SOUTH AFRICAN CIVIL AVIATION AUTHORITY
SUID-AFRIKAANSE BURGERLUGVAARTOWERHEID

APPLICATION FOR AN AERODROME LICENCE

1. An application for an aerodrome licence relating to Beaufort West Aerodrome has been received from Dream World Investments 362 (PIY) Ltd in terms of regulation 139.02.10 of the Civil Aviation Regulations, 1997, issued in terms of section 22 (1) of the Aviation Act, 1962 (Act No. 74 of 1962).
2. In terms of regulation 139.02.11 (1) of the said Regulations, the following particulars concerning the said application are published for comment:
 - (a) Full name of the applicant: Dream World Investments 362 (Pty) Ltd.
 - (b) Particulars of location of aerodrome coordinates: 32 18 ODS 022 40 ODE
3. Written representations against or in favour of the said application should reach the Acting Commissioner for Civil Aviation, the South African Civil Aviation Authority, Private Bag X73, Halfway House, 1685 (fax number: 011 545 1203 and e-mail address mail@caa.co.za) not later than 31 August 2007

Acting Commissioner for Civil Aviation

No. 702

10 Augustus 2007

AANSOEK OM 'N VliegVELDLISENSIE

- (c) 'n Aansoek vir 'n vliegveJdJisensie met betrekking tot Beaufort West VliegveJd is ingeolge regulasie 139.02.10 van die Burgerlugvaartregulasies, 1997, uitgereik ingeolge artikeI22(1) van die Lugvaartwet, 1962 (WeI No. 74 van 1962), vanaf Dream World Investments 362 (Ply) Ltd ontvang.
1. Ingeolge regulasie 139.02.11(1) van die betrokke Regulasies word die volgende besonderhede rakende die betrokke aansoek vir kommentaar gepubliseer:
 - (d) Volle naam van die aansoekdoener: Dream World Investments 362 (Ply) Ltd.
 - (e) Besonderhede van die Jigging van die vliegveld koördinate: 32 18 OOS 022 40 OOE
2. Skriftelike vertoe teen of ten gunste van die betrokke aansoek moet die Waarnemende Kommissaris van Burgerlugvaarl, die Suid- Afrikaanse Burgerlike Lugvaartowerheid, Privaatsak X73, Halfway House (faks nommer: 011 545 1203 en e-pos adres: mail@caa.co.za) nie later as 31 Augustus 2007 bereik nie.

Waarnemende Kommissaris van BurgerJugvaart

No. 703

10 August 2007

APPLICATION FOR AN AERODROME LICENCE

4. An application for an aerodrome licence relating to Kroonstad Aerodrome has been received from Hawk's Landing Investments 12 (PTY) Ltd in terms of regulation 139.02.10 of the Civil Aviation Regulations, 1997, issued in terms of section 22 (1) of the Aviation Act, 1962 (Act No. 74 of 1962).

5. In terms of regulation 139.02.11 (1) of the said Regulations, the following particulars concerning the said application are published for comment:

- (f) Full name of the applicant: Hawk's Landing Investments 12 (pty) Ltd.
- (g) Particulars of location of aerodrome coordinates: 2740 OOS 027 19 OOE

6. Written representations against or in favour of the said application should reach the Acting Commissioner for Civil Aviation, the South African Civil Aviation Authority, Private Bag X73, Halfway House, 1685 (fax number: 011 545 1201 and e-mail address mail@caa.co.za) not later than 31 August 2007.

Acting Commissioner for Civil Aviation

No. 703

10 Augustus 2007

AANSOEK OM 'N VliegVELDLISENSm

(h) 'n Aansoek vir 'n vliegvelldisensie met betrekking tot Kroonstad Vliegveld is ingevolge regulasie 139.02.10 van die Burgerlugvaartregulasies, 1997, uitgereik ingevolge artikeI22(1) van die Lugvaartwet, 1962 (Wet No. 74 van 1962), vanaf Hawk's Landing Investments 12 (pty) Ltd ontvang.

3. Ingevolge regulasie 139.02.11(1) van die betrokke Regulasies word die volgende besonderhede rakende die betrokke aansoek vir kommentaar gepubliseer:

- (i) Volle naam van die aansoekdoener: Hawk's Landing Investments 12 (Pty) Ltd.
- (j) Besonderhede van die ligging van die vliegveld koördinate: : 27 40 OOS 027 19 OOE

4. Skriftelike vertoe teen of ten gunste van die betrokke aansoek moet die Waarnemende Kommissaris van Burgerlugvaart, die Suid- Afrikaanse Burgerlike Lugvaartowerheid, Privaatsak X73, Halfway House (faks nommer: 011 545 1203 en e-pos adres: mail@caa.co.za) nie later as 31 Augustus 2007 bereik nie,

Waarnemende Kommissaris van Burgerlugvaart

No. 398

10 August 2007

STANDARDS ACT, 1993
STANDARDS MATTERS

In terms of the Standards Act, 1993 (Act No. 29 of 1993), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African national standards and are now published by Standards South Africa (a division of SABS) with the prefix "SANS".

A list of all existing South African national standards was published by Government Notice No. 1373 of 8 November 2002.

In the list of SANS standards below, the equivalent SABS numbers, where applicable, are given below the new SANS numbers for the sake of convenience. Standards that were published with the "SABS" prefix are listed as such.

SCHEDULE 1: ISSUE OF NEW STANDARDS

The standards mentioned have been issued in terms of section 16(3) of the Act.

Standard No. and year	Title, scope and purport
SANS 130-1:2007/ ISO 1167-1:2006	<i>Thermoplastics pipes, fittings and assemblies for the conveyance of fluids - Determination of the resistance to internal pressure - Part J: General method.</i> Specifies a general test method for determining the resistance to internal hydrostatic pressure at a given temperature of thermoplastics pipes, fittings and piping systems for the transport of fluids.
SANS 510:2007/ ISO 6120:1995	<i>Road vehicles - Brake hose assemblies for hydraulic braking systems used with petroleum-base brake fluid.</i> Specifies the test procedures for, and performance requirements and marking of hydraulic brake hose assemblies to be used in hydraulic brake systems of road vehicles of which the nominal inside diameter of the hose is 3, 2 mm or 4, 8 mm. Applies to assemblies made of a hose fabricated from cord and synthetic elastomers and assembled with metal end fittings for use with petroleum-base brake fluids.
SANS 520:2007/ ISO 556:1980	<i>Coke (greater than 20 mm in size) - Determination of mechanical strength.</i> A sample of coke greater than 20 mm in size and of known size distribution is subjected to mechanical stresses in a rotating drum. The degree of breakdown of the coke is evaluated by a process of sieving and size analysis after 100 drum revolutions (Micum test) and, if desired, after 500 drum revolutions (Irsid test).
SANS 531:2007/ ISO 4:1997	<i>Information and documentation - Rules for the abbreviation of title words and titles of publications.</i> Gives rules for abbreviating titles of serials and, if appropriate, non-serial documents in languages using the Latin, Cyrillic and Greek alphabets. It also serves as the basis for the establishment of title word abbreviations by the ISSN Network.
SANS 567:2007/ ISO 567:1995	<i>Coke - Determination of bulk density in a small container.</i> Specifies a method for the determination of the bulk density of coke in a cubical container of capacity 0,2 cubic metres. It is applicable to coke with a nominal top size not greater than 125 mm,
SANS 602:2007/ ISO Guide 30:1992	<i>Terms and definitions used in connection with reference materials.</i> Recommends terms and the meanings that should be assigned to them when used in connection with reference materials, with particular attention to terms that are used in reference material certificates and corresponding certification reports
SANS 603:2007/ ISO Guide 31:2000	<i>Reference materials - Contents of certificates and labels.</i> Assists producers in the preparation of clear and concise certificates to accompany certified reference materials. Such certificates, while maintaining their essential character, should help to provide, in summary form, all the information needed by the user of the reference material.
SANS 604:2007/ ISO Guide 32:1997	<i>Calibration in analytical chemistry and use of certified reference materials.</i> The calibration of the parameters associated with chemical analyses and material testing deserves particular attention, because major errors can be made by neglecting or ignoring the basic principles of metrology which also apply to these areas. This guide identifies a number of general recommendations for those who, either in laboratories or as assessors, are faced with this problem.
SANS 605:2007/ ISO Guide 33:2000	<i>Uses of certified reference materials.</i> The uses of certified reference materials (CRMs) and their correct applications.
SANS 607:2007/ ISO Guide 34:2000	<i>General requirements for the competence of reference material producers.</i> General requirements in accordance with which a reference material producer has to demonstrate that it operates, if it is to be recognized as competent to carry out the production of reference materials. For the use of reference material producers in the development and implementation of their quality systems, and by accreditation bodies, certification bodies and others concerned with assessing the competence of reference material producers. Gives quality system requirements in accordance with which reference materials shall be produced. [It is intended to be used as part of a reference material producer's general quality assurance (QA).]
SANS 608:2007/ ISO Guide 35:2006	<i>Reference materials - General and statistical principles for certification.</i> Statistical principles to assist in the understanding and development of valid methods to assign values to properties of a reference material, including the evaluation of their associated uncertainty, and establish their metrological traceability. Reference materials (RMs) that undergo all steps described in this Guide are usually accompanied by a certificate and called a certified reference material (CRM).
SANS 612:2007/ BS 5970:2001	<i>Code of practice for thermal insulation of pipework and equipment in the temperature range of -100 °C to +870 °C.</i> Describes aspects of thermal insulation for pipework and equipment in the temperature range -100 °C to +870 °C. Installation techniques are described and can be used outside the temperature range indicated, however, specialist advice should be sought.

Standard No. and year	Title, scope and purport
SANS 690:2007/ ISO 690:1987	<i>Documentation - Bibliographic references - Content, form and structure.</i> Specifies the elements to be included in bibliographic references to published monographs and serials, to chapters, articles, etc. in such publications and to patent documents. It sets out a prescribed order for the elements of the reference and establishes conventions for the transcription and presentation of information derived from the source publication.
SANS 690-2:2007/ ISO 690-2:1997	<i>Information and documentation - Bibliographic references - Part 2: Electronic documents or parts thereof</i> Specifies the elements to be included in bibliographic references to electronic documents. It sets out a prescribed order for the elements of the reference and establishes conventions for the transcription and presentation of information derived from the source electronic document.
SANS 832:2007/ ISO 832:1994	<i>Information and documentation - Bibliographic description and references - Rules for the abbreviation of bibliographic terms.</i> Specifies rules for the abbreviation of words and word combinations that commonly appear in bibliographic descriptions and references in languages using the Latin, Cyrillic and Greek alphabets. Abbreviations of titles and title words are excluded from the scope of this standard and are covered by the provisions of ISO 4 (published in South Africa as an identical adoption under the designation SANS 531).
SANS 2503:2007/ ISO 2503:1998	<i>Gas welding equipment - Pressure regulators for gas cylinders used in welding, cutting and allied processes up to 300 bar.</i> Specifies requirements for single or two-stage pressure regulators for connections to gas cylinders normally used for compressed gases up to 300 bar, for dissolved acetylene, for liquefied petroleum gases (LPG), methylacetylene-propadiene mixtures (MPS) and carbon dioxide (CO ₂) used in welding, cutting and allied processes.
SANS 2505:2007/ ISO 2505:2005	<i>Thermoplastics pipes - Longitudinal reversion - Test method and parameters.</i> Specifies a method for determining the longitudinal reversion of thermoplastics pipes, to be carried out in either a liquid or air. Applicable to all thermoplastics pipes with smooth internal and external walls of constant cross-section.
SANS 3996:2007/ ISO 3996:1995	<i>Road vehicles - Brake hose assemblies for hydraulic braking systems used with non-petroleum-base brake fluid.</i> Specifies the test procedures for, and performance requirements and marking of hydraulic brake hose assemblies to be used in hydraulic brake systems of road vehicles of which the nominal inside diameter of the hose is 3,2 mm or 4,8 mm. Applies to assemblies made of a hose fabricated from cord and synthetic elastomers and assembled with metal end fittings (or use with non-petroleum-base brake fluids).
SANS 4305:2007/ ISO 4305:1991	<i>Mobile cranes - Determination of stability.</i> Specifies the conditions to be taken into consideration when verifying the stability of a mobile crane by calculation, assuming that the crane is operating on a firm and level surface (up to 1 % gradient). Applies to mobile cranes as defined in ISO 4306-2, i.e. appliances mounted on wheels (tyres) or crawlers, with or without outriggers.
SANS 4308-2:2007/ ISO 4308-2:1988	<i>Cranes and lifting appliances - Selection of wire ropes - Part 2: Mobile cranes - Coefficient of utilization.</i> Establishes the values of the minimum practical coefficient of utilization, Z _p , as defined in ISO 4308-1 (published in South Africa as an identical adoption under the designation SANS 4308-1), for ropes and rotation-resistant ropes used on mobile cranes.
SANS 4642:2007/ ISO 4642:1978	<i>Rubber products - Hoses, non-collapsible for fire-fighting service.</i> Covers requirements for two types and five grades of rubber hoses, suitable for use on portable and wheeled fire extinguishers, on wall-mounted fire hose reels and as booster hoses on fire apparatus.
SANS 6946:2007/ ISO 6946:1996	<i>Building components and building elements - Thermal resistance and thermal transmittance - Calculation method.</i> Gives the method of calculation of the thermal resistance and thermal transmittance of building components and building elements, excluding doors, windows and other glazed units and components through which air is designed to permeate.
SANS 7752-2:2007/ ISO 7752-2:1985	<i>Lifting appliances - Controls - Layout and characteristics - Part 2: Basic arrangement and requirements for mobile cranes.</i> Establishes the arrangement, requirements, and direction of movement of the basic controls for slewing, load hoisting and lowering and jib luffing and telescoping. Applies to all mobile cranes as defined in ISO 4306-2.
SANS 8566-2:2007/ ISO 8566-2:1995	<i>Cranes - Cabins - Part 2: Mobile cranes.</i> Establishes the criteria for cabins for mobile cranes as defined in ISO 4306-2. These criteria are intended to cover cabins only for crane operation and not for road travel. The general criteria for cabins on mobile cranes are presented in ISO 8566-1 (published in South Africa as an identical adoption under the designation SANS 8566-1).
SANS 9692-1:2007/ ISO 9692-1:2003	<i>Welding and allied processes - Recommendations for joint preparation - Part 1: Manual metal-arc welding, gas-shielded metal-arc welding, gas welding, MIG welding and beam welding of steels.</i> Specifies types of joint preparation for metal-arc welding with covered electrode, gas-shielded metal-arc welding, gas welding, TIG welding and beam welding of steel. It applies to joint preparation for full penetration butt welds and for fillet welds. For partial penetration butt welds, types of joint preparation and dimensions differing from those specified in this part of ISO 9692 may be stipulated. The root gaps referred to are those gaps presented after tack welding, if used.
SANS 10229-2:2007	<i>Transport of dangerous goods - Packaging and large packaging for road and rail transport - Part 2: Large packaging.</i> The standard identifies various types of large packaging that are suitable for the transport of dangerous goods by road and rail. It describes minimum performance requirements for the large packaging, the procedures to be followed to obtain approval from test stations or certification authorities and gives details of the marking and labels to be displayed on the large packaging.
SANS 10456:2007/ ISO 10456:1999	<i>Building materials and products - Procedures for determining declared and design thermal values.</i> Specifies methods for the determination of declared and design thermal values for thermally homogeneous building materials and products. It also gives procedures to convert values obtained under one set of conditions to those valid for another set of conditions. These procedures are valid for design ambient temperatures between -30 °C and +60 °C.
SANS 11137-1:2007/ ISO 11137-1:2006	<i>Sterilization of health care products - Radiation - Part 1: Requirements for development, validation and routine control of a sterilization process for medical devices.</i> Specifies requirements for the development, validation and routine control of a radiation sterilization process for medical devices. It does not require that biological indicators be used for the validation or monitoring of radiation sterilization, nor does it require that a phannacopoeial test for sterility be carried out for product release.

Standard No. and year	Title, scope and purport
SANS 11137-2:20071 ISO 11137-2:2006	<i>Sterilization of health care products - Radiation - Part 2: Establishing the sterilization dose.</i> Specifies methods of determining the minimum dose needed to achieve a specified requirement for sterility and methods to substantiate the use of 25 kGy or 15 kGy as the sterilization dose to achieve a sterilization assurance level, SAL, of a log of 10^{-6} . It also specifies methods of dose auditing in order to demonstrate the continued effectiveness of the sterilization dose.
SANS 11137-3:20071 ISO 11137-3:2006	<i>Sterilization of health care products - Radiation - Part 3: Guidance on dosimetric aspects.</i> Gives guidance on the requirements relating to dosimetry and describes dosimetry procedures related to the development, validation and routine control of a radiation sterilization process.
SANS 11607-1:20071 ISO 11607-1:2006	<i>Packaging of terminally sterilized medical devices - Part 1: Requirements for materials, sterile barrier systems and packaging systems.</i> Specifies the requirements and test methods for materials, preformed sterile barrier systems, sterile barrier systems and packaging systems that are intended to maintain sterility of terminally sterilized medical devices until the point of use.
SANS 11607-2:2007/ ISO 11607-2:2006	<i>Packaging for terminally sterilized medical devices - Part 2: Validation requirements for forming, sealing and assembly processes.</i> Specifies the requirements for development and validation of processes for packaging medical devices that are terminally sterilized. These processes include forming, sealing, and assembly of preformed sterile barrier systems, sterile barrier systems and packaging systems.
SANS 11660-2:2007/ ISO 11660-2:1994	<i>Cranes - Access, guards and restraints - Part 2: Mobile cranes.</i> Specifies criteria for steps, stairways, ladders, walkways, platforms, handrails, handholds, guardrails and entrance openings which permit access to and from the operator, inspection or maintenance platforms on mobile cranes as defined in ISO 4306-2 and parked in accordance with the manufacturer's instruction. It also presents requirements for guards and restraints as related to moving parts.
SANS 11661:2007/ ISO 11661:1998	<i>Mobile cranes - Presentation of rated capacity charts.</i> Specifies a standard presentation or format for mobile crane rated capacities on rated capacity charts. Is applicable to mobile cranes fitted with jibs as defined in ISO 4306-2 and when used in the lifting mode.
SANS 11662-1:20071 ISO 11662-1:1995	<i>Mobile cranes - Experimental determination of crane performance - Part 1: Tipping loads and radii.</i> Specifies a test method to determine the maximum capacity of a mobile crane to counterbalance loads applied on its hook block. Is applicable for cranes whose capacity to support loads is based on its static resistance to overturning. The test shall not be used on cranes whose capacity is based on structural strength or on limitations due to available load hoist, jib hoist or jib telescope capability. Applies to all mobile crane as defined in ISO 4306-2.
SANS 11724:20071 ISO 11724:2004	<i>Solid mineral fuels - Determination of total fluorine in coal, coke and fly ash.</i> Specifies a method for the determination of total fluorine in coal, coke and fly ash. From measurement of the total fluorine alone, it is not possible to estimate the amount of fluorine released to the environment by utilization of the coal and subsequent disposal of the ash residue.
SANS 14557:20071 ISO 14557:2002	<i>Fire-fighting hoses - Rubber and plastics suction hoses and hose assemblies.</i> Gives requirements and test methods for rubber and plastics suction hoses for fire-fighting purposes. Additional requirements for hose assemblies already fitted with couplings are also specified.
SANS 19961:20071 ISO RR 19961:2005	<i>Cranes - Safety code on mobile cranes.</i> Provides a guide to international standards applicable to mobile cranes - crawler cranes, railway cranes, wheel-mounted cranes and any variations thereof that retain the same fundamental characteristics - and a summary of related provisions. Special adaptations of the general types of machine covered, where applicable, also fall within its scope.
SANS 50771-4:2007/ EN 771-4:2003	<i>Specification for masonry units - Part 4: Autoclaved aerated concrete masonry units.</i> Specifies the characteristics and performance requirements of autoclaved aerated concrete (AAE) masonry units for which the main intended uses are different types of load bearing and non-load bearing applications in all forms of walling including single leaf, cavity, partitions, retaining, basement and general use below ground level, including walling for fire protection, thermal insulation, sound insulation and the fabric of chimneys (excluding chimney flue units). It defines the performance related to e.g. strength, density, dimensional accuracy etc. and provides for the evaluation of conformity of the product to this standard. The marking requirement for products covered by this standard is included.
SANS 60947-5-8:2007/ IEC 60947-5-8:2006	<i>Low-voltage switchgear and controlgear - Part 5-8: Control circuit devices and switching elements - Three-position enabling switches.</i> Specifies requirements for three-position enabling switches. These switches are used as components of enabling devices to provide signals that, a) when activated, allow machine operation to be initiated by a separate start control and b) when deactivated, i) initiate a stop function, and ii) prevent initiation of machine operation
SANS 62271-101:20071 IEC 62271-101:2006	<i>High-voltage switchgear and controlgear - Part 101: Synthetic testing.</i> Provides the general rules for testing a.c. circuit-breakers, for making and breaking capacities by synthetic methods
SANS 62271-201:20071 IEC 62271-201:2006	<i>High-voltage switchgear and controlgear - Part 20J: AC insulation-enclosed switchgear and controlgear for rated voltages above 1 kV and up to and including 52 kV.</i> Specifies requirements for factory-assembled insulation-enclosed switchgear and controlgear for alternating current of rated voltages above 1 kV and up to and including 52 kV for indoor installation and for service frequencies up to and including 60 Hz.

SCHEDULE 2: AMENDMENT OF EXISTING STANDARDS

The standards mentioned have been amended in terms of section 16(3) of the Act. The number and date of a standard that has been superseded appear in brackets below the new number. In the case of an amendment issued in consolidated format, the edition number of the new (consolidated) edition appears in brackets below the number of the standard.

Standard No. and year	Title, scope and purport
SANS 143:2007 (Ed. 3.1)	<i>Lidocaine (lignocaine) hydrochloride and noradrenaline (norepinephrine) injection for dental use. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and referenced standards, and to delete reference to the certification mark.
SANS 179:2007 (Ed. 2.1)	<i>Mutton cloth. Consolidated edition incorporating amendment No. 1.</i> Amended to update the test methods for quantitative fibre analysis and to delete the test method for non-fibrous material content.
SANS 196:2007 (SABS 196:2000)	<i>Orthopaedic padding.</i> Specifies requirements for five types of orthopaedic padding.
SANS 221:19991 CISPR21:1999	<i>Interference to mobile radiocommunications in the presence of impulsive noise – Methods of judging degradation and measures to improve performance. National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 225:2005/ CISPR 25:2002	<i>Radio disturbance characteristics for the protection of receivers used on board vehicles, boats, and on devices - Limits and methods of measurement. CISPR interpretation sheet No. 1.</i> Explains that the test limits given are for guidance only; the vehicle manufacturer should define the country in which the vehicle is to be marketed and subsequently choose the applicable frequency bands and limits.
SANS 227:2007 (Ed. 4.4)	<i>Burnt clay masonry units. Consolidated edition incorporating amendment No. 4.</i> Amended to change the designation of SABS standards to SANS standards and to update the referenced standards.
SANS 432:2007 (Ed. 3.1)	<i>Indelible marking ink for textile fabrics. Consolidated edition incorporating amendment No. J.</i> Amended to update the test method for colour fastness to washing.
SANS 527-11993/ ISO 527-1:1993	<i>Plastics - Determination of tensile properties - Part 1: General principles. ISO amendment No. 1.</i> Amended to add requirements for contact extensometers and to update the referenced standards. <i>National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 580:2007 (Ed. 1.2)	<i>Chloroprene rubber sheet (for waterproofing). Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards and to update the definition of "acceptable",
SANS 607:2007 ISO Guide 34:2000	<i>General requirements for the competence of reference material producers. ISO corrigendum No. 1.</i> Corrected to update normative references.
SANS 659:2007 (Ed. 3.1)	<i>Lidocaine (lignocaine) hydrochloride, adrenaline (epinephrine) and noradrenaline (norepinephrine) injection for dermat use. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and referenced standards, and to delete reference to the certification mark
SANS 682:2007 (SABS 682:1972)	<i>Aluminium paint.</i> This standard covers aluminium paint for use as a finishing coat on primed surfaces for exterior and interior exposure. This paint is suitable for use as a roof paint on suitably primed or previously painted galvanized iron.
SANS 750:2007 (Ed. 4.1)	<i>Interlock fabric. Consolidated edition incorporating amendment No. J.</i> Amended to update referenced standards and to replace the words "transfer cloths" with "adjacent fabrics" in table I.
SANS 817:2007 (Ed. 3.1)	<i>Lidocaine (lignocaine) hydrochloride injection for dental use. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and referenced standards, and to delete reference to the certification mark.
SANS 950:2007 (Ed. 2.1)	<i>Unplasticized polyvinyl chloride rigid conduit and fittings for use in electrical installations. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation from SABS to SANS, to change the definition for "acceptable" and to update referenced documents.
SANS 955:2007 (Ed. 3.1)	<i>Lidocaine (lignocaine) hydrochloride and adrenaline (epinephrine) injection for dental use. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and referenced standards, and to delete reference to the certification mark.
SANS 985:2007 (Ed. 3.2)	<i>Polyester-and-wool uniform fabrics. Consolidated edition incorporating amendment No. 2.</i> Amended to update the test methods for quantitative fibre analysis and for colour fastness to washing.
SANS 1008:2007 (Ed. 2.1)	<i>Warp-knitted pocketing. Consolidated edition incorporating amendment No. J.</i> Amended to update referenced standards and to replace the words "transfer cloths" with "adjacent fabrics" in table I.
SANS 1038:2007 (Ed. 2.1)	<i>Cotton eyelet fabric. Consolidated edition incorporating amendment No. 1.</i> Amended to update the test method for colour fastness to washing and to replace the words "transfer cloths" with "adjacent fabrics" in table I.
SANS 1156-2:2007 (Ed. 1.2)	<i>Hose for liquefied petroleum gas (LPG) - Part 2: Hose and tubing for use in LPG vapour phase and LPG-air installations. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards and to update the definition of "acceptable" and referenced standards.
SANS 1210:2007 (Ed. 1.1)	<i>Hexagon wrench keys. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" to remove reference to the certification mark and to update referenced standards.

Standard No. and year	Title, scope and purport
SANS 1211:2007 (Ed. 1.2)	<i>Adjustable wrenches. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable", to remove reference to the standardization mark and to update referenced standards.
SANS 1249:2007 (Ed. 24)	<i>Knitted uniform fabrics. Consolidated edition incorporating amendment NO. 3.</i> Amended to update referenced standards, to update the test method for colour fastness to washing, and to replace the words "transfer cloths" with "adjacent fabrics" in table I.
SANS 1288:2007 (Ed. 3.1)	<i>Preservative-treated timber. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards, to delete reference to the certification mark scheme. and to update the definition of "acceptable" and cross-references in the quality verification annex (annex C).
SANS 1311:2007 (Ed. 1.2)	<i>Metal clisoo windows. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards and to update a referenced standard.
SANS 1321-2:2007 (Ed. 1.2)	<i>Non-metallic wastetraps- Part 2: Rubber wastetraps. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards and to update referenced standards.
SANS 1498:2007 (SABS 1498:1989)	<i>Algaecides for use in industrial cooling water.</i> Covers three types of organic algaecides (liquid, paste or solid) for the control of algae in industrial cooling water systems that have clean surfaces.
SANS 1505-1:2007 (Ed. 2.3)	<i>Ball type couplings and towing brackets for towing caravans and light trailers- Part J: Towing brackets and integrated towing devices. Consolidated edition incorporating amendment No. 3.</i> Amended to change requirements on capacity and anchorage (4.1.2) and instructions for installation (clause 7).
SANS 1545-5:2007 (Ed. 1.1)	<i>Safety rules for the construction and installation of Iijls - Part 5: Electric and hydraulic access, goods only Iijls. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation from SABS to SANS, to update referenced standards, to delete reference to South African legislation in the body of the text, to change the annex on list of electric safety devices to be checked (annex A), to replace the annex on technical dossier (annex C), and to add a new annex on comprehensive report for access goods only lifts (annex K).
SANS 1553-1:2007 (Ed. 1.1)	<i>PVC-U window and doorframes for external use - Part 1: PVC-U profiles for window and doorframes. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update referenced standards.
SANS 1553-2:2007 (Ed. 1.1)	<i>PVC-V window and doorframes/or external use - Part 2: Windows with frames made from PVC-U profiles. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS to SANS standards, to update the definition of "acceptable", to move reference to legislation to the foreword, and to update referenced standards.
SANS 1823:2007 (Ed. 1.1)	<i>Touch and close fasteners. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards and to update referenced standards.
SANS 1838-1:2007 (Ed. 1.2)	<i>Electronic self-indicating road vehicle mass measuring equipment for use by road traffic authorities - Part 1: Non-automatic mass measuring equipment for static mass measurement. Consolidated edition incorporating amendment No. 1.</i> Amended to change the requirements for metrological controls (clause 7) and reports for type approval (clause A.4).
SANS 1858:2007 (Ed. 1.1)	<i>Oil-spill dispersants. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update referenced standards and to delete reference to specific South African legislation from the body of the text.
SANS 4524-4:1985/ISO 4524-4:1985	<i>Metall coatings - Test methods for electrodeposited gold and gold alloy coatings - Part 4: Determination of gold content. National amendment No. I.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 4751:1984/ISO 4751:1984	<i>Copper and copper alloys - Determination of tin content - Spectrometric method. National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 5182:1991/ISO 5182:1991	<i>Welding - Materials for resistance welding electrodes and ancillary equipment. National amendment No. I.</i> Amended to change the designation from SASS to SANS, with no technical changes.
SANS 5184:1979/ISO 5184:1979	<i>Straight resistance spot welding electrodes. National amendment No. I.</i> Amended to change the designation from SASS to SANS, with no technical changes.
SANS 5217:2007 (Ed. 3.2)	<i>Water- Free and saline ammonia content. Consolidated edition incorporating amendment No. 2.</i> Amended to update referenced standards, to correct values for ammoniacal nitrogen in the table in 6.1. and to add information to the procedure involving the retention of liquid for the albuminoid ammonia content test (6.7).
SANS 5821:1979/ISO 5821:1979	<i>Resistance spot welding electrode caps. National amendment No. I.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 6051:2007 (SABS SM 1051:1982)	<i>Water- Oil and grease content. Specifies a method for the determination of the oil and grease content of water and wastewater.</i>
SANS 6056:2007 (SABS SM 1056:1982)	<i>Water- Sulfide content. Specifies a method for the determination of the sulfide content of water and wastewater,</i>
SANS 6061:2007 (Ed. 3.1)	<i>eCA salts equivalent mass concentration of aqueous solutions that contain mixtures of copper-chromium-arsenic compounds used for timber preservation. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.

Standard No. and year	Title, scope and purport
SANS 6219:2007 (SABS SM 1219:1994)	<i>Permitted electric detonators: Incendivity (Gallery test).</i> Specifies a method to determine the incendivity of permitted electric detonators. Does not apply to electronic detonators or to permitted detonators of any other type.
SANS 6848:2007 ISO 6848:2004 (SABS ISO 6848:1984)	<i>Arc welding and cutting - Nonconsumable tungsten electrodes - Classification.</i> Specifies requirements for classification of nonconsumable tungsten electrodes for inert gas shielded arc welding, and for plasma welding, cutting and thermal spraying.
SANS 6891:1983 ISO 6891:1983	<i>Timber structures - Joints made with mechanical fasteners - General principles for the determination of strength and deformation characteristics. National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 6946:2007 ISO 6946:1996	<i>Building components and building elements - Thermal resistance and thermal transmittance - Calculation method. ISO amendment No. J.</i> Amended throughout to change the text "... this European Standard ..." to mean "... this International Standard" and to add a clause on the correction procedure for inverted roofs.
SANS 9455-12:1992/ ISO 9455-12:1992	<i>Soft soldering fluxes - Test methods - Part 12: Steel tube corrosion test. National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-13:1996/ ISO 9455-13:1996	<i>Soft soldering fluxes - Test methods - Part 13: Determination of flux splattering. National amendment No. I.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-14:1991 ISO 9455-14:1991	<i>Soft soldering fluxes - Test methods - Part 14: Assessment of tackiness of flux residues. National amendment No. I.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-15:1996/ ISO 9455-15:1996	<i>Soft soldering fluxes - Test methods - Part 15: Copper corrosion test. National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-16:1998 ISO 9455-16:1998	<i>Soft soldering fluxes - Test methods - Part 16: Flux efficacy tests, wetting balance method. National amendment No. I.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 100II:2007 (Ed. 4. I)	<i>Care-labelling of textile piece-goods, textile articles and clothing. Consolidated edition incorporating amendment No. J.</i> Amended to update the test methods for colour fastness to washing.
SANS 10066:2007 (SABS 066:1973)	<i>Application of thermal process control to low-acid fish canning factories.</i> Describes procedures in the canning of low-acid canned fish, which, when strictly followed, ensure microbiological stability in the final product. It covers the exhausting of cans, temperature of packing medium, seaming, can washing, retorting, cooling of processed cans, storage and inspection.
SANS 10369:2007 (Ed. 1. I)	<i>Non-destructive examination and testing of steel wire rope. Consolidated edition incorporating amendment No. J.</i> Amended to change the designation of SABS standards to SANS standards and to move reference to legislation to the foreword.
SANS 10406:2007 (Ed. 1. I)	<i>Transport of dangerous goods - The reprocessing of previously certified packaging. Consolidated edition incorporating amendment No. J.</i> Amended to update referenced standards and the empty packaging certificate in annex B.
SANS 20007:2007 ECE R7:2006 (SABS ECE R7:2002)	<i>Uniform provisions concerning the approval of front and rear position (side) lamps, stop-lamps and end-outline marker lamps for power-driven vehicles and their trailers.</i> Applies to a) front and rear position (side) lamps and stop lamps for vehicles of categories L, M, N, A and T, and b) end-outline marker lamps for vehicles of categories M, N, O and T. <i>ECE amendment No. 1.</i> Amended to change the title, to add a scope with a footnote, to change and to renumber the footnote on the distinguishing number of the country which has been granted approval, and to renumber the remaining footnotes.
SANS 20023:2007 ECE R23:2003 (SABS ECE R23:1992)	<i>Uniform provisions concerning the approval of reversing lamps for power-driven vehicles and their trailers.</i> Applies to reversing lamps for vehicles of categories M, N, O, and T. <i>ECE amendment No. J.</i> Amended to change a definition for reversing lamps of different types, to add requirements for the application for approval (2.2.2) and marking (clause 3), to add requirements on general specifications (5.3), to add entries in the annex on communication (annex 1), and to add text on light source modules in the annex on examples of arrangements on approval marks (annex 2). <i>ECE amendment No. 2.</i> Amended to add text on independent lamps (4.4), and to add a module E on marking of independent lamps in the annex on examples of arrangements on approval marks (annex 2). <i>ECE amendment No. 3.</i> Amended to change a requirement for marking (3.5). <i>ECE amendment No. 4.</i> Amended to insert a scope with a footnote, and to change and to renumber the footnote regarding the distinguishing number of the country which has granted approval in the clause on approval (clause 4).
SANS 20037:2007 ECE R37:2005 (SABS ECE R37:2002)	<i>Uniform provisions concerning the approval of filament lamps for use in approved lamp units of power-driven vehicles and of their trailers.</i> Applies to filament lamps intended for use in approved lamp units of power-driven vehicles and of their trailers. <i>ECE amendment No. 1.</i> Amended to change requirements for colour (3.6) and to change footnotes in the annex on sheets for filament lamps (annex 1). <i>ECE amendment No. 2.</i> Amended to change the list of categories and sheets in, and to add new footnotes to, the annex on sheets for filament lamps (annex 1).
SANS 20048:2007 ECE R48:2006 (SABS ECE R48:1994)	<i>Uniform provisions concerning the approval of vehicles with regard to the installation of lighting and light-signalling devices.</i> Applies to the approval of power-driven vehicles intended for use on the road, with or without bodywork, with not less than four wheels and a maximum design speed exceeding 25 km/h, and of their trailers, with the exception of vehicles which run on rails, agricultural or forestry tractors and machinery, and public works vehicles. <i>ECE amendment No. 1.</i> Amended to change, to delete and to add certain definitions, to change requirements for approval (4.2), general specification (5.15), individual specification (6.21), and transitional provisions (clause 12), to add entries in the annex on communication (annex 1), to change requirements in the annex on arrangement of approval marks (annex 2), and to add an annex on visibility of conspicuity markings to the rear and side of a vehicle (annex 11).

Standard No. and year	Title, scope and purport
SANS 20050:20071 ECER50:2004 (SABS ECE R50:1983)	<i>Uniform provisions concerning the approval of front position lamps, rear position lamps, stop lamps, direction indicators and rear-registration-plate illuminating devices for vehicles of category L.</i> Applies to front position lamps, rear position lamps, stop lamps, direction indicators, and rear-registration-plate illuminating devices for vehicles of category L. <i>ECE amendment No. 1.</i> Amended to change the requirements for intensity of light emitted and to change limits in the annex on colours of lamps trichromatic co-ordinates (annex 5). <i>ECE amendment No. 2.</i> Amended to change the requirements for marking (4.3), to add entries in the annex on communication (annex 2), and to delete colour co-ordinate 'for selective-yellow in the annex on colours of lamp, trichromatic co-ordinates (annex 5). <i>ECE amendment No. 3.</i> Amended to change the title and the scope, to insert a new footnote to the scope, and to change and to renumber the footnote regarding the distinguishing number of the country which has granted approval in the clause on approval (clause 5).
SANS 20074:20001 ECER74,2000	<i>Uniform provisions concerning the approval of category L₁ vehicles with regard to the installation of lighting and light-signalling devices.</i> <i>ECE amendment No. 1.</i> Amended to change certain requirements in the clause on individual specifications (clause 6). <i>ECE corrigendum No. 1 to ECE amendment No. J.</i> Corrected to change a requirement in the clause on individual specifications (clause 6). <i>ECE amendment No. 2.</i> Amended to change a footnote to a subclause (4.4.1) in the clause on approval, and to change requirements in the clause on individual specifications (clause 6). <i>National amendment No. J.</i> Amended to change the designation from SABS to SANS, with no technical changes, and to add information to the national foreword that relates to the compulsory application of the standard.
SANS 20091:20071 ECER91:2003 (SABS ECE R91,1993)	<i>Uniform provisions concerning the approval of side-marker lamps for motor vehicles and their trailers.</i> Applies to side-marker lamps for vehicles of category M, N, O and T. <i>ECE amendment No. 1.</i> Amended to change a definition for side-marker lamps of different types, and to change requirement for the application of approval (3.2.2) and marking (clause 4), to add requirements on general specifications (6.3), and test procedure (9.3), to add entries in the annex on communication (annex 2), to add text on light source module' in the annex on arrangements on approval marks (annex 3), and to change limits in the annex on colour of light emitted: lights for trichromatic coordinates (annex 5). <i>ECE amendment No. 2.</i> Amended to change a requirement for intensity of light emitted (7.1.2). <i>ECE amendment No. J.</i> Amended to change a requirement for marking (4.5). <i>ECE amendment No. 4.</i> Amended to change the scope, to insert a new footnote to the scope, to change and to renumber the footnote regarding the distinguishing number of the country which has granted approval in the clause on approval (clause 5), and to renumber the remaining footnotes.
SANS 20098:20071 ECE R98,2005 (SABS ECE R98:1996)	<i>Uniform provisions concerning the approval of motor vehicle headlamps equipped with gas-discharge light sources.</i> Applies to motor vehicle headlamps and motor vehicle distributed lighting systems which may incorporate lenses of glass or plastic material, and which are equipped with gas-discharge light source(s) being fitted in the headlamp or in the remote light-generator of the distributed lighting system. <i>ECE amendment No. 1.</i> Amended to change and to add provisions concerning driving beams (6.3).
SANS 50295-2:19911 EN 295-2,1991	<i>Vitrified clay pipes and fittings and pipe joints for drains and sewers - Part 2: Quality control and sampling.</i> <i>EN amendment No. 1.</i> Amended to update referenced standards, to add a definition, to correct information in a table, to correct cross references, to modify wording in titles and clauses and to replace the clause on rubber sealing elements with a clause on regular tests and sampling for rigid fairings. <i>National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 50771-4:20071 EN 771-4:2003	<i>Specification for masonry units - Part 4: Autoclaved aerated concrete masonry units.</i> <i>EN amendment No. J.</i> Amended to update nonnative references, to insert, renumber and modify subclauses and to modify tables and figures.
SANS 60079-2:20071 IEC 60079-2:2007 (SABS IEC 60079-2:2001)	<i>Explosive atmospheres - Part 2: Equipment protection by pressurized enclosures «p».</i> Contains the specific requirements for the construction and testing of electrical apparatus with pressurized enclosures, of type of protection "p", intended for use in explosive gas atmospheres. It specifies requirements for pressurized enclosures containing a limited release of flammable substances, This standard supplements and modifies the general requirements of IEC 60079-0.
SANS 60079-7:20071 IEC 60079-7:2006 (SANS 60079-7:2003)	<i>Explosive atmospheres - Part 7: Equipment protection by increased safety "ie".</i> Specifies the requirements for the design, construction, testing and marking of electrical apparatus with type of protection increased safety "ie" intended for use in explosive gas atmospheres. This standard applies to electrical apparatus where the rated voltage does not exceed 1 kV r.m.s, a.c or d.c. Additional measures are applied to ensure that the apparatus does not produce arcs, sparks, or excessive temperatures in normal operation or under specified abnormal conditions.
SANS 60079-11:20071 IEC 60079-11,2006 (SABS IEC 60079-11,1999)	<i>Explosive atmospheres - Part 11: Equipment protection by intrinsic safety "i".</i> Specifies the construction and testing of intrinsically safe apparatus intended for use in an explosive gas atmosphere and for associated apparatus, which is intended for connection to intrinsically safe circuits which enter such atmospheres.
SANS 60079-19:20071 IEC 60079-19,2006 (SABS IEC 60079-19:1993)	<i>Explosive atmospheres - Part 19: Equipment repair, overhaul and reclamation.</i> Gives instructions, principally of a technical nature, on the repair, overhaul, reclamation and modification of a certified equipment designed for use in explosive atmospheres; It is not applicable to maintenance, other than when repair and overhaul cannot be disassociated from maintenance, neither does it give advice on cable entry systems which may require renewal when the equipment is re-installed; It is not applicable to type of protection 'm'; Assumes that good engineering practices are adopted throughout.
SANS 60079-26:2007/ IEC 60079-26:2006 (SANS 60079-26:2005)	<i>Explosive atmospheres - Part 26: Equipment with equipment protection level (EPL) Ga.</i> Specifies the particular requirements for construction, test and marking for electrical equipment that provides equipment protection level (EPL) Ga. This electrical equipment, within the operational parameters specified by the manufacturer, ensures a very high level of protection that includes rare faults related to the equipment or two faults occurring independently of each other.
SANS 60086-2:20071 IEC 60086-2:2006 (SASS IEC 60086-2,2001)	<i>Primary batteries - Part 2: Physical and electrical specifications.</i> Applies to primary batteries based on standardized electrochemical systems. Specifies the physical dimensions, the discharge test conditions and discharge performance requirements.
SANS 60120:19841 IEC 60120:1984	<i>Dimensions of ball and socket couplings of string insulator units.</i> <i>National amendment no. 1.</i> Amended to change the designation from SASS to SANS, with no technical changes.

Standard No. and year	Title, scope and purport
SANS 60273:1990/ IEC 60273:1990	<i>Characteristics of indoor and outdoor post insulators for systems with nominal voltages greater than 1 000 V. National amendment No. 1. Amended to change the designation from SABS to SANS, with no technical changes.</i>

SANS 300328:2007/ ETSI EN 300328:2006 (SANS 300328:2004)	<i>Electromagnetic compatibility and Radio spectrum Matters (ERM): Wideband transmission systems, Data transmission equipment operating in the 1.4 GHz ISM band and using wide band modulation techniques; Harmonized EN covering essential requirements under article 3.2 of the R&TTE Directive. Applies to Wide Band Data Transmission equipment which is used in wireless local area networks. Also applies to ad hoc networking where devices communicate directly with each other, without the use of a wireless infrastructure.</i>

SCHEDULE 3: CANCELLATION OF STANDARDS

In terms of section 16(3) of the Act the following standards have been cancelled.

Standard No. and year	Title
SANS 130:1996	<i>Thermoplastics pipes for the conveyance of fluids - Resistance to internal pressure - Test method.</i>
SANS 1635-2: 1998	<i>Fork-lift trucks and pallet trucks - Part 2: Pallet trucks - Principal dimensions.</i>
SANS 1701-2-28:1996	<i>Bearings- Part 2: Rolling bearings- Section 28: Needle roller bearings- Track rollers - Boundary dimensions.</i>
SANS 1977-1:1976	<i>Conveyor chains, attachments and chain wheels- Part J: Chains- metric series.</i>
SANS 1977-2: 1974	<i>Conveyor chains, attachments and chain wheels- Part 2: Chain wheels.</i>
SANS 1977-3:1974	<i>Conveyor chains, attachments and chain wheels- Part 3: Attachments- Metric series.</i>
SANS 2502-1:1994	<i>Thermoplastics pipes - Longitudinal reversion- Part J: Determination methods.</i>
SANS 2502-2: 1994	<i>Thermoplastics pipes - Longitudinal reversion- Part 2: Determination parameters.</i>
SANS 5785:1973	<i>Elutriation of asbestos fibre (Turner and Newall Method).</i>
SANS 5786: 1973	<i>Air permeability of asbestos fibre (Turner and Newall rapid surface area method).</i>
SANS 5787:1973	<i>Magnetic rating of asbestos fibre.</i>
SANS 5879: 1976	<i>Resistance to flaming of vulcanized rubbers.</i>
SANS 9692: 1992	<i>Metal-arc welding with covered electrode, gas-shielded metal-arc welding and gas welding- Joint preparations for steel.</i>
SANS 10122:1975	<i>Asbestos terms and definitions.</i>
SANS 11137:2006	<i>Sterilization of health care products - Requirements for validation and routine control- Radiation sterilization.</i>
SANS 11607:2006	<i>Packaging for terminally sterilized medical devices.</i>
SANS 12193: 1994	<i>Animal and vegetable fats and oils - Determination of lead content - Graphite furnace atomic absorption method.</i>
SANS 50139:1994	<i>Respiratory protective devices- Compressed air line breathing apparatus for use with a full face mask, half mask or a mouthpiece assembly- Requirements, testing, marking.</i>
SANS 50271:1995	<i>Respiratory protective devices- Compressed air line or powered fresh air hose breathing apparatus incorporating a hood for use in abrasive blasting operations- Requirements, testing, marking.</i>
SANS 60034-10: 1975	<i>Rotating electrical machines- Part 10: Conventions for description of synchronous machines.</i>
SANS 60570-2-1 :2001	<i>Electrical supply track systems for luminaires- Part 2: Mixed supply systems - Section I: Classes I and III</i>

SCHEDULE 4: ADDRESSES OF SABS OFFICES

The addresses of offices of the South African Bureau of Standards where copies of standards mentioned in this notice can be obtained, are as follows:

1. The CEO, South African Bureau of Standards, 1 Dr Lategan Road, Groenkloof, Private Bag XI 91, Pretoria 0001.
2. The Manager, Western Cape Regional Office, SABS, Liesbeek Park Way, Rosebank, PO Box 615, Rondebosch 7701.
3. The Manager, Eastern Cape Regional Office, SABS, 30 Kipling Road, cor. Diaz and Kipling Roads, Port Elizabeth, PO Box 3013, North End 6056.
4. The Manager, KwaZulu-Natal Regional Office, SABS, 15 Garth Road, Waterval Park, Durban, PO Box 30087, Mayville 4058.
5. The Control Officer, Bloemfontein Branch Office, SABS, 34 Victoria Road, Willows, Bloemfontein, PO Box 20265, Willows 9320.

GENERAL NOTICES
ALGEMENE KENNISGEWINGS

NOTICE 961 OF 2007

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

NOTICE OF INITIATION OF INVESTIGATION INTO THE ALLEGED
DUMPING OF EXTRUDED ALUMINIUM PROFILES ORIGINATING IN OR
IMPORTED FROM THE PEOPLES' REPUBLIC OF CHINA (PRC)

The International Trade Administration Commission (the Commission) accepted an application alleging that extruded aluminium profiles originating in or imported from the Peoples' Republic of China (PRC) is being dumped on the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

THE APPLICANT

The application was lodged by International Trade Services on behalf of Association of Aluminium Extruders, (the Applicant), being an industrial organization for the major producers of extruded aluminium profiles in the SACU, The Applicant alleges that it cannot compete with the low prices charged by the importers and that the allegedly dumped products are causing material injury. The Applicant submitted sufficient evidence and established a *prima facie case* to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury and causality.

THE PRODUCT

The products allegedly being dumped are aluminium bars, rods and profiles, classifiable under tariff subheadings 7604.21.15, 7604.29.15 and 7604.29.65, originating in or imported from the PRC.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value of the product in the PRC and the export price from the PRC.

The normal value for the PRC was determined using section 32(2) (b) of the ITA Act. The Applicant obtained quotations from the PRC based on the Shanghai metal exchange (SME) plus a conversion factor to convert from billet to extrusion for sales in the PRC.

The Applicant used imports statistics supplied by SARS to calculate the export price.

On this basis, the Commission found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY AND THREAT OF MATERIAL INJURY

The Applicant alleges and submitted sufficient evidence to show that there is price undercutting and that the imports in question are suppressing its selling prices. The Applicant's information indicated a decline in profit margins and capacity utilisation, increase in inventories, negative effect on cash flow and return on investment. It also found that a threat of further material injury exists based on freely disposable capacity and that price undercutting will continue with a possible increase in import volumes.

On this basis the Commission found that there was *prima facie* proof of material injury and threat of material injury.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin in the exporting country or country of origin will be from 1 January 2006 to 31 December 2006. The period of investigation for purposes of determining the injury will be from 1 January 2004 to 31 December 2006.

If there are subsequent events that are relevant to injury, the Commission may later request and consider further, more recent information.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act, the World Trade Organisation Agreement on Implementation of Article VI of the GATT 1994 (the Anti-Dumping Agreement) and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the exporting country has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the AOR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*
- (e) actual sales volumes;*
- (f) individual sales prices;*
- (g) information, the release of which could have serious consequence« for the person that provides such information; and*
- (h) information that would be of significant competitive advantage to a competitor;*

provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury and/or threat of material injury must be submitted in writing to the following address:

Physical address

The Senior Manager: Trade Remedies 1
 International Trade Administration Commission
 Block E (UZAJI) - The OTI Campus
 77 Meintjies Street
 SUUNYSIOE
 PRETORIA
 SOUTH AFRICA

Postal address

The Senior Manager:
 Trade Remedies 1
 Private Bag X753
 PRETORIA
 0001
 SOUTH AFRICA

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies 1 should receive all responses, including non-confidential copies of the responses not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames.

Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it

Should you have any queries, please do not hesitate to contact investigating officers, Mr. Albert Strydom at telephone number +27123943597, Mrs. Porcia Makgopela at telephone number +27123943630 and Mrs. Dothodzo Kgomotso at +2712 394 3671, or at fax number +27123940518.

NOTICE 962 OF 2007**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 512007**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comment on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, within six weeks of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in the application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>.

*These regulations require that **if** any information is considered to be confidential, then a non-confidential version of the information must be submitted simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:*

- ❑ Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ❑ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ❑ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties. The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

REBATE OF THE CUSTOMS DUTY ON:

Partially orientated yarns (POY) of nylon or other polyamides, single, untwisted or with a twist not exceeding 50 turns per metre, classifiable under tariff subheading 5402.45 for the manufacture of textured yarn measuring per single yarn not more than 200 dtex classifiable under tariff subheading 5402.31.

APPLICANT

Proyarns (Pty) Ltd
Cnr Neil Hare and Josias Blanckenberg road
Atlantis
7349

[ITAC Ref (14/2007), Enquiries Mr. C Grobbelaar, Tel (012) 394 3672 and fax: (012) 394 4672]

Reason for the application: The applicant stated that this yarn is not manufactured in South Africa

GENERAL

Amendment of the description of rebate item 311.12 to read as follows:

311.12/52.08/01.04 Woven fabrics of cotton, containing 85% or more by mass of cotton, of a mass not exceeding 200g/m², for the manufacture of impregnated or coated textile fabrics in such quantities, at such times and subject to such conditions as the International Trade Administration Commission may allow by specific permit.

APPLICANT

Textile Federation of South Africa
P.O. Box 53
BRUMA
2026

(ITAC reference T5/2/11/9/1- 20/2007; Enquiries: Coert Grobbelaar tel: (012)3943672; Fax: (012) 3944672]

Reasons for the application:

The description of the rebate provision contributes to abuse by those importers that do not add value to the final product.

Textile manufacturers in South Africa are able to manufacture all products classifiable under tariff heading 52.08.

There are users of the rebate item concerned and therefore the provision need to be maintained in the third Schedule of the Customs and Excise Act to ensure control by SARS.

LIST ~~4/2007~~ WAS PUBLISHED UNDER GENERAL NOTICE NO. 735 OF 15 JUNE 2007.

NOTICE 963 OF 2007**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 6/2007**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comment on these representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, within six weeks of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in the application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R397.04/>

*These regulations require that **if** any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:*

- ❑ Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ❑ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ❑ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the

Commission, which unless clearly indicated to be confidential, will be made available to other interested parties. The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

REBATE OF mE CUSTOMS DUTY ON:

Tubes and pipes of refined copper with an outside cross-sectional dimension not exceeding 115 mm classifiable under tariff subheading 7411.10.10 for the manufacture of finned tube heat-exchangers, blower coil unit coolers, evaporators and condensers classifiable under tariff subheadings 8415.90.90 and 8418.99.

NOTICE 965 OF 2007

NOMINATIONS OF BOARD MEMBERS OF THE NATIONAL METROLOGY INSTITUTE OF SOUTH AFRICA (NMISA)

Nominations are invited from suitable qualified experienced people for appointment to the NMISA Board.

NMISA was established as a public entity by an Act of Parliament. The Board manages the strategic affairs of NMISA, members of which are appointed by the Minister of Trade and Industry as stipulated in Section 10 of the Measurement Units and Measurement Standards Act, (Act 18 of 2006).

The mandate of the National Metrology Institute of South Africa is to provide for the use of measurement units of the International System of Units and certain other measurement units; for the designation of national measurement standards; for keeping and maintaining national measurement standards and units.

Persons nominated must have appropriate qualifications and extensive knowledge and experience. Board members will be involved in extensive liaison with the NMISA Executive, staff members, Industry and Government Institutions.

Board members should have the following attributes:

- should have experience in corporate governance
- have leadership qualities
- should have knowledge of the broader South African Standards, Quality Assurance, Accreditation and Metrology infrastructure.

Remuneration is set at the level as prescribed by the Public Service. Please note that appointment is subject to verification of qualifications and security clearance.

Nominations, including comprehensive CVs must be submitted to the Director-General, Department of Trade and Industry, Private Bag X84, Pretoria, 0001 and marked for the attention of Ms EJ Steyn - Directorate Technical Infrastructure. Further information can be obtained from Ms EJ Steyn Tel 012 394 1362 or from the Acting CEO of the NMISA, Dr CW Louw Tel 012 8413264

Closing Date: 07 September 2007

NOTICE 966 OF 2007

NATIONAL AGRICULTURAL MARKETING COUNCIL
MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED
(ACT No. 47 OF 1996)

MILK INDUSTRY -

- REQUEST FOR THE INTRODUCTION OF STATUTORY MEASURES RELATING TO REGISTRATION AND RECORDS & RETURNS
 - DIRECTLY AFFECTED GROUPS ARE INVITED TO FORWARD ANY COMMENTS REGARDING THE PROPOSED STATUTORY MEASURES
-

It is hereby made known that in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996), the Minister of Agriculture has received a request from the milk industry for the continuation of statutory measures relating to registration, the keeping of records and the rendering of returns.

The Milk Producers' Organisation's (MPO), on behalf of the directly affected groups in the milk industry applied for these statutory measures. The current statutory measures for the milk industry will expire on 1 November 2007. The MPO requested ministerial approval for the continuation of these statutory measures for a new period of four years, to lapse on 1 November 2011.

The purpose of the statutory measures relating to registration and records & returns is to compel milk producers to register with the MPO and also to compel producers to keep records and render the returns to the MPO. These statutory measures will enable the MPO to process and disseminate accurate information to all role-players in order for them to make informed decisions. The MPO is funded through voluntary contributions from its members and will administer the statutory measures.

As the proposed statutory measures requested by the MPO are *prima facie* consistent with the objectives of the Marketing of Agricultural Products Act, the Minister requested the National Agricultural Marketing Council on 31 JULY 2007 to investigate the possible implementation of the relevant statutory measures and to report back to her within 60 days.

Directly affected groups in the milk industry are kindly requested to submit any comments regarding the proposed statutory measures to the National Agricultural Marketing Council within 14 days of the publication hereof.

Submissions must be in writing and be addressed to:
