NOTICE 579 OF 2010**MINISTRY OF SCIENCE AND TECHNOLOGY****MINISTERIAL COMMITTEE TO REVIEW THE SCIENCE, TECHNOLOGY AND INNOVATION LANDSCAPE AND ITS READINESS TO MEET THE NEEDS OF THE COUNTRY**

I, Grace Naledi Mandisa Pandor, MP, Minister of Science and Technology, in accordance with Treasury Regulation 20 [issued in terms of the Public Finance Management Act, 1999 (Act No 1 of 1999)], hereby establish the committee set out in the schedule hereto to review the Science, Technology and Innovation landscape and its readiness to meet the needs of the Country; and in particular to report and advise the Minister on the extent to which the recommendations of the OECD review have been acted upon; the current performance of the science, technology and innovation system and to make appropriate recommendations on steps necessary to strengthen the science, technology and innovation system.

GNM PANDOR, MP
MINISTER OF SCIENCE AND TECHNOLOGY
DATE: 1-06-2010

SCHEDULE

Terms of Reference for the Ministerial Committee to Review the Science, Technology and Innovation Landscape and its Readiness to Meet the Needs of the Country

1. Purpose of the Ministerial Committee

South Africa has one of the leading Systems of Science, Technology and Innovation in Africa and is moving towards reaching its target of 1% of gross expenditure on research and development, as a percentage of GDP. The System of Innovation has been governed, steered and managed in terms of the policy and strategy frameworks of the Department of Science and Technology, the most recent of being the Ten Year Innovation Plan. However, a comprehensive assessment of the Science, Technology and Innovation system is now needed to determine whether the country is making optimal use of its existing strengths and whether it is well positioned to respond rapidly to a changing global context and thus to meet the needs of the country in the coming ten to thirty years. The assessment should inform the Minister of Science and Technology of the measures required to ensure that the country has a sustainable and robust Science, Technology and Innovation system in both the public and private sectors.

The OECD Review of South Africa's Innovation Policy (2007), provides an important point of departure for the assessment of the system, which must also be informed by the increasing importance of knowledge based economic growth and the priorities of the Government, specifically with reference to job creation, quality education and a better quality of life for all its citizens.

2. Terms of Reference

The work of the Ministerial Committee will be undertaken in two phases.

Phase 1

In this Phase, the Committee is to conduct a desktop study and assessment of:

- the OECD Review and its recommendations;
- key policies, strategies and reports of the DST and its public entities including the Science Councils and the National facilities (particularly in the period 2004-2009); and
- the role of the private sector in Science, Technology and Innovation.

From this preliminary work, the Committee is to advise the Minister on the following:

1. The degree to which the recommendations of the OECD Review have been acted upon.
2. The extent to which data derived from the documents reviewed is able to sufficiently inform an assessment of the strengths, shortcomings and responsiveness of the system in addressing the purpose given above.
3. The scope of work for the second phase of the investigation.

Phase 2

The Ministerial Committee will implement the scope of work developed in Phase 1, as approved by the Minister.

NOTICE 590 OF 2010**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 05/2010**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comments on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001, **within 2 weeks** of the date of this notice. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>. These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- Each instance where confidential information has been omitted and the reasons for confidentiality;*
- A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.
