**the dti**Department:
Trade and Industry
REPUBLIC OF SOUTH AFRICA**DRAFT NATIONAL GAMBLING NORMS AND STANDARDS****1. Executive Summary**

- 1.1 The National Gambling Policy Council (NGPC) has decided in its meeting that National Norms and Standards should be developed and the Director General of the Department of Trade and Industry (**the dti**) should take a lead in this regard. The Director General was instructed to produce a document and consult on it with his colleagues at provincial level.
- 1.2 The National Gambling Act provides for the norms and standards and creates a framework for future norms and standards; norms and standards should not repeat what has been stated in the Act or try to provide for issues that should be introduced in terms of legislative amendments. The purpose of the Norms and Standards, amongst others, is to have a uniform approach on the application of gambling policy, acts and regulation.
- 1.3 The need to develop the Norms and Standards came in the main since the application of policies, acts and their regulations throughout the country are implemented in a fragmented manner. This fragmented approach by the regulators at national and provincial levels is causing, amongst others, uncertainties, increasing cost of doing business in South Africa and lack of uniform application of service delivery standards in relation to issuance of trading licences.
- 1.4 By their nature, National Norms and Standards (NNS) should be part and parcel of the policy, acts and regulation, i.e. there should be no contradiction between NNS and policies, acts and regulation.
- 1.5 In this regard it should be pointed out that the NNS should be empowered or enabled by the policies, acts and regulations. This is so in order for the NNS to complement the policies, acts and regulation.
- 1.6 It is important to note that NNS are being made under circumstances that the National Government do have concurrent jurisdiction on gambling matters. In view of this, it would be wise for both two spheres of Government to agree

that the way how the sector should be regulated, it should be good to provide certainty and uniformity in the regulation.

- 1.7 Coordination where concurrent jurisdiction is involved is of utmost important as a fragment approach does stifle the way how competitive business should be conducted. Investors in the sector also need a predictable environment.
- 1.8 It should be pointed out that the Gambling Act on itself does provide NNS and therefore the Council intends to have NNS over and above what the Act provides. This Document will not repeat what is in the Act, or Provincial Acts, but would identify current problems that disturb coordination and uniformity of the application of the gambling legislation and their regulations. A clear approach will be mapped whether the purported NNS are enabled by the current legislation or such NNS intends the policies, acts regulations to be amended.
- 1.9 Finally it should be mentioned at a port of entry that the proposed NNS will heavily be based on the findings of the Gambling Review Commission (GRC) and the Report of the Portfolio Committee (PC) for Trade and Industry on the GRC Report.
- 1.10 The discussion follows below.

2. PURPOSE

- 2.1 The purpose of the NNS is:
 - 2.1.1 to ensure that gambling policies, acts and regulation are applied in a harmonised manner throughout the Republic, however, the harmonization of legislations should not usurp the autonomous powers and functions of Provinces to address their legislative challenges.
 - 2.1.2 to facilitate a more uniform level, frequency and effectiveness of enforcement actions undertaken, throughout the Republic, by the gambling boards, in co-operation with other enforcement agencies, against criminal breaches of national and provincial gambling laws.
 - 2.1.3 to facilitate, through ensuring that gambling is regulated in a harmonised manner throughout the Republic affording greater certainty for enforcement agencies regarding the law applicable to gambling, throughout the Republic.;
 - 2.1.4 to ensure that resolutions taken at the National Gambling Policy Council

(Council) are implemented by both National and Provincial Government in a uniform manner. The National Gambling Board will ensure, in terms of the National Gambling Act, that Provincial Gambling Authorities comply with the resolutions of Council failing which the non-compliance should be forwarded back to Council;

- 2.1.5 to ensure that national and provincial Government operate within the same regulatory parameters without undermining concurrent jurisdiction of the two sphere of Government;
- 2.1.6 to ensure that national and provincial Government implement NNS by changing their regulations in accordance with decisions of Council and a failure to implement Council resolution could result with a political or administrative head being called to account before Council; and

3. BACKGROUND

- 3.1 Council has decided in its meeting that National Norms and Standards should be developed and the Director General of the Department of Trade and Industry (**the dti**) should take a lead in this regard. The Director General was instructed to produce a document and consult on it with his colleagues at provincial level. The purpose of the Norms and Standards, amongst others, is to have a uniform approach on the application of gambling policy, acts and regulation.
- 3.2 The need to develop the Norms and Standards came in the main since the application of policies, acts and their regulations throughout the country are implemented in a fragmented manner. This fragmented approach by the regulators at national and provincial levels is causing, amongst others, uncertainties, increasing cost of doing business in South Africa and lack of uniform application of service delivery standards in relation to issuance of trading licences.
- 3.3 It is against this background that the NNS will in the main put more emphasis on a futuristic mode since some of the issues may need amendments of the

policies, acts and regulation of both national and provincial Government. This will ensure that there is a solid ground of regulation free of conflict between national and provincial authorities.

4. DISCUSSION

4.1 Gambling Regulatory Framework

- 4.1.1 Gambling is a subject of concurrent jurisdiction between the national **the dti** and provincial Government. Notwithstanding concurrence of jurisdiction, there are certain bare minimum issues that can be applied by the national and provincial Government and this does not contradict the Constitution Act, 1996
- 4.1.2 At national level, the Act allows the formation of the Council and this consists of the Minister for **the dti** and provincial MECs responsible for economic issues
- 4.1.3 The Council is empowered to formulate policies and NNS on Gambling matters without tempering with the legislative powers enjoyed by provinces.
- 4.1.4 The Act also establishes the National Gambling Board (NLB), whose functions are prescribed in the Act
- 4.1.5 Provincial Gambling Regulatory Authorities (PGRAs) are formed by respective provincial legislation
- 4.1.6 Bearing in mind that the norms and standards are already provided for in the National Gambling Act, 2004 and respective provincial legislations, only areas that needs further pronouncement through norms and standards needs to be identified.
- 4.1.7 In order to provide a solution, the Council should be revamped in its policy making powers and the way how it is reconfigured for the purposes of taking decisions in order to promote co-operation and respect between all regulatory structures. There is a need to amend the legislation in order to make Council decisions binding to all participants. Rules of procedure should be developed as envisaged in section 63(7) of the National Gambling Act to address the process of meetings; both the substantive and the procedural issues. The Rules will address

issues like the lack of quorum and the corporate governance issues in meetings of Council.

- 4.1.8 *The NGB and the PGRAs relationship should be ruled by Memoranda of Understanding (MOU) in the event the legislative amendments could not bring about co-operation and harmony.*

4.2 Relationship between NGB and PGRAs

- 4.2.1 The effectiveness of the NGB should be investigated through a comprehensive study to determine what is hindering their inability to perform as mandated by the National Gambling Act.

4.3 Testing of New Machines

- 4.3.1 There is no need for norms and standards in this regard except that should there be areas that require legislative amendments that should be identified and processed as such.
- 4.3.2 Further, Government should consider to have state-owned laboratories instead of having multiple testing processes by independent companies

4.4 National Responsible Gambling Programme

- 4.4.1 Contribution towards the NRGP should be made mandatory for all gambling operators and the contribution should be made through payment of 0,01% of the Gross Gambling Revenue.
- 4.4.2 In this regard, a legislative regime should be developed to govern all aspects of problem gambling and the NRGP as a national issue should be harmonized to apply uniformly across all provinces.
- 4.4.2.1 The NRGP should be reconfigured so as to expand its operations and reach by including other organizations that offer treatment, research and awareness services that are aligned to national priorities

- 4.4.2.2 All additional activities should focus particularly on vulnerable and rural communities

4.5 Legal Gambling Activities

- 4.5.1 Gambling activities are governed in South Africa in terms of the National Gambling Act of 2004. Regulated gambling Activities in terms of the Act include:

- 4.5.1.1 Casinos
- 4.5.1.2 Limited Payout Machines
- 4.5.1.3 Bingo
- 4.5.1.4 Horse Racing and Betting, including bookmakers. A discussion follows below:

4.5.2 Casinos

- 4.5.2.1 All in all there are 40 casino licences nationally and legislation should be developed to create an enabling environment for national government and provinces to continuously conduct review studies on the numbers of casino licence in order to determine the desired thresholds per province.

4.5.3 Limited Payout Machines

- 4.5.3.1 All relevant law enforcement agencies should form part of the task team to combat illegal slots casinos. PGRs should be empowered to appoint Peace Officers to complement enforcement capacity of SAPS.

4.5.4 Bingo

- 4.5.4.1 Bingo halls should have separate dedicated and monitored entrances if they are located in general public places

4.6 New Gambling Activities

4.6.1 Some of the additional gambling activities that may need to be regulated by legislation and norms and standards are discussed below:

4.6.2 Greyhound Racing

- 4.6.2.1 A uniform policy framework should be developed that is well researched and consulted upon with stakeholders, in particular with animal welfare organisations, before legalization of this regime takes place
- 4.6.2.2 Transformational issues must be built in the policy
- 4.6.2.3 Animal welfare organisations should be empowered through regulations and other relevant legislation to enforce animal welfare issues during racing activities

4.6.3 Bush and Harness Racing

- 4.6.3.1 Bush racing and harness racing should be formalised and be integrated into the mainstream horse racing and betting industry

4.6.4 Fahfee

- 4.6.4.1 Fahfee should remain illegal throughout the country until such time that the Minister investigates and make findings

4.6.5 Electronic Bingo Terminals

- 4.6.5.1 EBTs should not be rollout until such time that **the dti** has formulated a policy based on PC and NCOP recommendations on the matter
- 4.6.5.2 Legislation and NNS should be put in place that promote uniformity and co-operative governance

4.6.6 Online Gambling

- 4.6.6.1 Online gambling may include slot machines, tables and poker, bingo, sports betting and betting against totalisator. Any other form of gambling may be turned into Online gambling regime.
- 4.6.6.2 Online gambling needs a well coordinated policy-approach and as for now all forms of Online gambling should remain banned
- 4.6.6.3 Interactive gambling should be controlled at national level and provinces should receive revenues flowing from Online gambling as per agreed formula. NGB and PRAs must conclude MOUs on how revenue shall be proportionally distributed across the provinces
- 4.6.6.4 Recommended that it should be mandatory that service providers such as banks and payment agencies monitor payments and receipts related to Online gambling.
- 4.6.6.5 Recommended that the Minister should coordinate relevant departments on enforcement of Online gambling such as the Police, Finance and Communication

4.7 Other Matters

4.7.1 Consumer Protection

- 4.7.1.1 Recommended that the Minister through a legislation all slot machines, EBTs, LPMs and virtual racing terminals promptly display the actual odds of winning
- 4.7.1.2 The odds of winnings should be shown at eye level.

4.7.2 Intellectual Property (IP) Rights

- 4.7.2.1 National laws of IP should apply to sporting codes.

5. Conclusion

In order for the country to have successful uniform standards, it will be better to review or reform the gambling legislation at national and provincial level. This is so since the current regime per se is not geared to have norms and

standards that are outside the existing laws. These Norms and Standards may be adopted by Council and then sent to respective members for implementation at their levels. Timelines to effect changes to this effect can be imposed by Council.

Issues in the current policy and legislative framework	Issues that require policy intervention
1. National Gambling Policy Council needs to be empowered to make decisions that bind everyone without usurping the provincial powers to regulate their specific provincial needs. The rules envisaged by section 63(7) of the Act to govern the processes of meetings.	A State owned laboratory to test and certify gambling machines for compliance should be created. The NCRS should participate actively and this matter should be legislated.
2. It was previously proposed that the relationship between the National Gambling Board and the Provincial Regulatory Authorities will require a Memorandum of Understanding, but the dti is of the view that a legislative amendment is a preferred route.	A framework must be developed to ensure that the National Responsible Gambling Programme (NRGP) incorporates all aspects of problem gambling and that the system applies uniformly across all provinces.
3. The numbers of casino licences should be revisited to determine the continued suitability of 40 licences in the country; this should determine the number of casinos each province could afford in line with the socio-economic challenges faced by each province.	The current funding of the NRGP by licensees should be empowered by the Act to ensure enforceable controls and accountability.
4. Bingo regulation requires the amendment of the Act in line with the	Closer ties with other law enforcement agencies like the

Gambling Review Commission as critiqued by Parliament.	police should be improved to work in a form of task teams to eliminate illegal gambling.
5.	Horseracing industry requires thorough research to introduce legislative regulation of the sector.
6.	Policy framework should be developed to introduce Greyhound racing, Bush racing and Harness racing as well as the betting on these activities in order to ensure that all animal welfare concerns are minimised if not eliminated.
7.	There is an urgent need to roll out Electronic Bingo Terminals but in accordance with the policy and legislative interventions in 2013/2014. A National and Provincial team to be constituted in managing the development of the policy and legislation.
8.	Clear distinction must be drawn between interactive gambling (online casinos) and on line betting.
9.	There is a need to be a determination on how provinces could collect revenue or taxes on bets collected from non-licensing province; an agreed formula is required to distribute revenue proportionally across all provinces and the licencing control should be

	located nationally.

NOTICE 362 OF 2014

NATIONAL AGRICULTURAL MARKETING COUNCIL MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED (ACT No. 47 OF 1996)

REQUEST FOR THE CONTINUATION OF STATUTORY MEASURES RELATING TO LEVIES, REGISTRATION AND RECORDS & RETURNS IN THE RED MEAT INDUSTRY IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT

It is hereby made known that, in terms of section 10 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996) (MAP Act), the Minister of Agriculture, Forestry and Fisheries has received a request from the red meat industry for the continuation of statutory measures relating to levies, registration, the keeping of records and the rendering of returns. The Red Meat Industry Forum (RMIF), representative of most the role players in the red meat industry, applied for these statutory measures.

The current statutory measures for the red meat industry will expire on 4 November 2014. The RMIF requested ministerial approval for the continuation of these statutory measures for a new period of four years, from 5 November 2014 to lapse on 4 November 2018. In terms of this application, the red meat industry refers to role players involved in the production and marketing of cattle, goats, sheep and its products, as well as products purchased for processing.

The proposed statutory measures in the red meat industry will be administered by the Red Meat Levy Administrator (RMLA), which performed this role for the past few years. The proposed new levies will be as follows:

Notes:

- The amount payable by each meat trader outlet relates to each outlet *per se*, and is not applicable per meat trader outlet per specie.
- A 3% collection fee can be deducted from the collected levies by the abattoir before the levies are paid over to the Levy Administrator.
- Every import permit issued will attract a minimum of R871 (per container for the first year) statutory levy charge payable by the applicant. Where an import permit is issued for more than one container or load per consignment then each individual containers or load per consignment up to a maximum of 28mt will attract the R871 statutory levy charge payable by the applicant. Where a master import permit is issued the R871 statutory levy (for the first year) will be payable by the applicant for every multiple of 25mt.

Exclusion: Where an import permit is issued for the importation of samples, where the quantity to be imported is less than 200kg, then the statutory levy shall be waived for that import permit.

The estimated income from the proposed levies is between R32,0 million (for 2014/15) and R42,7 million per annum (for 2017/18). The proposed statutory levies will finance the following functions, namely –

- Consumer assurance;
- Consumer communication and education;
- Transformation and development;
- Research and development;
- Industry liaison;
- Production development;
- Compliance to legislation; and
- Administration.

The MAP Act stipulates that a statutory levy may not exceed 5% of the price released for a specific agricultural product at the first point of sale. The maximum of 5% must be based on a guideline price calculated as the average price at the first point of sale over a period not exceeding three years. The RMIF calculated the guideline price for cattle at R7 500 per head and the proposed levy of R7.81 per head from 5 November 2014, until 4 November 2015 equates to 0.1% of the guideline price. For sheep the guideline price was calculated at R927 per head and the proposed levy is R1.52 per head for the first year equates to 0.16% of the guideline price. Both the proposed statutory levies for cattle and sheep/goats of 0.1% and 0.16% of the guideline prices respectively, are well within the requirement of 5% as stipulated in the MAP Act.

The RMIF decided that the proposed statutory levies will be a proportional transaction based levy to ensure that all directly affected groups in the red meat value chain are making a contribution.

The purpose of the statutory measure relating to registration is to compel all relevant role players in the red meat industry to register with the Levy Administrator. The purpose of the statutory measure relating to records and returns is to compel all relevant role-players in the red meat industry to render records and returns to the Levy Administrator. By prescribing the keeping of records with the rendering of returns on an individual basis, market information for the whole of the industry can be processed and published. These statutory measures are necessary to ensure that continuous, timeous and accurate information relating to the designated animals slaughtered and their products, is available to all role-players. Market information is deemed essential for all role-players in order for them to make informed decisions.

The National Agricultural Marketing Council (NAMC) took cognisance that the proposed continuation of the statutory measures relating to levies, registration, the keeping of records and the rendering of returns in the red meat industry as requested by RMIF, is consistent with the objectives of the MAP Act. The request is currently being investigated by the NAMC and recommendations in this regard will be made to the Minister in the near future.

Directly affected groups in the red meat industry are kindly requested to submit any comments, regarding the proposed statutory measures, to the NAMC on or before 6 June 2014, to enable the Council to finalise its recommendation to the Minister in this regard.

Submissions should be in writing and be addressed to:

NOTICE 363 OF 2014

**APPLICATION FOR STATUTORY LEVIES ON WHEAT, BARLEY AND OATS IN TERMS OF THE
MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996
(ACT NO 47 OF 1996), AS AMENDED**

....

**INVITATION TO DIRECTLY AFFECTED GROUPS IN THE WINTER CEREAL INDUSTRY TO
FORWARD COMMENTS REGARDING THE REQUEST FROM THE WHEAT FORUM**

The current statutory measure regarding levies on winter cereals, as promulgated by Government Notice No. R.727 of 22 August 2010, will expire on 30 September 2014.

The Minister for Agriculture, Forestry and Fisheries and the National Agricultural Marketing Council (NAMC) received a request from the Wheat Forum, on behalf of the directly affected groups in the winter cereal industry, for the introduction and promulgation of statutory levies (VAT excluded), for the different winter cereal commodities for a one-year term, at the same rates than the past year, as indicated below:

Term	Wheat	Barley	Oats
1/10/2014 to 30/9/2015	R17 per metric ton	R16 per metric ton	R13 per metric ton

These levies will be payable on all winter cereal sold, imported, processed or converted, exported, and in respect of which a SAFEX silo receipt has been issued if the levy in respect of such a winter cereal has not been paid before.

Separate accounts will be administered in respect of levies collected on the above-mentioned commodities (namely wheat, barley and oats).

The categories of directly affected groups, which would probably be affected by the establishment of the proposed statutory levies, are those groups of persons who are party to the production, purchasing and processing of winter cereals, as well as to the consumption of winter cereal products in the Republic of South Africa.

The support for the proposed statutory levies on winter cereals by the different categories of directly affected groups in the winter cereal industry, as represented on the Wheat Forum, is evidenced by the letters received from organisations concerned.

The proposed statutory levies will apply to the whole of the Republic of South Africa in order to have a uniform system of levies, without the discrimination that would exist on requiring levies in certain areas and not in others.

According to the Wheat Forum, the purpose and aims of these statutory levies are to provide financial support in respect of the gathering and dissemination of information, as well as scientific research and transformation initiatives to the benefit of the winter cereal industry.

Support to the winter cereal information function

The maintenance of macro industry information is regarded as critical for strategic planning by the winter cereal industry, as well as by the directly affected groups individually.

In order for the market to operate effectively, the industry regards the provision of generic market information to all role-players, on a continuous basis, as essential. The SA Grain Information Service (SAGIS) has since its establishment been accepted, both nationally and internationally, as an objective and reliable supplier of information. Statutory levies are required to ensure that the winter cereal industry shares in the proper collection and dissemination of information by SAGIS.

Proper and accurate winter cereal market information, which is provided continuously and timeously, will increase market access for all participants and will promote efficiency in the marketing of winter cereals and winter cereal products. Winter cereal market information also enhances the viability of the winter cereal industry and the agricultural sector at large.

Market information further enhances food security by making available the information on national stock levels of winter cereals. The measure will not be detrimental to the number of job opportunities within the economy, or to fair labour practice.

Winter cereals and winter cereal products are annually exported to neighbouring countries. In record crop years it is also exported overseas. In order to achieve optimisation of export earnings, reliable market information is essential.

Support in respect of research on winter cereals

The agricultural sector is expected to ensure food security, strengthen the economy and promote social wealth by providing job opportunities in rural areas. This aim can be reconciled with the provisions of section 2(3) of the Act. In order to achieve these aims the agricultural sector is dependent on continued research.

According to experts in the field of research the successful performance of the South African agricultural sector, despite the lack of high-potential arable land, could to a great extent be attributed to the development and application of agricultural research results. The complex interaction between changing behavioural patterns in crops and external factors that are affecting them, such as diseases and pests, often impact negatively on production and quality, thus creating an urgent demand for new technology in order to keep the agricultural sector profitable. Account is also continually taken of consumer preferences within the market.

With regard to research on winter cereals, specific research infrastructure has been created over time. It is essential that this infrastructure, created by contributions from the winter cereal industry, is retained and maintained to the benefit of the industry.

The development of new cultivars with improved quality and yield characteristics constitutes an important part of research undertaken by various organisations. The continuous development of new cultivars is indispensable to the sustained production of winter cereals in South Africa.

Support for transformation initiatives

The Winter Cereal Trust has endeavoured to increase funding for transformation initiatives over the years. The Trust mainly focuses on the consideration of projects to assist emerging farmers by providing financial assistance in respect of the following:

- initial soil correction through the acquisition and application of lime, which includes the cost of soil analysis; plus
- payment of all or a portion of the crop insurance premiums on behalf of the farmers; plus
- payment of a portion of the cost of an extension officer (or experienced commercial farmer who acts as mentor) for the specific farmers.

A specific budget is allocated to each project and the Trust makes its contributions through the Grain Farmer Development Association (GFADA).

Deliberations regarding continuation of winter cereal levies

In its deliberations regarding the continuation of the wheat levy, the Wheat Forum took cognisance of the following:

- An increase in research applications have been experienced by the Winter Cereal Trust over the past years.
- The guidelines of the National Agricultural Marketing Council (NAMC) regarding the utilisation of statutory levy funds, which currently stipulate that at least 20% of levies collected should be used for transformation projects.
- Levy funds are required to partly compensate for the diminished funds for research and also to make provision for new research projects to be funded.
- The calculation for continued levies and the budget of the Winter Cereal Trust are dependent on Government continuing to fund its proportion of winter cereal research.
- According to the Wheat Forum, the continuation of statutory levies on winter cereals is also dependent on clarity being obtained regarding the Marketing of Agricultural Products Amendment Bill, as some of the provisions thereof may impede negatively on the industry. For this reason the continuation of levies is requested for only one year and not for four years as before. This will allow the industry the opportunity to get clarity on the Amendment Bill and to investigate possible alternatives for the funding of important industry functions.

The proposed levies could amount to an income of approximately R53 million. The Administration of the Winter Cereal Trust will be responsible for the collection and for the administration functions associated with the statutory levies requested. The Board of Trustees have appointed specific persons to carry out these functions. These persons are designated and authorised by the Minister as inspectors to perform the functions referred to in Section 21 of the Act. Annual audits will be executed by the Auditor-General.

As the proposed statutory levies are consistent with the objectives of the Marketing of Agricultural Products Act, the NAMC is investigating the possible implementation of the relevant statutory levies to report back to the Minister.

Directly affected groups in the winter cereal industry are kindly requested to submit any comments or objections regarding the proposed statutory levies to the NAMC in writing (fax 012 341 1911 or e-mail lizettem@namc.co.za) on or before 6 June 2014, to enable the Council to formulate its recommendation to the Minister in this regard.

NOTICE 364 OF 2014

AMENDED APPLICATION FOR STATUTORY MEASURES (REGISTRATION, RECORDS AND RETURNS) RELATING TO MAIZE PRODUCTS, WHEATEN PRODUCTS AND ANIMAL FEED, IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT, ACT NO 47 OF 1996

....

INVITATION TO DIRECTLY AFFECTED GROUPS IN THE GRAIN INDUSTRY TO FORWARD COMMENTS REGARDING THE REQUEST FROM THE MAIZE AND WHEAT FORUMS

The National Agricultural Marketing Council (NAMC) received an amended request from the Maize and the Wheat Forums, on behalf of directly affected groups in the grain industry, for the introduction and promulgation of statutory measures, namely registration and the keeping of information and submitting monthly returns in respect of maize products, wheaten products and animal feeds.

The proposal entails that the South African Grain Information Service (SAGIS) will be responsible for the registration, as well as the collection, dissemination and distribution of the information associated with the statutory measures that are requested. SAGIS has been established as an objective and reliable provider of information, both nationally and internationally.

The two Forums agreed to propose that all manufacturers, importers and exporters of animal feed, maize products and wheaten products shall register with SAGIS, and keep complete records for each calendar month in respect of animal feed, maize products and wheaten products manufactured, imported or exported for commercial purposes. Furthermore, that the same role players mentioned, should within 10 working days from the end of each calendar month, submit to SAGIS an accurate prescribed return in respect of animal feed, maize products and wheaten products manufactured, imported or exported. Every seller and exporter of animal feed should also within 10 working days from the end of each calendar month submit to SAGIS an additional accurate prescribed return in respect of animal feed raw materials added to or used in the production or manufacturing of animal feed. The same apply to any person who acts in the capacity of the role players mentioned above. (The registration of sellers and the rendering of information on animal feed, maize products and wheaten products sold are excluded from the amended application).

“Animal feed” means the following categories of feed intended for consumption by animals, including any other feed which contains raw materials: Aquaculture Feed, Beef Feed, Breeder Feed, Broiler Feed, Dairy Feed, Dog Food, Horse Feed, Layer Feed, Maize-free Feed, Ostrich Feed, Other Feed, Pig Feed, and Sheep Feed.

“Raw materials” means the raw materials listed in the Annexure to this Schedule, when used in the production or manufacture of animal feed.

"Maize product" means the following products derived from maize: Maize Chop, Maize Rice, Maize Grits, Samp, Sifted Maize Meal, Special Maize Meal, Super Maize Meal, Unsifted Maize Meal, and other Maize Products that are intended for human consumption.

"Wheaten product" means the following products derived from wheat: Brown Pan Baked Bread (400g/600g/700g/other), White Pan Baked Bread (400g/600g/700g/other), Whole Wheat Pan Baked Bread (400g/600g/700g/other), other Pan Baked Bread, Brown Bread Flour, White Bread Flour, other Bread Flour, Self-Raising Flour, Bran, Cake Flour and Meal.

There is currently no statutory measure regarding the registration of manufacturers, importers and exporters of animal feed, animal feed raw materials, maize products and wheaten products, nor any statutory measure to compel the keeping of records and submission of returns in respect of such products. The information to be obtained in terms of the statutory measures is deemed to be essential for the market to operate effectively.

Information on the manufacturing, import and export of maize products, wheaten products and animal feed is crucial for the effective operation of the maize and wheat markets and for market participants to be able to plan properly. The supply of generic market information to all role players, on a continuous basis, is therefore essential. The maintenance of macro industry information is regarded as critical for strategic planning by the maize and wheat industries, as well as for individual directly affected groups.

The statutory measures, if approved by the Minister of Agriculture, Forestry and Fisheries, will come into operation on the date of promulgation for a period of four years.

Directly affected groups in the grain industry are kindly requested to submit any comments regarding the proposed statutory measures to the NAMC in writing (fax 012 341 1811/ 012 341 1911 or e-mail to lizettem@namc.co.za) before or on 6 June 2014, to enable the Council to formulate its recommendation to the Minister in this regard.

REPUBLIC OF SOUTH AFRICA

POLICY DOCUMENT ON THE PROPOSED AMENDMENTS OF
THE STATUTORY REGULATORY FRAMEWORK OF THE BUILT
ENVIRONMENT PROFESSIONS

January 2014

PREAMBLE

As members of the fourth democratically elected Government of the Republic of South Africa, it remains our duty, perhaps with an ever increasing sense of urgency, to mobilize all the resources of our country to better the lives of our people.

The deployment of human capital and professional expertise remains an important cog in the wheel that must continue to turn to realize a country that is free from hunger, decreasing levels of poverty, growing opportunities, and growth is a way of life. Professional expertise remains a national asset that must be managed as a high value scarce resource. It remains Government's policy that professions must be regulated from within and aligned to Government's overall policies and its national agenda.

In 1994, the Hon Mr JT Radebe, MP, then Minister of Public Works, commenced the process to align the regulation of the Built Environment Professions (BEP), of architects, landscape architects, engineers, property valuers, project and construction management and quantity surveyors by reviewing the merits and demerits of existing regulation and introducing new regulations. This process culminated, in 2000, with the promulgation of seven pieces of legislation, six Acts each regulating the Built Environment Profession through the establishment of statutory Councils, while the seventh established the Council for the Built Environment as an over-arching body.

Over the past decade the built environment grappled with a host of issues linked to the shortcomings of the regulatory environment, the need to organize professions to serve the imperatives of Government, including transformation, public protection, good governance, etc.

After consulting key stakeholders, drawing on the past experiences in the built environment, and regulators of other regulated professions, this policy document is published for public comment to elicit the views of the public and stakeholders at large.

1. INTRODUCTION

The regulation of the Built Environment (BE) under the democratic Government began in 2000 with the enactment of the:

- a) Council for the Built Environment Act, 2000 (Act No 43 of 2000);
- b) Architectural Profession Act, 2000 (Act No 44 of 2000);
- c) Landscape Architectural Profession Act, 2000 (Act No 45 of 2000);
- d) Engineering Profession Act, 2000 (Act No 46 of 2000);
- e) Property Valuers Profession Act, 2000 (Act No 47 of 2000);
- f) Project and Construction Management Professions Act, 2000 (Act No 48 of 2000);
and
- g) Quantity Surveying Professions Act, 2000 (Act No 49 of 2000).

The Council for Built Environment (CBE) and the six Professional Councils came into existence in September 2001.

In 2003, the Department of Public Works (DPW) commissioned a study entitled "*The Role of the Built Environment Professions in Enhancing Construction Industry Development in South Africa*"; as part of the DPW's mid-term policy review of the BEPs. Both the CBE and the BEPCs participated and were required to provide feedback on:

- a) the progress by Councils towards the implementation of policy,
- b) constraints faced by the Councils in implementing policy,
- c) policy and legislative constraints that inhibit the Councils in implementing policy; and
- d) future actions required from the DPW to enable the implementation of policy.

Since the above study, the ongoing interaction between the DPW, CBE and the BEPCs, led to the establishment of a task team in 2011 to identify possible solutions to the challenges encountered in the BE. The challenges identified were broadly within the regulatory and organizational environment. Various options to address the challenges were advanced and this document puts forward the option the DPW deemed as most appropriate.

2. THE PRESENT REGULATION OF THE PROFESSIONS

The current legislative framework for the BEPs envisaged “self-regulation” by the professions to ensure quality and development within the professions, whereas Government fulfills the role of providing general policy direction to the professions as well as ensuring the professions contribute to Government’s imperatives.

The CBE, as an umbrella body for the BEPCs, is responsible for discharging the following legislative mandate and Government policy:

- a) Transforming the BEPs to deliver on the needs of society in South Africa based on international competitive practices, while reflecting the composition of the South African society through the co-ordination of skills development;
- b) protecting the public against unsafe practices in the Built Environment and ensuring good governance in the provisioning of professional services related to the Built Environment by practitioners in both the public and private sectors;
- c) ensuring uniform implementation of Government’s policies among BEPCs that govern the various BEPs;
- d) advise Government on issues related to the Built Environment Professions; and
- e) promote ongoing human resource development in the Built Environment.

The Professional Councils, on the other hand, are autonomous bodies that fulfill the role of self-regulation of the various professions. The current legislation establishes statutory Councils, responsible for:

- a) All matters relating to the registration of professionals with the respective Professional Councils, including determining the categories in which persons may register in the Built Environment in question;
- b) all matters relating to accreditation of educational institutions;
- c) determining and identifying the work, which may be performed by persons registered in terms of the applicable profession’s legislation and registration categories;
- d) maintaining professional standards and holding inquiries into complaints regarding the professional conduct of registered persons;
- e) taking any steps it considers necessary to protect the public;
- f) providing the CBE with such reports as the latter may require to discharge its statutory functions and duties; and
- g) developing codes of conduct to which all registered persons must abide.

3. PRINCIPLES OF THE REVIEW

The review of the current regulatory framework of the BE is structured within the principles of transformation, public protection, integrity of the professions, and good governance.

The BEPCs must safeguard the highest standards of quality to guarantee safety in the built environment. It is thus critical that professionals provide quality and reliable services with public health, safety and welfare as their primary consideration. This is achieved through, among others:

- a) Establishing standards for registration and performance;
- b) assessing competency of BEPs;
- c) authorizing the performance of designated activities;
- d) publishing and enforcing uniform code of practice; and
- e) robust dispute resolution mechanisms.

The integrity of the BEPs must be entrenched to instill public confidence in the industry, recognized through good governance, reliability, quality output, transparency, and accountability. Integrity is instituted through conformity to national and international standards endorsed by professional bodies to which professionals ascribe.

Government's national policy priorities are linked directly to its objectives of poverty eradication, job creation, and reduced inequality. A central theme embedded in the achievement of national priorities is that of transforming society by redressing historically skewed ownership, employment, skills, and other patterns. The BEPs have a central role to play in redressing the afore-mentioned.

The above principles condense the essential objectives of a regulator of any profession and the challenges in the BE, identified by the DPW, are addressed from this perspective.

4. CHALLENGES OF THE PRESENT REGULATORY FRAMEWORK

(a) Poor cooperation linked to legislative inadequacies

It is anticipated that the CBE would co-ordinate and facilitate the implementation of policy within the BE. However, like the CBE, each BEPC has its own independent Council accountable to the Minister of Public Works. Further, no mechanisms exist that oblige the BEPCs to act in synchrony on any matter. Thus, on matters that BEPCs do not consider important or where they disagree with the CBE, the BEPCs reinforce their independence from the CBE, thus inhibiting the CBE from effectively discharging its mandate. The prevailing legislative environment does not ensure synergy and uniformity in the implementation of policy amongst the BEPCs.

(b) Accountability

The BEPCs are established through legislation and in terms of the PFMA are defined as public entities established to maintain professional competence, protect the public, register professionals, and encourage growth of the profession. The BEPCs, although appointed by the Minister of Public Works to perform a regulatory role, perceive themselves as completely independent of the State, representing the professionals. Instead of seeking a mandate from the Minister of Public Works, the BEPCs seek their mandate from the professionals.

(c) Governance

Professional Councils raise fees through applications, registrations and services offered by the Professional Councils. They are empowered by legislation to raise such fees and thus such fees are public funds. Therefore, the BEPCs ought to comply with the Public Finance Management Act of 1999. Currently they do not and to a large extent there is resistance to do so.

Further, the majority of the Council members on the CBE are nominated from the BEPCs. Once appointed as members to the CBE, these members are required to act in the best interest of CBE and perform their fiduciary duties accordingly. To the contrary, it is found that members nominated by the BEPCs tend to conduct themselves as representatives of the BEPCs, each with their competing interests, leading to the paralysis of CBE.

(d) Alignment to Government policy planning

Currently there is poor alignment in policy planning and implementation between the DPW, the CBE and the BEPCs. The BEPCs, unlike the CBE, are at arm's length from the DPW and therefore are not privy to the debates and decisions taken by the DPW, thus hindering the implementation of the DPW's policy decisions by Professional Councils. This leads to the disjuncture in the business plans of Professional Councils and that of the DPW. The former have not embedded in their business plans their contributions to Government's national priorities.

(e) Oversight

The BEPCs are not monitored on a regular basis to ensure the extent to which they are implementing their respective legislative mandates. They do not participate in the quarterly meetings between the Minister and the DPW's other Public Entities. The CBE, as the "overarching council", represents the BEPCs at the meetings. Thus, through practice and design, there has been prolonged deficient oversight of the BEPCs in the implementation of policies and their legislative mandates by the Executive Authority.

(f) Transformation

After 19 years of democracy, the number of previously disadvantaged individuals registered as professionals across the BEPs is dismally low – averaging under 25%. While this is a product of many factors, which Government is addressing, it is also the outcome of scarcity of innovation by respective BEPCs to address the impediments encountered by previously disadvantaged individuals to register as professionals. For example, there are limited opportunities for graduates to get practical training, resulting in a lapse in time before the graduates enter the labour market. Hence, historic inequalities at educational institutions and socio-economic disparities ought to be challenges the BEPCs address, in partnership with all relevant stakeholders.

(g) Funding of mandates

The BEPCs, particularly those with low levels of registration experience great challenges to implement their legislative mandate as they do not generate sufficient revenue from registration fees to sustain themselves. The costing of mandates is essential to provide insight into shortfalls and the remedial measures to be implemented.

(h) Non- compulsory Registration

The current legislative framework requires a person to register with the respective BEPCs in order to practice in the profession. However it is observed that graduates with BE qualifications, whether registered as candidates or not, when employed and working under a registered professional, with the latter signing off the final output, lack the urgency to pursue professional registration. This practice avoids the legislative requirements of registration and deprives the BEPCs of registration fees.

(i) Investigations of complaints

The BEPCs are required to investigate complaints relating to professional misconduct as submitted by the public. The investigations must be comprehensive and conducted in a transparent manner to maintain public confidence that BEPCs are effective and competent in protection of the public. However, the costs of investigating complaints against professional have hindered BEPCs from effectively discharging this legislative mandate.

5. OPTION ANALYSIS

Following the engagements between the DPW, the CBE and the Professional Councils, three options were advanced. The options are as follows:-

Option 1: A single CBE with six Professional Boards

This option provides for the establishment of a super council that replaces the CBE. The six Professional Council Acts be repealed and BEPCs converted to Professional Boards that report to the Council. It restructures the current system to provide for standardised regulation of the Built Environment. The option was not supported by the BEPCs, National Treasury and the Department of Science and Technology.

Option 2: The CBE and six Professional Councils (amending legislation)

Option 2 reflects the current situation. This option proposed that the Minister would continue to regulate the CBE and the BEPCs – maintaining the current flat structure remains. This option provides for the BEPCs to report through the CBE, but they cannot be accountable to the CBE as the BEPCs remain regulatory instruments of the Minister of Public Works. Given that the relationship between the CBE and the Professional Councils is perceived as unclear, legislative amendments are required to clearly define the roles and responsibilities of the CBE and the BEPCs. This is a tedious exercise. However, as this option largely maintains the *status quo*, many of the current challenges, particularly with regard to accountability and aligned processes, may still be experienced. This option may not be ideal for the above-mentioned reasons.

Option 3: Relocate the function of the CBE to the DPW

The Minister of Public Works will directly regulate the Built Environment Professions and entrench the DPW's shareholder role. The CBE's promotional, facilitation and coordination role over BEPCs will be relocated within the DPW, leading to improved synergy between the DPW and the Professional Councils.

The operationalization and institutionalization of the DPW's oversight across the BEPCs will be determined through a comprehensive business case, post the approval of this policy.

This is the preferred option.

6. POLICY RECOMMENDATIONS

To arrest the above challenges and drive Government's national priorities, it is recommended that the Council for the Built Environment Act, 2000 (Act No 43 of 2000) be repealed. The CBE's function be transferred to the DPW.

The DPW will address the issues of:

- a) Alignment to Government policy planning and national imperatives – through a direct mandate from the Minister of Public Works, it making the DPW better placed to guide and direct the BEPCs on Government policy and national imperatives.
- b) Governance – in this regard there will be no competing interests or conflicting views that would impede the DPW from executing actions or tasks.
- c) Accountability – BEPCs will report directly to the DPW.
- d) Poor cooperation – cooperation will be enhanced through amendments to the legislation of the BEPCs to clearly define roles and responsibilities between the BEPCs and the DPW.
- e) Oversight – The DPW will be in good stead to oversee alignment in the implementation of the legislation and of Government's priorities through a direct mandate from the Minister of Public Works and the amended legislation of the BEPCs.
- f) Procedural matters related to professionals gaining international recognition.
- g) Serving as the body for appeals for any person aggrieved by any decision taken by a BEPC.
- h) Ensuring consistent application of policy by the BEPCs and inform the Minister of Public Works of any inconsistencies.

The Acts regulating the BEPCs will be amended, where necessary, to improve governance and accountability, while clearly spelling out their responsibilities. The BEPCs will retain autonomy on matters related to the BEPs.

In the main the BEPCs will be responsible for:

- a) All matters relating to the registration of candidates and professionals with the respective BEPC;
- b) consulting and liaising with other Professional Councils and authorities on matters affecting the BEPCs;
- c) subject to the provisions of national legislation, controlling and exercising of authority of any profession falling within the ambit of the BEPC;
- d) consultation with the Council on Higher Education, established in terms of the Higher Education Act, 1997 (Act No 101 of 1997), regarding matters relevant to education in the professions;
- e) recommending to the Minister of Public Works any matter falling within the scope of any BEP;

- f) making recommendations to the Minister of Public Works on matters of public importance acquired by the BEPC in the course of the performance of its functions;
- g) maintaining and enhancing the dignity of the profession and the integrity of the persons practicing such a profession;
- h) guiding the profession and to protect the public interest;
- i) all complaints lodged against registered persons and/or related processes as well as appeals thereof;
- j) complying with the requirements of the PFMA; and
- k) subject to other national legislation, a BEPC has the power to:
 - i. Conduct accreditation visits to any educational and/or training institution, which has a department, school or faculty of a profession falling under the ambit of the BEPC concerned;
 - ii. either conditionally or unconditionally grant, refuse or withdraw an accreditation with regard to all educational and/or training institutions and their educational *curricula* or training programmes with regard to the profession;
 - iii. determine competency standards for the purpose of registration in the profession;
 - iv. establish mechanisms for professionals to gain recognition of their qualifications and professional status in other countries;
 - v. maintain a register of professional persons;
 - vi. investigate complaints lodged against professional persons;
 - vii. act against professional persons when found to have acted contrary to legislation and any codes of good practice prescribed by the Professional Council; and
 - viii. determine Identification of Work for any of its categories of registration and work that falls within the scope of any other profession regulated by Built Environment Professions Acts.

An aggrieved party to any decision of a BEPC must lodge an appeal to the DPW, which will establish an *ad-hoc* committee to investigate and make a ruling, subject to compliance to any national legislation.

7. CONCLUSION

In order to give effect to the principal changes as set out above, the CBE Act shall be repealed and CBE's functions be transferred to the DPW. The legislation regulating the BEPs will be amended to improve accountability and governance while maintaining a streamlined and efficient BE that is geared to Government's development goals.

The purpose of this policy document is to stimulate discussion and solicit comments from interested parties on the proposed changes in Government's policy of regulating the BEPs.

NOTICE 375 OF 2014**INTERNATIONAL TRADE ADMINISTRATION COMMISSION****CUSTOMS TARIFF APPLICATIONS****LIST 05/2014**

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comments on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>.

These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- Each instance where confidential information has been omitted and the reasons for confidentiality;*
- A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).

Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

INCREASE IN THE RATE OF CUSTOMS DUTY ON:

Paper and paperboard coated, impregnated or covered with plastic classifiable under tariff subheading 4811.59.90; and other paper, paperboard, cellulose fibres classifiable under tariff subheading 4811.90.90 from free of duty to 5% ad valorem by creation of additional 8-digit tariff subheadings, as follows:

NOTICE 378 OF 2014**GENERAL NOTICE IN TERMS OF THE RESTITUTION OF LAND RIGHTS
ACT, 1994 (Act 22 No. 22 of 1994)**

WHEREAS The Prudhoe community lodged a claim which was published in terms of Section 11 (1) of the Restitution of Land Rights Act, No 22 of 1994 ("the Act")

And

WHEREAS during investigation of the land claims, the office of the Regional Land Claims Commissioner: Eastern Cape Province has a reason to believe that the notice contained an incorrect extent of the property

NOTICE: is hereby given in terms of Section 11A (1) of the Act that at the expiry of 21 days the notice of a claim previously published under section 11 (1) of the Act in Government Gazette Notices mentioned below will be withdrawn unless cause the contrary is shown to his satisfactory.

The details of the Government Gazette Notice 2650 of 2002 in the Government Gazette No. 23996 of 08th November 2002 relates to the following

REFERENCE	: 6/2/2/D/1004/0/0/34
CLAIMANT	: Prudhoe community
PROPERTY	: Portion 1 of Farm 203
DISTRICT	: Peddie
MEASURING	: 358.5157h
DEEDS OF TRANSFER	: T 36864/76
DATE SUBMITTED	: 31 December 1998
BONDHOLDER	: None
CURRENT OWNER	: Republic of Ciskei

The reason why the office of the Regional Land Claims Commissioner believes that the notice must be withdrawn:

- (a) During the processing of this claim some properties were left out as the office was not aware that this claim was competing with another one.
- (b) Therefore the aforementioned Gazette be substituted with the one pointing to the subject matter as referred by a letter dated 06 May 2013
- (c) And also the matter is still going to court for another round of adjudication.
- (d) A meeting was held with Prudhoe community in trying to explain this withdrawal of Gazette Notice they understood and agreed that the office must proceed.

NOTICE is further given that at the expiry of the aforesaid 21 days period; the office of the Regional Land Claim shall, unless cause to the contrary has been shown to his satisfaction, withdrawn the notice of claim in accordance with provisions of Section 11 (3) of the Act.

Explanatory Note -

[] Words in bold type in square brackets indicate proposed deletions from the existing Rules.

____ Words underlined with a solid line indicate proposed insertions in the existing Rules.

RULE 3: ANNUAL GENERAL MEETINGS

Amend Rule 3(c), (e) and (g) and add paragraph (h) as follows:

"(c) Notice of every annual general meeting shall be posted via conventional or electronic means by the Secretary to each member of the Society at least 49 days before the date of the meeting."

"(e) The President's report on the events of the preceding year shall be posted via conventional or electronic means by the Secretary to each member of the Society at least 21 days before the date of the meeting. The report shall contain or be accompanied by the audited financial statements of the Society, and a list of Councillors indicating the number of meetings attended by each Councillor during the year."

"(g) Notice in writing of any special business which a member wishes to have considered at the annual general meeting shall be given to the Secretary at least 32 days before the date of the meeting. Such notice shall contain the motion to be proposed. Notice of such special business shall be posted via conventional or electronic means to each member by the Secretary at least 21 days prior to the date of the meeting."

"(h) Section 23 of the Electronic Communications and Transactions Act 25 of 2000 as amended is applicable to posting via electronic means."

RULE 15: DISCIPLINARY RULES

Amend Rule 15(a) by adding the following new sub-rule (iii) as follows:

"(a) (i) The Council may itself exercise the disciplinary powers set out in the Act, or it may assign all or any such powers to a complaints committee or committees or to an ad hoc enquiry committee or committees appointed by it in terms of Rule 10;

(ii) subject to the provisions of section 71 of the Act and to any resolution of the Council, the Chairman of a complaints committee shall determine the manner in which it shall discharge its duties.

(iii) Notwithstanding the provisions of Rule 15 (a)(i), the Council shall be entitled to review and/or set aside any decision of a complaints committee."
