HALFWAY HOUSE

B. PROPOSER'S INTEREST

The proposer has been established in terms of the Civil Aviation Act, 2009, (Act No. 13 of 2009), to control and regulate civil aviation in South Africa and to oversee the functioning and development of the civil aviation industry, and, in particular, to control, regulate and promote civil aviation safety and security.

C. MOTIVATION FOR AMENDMENTS

The objective of Part 175 is to provide the regulatory requirements for persons or organizations wishing to provide aeronautical information services in support of South Africa and ICAO designated area of responsibility.

Part 175 adopts the standard layout for the rule parts relating to the certification of organizations. The layout prescribes specific requirements for the certification (entry standards), operation (continued operations), and safety audit (surveillance) of persons providing aeronautical information services.

The provision of aeronautical information services to meet RSA international obligations under the ICAO is subject to separate formal agreements between the Authority and the appropriate certificated aeronautical information service provider.

ICAO raised a finding during the USOAP in 2006 that there is need to separate a regulatory body and a service provider where the regulatory body would oversee the entire provision of AIS in RSA.

The proposed amendment is in accordance with the requirements of ICAO.

1. AMENDMENT OF REGULATION 1.00.1 OF THE REGULATIONS

1.1 Regulation 1.00.1 is hereby amended by –

(a) the insertion of the following definitions:

- (b) supplements to the AIP;
- (c) NOTAM and PIB;
