AW BREDELL**PROVINCIAL MINISTER OF LOCAL GOVERNMENT, ENVIRONMENTAL AFFAIRS AND DEVELOPMENT PLANNING****SCHEDULE**

The proposed coastal management line for the City of Cape Town (the City) is delineated along the City's existing coastal edge for the lengths of coast as represented in the City's Municipal Spatial Development Framework. The coastal management line is interrupted at certain places because it passes along national parks or other land for which the City is not the management authority. The coastal management line is as follows:

- The coastal management line starts at the northern municipal boundary of the City on the West Coast and follows the City's coastal edge in a southern direction, up to the northern boundary of Koeberg Nature Reserve.
- Koeberg Nature Reserve is not included because it is a protected area that falls outside the jurisdiction of the City.

- The coastal management line continues at the northern boundary of Van Riebeeckstrand, following the coastal edge in a southern direction, past Ou Skip, Atlantic Beach Golf Estate, Big Bay and further south past Bloubergstrand.
 - In Table View, the coastal management line runs landward of the Table Bay Nature Reserve's Rietvlei Section. The residential areas Dolphin Beach, Sunset Beach and Sunset Links are demarcated as development islands.
 - From Table Bay Nature Reserve's Rietvlei Section, the coastal management line follows the coastal edge further south through Milnerton, with Milnerton Golf Course seaward of the coastal management line. Woodbridge Island and the Milnerton Golf Club are demarcated as development islands.
 - From Milnerton the coastal management line continues in a southern direction, moves inland to the point where Pienaar and Ascot Roads meet, then follows Ascot/Union Road to the intersection of Hawston and Union Roads and then moves to the coastal edge and continues south. It excludes (continues seaward of) Neptune's Isle, Spinnakers, Lagoon Beach Hotel and the Leisure Bay development complex until it reaches the eastern extent of the Cape Town Harbour Precinct at Paardeneiland.
 - The coastal management line continues again at the southern side of Cape Town Harbour on the coastal edge by the Radisson Hotel and continues along Beach Road through Mouille Point into Greenpoint, following the coastal edge passing Three Anchor Bay, Sea Point, and Fresnaye, and temporarily joining Seacliff Road in Bantry Bay.
 - From Seacliff Road the coastal management line follows the coastal edge past Clifton, Camps Bay and Bakoven.
 - From the southern extent of Bakoven, the coastal management line continues south along the coastal edge, along Victoria Road (M6), past the Twelve Apostles and stops at Oudekraal Nature Reserve.
 - The coastal management line continues again at the northern end of Hargrave Avenue in Llandudno following the coastal edge in a southern direction until it meets the Table Mountain National Park boundary at the southern end of Llandudno.
 - The coastal management line excludes the entire extent of the Table Mountain National Park, because this falls outside the competence of the Provincial Minister responsible for environmental matters.
 - The coastal management line continues again at the southern coastal edge of Hout Bay, along the built edge of the harbour in a northern direction, and continues along the coastal edge up to Chapman's Peak Drive.
 - The coastal management line continues at Noordhoek and follows the coastal edge of the Noordhoek area. The coastal management line continues at Kommetjie and follows the coastal edge to Scarborough where the line reaches the Cape Point section of the Table Mountain National Park.
 - The coastal management line continues in False Bay at Smitswinkel Bay and continues north along the coastal edge past Castle Rocks, Millers Point, Murdock Valley and Simon's Town Country Club, and further along the coastal edge and built edge of Simon's Town harbour.
 - The coastal management line continues to follow the coastal edge towards Muizenberg, passing Bayview Village, Glencairn, Fish Hoek, Kalk Bay and St James.
 - At Muizenberg, the coastal management line runs inland around the Zandvlei estuary and back towards the coastline towards Royal Road, where the coastal management line then continues in an eastern direction along the coastal edge along Baden Powell Drive.
 - Where Baden Powell Drive meets Sanderling Road (at the circle), the coastal management line continues along the coastal edge, following Baden Powell Drive and a section of the False Bay Ecology Park. The coastal management line then continues along the coastal edge of Pelican Heights up to Beak Road. From Beak Road, the coastal management line turns south along Strandfontein Road and continues to follow the coastal edge in an eastern direction to Macassar.
 - At Macassar, there is a development island around the Macassar Resort area. From Macassar, the coastal management line continues along the coastal edge in an eastern direction along the False Bay coast.
 - At Lochnerhof, the coastal management line continues along the coastal edge in a south-eastern direction towards Greenways Golf Estate. The coastal management line continues south of Greenways, runs landward of Harmony Park and turns back to the coast, running along the coastal and built edge of Harbour Island, towards the intersection of Breakwater Lane and the R44 continuing towards Gordon's Bay.
 - The coastal management line continues to follow the coastal edge to Gordon's Bay, running along the built edge of Gordon's Bay harbour.
 - From Gordon's Bay harbour, the coastal management line follows Faure Marine Drive, turns inland along the Steenbras River mouth and back to Marine Drive, up to the edge of the City's municipal boundary.

- Die kusbestuurslyn sluit die hele Tafelberg Nasionale Park uit, omdat dit buite die regsbevoegdheid van die Provinsiale Minister verantwoordelik vir omgewingsaangeleenthede val.
- Die kusbestuurslyn gaan voort aan die suidelike kussoom van Houtbaai, al langs die geboude soom van die hawe in n noordelike rigting, en loop verder al langs die kussoom tot by Chapmanspiek-rylaan.

- Die kusbestuurslyn volg verder die kussoom na Muizenberg, verby Bayview Village, Glencairn, Vishoek, Kalkbaai en St James.
- By Muizenberg loop die kusbestuurslyn na die binneland, rondom die Zandvlei-riviermonding en terug na die kuslyn na Royalweg, waar die kusbestuurslyn in n oostelike rigting voortgaan langs die kussoom langs Baden Powell-rylaan.

A MSDF is a long-term strategic planning document that spatially indicates the desired future growth and development path of a municipality, informed by the development principles set out in Section 7 of SPLUMA, which relates to spatial justice, spatial sustainability, efficiency, spatial resilience and good administration. 'n MROR is 'n langtermyn strategiese beplanningsdokument wat ruimtelik die gewensde groei en ontwikkelingsrigting van 'n munisipaliteit aandui, ingelig deur die ontwikkelingsbeginsels uiteengesit in Artikel 7 van SPLUMA, wat verband hou met ruimtelike geregtigheid, ruimtelike volhoubaarheid, doeltreffendheid, ruimtelike veerkragtigheid en goeie administrasie. 'n MROR is een van die kernkomponente van 'n Munisipale Geïntegreerde Ontwikkelingsplan (GOP), en gee fisiese ruimtelike effek aan die visie, doelstellings en objektiewe van die GOP. Sodra dit voltooi is, sal die Oudtshoorn MROR goedgekeur word in terme van die MSA en sal dan dien om besluitneming, ten opsigte van ontwikkeling en grondgebruikbeplanning, te lei.

'n MROR is 'n langtermyn strategiese beplanningsdokument wat ruimtelik die gewenste groei en ontwikkelingsrigting van 'n munisipaliteit aandui, ingelig deur die ontwikkelingsbeginsels uiteengesit in Artikel 7 van SPLUMA, wat verband hou met ruimtelike geregtigheid, ruimtelike volhoubaarheid, doeltreffendheid, ruimtelike veerkragtigheid en goeie administrasie. 'n MROR is een van die kernkomponente van 'n Munisipale Geïntegreerde Ontwikkelingsplan (GOP), en gee fisiese ruimtelike effek aan die visie, doelstellings en objektiewe van die GOP. Dit koördineer die ruimtelike implikasies van alle strategiese planne vir munisipale sektore (ingenieurswese, vervoer, ekonomiese ontwikkeling, behuising, ens.), terwyl die rol van die munisipaliteit in die distriks-, provinsiale en nasionale ruimte-ekonomie erken word. Sodra dit voltooi is, sal die Oudtshoorn MROR goedgekeur word in terme van die MSA en sal dan dien om besluitneming, ten opsigte van ontwikkeling en grondgebruikbeplanning, te lei.
