IMPORTANT

Information

from Government Printing Works

Dear Valued Customers,

Government Printing Works has implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submits your notice request.

Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.

DISCLAIMER:

Government Printing Works reserves the right to apply the 25% discount to all Legal and Liquor notices that comply with the business rules for notice submissions for publication in gazettes.

National, Provincial, Road Carrier Permits and Tender notices will pay the price as published in the Government Gazettes.

For any information, please contact the eGazette Contact Centre on 012-748 6200 or email info.egazette@gpw.gov.za

1507	Local Government: Municipal Systems Act (32/2000): Amendment of charges payable to the City of Tshwane Metropolitan Municipality for the supply of electricity	379	4
------	--	-----	---

LOCAL AUTHORITY NOTICES • PLAASLIKE OWERHEIDS KENNISGEWINGS

LOCAL AUTHORITY NOTICE 1507 OF 2015

CITY OF TSHWANE METROPOLITAN MUNICIPALITY

AMENDMENT OF CHARGES PAYABLE TO THE CITY OF TSHWANE METROPOLITAN MUNICIPALITY FOR THE SUPPLY OF ELECTRICITY

The City of Tshwane Metropolitan Municipality hereby gives notice in terms of Section 75A(3) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), as amended, that a resolution was passed by Council on 30 July 2015 that the charges payable to the Municipality for the Supply of Electricity as reflected in Part I of SCHEDULE 2 in respect of Energy, Demand, and Fixed Demand Charges as published under Local Authority Notice 1126 in Provincial Gazette Extraordinary No 260, Vol 21 of 24 June 2015, be amended and withdrawn, and that the same be substituted with the charges set out in the Schedule below.

The said amendment takes effect on **1 July 2015** and shall remain effective until any subsequent amendment or substitution by the said Municipality.

JASON NGOBENI
CITY MANAGER

(Notice 249 of 2015)
28 August 2015

SCHEDULE SUPPLY OF ELECTRICITY

PART I: ENERGY, DEMAND AND FIXED DEMAND CHARGES

	With effect from 1 July 2015 to 30 June 2016
A. DOMESTIC TARIFF SCALES	
FREE BASIC ELECTRICITY	
For indigent consumers officially registered at the City of Tshwane Metropolitan Municipality the first 100 kWh consumed per thirty-day period per residential unit since the previous meter reading will be issued free of charge.	
1. DOMESTIC SINGLE-&THREE-PHASE: CONVENTIONAL & PREPAID	
Subject to any additional charges contained in PARTII of the Tariff and to the exceptions set out in group(x),this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers with a main circuit-breaker size of not more than 80 amperes per phase in the case of a single-phase, two-phase or three-phase connection, provided that where a three-phase connection is supplied to the premises and the rating of the consumer's main circuit breaker is more than 80 amperes per phase-excluding bulk domestic complexes, the Executive Director: Energy and Electricity may determine that the Low Voltage Three-phase Demand Scale will apply (two-phase connections are not available for new connections and the tariff is only applicable to existing two-phase connections)	

	With effect from 1 July 2015 to 30 June 2016
(i) A residential unit (ii) A boarding house (iii) A flat (iv) A non-profitable nursing home (v) A charitable institution/home (vi) A hostel (vii) A building used exclusively for public works (viii) A club, other than a club licensed under any liquor act (ix) A pumping plant where the water pumped is used exclusively for domestic purposes on premises receiving a supply under this scale of the tariff (x) A building or separate section of a building comprising a number of the foregoing groups or other units used exclusively for residential purposes, the consumption of which is separately metered by the municipality for the determination of charges due under this scale (xi) Classes (iv),(v) and (vii) situated outside legally established townships (xii) Premises for which a written request was submitted to and approved by Executive Director: Energy and Electricity.	
1.1 DOMESTIC STANDARD SUPPLY SINGLE- AND THREE-PHASE: CONVENTIONAL	
For a connection with a conventional meter, energy consumed since the previous meter reading is charged for per month or part of a month, and for a prepaid meter the energy charged for all kWh purchased in a calendar month is following per kWh inclusive of environmental levy.	
(i) 1 - 100 kWh	121,96
(ii) 101 - 400 kWh	141,70
(iii) 401 - 650 kWh	154,60
(iv) >650 kWh	165,20
1.2 DOMESTIC TIME -OF-USE SUPPLY SINGLE- AND THREE-PHASE: PREPAID	
(i) 1 - 100 kWh	121,96
(ii) 101 - 400 kWh	141,70
(iii) 401 - 650 kWh	154,60
(iv) >650 kWh	165,20
1.3 DOMESTIC TIME-OF-USE SUPPLY	
Currently not available. Time-of-use tariffs will be made available to standard domestic customers when the automated meter reading system with time-of-use capabilities has been implemented and commissioned.	
2. DOMESTIC BULK SUPPLY	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to domestic complexes and gated domestic communities situated within legally established townships (unless explicitly otherwise determined by the Executive Director: Energy and Electricity) within and outside the municipal boundaries where electricity is supplied in bulk via a single connection at low voltage or medium voltage, to the following classes of consumers.	
A body corporate or the authorised reselling agent of a bulk residential complex that purchases electricity only for resale to residential dwelling-units on the same premises at the prescribed domestic tariffs of the municipality and where such consumption is determined by means of conventional or prepaid sub-meters.	

	With effect from 1 July 2015 to 30 June 2016
Residential complexes include blocks of flats, including separate units in terms of the sectional Titles Act, 1971 (Act 66 of 1971), and the sectional Titles Act, 1986 (Act 95 of 1986), but exclude premises with only a second dwelling unit.	
2.1 DOMESTIC BULK STANDARD SUPPLY	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed per metering point	R452,00
(b) for all kWh consumed since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy:	121.96c
2.2 DOMESTIC BULK TIME-OF-USE SUPPLY	
Due to the automated meter reading system not being fully implemented and commissioned for Time-of-use metering, the domestic bulk time-of-use will not be available for an interim period. No new applications for this scale will be considered until further notice.	
The following charges applicable to standard Domestic Bulk supply will be charged to customers previously on this tariff scale:	
(a) A fixed monthly charge, whether or not electricity is consumed per metering point	R452,00
(b) An active energy charge for all kWh consumed during peak periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	121.96c
(c) An active energy charge for all kWh consumed during standard periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	121.96c
(d) An active energy charge for all kWh consumed during off-peak periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	121.96c
NOTES:	
(i) The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G).	
(ii) The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.	
(iii) The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this scale.	
(iv) The Executive Director: Energy and Electricity has the authority to reverse the tariff of a complex without notice to standard supply where the resellers fail to accommodate clients in the complex requesting the approved Domestic Time-use tariffs.	

	With effect from 1 July 2015 to 30 June 2016
RESELLING TO END USERS IN DOMESTIC COMPLEXES: REFER TO PARAGRAPH F BELOW	
3. LIFELINE : PREPAID	
Subject to any additional charges contained in all PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers with a main circuit-breaker size of not more than 20 amperes in the case of a single-phase connection, where a life-line connection has been taken that is metered by a prepaid meter.	
(i) A residential unit (ii) A flat	
For all kWh purchased per calendar month, per kWh	
(i) The first 100 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	121,96
(ii) 101 - 400 kWh, per kWh inclusive of 5.5 /kWh environmental levy:	138,96
(iii) 401 - 650 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	152,13
(iv) >650 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	162,06
4. AGRICULTURAL HOLDINGS AND FARM LAND: CONVENTIONAL OR PREPAID	
Subject to any additional charges contained in PART II of the tariff and excluding premises falling under group (x) of the Domestic Single- and Three-phase: Conventional or prepaid, lifeline: Prepaid or under the Low voltage Three-phase Demand Scale, this scale will apply to premises situated outside legally established townships within or outside the municipal boundaries, and to which electricity is supplied or made available at low voltage, with a main circuit-breaker size of not more than 80 amperes per phase in the case of a single-phase or three-phase connection.	
For a connection with a conventional meter the following charges will be payable per month or part of a month:	
An energy charge for each kWh consumed since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	147,60c
For a connection with a prepaid meter , the following charges will be payable per calendar month or part of a month.	
An energy for each kWh inclusive of 5.5 c/kWh environmental levy	147,60c
B NON DOMESTIC/BUSINESS TARIFFS SCALES	
In accordance with policy positions 43 of the Electricity Pricing Policy No. 1398-	
(1) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.	

	With effect from 1 July 2015 to 30 June 2016
In accordance to the Electricity Regulations Act, 2006 (Act 4 of 2006) the power and duties of the licensee are-	
(2) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and conditions of a service, except for objectively justifiable and identifiable differences approved by Regulator.	
5. NON-DOMESTIC SINGLE-PHASE: CONVENTIONAL	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers, with a main circuit breaker size of not more than 80 amperes in the case of a single-phase connection:	
(i) A shop, store or business (ii) An office block (iii) A hotel licensed under the Liquor Act (iv) A bar (v) A cafe, tearoom or restaurant (vi) A combined shop and tearoom (vii) A public hall (viii) A club licensed under the Liquor Act (ix) An industrial, manufacturing concern or service industry (x) An educational institution, excluding a hostel, if metered separately (xi) A building or section of a building comprising a number of the above classes (xii) All consumers not defined under other scales of the tariff	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R775,00
(ii) More than 60 amperes but not more than 80 amperes:	R1 016,00
NOTES	
For the purpose of this item "circuit breaker" means a double-pole circuit breaker or a neutral switch/circuit breaker combination.	
(b) Energy charge which include the environmental levy of 5,5 c/kWh	128,27c
6. NON-DOMESTIC SINGLE-PHASE: PREPAID	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 80 amperes in the case of a single-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale	

	With effect from 1 July 2015 to 30 June 2016
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R738,00
(ii) More than 60 amperes but not more than 80 amperes	R986,00
(b) Energy charge	
An energy charge which include the environmental levy of 5.5c/kWh for all kWh purchased, per kWh	127,74c
NOTES	
(i) For the purpose of this item "circuit breaker" means a double-pole circuit breaker or neutral switch/circuit breaker combination.	
(ii) Fixed charges are payable monthly in advance and will be recovered by the pre-paid vending system. These charges will be allocated to the appropriate account and energy units allocated for the balance of the purchase amount. Should a customer refrain from purchasing energy in any calendar month, the total fixed amount for the inactive purchase months plus the charge for the current month will be automatically recovered before any energy units will be allocated by the vending system	
7. NON-DOMESTIC THREE-PHASE: CONVENTIONAL	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 150 amperes per phase in the case of an existing three-phase connection (new connections see NOTES below), to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale.	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R2 359,00
(ii) More than 60 amperes but not more than 80 amperes	R3 605,00
(iii) More than 80 amperes but not more than 100 amperes	R5 043,00
(iv) More than 100 amperes but not more than 125 amperes	R6 335,00

	With effect from 1 July 2015 to 30 June 2016
(v) More than 125 amperes but not more than 150 amperes	R7 702,00
(b) Energy charge which include the environmental levy of 5,5 c/kWh, for all kWh consumed since the previous meter reading, per kWh	128,27c
NOTES	
(i) For the purpose of this item, "circuit breaker" means a triple-pole circuit breaker.	
(ii) Since 1 July 2008 no new non-domestic three phase straight connections above 100A are available. These connections are treated as Low voltage demand connections.	
8. NON-DOMESTIC THREE-PHASE: PREPAID	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more 80 amperes per phase in the case of a three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single Phase: Conventional scale.	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale.	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R2 238,00
(ii) More than 60 amperes but not more 80 amperes	R3 387,00
(b) Energy charge which include the environmental levy of 5,5 c/kWh, an energy charge for all kWh purchased, per kWh	127,74c
NOTES	
(i) For the purpose of this item "circuit breaker" means a triple-pole circuit breaker.	
(ii) Fixed charges are payable monthly in advance and will be recovered by the pre-paid vending system. These charges will be allocated to the appropriate account and energy units allocated for the balance of the purchase amount. Should a customer refrain from purchasing energy in any calendar month the total fixed amount for the inactive purchase months plus the charge for the next month in advance will be automatically recovered before any energy units will be allocated by the vending system.	

	With effect from 1 July 2015 to 30 June 2016
C. BULK BUSINESS/NON DOMESTIC DEMAND SCALES	
Subject to any additional charges contained in Part II of the tariffs, this scale will apply to the premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA.	
9. LOW VOLTAGE THREE-PHASE DEMAND SCALE	
Subject to any additional charges contained in PART II of the tariff, this scale will apply to the premises situated within and outside the municipal boundaries for the electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA-implying installed breaker of greater than 70 A three-phase, but limited to a maximum of 800 A – to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale and the groups of domestic consumers with a main circuit-breaker size of more than 80 amperes per phase listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection-in the preamble to the Domestic Scale: Single and Three phase. In the event where the actual average annual demand is below 50 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff upon downgrading to the applicable breaker.	
The following charges will be payable per month or part of a month:	
	R2 004,00
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point:	
(b) A demand charge per kVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R140,00
(i) The prevailing tariff multiplied by 60% of the highest demand recorded on the meter during the preceding twelve months, and	
(ii) The prevailing tariff multiplied by 60% of the minimum required demand for the tariff scale, in this instance 50 kVA, thus 60% of 50 = 30 kVA.	
Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where available. Consumers with meters that do not store meter history will be charged at 60% of the highest demand recorded during the preceding twelve months.	
(c) An energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed since the previous meter reading, per kWh	89,27c
10. LOW VOLTAGE THREE-PHASE DEMAND SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA and load shifting to defined time periods can be arranged, to the groups of consumers listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection in the preamble to the Non-domestic Single-phase: Conventional Scale. In the event where the actual average annual demand is below 50 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.	

	With effect from 1 July 2015 to 30 June 2016
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 995,00
(b) A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R140,00
(c) Active energy charge which include the environmental levy of 5,5c/kWh for all kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September - May)	280,00c 115,14c
(d) An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season(September - May)	107,30c 72,50c
(e) An active energy charge which include the environmental levy of 5,5 c/kWh, for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	61,50c 51,25c
NOTES	
(i) The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.	
(ii) The Executive Director: Energy and Electricity may determine to impose a conversation surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversation.	
(iii) The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this tariff scale.	
1. 11 kV SUPPLY SCALE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V.	
Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average metered load of more than 200 kVA. In the event where the actual average annual demand is below 200 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.	
Due to legislation requiring Time-of-use metering for all bulk consumers, all standard 11 kV connections will be phased out and be replaced with Time-of-use metering. No new standard 11 kV connections will be given.	

	With effect from 1 July 2015 to 30 June 2016
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 713,96
(b) A demand charge per kVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R136,85
(i) The prevailing tariff multiplied by 70% of the highest demand recorded on the meter during the preceding twelve months, and	
(ii) The prevailing tariff multiplied by 70% of the minimum required demand for the tariff scale, in this instance 200 kVA, thus 70% of 200 = 140 kVA. Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where that do not store meter history will be charged at 70% of the highest demand recorded during the preceding twelve months.	
(c) An energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed since the previous meter reading, per kWh	85,58c
Provided that in the case of a consumer who is not supplied with Electricity under the Off-peak Supply Scale, the said Energy charge will be reduced, if the average daily consumption in any month is equal to or greater than 13 kWh per kVA of the maximum demand in that month, to	84,58c
12. 11 kV SUPPLY SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V and load shifting to defined time periods can be arranged.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 724,00
(b) A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R139,80
(c) Active energy charge which include the environmental levy of 5,5 c/kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September – May)	281,00c 107,20c
(d) An active energy charge which includes the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	101,80c 66,20c
(e) An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	54,10c 46,67c

	With effect from 1 July 2015 to 30 June 2016
NOTES	
(i) The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.	
(ii) The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.	
(iii) The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this tariff scale.	
13. 11 kV SUPPLY SCALE: MADIBENG	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to the Local Municipality of Madibeng: Hartbeespoort Administrative Unit as per the current agreement.	
The following charges will be payable per month or part of a month:	
(a) The amount calculated as per the agreement, based on the current Eskom tariff that may be applicable to the Municipality for the specific in-feed point relating to the area and/or the agreement.	
(b) A surcharge of 5% on the sum of the net amount calculated in terms of sub-item (a)	
D INDUSTRIAL SCALES	
14. 132 kV SUPPLY SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises within or outside the municipal boundaries where electrical power is Supplied at 132 000 V.	
Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average annual metered load of more than 10 000 kVA or more. In the event where the actual average annual demand is below 10 000 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge whether or not electricity is consumed, per metering point	R1 445,00
(b) A demand charge of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays per kVA.	R93,00

	With effect from 1 July 2015 to 30 June 2016
(c) An energy charge which includes the environmental levy of 5,5 c/kWh for all kWh consumed during peak periods since the previous meter reading, per kWh.	
High demand season (June - August)	278,00c
Low demand season (September - May)	102,20c
(d) An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since the precious meter reading, per kWh	
High demand season (June - August)	95,20c
Low demand season (September - May)	62,80c
(e) An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during off-peak periods since the previous meter reading, per kWh	
High demand season (June - August)	51,80c
Low demand season (September - May)	44,40c
NOTES	
(i) The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G).	
(ii) The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.	
15. 132 kV SUPPLY SCALE: WIND TUNNEL	
Subject to any additional charges contained in PART II of the Tariff, the Executive Director: Energy and Electricity retains the right to determine at his discretion, by agreement, the following charges as far as power consumption by the CSIR's Medium Speed Wind Tunnel outside the peak time of Eskom's applicable approved bulk time of use tariff, is concerned:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 445,00
(b) An energy charge which include the environmental levy of 5,5c/kWh for all kWh consumed since the previous meter reading, per kWh	218,06c
Should the Wind tunnel's maximum demand contribute to the Municipality's maximum demand, the tariff will revert to as per the agreement	
16. 275 kV SUPPLY SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises within or outside the municipal boundaries where electrical power is supplied at 275 kV.	
Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average metered load of 30 000 kVA or more. In the event where the actual average annual demand is below 30 000 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.	

	With effect from 1 July 2015 to 30 June 2016
The following charges will be payable per month or part of a month:	
(a) The current Eskom Megaflex tariff, excluding the monthly rental that may be applicable to the Municipality.	
(b) A surcharge of 3% on the sum of the net amount calculated in terms of sub-item (a)	
17. OFF-PEAK SUPPLY SCALE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries.	
The following provisions will be applicable to a supply of electricity supplied or made available during the off-peak periods during the periods as determined by the Executive Director: Energy and Electricity, to premises receiving a standard supply under either the 132 kV Supply scale or the 11 kV Supply Scale or the Low voltage Three-phase Demand Scale provided that the consumer applies in writing for such off-peak supply which will be subject to the following restrictions:	
(i) The consumer's electrical installation will be arranged in such a way that the off-peak supply can only be used during the times set out in this preamble.	
(ii) The consumer will accept the limitation of such a supply to the capacity of the existing mains and equipment, or, in the case of a new or increased supply, to the capacity of the mains and equipment provided by the municipality, by mutual agreement between the Municipality and the consumer, and any other limitations with regard to the maximum demand or nature of the load which the Executive Director: Energy and Electricity may impose.	
(iii) The consumer will compensate the municipality for the provision and installation of the necessary measuring equipment.	
Should the application be approved by the Executive Director: Energy and Electricity, and the off-peak supply be provided or made available, the following charges will be payable:	
(a) A demand charge at 0% per month of the tariff per kVA determined in terms of the tariff scale under which the standard supply is provided to the premises, applied to the value by which the half-hourly maximum demand during the off-peak period exceeds the half-hourly maximum demand applicable to the standard supply.	
(b) An energy charge for all kWh consumed during the off-peak period since the previous meter reading at the tariff per kWh, determined in terms of the tariff scale under which the standard supply is made available to the premises.	
DEFINED ON-OFF PEAK PERIODS (as determined by the Executive Director: Energy and Electricity)	
Peak	Weekdays 06:00 - 22:00
Off-peak	Monday to Thursday 22:00 - 06:00 Friday & Weekends Friday 20:00 - 06:00 Monday

	With effect from 1 July 2015 to 30 June 2016
NOTE	
In the event of abnormal circumstances, load demand and combinations of premises, the Municipality may provide one supply point at a specific voltage to the premises, and the appropriate scale of the Tariff relating to specific voltage will then be applicable to such premise.	
18. GREEN TARIFF	
Subject to the availability of green energy, and subject to any additional changes contained in PART II of the Tariff, a green tariff scale based on the time-of-use tariff scales of the City of Tshwane will be available to consumers that qualify for Time-of-use scales and will apply to premises situated within or outside the municipal boundaries.	
The following charges will be payable per month or part of a month in respect of the 11 kV time of use Green tariff supply scale:	
(i) The current Tshwane time-of-use tariff scale for the appropriate supply, and	
(ii) A surcharge as determined from time-to-time by the Executive Director: Energy and Electricity based on the purchase cost of green electricity and the Draft Market Rules for voluntary green power trading as compiled by the Department of Mineral and Energy affairs.	
19. WHEELING TARIFF	
Currently the City of Tshwane does not have any tariff structure on wheeling electricity through its network. The Energy and Electricity Division together with the Sustainability Department are working on the wheeling tariff structure, and once it is finalised, it will be submitted to Council for approval.	
ELECTRICITY RESELLERS	
ELECTRICITY RESELLER DEFINITION	
A reseller is defined by the Energy Regulator (NERSA) as a non-licensed trader of electricity (a person, corporation or organisation), that supplies electricity to dwellings in high density housing complex; residential flat building, residential gated sectional title units and/or free stands in a complex, shopping mall or shopping complex, commercial building (including offices) and has the ability to meter its customers and provide a bill clearly stating the kilowatt hours consumed, the tariff per kilowatt hour and the total amount charged.	
In case of the City of Tshwane the above definition of a reseller will apply and therefore the following tariffs will apply to all resellers for both domestic and commercial.	
E RESELLERS' PURCHASE TARIFFS AT BULK POINTS	
20. DOMESTIC COMPLEXES	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to domestic complexes and gated domestic communities situated within legally established townships (unless explicitly otherwise determined by the Executive Director: Energy and Electricity) within and outside the municipal boundaries where electricity is supplied in bulk via a single connection at low voltage or medium voltage, to the following classes of consumers:	

	With effect from 1 July 2015 to 30 June 2016
A Body Corporate or the authorised reselling agent of a bulk residential complex that purchases electricity only for resale to residential dwelling-units on the same premises at the prescribed domestic tariffs of the Municipality and where such consumption is determined by means of conventional or pre-paid sub-meters. Residential complexes include blocks of flats, including separate units in terms of the Sectional Titles Act, 1971 (Act 66 of 1971), and the Sectional Titles Act, 1986 (Act 95 of 1986), but exclude premises with only a second dwelling-unit.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 000.00
(b) For all kWh consumed since the previous meter reading, per kWh inclusive of 5,5 c/kWh environmental levy the following tariffs shall apply:	121.96c
21. NON-DOMESTIC / BUSINESS COMPLEXES:	
In accordance with Policy Position 43 of the Electricity Pricing Policy No. 1398 -	
(1) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.	
In accordance to the Electricity Regulation Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -	
(2) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and identifiable differences approved by the Regulator.	
Resellers must charge the municipal approved rates only. A penalty fee will be applied to resellers who do not comply.	
21.1 NON-DOMESTIC SINGLE-PHASE: CONVENTIONAL	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the groups of consumers listed in paragraph 5 in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale above, with a main circuit breaker size of not more than 80 amperes in the case of a single-phase connection:	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R775,00
(ii) More than 60 amperes but not more than 80 amperes:	R1 016,00
(b) Energy charge which include the environmental levy of 5.5 c/kWh	121,96c

	With effect from 1 July 2015 to 30 June 2016
21.2 NON-DOMESTIC SINGLE-PHASE: PREPAID	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 80 amperes in the case of a single-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R738,00
(ii) More than 60 amperes but not more than 80 amperes	R986,00
(b) Energy charge	
An energy charge which include the environmental levy of 5,5 c/kWh for all kWh purchased, per kWh	121,96c
21.3 NON-DOMESTIC THREE-PHASE: CONVENTIONAL	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 150 amperes per phase in the case of an existing three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale.	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R2 359,00
(ii) More than 60 amperes but not more than 80 amperes	R3 605,00
(iii) More than 80 amperes but not more than 100 amperes	R5 043,00
(iv) More than 100 amperes but not more than 125 amperes	R6 335,00
(v) More than 125 amperes but not more than 150 amperes	R7 702,00
(b) Energy charge which include the environmental levy of 5.5 c/kWh, for all kWh consumed since the previous meter reading, per KWh	121,96c

	With effect from 1 July 2015 to 30 June 2016
21.4 NON-DOMESTIC THREE-PHASE: PREPAID	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more 80 amperes per phase in the case of a three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single Phase: Conventional scale.	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale.	
Where the rating of the circuit breaker is:	
(i) 60 amperes or less	R2 238,00
(ii) More than 60 amperes but not more 80 amperes	R3 387,00
(b) Energy charge which include the environmental levy of 5.5c/kWh, an energy charge for all kWh purchased, per kWh	121,96c
21.5 LOW VOLTAGE THREE-PHASE DEMAND SCALE	
Subject to any additional charges contained in PART II of the tariff, this scale will apply to the premises situated within and outside the municipal boundaries for the electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA-implying installed breaker of greater than 70 A three phase, but limited to a maximum of 800 A – to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale and the groups of domestic consumers with a main circuit-breaker size of more than 80 amperes per phase listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection - in the preamble to the Domestic Scale: Single and Three-phase.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R7 000,00
(b) A demand charge per kVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R134,00
(i) The prevailing tariff multiplied by 60% of the highest demand recorded on the meter during the preceding twelve months, and	
(ii) The prevailing tariff multiplied by 60% of the minimum required demand for the tariff scale, in this instance 50 kVA, thus 60% of 50 = 30 kVA where the metered period exceeds the normal 1 month (approximately 30 days)	

	With effect from 1 July 2015 to 30 June 2016
Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where available. Consumers with meters that do not store meter history will be charged at 60% of the highest demand recorded during the preceding twelve months.	
(c) An energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed since the previous meter reading, per kWh	87,70c
21.6 LOW VOLTAGE THREE-PHASE DEMAND SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA and load shifting to defined time periods can be arranged, to the groups of consumers listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection - in the preamble to the Non-domestic Single-phase: Conventional Scale.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R7 000,00
(b) A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R134,00
(c) Active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September - May)	280,00c 115,14c
(d) An active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season(September - May)	107,30c 70,56c
(e) An active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	57,68c 49,50c
NOTE	
The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.	
21.7 11 kV SUPPLY SCALE	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V. This scale will only be available for premises with an average metered load of more than 200 kVA.	

	With effect from 1 July 2015 to 30 June 2016
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R10 000,00
(b) A demand charge per kVA of half-hourly maximum demand:	R133,30
Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	
(i) The prevailing tariff multiplied by 70% of the highest demand recorded on the meter during the preceding twelve months, and	
(ii) The prevailing tariff multiplied by 70% of the minimum required demand for the tariff scale, in this instance 200 kVA, thus 70% of 200 = 140 kVA	
Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand.	
(a) An energy charge which include the environmental levy of 5.5c/kWh for all kWh consumed since the previous meter reading, per kWh	83,35c
(b) Provided that in the case of a consumer who is not supplied with Electricity under the Off-peak Supply Scale, the said Energy charge will be reduced, if the average daily consumption in any month is equal to or greater than 13 kWh per kVA of the maximum demand in that month, to	82,85c
21.8 11 kV SUPPLY SCALE: TIME OF USE	
Subject to any additional charges contained in PART II of the tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V and load shifting to defined time periods can be arranged.	
The following charges will be payable per month or part of a month:	
(a) A fixed monthly charge, whether or not electricity is consumed, per metering point	R10 000,00
(b) A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R133,30
(c) Active energy charge which include the environmental levy of 5.5 c/kWh consumed during peak periods since the previous meter reading, per kWh, in High demand season (June - August) Low demand season (September – May)	281,00c 104,50c
(d) An active energy charge which includes the environmental levy of 5.5 c/kWh for all kWh consumed in standard periods since previous meter reading, per kWh. High demand season (June - August) Low demand season (September - May)	97,44c 64,18c

	With effect from 1 July 2015 to 30 June 2016
(e) An active energy charge which includes the environmental levy of 5.5 c/kWh for all kWh consumed in Off-peak periods since previous meter reading, per kWh.	
High demand season (June - August)	52.19c
Low demand season (September - May)	45.02c
F RESELLING TARIFFS TO END USERS	
In accordance to the Electricity Regulations Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -	
A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and conditions of a service, except for objectively justifiable and identifiable differences approved by Regulator.	
22.1 DOMESTIC COMPLEXES	
In accordance with Policy Position 43 of the Electricity Pricing Policy No. 1398 -	
(a) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.	
In accordance to the Electricity Regulation Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -	
(b) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and identifiable differences approved by the Regulator. The following inclining block tariffs are applicable to the reselling of electricity beyond domestic bulk metering point. For all kWh consumed per metering period or prepaid units purchased per calendar month, per kWh inclusive of 5,5 c/kWh environmental levy:	
(i) 1-100 kWh	121,96c
(ii) 101-400 kWh	141,70c
(iii) 401-650 kWh	154,60c
(iv) >650 kWh	165,20c
The reseller cannot charge another fee as this fee is inclusive of the meter reading and fixed charge to individually metered consumers.	
NOTES	
Resellers are not allowed to implement the time of use tariffs scale yet.	

	With effect from 1 July 2015 to 30 June 2016
Resellers found guilty of charging above the approved tariffs shall be guilty of contravention of the bylaws and NERSA regulations, and a fine of R1 000 000 will be levied against the Reseller/Company/ Director irrespective of the amount charged above allowed tariffs.	R1 000 000
22.2 BUSINESS / NON-DOMESTIC SINGLE-PHASE: CONVENTIONAL/ PREPAID	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 20 amperes or less	R300,00
(ii) More than 20 amperes but not more than 40 amperes	R500,00
(iii) More than 40 amperes but not more than 60 amperes	R700,00
(iv) More than 60 amperes but not more than 80 amperes	R1 000,00
(b) Energy charge which include the environmental levy of 5.5 c/kWh	135.20c
22.3 BUSINESS / NON-DOMESTIC THREE-PHASE: CONVENTIONAL/PREPAID	
(a) Fixed monthly charge	
An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
Where the rating of the circuit breaker is:	
(i) 20 amperes or less	R750,00
(ii) More than 20 amperes but not more than 40 amperes	R1 500,00
(iii) More than 40 amperes but not more than 60 amperes	R2 100,00
(iv) More than 60 amperes but not more than 80 amperes	R3 100,00
(v) More than 80 amperes but not more than 100 amperes	R3 700,00
(vi) More than 100 amperes but not more than 125 amperes	R4 600,00
(vii) More than 125 amperes but not more than 150 amperes	R5 500,00
(b) Energy charge which include the environmental levy of 5.5 c/kWh	135,20c

			With effect from 1 July 2015 to 30 June 2016
BULK DEMAND BUSINESS SCALES RESELLING TARIFFS

IMPORTANT

Information

from Government Printing Works

Dear Valued Customers,

Government Printing Works has implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submits your notice request.

Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.
