(2) Notwithstanding the provisions of subsection (1), the authorised official may determine the depth of a grave to be greater than 1.80 m.

Number of burials and capacity of cemeteries

22.(1) Notwithstanding anything to the contrary contained in this By-law, the Municipality is entitled to determine the—

- (a) number of burials per week in a cemetery; and
- (b) burial capacity of a cemetery, taking into account such factors as the Municipality may, in its discretion, consider relevant and necessary.

Opening and closing of graves

23. The Supervisor must arrange for the opening and closing of all graves and a person may not open, re-open or close a grave or assist in doing so except with the Supervisor's consent and, where practicably possible, under the Supervisor's supervision.

Exhumations

24.(1) A person may not exhume any human remains without the consent of the authorised official, except where the human remains are to be exhumed for the purpose of any judicial or other enquiry upon an order of a competent officer of the law: Provided that the authorised official must only give his or her consent on the production to him or her of a certificate from the Head of Health that he or she is satisfied that the opening of the grave and the exhumation can be carried out without danger to public health.

(2) During the exhumation the Supervisor must cause the block in which the grave is situated to be closed to the public. Any person who disobeys any sign or instruction erected or given by the Supervisor in terms of this section forbidding entry on the block is guilty of an offence.

(3) The grave from which any human remains are to be removed must be effectively screened from public view during the exhumation and a shell must be kept in readiness at the grave.

(4) Whenever giving his or her consent in terms of subsection (1), the authorised official must stipulate the hours during which such exhumation may take place.

(5) Subject to the provisions of this section, the exhumation must be carried out in accordance with the provisions of Chapter III of the Act.

Fees and charges

25.(1) The fees payable to the Municipality for interments, grave sites and plots, and for other services and facilities supplied by the Municipality are as prescribed by the Municipality in the Tariff By-law.

(2) All such fees and charges, unless previously paid, as may be due must be paid at the time an application for burial is made.

(3) Undertakers and managers or officials of public institutions approved by the Municipality may make special arrangements for payment of such fees and charges monthly. Where any such institution enters into an arrangement to pay such fees and charges monthly, the Municipality's Chief Financial Officer may require such institution to provide a written guarantee from a registered bank or insurance company, in a form to the satisfaction of the Chief Financial Officer, for an amount equivalent to the estimated value of burial fees which are likely to be incurred over a period of two months.

(4) Notwithstanding the provisions of subsections (1) and (7) of section 26 of this By-law, the rights acquired by any person under a lease with the Municipality and the tariff relating to fees and charges in respect of such lease applicable prior to this By-law coming into effect must be preserved.

(5) Pauper burials and the burial of persons whose immediate families qualify as indigent in terms of the criteria adopted by the Municipality are exempt from payment of any fees or charges referred to in this section.

Sale of right to use private graves

26.(1) The Municipality may, in its discretion, grant to any person for a period of 10 years the exclusive right of such person's next of kin to remain interred in a single grave site. Where such right is granted for a period of 10 years, the lessee or his or her heirs or successors in title are entitled to renew the same in terms of subsection (7) hereof for a further period of 10 years.

(2) Any person desiring to acquire the right to use a private grave as contemplated in subsection (1) must apply in writing to the authorised official and the appropriate charge prescribed in the tariff of charges must accompany the application.

(3) The allotment of a private grave must be recorded in a register and a certificate must be issued in the prescribed form by the Municipality to the applicant. In the event of the said certificate being lost or mislaid, a written confirmation of title to a private grave may be obtained from the authorised official on payment of the appropriate fee prescribed in the tariff of charges. If the application is not granted, the authorised official must return to the applicant the amount deposited. Such private grave must then be held subject to the Cemeteries and Crematoria By-law from time to time in force.

(4) The right to use a private grave must not be transferred without the approval of the authorised official: Provided that any person dissatisfied with any decision of the authorised official may lodge an appeal against such decision to the municipal manager in terms of section 62 of the Systems Act.

(5) An application to transfer an existing right to use a private grave must be made by the holder of the certificate or his or her lawful representative and must be accompanied by the prescribed transfer fee. The certificate must be attached to the application and the full name and address of the transferee must be shown.

(6) The transfer of an existing right referred to in subsection (5) must be registered by the authorised official, failing which such transfer will not be regarded as valid. In the event of an existing right to use a private grave or plot being transferred back to the Municipality, the original purchase price must be refunded and no transfer fee is payable in respect thereof.

(7) Any lessee desiring to renew any certificate issued in terms of this By-law or its predecessors may do so on expiry of the initial period of 10 years, and on payment of an amount equal to that paid on acquisition of the right to use the grave or plot or such other amount as may be prescribed in the tariff of charges applicable at the time of such renewal. Applications must be made in writing before the expiry of the initial period of 10 years, and the certificate must be produced to the authorised official, who must endorse the renewal thereon.

(8) All private graves must be used and maintained in conformity with the provisions of this By-law as amended from time to time.

(9) In the event of failure by a lessee to renew a certificate in terms of subsection (7) the Municipality may at any time repossess and use the private grave site or plot to which that certificate related.

(10) The Municipality may, at any time after the expiry of 10 years, issue a notice to repossess the right to use a private grave site or plot in perpetuity, where the grantee has failed to comply with the requirements set out in section 35 of this By-law.

(11) Where the whereabouts of the grantee are unknown and cannot, with the exercise of reasonable diligence be ascertained, and before exercising the power to repossess in terms of subsection (10), the Municipality must publish in—

- (a) a newspaper circulating within the Municipality's area of jurisdiction; and
- (b) at least two official languages, a notice of its intention to repossess such private grave site or plot upon the expiry of three months from the date of such notice.

(12) Where a grave site or plot in any public cemetery is required for public or municipal purposes, the authorised official may allocate another grave site or plot in the same cemetery or in any other public cemetery to the grantee or lessee concerned, in exchange for the grave site or plot required for public or municipal purposes.

Re-opening of private graves and number of bodies in one grave

27.(1) The consent of the person who is the registered holder of a certificate for the use of a private grave or plot or of his lawful representative must be produced to the Supervisor prior to any private grave being reopened for fresh interment.

(2) No more than two bodies shall be buried in the same grave at the same time.

3. Any person who wishes to apply for a second interment in the same grave may do so only after a period of two years has lapsed since the date of the first interment on condition that the grave was deepened prior or during the preparation of the grave for the first interment.

28. Grave reservation

28.1 In making sure that the burial space is shared fairly and due to burial space scarcity, no reservation of burial plots will be allowed.

Type of coffin permitted

29.(1) A person may not place or cause to be placed in any public grave, private grave or plot in any cemetery a coffin constructed of any material other than biodegradable material which is environmental friendly.

(2) The provisions of subsection (1) must not be interpreted to prevent the use of other burial methods which utilise biodegradable environmentally friendly materials, including but not limited to a cloth and/or a shroud.

Payment of burial fee

30.(1) Any person who desires to have a body interred in a public grave must pay the burial fee prescribed in the tariff of charges. Such fee entitles the person concerned to a single interment only, and the allocation of the grave must be determined by the Supervisor in his or her sole discretion.

(2) Where the prescribed charge for the use of a public grave has been paid by or on behalf of any person, the representatives of such person may be permitted within six months after the date of the burial to acquire such grave as a private grave upon payment of the charge prescribed for the purchase of the right to use a private grave.

(3) Notwithstanding the provisions of subsection (1), no burial fee is payable in respect of any pauper burial or the burial of any person whose family or immediate next of kin qualify as indigent in terms of the applicable criteria adopted by the Municipality from time to time.

(4) The burials referred to in subsection (3) must be undertaken by the funeral undertaker contracted to the Municipality following the normal tendering process of the Municipality.

Standard size of graves

31. The standard size of all single grave sites in a public cemetery is 2.40 m by 1.10 m: Provided that the provisions of this section do not apply to grave sites in any public cemetery which were laid out prior to 1956 and which are shown on the final plan of such cemetery to be of a greater or lesser size than that prescribed by this section.

Funeral ceremonies

32.(1) The person having charge of a funeral must make all arrangements for the carrying out at such funeral of the requisite religious ceremony or rites.

(2) A person may not conduct a religious ceremony or service according to the rites of any denomination in such portion of a cemetery as may be set apart for members of other denominations.

(e) any other persons or materials which the authorised official may permit.

(2) A person must not take into the cemetery any car, cart, carriage or other vehicle where its gross mass is in excess of 6 000 kg.

(3) All vehicles lawfully within the cemetery must proceed at a speed not exceeding 15 km/h therein, and it is prohibited for any vehicle to pass in close proximity to any point where a funeral service is being conducted.

Tampering with graves prohibited

- (a) maintain such grave in proper order; or
- (b) repair, renovate or remove any memorial work which is in a dilapidated, ruinous or unsightly condition.

(3) If the whereabouts of the lessee or grantee are unknown to the Municipality or if the lessee or grantee fails to execute the necessary work, within the period stipulated in the

aforesaid notice referred to in subsection (2), the Municipality may itself carry out such maintenance, repair, renovation or removal as it may consider necessary and recover the cost thereof from the lessee or grantee.

(4) Grass, weeds or other material cleaned off a grave must not be deposited or thrown onto an adjoining grave or any other grave or plot or onto any road, path or vacant land, but must be either removed from the cemetery or placed into receptacles or containers provided for that purpose.

(5) The lessee or grantee of a private grave or plot in any public cemetery is deemed in terms of this subsection to have indemnified the Municipality, the authorised official and all municipal employees in respect of any damage howsoever caused to or theft of any memorial work erected or which may be erected on any private grave or plot and to have absolved them from any liability for such damage or theft.

Trees or plants on grave sites

37. A person may not, without the consent of the Supervisor, plant on any gravesite in the cemetery, whether such grave site be occupied or not, any tree or shrub or any species of plant capable of holding water in which mosquitoes can breed. The Supervisor may at the lessee's expense prune, cut down or dig up and remove any shrub, plant or flower at any time if in the authorised official's opinion the same has become unsightly or overgrown or is causing a nuisance, damage to an adjoining grave, or when it is necessary for the purpose of allowing the grave to be used again.

Dead animals on graves

38. No person may be allowed to dispose any dead animal or pieces on grave or anywhere near the cemetery.

Unsightly objects not allowed

39. A person may not keep or allow to remain on any grave site in the cemetery, whether occupied or unoccupied, any tins, bottles, old crockery or other unsightly objects, and the

Supervisor is authorised to remove any such objects, as well as any broken, dilapidated or unsightly wreaths, vases or receptacles.

A person who wishes to erect, alter or add to any memorial work in the cemetery must first submit to the authorised official the plans of such work, together with any inscriptions to be made thereon, and if the authorised official grants his or her approval thereof, he or she must issue written permission in a form prescribed by the Municipality for that purpose, subject to payment by the person concerned of the appropriate fee prescribed in the tariff of charges, and the erection of such memorial work must be carried out under the direction of the authorised official.

Erection of a headstone or tombstone

40.(1) The type of memorial work allowed for erection in a cemetery is a headstone or tombstone, the erection of which must be in accordance with the specifications and guidelines determined by the Municipality from time to time.

(2) Any person desiring to erect a headstone or tombstone at a grave site must make a request in person or through an authorised representative to the booking clerk at the regional centre or designated municipal office nearest to the cemetery in question, and present to the booking clerk such documents as may be required by the Municipality for that purpose, including—

(6) All memorial work to be erected in the cemetery must as far as possible be brought into the cemetery in a state prepared and ready for fitting.

(7) Under no circumstances must any portion of the cemetery be used for the purpose of manufacturing any headstones or tombstones without the consent of the authorised official, who may in his or her discretion on application grant facilities in unused portions of the cemetery for such purposes.
