**Attention: Officials Responsible for Public Transport Regulation
Municipal Sphere of Government**

Request to provide directions on operating licence applications

1. The National Land Transport Act (Act 5 of 2009)(NLTA) requires the establishment of three requisite entities to receive and decide public transport operating licence applications. The act further requires the MEC for Transport in every province to disestablish the Provincial Operating Licence Board and to establish a Provincial Regulatory Entity (PRE). The functions of the board must be transferred to the new entity. In line with this provision, the Western Cape POLB was disestablished on the 30th of June 2011 and the PRE was brought into operation on the 1st of July 2012. The PRE is currently also performing the functions of the National Public Transport Regulator (NPTA) and the situation will prevail until this requisite entity is established.
2. The promulgation of the NLTA has also brought about a significant change in land transport arrangements with the devolution of key transport functions to the municipal sphere of government. The purport of the NLTA is further to migrate from a supply-driven to a demand-driven public transport system based on plans.
3. In terms of section 36 of the NLTA, each municipality must produce an Integrated Public Transport Plan. This document must be updated annually to respond to changes in the supply and demand of public transport services. Even in cases where this plan has not been prepared, updated or approved, the municipality may still proceed with a certain action provided it is based in sound transport planning principles (section 93). All state departments are also bound by the provisions of Integrated Transport Plans.
4. The NLTA further requires the PRE to refer applications for operating licences to the relevant planning authority in writing with the request to provide directions with regards to such applications (Section 55/Regulation 2/6). Where there is a need in terms of the Integrated Transport Plan (ITP) for the area, the planning authority must direct the PRE to grant the application. Where the public transport requirements for a particular route is already adequately served by another public transport service of a similar nature, standard or quality, the planning authority must direct

the PRE to refuse the application. In disposing of such applications, the PRE must act according to the directions of the planning authority and the ITP for the area.

5. Although provision is made in section 55 of the NLTA for the PRE to take an independent decision if no input is received from this planning authority, this is not considered ideal. We realise how important it is for our decisions to be aligned to the ITP's for the respective municipal areas and we need to develop a symbiotic working relationship. Unilateral decision-making invariably results in conflict, which the municipality ultimately has to deal with.
6. **I enclose a list of applications which will be published in the government gazette in terms of section 59 of the NLTA. These applications were received by the PRE and have to be disposed of within 60-days (from the date of application). As prescribed by section 55 of the NLTA (read together with regulation 2/6 of the National Land Transport Regulations), we are hereby referring these applications to your department with the request to provide directions with regards to the applications. We are not intimately familiar with the demarcation/boundaries of municipal areas and you will notice that the attached document contains applications for various municipal areas. Please peruse this document and identify applications where passengers will be picked or set down in your municipal area.**
7. You are requested to provide directions with regards to the following applications:
 - Where services will be rendered wholly in your area;
 - Where either the origin or destination point is within your municipal area; or
 - Where passengers will be picked up or set down in your municipal area.
8. In terms of regulation 2/6 of the National Land Transport Regulations, the planning authority has a maximum of 30 days to provide directions with regards to the application(s). If you are able to provide the required directions in a shorter time period, this will be highly appreciated. This will allow the PRE to make an informed decision and to dispose of the application summarily.

Your co-operation in this regard will be highly appreciated.

Kind regards

Mark Llewellyn Skriker
