ELECTORAL COMMISSION

ELECTION TIMETABLE

THE Electoral Commission hereby gives notice that it has in terms of section 11 of the Local Government: Municipal Electoral Act, 2000, compiled the election timetable set out below to apply to the municipal by-elections to be held on 12 October 2005 in respect of Ward 2 of the Mtubatuba Local Municipality [KZ275 – Inyala] as proclaimed by Provincial Notice numbers 1630 of 2005 as published in the Provincial Gazette Extraordinary of the KwaZulu-Natal Province, No. 6428, dated 6 September 2005. A reference to "section" in this election timetable is a reference to that section in the Local Government: Municipal Electoral Act, 2000 (Act No. 27 of 2000).

Cut-off time for act to be performed

1. An act required in terms of this Act to be performed by not later than a date in the election timetable must be performed before 17:00 on that date, unless otherwise specified.

Certification of the voters' roll

2. By 8 September 2005 the Chief Electoral Officer must certify the segments of the voters' roll for the voting districts to be used in the by-elections in terms of section 6(2)(a).

Notice that lists of addresses of voting stations are available for inspection

3. By 8 September 2005 the Chief Electoral Officer must give notice that copies of a list of voting stations and their addresses will be available for inspection at the office of the Commission's local representative in terms of section 19(5).

Notice of route of mobile voting stations

4. If the Commission decides to use mobile voting stations in the by-elections, the Commission must by 8 September 2005 give notice of the route, including the locations and estimated times of stopping of each mobile voting station in terms of section 22(1).

Cut-off date for nomination of ward candidates to contest an election

5. By not later than 12 September 2005 at 17:00, the nomination of a person to contest the by-election in a Municipality as a ward candidate, must be submitted to the Commission's local representative on a prescribed form and in the prescribed manner in terms of section 17 (1).

Cut-off date for compilation and certification of ward candidate lists

6. By 11 September 2005 the Commission must compile for each ward a list of ward candidates, certify those lists for that by-election, and keep copies of the lists available at the office of the Commission's local representative in terms of section 18 (1).

Cut-off date for issuing certificates

7. By 15 September 2005 the Commission must issue to each ward candidate contesting the by-election, a prescribed certificate in terms of section 18(1)(d).

CHAPTER 1

GENERAL PROVISIONS

Definitions

1. (1) In these By-laws and the Schedules thereto, unless the context otherwise indicates —
 - “**accommodation unit**” means in relation to any premises, a building or section of a building occupied or used or intended for residential occupation or use by any person; but excludes a dwelling unit, an additional dwelling unit and a duet;
 - “**Act**” means the Water Services Act No, 1997 (Act No.108 of 1997);
 - “**additional dwelling unit**” means a free standing or coupled building, comprising a self-contained dwelling unit which does not form part of cluster housing, group housing, medium density housing or chalets, used as a dwelling unit for a single family and including such outbuildings as are incidental thereto and of which the maximum permissible floor area is further defined in the Municipality’s relevant town planning scheme;
 - “**air gap**” means the unobstructed vertical distance through the free atmosphere between the lowest opening from which any pipe, valve or tap supplies water to a tank or fitting or other device, and the overflow level thereof;
 - “**approved**” means approved by the Municipality;
 - “**Authorisation Committee**” means the body authorised to compile the schedule of approved pipes and fittings according to SABS’ standards or JASWIC standards in as far as it is compatible with a closed system as prescribed by the building control officer;
 - “**authorised official**” means a person in the employ of the Municipality, authorised as an authorised official by the Municipality for the purposes of these By-laws, or if the Municipality has appointed a service provider, an employee of such service provider, authorised by it as an

authorised official in terms of Section 102 of these By-laws and acting within the scope of the powers, functions and duties assigned to that service provider by the Municipality.

“backflow” means the flow of water in any pipe or fitting in a direction opposite to the normal direction of flow;

“backflow preventer” means any device or means to prevent backflow;

“back siphonage” means the backflow resulting from pressures lower than the atmospheric pressure in the water installation;

“basic sanitation” means the minimum standard of safe and hygienic sanitation services and sewage disposal rendered to households, prescribed in terms of the Act and regulated under regulation 2 of Government Notice R509 of 8 June 2001, as amended from time to time, or any substitution for that regulation;

“basic water supply” means the minimum standard of water supply services necessary for the reliable supply of water to households to support life and personal hygiene, prescribed in terms of the Act under regulation 3 of Government Notice R509 of 8 June 2001, as amended from time to time, or any substitution for that regulation;

“best practicable environmental option” means the option that provides the most benefit or causes the least damage to the environment as a whole, in both the long and the short term;

“borehole” includes a well, a spring, an excavation or any artificially constructed or improved underground cavity which can be used for the purpose of locating, intercepting, abstracting, collecting or storing water in or removing water from an aquifer, observing and collecting data and information on water in an aquifer or recharging an aquifer;

“building control officer” means any person appointed or deemed to be appointed as building control officer by the Municipality in terms of section 5 of the National Building Regulations and Building Standards Act, 1977 (Act No. 103 of 1977);

“building regulations” means the National Building Regulations made in terms of the National Building Regulations and Building Standards Act, 1977 (Act No. 103 of 1977);

“capacity” in relation to a storage tank means the volume of the tank between the operating water level of the water contained in such tank and the invert of the outlet from the tank;

“combined installation” in relation to water supply means a water installation used for fire-fighting and domestic, commercial or industrial purposes;

“commercial unit” in relation to any premises means any building or section of a building occupied or used, or intended to be used for purposes other than residential occupation;

“communal sewer” means a sewer main and connecting sewers and in respect of which a group of users and/or owners has constituted itself as a person willing to assume responsibility for, and has signed an agreement accepting responsibility, for the maintenance and repair of the communal sewer;

“communal water connection” means a consumer connection through which water services are supplied to more than one consumer, and “communal water services work” has a corresponding meaning;

“connecting point” means the point at which a drainage installation joins the connecting sewer;

“connecting sewer” means a pipe owned by the Municipality and installed by it for the purpose of conveying sewage from a drainage installation on any premises, to a sewer beyond the boundary of those premises, or within a servitude area, or within an area covered by a way-leave document or other type of agreement;

“connection pipe” means a pipe, the ownership of which is vested in the Municipality and installed by it for the purpose of conveying water from a main to a water installation, and includes a “communication pipe” referred to in SANS 10252-1: 2004;

“consumer” means —

- (a) any person who occupies premises to whom, and in respect of which premises, the Municipality —
 - (i) has agreed to provide water supply services;
 - (ii) is providing water supply services; or
 - (iii) has entered into an agreement with the Municipality for the provision of water supply services to or on any premises;
- (b) the owner of any premises to which the Municipality is providing water supply services;
- (c) where water supply services are provided through a single connection to a number of accommodation units or consumers or occupiers, the person to whom the Municipality agreed to provide such water supply services; and
- (d) any end-user who receives water supply services from the Municipality or other water supply services institution.

“day” means a 24 hour period commencing at 00:00 and ending at 24:00;

“domestic purposes” in relation to the supply of water means the general use of water supplied for personal and residential uses, including health and hygiene, drinking, ablution, culinary, household and garden maintenance;

“drain” means that portion of the drainage installation that conveys sewage within any premises;

“drainage installation” means a system situated on any premises and vested in the owner thereof that is used for or intended to be used for or in connection with the reception, storage, treatment or conveyance of sewage or other form of waste water on those premises to the connecting point, and includes a drain, a fitting, an appliance, a septic tank, a conservancy tank, a pit latrine and a private pumping installation forming part of or being ancillary to such system;

“drainage work” includes any drain, sanitary fitting, water supplying apparatus, waste or other pipe or any work connected with the discharge of liquid or solid matter into any drain or sewer or, otherwise connected with the drainage of any premises;

“duet” means an additional dwelling unit with a maximum floor area as allowed for and as approved by way of a consent use by the Municipality in terms of the Municipality’s relevant town planning scheme;

“duly qualified sampler” means a person who takes samples for analysis from the sewage disposal and storm water disposal systems and from public waters and who has been certified to do so by an authorised official.

“dwelling unit” means an interconnected suite of rooms designed for residential purposes and occupation by a single household, regardless of how many persons comprise the household as further defined in the Municipality’s relevant town planning scheme but excludes an accommodation unit;

“ECA” means the Environment Conservation Act, 1989 (Act No. 73 of 1989) and any regulations made in terms thereof, or any superseding legislation;

“effluent” means any liquid, whether or not containing matter in solution or suspension, which is discharged from any premises directly or indirectly into a drainage work;

“ELA” means an environmental impact assessment as contemplated in NEMA, and/or the ECA and the EIA Regulations as published in Government Notice R 1183 on 5 September 1997, as amended from time to time;

- “emergency”** means any situation that poses a risk or potential risk to life, health, the environment, or property, or declared to be an emergency under any law;
- “enforcement notice”** means any notice issued by an authorised official under these By-laws which instructs the person to whom it is issued to comply with the terms of the notice, and includes a compliance notice contemplated in section 105;
- “environmental cost”** means the full cost of all measures necessary to restore the environment to its condition prior to an incident which causes damage to it and, in the event of this not being possible, the value of the cost benefit that has been lost through the damage to or destruction of the environment;
- “fire installation”** means a water installation that conveys water intended for fire-fighting purposes only;
- “fixed quantity water delivery system”** means a water installation, which delivers a fixed quantity of water to a consumer in any single day;
- “general installation”** means a water installation which conveys water for a combination of domestic, commercial and industrial purposes;
- “household”** means the family unit of persons, or individuals, in occupation of a building or part of a building, designed for residential occupation by such family unit, or individuals;
- “industrial effluent”** means any liquid, whether or not containing matter in solution or suspension, which is given off in the course of or as a result of any trade, manufacturing, mining, chemical or other industrial process or in any laboratory, or in the course of research, or agricultural activity, and includes any liquid or effluent emanating from the use of water, other than standard domestic effluent or storm water, and trade effluent bears the same meaning;
- “industrial purposes”** in relation to the supply of water means water supplied to any premises which constitutes a factory as defined in the General Administrative Regulations, published in Government Notice R2206 of 5 October 1984 or any superseding legislation, including the use of water for purposes of mining, manufacturing, retailing and service industries, generating electricity, land-based transport, construction or any related purpose;
- “installation work”** means work in respect of the construction of, or carried out on, a water installation;
- “JASWIC”** means Joint Acceptance Scheme for Water Services Installation Components;
- “law”** means any law, including the common law;
- “main”** means a pipe, other than a connection pipe including a sewer main, vesting in the Municipality and used by it for the purpose of conveying water to or the disposal of sewage from any number of users;
- “manhole”** means a chamber of a depth greater than 750mm and of such dimension that allows the entry of a person into such a chamber for the purposes of providing access to a pipe;
- “measuring device”** means any method, procedure, process, device, apparatus, or installation that enables the quantity and/or quality of water services provided to be quantified or evaluated;
- “meter”** means a water meter as defined by Regulation 81(a) Government Notice R 2362 dated 18 November 1977, published in terms of the Trade Metrology Act, 1973 (Act No. 70 of 1973) or any superseding legislation or, in the case of a water meter of a size greater than 100 mm, a device which measures the quantity of water passing through it, or a measuring device;
- “Minister”** means the Minister of Water Affairs and Forestry;
- “Municipality”** means —
- (a) the uMhlathuze Local Municipality established in terms of the Local Government: Municipal Structures Act, No. 117 of 1998 and its successors in title, and includes a structure or person exercising a delegated power or carrying out an instruction in terms of these By-laws and legislation applicable to Local Government; or
 - (b) a service provider fulfilling a responsibility under these By-laws, assigned to it in terms of section 81(2) of the Local Government: Municipal Systems Act 2000, or any other law,
- as the case may be;
- “National Water Act”** means the National Water Act, 1998, (Act No. 36 of 1998);
- “NEMA”** means the National Environmental Management Act, 1998 (Act No. 107 of 1998);
- “nuisance”** means any condition, thing, act or omission which is offensive or injurious or which tends to prejudice the safety, good order, peace or health of one or more of the residents in any particular locality within the area of the Municipality, or the rights, or reasonable comfort, convenience, peace, or quiet, of the occupants of any area within the Municipality’s jurisdiction;
- “occupier”** means a person who occupies any premises or part thereof;
- “operating water level”** means the level of water reached in a storage tank when the valve controlling the inlet of water to the tank closes under normal operating conditions;
- “owner”** includes —
- (a) the person in whom from time to time is vested the legal title to premises, including, but not limited to, the registered owner according to the title deed;
 - (b) where the owner of the premises concerned is insolvent, deceased, has assigned his estate for the benefit of his creditors, has been placed under curatorship in terms of an order of court, is a close corporation being wound up, or is a company being wound up or under judicial management, the person in whom the administration of such premises is vested as executor, trustee, assignee, curator, liquidator or judicial manager as the case may be;
 - (c) in any case where the Municipality is unable to determine the identity of such person, a person who is entitled to the benefit of the use of such premises; and
 - (d) the lessee under any registered lease of land which is entered into for a period of not less than ten years or for the natural life of the lessee or any other person mentioned in such lease, or which is renewable from time to time at the will of the lessee indefinitely or for periods which together with the first period of such lease amount in all to not less than ten years, whether or not such renewal is dependent on the periodical consent or permission of, or the periodical renewal of a licence by the State or any statutory licensing body;
 - (e) in relation to
 - (i) a piece of land delineated on a sectional plan registered in terms of the Sectional Titles Act, 1986 (Act 95 of 1986), the developer or the body corporate in respect of the common property; and
 - (ii) a section as defined in such Act, the person in whose name the relevant unit is registered under a sectional title deed, and includes the lawfully appointed representative of such person;
 - (f) the lessee of any Municipal owned immovable property for the duration of the lease;
 - (g) any person who acquires any right to land by virtue of the provisions of any law applicable in the Province of KwaZulu-Natal;

- (2) If any provision in these By-laws vests or imposes any power, function or duty of the Municipality in or on an employee of the Municipality and such power, function or duty has in terms of section 81 (2) of the Local Government:

Municipal Systems Act, 2000, or any other law been assigned to a service provider, the reference to such employee must be read as a reference to the service provider or, where applicable, an employee of the service provider authorised by it.

Meaning of certain words the same as in Acts

2. Any word or expression used in these By-laws to which a meaning has been assigned in —
- the Act will bear that meaning; and
 - the National Building Regulations and Building Standards Act 1977 (Act No.103 of 1977), and Chapter III of the Building Regulations thereunder, will bear that meaning;
- unless the context indicates otherwise.

Levels of Service

3. (1) The Municipality may provide the various levels of service set out in sub-section (2) to consumers and users at fees set out in the Tariff of Charges, determined by the Municipality.
- (2) the levels of service shall comprise —
- Service Level 1,
which must satisfy the minimum standard for basic water services as required in terms of the Act and its applicable regulations, and must consist of —
 - a water supply from communal water points; and
 - a ventilated improved pit latrine located on each site;
 and
 - Service Level 2,
which must consist of —
 - a water connection whether metered or unmetered to each stand with an individual yard standpipe; and
 - a metered water connection and where the toilet is connected to either a municipal sewer or a shallow communal sewer system; or
 - a pour flush toilet which must not be directly connected to the water installation; or
 - a ventilated improved pit latrine
which service must be provided to consumers and/or users at the fees set out in the Tariff of Charges determined by the Municipality, provided that —
 - the average water consumption per unmetered stand through the water connection for the zone or group of consumers in the zone does not exceed 6kl over any 30 day period;
 - the water standpipe is not connected to any other terminal water fittings on the premises;
 - in the case of a communal sewer having been installed a collective agreement has been signed by the group of users accepting responsibility for the maintenance and repair of the communal sewer; and
 - the Municipality may adopt any measures considered necessary to restrict the water flow to Service Level 2 consumers to 6kl per month per consumer.
 - Service Level 3
Which must consist of —
 - a metered full pressure water connection to each stand; and
 - a conventional water borne drainage installation connected to the Municipality's sewer.
- (3) If a consumer receiving Service Level 2 contravenes subparagraph (aa) or (bb) to subsection (2)(b) —
- the Municipality may install a pre-payment meter or restrictor in the service pipe on the premises; and
 - the fees for water services must be applied in accordance with section 8.

Notices and Documents

4. (1) Notices relating to a breach of these By-laws on premises shall be served:
- on the owner of the premises where matters relating to the water services installation are involved; and
 - on the consumer and/or user where matters relating to the use of a water installation are concerned;
- (2) A notice or document issued by the Municipality in terms of these By-laws shall be deemed to be duly issued if it is signed by an authorised official.
- (3) Any notice or other document that is served on a person in terms of these By-laws, is regarded as having been served —
- when it has been delivered to that person personally;
 - when it has been left at the person's place of residence or business in the Republic with a person apparently over the age of sixteen years;
 - when it has been posted by registered or certified mail to that person's last known residential or business address in the Republic and an acknowledgement of the posting thereof from the postal service is obtained;
 - if that person's address in the Republic is unknown, when it has been served on that person's agent or representative in the Republic in the manner provided by paragraphs (a), (b) or (c); or
 - if that person's address and agent or representative in the Republic is unknown, when it has been posted in a conspicuous place on the premises, if any, to which it relates.

- (4) In the case where compliance with a notice is required within a specified number of working days, such period shall be deemed to commence on the date of service of such notice, as contemplated in subsection (3).
- (5) The Municipality may, in the notice, order a person who, by act or omission commits a breach of these By-laws or of any condition imposed there under to remedy such breach within a period specified in the notice.
- (6) If a person fails to comply with a written notice served on that person by the Municipality in terms of these By-laws within the specified period, it may take such action or do such work as in its opinion is necessary to ensure compliance, and recover the cost of such action or work from such person.

Interference with water services

5. (1) No person may —
 - (a) operate or maintain any part of the water supply system;
 - (b) operate any sewage disposal system;
 - (c) effect a connection or reconnection to the water supply system or sewage disposal system; or
 - (d) render any other sanitation services;
 unless authorised to do so by the Municipality in writing.
- (2) No person may interfere with, or wilfully or negligently damage, or permit damage to or interference with any part of the water supply system or sewage disposal system belonging to the Municipality.

Obstruction of access to water supply system or sanitation service

6. No person may prevent or restrict physical access to the water supply system or sewage disposal system by any employee or duly authorised agent of the Municipality.

Power of entry and inspection

7. (1) An authorised official may for any purpose connected with the implementation or enforcement of these By-laws or for the upgrading, functioning or maintenance of the water services, at all reasonable times, after having given notice of the intention to do so, or in an emergency at any time, enter premises, request information and carry out such inspection and examination as that official may deem necessary, and for those purposes operate any water fitting of the water installation or sewage disposal system.
- (2) If the Municipality considers it necessary that work be performed to enable an authorised official to perform a function referred to in subsection (1) properly and effectively, it may —
 - (a) by written notice require the owner or occupier of the premises at his or her own expense to do specified work within a specified period; or
 - (b) if in its opinion the situation is a matter of urgency, without prior notice do such work or cause it to be done at the expense of the owner.
- (3) If the work referred to in subsection (2) is carried out for the sole purpose of establishing whether a contravention of these By-laws has been committed and no such contravention is established, the Municipality shall bear the expense connected therewith together with that of restoring the premises to its former condition.
- (4) If an authorised official requires the presence of —
 - (a) an owner at an inspection of his or her water installation or sewage disposal system; or
 - (b) a registered plumber doing installation work at an inspection of such work;
 that official may give such person written notice of not less than 5 (five) working days to that effect, indicating the date and time when and the place where he or she proposes to carry out the inspection.

Fees for Services

8. (1) All fees payable in respect of water services rendered by the Municipality in terms of these By-laws, including but not limited to the payment of connection fees, fixed fees or any additional fees or interest in respect of failure to pay such prescribed fees on the specified date, shall be prescribed by resolution of the Municipality and must be in terms of section 10 of the Act and the regulations made thereunder.
- (2) All fees determined by the Municipality for the use of its sewers, or for discharge into the sewage disposal system or otherwise in connection with such system are payable in accordance with the Tariff of Charges in Schedule A of these By-laws by the owner of the premises.
- (3) If any piece of land, whether or not there are any improvements thereon, is, or in the opinion of the Municipality, could be connected to a water supply system or a sewer, the owner of that land must pay to the Municipality the fees determined by the Municipality.

Deposit

9. (1) Every consumer must on application for the provision of water services and before such water services will be provided by the Municipality, deposit with the Municipality a sum of money as determined in the Municipality's Credit Management By-laws.
- (2) If, upon the termination of the agreement for the provision of water services, an amount remains due to the Municipality in respect of water services rendered to the consumer, the Municipality may apply the deposit in payment or part payment of the outstanding amount and refund any balance to the consumer, if the address of the consumer is known.
- (3) No interest will be paid by the Municipality on the amount of a deposit held by it in terms of this section.

Payment for water services

10. (1) Water services provided by the Municipality must be paid for by the consumer and/or user at the prescribed fees for the particular category of water services provided.
- (2) A consumer and/or user is responsible for the payment of all water services provided to him or her from the date of commencement of the service to the date of termination thereof.
- (3) The Municipality may estimate the quantity of water services provided in respect of a period or periods within the interval between successive measurements which may not be more than 180 (one hundred and eighty) days apart, and may render an account to the consumer and/or user for the services so estimated, which estimate must, for the purposes of these By-laws, be regarded as an accurate measurement until the contrary is proved.
- (4) If a consumer and/or user uses water services for a category of use other than that for which it is provided by the Municipality in terms of an agreement and as a consequence is charged at a rate lower than the rate that should have been charged, the Municipality may make an adjustment of the amount charged in accordance with the rate which should have been charged and recover from the consumer and/or user the fees payable in accordance with such adjustment, and may also review the amount of the deposit held, in accordance with the provisions of the Credit Management By-laws.
- (5) If amendments to the prescribed fees for water services provided become operative on a date between measurements for the purposes of rendering an account in respect of such fees —

- (a) the same quantity of water services must be regarded as having been provided in each period of 24 (twenty-four) hours during the interval between the measurements; and
 - (b) any prescribed fee must be calculated on a pro rata basis in accordance with the prescribed fee which applied immediately before such amendments.
- (6) Failure by the Municipality to comply with the period of 180 (one hundred and eighty) days referred to in subsection (3) will not disentitle the Municipality from recovering any monies due to it by a consumer and/or user.
- (7) If a consumer and/or user is dissatisfied with an account rendered for water services supplied to him or her by the Municipality he or she may, prior to the due date stipulated therein, object in writing, or be assisted by the Municipality to object in writing, to the account, setting out his or her reasons for such dissatisfaction; provided that the lodging of an objection shall not entitle a consumer and/or user to defer payment except with the written consent of the Municipality.

Payment in respect of prepayment meters

11. When a consumer is supplied with water through a prepayment meter, in addition to the requirements of sections 9 and 10:
- (a) no refund of the amount tendered for the purchase of water credit shall be given at the point of sale after initiation of the process by which the prepayment meter token is produced;
 - (b) when a consumer vacates any premises where a prepayment meter is installed, no refund for the credit remaining in the meter shall be made to the consumer; and
 - (c) the Municipality shall not be liable for the reinstatement of credit in a prepayment meter lost due to tampering with, or the incorrect use or abuse of a prepayment meter and/or token.

Accounts

12. (1) Accounts must be rendered and administered in accordance with the requirements and policies of the Municipality and subject to Credit Management By-laws passed by the Municipality.
- (2) If it is established that a meter is defective, the Municipality must, in accordance with section 33, adjust the account rendered.

Termination of Agreements

13. (1) Subject to the provisions of subsection (9) —
- (a) a consumer and/or user may terminate an agreement for the provision of water services by giving to the Municipality not less than 7 (seven) days' notice in writing of his or her intention to do so;
 - (b) the Municipality may, by notice in writing of not less than 14 (fourteen) days, advise a consumer and/or user of the termination of his or her agreement for the provision of water services if —
 - (i) he or she has not used the water services during the preceding 6 (six) months and has not made arrangements to the satisfaction of the Municipality for the continuation of the agreement;
 - (ii) he or she has failed to comply with the provisions of these By-laws and has failed to rectify such failure to comply following the issue of a compliance notice or has failed to pay prescribed fees due and payable: Provided that the provisions of the Act, these By-laws and any other applicable law must be followed before the agreement is terminated; or
 - (iii) an arrangement has been made by such consumer and/or user with another water services institution to provide water services to the consumer and/or user;
- (2) the Municipality may, after having given notice, terminate an agreement for water services if a consumer and/or user has vacated the premises to which such agreement relates.
- (3) (a) If it is determined by a body legally entitled to do so, other than the Municipality, that an existing water service on private premises, or emanating from private premises, is creating environmental damage or water pollution, or water wastage, and the owner of the premises or consumer or user, whichever is applicable, is directed to carry out measures as are required under any Act or law to rectify the situation, the Municipality is not liable for any damages arising as a result of the measures required to be taken or in respect of damages suffered as a result of a permanent or temporary termination of the water services.
- (b) Should the owner of the premises or consumer or user, whichever is applicable, fail to carry out such measures, the Municipality may, subject to the provisions of Chapter 4, undertake the measures required, and any expenditure incurred may be recovered from the owner of the premises or the consumer or user as the case may be.

Prohibition of access to water services other than through the Municipality

14. (1) No person is permitted to have access to water services from a source other than the Municipality, without its written approval.
- (2) Despite the provision of subsection (1) hereof, a person who, at the commencement of these By-laws, was using water services from another source may continue to do so —
- (a) for a period of 60 (sixty) days after he or she has been requested to apply for approval;
 - (b) thereafter until the application for approval is granted, if it has not been granted within that period; or
 - (c) for a reasonable period thereafter, within the discretion of the Municipality, if the application for approval is refused.
- (3) In granting approval, the Municipality may require the person seeking approval to supply such services as may be specified in the approval to others on reasonable terms, which must be specified by the Municipality.

Water services intermediaries

15. (1) An intermediary for the supply of water and sanitation services must be registered with the Municipality.
- (2) The quality, quantity and sustainability of water services provided by the intermediary must meet the minimum standards prescribed by the Minister and must in all respects comply with the relevant provisions of these By-laws.
- (3) Fees charged by an intermediary must comply with the norms and standards prescribed under the Act and any additional norms and standards required by these By-laws or set by the Municipality.
- (4) In the event of a failure by the intermediary to perform its functions effectively, the Municipality may, subject to the provisions of section 26 of the Act, direct the intermediary to rectify its failure, and if the direction is not complied with, the Municipality may itself take over such functions.
- (5) When the intermediary is capable of resuming its functions effectively, the Municipality must stop exercising such functions on behalf of the intermediary and may recover from the intermediary all expenses incurred and losses suffered as a result of having acted on behalf of the intermediary.
- (6) The Municipality must monitor the performance of intermediaries to ensure that norms and standards for fees, any conditions set by the Municipality, the provisions of these By-laws and any contractual arrangements between the parties are adhered to.

General responsibility for compliance with these By-laws and other laws

16. (1) The owner of premises is ultimately responsible for ensuring compliance with these By-laws in respect of all or any matters relating to any installation, and if he or she is not the consumer and/or user who actually uses the water services, the owner is jointly and severally liable with such consumer and/or user in respect of all matters relating to the use of any water services on his or her premises, including any financial obligation.
- (2) The consumer and/or user is primarily responsible for compliance with these By-laws in respect of matters relating to the use of any water services.
- (3) No approval given under these By-laws relieves any owner or consumer or user, whichever may be applicable, from complying with any other law relating to the abstraction and use of water, or the disposal of effluent.

Unauthorised use of water services

17. No person shall take water from the water supply system —
- (1) until an agreement referred to in section 18 or 19(1) has been concluded;
- (2) except through a connection pipe as provided in terms of section 22 or from a fire installation in terms of section 29.

CHAPTER 2
WATER SUPPLY SERVICES

Part 1

Application for Service

Application for supply of water

18. (1) No person, other than one on Service Level 1, may consume, abstract or be supplied with water, unless such person has applied to the Municipality on the **prescribed form** for such service, and such application has been agreed to.
- (2) An application for the use of water supply services approved by the Municipality constitutes an agreement between the Municipality and the applicant, and takes effect on the date referred to in the application.
- (3) The person referred to in subsection (2) will be liable for all the prescribed fees in respect of water supply services rendered to that person until the agreement has been terminated in accordance with these By-laws, and is the consumer for all purposes during the currency of this agreement.
- (4) The Municipality may, if it deems necessary, require a third party to be bound jointly and severally as surety and co-principal debtor with the consumer, for the payment of any prescribed fee.
- (5) The application form must at least contain the following information —
- (a) acceptance by the consumer of the provisions of these By-laws and acceptance of liability for the cost of all water consumed until the agreement is terminated;
- (b) name of consumer, and the consumer's identity or registration number, where applicable;
- (c) address or stand number of premises at which water is to be supplied, or on which a communal water connection operates;
- (d) address to which accounts must be sent;
- (e) the purpose for which water is to be used;
- (f) the agreed date on which the water service shall be provided.
- (6) The applicant must be informed if the Municipality refuses an application for the provision of water supply services, or is unable to render such water supply services on the date requested for provision of services to commence, or is unable to render the water supply services, and the Municipality must furnish the applicant with the reasons therefor and, if applicable, the date when the Municipality will be able to provide such water supply services.

Special agreements for supply of water

19. (1) The Municipality may enter into a special agreement for the supply of water to an applicant —
- (a) inside its area of jurisdiction, if the supply necessitates the imposition of conditions not contained in the **prescribed form**; and
- (b) outside its area of jurisdiction, if such application has been approved by the municipality in which the applicant resides.
- (2) If the Municipality provides a supply of water to an applicant outside its area of jurisdiction in terms of a special agreement, it may permit him or her to sell such water to other persons outside its area of jurisdiction, only if provision has been made therefor in the special agreement, or the written permission of the Municipality to do so has been obtained.

Purpose of supply

20. Where the purpose for which water is used changes, the consumer shall enter into a new agreement as prescribed in Sections 18 and 19.

General conditions of water supply

21. (1) Subject to the provisions of the Act, the supply of water by the Municipality shall not constitute an undertaking by it to maintain at any time or at any point in its water supply system —
- (a) an uninterrupted supply;
- (b) a specific pressure or rate of flow in such supply; or
- (c) a specific standard of quality of the water.
- (2) The Municipality may, subject to the provisions of subsection (1)(b), specify the maximum height in a building, or the maximum height above ground level or mean sea level, to which water will be supplied from the water supply system.
- (3) If an owner and/or consumer require that any of the standards referred to in subsection (1) be maintained on the owner's premises, the owner shall make provision in the water installation for such operation and maintenance.
- (4) The Municipality may, in an emergency, interrupt the supply of water to any premises without prior notice.
- (5) If in the opinion of the Municipality the consumption of water by a consumer adversely affects the supply of water to another consumer/s, it may apply such restrictions as it may deem fit to the supply of water to the first-mentioned consumer in order to ensure a reasonable supply of water to the other consumer/s.
- (6) The Municipality will not be liable for any damage to premises caused by water flowing from fittings left open when the water supply is reinstated, following an interruption in supply for any reason.
- (7) Every steam boiler and any premises with installations which require, for the purposes of the work undertaken on the premises, a continuous supply of water, must have a storage reservoir fitted and maintained in working order and holding a water supply deemed adequate by the owner/consumer of the premises.

- (8) No consumer may resell water supplied to him by the Municipality, except with the written permission of the Municipality, which may stipulate the maximum price at which the water may be resold, and may impose such other conditions as the Municipality may deem necessary.

Part 2

Connection of water supply

Provision of connection pipe

22. (1) If an agreement for a supply of water in respect of premises has been concluded and no connection pipe exists in respect of the premises, the owner shall apply on the **prescribed form** and pay the prescribed charge for the installation of such a pipe.
- (2) If an application is made for a supply of water to premises which are so situated that it is necessary to extend the water supply system in order to supply water to the premises, the Municipality may agree to the extension subject to such conditions as it may impose.

Location of connection pipes

23. (1) A connection pipe provided and installed by the Municipality must —
- be located in a position and be of a suitable size determined by the Municipality; and
 - terminate at the boundary of the land owned by or vested in the Municipality, or over which it has a servitude or other right, or at the outlet of the water meter if the meter is located on the premises being supplied.
- (2) In reaching agreement with an owner concerning the location of a connection pipe, the Municipality shall ensure that the owner is aware of —
- practical restrictions which may exist regarding the location of a connection pipe;
 - the cost implications of the various possible locations of the connection pipe;
 - whether or not the Municipality requires the owner to fix the location of the connection pipe by providing a portion of the owner's water installation at or outside the boundary of the owner's premises, or such agreed position inside or outside his or her premises where the connection is required, for the Municipality to connect to such installation.

Interconnection between premises

24. An owner of premises shall ensure that no interconnection exists between the water installation on the owner's premises and the water installation on other premises, unless the owner has obtained the prior written consent of the Municipality and complies with any conditions that it may have imposed.

Provision of single water connection for supply to several consumers on same premises

25. (1) Only one connection pipe to the water supply system may be provided for the supply of water to any premises, irrespective of the number of accommodation units, commercial units or consumers located on such premises.
- (2) Where the owner, or the person having charge or management of any premises on which several accommodation units, commercial units, or consumers are situated, requires the supply of water to such premises for the purpose of separate supply to the different units or consumers, the Municipality may, in its discretion, provide and install either —
- a single measuring device in respect of the premises as a whole or a number of such units or consumers; or
 - a separate measuring device for each such unit or consumer or any number thereof provided such device is on the street boundary.
- (3) Where the Municipality has installed a single measuring device as contemplated in subsection (2)(a), the owner or the person having the charge or management of the premises, as the case may be —
- must, if the Municipality so requires, install and maintain on each branch pipe extending from the connection pipe to the different units or consumers —
 - a separate measuring device; and
 - an isolating valve; and
 - is liable to the Municipality for the prescribed fees for all water supplied to the premises through such single measuring device, irrespective of the different quantities consumed by the different consumers served by such measuring device.
- (4) Notwithstanding the provisions of subsection (1), the Municipality may permit more than one connection pipe to be provided on the water supply system for the supply of water to any premises comprising, duets provided, that such connections are separately metered and provided on the street boundary.
- (5) Where the provision of more than one connection pipe is authorised by the Municipality in terms of subsection (4), the prescribed fees for the provision of a connection pipe are payable in respect of each connection so provided.
- (6) Where the premises are supplied with water by a number of connection pipes, the Municipality may require the owner to reduce the number of connection points and alter the owner's water installation accordingly at the owner's expense.

Restriction or cutting-off of supply

26. (1) Without prejudice to any other right it may have, the Municipality may, if a consumer has —
- failed to pay a sum due to it in terms of these Bylaws; or
 - committed a breach of these bylaws and has failed to rectify such breach within the period specified in a written notice served on the consumer requiring the consumer to do so;
- act against such a consumer in terms of these Bylaws, the Municipality's Credit Management By-laws or other applicable legislation.
- (2) If, in the opinion of the Municipality, action is necessary as a matter of urgency to prevent waste of water, damage to premises or water installations, danger to life or pollution of water, it may —
- without prior notice, cut off the supply of water to any premises; and
 - enter upon such premises and do such emergency work, at the owner's expense, as it may deem necessary, and in addition by written notice require the owner to do such further work as it may deem necessary within a specified period.
- (3) Tampering
- Where a water supply has been tampered with or the meter bypassed, the Municipality may apply the provisions of its Credit Management Bylaws and/or disconnect the relevant supply immediately and without any notice whatsoever, and in such a way that no further water supply at those premises is possible. The consumer will be charged the applicable tampering fee.
 - Transgressors will be dealt with in the following manner:
 - First Tampering Offence:
 - Supply will be isolated at point of supply.

- Written notification will be given to the consumer informing the consumer of isolation, as well as the fees due in respect of the tampering fee for a first offence, and the calculated amounts.
 - The Municipality will only re-instate services after the required amounts mentioned in the notification have been paid.
- (ii) **Second Tampering Offence:**
- In instances of a second tampering offence, the Municipality may immediately disconnect the service supply and remove pipes and the meter.
 - A written notification will be sent to the consumer informing the consumer of the removal of the services and of any outstanding fees, including tampering fees and calculated amounts due. If the money due has not been paid by a specific date and time to be mentioned in the notice, the matter will be referred for debt collection.
 - A written notification will also be sent to the owner of the premises to the effect that the service supply has been removed and that a new supply will only be installed after the following conditions have been met :
 - A written application for reconnection of the supply, including a motivation, has been received and approved by the Municipality.
 - The fee for a new connection, including the pipe cost, as well as all calculated amounts and all other outstanding required amounts, including property tax, have been paid.
- (c) In addition to the provisions of this section, the Municipality may enforce any other rights or exercise any power conferred upon it by the Act, the Municipality's Water Bylaws and any other applicable legislation.

Interruption of supply at consumer's request

27. (1) The Municipality may, at the written request of a consumer —
- (a) cut off the supply of water to the consumer's premises; and
 - (b) restore the supply;
- on the dates requested by the consumer.
- (2) The consumer shall, prior to the restoration of the water supply in terms of this section, pay the actual cost plus 10% (ten) percent for the cutting-off of the supply of water, and for its restoration.

Disconnection of water supply

28. The Municipality may disconnect a water installation from the connection pipe and remove the connection pipe if —
- (1) the agreement for supply has been terminated in terms of section 13 and it has not received an application for a subsequent supply of water to the premises served by the pipe within a period of 90 (ninety) days of such termination; or
 - (2) the building on the premises concerned has been demolished.

Water supplied from a fire installation

29. (1) The Municipality may permit a temporary supply of water to be taken from one or more fire installations specified by it.
- (2) A person who desires a temporary supply of water referred to in subsection (1) shall apply in the manner prescribed in section 18(1) and subject to such conditions as may be prescribed by the Municipality on the **prescribed form**.
- (3) The Municipality may, for purposes of supplying water from a fire installation, provide a portable water meter to be returned to the Municipality on termination of the temporary supply, which portable meter and all other apparatus and fittings used for the connection of a portable water meter to a fire installation remains the property of the Municipality and will be provided subject to any conditions imposed by the Municipality.

Part 3

Measuring water supplied

Measuring the quantity of water supplied

30. (1) All water supplied at service level 3 and, if applicable, also at service level 2, to a consumer by the Municipality, shall pass through a meter or other measuring device for the purpose of measuring the quantity of water consumed.
- (2) A meter referred to in subsection (1) and its associated apparatus shall be provided and installed by the Municipality, shall remain its property, and may be changed by the Municipality whenever it deems necessary.
- (3) (a) The Municipality may install the meter, and its associated apparatus, serving a water installation at any point in the installation;
- (b) If the Municipality installs a meter in a water installation in terms of paragraph (a), it may install a section of pipe and associated fittings between the end of its connection pipe and the meter, and such section shall be deemed to form part of the water installation.
- (4) If the Municipality installs a meter together with its associated apparatus in a water installation in terms of subsection (3), the owner shall —
- (a) provide a place satisfactory to the Municipality in which to install it;
 - (b) ensure that unrestricted access is available to it at all times;
 - (c) be responsible for its protection and be liable for the costs arising from damage thereto, excluding damage arising from normal fair wear and tear;
 - (d) ensure that no connection is made to the pipe in which the meter is installed, between the meter and the connection pipe serving the installation;
 - (e) keep the meter clean, accessible, free from debris and prevent the meter being overgrown by grass or plants; and
 - (f) make provision for the drainage of water which may be discharged, from the pipe in which the meter is installed, in the course of work done by the Municipality on the meter.
- (5) No person other than an authorised official shall —
- (a) disconnect a meter and its associated apparatus from the pipe in which they are installed;
 - (b) break a seal which the Municipality has placed on a meter; or
 - (c) in any other way interfere with a meter and its associated apparatus.
- (6) If the Municipality considers that the size of a meter is unsuitable by reason of the quantity of water supplied to premises, it may install a meter of such size as it may deem necessary, and may recover from the owner of the premises concerned the prescribed charge for the installation of the meter.

Quantity of water supplied to consumer

31. (1) For the purpose of assessing the quantity of water supplied to a consumer during any period and measured through a meter installed by the Municipality over a specific period, it shall be deemed, unless the contrary can be proved, that —

- (a) the quantity is represented by the difference between readings of the meter taken at the beginning and end of such period;
 - (b) the meter was registering correctly during such period; and
 - (c) the entries in the records of the Municipality were correctly made.
- (2) If water is supplied to, or taken by, a consumer without its passing through a meter, the estimate by the Municipality of the quantity of such water shall be deemed to be correct.
- (3) If a meter is by-passed and a contravention of section 30(5) occurs, the Municipality, may for the purposes of rendering an account, make an estimate, in accordance with subsection (4), of the quantity of water supplied to the consumer during the period that water was so taken by the consumer.
- (4) For the purposes of subsection (3), an estimate of the quantity of water supplied to a consumer must be based on —
- (a) the average monthly consumption of water on the premises registered over three succeeding measuring periods over not more than 180 (one hundred and eighty) days in total, after the date on which the irregularity referred to in subsection (2) was discovered and rectified; and/or
 - (b) the period preceding the date referred to in subsection (2) but not exceeding 36 (thirty six) months.

Defective meters

32. (1) If a consumer has reason to believe that a meter, used for measuring water, which was supplied to the consumer by the Municipality, is defective, the consumer may, against payment of the prescribed fee, make application in writing for the meter to be tested.
- (2) The prescribed fee referred to in subsection (1) shall be —
- (a) retained by the Municipality if the meter is found in terms of subsection (3) or (4) not to be defective; or
 - (b) refunded to the applicant if the meter is found in terms of those subsections to be defective.
- (3) A meter to which the regulations relating to water meters published under the Trade Metrology Act, 1973 (Act No 77 of 1973) are applicable shall be deemed to be defective if, when tested in accordance with SANS 1529-1: 2003, is found to have a percentage error in over-registration or under-registration greater than that permitted for a meter in use in terms of that specification.
- (4) A meter of size greater than 100mm diameter to which the specification referred to in subsection (3) is not applicable, shall be deemed to be defective if it is found to have a percentage error in over-registration or under-registration greater than 5 % (five percent) when tested between 20% (twenty percent) and 75% (seventy-five percent) of its designed maximum rate of flow.
- (5) In addition to applying the provisions of subsection (2) if the meter is found to be defective, the Municipality must —
- (a) repair the meter or install another meter which is in good working order, without charging the consumer, unless the costs thereof are recoverable from the consumer where section 30(5) has been contravened;
 - (b) determine the quantity of water supply services for which the consumer will be charged on the basis set out in section 33.
- (6) Any meter removed by the Municipality for testing must be retained intact and must be available for a period of 3 (three) months after testing.

Adjustment of quantity of water supplied through defective meter

33. (1) If a meter is found to be defective, the Municipality may estimate the quantity of water supplied to the consumer concerned during the period in which, in its opinion, such meter was defective, on the basis of the average daily quantity of water supplied to the consumer over —
- (a) a period between 2 (two) successive measurements subsequent to the replacement of the meter or, if this is not possible;
 - (b) the period in the previous year, corresponding to the period in which the meter was defective or, if this is not possible;
 - (c) the period between 3 (three) successive measurements prior to the meter becoming defective.
- (2) (a) If the quantity of water supplied to a consumer during the period when the consumer's meter was defective cannot be estimated in terms of subsection (1), the Municipality may estimate the quantity; and
- (b) the consumer must be informed of the method used by the Municipality to estimate the quantity of water supplied to the consumer as contemplated in subsections (1) and (2), and given the opportunity to make representations within 14 (fourteen) days to the Municipality before a final estimate is arrived at.

Special meter reading at request of consumer

34. The Municipality must, on receipt from the consumer of a written notice of not less than 7 (seven) days and subject to payment of the prescribed fee, read a meter at a time or on a day other than that upon which it would normally be read.

Special measurement

35. (1) If the Municipality wishes, for purposes other than charging for water consumed, to ascertain the quantity of water which is used in a part of the water installation, it may by written notice advise the owner concerned of its intention to install a meter at such point in the water installation as it may specify.
- (2) The installation of a meter referred to in subsection (1), its removal, and the restoration of the water installation after such removal shall be carried out at the expense of the Municipality.
- (3) The provisions of sections 30(4) and 30(5) shall apply insofar as they may be applicable in respect of a meter installed in terms of subsection (1).

Part 4

Payment and accounts

Payment for water supplied

36. All water supplied by the Municipality must be paid for by the consumer in accordance with section 10 of these By-laws.

Water accounts

37. The Municipality shall barring circumstances referred to in section 33, show on each metered water account rendered to a consumer the actual meter readings in kilolitres, together with the dates of the readings and the total amount due in Rands.

No reduction of amount payable for water wasted

38. A consumer shall not be entitled to a reduction of the amount payable for water wasted in a water installation.

Charges other than for water supplied

39. (1) The Municipality may, in addition to fees authorised elsewhere in these By-laws, prescribe and levy any of the following fees:
- (a) A fee payable by the consumer in respect of each connection pipe or meter provided by the Municipality to serve the premises occupied by the consumer, whether or not water has been supplied to the consumer, the fee being due from the date of the agreement referred to in sections 18(1) or 18(2), whichever is applicable. Such fee shall not be based on any quantity of water consumed.

- (b) A monthly fee payable by the owner in respect of premises which, in the opinion of the Municipality, can reasonably be connected to the water supply system but is not so connected.
- (2) The consumer and the owner of the premises are jointly and severally liable to pay the fees determined by the Municipality, in respect of any fire extinguishing installation or appliance used or installed upon such premises.

Part 5

Municipality approval for work and use of pipes and fittings

Approval of installation work

40. (1) If an owner wishes to have installation work done, the owner shall first obtain the Municipality's written approval; provided that approval shall not be required in the case of water installations in dwelling units or installations where no fire installation is required, or for the repair or replacement of an existing pipe or water fitting other than a fixed water heater and its associated protective devices.
- (2) If any of the installation work is governed by the EIA Regulations, then the owner must ensure compliance and obtain the relevant authorisation in respect thereof.
- (3) Application for the approval referred to in subsection (1) shall be made on the **prescribed form** and shall be accompanied by —
- the prescribed fees, if applicable; and
 - copies of the drawings as prescribed by the Municipality, giving information in the form required by the relevant clause of SANS 10252-1: 2004; or
 - a certificate from a person approved by the Municipality certifying that the installation has been designed in accordance with SANS 10252-1: 2004 or has been designed on a basis approved by the Municipality.
- (4) The provisions of subsections (1), (2) and (3) shall not apply to a registered plumber who replaces a fixed water heater or its associated protective devices.
- (5) Authority given in terms of subsection (1) shall lapse at the expiry of a period of 24 (twenty-four) months after the first day of the month succeeding the month in which the authority is given.
- (6) A complete set of approved drawings of installation work must be available at the site of the work at all times until such work has been completed, where permission is required in terms of subsection (1).
- (7) If installation work has been done in contravention of subsections (1), (2) or (3), the Municipality may by written notice require the owner of the premises concerned to comply with that regulation within a specified period, and if work is in progress, to cease the work, and may further require the owner to remove all such work which does not comply with these By-laws.

Persons permitted to do installation work

41. (1) No person who is not registered with the SAQCC for the Water Supply Industry, in the category appropriate for the work to be undertaken, shall be permitted to:
- do installation work other than the replacement or repair of an existing pipe or water fitting;
 - replace a fixed water heater or its associated protective devices;
 - inspect, disinfect and test a water installation, fire installation or storage tank;
 - service, repair or replace a backflow preventer; or
 - install, maintain or replace a meter provided by an owner in a water installation.
- (2) No person shall require or engage a person who is not a registered plumber to do the work referred to in subsection (1).
- (3) The provisions of subsection (1) shall not apply to a person acting in the scope of that person's employment with a registered plumber or a registered contractor.
- (4) Notwithstanding the provisions of subsection (1), a person who, in terms of any law in force immediately prior to the commencement of these bylaws, was entitled to do the work described in subsection (1), may continue to do such work for a period not exceeding 12 (twelve) months after these bylaws became effective.
- (4) Notwithstanding the provisions of subsection (1), the Municipality may permit a person who is not a registered plumber or a registered contractor to do installation work on that person's own behalf on domestic premises owned and occupied solely by that person and that person's immediate household; provided that such work may be inspected and approved by a person registered with the SAQCC for the Water Supply Industry, in the category appropriate to the work being undertaken, at the direction of Municipality.

Provision and maintenance of water installation

42. (1) An owner must provide and maintain a water installation at the owner's own cost and must ensure that the installation is situated within the boundary of the owner's premises, except —
- in the case of a connection to a connection pipe; or
 - where permitted in terms of section 23(2)(c)
- (2) Before doing work in connection with the maintenance of a portion of the owner's water installation which is situated outside the boundary of the owner's premises, an owner shall obtain the written consent of the Municipality or the owner of the land on which such portion is situated, as the case may be.

Technical requirements for water installation

43. (1) Notwithstanding the requirement that a certificate be issued in terms of section 40(3)(c), all water installations shall comply with SANS 10252-1: 2004 and all fixed electric storage water heaters shall comply with SANS 10254: 2004;
- (2) In addition to any requirement of SANS 10252-1: 2004, the consumer must at the consumer's own expense, or the Municipality may in its discretion and at the consumer's expense, and for the consumer's exclusive use, provide and install a stop-cock at a suitable point inside the boundary of the premises on the consumer's side of the meter leading to the water installation.

Use of pipes and fittings to be authorised

44. (1) No person shall, without the prior written authority of the Municipality, install or use a pipe or water fitting in a water or drainage installation within the Municipality's area of jurisdiction unless it is included in the schedule of approved pipes and fittings.
- (2) A pipe or water fitting may be included in the Schedule referred to in subsection (1) if —
- it bears the standardisation mark of the SABS in respect of the relevant SANS specification issued by the SABS; or
 - it bears a certification mark issued by the SABS to certify that the pipe or water fitting complies with a SANS specification or a provisional specification issued by the SABS, provided that no certification marks shall be issued for a period exceeding two years; or
 - it complies with the JASWIC standards.

- (3) The Municipality may, in respect of any pipe or water fitting included in the Schedule, impose such additional conditions as it may deem necessary in respect of the use or method of installation thereof.
- (4) A type of pipe or water fitting may be removed from the Schedule if it —
 - (a) no longer complies with the criteria upon which its inclusion was based; or
 - (b) is no longer suitable for the purpose for which its use was accepted.
- (5) The current Schedule referred to in subsection (1) must be available for inspection at the office of the Municipality at any time during working hours.
- (6) The Municipality may sell copies of the current Schedule at the prescribed fee.

Labelling of terminal water fittings and appliances

45. All terminal water fittings and appliances using or discharging water shall be marked, or have included within the packaging of the item, the following information:
- (1) the range of pressure in kPa over which the water fitting or appliance is designed to operate;
 - (2) the flow rates, in litres per minute, related to the design pressure range; provided that this information shall be given for at least the following water pressures:
 - (a) 20 (twenty) kPa
 - (b) 100 (one hundred) kPa
 - (c) 400 (four hundred) kPa

Unlawful water installation

46. Where any installation work has been constructed in contravention of these By-laws, the owner and/or consumer must on receiving a compliance notice by the Municipality carry out such alterations to the installation as prescribed in the notice.

Pipe in street or public place

47. No person may, for the purpose of conveying water derived from whatever source, lay or construct a pipe or associated component on, in, or under a street, public place or other land owned by, vested in, or under the control of the Municipality, except with the prior written permission of the Municipality, and subject to such conditions as may be imposed by it on granting permission.

Special provision for fire services

48. (1) Any water installation for the provision of water for fire fighting purposes, must comply with the provisions of SANS 10252-1: 2004 and SANS 10400: 1990 Part T, Fire-fighting systems, or any revision or substitution thereof.
- (2) Notwithstanding the provisions of subsection (1), the special provisions contained in section 48 to 57 inclusive apply, insofar as they are applicable, to the supply of water for fire fighting purposes.

Dual and combined installations

49. Any new building erected after the adoption of these By-laws must comply with the following requirements in relation to the provision of fire extinguishing services
- (1) If, in the opinion of any authorised official of the Municipality charged with the approval of plans, boosting of the system is required, either in terms of ensuring adequate pressure or supply of water for the purposes which the system is intended to meet, a dual pipe system must be used, one for fire extinguishing purposes and the other for general domestic purposes;
 - (2) Combined installations, in which the same pipes and fittings are used for fire extinguishing and general domestic purposes, are only permitted where no booster pumping connection is provided on the water installation;
 - (3) In the circumstances contemplated in paragraph (2), a fire hydrant must be provided by the Municipality, at the consumer's expense, within 90 (ninety) metres of the premises to provide a source of water for the use of any fire tender sent to extinguish a fire; and
 - (4) All pipes and fittings must be capable of handling pressures in excess of 1015 (one thousand and fifteen) kPa, which could be expected when boosting takes place and must be designed to maintain their integrity when exposed to fire conditions.

Connection pipe for fire extinguishing services

50. (1) A single connection to the water supply system, to serve a connection pipe for a fire installation, excluding a sprinkler system, may be provided by the Municipality.
- (2) The Municipality must provide and install a meter on the connection pipe referred to in subsection (1), at the cost of the owner of the premises.
- (3) Where there is an existing connection pipe for the sole purpose of fire extinguishing services, such connection pipe may only be used for that purpose.
- (4) No take-off of any kind from any connection pipe referred to in subsection (3) may be made, nor may any water therefrom be used except in connection with an automatic sprinkler and drencher, a hydrant connection or a hose-reel connection, or for any pressure tank connection therewith, and such tank must be controlled by an approved fitting.
- (5) A separate connection pipe must be laid and used for every fire sprinkler extinguishing system, unless otherwise approved.

Valves in connection pipe

51. Every connection pipe must be fitted with a proper gate valve, which must be —
- (1) supplied by the Municipality at the expense of the owner;
 - (2) installed between the owner's premises and the main; and
 - (3) installed in such position as may be specified by the Municipality.

Inspection and approval of fire installation

52. No water may be supplied to any fire installation until —
- (1) it has been inspected and tested by the Municipality;
 - (2) the Municipality has certified in writing that such water installation is complete and complies with the requirements of these By-laws; and
 - (3) the fees required by the Municipality for such inspection and testing have been paid.

Connection at the pleasure of the Municipality

53. (1) The Municipality is entitled, in its absolute discretion, to grant or refuse an application for the connection of a fire extinguishing installation to its main.
- (2) If in its opinion a fire extinguishing installation which it has allowed to be connected to its main is not being kept in proper working order or is

otherwise not being properly maintained, or is being used in contravention of section 50(3) or 50(4), the Municipality is entitled either to require the installation to be disconnected from the main, or itself to carry out the work of disconnecting it at the expense of the owner or consumer, as the case may be.

Meter in fire installation

54. The Municipality must install a water meter in any connection pipe used solely for fire extinguishing purposes, and the owner of the premises will be liable for the whole of the costs.

Sprinkler extinguishing installation

55. A sprinkler installation may be linked directly with the main, but the Municipality is not bound to guarantee any specified pressure at any time.

Header tank or double supply from main

56. (1) Unless a sprinkler installation is provided with a duplicate or reserve supply from a separate main, the consumer must install a header tank on or in the building or structure at such elevation as will compensate for any failure or reduction of pressure in the Municipality's main.
- (2) The main pipe leading from such header tank to the sprinkler installation may be linked with the main from which the principal supply of water is drawn, provided that such main pipe must be equipped with a backflow preventer which, if the pressure in the main fails or is reduced for any reason, will shut off the opening to the main.
- (3) Where a sprinkler installation is provided with a duplicate or reserve supply from a separate main, each supply pipe must be equipped with a backflow preventer situated within the premises.

Sealing of private fire hydrant

57. (1) (a) Except in the case of a fire installation supplied through a connection pipe fitted with a meter, a private hydrant and hose-reel must be sealed by the Municipality and such seal may not be broken by any person other than the Municipality in the course of servicing and testing, except for the purpose of opening the hydrant in the case of fire.
- (b) Every owner or consumer must give the Municipality at least 48 (forty-eight) hour's notice of the owner or consumer's intention to cause a fire extinguishing installation to be tested.
- (2) The cost of resealing a hydrant and hose-reel referred to in subsection 1(a), must be borne by the consumer except when such seal is broken by the Municipality's employee for testing purposes.
- (3) Any water consumed after the breaking of the seal referred to in subsection (2), other than in the course of testing by the Municipality or of fighting a fire, must be paid for by the consumer at the fees determined by the Municipality.
- (4) The quantity of water consumed as contemplated in subsection (3), must be determined by the Municipality.

Part 6

Water conservation and prevention of pollution

Waste of water

58. (1) No consumer shall permit —
- (a) the purposeless or wasteful discharge of water from terminal water fittings;
- (b) pipes or water fittings to leak;
- (c) the use of maladjusted or defective water fittings;
- (d) an overflow of water to persist; or
- (e) an inefficient use of water to persist.
- (2) An owner shall repair or replace any part of the owner's water installation which is in such a state of disrepair that it is either causing or is likely to cause an occurrence listed in subsection (1).
- (3) If an owner fails to take measures as contemplated in subsection (2), the Municipality shall, by written notice, require the owner to comply with the provisions of subsection (1).
- (4) If an owner fails to comply with the notice referred to in subsection (3), the Municipality shall take such measures as it may deem fit without prior notice and recover the cost of doing so from the owner.
- (5) (a) A consumer shall ensure that any equipment or plant connected to the consumer's water installation uses water in an efficient manner.
- (b) The Municipality may, by written notice, prohibit the use by a consumer of any equipment in a water installation if, in its opinion, its use of water is inefficient. Such equipment shall not be returned to use until its efficiency has been restored and a written application to do so has been approved by the Municipality.

Car washing facilities

59. All commercial vehicle washing facilities shall be constructed and operated in such a manner that 50 % (fifty percent) of the water used by such facility is recycled for re-use in the facility.

Grey water practices

60. Any device which entails the recycling or re-use of water shall not make use of water derived from any kitchen, excluding clothes washing machines, or from toilet discharges.

Equipment specification to facilitate water conservation

61. (1) No cistern, and related pan designed to operate with such cistern, shall be installed with a cistern capacity of greater than 6 (six) litres.
- (2) Only flushing urinals that are user activated may be installed.
- (3) In any water installation where the dynamic water pressure is more than 200 (two hundred) kPa at a shower control valve, and where the plumbing has been designed to balance the water pressures on the hot and cold water supplies to the shower control valve, a shower head with a maximum flow rate of no greater than 10 (ten) litres per minute shall be installed.
- (4) The maximum flow rate from any tap installed on a wash hand basin shall not exceed 6 (six) litres per minute.

Water demand management

62. (1) No person shall, without prior written authority from the Municipality, water a garden, sports field, park or other grassed or horticultural area between the hours of 11:00 and 15:00, between the months of October and March inclusive, irrespective of the source of the water used.
- (2) Any person who contravenes or fails to comply with subsection (1) shall be guilty of an offence and liable to penalties as prescribed in the National Water Act, or other applicable legislation.

Water restrictions

63. (1) The Municipality may, subject to other applicable legislation, by notice —
- (a) prohibit or restrict the consumption of water —
 - (i) for specified purposes or otherwise;
 - (ii) during specified hours of the day or on specified days or otherwise than during specified hours of the day or on specified days; and
 - (iii) in a specified manner or otherwise than in a specified manner;
 - (b) determine and impose —
 - (i) limits on the quantity of water which may be consumed over a specified period;
 - (ii) fees additional to those prescribed in respect of the supply of water in excess of a limit contemplated in subparagraph (i); and
 - (iii) a general surcharge on the prescribed fees in respect of the supply of water; and
 - (c) impose restrictions or prohibitions on the use or manner of use or disposition of an appliance by means of which water is used or consumed, or on the connection of such appliances to the water installation.
- (2) The Municipality may limit the application of the provisions of a notice contemplated by subsection (1) to specified areas and classes of consumers, premises and activities, and may permit deviations and exemptions from, and the relaxation of, any of the provisions on such grounds as it may deem fit.
- (3) The Municipality may —
- (a) take, or by written notice require a consumer at the consumer's own expense to take such measures, including the installation of measurement devices and devices for restricting the flow of water, as may in its opinion be necessary to ensure compliance with a notice published in terms of subsection (1); or
 - (b) cut off or, for such period as it may deem fit, restrict the supply of water to any premises in the event of a contravention on such premises or failure to comply with the terms of a notice published in terms of subsection (1), and where the supply has been cut off, it shall only be restored when the prescribed charge for cutting off and reconnecting the supply has been paid.
- (4) The provisions of this section shall also apply in respect of water supplied directly by the Municipality to consumers outside its area of jurisdiction, notwithstanding anything to the contrary in the conditions governing such supply, unless otherwise specified in the notice published in terms of subsection (1).

Consumer to prevent pollution of water

64. (1) A consumer shall provide and maintain approved measures to prevent the entry of a substance, which may be a danger to health or adversely affect the potability of water or affect its fitness for use, into
- (a) the water supply system; and
 - (b) any part of the water installation on the consumer's premises.
- (2) If any person contravenes subsection (1), the Municipality may:
- (a) by written notice require the consumer to take remedial steps to prevent pollution of the water in the water supply system or water installation on the consumer's premises within a specified period; or
 - (b) if it is of the opinion that the situation is a matter of urgency, without prior notice undertake the work required by subsection 2(a) and recover the costs from the consumer.

Protection of water supply system and installation

65. (1) The owner must take any of the measures referred to in subsection (2) to prevent the backflow of water from the water installation to the water supply system in the case of —
- (a) a fire or combined installation on premises; and
 - (b) a general installation serving the following activities —
 - (i) medical treatment of people or animals;
 - (ii) medical, pharmaceutical or chemical research and manufacturing;
 - (iii) agriculture, including dairies and nurseries;
 - (iv) photographic processing;
 - (v) laundering and dry-cleaning;
 - (vi) metal plating;
 - (vii) treatment of skins and hides;
 - (viii) mortuaries;
 - (ix) abattoirs;
 - (x) sewage purification works;
 - (xi) refuse processing plants;
 - (xii) oil processing and storage facilities;
 - (xiii) wineries, distillers, breweries, yeast and cold drink factories;
 - (xiv) sports facilities; or
 - (xv) any other premises on which an activity is carried out which in the opinion of the Municipality is likely to cause a danger to health or affect the potability of water in the event of a substance resulting from such activity entering the water supply system; and
 - (c) a general installation on any premises after a compliance notice by the Municipality to do so.
- (2) The measures required in terms of subsection (1) are —
- (a) the discharge of water from the service pipe into a storage tank through an air gap; or
 - (b) the passing of water through a backflow preventer; or
 - (c) any other measures approved by the Municipality which achieve the same purpose.
- (3) The owner of any premises must prevent the back siphonage into the owner's water installation of a substance which is likely to cause a danger to health or affect the potability of water, in the case of —
- (a) a terminal water fitting which is so designed that a hose or other flexible pipe is or can be attached to it, which shall include a hose bib-cock, a laboratory tap, and a movable shower unit;

- (b) a fire hose-reel in a combined installation;
- (c) an underground irrigation system; or
- (d) any other fitting which may provide contact between polluted water and the water installation.

Part 7

Water supply services: Miscellaneous

Use of water from source other than water supply system

66. (1) No person shall use or permit the use of water obtained from a source other than the water supply system, except rain water tanks which are not connected to the water installation, except with the prior consent of the Municipality and in accordance with such conditions as it may impose, for domestic, commercial or industrial purposes.
- (2) Any person desiring the consent referred to in subsection (1) shall provide the Municipality with satisfactory evidence to the effect that the water referred to in that subsection complies, whether as a result of treatment or otherwise, with the requirements of SANS 241: 2001 Drinking Water, or that the use of such water does not or will not constitute a danger to health.
- (3) Any consent given in terms of subsection (1) may be withdrawn if, in the opinion of the Municipality —
- (a) a condition imposed in terms of subsection (1) is breached; or
 - (b) the water no longer conforms to the requirements referred to in subsection (2).
- (4) If water obtained from a borehole or other source of supply on any premises is used for a purpose which gives rise to the discharge of such water or a portion thereof into the Municipality's sewerage system, the Municipality may install a meter in the pipe leading from such borehole or other source of supply to the point or points where it is so used.
- (5) The provisions of section 30 shall apply insofar as they may be applicable in respect of the meter referred to in subsection (4).

Boreholes

67. (1) The owner of any premises within the area of a land use management system of the Municipality upon which a borehole exists or, if the owner is not in occupation of such premises, the occupier thereof, shall notify the Municipality on the **prescribed notification form** of the existence of a borehole on such premises, and provide the Municipality with such information in respect thereof as it may require.
- (2) The sinking of a new borehole or the rehabilitation of an existing borehole with the intention to use it as a borehole is only allowed above the 50m (fifty metre) mean sea level contour line.
- (3) Notwithstanding subsection (2) the sinking of boreholes below the 50m (fifty metre) mean sea level contour line may in the Municipality's discretion be authorised on conditions as deemed necessary by the Municipality for research or monitoring purposes. An application for such intended use shall be submitted to the Municipality on the **prescribed application form** prior to the commencement of any work in connection therewith.

Sampling of water

68. (1) The Municipality may take samples of water obtained from a source other than the water supply system and cause the samples to be tested for compliance with the requirements of the National Water Act.
- (2) The prescribed charge for the taking and testing of the samples referred to in section (1) shall be paid by the person to whom consent to use the water was granted in terms of the National Water Act.

Supply of non-potable water by the Municipality

69. (1) The Municipality may on application in terms of section 18, agree to supply non-potable water to a consumer (excluding residential premises) subject to such terms and conditions as the Municipality may impose.
- (2) Any supply of water agreed to in terms of subsection (1) shall not be used for domestic or any other purposes which, in the opinion of the Municipality may give rise to a health hazard.
- (3) No warranty, expressed or implied, shall apply to the purity of any non-potable water supplied by the Municipality or its suitability for the purpose for which the supply was granted.
- (4) The supply of non-potable water shall, both as to condition and use, be entirely at the risk of the consumer, who shall be liable for any consequential damage or loss to the consumer or others arising directly or indirectly there from, including the consequences of any bona fide fault of the Municipality or the malfunction of a treatment plant.

Testing of pressure in system

70. The Municipality may, on application by an owner and on payment of the prescribed charge, determine and furnish the owner with the value of the pressure in the water supply system relating to an owner's premises over such period as the owner may request.

Warning notices

71. (1) At premises on which non-potable water is used, the owner shall ensure that every terminal water fitting and every appliance which supplies or uses the water is clearly marked with a weatherproof notice indicating that the water therefrom is water unsuitable for domestic purposes.
- (2) In an area where treated sewage effluent is used, the owner shall erect weatherproof notices in prominent positions warning that such effluent is not suitable for domestic purposes.
- (3) Every warning notice prescribed in terms of subsections (1) and (2) shall be in more than one official language and shall include the symbolic sign for non-potable water, sign PV5 as described in SANS 1186-1: 2003.

Water audit

72. (1) Major water consumers (those using more than 3 650 kilolitres per annum), excluding those comprising multiple dwelling units, shall undertake as and when required by the Municipality, a water audit.
- (2) The audit shall detail the following:
- (a) amount of water used during the financial year;
 - (b) amount paid for water for the financial year;
 - (c) number of people living on the stand or premises;
 - (d) number of people permanently working on the stand or premises;
 - (e) comparison of the above factors with those reported in each of the previous three years (where available);
 - (f) seasonal variation in demand (monthly consumption figures);
 - (g) details of water pollution monitoring methods;
 - (h) details of current initiatives to manage their demand for water;

- (i) details of plans to manage their demand for water;
- (j) comparison of the above factors with those reported in each of the previous 3 (three) years (where available); and
- (k) estimate of consumption by various components of use.

**CHAPTER 3
SANITATION SERVICES**

Part 1

Disposal of sewage

Objectionable discharge to sewage disposal system

73. (1) No person shall cause or permit any solid, liquid or gaseous substance other than storm water to enter: —
- (a) any storm water system or excavated or constructed watercourse;
 - (b) any river, stream or natural watercourse or any public water, whether ordinarily dry or otherwise, except in accordance with the provisions of the National Water Act; or
 - (c) any street or premises.
- (2) No person shall, other than in compliance with the permissions issued in terms of these By-laws, discharge, or permit the discharge or entry into the sewage disposal system of any sewage or other substance —
- (a) which does not comply with the standards and criteria prescribed in these By-laws or other applicable legislation;
 - (b) which contains any substance in such concentration as will produce or is likely to produce in the final treated effluent at any treatment works or sea outfall discharge point or in any public water, any offensive or otherwise undesirable taste, colour or odour or any foam;
 - (c) which may prejudice the re-use of treated sewage or adversely affect any of the processes whereby sewage is purified for re-use or treated to produce sludge for disposal;
 - (d) which contains any substance or thing of whatever nature which is not amenable to treatment at treatment works to a satisfactory degree or which causes or is likely to cause a breakdown or inhibition of the processes in use at such works;
 - (g) which may inhibit the unrestricted conveyance of sewage through the sewage disposal system.
- (3) No person shall cause or permit any storm water to enter the sewage disposal system.
- (4) No person shall cause or permit any disposal of water into a ventilated improved pit latrine.
- (5) An authorised official may, by written notice, order the owner or occupier to conduct, at cost, periodic expert inspections of the premises in order to identify precautionary measures, which would ensure compliance with these By-laws, and to report such findings to an authorised official.
- (6) If any person becomes aware of any contravention of these By-laws, such person shall immediately advise the authorised official of the details of such contravention.

Application for use of sewage disposal system

74. (1) Any person wishing to connect to the sewage disposal system must submit an application to the Municipality on the **prescribed form**, accompanied by such information as set out in section 74(2) and any additional information that the Municipality may require from time to time.
- (2) The application form must at least contain the following information —
- (a) acceptance by the user of the provisions of these By-laws and acceptance of liability for the cost of all sanitation services used until the agreement is terminated;
 - (b) name of user, and the user's identity or registration number, where applicable;
 - (c) address or stand number of the premises at which the sanitation service is to be provided, or on which a communal sewer connection is used;
 - (d) address to which accounts must be sent;
 - (e) the agreed date on which the sanitation service shall be provided.
- (3) The approval of an application referred to in subsection (1) shall constitute an agreement between the Municipality and that person.
- (4) After approval of the application the applicant referred to in subsection (1) shall be liable for all the prescribed fees in respect of the use of the sewage disposal system in accordance with these By-laws.
- (5) Where premises have been connected to the sewage disposal system or are reasonably capable of being so connected, the owner shall be liable for compliance with these By-laws.

Special agreements for disposal of sewage

75. (1) The Municipality may enter into a special agreement for the disposal of sewage with —
- (a) a person within the Municipality's area of jurisdiction, if the disposal necessitates the imposition of conditions not contained in these By-laws.
 - (b) a person outside the Municipality's area of jurisdiction.
- (2) If the Municipality, in terms of a special agreement contemplated in subsection (1), provides a means of disposal of sewage to a person outside the Municipality's area of jurisdiction, it may permit that person to accept sewage for eventual disposal by the Municipality from other persons outside the Municipality's area of jurisdiction, subject to such conditions as the Municipality deems fit.

Application for infrastructure

76. (1) If an agreement for on-site sanitation and associated services in accordance with section 75 has been concluded, and no infrastructure in connection therewith exists on the premises, the owner must immediately make application for the installation thereof on the **prescribed form** and —
- (a) pay the prescribed fees for the installation of the necessary infrastructure; or
 - (b) with the approval of the Municipality install on-site sanitation services in accordance with the specifications of the Municipality.
- (2) In approving an application for the installation of infrastructure, the Municipality may specify the type of on-site sanitation services to be installed.

Septic tank, treatment plant and French drain

77. (1) No person may without the prior written permission of the Municipality construct, install, maintain or operate any septic tank, French drain, soakage pit or other plant for the treatment, disposal or storage of sewage, if a sewage disposal system and/or connection sewer is available.

- (2) The permission referred to in subsection (1) is subject to the provisions of these By-laws, any other relevant by-laws of the Municipality, or any other law.

Conservancy tank

78. The Municipality may when no sewage disposal system is available, at its discretion permit the owner of any premises to construct a conservancy tank and ancillary appliances for the retention of soil water, or such other sewage or effluent as it may decide, and such tank and appliances must be of such capacity, constructed of such material, and located in such position and at such level as it may prescribe.

Ventilated improved pit latrine

79. The Municipality may at its discretion and on such conditions as it may prescribe, taking into regard the nature and permeability of the soil, the depth of the water table and any other factors which may have the potential to cause harm to the environment if approval is granted, the size of and access to the site and the availability of a piped water supply, permit the disposal of human excrement only by means of a ventilated improved pit latrine, constructed in accordance with the specifications and located in a position indicated by the Municipality.

Services associated with on-site sanitation services

80. The removal or collection of conservancy tank contents, night soil or the emptying of pits must be undertaken by the Municipality or a service provider nominated and approved by the Municipality in terms of the Act.

Provision of a connecting sewer

81. (1) If application has been made in accordance with section 74 for use of the sewage disposal system and no connecting sewer exists in respect of the premises, the owner or his or her agent shall immediately apply to the Municipality for the installation of such a connecting sewer and pay the prescribed charge.
- (2) If an application is made for use of the sewage disposal system to premises which is so situated that it is necessary to extend the sewer in order to connect the sewage disposal system to the premises, an authorised official may agree to the extension subject to such conditions as he or she may impose.
- (3) An authorised official may at the request of any person agree, subject to such conditions as the authorised official may impose, to a connection to a sewer other than that which is most readily available for the drainage of the premises; provided that the applicant shall be responsible, at the applicant's cost, for any extension of the drainage installation to the connecting point designated by an authorised official and for obtaining such servitudes over other premises as may be necessary.
- (4) A connecting sewer provided and installed by the Municipality shall —
- be located in a position determined by an authorised official;
 - terminate at a connection point approximately 1 (one) metre inside the premises from the boundary of the land owned by or vested in the Municipality or over which it has a servitude or other right or when subsection (3) applies, at the connecting point designated in terms of that subsection; and
 - be of a size determined by an authorised official.

Construction of drainage installation

82. Any drainage installation must comply with SANS 10400: 1990 Part P, Drainage, and any amendments thereto.

Use of pipes and fittings in drainage installation to be authorised

83. No person may, without the prior written permission of the Municipality install or use a pipe or fitting in a drainage installation within the Municipality's area of jurisdiction, unless it is of a type included in the schedule referred to in section 44.

Approval of drainage work

84. (1) No person may construct, reconstruct, alter, add to or make any permanent disconnection in or of any drainage installation without first having obtained the permission of the Municipality in writing.
- (2) No drainage work mentioned in subsection (1) for which permission has been given in terms of these By-laws, may be commenced until after the expiration of 2 (two) clear days notice after notice in writing has been served on the Municipality stating the day on and time at which it is intended to commence the work.
- (3) Before any part of a drainage installation is permanently covered or otherwise rendered practically inaccessible to visual inspection, it must be inspected and approved by the Municipality.
- (4) The owner or occupier of any premises must maintain any drainage installation and any sewer connection on such premises.

Interconnection between premises

85. Every owner of premises must ensure that no interconnection exists between the drainage installation on the owner's premises and any drainage installation on other premises, unless the owner has obtained the prior written permission of the Municipality and complies with any conditions that may have been imposed in granting such permission.

Acceptance of sewage delivered by road haulage

86. (1) An authorised official may, subject to such conditions as the authorised official may specify, accept sewage for disposal delivered to the Municipality's facilities by road haulage.
- (2) No person shall discharge sewage into the Municipality's facilities by road haulage, except with and in accordance with the written permission of an authorised official. An authorised official shall determine the fees for any sewage delivered as contemplated in subsection (1) for disposal to any of the Municipality's facilities in accordance with the prescribed Tariff of Charges.
- (3) When delivery is by road haulage —
- the time of delivery shall be arranged with an authorised official; and
 - the nature and composition of the sewage shall be established to the satisfaction of an authorised official prior to the discharge thereof, and no person shall deliver sewage which does not comply with the standards determined in terms of these By-laws.
- (4) Provided that 14 (fourteen) days' written notice is given, an authorised official may withdraw any permission to discharge sewage delivered in terms of this section if the person to whom such permission had been given:
- fails to ensure that the sewage so delivered conforms to the standards prescribed in Schedule "B" or "C", as applicable, or in the permit; or
 - fails or refuses to comply with any notice lawfully served on the person in terms of these By-laws or contravenes any provisions of these By-laws or any condition imposed on the person in terms of any permission granted to the person;
 - fails to pay the assessed charges in respect of any sewage delivered.

Measurement of quantity of standard domestic effluent discharged

87. The quantity of standard domestic effluent must be determined in accordance with the Tariff of Charges (Schedule A).

Part 2**Industrial effluent****Discharge of industrial effluent**

88. (1) No person shall discharge or cause or permit to be discharged into the sewage disposal system any industrial effluent except with and in accordance with the provisions of these By-laws and the written permission of an authorised official.
- (2) If, in the opinion of an authorised official, the capacity of a sewage disposal system is sufficient to permit the conveyance, effective treatment and lawful disposal of the industrial effluent the authorised official may, for such period and subject to such conditions as the authorised official may impose, grant written permission in terms of subsection (1).
- (3) A person to whom such permission is granted shall pay to the Municipality the prescribed fees.
- (4) Application for permission to discharge industrial effluent shall be made in accordance with section 75 above.
- (5) The person to whom permission has been granted in terms of this Chapter shall ensure that no industrial effluent is discharged into the sewage disposal system unless it complies with the standards and criteria set out in Schedules "B" and "C" hereto.

Relaxation of standards

89. (1) An authorised official may relax or vary the standards prescribed in Schedules "B" or "C" provided that the authorised official is satisfied that any such relaxation represents the best practicable environmental option.
- (2) In determining whether relaxing or varying the standards in Schedules "B" or "C" represents the best practicable environmental option an authorised official shall apply a risk-averse and cautious approach and give consideration to:
- whether the applicant's plant is operated and maintained at optimal levels;
 - whether technology used by the applicant represents the best available to the applicant's industry and, if not, whether the installation of such technology would entail unreasonable cost to the applicant;
 - whether the applicant is implementing a program of waste minimization which complies with national and local waste minimization standards to the satisfaction of the authorised official;
 - the cost to the Municipality of granting the relaxation or variation; and
 - the environmental impact, or potential impact, if the relaxation or variation is granted.

Test samples

90. (1) Test samples may be taken at any time by a duly qualified sampler to ascertain whether the industrial effluent complies with Schedule "B" and "C" or any other standard prescribed by the Municipality's permit.
- (2) The permit holder of a permit issued in terms of subsection (1) shall provide a sampling point, to the satisfaction of the authorised official, in respect of the industrial premises concerned.

Duties of permit holder

91. (1) An authorised official may in the permit or at any time, by written notice, require a person to whom permission had been granted in terms of section 90(1) to —
- subject the industrial effluent to such preliminary treatment as in the opinion of an authorised official will ensure that the industrial effluent conforms to the standards prescribed in Schedules "B" and "C" before being discharged into the sewage disposal system;
 - install such equalizing tanks, valves, pumps, appliances, meters and other equipment as in the opinion of an authorised official will be necessary to control the rate and time of discharge into the sewage disposal system in accordance with the conditions imposed by the authorised official;
 - install for the conveyance of industrial effluent into the sewage disposal system at a given point, a drainage installation separate from the drainage installation for waste water and standard domestic effluent and may prohibit such permit holder from disposing of industrial effluent at any other point and from disposing of waste water and standard domestic effluent by means other than into a sewage disposal system;
 - construct on any pipe conveying industrial effluent to any sewer, a manhole and/or stop-valve in such position and of such dimensions and materials as an authorised official shall prescribe;
 - provide all such information as may be required or called for by an authorised official to enable the authorised official to assess the charges due to the Municipality in terms of these By-laws in accordance with the formula prescribed by it;
 - provide adequate facilities such as level or overflow detection devices, standby equipment, overflow catchpits, or other appropriate means to prevent a discharge into the sewage disposal system which is in contravention of these By-laws;
 - cause any meter, gauge or other device installed in terms of this section to be calibrated by an independent authority at the cost of the permit holder at times laid down by an authorised official and copies of the calibration to be forwarded to the authorised official;
 - cause industrial effluent to be analysed as often and in such manner as may be prescribed by an authorised official and provide the authorised official with results of these tests when completed;
 - obtain the written permission of an authorised official for any proposed changes to the composition of industrial effluent discharged into the sewage disposal system;
 - in the event of the permit holder discharging into the sewage disposal system any industrial effluent which does not comply with the permit issued in respect of that process or premises, the permit holder shall, within 12 (twelve) hours of the discharge, notify an authorised official of the incident and the reasons for it.
- (2) The cost of any treatment, plant, works or analysis required in terms of subsection (1), shall be borne by the person to whom permission had been granted.

Withdrawal of written permission for disposal of industrial effluent

92. (1) Provided that an authorised official shall give 14 (fourteen) days' written notice, the authorised official may withdraw any permission to discharge industrial effluent into the sewage disposal system granted in terms of this Chapter if the person to whom such permission had been granted —
- fails to ensure that the industrial effluent so discharged conforms to the industrial effluent standards prescribed in Schedules "B" and "C" of these By-laws or in the permit;
 - fails or refuses to comply with any notice lawfully served on the person in terms of these By-laws or contravenes any provision of these By-laws or any condition imposed upon the person in terms of any permission granted to the person; or

- (c) fails to pay the charges due in respect of any industrial effluent discharged.
- (2) The authorised official may, when withdrawing the permission as contemplated in subsection (1), —
 - (a) and in addition to any steps prescribed in these By-laws, on 14 (fourteen) days' written notice served on the person concerned, authorize the closing or sealing of the connecting sewer or drain of the said premises to any sewer at the cost of such a person;
 - (b) refuse to accept any further industrial effluent until the authorised official is satisfied that the person concerned has taken adequate steps to ensure that the industrial effluent to be discharged conforms with the standards prescribed in these By-laws.
- (3) An authorised official may, subsequent to a drain or connecting sewer having been closed or sealed in terms of subsection (2), upon being satisfied that the effluent to be discharged meets with the standards prescribed in these By-laws and against payment of the prescribed fees, open or authorise the reopening of the connection or seal.

Measurement of quantity of industrial effluent discharged

93. (1) The Municipality may install, in such position as it determines, in any drainage installation conveying industrial effluent to a sewer, any meter or gauge or other device for the purposes of ascertaining the quantity or composition of the industrial effluent and it may recover the installation and maintenance costs from the owner.
- (2) It is an offence for any person to bypass, open, break into or otherwise interfere with or to damage any such meter, gauge or other device.
- (3) The Municipality may, after consultation with the person concerned, establish an alternative method of assessing the quantity of the effluent to be discharged.
- (4) Notwithstanding the foregoing provisions of this section, the Municipality may require any person who discharges industrial effluent into its sewers to provide one or more meters in such a position in the water installation as the Municipality may deem necessary to record the water consumption in a specific part of the premises.
- (5) The Municipality may determine a rebate to apply to the prescribed fees if the owner or occupier discharges industrial effluent —
- (a) solely during periods specified by the Municipality; and/or
 - (b) containing constituents which will have a beneficial effect on the effluent discharged from the sewage treatment plant.
- (6) Where a portion of the water supplied to the premises forms part of the end product of any manufacturing process or is lost by reaction or evaporation during the manufacturing process or for any other reason, the Municipality may, upon application, reduce the assessed quantity of industrial effluent.

Damage to sewage disposal system or the environment

94. If a person is discharging industrial effluent which will, if allowed to continue, seriously damage the sewage disposal system or the environment, an authorised official may immediately authorise the sealing of the sewer connection through which the industrial effluent is being discharged. No person shall permit the opening of that connection until an authorised official is satisfied that the industrial effluent will comply with the prescribed standards.

Provision applicable to sea outfall pipeline

95. (1) The provisions of this chapter shall apply *mutatis mutandis* to effluent discharged into any sea outfall.
- (2) Where effluent is accepted for discharge into a sea outfall, it shall be delivered to the point of acceptance approved by an authorised official by means of a pipeline constructed and maintained by the person to whom permission to discharge had been granted, at such person's expense.
- (3) No effluent shall be accepted for discharge into a sea outfall unless it complies with the standards and criteria set out in Schedule "C".
- (4) Effluent shall not be accepted for discharge into a sea outfall unless it, whether alone or in combination with other substances, can be demonstrated to the satisfaction of an authorised official, not to:
- (a) be toxic to marine fauna or flora;
 - (b) contain any other constituents in concentrations which can create a nuisance on the beaches or in the sea, or a health hazard or which may have an adverse effect on bathing or other recreational activities;
 - (c) contain any floating material;
 - (d) contain any substance which may be prejudicial or injurious to the Municipality's sea outfall and associated sumps, sewers, plant and equipment or to the public;
 - (e) contain any materials capable of creating a nuisance by frothing; or
 - (f) contain any standard domestic effluent.

Maintenance of delivery pipeline

96. The delivery pipeline from the premises concerned to the point of acceptance shall be maintained by the permit holder in a proper condition and free from leaks.

Periodic review

97. Acceptance of the industrial effluent shall be subject to periodic review; provided that such review may be made at any time if, in the opinion of an authorised official, special circumstances such as pollution of the sea or beaches, the killing of fish or other incidents arise as a result of the acceptance thereof into a sea outfall.

Change in process of manufacture of materials

98. An authorised official shall be notified of any proposed change in the process of manufacture or in the quantity or nature of the materials used which is likely to affect the nature, composition or quantity of the industrial effluent discharged and the authorised official's permission for the continued discharge of such effluent shall be obtained.

Part 3

Sanitation: Miscellaneous

Damage to sewage disposal system

99. (1) A person may not damage or endanger the sewage disposal system, or cause or permit it to be damaged or endangered.
- (2) Any person who intends performing work on land owned by or vested in the Municipality or over which it has a servitude or other right and which may cause damage to the sewage disposal system shall, prior to commencement of such work, ascertain from an authorised official if any part of the sewage disposal system is situated on the said land.
- (3) If work is to be performed or is being performed on land referred to in subsection (2), or on land adjacent thereto which in the opinion of an authorised official could damage or endanger the sewage disposal system the authorised official may, by notice in writing, require the person concerned not to commence, or to cease performing, the work until such time as the person has complied with the conditions specified in the notice.

Consequential maintenance of sewers

100. Whenever a sewer is damaged or becomes obstructed or in need of repair as a result of the act or omission of any person, whether by reason of the failure of such person to comply with the requirements of these By-laws or otherwise, the Municipality shall be entitled to remove the obstruction or perform the maintenance or repairs deemed necessary by the authorised official, at the expense of such person.

Work by private persons

101. The Municipality or its agents shall lay all sewers and connecting sewers unless it elects not to do so, in which case the work shall be executed in accordance with the Municipality's specifications applicable to the work, as well as the following provisions:

- (1) any person performing work in terms of this section shall, prior to commencement of such work, lodge with an authorised official a written indemnity to the satisfaction of the authorised official indemnifying the Municipality against all liability in respect of any accident or injury to persons or loss or damage to property which may occur as the direct or indirect result of the execution of such works;
- (2) where a connection is to be made with any sewer it shall be made at a point indicated by an authorised official;
- (3) whenever the surface of any street or road has been disturbed in the course of such work, the restoration of such surface shall be undertaken solely by the Municipality at the expense of the person performing the work. Prior to the disturbance of the surface of such street or road a deposit shall be made by such person with the Municipality which in the opinion of an authorised official is sufficient to cover the estimated cost of such restoration. When the actual cost exceeds or is less than the amount deposited, any excess shall be recoverable from such person and any balance shall be refunded to the person;
- (4) all work shall be performed in accordance with the requirements and to the satisfaction of an authorised official.

CHAPTER 4**ENFORCEMENT OF BY-LAWS AND LEGAL MATTERS****Authorisation of an authorised official**

102. A service provider as contemplated in the definition of the Municipality and in section 76 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000), may authorise any person in its employ to be an authorised official.

Functions of an authorised official

103. (1) An authorised official may execute work, conduct an inspection and monitor and enforce compliance with these By-laws.
- (2) Subject to the provision of any other law, an authorised official must carry out the functions contemplated in this section and the powers set out in section 104, in accordance with the procedure outlined in sections 105 and 106.

Additional powers of an authorised official

104. (1) An authorised official, in addition to any power conferred upon the authorised official in terms of these By-laws, may —
- (a) execute work on or inspect premises;
 - (b) question a person present on any premises in respect of any matter which may be relevant to the work or inspection;
 - (c) question a person whom the authorised official believes may have information relevant to the work or inspection;
 - (d) inspect any document that a person is required to maintain in terms of any law or that may be relevant to work or inspection;
 - (e) copy any document referred to in paragraph (d) or if necessary, remove the document in order to copy it;
 - (f) take samples of any substance that is relevant to the work or inspection;
 - (g) monitor and take readings or make measurements;
 - (h) take photos or make audio-visual recordings of anything or any person, process, action or condition on or regarding any premises; and
 - (i) do what is necessary for the execution of work or the conducting of an inspection that the Municipality is required to undertake in terms of these By-laws.
- (2) An authorised official who removes anything other than a substance contemplated in subsection (1)(f) from the premises being worked upon or inspected, must —
- (a) issue a receipt for it to the owner or person in control of the premises; and
 - (b) return it as soon as is practicable after achieving the purpose for which it was removed.

Procedure to execute work or conduct an inspection: entry with a written authorisation

105. (1) An authorised official may subject to section 101 of the Systems Act, enter any premises if a justice of peace as contemplated in section 3 and 4 of the Justices of the Peace and Commissioners of Oaths Act, 1963 (Act No. 16 of 1963) has issued a written authorisation to enter and execute work or inspect the premises, and the written authorisation is still valid.
- (2) A justice of peace may issue a written authorisation to enter and execute work or inspect any premises if, from information on oath, there are reasonable grounds to believe that —
- (a) in the interest of the public, it is necessary to execute work or obtain information that cannot be obtained without entering those premises;
 - (b) there is non-compliance with any provision of these By-laws in respect of the premises; and
 - (c) significant environmental degradation or water pollution has taken, or is likely to take place, or is suspected.
- (3) A justice of peace may issue a written instruction to the owner or person in control of the premises to do work, at the expense of such owner or person, which is necessary to enable an authorised official to —
- (a) determine whether or not there has been a contravention of these By-laws on such premises;
 - (b) restore access to water supply system or any sanitation service where the owner or such person has restricted access; and
 - (c) properly or effectively execute work or inspect premises, as contemplated in subsection (1).
- (4) If, after the work contemplated in subsection (3) has been performed, it is established that no contravention of these By-laws has taken place, the expenses incurred in performing the work and restoring the premises to its former condition, shall be paid by the Municipality.
- (5) A written authorisation in terms of subsection (2) may be issued at any time and must specifically —
- (a) identify the premises that may be worked on or inspected; and
 - (b) authorise the authorised official to enter and execute work or inspect the premises and do anything listed in section 104(1).
- (6) A written authorisation issued in terms of subsection (2) is valid until one of the following events occur:
- (a) it is carried out;
 - (b) is cancelled by the person who issued it or, in that person's absence, by a person with similar authority;

- (c) the purpose for which it was issued, has lapsed; and
 - (d) 3 (three) months have passed since the date of issue.
- (7) A written authorisation issued in terms of subsection (2) may only be carried out between 07:00 and 19:00, unless the justice of peace who issues it states in writing that it may be carried out at a different time reasonable in the circumstances.
- (8) Before commencing any work or inspection, an authorised official who carries out a written authorisation must either —
- (a) if the owner of or a person apparently in control of the premises is present —
 - (i) identify him or herself and explain his or her authority to that person or furnish proof of such authority; and
 - (ii) hand a copy of the written authorisation to that person;
 - (b) if the owner or person apparently in control of the premises is absent or refuses to accept a copy, attach a copy of the written authorisation to the premises in a prominent and visible place.

Procedure to execute work or conduct an inspection: entry without a written authorisation

- 106.** (1) An authorised official who does not have a written authorisation may, subject to section 101 of the Systems Act, enter and execute work or inspect —
- (a) any premises with the consent of the owner or person apparently in control of the premises; or
 - (b) any premises, except residential premises, on a routine basis
 - (i) no more frequently than 6 (six) times during a 12 (twelve) month period; or
 - (ii) more frequently if permitted by these By-laws for the purposes of any work or inspection;
 - (c) any premises, if there are reasonable grounds to suspect that there is an emergency, and/or that any delay in commencing any work or inspection may —
 - (i) disrupt or adversely affect the provision of water services;
 - (ii) result in excessive wastage or pollution of water; or
 - (iii) have significant detrimental effects on public or private health and safety;
 - (d) any premises from which there is a discharge or suspected discharge, into any sewer of any storm water, sewage, industrial effluent, or other liquid or substance contemplated in section 73(1), (2) and (3);
 - (e) any premises on which a nuisance is caused by, or related to, or emanates from a drainage installation; and
 - (f) any premises on which a contravention of section 6 exists or is suspected.
- (2) Unless the emergency and/or delay in commencing any work or inspection referred to in subsection (1)(c) was caused by an act or omission of the Municipality, the cost of any remedial action taken in connection with subsections (c), (d), (e) and (f) must be paid by the owner of the premises.
- (3) In addition to the entry permitted in terms of subsection (1), an authorised official may enter any premises without a written authorisation in respect of which there is an outstanding compliance notice, issued in terms of section 110 for the purposes of determining whether that notice has been complied with.
- (4) Before commencing work or inspecting any premises in terms of this section, an authorised official must identify him or herself and explain his or her authority or furnish proof of such authority to the person apparently in control of the premises or the person who gave permission to enter.
- (5) Any entry and execution of work or inspection without a written authorisation must be carried out at a reasonable time in the circumstances.

Using force to enter

- 107.** (1) An authorised official carrying out a written authorisation in terms of section 104 may overcome any resistance to entry, execution of work or inspection by using as much force as is reasonably required, including breaking a lock, door or window of the premises to be entered.
- (2) Before resorting to force, the person carrying out the written authorisation must audibly demand admission and must announce his or her purpose, unless he or she reasonably believes that doing so may induce someone to destroy, dispose of, or tamper with, an article or document that is the object of the inspection.
- (3) The Municipality must compensate anyone who suffers damage because of forced entry during the execution of any work or any inspection when no one responsible for the premises was present.
- (4) Force may not be used to affect an entry or execute work or conduct an inspection in terms of section 104 unless an emergency arises.

Authorised official may be accompanied

- 108.** During the execution of any work or an inspection, an authorised official may be accompanied by a member of the South African Police Services or by any other person reasonably required to assist in executing the work or conducting the inspection.

Duty to produce document

- 109.** Any person who holds any document relevant to the execution of any work or inspection contemplated in this Chapter must produce it at the request of an authorised official.

Compliance notice

- 110.** (1) An authorised official who becomes aware that any provision of these By-laws has not been complied with, may issue a compliance notice to the owner or person apparently in control of the relevant premises.
- (2) An authorised official who is satisfied that the owner or person apparently in control of any premises has satisfied the terms of a compliance notice may issue a compliance certificate to that effect.
- (3) A compliance notice remains in force until an authorised official has issued a compliance certificate in respect of that notice.
- (4) A compliance notice must set out —
- (a) the provision that has not been complied with;
 - (b) details of the nature and extent of non-compliance;
 - (c) any steps that are required to be taken and the period within which those steps must be taken; and
 - (d) any penalty that may be imposed in terms of these By-laws in the event of non-compliance with these steps.

Complaints against persons other than the Municipality

- 111.** Anyone may lodge a complaint with an authorised official, either directly or through any other channel established by the Municipality, that another person —

- (1) is likely to cause or has caused a disruption of the provision of water services without just cause; or
- (2) is likely to act or has acted contrary to the provisions of these By-laws; in which event the authorised official, unless that authorised official has reasonable grounds to believe that the complaint is frivolous, must investigate the complaint and, take any necessary action which is competent in terms of these By-laws.

Official address

- 112.** (1) For the purposes of the service of any notice, order or other document relating to legal proceedings —
- (a) the address of the owner of the premises on which domestic water is consumed or generated is deemed to be the official address of such owner; and
 - (b) the address of the consumer and/or user, as referred to in sections 18(5) and 74(2) is deemed to be the official address of the consumer and/or user.
- (2) Where any notice or other document is required by these By-laws to be served on any person other than for the purpose of criminal proceedings, it must be served on that person, failing which it may be served on any member of that person's household or an employee as the case may be, of the apparent age of 16 (sixteen) years or older, at the place of residence or business of that person, or if sent by registered post, to the official address contemplated in subsection (1), it will constitute prima facie proof of the service of such notice.

Recovery of costs and fees

- 113.** Any costs which the Municipality is entitled to recover from a consumer and/or user, owner or other person in terms of these By-laws include, where applicable, any prescribed fees, expenses incurred to remedy the pollution of water in terms of section 65(2), the cost of any exploratory investigation, survey, plan, specification, or schedule of quantities compilation, supervision, administration or authorisation charges, including the cost of any ancillary work associated therewith, wear and tear on plant and equipment utilised in any of these activities, the provision of labour and the costs, including environmental costs, involved in the disturbing and making good of any part of any street, ground or water services work.

Legal compliance warranty

- 114.** Notwithstanding any provisions to the contrary, any consumer and/or user by making application for water services, warrants that he or she will —
- (1) in his or her activities, application and use of the water services, comply with all relevant laws, regulations and standards governing the environment, health and safety;
 - (2) take all reasonable measures to prevent pollution or environmental degradation from occurring, continuing or recurring;
 - (3) in so far as such harm to the environment is authorised by law, or cannot reasonably be avoided or stopped, minimize and rectify such pollution or degradation of the environment; and
 - (4) bear all costs and expenses incurred in meeting the above obligations and the implementation thereof.

False statement or information

- 115.** No person may make a false statement or furnish false information to the Municipality, an authorised official or an employee of the Municipality or falsify a document issued in terms of these By-laws.

Exceptions to application of these By-laws

- 116.** (1) If authority was given before the date of commencement of these By-laws for installation work to be done, or if authorised work is in progress on such a date, such work must comply with any applicable laws which were in force in the area of jurisdiction of the Municipality, immediately prior to such date.
- (2) For a period of 90 (ninety) days after the commencement of these By-laws, the Municipality may give authority for installation work to be done in accordance with any law mentioned in subsection (1).
- (3) No owner may be required to comply with these By-laws by altering a water installation or part thereof which was installed in conformity with any law applicable immediately before the date of commencement of these By-laws provided that, if in the opinion of the Municipality, the installation or part thereof is so defective, or in such a condition or position to cause waste or undue consumption of water, pollution of the water supply, or a health, safety or environmental hazard, it may by notice in writing require the owner to comply with the provisions of these By-laws within a specified and reasonable period.

Exemptions

- 117.** (1) The Municipality may by resolution exempt any person from complying with a provision of these By-laws, subject to conditions, if the provision is considered to be unreasonable, provided that an exemption may not be granted which will result in —
- (a) wastage or excessive water consumption;
 - (b) evasion or avoidance of water restrictions;
 - (c) a danger for public health, safety or the environment;
 - (d) non-payment for services;
 - (e) the installation of pipes and fittings which are not approved in terms of these By-laws;
 - (f) non-compliance with the Act and regulations made in terms thereof.
- (2) The Municipality may at any time withdraw an exemption given in terms of subsection (1), provided that it must give the person concerned reasonable notice in writing of its intention to withdraw an exemption previously granted.

Offences

- 118.** (1) It is an offence for any person to —
- (a) refuse to grant an authorised official access to premises to which that authorised official is duly authorised to have access;
 - (b) obstruct, interfere or hinder an authorised official who is exercising a power or carrying out a duty under these By-laws;
 - (c) fail or refuse to provide an authorised official with a document or information that the person is required to provide under these By-laws;
 - (d) give false or misleading information to an authorised official;
 - (e) unlawfully prevent the owner of any premises, or a person working for that owner, from entering the premises in order to comply with a requirement of these By-laws;
 - (f) pretend to be an authorised official;
 - (g) falsely alter an authorisation to an authorised official or written authorisation, compliance notice or compliance certificate issued in terms of this Chapter;
 - (h) enter any premises without a written authorisation in circumstances requiring such authorisation;
 - (i) act contrary to a written authorisation issued in terms of these By-laws;
 - (j) without authority —

- (i) enter or inspect premises;
 - (ii) carry out any act mentioned in section 101(1);
 - (k) disclose any information relating to the financial or business affairs of any person which was acquired in the performance of any function or exercise of any power in terms of these By-laws, except —
 - (i) to a person who requires that information in order to perform a function or exercise a power in terms of these By-laws;
 - (ii) if the disclosure is ordered by a court of law; or
 - (iii) if the disclosure is in compliance of the provisions of any law.
 - (l) contravene or fail to comply with the provisions of these By-laws;
 - (m) fail to comply with any notice issued in terms of these By-laws;
 - (n) fail to comply with any lawful instruction given in terms of these By-laws;
 - (o) obstruct or hinder any authorised official of the Municipality in the execution of his or her duties under these By-laws; or
 - (p) cause any damage to any water installation or the sewage disposal system which is the property of the Municipality whether such water installation or the sewage disposal system is located outside the boundaries or inside the boundaries of the premises of which such person is the owner or occupier.
- (2) Any person convicted of an offence contemplated in subsection (1) is liable on conviction to a fine, or in default of payment, to imprisonment for a period not exceeding 6 (six) months, and in the case of a continuing offence, to a further fine not exceeding R50 (fifty Rand), or in default of payment to imprisonment not exceeding 1 (one) day, for every day during the continuance of such offence after a written notice has been issued by the Municipality requiring the discontinuance of such offence, and for a second or subsequent offence he shall be liable on conviction to a fine or in default of payment to imprisonment for a period not exceeding 6 (six) months.

Application of this Chapter

119. The provisions of this Chapter apply to all persons or bodies, including the State.

Repeal of By-laws

120. The by-laws listed in Schedule D are hereby repealed.

Short title

121. These By-laws are called the Water Services By-laws, 2005.

SCHEDULE A TARIFFS OF CHARGES:

DISCHARGE OF SEWAGE, INDUSTRIAL EFFLUENTS, AND OTHER SUBSTANCES

The Drainage By-laws (Tariffs) published on 31 October 1974 under Municipal Notice 525 and amended in Municipal Notice 272 on 12 October 1989 are hereby further amended by the substitution of Sections A and B for the following:

A:1 GENERAL

- (1) Every premises upon which a building has been erected or if it is undeveloped, or is large enough in the opinion of Council to be utilised, provided it is connected, or in the opinion of the Council could be connected to Council's sewage disposal system, is subject to a levy/tariff.
- (2) The following formula shall be applied in order to determine the monthly charges per erf or connection point, in respect of the usage of the sewage disposal system:

(a) Developed Erven:

$$C = \frac{b}{360} (e_{b_v} + e_{b_B} + e_{b_s}) T$$

(b) Undeveloped Erven:

$$C = \frac{b}{360} (V + S) T$$

C	Monthly charges per erf or connection point
b	Calculated, measured or as agreed upon monthly discharge per connection point of the sewage, industrial effluent and other substances
e_{b_v}	Estimated daily capacity of the sewage disposal system
e_{b_B}	Estimated daily discharge in the sewage disposal system determined by the authorised officer from time to time
e_{b_s}	Daily capacity purchased in the sea (outfall)
V	Annual estimated capital cost of the sewage disposal system
B	Annual estimated operating cost of the sewage disposal system
S	Annual estimated cost of the sea (outfall)
T	A surcharge determined by the council

- (3) The monthly discharge is calculated, measured or as agreed upon per month and in accordance with the table in paragraph B. The discharge figures in the respective tables are for Primary Uses in accordance with the proposed City of uMhlatuze Land Use Scheme in course of preparation.
- (4) After approval of a consent use, the erf will be reclassified to the applicable use zone.
- (5) Should the registered owner or occupier disagree with the determined discharge, the onus rests with the owner or user of developed erven to deliver proof of the monthly discharge, to the satisfaction of the authorised official.
