ECONOMIC INFORMATION MANAGEMENT: RESEARCH PROJECTS

(Ref 1002/2005)

The Department of Economic Development is committed to promoting and facilitating economic development in the Province of KwaZulu-Natal, and to ensure that by the 2014, the Province will boast a thriving, dynamic and globally competitive economy, that will house dynamic, industrial and service sectors that will provide sustainable employment opportunities and better quality of life for the inhabitants. For the department to support, monitor and evaluate the attainment of its objectives, it needs amongst other things, sectoral economic data, statistics and information resources covering various economic indicators at district level. The Economic Information Management (EIM) Sub-Programme of the Department of Economic Development is intended to be a "one stop economic information house" that stores in electronic format, economic data, statistics, publications and other relevant information for use by the department's staff and management. Furthermore it will serve as a conduit for the dissemination of research undertaken by the EIU and will provide readily accessible information to EIU staff to guide policy and strategy formulation. The EIU will supply this information.

The key objectives are to —

- be the repository of all relevant economic information
- analyse and continually update economic data
- undertake research, the strategic formulation which will affect the activities of the Department and the province
- provide inter and intra department support in areas of research
- provide detailed regular updated information on this province's core economic sectors
- keep abreast of national policy trends and analyse implications for the Department

The EIM sub-Programme is inviting service providers (individual firms/consultants or a consortium of firms) to tender for the projects listed below.

Project	Description
Identification of Comparative Advantage to Investing in the KwaZulu-Natal Economy and an analysis by major industries	The aim is to conduct a study the KwaZulu-Natal economy by analysing relative levels of cost in order to identify, by reference to the cost structure of key industries, areas where the KZN economy displays comparative advantage. The study should identify industries where inherent comparative advantage has not been fully realised as well as industries that are threatened by a lack of comparative advantage.
Measurement of the use and uptake of national investment incentives in KwaZulu-Natal	The aim of this study is to research the extent to which investors in the KwaZulu-Natal economy are taking advantage of existing incentive and investment funding programmes. The study must also identify and analyse the reasons for low or high uptake of these opportunities. Obstacles and disincentives currently discouraging use of incentives and funding programmes must also be identified.
Identification of the opportunities to increase the value-add in KwaZulu-Natal's dominant export industries and the identification of the constraints to realising these opportunities.	The aim of this study is to collect information related to opportunities to increase value-add in the KwaZulu-Natal economy by unlocking opportunities to beneficiate exports currently passing through the Port of Durban and the Port of Richards Bay as well as Durban International Airport and Johannesburg International Airport. Constraints and obstacles currently preventing the realisation of identified KwaZulu-Natal based export beneficiation opportunities must be identified. The study must include recommendations to government structures regarding action that can be taken to remove or circumvent constraints to the beneficiation of exports.

Service providers will be selected primarily on the basis of service excellence they can provide, their commitment to Black Economic Empowerment (i.e. support of SMME's and PDI's), their knowledge of the area, and the competitiveness of their proposal.

Tenderers must (1) be registered with the Provincial Treasury Service Providers Database, and (2) strictly abide by the requirements of the KZN Procurement Act (Act No. 3 of 2001) and Regulations – more particularly in terms of Declarations and the submission of an original Tax Clearance Certificate. A Provincial Treasury Service Providers Database number must be provided as part of the Tender documentation, together with a completed ZNT30 Form (preference points application).

Terms of Reference for the above projects and Provincial Treasury Forms are available from the Procurement Officers: Ms Mathombi Khoza, Tel.: (031) 3105341, Fax: (031) 3105423.

Technical enquiries regarding these projects should be made to the **Manager: EIM: Mr Nisaar Mahomed** via phone (031) 3105349, Fax: (031) 3105452 or email (mahomed@ecotourl.kzntl.gov.za).

For each tender, six sealed copies of the tender clearly marked “EIM Tenders” and addressed to the **Manager: Economic Information Management** must be deposited into the tender box in the foyer, **1st Floor, The Marine, 22 Gardiner Street, Durban**. Tenders can also be posted to Private Bag X001, Bishopsgate, 4008.

The closing date for tenders is 19 August 2005 at 11:00 sharp.

Emailed, telefaxed or late tenders will not be accepted. Tenders submitted without the basic requirements or clear evidence of Provincial Treasury Database Registration (Database Number) will be immediately disqualified.

Tenders are valid for a period of 12 (twelve) months, and the KwaZulu-Natal Department of Economic Development reserves the right not to accept the lowest tender or any tender it receives.
