NOTICE 1630 OF 2009**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATION****LIST 10/2009**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comments on this representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, **within 6 weeks** of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in these applications is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>. These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- ☐ *Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ☐ *A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ☐ *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties. The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

REASON FOR THE APPLICATION:

The rebate item 317.06/00.00/05.00 which makes provision for “Goods of any description, for the manufacture of leather seat covers” does not cover other leather products including leather cut kits used for the interior of the motor vehicles. The requested increase in the domestic Dollar-based reference price from US\$157/ton to US\$260/ton will result in an increase in the duty on wheat which will be determined by the variables of the variable tariff formula. Using the applicable price information when Grain SA’s application was received at ITAC (09 October 2009) and using the requested reference price of US\$260, the duty is will increase to 47.42 c/kg equivalent to 33% ad valorem.

[ITAC Reference: [20/2009]. Enquiries: Mr K Mukoma Tel. (012) 394 3732, Fax (012) 394 4732, e-mail: kmukoma@itac.org.za Alternatively: Ms. M Masithela Tel. (012) 394 3682, Fax. (012) 394 4682, email: mmasithela@itac.org.za.]

REASON FOR THE APPLICATION:

The applicant stated that:

- the existing rate of duty (free) that was implemented on 19 December 2008 rendered the industry vulnerable to the global economic recession and that the increase of the domestic reference price from US\$157/ton to a more appropriate level would be more effective in enabling the wheat industry to recover over the long-term;
 - the current Dollar-based reference price of US\$157 does not take into account the depressed wheat world price threatening domestic production (where production costs exceeds the price per ton), difference in the quality of wheat traded in the international market and the current ten year average FOB-price for Hard Red Winter (HRW) Nr 2 wheat is US\$189/ton instead of US\$157/ton as currently applied in the variable tariff formula.
5. ITAC hereby informs stakeholders of permits issued in terms of rebate item 470.03 and drawback item 521.00 for the period 01 January 2009 to 30 June 2009, as shown in the attached tables.
