The International Trade Administration Commission of South Africa (ITAC) has a policy not to issue duty rebate permits in terms of item 470.03 and duty drawback permits in terms item 521.00 with respect to carbon black as a result of the existing anti-dumping duties on carbon black (classifiable under tariff heading 2803). This is a reinstatement of the tariff description and duty as this tariff item was previously scrapped to the disadvantage of the manufacturer of these capital items.

2. Supports for split roller bearing housings with a spherical inner diameter of 100mm or more but not exceeding 400mm currently classifiable under tariff subheading 73.25, from free of duty to 10% ad valorem and;

Bearing housings whether or not fitted with a support, for split roller bearings with a shaft size of 35mm or more but not exceeding 200mm and a spherical outer diameter of 100mm or more but not exceeding 400mm currently classifiable under tariff subheading 8483.30, from free of duty to 10% ad valorem.

[ITAC Ref. T5/2/18/1 (46/2004) Mr. D Smith, Tel: (012) 394 3684,
Fax: (012) 394 0522]

Reason for the application: The applicant is a relatively small domestic manufacturer of split bearing housing and supports for these housings and is trying to establish itself and the proposed duties will serve as protection and encouragement for the development of the domestic manufacturing of bearing housings and their supports.

REVISION OF THE DUTY ON:

Sugar confectionery (including white chocolate) not containing cocoa, classifiable under tariff subheading 1704.90.

Fax: (012) 394 4680]

Reason for the application: The future of the SACU sugar confectionery industry is uncertain as a result of a surge in imports at low prices than the SACU prices. According to the applicant, the major producers of sugar confectionery products are already in the process of downsizing due to negative returns experienced, which also resulted in the liquidation of at least five manufacturers over the past twelve months. The applicant added that the international sugar pricing is highly distorted as a result of subsidies and high tariffs in major developed countries.

Reason for the application: There are no domestic manufacturers of other self-propelled works trucks fitted with lifting and handling equipment and the duty does not serve a protective purpose, but is a cost burden to the industry and consumers.

2. Forklift trucks (previously 'Other self-propelled trucks of a mass exceeding 6 000 kg), of a mass exceeding 10 000kg, classifiable under tariff subheading 8427.20.20.

Reason for application: X-Treme Off-road Karts contends that there are no local manufacturers to be protected by the 36% duty. The duty is an additional cost to the applicant and the consumers.

Reason for the application: This application for a rebate of the customs duty on the imported salmon used as raw material by SA fish processors is made to avoid the massive impact which the increase in duty on Salmon will have on employment at SA fish processing establishments.

**LIST 2/2005 WAS PUBLISHED UNDER GENERAL NOTICE NO. 36 OF 21
JANUARY 2005.**

NOTICE 259 OF 2005
INTERNATIONAL TRADE ADMINISTRATION COMMISSION OF
SOUTH AFRICA

**TERMINATION OF THE INVESTIGATION INTO THE ALLEGED DUMPING OF
STEEL WHEELS ORIGINATING IN OR IMPORTED FROM BRAZIL, THE
PEOPLE'S REPUBLIC OF CHINA, CHINESE TAIPEI AND TURKEY**

On 28 May 2004, the International Trade Administration Commission of South Africa (the Commission) formally initiated an investigation into the alleged dumping of steel wheels (subject product) originating in or imported from Brazil, the People's Republic of China, Chinese Taipei and Turkey. Notice of the initiation of the investigation was published in Notice No. 852 of *Government Gazette* No.26374 dated 28 May 2004.

The application was lodged on behalf of the Southern African Customs Union (SACU) industry by Guestro Wheels (Pty) Ltd, which alleged that the dumped imports were causing material injury to the SACU industry.

The investigation was initiated after the Commission considered that there was *prima facie* evidence to show that the subject product was being imported at dumped prices, causing material injury to the SACU industry.

On initiation of the investigation, the known producers and exporters of the subject products in Brazil, the People's Republic of China, Chinese Taipei and Turkey were sent foreign manufacturers/exporters questionnaires to complete. Importers of the subject product were also sent questionnaires to complete.

On 26 January 2005, the Commission, after considering all parties' comments, made a preliminary determination that the subject product was being dumped on the SACU market and that the SACU industry was suffering material injury.

The Commission, however, made a preliminary determination that factors other than dumping was causing injury to the industry and this sufficiently detracted from the causal link between the dumping and the material injury.

The Commission, therefore, made a preliminary determination to recommend to the Minister of Trade and Industry that the investigation into the alleged dumping of steel wheels originating in or imported from Brazil, the People's Republic of China, Chinese Taipei and Turkey, be terminated.

The Commission's detailed reasons for its decision are set out in Commission Report No. 96 (preliminary report).

Enquiries may be directed to the investigating officers, Ms Mandie Wagner at telephone (012) 394 3593 and Ms Selma Takacs at (012) 394 3596, or at fax (012) 395 0518.

of the Manual contains detailed signing policy and design principles. The text covering each sign, marking and signal starts with a statement regarding the meaning, or significance, of the device. These statements are essentially the same as those given in the harmonized model road traffic sign regulations, prepared at the same time as Volume 1. The content of Volume 1 provides an in depth description of the road traffic sign system and working detail on the use of each individual component of the system.

Volume 2

deals with the collective application of signs, markings, and signals for specific subject areas such as traffic accommodation at roadworks, tourism signing, public transport signing and signing for the control of heavy vehicles.

Volume 3

provides in depth detail on the selection, installation, operation and control methods for traffic signals.

Volume 4

gives complete dimensional details, together with accurate scalable drawings, of all signs, markings and signals, including details of all letter types used on direction signs.
