Amendment of heading of Division Four of Part 91 of the Regulations

1. The heading of Division Four of Part 91 of the Regulations is herewith amended by the substitution of the said heading of the following heading –

“Division Four: Specific Provisions Regarding Aircraft”

Amendment of Regulation 91.06.29 of the Regulations

2. Regulation 91.06.29 is herewith substituted for the following regulation: -

"Identification and Interception of Aircraft

(1) No person shall institute in-flight surveillance against, give an interception signal in connection with or give an instruction to land to a civilian aircraft suspected to be in contravention of the Act except -

- (a) on instruction by the Minister, the Commissioner, an authorized officer or authorized person designated in terms of section 5(4) of the Act, or
- (b) if the person is a member of the South African Police Services or South African National Defence Force, acting within the course and scope of his or her duties; and
- (c) the in-flight surveillance, interception signal or instruction to land is in the public interest.

(2) The in-flight surveillance, interception signal or instruction to land must be executed in a manner that does not unduly affect aviation safety.

(3) The intercepted aircraft must follow out the instructions of the intercepting aircraft as prescribed in the Regulations.

(4) When the aircraft is intercepted, the pilot-in command must immediately establish radio contact with the intercepting aircraft on 121,5 MHz.

(5) If the intercepting aircraft cannot establish radio contact with or contact in any other practical way the intercepted aircraft, visual signals as prescribed in Document SA-CATS-OPS 91 must be used.

(6) The visual signals must be used as follows:

- (a) the intercepting aircraft shall use the second series to indicate that the intercepted aircraft may proceed if it had been intercepted for identification purposes only;
- (b) the appropriate part of the first series must be used if the aircraft is to be led away from the prohibited or restricted area, and the second series must be used to indicate that the purpose has been achieved and the aircraft is released;
- (c) if the aircraft is required to land, the appropriate part of the first series must initially be used, followed by the third series if in the vicinity of a designated landing area;
- (d) if the pilot of the intercepted aircraft considers the designated landing area to be unsuitable for the aircraft type, he or she must use the fourth series to indicate that fact;
- (e) upon the use of the fourth series by the intercepted aircraft as prescribed in paragraph (d), the intercepting aircraft must give new instructions; and
- (f) if the intercepted aircraft is in distress, the distress signals must be used, where practical".
