**NOTICE IN TERMS OF THE PRIVATE SECURITY INDUSTRY REGULATION ACT,  
2001  
(ACT No.56 OF 2001): EXEMPTION IN TERMS OF  
SECTION 20(5) OF THE ACT**

I, Charles Nqakula, Minister for Safety and Security, have, by virtue of the powers vested in me by section 20(5) of the Private Security Industry Regulation Act, 2001 (Act No. 56 of 2001) after consultation with the Council for the Private Security Industry Regulatory Authority, exempted De Beers Group Services (PTY) LTD, from the Private Security Industry Regulations Act, 2001, on condition that -

- the exemption will only be valid for a period of five years from the date hereof.
- all internal security officers of De Beers Group Services (PTY) LTD must register in terms of Private Security Industry Regulation Act, 2001 (Act No. 56 of 2001)
- there is no change in the business activities of the company, as set out in its application for exemption

Signed at Pretoria on this 23<sup>rd</sup> day of November 2006.

### NOTICE 35 OF 2007

### INTERNATIONAL TRADE ADMINISTRATION COMMISSION

#### NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF WELDED LINK STEEL CHAIN ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA

The International Trade Administration Commission (the Commission) accepted an application alleging that welded link steel chain originating in or imported from the People's Republic of China (PRC) is being dumped on the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

#### THE APPLICANT

The application was lodged by Scaw Metals Group Chain Products being the only manufacturer of the subject product in SACU. The Applicant alleges that it cannot compete with the low prices charged by the importers and that the allegedly dumped products are causing it material injury. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury and causality.

#### THE PRODUCT

The product allegedly being dumped is non-articulated welded link chain, the links of which are manufactured from round section iron or steel wire, bars or rods of a diameter of 4mm or more but not exceeding 10mm, classifiable under tariff subheading 7315.82, originating in or imported from the PRC.

## THE ALLEGATION OF DUMPING

The Applicant tried to obtain normal values in the PRC but was unsuccessful. The Applicant could only obtain quoted export prices and not domestic selling prices in the PRC. The Applicant therefore nominated Australia as a third country to determine the normal values for the PRC as it believes that the chain manufacturing industry in Australia and that of the PRC is on the same level of development.

The allegation of dumping is therefore based on the comparison between the normal value in Australia and the export price from the PRC. The normal values were determined based on domestic sales invoices provided by an Australian company for the products concerned. The export price was determined based on the official import statistics as obtained from the South African Revenue Service for the period 1 January 2005 to 31 December 2005. On this basis, the Commission found that there was *prima facie* proof of dumping.

## THE ALLEGATION OF MATERIAL INJURY AND CAUSAL LINK

The Applicant alleges that it is suffering material injury and submitted sufficient evidence to show that there is price undercutting and that the imports in question are suppressing its selling prices. The Applicant's information indicated a decline in sales volume, profit margins, output, market share and capacity utilisation. It further indicated that there is a negative effect on cash flow, return on investment and ability to raise capital. It was also evident that the decrease in market share has been at the expense of a corresponding increase in the market share of the allegedly dumped goods. On this basis the Commission found that there was *prima facie* proof of material injury and causal link.

## PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin in the exporting country of origin will be from 1 July 2005 to 30 June 2006. The period of investigation for purposes of determining injury will be from 1 January 2003 to 30 June 2006. If there are subsequent events that are relevant to injury the Commission may later request and consider further, more recent information.

## PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website ([www.itac.org.za](http://www.itac.org.za)) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the exporting country has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

## CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously, will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is

*otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

*"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):*

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequences for the person that provided such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

*Provided that a party submitting such information indicates it to be confidential."*

## ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury must be submitted in writing to the following address:

### Physical address

The Senior Manager: Trade Remedies I  
International Trade Administration Commission  
**Block E – The DTI Campus**

SUNNYSIDE  
PRETORIA  
SOUTH AFRICA

### Postal address

The Senior Manager: Trade Remedies I  
Private Bag X753  
PRETORIA

SOUTH AFRICA

## **PROCEDURES AND TIME LIMITS**

All responses, including non-confidential copies of the responses, should be received by the Senior Manager: Trade Remedies I not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the

specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

**Enquiries may be directed to the investigating officers, Ms Mandie Wagner at telephone +27 12 394-3593 or Mr Jeffery Mapagela at telephone +27 12 394-3639 or Ms Nomonde Somdaka at telephone +27 12 394-3737 or at fax +27 12 394-0518.**

## NOTICE 36 OF 2007

**Safety in Mines Research Advisory Committee (SIMRAC)**  
**on behalf of the**  
**Mine Health and Safety Council (the Council)**

*Invitation to submit project proposals*

SIMRAC, a permanent committee of the Mine Health and Safety Council, was established in terms of the Mine Health and Safety Act (29/1996) to conduct research and surveys regarding, and for the promotion of, health and safety in the South African mining industry. Suitably qualified agencies and/or persons are invited to submit proposals in response to the project specifications in this Notice. In soliciting research projects for the 2006/2007 and 2007/2008-research programmes, the Council has the following goals:

- to indicate the current research needs for research to commence in the 2006/2007 or 2007/2008 cycles;
- to invite research proposals in response to these defined priority areas of research; and
- to invite applications for postgraduate funding<sup>1</sup> for research which will promote health and safety within the South African mining industry.

A consultative process has resulted in the Council formulating a co-ordinated, long-term health and safety research programme and identifying priority areas for research to commence in the 2006/2007 cycle. Researchers and agencies are invited to submit research proposals for the research projects indicated. Proposed research must be well designed with a detailed methods section, be ethical *and* must have the potential to add to existing knowledge, practice or technology, involve the end users and implement/transfer outputs. Research teams must have the specified skills.

### Submission of Proposals

1. Proposals must be submitted in accordance with the prescribed format. Contact Cecile Gomes at telephone 011 358 9180, fax 011 403 1821, e-mail [cjones@mhsc.org.za](mailto:cjones@mhsc.org.za) or visit the SIMRAC website [www.simrac.co.za](http://www.simrac.co.za) to download the submission template. PLEASE NOTE THAT THE NEW FORMAT NEEDS TO BE USED.
2. Queries regarding the aims and objectives of the thrusts listed in this notice can contact the following persons:
  - Engineering and Machinery: Dragan Amidzic at [damidzic@mhsc.org.za](mailto:damidzic@mhsc.org.za) (011 358 9109)
  - Rock Engineering: Duncan Adams at [dadams@mhsc.org.za](mailto:dadams@mhsc.org.za) (011 358 9193)
  - Occupational Health: Audrey Banyini at [abanyini@mhsc.org.za](mailto:abanyini@mhsc.org.za) (011 358 9183)
  - SIMRAC Chairperson: Thabo Gazi at [thabo.gazi@dme.gov.za](mailto:thabo.gazi@dme.gov.za) (012 317 8461)
  - Proposal Submission: Cheryl Jones at [cjones@mhsc.org.za](mailto:cjones@mhsc.org.za) (011 358 9182)

3. Proposers are requested to take note of past work in the different thrust areas. (Details are available on website [www.simrac.co.za](http://www.simrac.co.za)).
4. The closing time and date for the receipt of the proposals is **12:00 on Friday 23 February 2007**. Late entries will not be considered.
5. Two copies of each proposal, in a sealed envelope, in a form suitable for photocopying plus a disk or CD with the proposal in MS Word, should be deposited in the repository labeled "*Proposals*" at the Council's offices<sup>2</sup>.
6. The Council may at its sole discretion, decide to recommend the acceptance, rejection or amendment of any proposal and to commission the team to develop the proposal on the basis of which the contract is awarded. The Council shall not furnish any reasons for its decisions regarding proposals.
7. Every proposal accepted by the Council would be subject to a set of Terms and Conditions, which on acceptance of the final detailed proposal will form part of the contract applicable to the project. All prospective proposers should peruse a set of the standard terms and conditions prior to submitting a proposal. A copy of the draft standard terms and conditions is available on the SIMRAC website [www.simrac.co.za](http://www.simrac.co.za).
8. **Charge-out rates have to be in accordance with the rates specified by the Science Council, ECSA and SACNAPS**
9. **Preference will be given to proposals that composes of a project team with HDI's.**
10. In compiling proposals, prospective proposers should provide details of methods, identifiable outputs and estimated costs as indicated.
11. The Council will endeavour to solicit the services of South African organisations to undertake projects, but will consider proposals from overseas-based organisations if expertise, cost considerations and local capacity building components compare favourably.
12. The Council requires full disclosure regarding all subcontracts included in the proposal.
13. The proposer and any of its affiliates shall be disqualified from providing other goods, works, or services under the project if, in the Council's judgment, such activities constitute a conflict of interest with the services provided under the assignment/project.
14. Where an output includes a device, mechanism, procedure, or system capable of being applied in the mining environment, a prospective proposer shall include in the proposal an output which suggests how the outputs in question might best be applied in practice. In drafting proposals, all prospective proposers should bear in mind the potential for technology transfer and phasing the project as indicated.
15. The period for which the proposals should be held valid is 150 days.

---

<sup>2</sup>, 2nd Floor, Braamfontein Centre, 23 Jorissen Street, Cnr. Bertha Street, Braamfontein

16. During this period the proposal must undertake to maintain, without change, the proposed key staff, and must hold to both the rates and total price proposed; in case of extension of the proposal validity period, it is the right of the proposer not to maintain their proposal.
17. The anticipated commencement date of the projects is 1 April 2006.
18. Each proposer have to submit a TAX Clearance Certificate with the proposal
19. A BEE Questionnaire has to be completed by each proposer. The questionnaire can be obtained from Cheryl Jones at [cjones@mhsc.org.za](mailto:cjones@mhsc.org.za)
20. Each successful proposer may, during the contract period or shortly after its completion, be required to provide:
- A competent spokesperson with appropriate materials to make not more than two separate presentations, on an annual basis for the duration of the project, and
  - A technical paper on the project for publication and/or a poster presentation, without additional remuneration or reimbursement of costs.
- These activities must be detailed and costed within the project.
14. Where relevant, proposers may obtain copies of earlier project reports and other information from the website address or from contacts listed (See paragraph 1 and 2).
15. Proposers are advised that all Council projects should be submitted to language editing and may be subjected to technical and financial audits. Funding for editing and audits should be included in the proposal budget.
16. Proposers should substantiate and cost separately, all proposed travel outside the borders of South Africa in connection with the project, and provide details of all expenses such as travelling and subsistence.
17. All proposed project costs must be expressed in South African Rands and the total price must be VAT inclusive. Fluctuations in the exchange rate and purchase of forward cover should be considered when costing the proposal.
18. The Council will take all reasonable steps to ensure that confidentiality of proposals is maintained during the adjudication process. If a proposal is not accepted within the programme, the Council may invite additional proposals on the topic.
19. No unsolicited proposals will be included in the programmes for 2006/7 or 2007/8
20. The Council does not guarantee that the proposal at the lowest cost will be accepted as the following three-stage evaluation procedure will be followed:
- a. A technical evaluation of the proposal that will consist of the following items and weight allocations:

1.	<b>Capability and capacity of the project team</b>	
1.1	Relevant formal qualifications	5

1.2	Knowledge of relevant OHS issues in mining industry	5
1.3	Experience in conducting research in this area	5
1.4	Balance of team composition and competencies	5
1.5	Resources and facilities available	5
1.6	Track record: quality, on-time and within budget	5
2.	<b>Research design and methods</b>	
2.1	Appropriate study design and proptocol	5
2.2	Representivity, sample, strategy and size	5
2.3	Technical methods (tests etc)	5
2.4	Intended analysis of results	5
2.5	Ethics, risks and limitations	5
3.	<b>Research outputs</b>	
3.1	Appropriate format	5
3.2	Usefulness	5
3.3	Potential impact	5
3.4	Technology transfer	5
	<b>Total Score – Technical</b>	<b>75</b>

b. A price evaluation that will be calculated as follows:

$$P_s = (P_{min}/P_t) * A_p$$

Where

$P_s$  = % scored for price by proposal being evaluated

$P_{min}$  = price of lowest bidder

$P_t$  = price of proposal being evaluated

$A_p$  = % allocated for price aspect of proposal (15%)

c. A preferential procurement purposes using the following criteria and weightings:

- The proposals will each be given a score out of 100 that will be converted to a score out of 10 for the SIMRAC evaluation process
- Commercial Entities will be evaluated against the following criteria and weightings:
  - Ownership - 20%
  - Management - 10%
  - Employment Equity & Skills development – 30%
  - Preferential Procurement – 30%
  - SMME Status – 10%

- **National Institutions and Public Entities will be evaluated against the following criteria and weightings:**
  - Ownership - 0%
  - Management - 30%
  - Employment Equity & Skills development – 40%
  - Preferential Procurement – 30%

The **objectives** of the Council in commissioning health and safety research, for both general and commodity-based projects, are to:

- Obtain and evaluate information to establish evidence-based risk assessment, standard setting and health and safety performance measurement;
- Develop techniques or guidelines to prevent, reduce, control or eliminate risks;
- Develop and pilot innovative ideas and procedures, where appropriate, to eliminate, reduce or control risk;
- Obtain information on the extent of work-related ill health;
- Identify, develop and improve sampling and measurement techniques to detect environmental hazards and assess personal exposure;
- Understand the aetiology and identify and evaluate best-practice screening, diagnostic and treatment interventions to reduce the impact of occupational disease;
- Evaluate the effectiveness of control interventions;
- Understand risk perception, attitudes and behaviour related to health and safety and promote best practices in hazard recognition and procedural conformance;
- Empower its statutory committees to formulate policy, expedite research aimed at improving the health and safety in the South African mining industry; and
- Collaborate with national and international initiatives and research to promote health and safety in the mining industry.

The **criteria** by which proposals will be evaluated include:

- **Added value and impact** – the Council supports research which can contribute significantly to the improvement in the health and safety of South African miners;
- **Value for money** – the Council supports cost-effective research;
- **Innovation** – the Council welcomes new approaches or new areas of focus for research leading to technologies or best practices to improve health and safety;
- **Excellence** – the Council demands excellence, particularly in the methods employed to conduct research, be it quantitative or qualitative, and hence will consider the track record of the proposer/s for expertise and delivery (quality, time and to budget);
- **Use and development of research skills** – the Council requires research teams to possess the skills relevant to the success of the project and also favours projects which assist in developing research capacity, particularly in previously disadvantaged groups;
- **Collaboration** - the Council places a high priority on collaboration between researchers and the "teams of excellence" approach. Thus, the means of soliciting research proposals is intended to stimulate collaboration between centres of excellence and individual experts in order to optimise the use of the Council funding and the research outcomes.
- **Development of key indicators** – the Council recognises the challenge in assessing performance and improvement in health, as opposed to safety, in the mining industry. There is a lack of suitable occupational health (OH) indicators and baseline data. Thus innovative and robust research to develop relevant OH indicators and baseline values will be favourably considered.

The Council's research and implementation programme consists of occupational health and safety, addresses occupational medicine and hygiene, rock engineering, engineering and machinery, behavioural issues and technology transfer processes.

**Each proposal must:**

- Address only the research topic advertised and this must be specified;
- Be in the format indicated and the template specified using Word format; and
- Be phased as indicated in the project scope.

**SIM 07 05 01****Thrust**

Thrust 5, Machinery and Transportation

**Problem Statement / Research Question**

Rail related fatal accidents shows an increase in the short term (last 5 years), and stayed on the same level for the last 15 years.

**GAP Analysis (Statistics/ Previous Research/Best Practice / Benchmarking)**

GAP 520, SIM 020503, GAP 703, SIMGAP 635, SIM 030504

**Expected Impact on OHS / Value Added**

- Improved safety records
- Understanding of main causes of the accidents

**Project title**

Railbounded transport safety (Phase 1)

**Motivation**

An analysis of the past five years SAMRASS data into rail system accidents on SA Mines shows that these accounts for approximately 10% of all fatal accidents. That is almost in total agreement with the findings of the previous MHSC project, GAP 520, which is finalized in 1999. Other important findings were:

- Rail equipment design has not changed much for the last 20 years
- Local rail system accident rates are higher than those of the selected other countries
- Worker discipline and safety awareness are generally of a low standard
- Major causes of accidents are walking on or next to the track, derailments and collisions.

Current legislation for rail bound transport didn't have an impact on safety stats.

**Primary outputs**

Best practice document to improve safety of underground transport

**Scope**

1. critically review all previous reports/research documents and compare it with current situation
2. Most importantly do an in-depth investigation of the stats and enquiry reports in order to find the real causes / conditions behind accidents (also technical vs. human factors)
3. Identify gaps within current codes of practice - investigate the implementation of current legislation to improve knowledge sharing between groups and over-all coordination to share learning points
4. draft document with suggestion for further actions.

**Estimated duration**

12 months

**Typical recipients of the Report/Main Outputs**

MHSC stakeholders, mining industry

**Requirement for technology transfer**

Phase 1 project, only knowledge/info transfer.

**Special skills and facilities required by project team**

Experience in rail-bound transportation, accident and statistical investigations, mining.

**SIM 05 08 03****Thrust****Thrust 8, Occupational Deceases****Project title****Post traumatic stress disorders in the South African mining industry****Motivation**

- **Problem statement**

The mental health problems associated with disasters are varied from transient responses to minimal stressors to a more chronic and significant impairment following such an event. The significant impairment are chronic mental disorders that have tremendous impact on the individuals often affecting their social, occupational and interpersonal functioning. Following major disasters and trauma, a number of chronic mental disorders have been identified in the survivors and their family and social networks. . Some of the more significant impairments and disorders are acute stress disorder beginning within 2days of the event and lasting up to 4 weeks and Posttraumatic Stress disorder (PTSD) persisting for more than 30 days after exposure or occurring after a delay of months to years.

- **Additional information**

South African Mining industry is diverse, vast in its operations and occurs at great depths. In spite the advanced technology in engineering and processes, mine accidents are still common and disasters still occur from time to time. Accidents still remains a major challenge despite much reduction in the past years.

Mine accidents are major trauma that has the potential to cause severe mental health problems like posttraumatic stress disorder (PTSD) long after attention had been paid to the serious effect of physical injuries of the employees.

The MHSC commissioned this a post graduate exploratory project in 2003. Due to lack of interest from students, this was converted into a full project in September 2005

- **Gap analysis**

Health 712 and SIM 03 02 01 found that 21% of miners use alcohol and cannabis to cope with stress of working underground. Despite these 2 studies, no MHSC studies have been done on PTSD.

- **Impact and or added value**

**Primary outputs**

1. Identify and describe the existence and prevalence of PTSD as part of mental health problems in the South African Mining Industry.
2. Describe and Identify risk factors , determinants and manifestations of PTSD in the mining industry
3. Review the systems of managing mental health disorders and interventions following disastrous incidents in the mining industry.
4. Recommend key issues to be addressed on improving the diagnosis and management of PTSD in the mining industry

**Scope**

The project should involve the identification of critical parameters that pertain to PTSD. This should include an initial desk top review of local and international of literature on PTSD in the mining industry. Review new and old technology on diagnosis of PTSD relation to the industry, locally and internationally. Review past related SIMRAC research.

**Estimated duration**

18 months estimated

**Typical recipients of the Report/Main Outputs**

Industry occupational health services (occupational health and Safety, medical practitioners), EAP service practitioners, MHSC and structures, HR and mine managers

**Requirement for technology transfer**

A report on hard copy as well as CD

**Special skills and facilities required by project team**

A team comprising of occupational medicine/ health; mental health and Psychiatry

**NOTICE 38 OF 2007****DEPARTMENT OF TRANSPORT****AIR SERVICE LICENSING ACT, 1990 (ACT No.115 OF 1990)****APPLICATIONS FOR THE GRANT OR AMENDMENT OF DOMESTIC AIR SERVICE LICENCE**

Pursuant to the provisions of section 15 (1) (b) of Act No. 115 of 1990 and regulation 8 of the Domestic Air Services Regulations, 1991, it is hereby notified for general information that the applications details of which appear in the Appendix, will be considered by the Air Service Licensing Council.

Representations in accordance with section 15 (3) of Act No. 155 of 1990 in support of, or in opposition to, an application, should reach the Air Service Licensing Council, Private Bag x 193, Pretoria, 0001, within 21 days of the date of publication hereof.

**APPENDIX 2****APPLICATION FOR THE AMENDMENT OF THE AIR SERVICE LICENCE**
