GENERAL NOTICES ALGEMENE KENNISGEWINGS

NOTICE 569 OF 2013

NATIONAL AGRICULTURAL MARKETING COUNCIL MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED (ACT No. 47 OF 1996)

REQUEST FOR THE CONTINUATION OF STATUTORY MEASURES RELATING TO LEVIES, REGISTRATION AND RECORDS & RETURNS IN THE DAIRY INDUSTRY IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT

It is hereby made known that, in terms of section 11 of the Marketing of Agricultural Products Act, 1996 (Act No.47 of 1996) (MAP Act), the Minister of Agriculture, Forestry and Fisheries has received a request from the dairy industry for the continuation of statutory measures relating to levies, registration, the keeping of records and the rendering of returns.

The South African Milk Processors' Organisation (SAMPRO), a directly affected group and representative organisation of the secondary dairy industry, applied for these statutory measures. The Milk Producers' Organisation (MPO), the representative organisation of the primary dairy industry, is also supporting the application. The current statutory measures for the dairy industry will expire on 23 December 2013. SAMPRO requested ministerial approval for the continuation of these statutory measures for a new period of four years, to lapse on 31 December 2017.

SAMPRO proposed that the current statutory levies increase by 30 percent. According to SAMPRO, the requested increase of 30 percent is very modest as it will be the first increase in 8 years (the existing levies will be in place for 8 years at the end of 2013). The proposed new levies will be as follows:

Customs Tariff Classification	Product Description	Levy (Vat exclusive)
04.01	Milk and cream, not concentrated nor containing added sugar or other sweetening matter	1,3c per kg
04.02	Milk and cream, concentrated or containing added sugar or other sweetening matter	12,5c per kg
04.03	Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added	4,7c per kg

	sugar or other sweetening matter or flavoured or containing added fruits, nuts or cocoa	
04.04	Whey, whether or not concentrated or containing added sugar or other sweetening matter; Products consisting of natural milk constituents, whether or not containing added sugar or other sweetening matter, not elsewhere specified or included	3,8c per kg
04.05	Butter and other fats and oils derived from milk, dairy spreads	13,4c per kg
04.06	Cheese and Curd	18,7c per kg

The estimated income from the levies will be approximately R38 million per annum. The proposed statutory levies will finance the following functions, namely –

- Consumer education (43% of levy income);
- Improvement of the quality of milk and other dairy products (17% of levy income);
- Empowerment of previously disadvantaged individuals (20% of levy income);
- Research and development (5% of levy income);
- Industry information (5% of levy income); and
- Administration (10% levy income)

The MAP Act stipulates that a statutory levy may not exceed 5% of the price realised for a specific agricultural product at the first point of sale. The maximum of 5% must be based on a guideline price calculated as the average price at the first point of sale over a period not exceeding three years. For the proposed statutory levies, the guideline price varies between 0.28% and 0.36% of the price of the relevant dairy products at the first point of sale.

The purpose of the statutory measure relating to registration is to compel all secondary industry role-players in the Republic of South Africa to register with Milk South Africa (the administrator). Registration will facilitate better communication in the industry on matters of common interest such as technical issues, food safety, product standards and other issues.

The purpose of the statutory measure relating to records & returns is to provide a statutory mechanism for dairy processors, traders, brokers, producer distributors, importers and exporters of dairy products, to keep records and furnish returns to Milk South Africa. The

information and analysis thereof will enable Milk South Africa to make market signals available to role-players and government institutions.

The National Agricultural Marketing Council (NAMC) took cognisance that the proposed continuation of the statutory measures relating to levies, registration, the keeping of records and the rendering of returns in the dairy industry as requested by SAMPRO, is consistent with the objectives of the MAP Act. The request is currently being investigated by the NAMC and recommendations in this regard will be made to the Minister in the near future.

Directly affected groups in the dairy industry are kindly requested to submit any comments, regarding the proposed statutory measures, to the NAMC on or before 21 June 2013, to enable the Council to finalise its recommendation to Minister in this regard.

Submissions should be in writing and be addressed to:

NOTICE 570 OF 2013**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CORRECTION NOTICE – LIST 11/2013 OF 24 MAY 2013**

In the application by CBC Fasteners (Pty) Ltd as published in Notice 524 of 24 May 2013, the customs duty increase on other hexagon nuts would be carried out by creating an 8 digit tariff subheading. Therefore the application should read as follows:

Increase in the Customs duty on:

Certain screws, bolts and other hexagon nuts classifiable under tariff subheadings 7318.15.39, 7318.15.43 and 7318.16.90 from 10% to 30%. The customs duty increase on other hexagon nuts would be carried out by creating an 8 digit tariff subheading (7318.16.80).

Enquiries: ITAC Ref: /2013, Enquiries: Dumisani Mbambo Tel: 012 394 3743 or Email: dmbambo@itac.org.za

Reasons as stated by the applicant:

- SACU manufacturers need to be protected against price undercutting from Chinese exporters exempted from the existing dumping duty on fasteners.
- CBC fasteners Pty Ltd is unable to recover manufacturing overheads at the current low levels of production. There is an urgent need for CBC and other SACU

manufacturers to increase the volumes required to sustain critical mass and have sustainable businesses that continue to contribute to employment whilst maintaining investment.

- Domestic producers are facing significant price disadvantages against imported screws, bolts and nuts from Asian countries.
- The dumping duties imposed by ITAC against imports from China are a clear indication that there is a problem in the industry. Therefore, the requested duty increase of 20% is justified.
- Increasing the customs duties to the bound level of 30% will level the playing field for manufacturers.
