The wording for rule 0005 on page 20 is amended as follows:

	Modifier 0005	
0005	<p>Multiple therapeutic procedures/operations under the same anaesthetic:</p> <p>(a) Unless where otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures.</p> <p>(b) In the case of multiple fractures and/or dislocations the above values also prevail.</p> <p>(c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for after-care. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic.</p> <p>(d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) modifier 0005 is not applicable as the fee is already a reduced fee</p> <p>(e) Plus ("+") means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to modifier 0005 (see also modifier 0082). The amount for plus ("+") procedures must not be added to the amount for the definitive item and must appear on a separate line on the account.</p>

NOTICE 907 OF 2012**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF INITIATION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF UNFRAMED MIRRORS, OF A THICKNESS OF 2MM AND MORE BUT NOT EXCEEDING 6MM, ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA (PRC)**

The International Trade Administration Commission (the Commission) accepted an application alleging that unframed mirrors, of a thickness of 2mm and more but not exceeding 6mm, originating in or imported from the PRC were being dumped in the Southern African Customs Union (SACU) market, causing material injury to the SACU industry concerned.

The applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury and causality.

THE APPLICANT

The applicant is PFG Building Glass (Pty) Ltd. PFG Glass constitutes 100 per cent of the SACU production volumes.

THE PRODUCT

The product allegedly being dumped is unframed mirrors, of a thickness of 2mm and more but not exceeding 6mm, classifiable under tariff heading 7009.91, originating in or imported from the PRC.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value in the PRC and the export price in the PRC.

The normal value for the PRC are based on the price quotations obtained by the applicant from a Chinese merchant in the PRC, indicating the domestic selling price for the subject product in the PRC.

The export price was determined based on the official import statistics obtained from the South African Revenue Service.

On this basis, the Commission found that there was *prima facie* proof of dumping.

THE ALLEGATION OF MATERIAL INJURY AND CAUSAL LINK

The applicant submitted evidence to show that there is price undercutting, price suppression, decline in sales volume, decline in sales value, decline in profit, decline in output, decline in market share, decline in productivity, decline in inventory, decline in return on investment, and decline in capacity utilisation.

On this basis the Commission found that there was *prima facie* proof of material injury and causal link.

PERIOD OF INVESTIGATION

The period of investigation for purposes of determining the dumping margin will be from 01 May 2011 to 30 April 2012. The period of investigation for purposes of determining the material injury will be from 01 May 2009 to 30 April 2012.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 (the ITA Act). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act and the Anti-Dumping Regulations of the International Trade Administration Commission (ADR). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

In order to obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters, and known representative associations. The trade representative of the exporting countries has also been notified. Importers and other interested parties are invited to contact the Commission as soon as possible in order to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire has to be completed and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1)(a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

- (a) management accounts;*
- (b) financial accounts of a private company;*
- (c) actual and individual sales prices;*
- (d) actual costs, including cost of production and importation cost;*

- (e) *actual sales volumes;*
- (f) *individual sales prices;*
- (g) *information, the release of which could have serious consequences for the person that provided such information; and*
- (h) *information that would be of significant competitive advantage to a competitor;*

Provided that a party submitting such information indicates it to be confidential".

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting threat of material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

The Senior Manager: Trade Remedies II, should receive all responses, including non-confidential copies of the responses, not later than 30 days from the date hereof, or from the date on which the letter accompanying the abovementioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and substantiated), if received prior to the expiry of the original 30-days period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassy on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers in order for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted would subsequently be available for verification.

It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission.

It should be noted that unavailability of, or inconvenience to consultants will not be considered to be good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames.

Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of Anti-Dumping Agreement.

The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission's requirements.

The Commission will give due consideration to such a request on good cause shown. Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination.

Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding on the basis of the facts available to it.

Enquiries may be directed to the investigating officer Mr. Jeffrey Maphagela at telephone number 012 394 3639 or Mr. Sandile Mantolo at 012 394 3902, or at fax number +27 12 394 0518.
