$$\text{Annual Fee} = (O/12) \times N$$

Where O = the annual nuclear authorisation fee for the relevant category of the operation (i.e. large, medium or small operator): and

N= the number of full calendar months from the date of issue of the nuclear authorisation until 31 March 2011.

Category 3 facilities are fertilizers and other lesser mineral processing facilities

Category 4 facilities are medium operators and other lesser mining and mineral processing facilities

Category 5 facilities are large operators which include major mining and mineral processing facilities

8. Formula applied in calculating annual nuclear authorisation fees for the financial year 2010/2011

For the calculation of the authorization fees for 2010-2011 the person-effort for each of the authorisations holders has been revised taken into account past operational experience and also expected increases in workload.

The formula used to calculate the authorisations fees can be available from the National Nuclear Regulator.

9. All fees are VAT exclusive
