the adoption of the present by-laws, and shall advise accountholders of their respective obligations in regard to such arrears.
- (b) In determining such obligations, the council shall have regard to the quantum of such arrears, to the period over which the default occurred, and to whether the accountholder concerned has registered as an indigent in terms of the municipality's by-laws on indigency management.

- (c) The council shall further consider an incentive scheme to encourage accountholders to settle all or a stated percentage of these arrears.

PART V: INDIGENCY MANAGEMENT

SECTION 30: OBJECTIVE

Because of the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for normal municipal services. The municipality therefore adopts its indigency management policy and attendant by-laws to ensure that these households have access to at least basic municipal services, and is guided in the formulation of this policy and by-laws by the national government's policy in this regard.

SECTION 31: WHO QUALIFIES FOR INDIGENT SUPPORT

The criteria for qualification for indigent support and the process to be followed will be as determined by Council in terms of Council's Indigent Policy.

SECTION 32: NON-COMPLIANCE OF HOUSEHOLDS REGISTERED AS INDIGENT

- (a) When a property owner or accountholder who has registered as an indigent fails to comply with any arrangements or conditions which are in the view of the municipal manager materially relevant to the receipt of indigency relief, such person will forfeit his or her status as a registered indigent with immediate effect, and will thereafter be treated as an ordinary residential property owner or accountholder for the financial year concerned.
- (b) The onus is on each registered indigent to advise the municipal manager of such failure to comply.
- (c)
- (i) if any household in receipt of indigency relief falls into arrears in respect of any amounts due by it to the municipality, the property owner or accountholder concerned must make immediate arrangements with the municipal manager to pay off these arrears owing within a reasonable time determined by the municipal manager in terms of the municipality's credit control and debt collection by-laws.
 - (ii) If these arrangements are not made, no subsidies will be paid or free services provided, and services may be terminated in terms of the municipality's credit control and debt collection by-laws.
- (d) The relief to indigents may be withdrawn at the discretion of the municipal manager if:
- (i) a registered indigent who qualifies for such relief fails to keep to the terms of the policy agreement; or
 - (ii) any tampering with the installations of the municipality is detected.

- (e)
 - (i) If a registered indigent is found to have provided fraudulent information to the municipality in regard to any material condition for registration as an indigent, such person shall immediately be removed from the register of indigents, and shall be liable to repay to the municipality with immediate effect all indigency relief received from the date of such fraudulent registration.
 - (ii) Moreover, such person may not again be considered for indigency relief for a period extending for 5 (five) years beyond the financial year in which the misdemeanour is detected.
 - (f) Indigency relief will not apply in respect of property owners owning more than one property, whether in or outside the municipal area.
-
