8. Restrictions on the erection of buildings within the one-in-fifty-year flood-line

- (1) No building may without the express permission of the Municipality be erected so that the building is at its nearest point to a natural watercourse, nearer to the centre of the natural watercourse than to a line indicating the maximum level likely to be reached every fifty years on average by flood water in the watercourse.
- (2) For the purpose of subsection (1) the Municipality is the sole judge as to the position of the line and of the centre of the natural watercourse.
- (3) For the purpose of this section, a natural watercourse means a topographic land depression that collects and conveys surface stormwater in a definite direction, and includes any clearly defined natural channel that conveys water in a definite course along a bed between visible bank, whether or not the channel's conformation has been changed by artificial means and whether or not the channel is dry during any period of the year, and such channel includes any river, spruit or stream.

8.1. Building Activities that need Approval from the Municipality

General building activity that need approval of the Municipality includes the following:

- Construction of a new building or other structure such as sheds, towers, temporary structures
- Extending existing buildings
- Undertaking alterations to an existing buildings including structural alterations, altering internal walls and partitions
- Installing new or altering existing services such as electrical or hydraulic works
- Installing signs, antennas, some fences

Any proposed use or development on the erf requires the approval of the Municipality. This includes any construction or demolition of a building, carrying out of any internal alterations to an existing building, or the carrying out of works the erf.

The Municipality is responsible for the following in accordance to the Building Regulation By-law:

- Responsible for processing and approving building plans presented by individual, private sector, association and Government Agencies
- Inspect building constructions from time to time and declare the building fit for occupations upon its completion.
- Control unapproved building construction/ connection and prepare reports, issue notices and initiate legal action.
- Issue temporary permits for temporary building applications, work garage buildings, placement of construction materials, erecting tents, film shows and so on.

- Issue compounds for violations such as building stalls, templates and placement of building material within public areas.

Applications will not be assessed until all relevant plans, elevations and supporting information is submitted and the appropriate application fee is paid

The primary responsibility of the Municipality is to assess land use, Zoning and development proposals against the requirements of the Land Use Plan.

Upon receipt of an application the Municipality will first check that the application submission requirements have been met. Once the Municipality is satisfied that the appropriate information has been submitted, a preliminary assessment of the application will be made to ensure that the proposal is broadly consistent with the requirement of the Land Use Plan and Zoning. The application will then be referred to relevant referral authorities.

Where appropriate, the comments/ requirement of referral authorities may be addressed via conditions on the planning permit issued by Municipality

Once authorities have commented upon an application the Municipality will prepare a report and recommendations on the proposal for consideration. Where appropriate this will include additional conditions that address the requirement of authorities.

Subject to Municipality has granted planning, a building approval is required to be obtained from the Municipality. The Municipality is required to make an assessment of the development against the Building Regulations By-Law and any other relevant Legislation. Importantly the Building Regulations By-Law prevents the Municipality officials from issuing any approval which is not consistent with the approved Master Plan.

Any construction of building without any approval of Building Plans will be regarded as contravention and as such the contravention fine will be issued and be billed every month until such illegal activities is being rectified or formalised.

8.3 Exemptions from Requiring Building Approval

There are numerous minor works that may not require formal building approval but will still require a minor work order. Example are:

- Minor painting
- Some minor landscaping works
- Some minor repair and maintenance works
- Works that the Municipality deems to be minor.

Advice is to be sought from the Municipality, who will liaise with the individual as to whether the proposed works are exempt. NO works are to commence until advice, is sought.

8.4 Building Approval Requirements

An application for building approval is required to be lodged with the responsible Municipal official who will forward it with appropriate comment to the Manager Engineering Services. Generally this will require an

application form to be completed, appropriate drawings and or details to be submitted depending on the extent of the works and payment of the application fee which is based on the cost of works. Prior to the building approval being issued, consent for the works must be issued by Municipality.

8.5 Certificates of Occupancy

Before a building may be occupied or used a Certificate of Compliance for Occupancy/ Use is required to be obtained from the Municipality. This allows individual to legally occupy or use the building or works you have just completed.

The municipality can at any time withdraw the Certificate of Occupancy if it was issued in none-compliance.

The zoning of property should be aligned to the submitted approved building plans. The property should be in good standing, including that the rates and taxes should be paid up-to-date before the municipality could issue the Certificate of Occupancy.

The certificate of occupancy will be issued once the following documents are attached / in order

- Electrical Certificate
- Plumbing Certificate
- Glazing Certificate
- Engineer Certificate
- NHBRC Enrolment Certificate
- Lightning Conductor Certificate
- Fire Certificate (Business Only)
- Termite / Pest Control

This Building Regulations By-Law gives authority to the responsible Municipal official to issue on-the-spot fines for building activity undertaken without formal building approval and for new buildings occupied or used without a Certificate of Compliance.

Penalties for Construction of Unapproved Building Plans

It should be noted that heavy penalties exist for non-compliance with the Building Regulations By-Law.

8.8 Construction of shanks on Proclaimed Areas and Procedure relating to the termination of Unauthorised Informal Settlements

(1) As soon as a determination of the status of an unauthorised informal settlement has been made and within a reasonable period, the municipality must, personally or through a subordinate official designated by him or her for that purpose, visit the informal settlement and notify the residents of the status of the unauthorised informal settlement by means of written notice hand-delivered to each shack in the informal settlement.

(2) The written notice contemplated in subsection (1) must –

(a) Notify the residents of a shack in unauthorised informal settlement that their occupation of the shack and the site or stand on which it is situated is illegal; and

(b) Request the residents of a shack to vacate the shack and remove any building material and other personal property from the unauthorised informal settlement within 24 hours after receipt of the written notice.

(3) If the residents notified in terms of subsection (1) cooperate and vacate their shacks and remove their building materials and other personal property from the site or stand in the unauthorised informal settlement, the Manager Engineering Services must take such steps as he or she may deem appropriate to prevent a recurrence of any incident of land invasion or illegal land occupation on that site, stand or unauthorised informal settlement and regularly monitor the situation to ensure the non-recurrence of such land invasion or illegal land occupation.

(4) If the residents notified in terms of subsection (1) fail to cooperate and vacate their shacks and remove their building materials and other personal property from site or stand in the unauthorised informal settlement, the Manager Engineering Services must immediately institute the necessary legal procedure to obtain an eviction order contemplated in subsection (5).

(5) Within a period of 24 hours after the expiry of the period stipulated in the written notice contemplated in subsection (1), the Manager: Informal Settlement must lodge an application in a competent court to obtain an eviction order contemplated in section 4, 5 or 6 of the Prevention of Illegal Eviction from and Unlawful Occupation of Land Act, 1998 (Act 19 of 1998), against any person or persons, jointly or severally, occupying or residing in a shack or on a site or stand in the unauthorised informal settlement.

(6) The Manager Engineering Services must, within a period of 24 hours after obtaining the eviction order referred to in subsection (5), deploy the Land Invasion Reaction Unit to execute the eviction order and to terminate the unauthorised informal settlement by –

(a) Evicting the residents of the unauthorised informal settlement;

(b) Demolishing and removing all shacks and removing all building materials and other personal property from the unauthorised informal settlement; and

(c) Disposing of the building materials and other personal property in accordance with the provisions of these bylaws.

(7) Any costs incurred by the Manager Engineering Services for the purpose of executing the provisions of this By-Law must be borne by the Municipality in accordance with its approved budget.

8.9 Disposal of building materials and personal property

(1) In the execution of the provisions of section 8(8), any building material and other personal property belonging to a resident or occupier of a shack in an unauthorised informal settlement must be removed and stored in a safe place by the Manager Engineering Services.

(2) If the building materials and other personal property contemplated in subsection (1) are not claimed by their owner within a period of three months after the date of the removal and storage, the building material and personal property must be sold to the advantage by the Manager Engineering Services, or a person designated by him or her, who must, after deducting the amount of any charges due or

any expenses incurred, deposit the net proceeds into the Municipality Revenue Account, provide that –

- (a) Subject to the laws governing the administration and distribution of estates, nothing in this subsection contained may deprive the heir of any deceased person of his or her right to the balance of the proceeds of the property; and
 - (b) Any building material or other personal property which is, in the opinion the Manager: Informal Settlement, valueless and unable to realise any meaningful amount may be destroyed, abandoned, dumped or otherwise disposed of by the Manager Engineering Services.
- (3) The Manager Engineering Services must compile and maintain a register in which is recorded and appears –
- (a) Particulars of all building materials or other personal property removed and stored in terms of this By-Law:
 - (b) The date of the removal and storage of building materials or other personal property in terms of subsection (1) and the name and site or stand number of the owner of the building materials or personal property; and
 - (c) (i) the signature or left thumb print of the person is claiming ownership and to whom delivery of materials or other personal property has been made; or
(ii) full details of the amount realised on the sale of building materials or other personal property in terms of subsection (2) and the date of the sale; and
(iii) If building materials or other personal property has been destroyed, abandoned, dumped or otherwise disposed of in terms of subsection (2), a certificate by the Manager Engineering Services to the effect that the building materials or personal property was valueless.
- (4) Neither the Municipality nor any of its officials acting within the reasonable scope of their authority are liable for any loss of or damage to property or injury to any resident or occupier of a shack in an unauthorised informal settlement or any other person for any reason whatsoever.

9. Relay of stormwater from high-lying erven to lower-lying erven

If, in the opinion of the Municipality, it is impracticable for stormwater to be drained from a high-lying erf direct to a public street, the owner of a lower-lying erf is obliged to accept and permit the passage of such stormwater over the lower-lying erf. The owner of such high-lying erf from which stormwater is discharged over the lower-lying erf is liable for a proportionate share of the cost of any pipe-line or drain that the owner of the lower-lying erf may find necessary to construct for the purpose of conducting the stormwater so discharged.

10. Enclosure

Where a piece of land is enclosed in any manner whatsoever, the enclosure must be designated, erected and maintained in accordance with Schedule I, subject to any other provisions of this By-Law.

**11. Roofs**

- (1) Sheet metal that is used for a roof and that is visible from a street or a surrounding erf must be properly painted within 15 months after construction thereof if the Municipality so requires.
- (2) No roof surface may have a luminous finish.

PART D
SEWERAGE

GENERAL PROVISIONS

12. Connections to sewer

- (1) No part of any drainage installation may extend beyond the boundary of the piece of land which the building or part of the building served by the drainage installation is erected, provided that, where the Municipality considers it necessary or expedient to do so, the Municipality may permit the owner of the piece of land to lay a drain at his or her expense through an adjoining piece of land on submission of proof of registration of an appropriate servitude or of a notarial deed of joint drainage, as the Municipality may require.
- (2) Subject to the provisions of subsection (3) and without prejudice to the provisions of National Building Regulations regarding the inspection and testing of drainage installation, the owner of any premises must, 14 days before the drainage installation on his or her premises is ready for connection to a connecting sewer. As soon as the Municipality has provided the connecting sewer, such owner must connect the drain to the connecting sewer at his or her own expense.
- (3) Any alternative or additional connection required by the owner of any premises is subject to the approval of the Municipality and must be effected at the owner's expense.
- (4) No person may permit, for testing purposes, the entry of any substance whatsoever other than clean water into any drainage installation before the drainage installation has been connected to a sewer.
- (5) Except as may be otherwise authorised by the Municipality in writing, no person other than an officer duly authorised to do so may lay and connect any connecting sewer to a sewer.
- (6) The conveyance of sewage from two premises or more by means of a common drain to a connecting sewer may be authorised by the Municipality.

13. Disconnection of drainage installation and conservancy and septic tanks

- (1) If an existing conservancy tank or septic tank is no longer required for the storage or treatment of sewage, or if permission for the use of a conservancy tank or septic tank is withdrawn, the owner of the premises on which such conservancy tank or septic tank is situated must cause the conservancy tank or septic tank to be disconnected and to be either completely removed or completely filled with earth or other suitable material, provided that the Municipality may require the conservancy tank or septic tank to be otherwise dealt with or may permit it to be used for some other purpose, subject to

such conditions as the Municipality may consider necessary, regarding being had to all the circumstances of the case.

- (2) After all the requirements of the National Building Regulations in regards to the disconnection of an existing conservancy tank on any premises have been complied with and on request of the owner of the premises, the Municipality must issue a certificate to the effect that –
 - (a) The disconnection has been completed in terms of National Building Regulations, and
 - (b) Any sewerage charges prescribed in the tariff and raised in respect of the disconnected portion of the drainage installation will cease to be raised in respect of the disconnected portion with effect from the first day of the month following the issue of the certificate, provided that under the certificate is issued by the Municipality, any such charges will continue to be raised.
- (3) When a drainage installation on any premises is disconnected from the sewer, the Municipality must seal the opening made and must recover from the owner of the premises the cost of the work in accordance with section 14(5).
- (4) Any person who, without the permission of the Municipality, breaks or removes or causes or permits the breakage or removal of a seal effected in terms of subsection (3) is guilty of an offence under this By-Law.
- (5) Where a soil-water fitting has, during the month, been connected to or disconnected from a drainage installation that discharges into sewer system, the charges as prescribed in the tariff, excluding the fixed charge for every erf, stand, premises or other areas that has or has no improvement or that in the opinion of the Municipality can be connected to a sewer, must be calculated as if the connection or disconnection had been made on the first day of the month following the month in which the connection or disconnection was made.

14. Drainage work that does not meet the requirements

- (1) Where a drainage installation that has been constructed on any premises or drainage work that has been carried out on any premises falls to comply in any respect with any with any of the provisions of the National Building Regulations or this By-Law, the owner of the premises must, notwithstanding the fact that he or she may have received approval for the plans for the drainage installation or work in terms of the National Building Regulations or previous By-Law, carry out, on receiving written notice from the Municipality, such repairs, replacements, maintenance work or alteration in respect of the drainage installation as the notice may specify and within the time the notice may specify.
- (2) If, in the opinion of the Municipality, a nuisance exists as a result of the emission of gas from a trap or sanitary fitting or any other part of a drainage installation on any premises, the Municipality may require the owner of the premises to, at his or her own expense, take such action as may be necessary to prevent the recurrence of the nuisance.
- (3) Where any sewage, after being discharged into a drainage installation, enters or overflow a soil-water fitting or waste-water fitting connected to the drainage installation on any premises or leaks out somewhere from the drainage installation, whether by reason of surcharge, back pressure or any other circumstance, the Municipality may by notice in writing require the owner of the premises to carry

out within the period specified in the notice the work necessary to abate and prevent any recurrence of such entry, overflow or leakage of sewage.

- (4) Instead of serving a notice contemplated in subsection (1) or (3) or where such notice has not been complied with within the period prescribed in the notice, the Municipality may, without prejudice to its right also to prosecute the owner to whom the notice was directed because of an infringement of the National Building Regulations or this By-Law –
 - (a) Itself proceed to carry out such alteration, removal or other work as it may deem necessary for compliance with the provisions of the National Building Regulations or this By-Law; and
 - (b) Recover, in accordance with subsection (5), the cost of the alteration, removal or other work from the owner by the ordinary process of law.
- (5) Where any work other than that for which a fixed charge has been determined in the tariff is done by the Municipality, the Municipality is entitled in terms of this of this By-Law to recover the cost of such work from a person, and there may be included in such claim to be determined by the Municipality as will cover all expenditure reasonably incurred by the Municipality.

15. Maintenance

Where any part of a drainage installation is used by two owners of any premises or more or two occupiers of any premises or more, such owners or occupiers are jointly and severally liable in terms of this section for the maintenance and repair of the drainage installation.

16. Drain and sewer blockages

- (1) No person may cause or permit such an accumulation of grease, oil, fat, solid matter or any other substance in any trap, take, pipe, drain or fitting as to cause the blockage or ineffective operation of the trap, tank, pipe, drain or fitting.
- (2) If the owner or occupier of any premises has reason to believe that a blockage has occurred in any drainage installation on the premises, he or she must immediately inform the Municipality of the blockage and take steps to have it removed.
- (3) Where a blockage occurs in a drainage installation, any work necessary for the removal of the blockage must, subject to the provisions of subsection (5), be done by or under the supervision of a plumber or registered person as required by National Building Regulations in regard to the control of plumbers and plumbing work.
- (4) Any plumber or registered person contemplated in subsection (3) must –
 - (a) Before proceeding to remove the blockage from a drainage installation, notify the Municipality by telephone or otherwise of his or her intention to remove the blockage; and
 - (b) After removing the blockage, notify the Municipality of the removal of the blockage and of the nature, location and cause of the blockage.

- (5) The Municipality is entitled at its own discretion to remove a blockage from a drainage installation on any premises and, whether or not it has been requested by the owner of the premises to do so, the Municipality may recover the costs of such removal from the owner in accordance with section 14(5).
- (6) Should the removal by the Municipality of any blockage in a drainage installation necessitate the removal or disturbance of any paving, lawn or other artificial surfacing on any premises, the Municipality is not liable for the reinstatement of the paving, lawn or other artificial surfacing.
- (7) Should any drainage installation on any premises overflow as a result of an obstruction in the connecting sewer, and should the Municipality be reasonably satisfied that such obstruction was caused by objects emanating from the drainage installation, the owner of the premises served by the drainage installation is liable for the cost of removing blockage, and the Municipality may recover the cost of the removal from the owner in accordance with section 14(5).
- (8) Where the blockage has been removed from a drain or portion of the drain that serves two pieces of land or more, the charge of the removal of the blockage as prescribed on the tariff is recoverable in equal portions from each of the owners of the pieces of land, provided that owners are jointly and severally liable for the whole charge.

17. Interference with or damage to sewers and water care works

Any damage caused to the Municipality's sewer or any part of its sewage or water care works through or in consequences on noncompliance with or contravention of any provision of the National Building Regulations or this By-Law must be rectified or repaired by the Municipality at the expense of the person responsible for such noncompliance or contravention or for causing permitting such noncompliance or contravention, and the cost of rectifying or repairing the damage must be determined by the Municipality.

18. Entry onto premises

- (1) An officer authorised by the Municipality has the right to enter on any premises at any reasonable time in order to take samples of or test sewage or industrial effluent or to carry out such inspection or work in connection with a drainage installation as the Municipality may deem necessary.
- (2) The owner or occupier of any premises is guilty of an offence under By-Law if he or she, in respect of an officer entering in the premises in terms of subsection (1) –
 - (a) Denies the officer entry to the premises or causes or permits any other person to deny the officer entry;
 - (b) Obstructs the officer in the performance of the officer's duties or causes or permits any other person to so obstruct the officer;
 - (c) Withholding information that the officer requires to carry out his or her duties or causes or permits any other person to withhold such information; or
 - (d) Knowingly gives the officer false information or causes or permits any other person to give the officer such information.

19. Manhole on municipal property

- (1) Where, for any reason whatsoever, the provision of adequate means of access to the Municipality's connecting sewer is impracticable on any private premises, the Municipality may, at the expense of the owner of the premises, cause or permits a manhole to be constructed over the Municipality's connecting sewer in such public place and such position and of such materials and dimensions as the Municipality may decide, and such owner must bear the cost, as determined by the Municipality, of any alteration to existing services in the public place which may by reason of the construction of the manhole be necessary.
- (2) The owner of the private premises referred to in subsection (1) must, if so required by the Municipality, pay rental to the Municipality for the space occupied by the manhole in the public place. Such rental must be determined from time to time by the Municipality in accordance with accordance with the powers delegated to it in terms of section 80B of the Local Government Ordinance, 1939.

20. Mechanical food-waste and other disposal units

- (1) No person may incorporate into a drainage installation a mechanical food-waste or other disposal unit or garbage grinder that has a power capacity in excess of 500 W unless a standard water meter has been connected to the supply pipe water that provides water to the unit or grinder, provided that –
 - (a) The Municipality installs and seals the water meter at the cost of the owner; and
 - (b) The Municipality has the right of access to the water meter at all times.
- (2) The Municipality may require the owner or occupier of any premises on which a food-waste or other disposal unit or a garbage grinder has been installed has been installed, or the owner of such unit or grinder, to remove, repair or replace the unit or grinder if, in the opinion of the Municipality, the unit or grinder is functioning inefficiencies or is impairing the working of the Municipality's sewerage system.
- (3) The owner or occupier referred to in subsection (2) must, upon the removal of the unit or grinder, notify the Municipality within 14 days of the removal.
- (4) The charges as prescribed in the tariff must be paid in respect of the discharged of food-waste or other disposal unit or a garbage grinder referred to in subsection (1).

PREVENTION OF WATER POLLUTION

21. Sewage and other pollution not to enter stormwater drains

- (1) The owner or occupier of any on which steam or any liquid other than potable water is stored, processed or generated must provide all the facilities necessary to prevent any discharge, leakage or escape of such liquid any street, stormwater drain or watercourse, except where, in the case of steam, the Municipality has specifically permitted such discharge.
- (2) Where the hosing down or the flushing by rainwater of an open area on any private premises is in the opinion of the Municipality likely to –
 - (a) Cause the discharge of objectionable matter into a street gutter, stormwater drain, river, stream or other watercourse, whether natural or artificial; or

- (b) Contribute to the pollution of any watercourse, the Municipality may instruct the owner of the premises to take at his or her own cost such measures, by way of the owner's alteration of the drainage installation or roofing of the open area, as it may consider necessary to prevent or minimise the discharge or pollution.

22. Stormwater not to enter sewers

No person may discharge or cause or permit to be discharged any stormwater or any substance other than sewage into a drainage installation.

23. Discharge from fountains, boreholes, wells, reservoirs and swimming pools

Water from a fountain, borehole, well, reservoir or swimming pool situated on private premises may only be discharged into a drainage installation with the prior written consent of the Municipality and subject to such conditions relating to place, time, rate of discharge and total discharge as the Municipality may impose.

24. Permission to discharge industrial effluent

- (1) No person may discharge or cause or permit to be discharged into any sewer any industrial effluent or other liquid or substance other than soil water or waste water without the prior written permission of the Municipality and, if such permission has been obtained, such discharge must be strict compliance with all of the conditions of the permission.
- (2) Every person, must, before discharging any industrial effluent into sewer, make application in writing to the Municipality for permission to discharge the industrial effluent, and such application must be made on the prescribed form, which is to be completed in duplicate, and, after the application is made, he or she must furnish such additional information and submit such samples as the Municipality may require.
- (3) The Municipality may, at its discretion, grant permission for the discharge of industrial effluent from any premises into a sewer, having regard to the capacity of the sewer or any mechanical appliance used for the sewage of any water care works, whether or not vested in the Municipality, provided that such conditions as the Municipality may deem fit to impose are complied with, including the payment of any charge prescribed in the tariff.
- (4) Any person to whom permission has been granted in terms of subsection (3) to discharge industrial effluent into a sewer must, before doing or causing or permitting to be done anything that result in a change in the quantity or discharge or nature of the nature effluent, notify the Municipality in writing of the date of the proposed change and of the nature of the proposed change.
- (5) Any person who discharges or causes or permits to be discharged any industrial effluent into sewer without having first obtained permission to do so in terms of subsection (3) is guilty of an offence and is –

- (a) Liable to such charge prescribed in the tariff as the Municipality, ay determined for the conveyance and treatment of the effluent so discharged; and
- (b) Liable for any damage caused as a result of the unauthorised discharge.
- (6) If any person discharges into a drain or sewer any industrial effluent or any substance which is prohibited or restricted in terms of section 27 or which has been the subject of an order issued in terms of section 27(2), the Municipality is, without prejudice to its right in terms of subsection (5) or section 27(2)(c), entitled to recover from such person the full cost of expenses or charges incurred or to be incurred by the Municipality and the full cost of losses suffered or to be suffered by the Municipality as a result of any or all of the following:
 - (a) Injury to people or damage to any sewer, any water care works, any mechanical appliance or any property whatsoever, which injury or damage is as a result of the breakdown, either partial or complete, of a sewer or water care works or mechanical appliance whether under the control of the Municipality or not; or
 - (b) A prosecution in terms of the Water Act, 1956 (Act 54 of 1956), or any action against the Municipality consequent on a partial or complete breakdown of a sewer, water care works or mechanical appliance caused directly or indirectly by the discharge, including any fine or damages which may be imposed or awarded against the Municipality.
- (7) Owing to the change in circumstances arising from a change in the sewage treatment process or the introduction of new or revised or stricter or other standards by Municipality or in terms of the Water Act, 1956, or as a result of any amendment to this By-Law or for any other reason, the Municipality may from time to time or at any time –
 - (a) Review, amend, modify or revoke any permission given or any conditions attached to such permission;
 - (b) Impose new conditions for the acceptance of industrial effluent into a sewer; or
 - (c) Prohibit the discharge of any or all industrial effluent into a sewer, provided that –
 - (i) The Municipality gives adequate written notice in advance of its intention to take the measures contemplated in paragraph (a), (b) or (c); and
 - (ii) On expiry of such period of notice, the previous permission or conditions, as the case may be, are regarded as having lapsed and the new or amended conditions, if any, as the case may be, apply immediately.

25. Control of industrial effluent

- (1) The owner or occupier of any premises from which industrial effluent is discharged into a sewer must provide adequate facilities such as overflow level detection devices, standby equipment, overflow catch-pits or other appropriate means effectively to prevent the accidental discharge into a sewer of any substance that is prohibited or restricted or has properties outside the limits imposed by this By-Law, irrespective of whether such accidental discharge is owing to the negligence of an operator, power failure, failure of equipment or control gear, overloading of facilities of facilities, spillage during loading or unloading or any other similar reason.

- (2) If the owner or occupier of any premises on which industrial effluent originated intends treating such industrial effluent before discharging it, he or she must obtain prior written permission from the Municipality.
- (3) The Municipality may, by notice served on the owner or occupier of any premises from which industrial effluent is discharged, require him or her to, without prejudice to any provision of the National Building Regulations or any other provision of this By-Law, do all or any of the following:
- (a) The owner or occupier must subject the industrial effluent, before it is discharged into the sewer, to such pre-treatment as to such 27(1), or the owner or occupier must modify the effluent cycle of the industrial process to such extent and in such manner as in the opinion of the Municipality is necessary to enable any water care works receiving the industrial effluent, whether the water care works is under the control of the Municipality or not, to produce treated effluent complying with any standards which may be laid down in respect of such water care works receiving the industrial effluent, whether the water the water care works is under the control of the Municipality or not, to produce treated effluent complying with any standard which may be laid down in respect of such water care works in terms of the Water Act, 1956.
 - (b) The owner or occupier must -
 - (i) Restrict the discharged of industrial effluent to certain specified hours and restrict the rate of discharge to a specified maximum; and
 - (ii) Install, at his or her own expense, such as tanks, appliance and other equipment as in the opinion of the Municipality may be necessary or adequate for compliance with the restrictions contemplated in subparagraph (i)
 - (c) The owner or occupier must install a separate drainage installation for the conveyance of industrial effluent and must discharge the industrial effluent into the sewer through a separate connection, as directed by the Municipality, and the owner or occupier must refrain from -
 - (i) Discharging any industrial effluent through a drainage installation intended or used for the conveyance of domestic sewage; or
 - (ii) Discharging any domestic sewage through the separate through the separate installation for industrial effluent.
 - (d) The owner or occupier must construct at his or her own expense in any drainage installation conveying industrial effluent to the sewer one or more inspection, sampling or metering chambers of such dimensions and materials and in such positions as the Municipality may prescribe.
 - (e) The owner or occupier must pay, in respect of the industrial effluent discharged from the premises, such charge as may be determined in the tariff, provided that, where, owing to the particular circumstances of a case, the actual chemical oxygen demand (COD) or permanganate value (PV) and the concentration of metals in the industrial effluent cannot be assessed by means of the method of assessment prescribed by the South African Bureau of Standards (SABS), the Municipality may use such alternative method of assessment as it may deem expedient, and the charge to be levied must be assessed accordingly.
 - (f) The owner or occupier must provide all such information as may be required by the Municipality to enable it to assess the charges payable in terms of the tariff.
 - (g) For the purpose of paragraph (f), the owner or occupier must provide and maintain at his or her own expense a meter or meters to measure the total quantity of water which is drawn from any borehole, spring or other source of water, excluding that of the Municipality, used on the premises and which is discharged as industrial effluent into the sewer.

26. Metering and assessment of the volume and composition of industrial effluent

- (1) The Municipality may incorporate, in such position as it may determine, in any drainage installation conveying industrial effluent to a sewer any meter or gauge or other device for the purpose of ascertaining the volume and composition of the industrial effluent, and it is an offence for any person to bypass, open, break into or otherwise interfere with or do damage to any such meter, gauge or other device, provided that the Municipality may at its discretion enter into an agreement with any person discharging industrial effluent into a sewer to establish an alternative method of assessing the quantity of industrial so discharged.
- (2) The Municipality is entitled to install and maintain a meter, gauge or device referred to in subsection (1) at the expense of the owner of the premises on which it is installed.
- (3) The owner of any premises on which is situated a borehole or well used for a water supply for trade or industrial purposes must –
 - (a) Register the borehole or well with the Municipality;
 - (b) Give the Municipality full particulars of the discharge capacity of the borehole or well; and
 - (c) If the Municipality has reason to doubt the reliability of the particulars given in terms of paragraph (b), carry out, at the expense of the owner, such tests on the discharge capacity of the borehole or well as may, in the opinion of the Municipality, be necessary for the purpose of this By-Law.

27. Prohibited discharges

1. No person may discharge or cause or permit the discharge or entry into any sewer of any sewage, industrial effluent or other liquid or substance which –
 - (a) In the opinion of the Municipality, may be offensive to the public or cause a nuisance to the public;
 - (b) Is in the form of steam or vapour or has a temperature exceeding 44 °C at the point at which it enters the sewer;
 - (c) Has pH value less than 6, 0 or greater than 10, 0;
 - (d) Contains any substance whatsoever that is likely to produce or emit explosive, flammable, poisonous or offensive gases or vapours in the sewer;
 - (e) Contains a substance having a flashpoint of less than 93 °C or which emits a poisonous vapour at a temperature below 93 °C;
 - (f) Contains any material whatsoever, including oil, grease, fat or a detergent, which is capable of causing interference with the proper operation of any water care works;
 - (g) Shows any visible signs of tar or associated products or distillates, bitumens or asphalts;
 - (h) Contains a substance in such concentration as is likely in the final treated effluent from any water care works to produce an undesirable taste after chlorination or an undesirable odour or colour, or excessive foam;
 - (i) Contains any substance specified in Schedule II in such concentration as to exceed the limit of concentration specified in Schedule II, provided that –
 - (I) The Municipality may approve a greater limit of concentration for such period or on such conditions as it may specify on consideration of the effect of dilution in the sewer and of the effect of the substance on the sewer or on any sewage treatment process; and
 - (II) The Municipality is satisfied that the discharge or entry of the substance into the sewer will not
 - (aa) damage the sewer or any mechanical appliance, water care works or equipment;
 - (bb) prejudice the use of sewage for re-use; or
 - (cc) adversely affect any waters into which purified sewage effluent is discharged, or any land or crops irrigated with the sewage; and
 - (j) Contains any substance whatsoever which, in the opinion of the Municipality –

- (I) Is not amenable to treatment at any water care works, or which causes or may cause a breakdown or inhibition of the normal sewage treatment processes;
- (II) Is or may be amenable to treatment only to such degree as to prevent the final treated effluent from any water care works from satisfactorily complying in all respects with any requirement imposed in terms of the Water Act, 1956; or (III) whether listed in Schedule II or not, either alone or in combination with other matter may –

(aa) generate or constitute a toxic substance detrimental to the health of persons employed at the water care works or persons entering the Municipality's sewers or manholes in the course of their duties;

(bb) be harmful to sewers, water care works or land used for the disposal of purified sewage effluent; or

(cc) adversely affect any of the processes whereby sewage is purified sewage effluent is used.

(2) (a) Any person who receives from an officer duly authorised thereto by the Municipality a written order instructing such person to stop the discharge into a sewer of any substance referred to in subsection

(1) Must immediately stop such discharge.

(b) Any person who contravenes the provisions of subsection (1) or who fails to comply with an order issued in terms of paragraph (a) is guilty of an offence.

(c) Notwithstanding the provisions of paragraph (b), if any person fails to comply with the terms of an order served on him or her in terms of paragraph (a) and if the discharge is likely, in the opinion of the Municipality, to cause damage to any sewer or mechanical or other appliance or to seriously prejudice the efficient operation of any water care works, the Municipality may, after further written notice, refuse to permit the discharge of any industrial effluent into the sewer until the industrial effluent complies in all respects with the Municipality's requirements as prescribed in terms of this By-Law.

Any person who has been refused such permission to discharge industrial effluent into a sewer must immediately stop discharging industrial effluent and, if he or she fails to do so, the Municipality may prevent him or her from proceeding with the discharge.

PART E WATER

28. Connection from main

(1) Any communication pipe that is intended for preventive or automatic use in the event of fire must be laid by the Municipality as far as the boundary of the consumer's property.

(2) A communication pipe referred to in subsection (1) may be used only for fire must be laid by the Municipality as far as the boundary of the consumer's property.

(3) No extraction (draw-off) of water of any kind may be made from the main, except an extraction (draw-off) in connection with any automatic sprinkler and drencher, hydrant connection with any automatic sprinkler and drencher, hydrant connection or any connection necessary for the pressure tank on the top of a building, which tank must be controlled by a suitable ball tap.

29. Valves in communication pipes

Every communication pipe must be fitted with a proper stop valve, which valve –

(a) Must be supplied by the Municipality at the expense of the consumer to whose premises the communication pipe leads;

(b) Must be installed between the consumer's premises and main;

(c) Must be of the same diameter as the communication pipe; and

(d) Must be in such position as may be determined by the Municipality.

30. Additions to fire extinguishing systems

No further sprinkler may without the prior written consent of the Municipality be added or connected to any existing fire extinguishing system after such system has been connected to the main.

31. Extension of fire extinguishing system to other premises

No extension or connection may be made from the fire extinguishing system of one premises to any other premises. If any such extension or connection is made, the Municipality is entitled to enter on any premises and to take all steps necessary to disconnect the extension or connection at the cost of the person responsible for the extension or connection.

32. Inspection and approval of fire extinguishing services

No supply of water may be made or given in respect of a fire extinguishing service until the fire extinguishing system has been inspected and the Municipality has certified in writing –

- (a) Such service is in accordance with this By-Law; and
- (b) The work in connection with the system has been carried out to the Municipality's satisfaction.

33. Connecting to be to the satisfaction of the Municipality

Any connection to a main in respect of fire extinguishing services must be affected to the satisfaction of the Municipality, which is entitled to disconnect any fire extinguishing service at any time.

34. Installation of reflux valves

In any private installation where a fire pump connection is installed, a reflux valve to close off the supply from the Municipality's main when the fire pump connection is being used must be installed between the boundary of the premises and the fire pump connection.

35. Sprinkler systems
