PROPOSED EXEMPTION PERMIT FEES FOR 2009/2010

It is one of the basic functions of the Abnormal Loads Technical Committee to recommend the fees relating to exemption permits. For obvious considerations of credibility and efficiency fees should be uniformly calculated and applied by all provinces. The new fees will be effective from 1 April 2009.

The proposed fees are set to optimise the income derived by the provincial governments based on actual scientifically determined costs and indexed to the Producer Price Index (PPI)

	2009/10	2008/09	2007/08
(1) Basic permit fees (not recoverable, for permits involving engineering input such as route clearance, GCM > 120 000 kg, stability checks and width > 6,0m)	R 500.00	R 450.00	R 400.00
(2) Basic permit fees for all other permits (not recoverable)	R 185.00	R 165.00	R 150.00

The mass factor, M, is based on a value of R0.18 / km and the congestion factor, K, on a value of 0,01615 based on the June 1995 Production Price Index (namely 100,00) and adjusted annually. The factors for 2009/ 2010 will be based on the latest available figures for June 2005 and then rounded off.

(* These fees can only be calculated shortly before the August meeting.

Motivation for increased fees for 2009/10

The point has been reached where the anomalies that existed previously in the fee structure have largely been rectified. The Minister of Finance and the Governor of the Reserve Bank have indicated that the so-called administered costs imposed by the Civil Service should be kept in check as these costs materially contribute to the rate of inflation.

For that reason the proposed increases in fees for 2009/2010 should be kept as low as possible.

In doing so, allowance is made for the fact that normal licenses are valid countrywide, whereas the permits impose a number of operating restrictions and are only valid per province.

Basic fees for issuing AV permits are split into two categories as shown to allow for the fact that the processing of permits with an engineering involvement requires a great deal more attention than the usual routine permit applications.
