DECIDUOUS FRUIT INDUSTRY**APPLICATION FOR THE IMPLEMENTATION OF STATUTORY MEASURES ON STONE
AND POME FRUIT****NAMC REQUESTING COMMENTS / INPUTS FROM INDUSTRY ROLE PLAYERS**

The Minister of Agriculture, Forestry and Fisheries received a request from Hortgro, on behalf of the SA Apple and Pear Producers Association (SAAPPA) and the SA Stone Fruit Producers Association (SASPA), for the continuation of statutory measures (registration, records & returns and levies) on pome fruit (apples and pears) and stone fruit (plums, peaches / nectarines and apricots) in terms of the Marketing of Agricultural Products Act (MAP Act) 1996.

Hortgro requested that the proposed statutory measures be approved for a new 4 (four) year period with effect from 1 October 2015 and lapse 4 (four) years later.

The following statutory measures are currently in place on pome and stone fruit, namely:

- **The statutory measures on all export and domestic volumes of pome and stone fruit:**
Payment of levies in terms of Section 15 of the MAP Act;
Keeping of records and returns in terms of Section 18 of the MAP Act; and
Registration of persons in terms of Section 19 of the MAP Act.
This measure lapse on 30 September 2015.
- **The market development statutory levy on export stone fruit:**
Payment of a levy in terms of Section 15 of the MAP Act.
This measure lapse on 7 March 2015.
- **The market development statutory measure on export pome fruit:**
Payment of a levy in terms of Section 15 of the MAP Act.
This measure lapse on 1 March 2016.

In terms of registration and records & returns, it is argued that the maintenance of macro industry statistics and market information is critical for long-term planning relating to production, orderly marketing and infrastructural capacity by the industry (producers and exporters), Government and service / input suppliers.

According to Hortgro, the registration, in terms of section 19 of the MAP Act, of producers, exporters, importers, and the trade and juice plants will ensure the availability and provision of continuous, timeous and accurate information relating to the products and adherence to sound fruit handling discipline and protocols, business principles and ethical trading as well as to administer the requested statutory measures.

Furthermore submitting records and returns, in terms of section 18 of the MAP Act, will ensure the availability and provision of continuous, timeous and accurate information relating to the products indicated above, to all stakeholders in the industry deemed to be essential to ensure informed decision making and a stable and profitable industry.

Hortgro indicated that no records or returns shall be required in terms of this measure which discloses confidential information of a marketing nature, and in particular, no returns disclosing, *inter alia*, contracting parties; purchasers of fruit; prices of services or the prices obtained for fruit, or any similar information.

The payment of the levy, in terms of section 15 of the MAP Act, will be used to finance the following:

- Research projects, information and technology transfer;
- Plant improvement, certification and cultivar development;
- Market information, statistics and logistical efficiencies;
- Trade and market access issues;
- Communication;
- Transformation and training; and
- Administration.

The utilisation of levies will continue to be aligned with the guidelines and directives of the NAMC with annual reporting to the NAMC and the Auditor General.

The proposed levy amounts:

a) Pome fruit (Apples and Pears)

	Current	2015/16	2016/17	2017/18	2018/19

* The proposed levy amounts remains the same and is not increased for the new period 2015 – 2019.

Directly affected groups (e.g. agents, certification bodies, exporters, export inspection bodies, fresh produce markets, importers, producers and traders) in the pome and stone industry are kindly requested to submit any comments, in writing, regarding the proposed statutory measures, to the NAMC on or before 21 February 2015, to enable the Council to finalise its recommendation to the Minister in this regard.

1. PREAMBLE

The Constitution of the Republic of South Africa (RSA) Act 108 of 1996 recognises 11 official languages; recognises the historically diminished use and status of indigenous languages and requires of the State to take practical and positive measures to elevate the status and advance the use of these languages. The Constitution further requires all official languages to enjoy parity of esteem and to be treated equitably.

To this end, the Official Use of Language Act 12 of 2012 was promulgated to, inter alia, provide for the regulation and monitoring of the use of official languages by national government for government purposes, to require the adoption of a language policy by a national department, national public entity and national public enterprise and the establishment of a language unit for a national department, national public entity and national public enterprise.

1. Notice is hereby given in terms of section 10(6)(a) of the Competition Act, No 89 of 1998, as amended ("the Act") that Air Berlin PLC & Co. Luftverkehrs KG ("Air Berlin") and Etihad Airways PJSC ("Etihad"), have applied to the Competition Commission ("the Commission"), in terms of section 10(1) of the Act, to be exempted from certain provisions of Chapter 2 of the Act. Both Air Berlin and Etihad operate in the air travel industry and provide passenger and cargo air transportation services internationally. They submit this exemption application as joint applicants hereinafter referred to as (the "applicants").
2. Both Air Berlin, a foreign entity of Germany and Etihad, a foreign entity of the United Arab Emirates ("UAE"), will under the proposed alliance with each other (as detailed below), operate activities that hold effect in the Republic of South Africa. Section 3(1) of the Act stipulates that the Act "applies to all economic activity within, or having effect within the Republic", and as such covers conduct that the applicants seek an exemption for.
3. The subject matter of the application is an alliance between Air Berlin and Etihad, incorporating a codeshare agreement which will cover routes between Germany, Austria, Switzerland and the Middle East and South Africa¹, a commercial co-operation agreement, a commercial representation agreement and a prorate agreement which will govern the commercial relationship between the applicants.
4. The scope of the alliance will cover flights with Etihad's code on Air Berlin operations from points in Germany, Austria and Switzerland on the one hand and Air Berlin's code on Etihad from points in UAE, as well as beyond and across each other's

¹ The applicants currently offer services to Johannesburg in terms of the codeshare agreement. They intend to expand their services to include flights from Germany to other destinations within South Africa.

networks, limited only by bilateral constraints. Air Berlin will enter the market for the supply of passenger airline travel services as well as belly freight services from Germany and the Middle East to South Africa. The cooperation will enhance Etihad's presence in the Middle East and Europe.

5. Specifically, the applicants have requested from the Commission that they be exempt from the following activities as shall arise from the alliance:

5.1 Reciprocal, preferred and enhanced fare proration on shared services;

- o The alliance will enable the applicants to align their airfares, and eliminate the costs resultant of double marginalization as would otherwise occur without the exemption. Double marginalization essentially involves each carrier applying its own mark-ups to prices.

5.2 Joint pricing and schedule co-ordination on shared routes

- o The alliance will involve the applicants' collaboration on their pricing for the trunk routes and associated routes. Joint pricing will result in more competitive fares as a result of the reduction in double marginalisation which would result if each carrier was pricing independently from each other. The gains for the airlines would also be by way of lower average costs owing to higher load factors.

5.3 Joint route and schedule co-ordination

- o The alliance will enable Air Berlin to offer services to South Africa through connections from Abu Dhabi (on flights operated by Etihad). In doing so, stimulating competition with the current carriers that operate in South Africa providing a cost-effective schedule to ensure greater frequencies and expanded operations between the trunk routes. The greater frequencies will contribute to airline sustainably and competitiveness against larger (and often dominant) competitors such as Lufthansa AG, SAA, Qatar, Emirates creating an additional choice for travel from points

in Germany to South Africa. The coordination will possibly expand the presence of the applicants in markets where they currently face limited exposure, and improve aircraft utilization, resource allocation and connectivity to beyond markets which will benefit consumers.

5.4 Joint dealing, joint marketing, distribution, sales representation and co-operation including travel agency and corporate account dealing arrangements; and

- Further cooperation between the applicants on marketing, distribution and ticket sales will also promote alliance specific efficiencies and cost reductions. The elimination of duplication of the roles by the airlines results in cost savings which ultimately filter through to passengers. The applicants will also collaborate on offering joint fares to sales channels, including travel agents and corporate customers.

5.5 Sharing of competitively sensitive information

- In order to facilitate the co-ordination on capacity and scheduling, joint pricing and marketing between the applicants, it may become necessary for the applicants to share competitively sensitive information.
6. The applicants are competitors or potential competitors in the passenger airline market/s. Accordingly, the above conduct may constitute prohibited practices in contravention of sections 4(1)(a), 4(1)(b) (i) and 4(1)(b)(ii) of the Act.
 7. The applicants submit that their alliance is necessary and required for:
 - a. The maintenance or promotion of exports (section 10(3)(b)(i) of the Act); and/or
 - b. A change in productive capacity necessary to stop decline in an industry (section 10(3)(b)(iii) of the Act).
 8. The applicants seek the exemption for a minimum period of five (5) years, starting from the date of the approval of the application by the Commission.

9. Notice is hereby given in terms of section 10(6)(b) of the Act to allow interested parties twenty (20) business days from the date of the publication of this notice to make written representations to the Commission as to why the exemption should be granted or not be granted.

Such representations must be directed to either Mr Itumeleng Lesofe or Ms Noluthando Jokazi on the following electronic addresses, ItumelengL@compcom.co.za, NoluthandoJ@compcom.co.za, respectively.
