1.3 STORMWATER DRAINAGE AND STREET DESIGN

- (a) The township owner shall at the request of the local municipality supply the local municipality with a detailed scheme including plans, cross sections and specifications as compiled by a civil engineer approved by the local municipality for the provision of a underground water drainage system. Such system must be designed in order to dispose off the runoff of a 1:10 year rain storm and must ensure that the runoff of a 1:100 year rain storm be guided to the nearest defined watercourse without flooding any adjacent properties. The design of the drainge system must contain and describe aspects like tar macadamization, kerbing and canalization of roads as well as the provision of retaining walls if required by the local municipality.

The drainage system must, where necessary, make provision for the catchment of stormwater in catchment pits from where it must be disposed of in water tight pipes in such a way that no water collections or seepage shall occur on or near the ground surface. The mentioned water pipes must be manufactured from durable material and must be approved by the local municipality. The scheme must also indicate the route and gradient of access to each individual erf from the adjoining street.

- (b) The township owner must construct roads according to the approved scheme at own costs and to the satisfaction of the local municipality, under the supervision of a civil engineer approved by the local municipality.

- (c) The township owner must provide access to the proposed township to the satisfaction of the Gauteng Department of Public Transport, Roads and Works and the local municipality.
- (d) The township owner must make a proportional contribution, as determined by the local government, towards the upgrading of the access road to the proposed township, as well as the upgrading of the intersection thereof with the N14 Route.
- (e) If the township owner fails to comply with the stipulations of sub clauses (a), (b) and (c) above, the local government will be entitled to do the required construction at the cost of the township owner.
- (f) No internal road or storm water services will be taken over by the *local* municipality at proclamation and a properly established legal entity as referred to in paragraph 2.8 hereunder, shall take over the responsibility for the long term maintenance of the internal roads and surface drainage network.

1.4 SEWERAGE

- (a) The township owner must, at the request of the local municipality, supply all designs, plans, specifications and other required information regarding the proposed sewerage system of the proposed township for scrutiny and approval.
- (b) The sewerage system must be designed by an approved professional engineer according to the specifications and standards laid down by the local municipality, to the satisfaction of the local municipality;
- (c) All materials to be used with the construction of the sewerage system is subject to the approval and/or amendment of the local municipality.
- (d) No internal sewer services will be taken over by the local municipality at proclamation and a properly established legal entity, as required in terms of paragraph 2.8 hereunder, shall take over the responsibility for the long term maintenance of the internal sewer network.

1.5 WATER

- (a) The township owner must, at the request of the local municipality submit a detailed scheme with plans, cross sections and specifications for the provision of a water reticulation system, for approval.
- (b) The proposed network must make provision for a pressurised water connection for each individual erf and must be designed by a professional engineer approved by the local municipality. All materials to be used in the proposed water network must be approved by the local municipality.
- (c) No internal water services will be taken over by the local municipality at proclamation and a properly established legal entity, as required in terms of paragraph 2.8 hereunder, shall take over the responsibility for the long term maintenance of the internal water network.

1.6 ELECTRICITY

- (a) The township owner must submit to the municipality a detailed scheme with plans, specifications and electricity demand for the provision of an internal electricity reticulation network, including link services, connections and mini-substations, for approval.
- (b) The internal electricity distribution network must be designed according to the minimum requirements and specifications of the municipality and the National Energy Regulator and must cater for the specific after-diversity maximum demand required by the municipality.

- (c) The installation of all electricity infrastructure is subject to the inspection and approval of the municipality.
- (d) No internal electricity services will be taken over by the local municipality at proclamation and a properly established legal entity, as described under paragraph 2.8 hereunder shall take over the responsibility for the long term maintenance of the internal electricity network.
- (e) The applicant shall further make a contribution towards the upgrading of the external bulk electricity networks as determined by the local municipality.

1.7 FORMATION OF A BODY CORPORATE

- (a) The applicant/township owner shall legally and properly open a sectional title scheme on the property.
- (b) The Body Corporate shall *ex lege* be responsible for the owning and maintaining of common property comprising of the erven and all internal engineering services in the township.

1.8 REMOVAL OF REFUSE

Where no municipal refuse removal services are available the township owner shall enter into a contract with a suitable alternative services provider to the satisfaction of the local municipality.

The township owner must at own cost remove all rubble, refuse and unused building materials within the township to the satisfaction of the local municipality, if and when required by the local municipality.

1.9 REMOVAL OR REPLACEMENT OF SERVICES

If the establishment of the township results in existing municipal, Eskom, Telkom or any other service to be removed, relocated or replaced the costs of such removal, relocation or replacement must be borne by the township owner.
