REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

- (4) The Chief Financial Officer and/or his/her delegate shall consent to the acceptance of such a lesser amount in writing.

4.16 Arrangements to Pay Outstanding and Due Amount in Consecutive Instalments

- (1) One of the key objectives of debt collection is to encourage debtors to start paying their monthly accounts in full. In addition, it is also necessary to ensure that arrear debt is addressed. The current average balances on consumer accounts necessitates that innovative ideas be implemented to encourage consumers to pay off their arrears. It is also of utmost importance that regular payers not be discouraged through the implementation of any possible incentives.
- (2) The main aim of an agreement will be to promote full payment of the current account and to address the arrears on a consistent basis. A debtor may enter into a written agreement with the Municipality to repay any outstanding and due amount to the Municipality under the following conditions:-
 - (a) The outstanding balance, costs and any interest thereon shall be paid in regular and consecutive monthly instalments;
 - (b) The current monthly amount must be paid in full; and
 - (c) The written agreement has to be signed on behalf of the Municipality by a duly authorised officer.
- (3) In order to determine monthly instalments, a comprehensive statement of assets and liabilities of the debtor must be compiled by a treasury official. To ensure the continuous payment of such arrangement the amount determined must be affordable to the consumer, taking into account that payment of the monthly current account is a prerequisite for concluding an arrangement.
- (4) Implementation of the following principles (as a once off initiative) could enhance the success of debt collection to a great extent:-

- (a) Where a debtor (Residential) pays 50% on his/her arrear account that is more than 90 days the other 50% will be written off. Subject to the account being more than R10 000 inclusive of interest.
- (b) Where arrangements are made to pay off the arrear amount in instalments, such an arrangement should be honoured for at least a six month consecutive period where after arrears will be written off on a monthly basis on a rand for rand basis (for every one rand that is paid one rand will be written off from the provision for bad debt).
- (c) In addition to clause point above Council must approve an annually once off initiative for outstanding debt by households. Where a percentage of the debt will be written off if the debtor pays off all the outstanding debt plus current amount. A percentage will be proposed to council by the CFO before such initiative is implemented.

4.17 Interest on Arrears

(1) Implementation of the following principles (as a once off initiative) could also enhance the success of debt collection to a great extent:-

- (a) Levying of interest on arrear accounts should be immediately suspended upon completion of a debt agreement. This will allow debtors to see progress on their accounts, as continued payments will reflect a decrease on the balance.
- (b) As long as the agreement is honoured no further interest will be added. However, in case of defaulting the suspended amount will be reversed and interest will again be levied from date of default.
- (c) Where a debtor pays 50% or more on his arrear account or settles the arrear account in full through a once off payment, all interest on arrear amounts will be written off immediately.
- (d) Where arrangements are made to pay off the arrear amount in instalments, such instalments should be determined on the outstanding amount excluding arrear interest. Such an arrangement should be honoured for at least a six-month consecutive period where after interest on arrear amounts will be written off on a monthly basis. This arrangement will imply that upon payment of the final instalment all interest on arrear amounts will have been written off.

- (e) Where debtors fail to honour their arrangements without prior consultation interest will be reinstated and added to the original debt amount.

4.18 Reconnection of Services

- (1) The Chief Financial Officer shall authorise the reconnection of services or reinstatement of service delivery only after satisfactory payment or arrangement for payment has been made and a reconnection fee has also been paid in accordance with the Municipality's Credit Control Policy

4.19 Deductions of Salaries and Allowances

- (1) It is the policy of Council that Councillors and officials will set an example to the community. In this regard, Councillors must sign a stop order against their allowances and officials against their salaries for the monthly payment of consumer accounts.

5. PERSONNEL AND FINANCIAL IMPLICATIONS

- (1) Where a credit control and debt collection function does not exist, this implies that a dedicated structure be established with a credit control officer in charge. In view of the fact that credit control and debt collection must always be able to operate in isolation to any customer management service, it is imperative that a staff establishment for this function be implemented.
- (2) The establishment of a credit control and debt collection division will have to be financed from the operating budget, which will have an incremental impact on the budget. However, this will be offset by improved cash inflow as a result of an efficient collection system.

6. FRAUD, TAMPERING AND OTHER CRIMINAL ACTIVITY

- (1) Any person, who undertakes or allow or causes any other person to undertake an illegal connection, will be guilty of an offence.

- (2) A customer who becomes aware of an illegal connection of the water supply to a property or premises owned by or occupied by such customer, must immediately notify the Council thereof in writing.
- (3) The Council will immediately disconnect any illegal connection and remove any wiring, piping or other equipment or installation relating to an illegal connection.
- (4) The Municipality may not interfere where criminal activity is evident. The legal penalties and criminal justice system may not be subject to conflicting resolutions by the municipality. All such cases must be prosecuted to the fullest extent of the law.
- (5) The Municipality may not supply water to a customer who is found guilty of/or if it is admitted that fraud, theft or any other criminal action involving the use of these services existed, until the total costs, penalties, other fees and tariffs and rates due to the municipality have been paid in full.

Under no circumstances may agents negotiate terms, extend payment periods or accept cash on behalf of municipality, unless specifically instructed in writing to do so. The agent, on request by consumers, must produce this instruction.
- (3) The costs to the Municipality and to the debtor must be detailed for each stage of the credit control measures and for all possible actions. The liability for the costs of legal action and other credit control actions must as far as is legally possible be for the account of the debtor.

- (1) A duly authorised representative of the Council may for any purpose related to the implementation or enforcement of this by-law, at all reasonable times or in an emergency at any time, enter premises, request information and carry out such inspection and examination as he or she may deem necessary, and for the purpose of installing or repairing any meter or services connection reticulation, or to disconnect, stop or restrict the provision of any services.

2. PURPOSE OF THE TARIFF BY-LAW

The purpose of this tariff By-Law is to prescribe the accounting and administrative policies and procedures relating to the determining and levying tariffs by Dr JS Moroka Local Municipality in accordance with Section 75 of the Local Government: Municipal Systems Act (No. 32 of 2000) (MSA) and in compliance with the applicable requirements as per the Local Government: Municipal Finance Management Act (No. 56 of 2003).

The Municipality should perform the procedures set out in this policy to ensure the effective planning and management of tariffs. In setting its annual tariffs the Council shall at all times take due cognisance of the tariffs applicable elsewhere in the economic region, and of the impact which its own tariffs may have on local economic development.

3. SCOPE OF APPLICATION

- 3.1 Sections 4 and 75 of the MSA confirms the power and right of the Municipality to charge fees for services rendered and to impose surcharges on fees, rates on property and other taxes, levies and duties, the Municipality having to endeavour to the extent reasonably possible that the provision of such services are provided to and in consultation with the local community in an environmentally and financially sustainable manner in accordance with Sections 4(2) (d) and 4(2) (e) thereto.
- 3.2 This By – Law is directly informed by the Municipality's Tariff Policy for the 2017/2018 Financial Year and is to be read as informed by the latter document

and that, to the extent applicable, the provisions thereof are specifically incorporated herein.

- 3.3 Furthermore, this By-Law applies to all tariffs charged within the defined boundaries and jurisdiction of Dr JS Moroka Local Municipality.

4. TARIFF POLICY FOR THE PERIOD 2018 – 2019 (“the Tariff Policy”) AND IT’S APPLICATION TO THIS BY – LAW:

- 4.1 The council shall levy tariffs in accordance with the above – stated policy as reflected in the Schedule marked Annexure “A” hereto. The municipality’s tariff policy shall be transparent, and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service in question.
- 4.2 To the extent that this By – Law and the Policy thereto differentiate between different categories of users, debtors, service providers, services and service standards, geographical areas and more, kindly note that same is done in accordance with Section 74(2) of the MSA and such discrimination does not constitute unfair discrimination as defined in Section 9(1), (2) and (3) of the Constitution of the Republic of South Africa (No. of 1996), read with Section 36 thereof.
- 4.3 Any changes to the Tariff Policy shall be approved by the council together with the adoption of resolutions setting tariffs for the budget year and published as an amendment to this By – Law.
- 4.4 The Mayor shall, to the extent necessary, co-ordinate the processes for reviewing the Tariff Policy when preparing the annual budget.
- 4.5 The municipality shall further develop, approve and at least annually review an indigent support programme for the municipal area, such current policy being the Municipality’s Free Basic Services and Support Policy for the period 2017 – 2018 (hereinafter referred to as “the FBSIS Policy”). This programme shall set out clearly the municipality’s cost recovery policy in respect of the tariffs which it levies on registered indigents, and the implications of such policy for the tariffs which it imposes on other users and consumers in the municipal region.
- 4.6 Regulations 4.2 to 4.4 shall apply similarly with regard to the FBSIS Policy.

5. BASIC PRINCIPLES TO BE CONSIDERED IN DETERMINATION OF A TARIFF STRUCTURE

- 5.1 Service tariffs imposed by the local municipality shall be viewed as user charges and not as taxes, and therefore the financial or other ability of the relevant consumer or user of the services to which such tariffs relate, shall not be considered as a relevant criterion (except in the case of the indigent relief measures approved by the municipality from time to time).

5.2 The municipality shall ensure that its tariffs are uniformly and fairly applied throughout the municipal region in accordance with the various levels of services.

5.3 The Tariffs for the three major services rendered by the municipality, namely:-

- (a) Water;
- (b) Sewerage (waste water); and
- (c) Refuse Removal (solids waste).

are based on the recovery of the costs for delivery of such services, in such circumstances that are practically and financially feasible, are further based upon the generation of a modest surplus and source of municipal revenue, as determined in each annual budget.

5.4 Such surplus shall be applied in relief of property rates or for the future capital expansion of the service concerned, or both.

5.5 The tariff which a particular consumer or user pays shall therefore be directly related to the standard of service received and the quantity of the particular service used or consumed.

5.6 In line with the principles embodied in the Constitution and in other legislation pertaining to local government, the municipality may differentiate between different categories of users and consumers in regard to the tariffs which it levies. Such differentiation shall, however, at all times be reasonable, and shall be fully disclosed in each annual budget as per regulation 4.2 above.

5.7 The municipality further undertakes to ensure that its tariffs as per the Tariff and FBSI Policies respectively and others, shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned.

5.8 The municipality also undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery.

5.9 In the case of a directly measurable service such as water, the consumption of such service shall be properly metered by the municipality, and meters shall be read, wherever circumstances reasonably permit, on a monthly basis. The charges levied on consumers shall be proportionate to the quantity of the service which they consume.

5.10 In addition, the municipality shall levy monthly availability (where the services are available but not connected)/ or basic charges for the services concerned and these charges shall be fixed for each type of property as determined in accordance with its appropriate policies. Availability charges are also applicable to sewer services.

Generally, consumers of water shall therefore pay two charges:-

- (a) A basic charge which is unrelated to the volume of consumption and is levied because of the availability of the service concerned; and

(b) A consumption charge directly related to the consumption of the service in question; or

(c) A flat rate (no basic charge) in the case where the consumption is not metered.

5.11 In considering the costing of its water, and sewerage services, the municipality shall take due cognisance of the high capital cost of establishing and expanding such services, and of the resultant high fixed costs, as opposed to variable costs of operating these services.

5.12 In adopting what is fundamentally a two-part tariff structure, namely a basic/availability charge coupled with a charge based on consumption, the municipality believes that it is properly attending to the demands which both future expansion and variable demand cycles and other fluctuations will make on service delivery.

6. AUXILIARY SERVICES AND COSTS FOR AUXILLIARY SERVICES

6.1 Auxiliary shall be defined as such services as are reasonably necessary for, or incidental to the effective rendering of municipal services.

6.2 Such fees, charges and tariffs for Auxiliary Services are based upon recovery of the cost to provide said services.

6.3 Auxiliary Services shall be inclusive of, but not limited to:

(a) The lodging of applications;

(b) The issuing of a certificate, direction, approval, consent or permission by the municipality;

(c) The production or installation or an items of work by the Municipality;

(d) Utilisation of the service of a municipal official;

(e) Hiring of municipal equipment; and

(f) The utilization of municipal infrastructure and amenities.

7. GENERAL, UNDERTAKINGS AND PHASING OUT OF CERTAIN SERVICES:

7.1 General and Undertakings by the Municipality

7.1.1 The Municipality hereby undertakes to ensure as reasonably possible that tariffs are costs effective, are comparable to those applied in other municipalities of similar infrastructural, economic and other composition, ensuring as far as is reasonably possible and in accordance with its mandate and the applicable provisions of the Constitution of the Republic of South Africa and applicable legislation, regulations and Municipal Policies:

- (a) That services are delivered at an appropriate level;
- (b) The removal of domestic waste, water and sewage, and domestic refuse removal; and
- (c) The provision of electricity.

7.1.2 The Municipality also undertakes to, insofar as is reasonably possible, necessary and feasible, to introduce and maintain a performance management system for the purpose of ensuring the actual implementation of all plans and projects undertaken, including ensuring the efficient and economic utilization of Municipal resources and appropriate delivery mechanisms.

7.1.3 The Municipality shall further that service charges (amended to the extent applicable herein) are imposed in respect of any service where reasonably possible in such circumstances where tariffs are uneconomical and/or where nominal and or no such tariffs have been set.

7.2 Phasing out of Certain Services rendered and/or financed for by the Municipality

7.2.1 The Municipality reserves the right to phase out any services in accordance with applicable due process and consultation (to the extent required and necessary) except to the extent that it is legally required to provide said service and/or services, in such circumstances:

- (a) Where there is little and/or no demand for such service(s);
- (b) Where the price for such service(s) is under the actual cost to the Municipality to provide said service(s) and which requires the latter to maintain significant infrastructure and/or other facilities.

7.2.2 The Municipality reverses the right to phase out any non – core functions currently performed by the Municipality as soon as practically possible and in accordance with applicable due process and consultation (to the extent required and necessary), without depriving the affected and/or other communities within its jurisdiction of services which actually contribute to quality of life.

8. FACTORS TO BE CONSIDERED IN THE DETERMINATION OF A TARIFF STRUCTURE

8.1 Financial Factors

The primary purpose of a tariff structure is to recover the actual costs of the rendering of a particular service. If a service is rendered at a loss, cross subsidisation of such loss by another service will be necessary. This will place a burden on the tariff structure of the other service.

In order to determine the tariffs which must be charged for the supply of the three major services, the municipality shall identify all the costs of operation of the undertakings concerned, including specifically the following:-

8.1.1 Cost of bulk purchases in the case of water (where applicable);

8.1.2 Distribution losses in the case of water;

8.1.3 Distribution costs;

8.1.4 Maintenance of infrastructure and other fixed assets;

8.1.3 Depreciation expenses;

8.1.4 The cost of approved indigent relief measures;

8.1.5 Administration and service costs, including:-

- (a) service charges levied by other departments such as finance, human resources and legal services;
- (b) reasonable general overheads, such as the costs associated with the Office of the Municipal Manager;
- (c) adequate contributions to the provisions for bad debts and obsolescence of stock; and
- (d) all other ordinary operating expenses associated with the service concerned (note: the costs of the democratic process in the municipality – that is, all expenses associated with the political structures of the municipality – shall form part of the expenses to be financed from property rates and general revenues, and shall not be included in the costing of the major services of the municipality).

;and

8.1.6 The intended surplus to be generated for the financial year; such surplus to be applied:-

- (a) as an appropriation to capital reserves; and/or
- (b) generally in relief of rates and general services.

8.2 Socio-economic factors

8.2.1 As per Regulations 3, 4, 5 and 6 above, the determination of tariffs is based on sound, transparent and objective principles at all times in accordance with the applicable provisions of the Constitution; legislation, regulations and rules; and policies of the Municipality. In order to fully understand the influence of the socio-economic factors the various user categories and forms of subsidisation are defined below.

Users can be divided into the following categories:-

- (a) Users who are unable to make any contribution towards the consumption of services and who are fully subsidised in terms of the basic package of municipal services;
- (b) Users who are able to afford a partial contribution and who are partially subsidised only; and
- (c) Users who can afford the cost of the services in total.

8.2.2 It is important to identify these categories and to plan the tariff structures accordingly. Subsidies currently derived from two sources namely:-

- (a) Contributions from National Government: National Government makes an annual contribution through the equitable share, according to a formula, which is primarily based on information obtained from Statistics South Africa by means of census surveys. If this contribution is judiciously utilised it will subsidise all indigent households who qualify in terms of the Council policy; and
- (b) Contributions from own funds: The Council can, if the contribution of National Government is insufficient, provide in its own operational budget for such support. Such action will in all probability result in increased tariffs for the larger users. Any subsidy must be made known publicly.

8.2.3 In terms of the Bill of Rights every individual has the right to have access to basic services such as food and water, health care, housing and social security. In this regard, the state has an obligation to achieve the progressive realisation of each of these rights. In accordance with the above the Municipality has defined a basic package of municipal services as follow:-

- (a) 6 kl of water per household per month.
- (b) 50 units of electricity per household per month.
- (c) Refuse removal from residential stands in accordance with the municipality's policy.
- (d) Sewer services to residential stands in accordance with the municipality's policy.
- (e) Payment of Rates and Taxes on a residential property in accordance with the municipality's policy.

8.2.4 The Municipality will annually determine as part of its budget process:-

- (a) Totally free services for a basic package of municipal services as defined above (within limits and guide lines);
- (b) Lower tariffs for users who qualify in terms of particular guide lines for a basic package of municipal services as defined above, for example to recover the operational costs of the service only; and

- (c) Full tariff payable with a subsidy that is transferable from sources mentioned above.

8.3 Minimum service levels

- 8.3.1 The Municipality is required in terms of Section 152 (1)(b) and 153 (b) of the Constitution to give priority to the basic needs of the community and to promote the social and economical development of the community, ensuring that all residents within the jurisdiction of the Municipality have access to at least a minimum level of basic municipal services.
- 8.3.2 It is important that minimum service levels be determined in order to make an affordable tariff package available to all potential users, which said minimum service levels shall be determined in accordance with the FBSIS Policy.

8.4 Multiyear budgets

- 8.4.1 In terms of the Municipal Finance Management Act and guidelines from National Treasury, Municipalities are required to compile multiyear budgets as from 2005/2006.
- 8.42 Such a change also necessitates that proposed tariffs would form part of this process, Which such tariffs shall be determined with regard to the Municipality's Budget Policy for the 2017 – 2018 financial year (hereinafter referred to as "the Budget Policy") in addition to the other applicable legislation, regulations, policies and by – laws particularised herein. The provisions of the Budget Policy should accordingly be similarly read as incorporated herein to the extent applicable.
- 8.4.2 An increase in tariffs shall not be implemented annually without considering the affordability thereof by the user. The effect of resolutions that impact on the financial situation of the Council must be observable over a longer period in respect of tariffs and sensible planning of cost structures must be done to keep tariffs within affordable levels.

8.5 Credit Control

- 8.5.1 For the purposes of compiling the necessary tariff's and tariff structures applicable to this By – Law, the credit control system as required by Chapter 9 of the MSA and regulations and as per the Municipality's Policy and By – Law on Customer Care Management, Credit Control and Debt Collection 2017 – 2018, together with the Municipality's Policy and By – Law on Impairment Debt and Write off, shall directly apply and the applicable provisions thereto should be read as if specifically incorporated herein.
- 8.5.2 notwithstanding the above, the applicable provisions pertaining to indigents and Subsidised users shall apply as per regulation 4.5 above.

8.6 Package of services

- 8.6.1 The accounts for rates and services must shall considered jointly to determine the Most reasonably affordable amount that the different users can pay as a total account.

8.6.2 The basic costs of a service must and shall first be recovered and then only may Profits be considered to determine the most economic package for the user with due allowance for future events in regard to a particular service.

8.6.3 The applicable provisions pertaining to indigents and subsidised users may apply as is relevant, on a case to case basis and at the *discretion* of the appropriate duly authorised employee and/or official of the municipality determining same and in accordance with the Municipality's due process as prescribed by law.

8.7 Principles in terms of the Local Government: Municipal Systems Act

8.7.1 The tariff determined in terms of this By – Law shall have regard to the provision of Section 74 (1) – (3) of the MSA, which said provisions reads as follows:

"74. (1) A Municipal council must adopt and implement a tariff policy on the levying of fees for municipal services provided by the municipality itself or by way of service delivery agreements, and which complies with the provisions of this Act and with any other applicable legislation.

(2) A tariff structure must reflect at least the following principles, namely that-

- (a) Users of municipal services should be treated equally in the application of tariffs;*
- (b) The amount individual users pay for services should generally be in proportion to their use of that service;*
- (c) Poor households must have access to at least basic services through-*
 - (i) Tariffs that cover only operating and maintenance costs;*
 - (ii) Special tariffs or life line tariffs for low levels of use or consumption of services or for basic levels of service, or*
 - (iii) Any other direct or indirect method of subsidisation of tariffs for poor households;*
- (d) Tariffs must reflect the costs reasonably associated with rendering the service, including capital, operating, maintenance, administration and replacement costs, and interest charges;*
- (e) Tariffs must be set at levels that facilitate the financial sustainability of the service, taking into account subsidisation from sources other than the service concerned;*
- (f) Provision may be made in appropriate circumstances for a surcharge on the tariff for a service;*
- (g) Provision may be made for the promotion of local economic development through special tariffs for categories of commercial and industrial users;*
- (h) The economical, efficient and effective use of resources, the recycling of waste, and other appropriate environmental objectives must be encouraged;*
- (i) The extent of subsidisation of tariffs for poor households and other categories of users should be fully disclosed.*

(3) A tariff structure may differentiate between different categories of users, debtors, service providers, service standards, geographical areas and other matters as long as the differentiation does not amount to unfair discrimination."

8.8 Historical and future user patterns

8.8.1 Consideration of and regard shall be had to consumption statistics within the jurisdiction of the Municipality for the purpose of determining the tariffs for the various services provided for by the Municipality.

8.8.2 Provision shall be considered for growth and seasonal use, as well as for unforeseen events that may have an impact on the various tariffs.

8.9 User groups

8.9.1 Users are traditionally divided into user groups as set out below:-

- (a) Households;
- (b) Businesses and Government Departments;
- (c) Industries/Bulk consumers; and
- (d) Schools, hostels and Institutions that are directly subsidised for example retirement homes, non-profit organisations, etcetera.

A continuous effort shall be made to group together those users who have more or less the same access to a specific service.

9. FREE BASIC SERVICES

9.1 Free basic municipal services refers to those municipal services necessary to ensure an acceptable and reasonable quality of life, and which service, if not provided, could endanger public health or safety or the environment.

9.2 In terms of the South African Constitution and in accordance with the applicable provisions of the MSA, regulations and the Municipality's FBSIS Policy and By – Law for the period 2017 – 2018, all consumers should have access to basic services.

9.3 The specified free basic services are:

- (a) Water;
- (b) Domestic waste water and sewage removal;
- (c) Domestic refuse removal; and
- (d) Electricity.

10. PROPOSED TARIFF STRUCTURES FOR VARIOUS SERVICES

10.1 It is essential that a compromise be reached between the following needs with the determination of a tariff structure:-

- (a) The need to reflect costs as accurately as possible in order to achieve cost effectiveness;
- (b) The need to ensure equality and fairness between user groups;
- (c) The need for a practically implementable tariff;
- (d) The need to use appropriate metering and provisioning technology;
- (e) The need for an understandable tariff; and
- (f) The user's ability to pay.

10.2 Taking into consideration the abovementioned points the tariff structure of the following services are discussed:-

- (a) Electricity;
- (b) Water;
- (c) Refuse Removal;
- (d) Sewerage;
- (e) Property Rates; and
- (f) Developmental Levy.

10.2.1 Electricity

All electricity services to consumers within the boundaries of Dr JS Moroka Local Municipality is directly supplied by Eskom. The Municipality therefore does not have a tariff policy for Electricity.

50 Units of free basic electricity per month is provided to all indigents registered by the municipality. This monthly cost component of 50 KWh electricity per registered indigent household consumer is paid over to Eskom.

10.2.2 Water

To calculate the tariff for water services, the actual cost incurred in the supply of water to the community has to be taken into consideration. The principle of basic levies as well as a kilolitre tariff for water consumption is determined by the cost structure. In the case of non-metering a flat rate in accordance with the cost structure must be implemented.

This cost structure consists of the following components:-

- (a) Fixed costs: It represents that portion of expenses that must be incurred irrespective of the fact whether or not any water has been sold, for example

the salary of staff with specific tasks relating to the provision of water, cost of capital and insurance that is payable in respect of the infra structure. These costs must be recovered whether any water is used or not. The costs are therefore recovered by means of a fixed levy per period (normally on a monthly basis) which is called a basic charge or an availability charge where a consumer is not connected to the available system, in order to ensure that these costs are covered.

- (b) Variable costs: It relates to the physical provision of water according to demand and must be financed by means of a unit tariff which is payable per kilolitre water consumed.
- (c) Profit taking: It goes with a *pro rata* increase in the fixed levy and unit tariffs after provision has been made for costs.

In principle, the amount that users pay for water services should generally be in proportion to their use of water services. Tariffs must be set at levels that facilitate the sustainability of the service. Currently all users pay for water at a flat rate per month, determined by the category of user, unless indicated differently.

In the case of metered services Dr JS Moroka Municipality utilises a stepped tariff structure to incorporate the national drive to promote water conservation.

Free basic water is provided to all registered indigent household consumers in accordance with the Municipality's FBSIS policy.

Water consumer categories and tariffs are set out in paragraph 9.

10.2.3 Refuse Removal

Refuse removal is an economic service and tariff calculations should be based on the actual cost incurred in delivering the service.

The tariff levied by Dr JS Moroka Municipality is based on the category of user and the number of refuse bins used by the consumer.

The cost of refuse removal services is subsidised for all registered indigent household consumers in accordance with the municipality's indigent policy.

Refuse removal consumer categories and tariffs are set out in paragraph 10.

10.2.4 Sewerage

Sewer service is an economic service and tariff calculations should be based on the actual cost incurred in delivering the service.

The tariff levied by Dr JS Moroka Municipality is based on the type and category of user, unless indicated differently.

The cost of sewerage is subsidised for all registered indigent household consumers in accordance with the municipality's indigent policy.

The sewerage tariff policy is set out in paragraph 11.

10.2.5 Property Rates

Currently all residents (owners or tenants) pay property rates at a flat rate, determined by the category of consumer. The Municipality is in the process of compiling a valuation roll for all properties within the municipal boundaries, to implement property rates based on property values. In applying its rates policy the council shall adhere to all the requirements of the Property Rates Act, 2004, including any regulations promulgated in terms of that Act.

The cost of property rates is subsidised for all registered indigent household consumers in accordance with the municipality's indigent policy.

11. INDIGENT PRINCIPLES

11.1 Objective

11.1.1 Because of the high level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for normal municipal services. 11.4.2 The Council shall have the right to recover any arrear balance accrued by an indigent after deduction of the indigent subsidy.

11.5 Budgeting

11.5.1 The Council must annually budget for the total indigent subsidy to be granted as such. Such amounts must be reflected as a cost against the applicable service.

11.6 Appeal process

11.6.1 Any indigent household application which has been declined, may appeal against such decision. The process for appeal will be determined by the Council from time to time.

11.7 Offences

11.7.1 Any applicant, who misuses the indigent support provisions of the Council, provides incorrect information to the Municipality and/or tampers with the supply of services or municipal installations shall be subject to forfeiture of indigent status, criminal prosecution and any other measures, as determined by the Council from time to time.

11.8 Sundry tariffs

11.8.1 All other services offered by the Council are charged at a tariff as determined by the Council from time to time.
