NOTICE 23 OF 2017

**GAMAGARA LOCAL MUNICIPALITY****ENVIRONMENTAL BASIC ASSESSMENT FOR THE
NEW KATHU CEMETERY
PUBLIC PARTICIPATION PROCESS – ENVIRONMENTAL REPORT
FOR REVIEW**

The Gamagara Local Municipality proposes to develop additional space for graves in the town of Kathu. The existing cemetery is nearing capacity and thus additional space is necessary due to the rapid expansion of the town of Kathu, which is partly due to the resettlement of the Dingleton residents. Due to the existing Kathu Cemetery being located in the protected Kathu Forest, extending the existing cemetery is not possible. The best viable alternative is to establish a new cemetery on the remaining extent of the farm Lyleveld 545, approximately 13 km south of central Kathu. The New Kathu Cemetery will be approximately 5 hectares in extent on land owned by the Sishen Iron Ore Company. The land for the new cemetery will be transferred to the Gamagara Local Municipality through a land swap agreement as part of the Dingleton Resettlement project.

This advertisement serves to notify you that the Basic Assessment Report for the proposed project has been completed and will be available for public review from 23 March 2017 until 24 April 2017. Hard copies of the report will be available at the Gamagara Local Municipality Office and the Kathu Library.

The Basic Assessment Report will also be available electronically from SLR Consulting's website at <http://slrconsulting.com/za/slr-documents>

If you wish to submit comments on the Basic Assessment Report, please submit these in writing on or before 24 April 2017 to the person listed below in order for the comments to be considered in the decision-making process. If you have any questions please do not hesitate to contact the person listed below.

You are also notified that the Gamagara Local Municipality will apply for a water use licence/general authorisation in terms of Section 21 (c) and (i) [impeding / altering a watercourse) of the National Water Act, 36 of 1998, as required, for infrastructure within the 1:100 floodline of the Ga-Mogara River.

Synergistics Environmental Services (Pty) Ltd (a SLR Group Company) has been appointed as the independent environmental practitioner responsible for undertaking the necessary environmental work and conducting the public participation process for the project.
