- (2) These regulations regulate the exercising by municipalities of their executive powers to grant permission for advertisements in visual zones as contemplated in section 44(2) and (4) of the Act.
- (3) Application must be made to the responsible municipality for permission to display advertisements in visual zones as specified in these regulations.
- (4) These regulations apply on all provincial roads, and—
 - (a) do not apply on national or municipal roads, and
 - (b) apply despite any contrary provisions in applicable municipal by-laws, but municipalities may apply procedures set out in their by-laws for the process of evaluating applications for permission to display advertisements in visual zones.
- (5) These regulations do not apply to areas outside of visual zones, except in the case of aerial advertisements.

3. Areas in relation to categories of advertisements

- (1) For the purpose of regulating advertisements in visual zones, the MEC must classify areas in which provincial roads are situated in accordance with the categories contemplated in section 44(4)(a) of the Act and described in regulation 4, after consultation with relevant municipalities, by notice in the *Provincial Gazette*.
- (2) For the purpose of determining the nature, content and size of advertisements, they are divided into the categories contemplated in regulations 15 to 35.
- (3) The advertisements which may be displayed in visual zones in the various

categories as regulated in regulations 15 to 35, are subject to the general provisions in Part B.

- (4) The definitions in regulation 1 relating to areas of control that are pertinent to the classification to be done under sub-regulation (1) apply despite any by-laws defining or contemplating different areas or categories.

 - (iii) urban areas of minimum control.
- (2) Where a provincial road falls within an area which has not been designated into a particular category under sub-regulation (1), the area in which it falls is deemed to be an area of maximum control.
- (3) The MEC must make details of a designation under sub-regulation (1), once available, with appropriate maps or diagrams, available for inspection by the public at one or more of the Department's offices during the Department's office hours, and electronically on a website designated by the Department, and provide details of such availability in the notice contemplated in sub-regulation (1).
- (4) The maps and diagrams mentioned in sub-regulation (3) must also indicate which provincial roads in the Province have been designated as freeways.
- (5) The MEC may amend any designation made under this regulation from time to time after consultation with the relevant municipalities by notice in the *Provincial Gazette*.

- (4) Where an advertisement consists wholly or partly of a structure or other object contemplated in section 46(1)(a) of the Act which is—
 - (a) in a visual zone;
 - (b) outside the road reserve of a provincial road, and
 - (c) within a building restriction area,

the person intending to erect it must obtain the written permission of the MEC to do so as required by section 46 of the Act, where such permission is required by that section, and must make application for such permission simultaneously with the application to the responsible municipality for permission to display the advertisement.

- (5) Advertisements displayed in visual zones need not be referred to the MEC for comments where they are displayed—
 - (a) on a building outside the road reserve in which a business or undertaking is carried on and contains no more than the name of the business or undertaking or description of its nature and the name of the proprietor, or
 - (b) on a vehicle, machine or implement as long as the main purpose for which the vehicle, machine or implement is used is not the displaying of the advertisement and the advertisement does not involve animation or a variable advertisement.
- (6) The MEC, in providing such comments, must consider the criteria set out in regulation 6 regarding road safety and road traffic regulation, but may also comment on any other aspect contemplated in these Regulations for consideration by the municipality.

- (7) The municipality must take account of any comments provided by the MEC under sub-regulation (3) and must apply the relevant provisions of these regulations, despite any by-laws to the contrary.
- (8) An application in terms of sub-regulation (2) must be signed by the owner of the advertising structure or device upon which the advertisement will be displayed and, in the case of an advertising structure, be accompanied by the written consent of the owner of the land on which the advertisement will be erected or displayed, or by the agent of such persons authorised in writing.

- (11) The municipality may refuse an application if granting the permission would be in conflict with a strategic environmental management plan or land use scheme of the municipality.
- (12) The municipality may grant permission subject to conditions, which must be complied with by the owner of the advertisement, the owner of the advertising structure, the person or persons who erect or display it, the owner of the land on which it is erected and any occupier or other person in charge of such land, and such conditions may provide for the payment of an annual inspection fee.
- (13) Where a municipality has granted permission for the erection or display of an advertisement in a visual zone—
 - (a) the advertisement may not be moved or re-erected nor may any alteration be made to the electric wiring system thereof, except for the purpose of renovation or maintenance, without first obtaining the further written

permission of the municipality, which must refer the application for such permission to the MEC for comments, and for permission under section 46 of the Act where applicable, before granting permission, and

- (b) the image of the advertisement may be changed provided that the new image complies with Part B of these regulations and the relevant provisions of Part C thereof.
- (14) Any permission granted in terms of this regulation must be valid for a specified period, which may not be longer than five years, except in the case of service facility advertisements and on-premises business advertisements, where permission may be granted for an indefinite period as long as the business to which the advertisement relates is still situated on the relevant premises.
- (15) Despite sub-regulation (14), permission for an advertisement will lapse where the owner of the land on which the advertisement is situated has withdrawn his, her or its consent for the advertisement in writing.
- (16) The municipality must register every advertisement approved by it and allocate to it a registration number, which must be displayed on the advertisement in a clearly visible position by the owner of the advertisement.
- (17) Where permission for an advertisement is about to lapse or the period of the permission is about to expire, application may be made as a new application to display the advertisement in terms of this regulation, either before or after such lapsing or expiry, but once such permission has lapsed or expired the advertisement must be removed and any advertising structure relating thereto must be demolished forthwith, unless the responsible municipality has granted written permission for the advertisement to remain while the new application is being processed.
- (18) Where competing applications have been lodged for advertisements, permission must be granted on a first-come-first-served basis, according to the dates and times on or at which the applications were received.
- (19) The owner of the land on which an advertisement is erected or displayed in terms of permission obtained under this regulation, must retain certified copies of all documentation relating to the application and the permission issued by the municipality for as long as the advertisement is erected or displayed, and must present it to any person authorised by the municipality or MEC or to a traffic officer as defined in the National Road Traffic Act, on request. The owner of the advertisement, if not also the owner of the land on which an advertising structure

is situated, must provide the owner of that land with certified copies of all relevant documentation.

- (20) Where a person fails to comply with sub-regulation (19), it shall be deemed that the relevant permission was not granted, unless the person proves the contrary.
- (21) Permission granted in terms of the Act or these regulations is additional to, and not in substitution of, permission, consent or approval required by any other law.
- (22) Where an application is made in terms of these regulations for the erection or display of an advertisement, in the absence of other specific criteria provided, the municipality must consider, in addition to any factors specified in its by-laws, where applicable in each case—
 - (a) the matters set out in these regulations, road safety considerations being the most important and overriding factor;
 - (b) environmental considerations, which must include aesthetic, ecological and traffic safety aspects;
 - (c) the visual content of the advertisement, with regard to letter sizes and length of messages, colours, impact and other relevant factors;
 - (d) whether the advertisement complies with the Act and these regulations and with any requirements and standards of the municipality or Department, and
 - (e) requirements and guidelines if any published by the South African Advertising Standards Authority or similar regulatory bodies established by the advertising industry.
- (23) The municipality may withdraw any permission given under this regulation where—
 - (a) the relevant advertisement does not comply or ceases to comply with the Act or these regulations;
 - (b) a condition imposed in such permission has not been complied with, or
 - (c) the relevant provincial road has been reconstructed.
- (24) A notice contemplated in section 44(5) of the Act must be in writing and delivered to the person to whom it has been addressed by hand or by electronic mail, and in the case of electronic mail shall be deemed to have been received by the recipient on the day of transmission of the electronic mail, provided that the Department provides proof of transmission.
