**NOTICE 847 OF 2011****NATIONAL AGRICULTURAL MARKETING COUNCIL (NAMC)****MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED  
(ACT No. 47 OF 1996)****REQUEST FOR THE ESTABLISHMENT OF A STATUTORY MEASURE  
(LEVY ON COTTON LINT)****INVITATION TO DIRECTLY AFFECTED GROUPS TO FORWARD ANY COMMENTS  
REGARDING THE PROPOSED MEASURE**

The statutory levy of 20c/kg (VAT excluded) on cotton lint, implemented on 1 April 2008, will lapse on 31 March 2012. On 10 December 2010 the Minister approved that the statutory levy of 20c/kg also be payable on cotton lint imports from outside SADC.

It is hereby made known, in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996), that the Minister of Agriculture, Forestry and Fisheries has received a request from Cotton SA, on behalf of the directly affected groups in the cotton industry, for the establishment of the following statutory measure for a four year period:

- A statutory levy of 20c/kg (VAT excluded) with annual increases as from 1 April 2013 equal to inflation rate expectations, payable by ginners on cotton lint produced and by spinners on cotton lint imported from outside SADC, in order to ensure the continuation of the functions performed by Cotton SA.
- It is proposed that the levy be increased from the second year of the levy period to the following amounts (VAT excluded):
  - From 1 April 2013 to 21c/kg on cotton lint,
  - From 1 April 2014 to 22c/kg on cotton lint, and
  - From 1 April 2015 to 23c/kg on cotton lint.

The purpose and aims of this statutory measure are to provide financial support for the following functions that the cotton industry has identified as essential and in the interest of the industry as a whole:

- Rendering of information services to all role players;
- promotion of cotton production and consumption;
- co-ordination of research;
- maintenance of quality standards and norms and the provision of training in this regard;

- facilitation of the development of the emerging cotton production sector; and
- to act as the representative industry forum.

The budgeted income from the proposed levies is estimated between R3.4 million and R4.1 million per annum on local production and between R200 000 and R250 000 per annum on imports from outside SADC for the proposed levy period of 1 April 2012 – 31 March 2016. These forecasts are based on the assumption that no dramatic increase in the cotton crop is expected for the next few years. Other income include amongst others, contributions for small-scale farmer training, income from the provision of grading services to outside parties, cotton mark royalties as well as investment income, that will again be used to supplement any shortfalls in levy funds. Further ways of broadening the income base are continuously being investigated.

Directly affected groups in the cotton industry are kindly requested to submit any comments or objections regarding the proposed statutory measure to the National Agricultural Marketing Council in writing (fax 012 341 1811/ 012 341 1911 or e-mail to [lizette@namc.co.za](mailto:lizette@namc.co.za)) before or on 15 December 2011, to enable the Council to formalise its recommendation to the Minister in this regard.

Submissions must be in writing and be addressed to:

**1.0 Introduction****PROFESSIONAL FEES GUIDELINE**

The Architectural Profession Act, 44 of 2000, hereinafter referred to as the **Act**, requires that the South African Council for the Architectural Profession, hereinafter referred to as **SACAP**, must annually determine guideline professional fees and publish these in the Government Gazette.

This Framework for the Professional Fees Guideline describes the professional services and the context within which the services are performed.

**THE ARCHITECTURAL PROFESSIONAL'S SERVICE****Context**

A **client** appoints an **architectural professional** to provide a service for a **project** as contemplated by the Architectural Profession Act, No 44 of 2000, the National Building Regulations and Building Standards Act, No 103 of 1977, as amended and the National Building Regulations published in terms of this **Act**.

The **architectural professional** accepts the appointment to exercise reasonable professional skill, care and diligence in the performance of obligations, for a fee, as defined in a written **agreement**.

The **architectural professional** is authorized to act for the **client** when providing an architectural service. For the construction stage of a **project**, current standard **contracts** used in the building industry, such as the **JBCC** suite of contract documents, which is the preferred form of **building contract**, are employed. For this stage the relationship between the **client**, **contractor** and **architectural professional** as agent, or **principal agent** is defined in the **building contract**.

The **architectural professional** enters into a contract of agency in a formal **agreement**, typical **agreements** provide for a standard service as per 1.1 below and for partial services provided herein as per 1.2 below.

A standard service comprises appointment as **architectural professional**, **principal consultant** and **principal agent**. The parties to an **agreement** select the **architectural professional's** service applicable to the **project**. Services additional to the standard service may be selected. These additional services are selected as the parties may deem appropriate, provided for herein under 1.2.1 below.

The Professional Fees Guideline as published annually in a **board notice** by **SACAP** in the Government Gazette is deemed to provide a fair and reasonable remuneration to the **architectural professional** in order to render an appropriate quality of service.

### **Fees description**

The calculation of fees based on a percentage of **project** cost is the normal basis to determine professional fees and represents the accepted basis by the Built Environment Professions for remuneration of professional services. Such fees are referred to as **project cost based fees**.

An alternative to a **project cost based fee** is a time based fee.

### **Project cost based fee**

A **project cost based fee** is appropriate where there is a well defined scope of service for the **architectural professional**. This is based on a **budget** for the **works** for fee calculation purposes and adjusted on the final cost of the **works**.

Where a fee is calculated as a **project cost based fee**, the fee consists of a base fee and a percentage of **project cost**, which is derived from bracketed **project** values set out in the annual **board notice**.

### **Time based fee**

Where the scope of service is not clearly defined, or the service relates to small scale **projects**, or the service is of an unusual or specialized nature, a time based fee is used as the basis of remuneration.

Where fees for **architectural professional** services are time based fees, these are based on an hourly rate according to the Professional Fees Guideline set out in the annual **board notice**.

## **1.1 Standard service**

An **architectural professional** registered with **SACAP** is registered in a specific **category of registration**.

Where **architectural professionals**, with registration with **SACAP** as **architect**, are employed in a standard service the **architect** is appointed to fulfill the obligations provided for as **architectural professional, principal consultant and principal agent**, also described as a 'full service'. Partial and/or additional services may be agreed (see 1.2 below).

Where **architectural professionals**, with registration with **SACAP** as other than **architect**, are employed the service to be rendered and functions to be fulfilled are informed by the Identification of Work for Architectural Professionals, as separately determined by **SACAP**. Such an appointment may be for a standard service. Partial and/or additional services may be agreed (see 1.2 below).

The essential functions of each work stage relevant to the service are identified herein as:

### **Stage 1: Inception**

Receive, appraise and report on the **client's** requirements with regard to:

- the **client's** brief
- the site and rights and constraints
- budgetary constraints

### 1.3.1 Basis of fees agreement

The client agrees to pay the architectural professional the fees for the services as recorded in the formal agreement entered into by the parties.

Where a project cost based fee is applied, the final fee is calculated on the final cost of the works.

### 1.3.2 Project cost based fees for standard and partial services

The fees consist of a base fee and a percentage of project cost; these derive from bracketed project values and are determined annually by SACAP and published as a board notice.

For a partial service, assuming the fee is a project cost based fee, the percentage of the fee for each work stage to be performed is agreed between client and architectural professional, see 1.3.4 below.

The budget for fee purposes excludes VAT, contingencies and provision for escalation.

### 1.3.3 Project cost based fees for a reduced service

- Where the architectural professional is not the principal agent: a reduction of the fee for the work not exceeding 10% of the fee for stages 5 and 6 can be considered
- Where the architectural professional is not the principal consultant: A reduction of the fee for the work not exceeding 10% of the fee for stages 1 to 4 can be considered

### 1.3.4 Apportionment of fees between work stages:

The fee applicable to each work stage is apportioned according to the table below and may be adjusted by agreement. In project specific cases requiring the completion of documentation at earlier stages, an appropriate increase of the fee apportionment to the initial stages may be considered.

Work stages 1 to 6	Proportion of fee	Cumulative total
1	5%	5%
2	15%	20%
3	20%	40%
4.1	20%	60%
4.2	10%	70%
5	27%	97%
6	3%	100%

### 1.3.5 Guideline fees for additional services:

Unless otherwise agreed, the fee for additional services is time based, based on hourly rates as in the current board notice.

### 1.3.6 Time based fees

Where fees for the architectural professional's services are time based fees, the hourly rates as in the current board notice apply. Whenever these rates are revised the new rates shall apply to work performed after the effective date of such revision.

### 1.3.7 Guideline fees for additions and / or alterations

The fee for work that includes alterations is based on the total project cost as a project cost based fee and increased for that portion of the work comprising or affected by alterations by 30% (130% of the fee).

### **1.3.8 Guideline fees for services provided with respect to the restoration of buildings subject to heritage legislation**

Fees are based on a percentage of total **project** cost as a **project** cost based fee. This is based on the assumption that concept design is not a requirement, the fee is reduced in that respect by 15% and the remainder is increased by 40% (140% of the fee) to provide for the additional expertise expected of the **architectural professional**. That is  $(100 - 15) \times 140\%$ .

### **1.3.9 Guideline fees for a project that includes repeated buildings**

For a **project** consisting of a number of repeated buildings erected under a single **building contract** for a single **client**, the fee may be reduced by agreement, subject to the **architectural professional** being retained for a full service and the repeated buildings being:

- built on one site or a series of adjoining or closely related sites
- either wholly apart from each other or linked with screen walls, common walls or other similar means
- repeats of one or more prototype designs for units, blocks or elements and built from the repeated use of one or more sets of drawings and related documents with nominal or no modification for each re-use

The guideline fee for repeated buildings provides for a full fee for the origination of the first buildings, prior to the repeated buildings, known as prototypes. Thereafter the fee adjustment is applied to the repeated buildings.

The reduced fee applies to work stages 1 to 4 inclusive. The reduced guideline apportionment is 35% of the guideline for stages 1 to 4 inclusive.

The reduced fee does not apply to work stages 5 and 6. The full guideline fee for these stages shall apply.

### **1.3.10 Guideline fees for buildings repeated under separate building contracts**

Unless otherwise agreed, where repeated buildings are erected under separate **building contracts** and the drawings and related documents for a **project** are re-used for subsequent **projects** with nominal or no modification, the fee may be adjusted as below:

The fee for modifying drawings and related documents and preparing site and service plans for each subsequent **project** shall be a time charge for the modifications, to which should be added a premium of 15% of the full fee, percentage fee and base fee taken together, based on the final cost of each **project**.

Where there is no requirement to render any services in respect of the re-use of drawings and related documents for a subsequent **project**, it is recommended that a royalty of 7,5% of the fee based on an agreed estimate of the cost of the subsequent **project** is payable.

### **1.3.11 Guideline fees for an appointment where the architectural professional takes over incomplete work of another practitioner:**

The stage of completion shall be agreed and an appropriate **budget** for the **works** agreed and the fee for the incomplete work stage or the stage in which the service is commenced is subject to an increase of 15%.

### **1.3.12 Guideline fees for inspection, contract administration and close out**

The guideline fee for **inspecting** the **works**, administering the **building contract** and achieving close out is 30% of the total fee based on the final cost of each **project**.

### 1.3.13 Guideline fees for deployment of employees

Where an employee of the **architectural professional** is deployed on site for extended inspection or other agreed purpose, the amount of the reimbursement shall be the total cost of employment plus 30%, or as agreed on proven cost.

### 1.3.14 Extended initial contractual contract period

In the event that the initial **contract** period is exceeded by more than 10%, through no fault of the **architectural professional**, the **architectural professional** is to be remunerated for all additional work resulting from the extension of time at the hourly rates according to the current **board notice** together with related re-imbursable expenses.

### 1.3.15 Adjustment of guideline fees and disbursements

The guideline fees and disbursements are based on the following parameters:

- Scope of services
- Scope of the **project/works**
- Project** programme
- Cost of the **works**
- Cost of the **project**
- Appointment of other **consultants**
- Appointment of **contractor**

Should any material variation to the parameters as stated occur, the guideline fees and disbursements are adjusted.

Adjustments to the **project** programme, commonly known as 'fast tracking', that requires the application of an additional resource by the **architectural professional**, may attract an additional fee.

### 1.3.16 Travelling time

Where the fee is a **project** cost based fee time charges shall apply to travel time regardless of distance.

Where the fee is on a time basis time charges shall apply to the full round trip regardless of distance

### 1.3.17 Guideline fees on termination by the client

Where the **agreement** between the **client** and the **architectural professional** is terminated the **client** shall pay for that portion of the service that has been executed.

Termination of the **project** will attract an additional fee equal to 10% of the full fee in the stage in which termination occurs.

### 1.3.18 Guideline fees for dispute resolution services

For acting as expert witness, adjudicator, mediator or arbitrator, the fee may be the time charge fee at the hourly rates published in the **board notice** and increased by 50% (150% of the fee), or as agreed.

Where **projects** are referred to dispute resolution, **architectural professionals** retained on that **project** are to be reimbursed for the additional service required of the **architectural professional** in relation to the dispute resolution process as necessary.

### 1.3.19 Payment of professional accounts

The **architectural professional's** accounts are due and payable on presentation.

The **architectural professional** shall be entitled to render interim accounts.  
Fee and re-imbusement invoices may be invoiced separately.

In addition to the fees set out in this schedule, the client shall reimburse the architectural professional for all reasonable disbursements properly incurred.

The expenses contemplated may include the following:

- printing, photocopying, maps, models, presentation materials, photography and similar documentation including all reproduction or purchase costs of documents, hotel, subsistence and travelling expenses, including kilometer allowances at either current Automobile Association or Department of Public Works rates for vehicle usage as may be agreed, toll fees and other similar disbursements
- all payments made by the architectural professional, including fees and other charges for specialised professional and other services incurred on behalf of the client
- telephonic, electronic and facsimile communication, special postage and courier deliveries
- any other disbursements that may be agreed by the client

### 1.3.21 Claims to be separate and no set-off

Should the client allege a claim against the architectural professional, a contractor or any other party involved in the project, such claim shall be dealt with on its own merits. The client is not entitled to withhold payment of fees or disbursements or part thereof due to the architectural professional, based on the alleged claim. The client shall make payment without any set-off and waives all rights to any such set-off.

No penalties are applied to professional service agreement contracts. Should professional error, omission and/or negligence be implied, compensation is sought by dispute resolution or litigation and claimed from the architectural professional.

### 1.3.22 Regular Invoicing

Regular Invoicing as required by the Value-Added Tax Act, No 89 of 1991 is accepted good practice and is deemed to be the basis of the agreement between client and architectural professional.

## 1.4 Engagement of architectural professionals

The professional service is deemed to be subject to an appropriate formal agreement in which the rights and obligations of the parties to one another and the terms and conditions of service are clearly recorded.

The specific service is agreed and the basis for the calculation of professional fees is recorded.

The agreed service to be provided, authority of the agent, the agent's ownership of the intellectual property or copyright, limits to responsibility, limit to professional liability to a term of five (5) years, payment of invoices, interest on overdue invoices, disputed invoices, suspension or deferment, termination of engagement, damage to, or destruction of, the works and dispute resolution provisions are dealt with in the formal agreement.

The expectation is that the agreed fees are based on a budget for the works for fee purposes to ensure that the fee calculated on anticipated final project cost, is applied to a realistic value of the work to be done.

## 1.5 Use of the professional fees guideline

The professional fee guideline is published annually as a board notice.

The professional fee guideline provides a basis for the calculation of remuneration for architectural services. In the professional fee guideline a single percentage is quoted together with a base fee, related to bracketed values of project cost; no additional guidance is provided in relation to simple or complex work.

### 1.5.1 Project cost based fee

The **project** cost based fee results in a sliding scale which arises from the series of percentages related to the cost of the **works**. The base fee is stated as an appropriate value to smooth the sliding scale.

### 1.5.2 Application

The adjustment provided for in the professional fee guideline is based on the reduced aggregate of the value of the **works** and/or **project** from which the **budget** for the **works** for fee purposes is derived. -This arises from the provision that fees for architectural services are calculated on the total value of the **works** and represent an average over all elements of the **works** and/or **project**.

The bracketed **project** values and related percentages result in a sliding scale, the base fee provides for a smoothing of the sliding scale.

The fees calculated shall be applicable to a new appointment and shall remain in force during the currency of the appointment.

Where a **project** cost based fee is applied, the final fee is calculated on the final cost of the **works**.

### 1.5.3 Time based fee

Where a time-based fee is selected, the rates published in the **board notice** as rates per hour shall apply.

Whenever these rates are revised, the new rates shall apply to work performed after the date of publication of such revision.

The categories to which the rates are applicable are:

Principal	Specialist	The published time charge rate per hour applies
Principal	>10 years experience	The published time charge rate per hour applies
Principal	<10 years experience	The published time charge rate per hour applies
Principal	<5 years experience	The published time charge rate per hour applies

In the above, principal means the proprietor, partner, director or member who bears the risks of practice and takes full responsibility for the potential liabilities of practice.

The hourly rates referred to above shall be deemed to include establishment charges and charges for time expended by clerical staff.

Staff who perform work of an architectural nature and who carry direct responsibility for one or more specific activities related to a **project** will have time based, rate per hour charges agreed before the work is executed.

Salaried staff	Associates and managers	22,5%	per R100,00 or part thereof of total annual cost of employment
Salaried staff	Staff performing work of an architectural nature and carrying direct responsibility for activities related to a <b>project</b>	17,5%	per R100,00 or part thereof of total annual cost of employment
