Declaration of prohibited or restricted routes

- 67(1) The Municipality may declare one or more prohibited routes or areas, or restricted routes or areas, on or in which the operation of specified types of public transport services or public transport vehicles shall be prohibited or restricted, by notice in the *Gazette*.

-
- (2) The routes and areas contemplated in subsection (1) may be established and demarcated for the exclusive use of public transport vehicles, or services of specified types, or operators who belong to a particular association or operate a specific type of service or vehicle, or in terms of other service related restrictions that may be imposed on a specified route in terms of service frequencies, loading or off-loading activities, or staging or holding activities or operations, either all day or during specified times of the day.
 - (3) Before declaring such a route or area as contemplated in subsection (1), the Municipality shall consult with the community and associations to which operators that will be affected by the declaration belong, in the case where a substantial number of such operators belong to an association.
 - (4) Before declaring such a route or area, the Municipality must give notice of its intention to do so by –

 - (5) The Municipality shall consider all comments received and then take a decision whether to proceed with the declaration of the route or area.
 - (6) The Municipality shall –
 - (a) keep a list of all prohibited or restricted public routes and areas within the municipal area, showing their location on maps or diagrams;
 - (b) make the list available on request to interested parties at the prescribed fee; and
 - (c) table the list before Council, at least annually.
 - (7) The identified prohibited or restricted route or area may only be used in terms of and subject to conditions imposed by the Municipality when issuing the route permit, as contemplated in section 68 of this By-Law.

- (8) A route permit is required to operate on or in a restricted or prohibited route or area, in addition to any operating licence or permit required under section 51(1) of the Act, and any rank permit issued in terms of section 16(1) of this By-Law.
- (9) Each prohibited or restricted route and area may be distinguished by the appropriate road traffic signs to indicate the type of public transport vehicles permitted to use that route or area.
- (10) Such routes or areas depicted in this section may be declared on private land if the Municipality has concluded an agreement to such effect with the owner of that private land.
- (11) The powers in this section are in addition to and not in substitution of those contemplated in section 65bis and 66 of the Local Government Ordinance 17 of 1939.

Application for route permit on a prohibited or restricted route

- 68(1)** No person may provide or operate public transport services on a prohibited or restricted route, or in a prohibited or restricted area –
- (a) without holding a route permit issued by the Municipality, unless exempted from doing so in the notice contemplated in section 67(1) of this By-Law, or
 - (b) in contravention of the applicable prohibitions or restrictions specified in the notice contemplated in section 67(1) of this By-Law.
- (2) An operator must apply to the Municipality for a route permit on a prohibited or restricted route by following the steps and procedures set out in section 70 of this By-Law.

- (e) the operations or services, or proposed operations or services, would be in contravention of the prohibitions or restrictions specified in the notice contemplated in section 67(1).
- (2) In addition to the criteria mentioned in subsection (1), the Municipality shall also consider the following in deciding whether to grant or refuse an application for a route permit:

 - (8) Subject to section 74 of the Act on temporary replacement of vehicles, a route permit is valid only for the vehicle in respect of which it was issued.

Renewal of a route permit

- 71(1)** The holder of a route permit shall apply for its renewal not later than fourteen (14) days before the permit expires, failing which the permit will expire, but the holder shall then not be precluded from applying for a new permit.

- (2) The Municipality may refuse an application for renewal of a route permit for reasons contemplated in section 69(1) and shall consider the criteria set out in section 69(2).

Transfer of a route permit on a prohibited or restricted route

- 72(1)** Except as provided for in this By-Law, a route permit is not transferable to another person.

the information on the decal is clearly legible to any person standing on the left front side of the vehicle;

- (b) where the vehicle is fitted with a tinted or smoked glass windscreen, display the decal in a watertight holder in a conspicuous place on the outside left-hand front of the windscreen in such a way that the information on the decal is clearly legible to any person standing on the left front side of the vehicle; and
 - (c) ensure that the decal is always kept displayed while the vehicle is operated in the municipal area for public transport services.

Duplicate route permit or decal

- 74(1) Where a route permit or decal has been lost, destroyed, or damaged to the extent that the information thereon is no longer legible, the holder of the permit shall, on the approved form, apply to the Municipality for a duplicate, and the application must be accompanied by an affidavit describing the reasons for the loss, destruction, or damage of the permit or decal.
- (2) If the Municipality is satisfied that the lost, destroyed, or damaged permit was valid and, in the case of the decal, that it relates to a valid permit, the Municipality shall on receipt of the prescribed fee, issue a duplicate permit or decal, clearly marked as a duplicate.
- (3) Where a duplicate decal is issued, the holder shall immediately on receipt, affix it to the windscreen of the vehicle in the manner contemplated in section 73(2) of this By-Law.

Amendment of details on route permit

- 75(1) Where the holder of a route permit or decal becomes aware that the information on that permit or decal is incorrect, he or she shall submit the permit or decal to the

Municipality for amendment within ten (10) days of this coming to his or her notice, for issuing of a correct permit or decal.

- (2) If the Municipality becomes aware that the information contained in a route permit or decal is incorrect, it may, despite anything to the contrary in this By-Law –
 - (a) notify the holder in writing;
 - (b) where applicable, require the holder to give a satisfactory explanation; and
 - (c) require the holder to return the permit or decal for amendment not later than ten (10) days after the date of the notification.
- (3) A notice referred to in subsection (2)(a) that is sent to the holder by registered post is deemed to have been received by him or her within ten (10) days after posting.
- (4) When a route permit or decal is surrendered for it to be amended or replaced in terms of this section, the Municipality shall provide the holder with a temporary permit or decal, valid until the amended permit or decal is returned to the holder.
- (5) Where a holder fails to submit a permit or decal to the Municipality as required by this section within the required time, the permit concerned will lapse, but the holder may apply to the Municipality for a new permit.

Withdrawal or suspension of route permit

- 76(1)** The Municipality may, subject to subsection (2), suspend a route permit for a period determined by it, or withdraw the permit, if –

 - (3) The Municipality shall consider the reasons provided by the holder before deciding to withdraw or suspend the permit.

- (4) Where the Municipality has acted in terms of subsection (1), it shall report the matter to the Provincial Regulatory Entity.
