Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.

DO use the new Adobe Forms for your notice request.

These new forms can be found on our website: www.gpwonline.co.za under the Gazette Services page.

DO attach documents separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment)

DO specify your requested publication date.

DO send us the electronic Adobe form. (There is no need to print and scan it).

DON'T submit request as a single PDF containing all other documents, i.e. form, proof of payment & notice content, it will be **FAILED** by our new system.

DON'T print and scan the electronic Adobe form.

DON'T send queries or RFQ's to the submit.egazette mailbox.

DON'T send bad quality documents to GPW. (Check that documents are clear and can be read)

1 INTRODUCTION

- 1.1 The Competition Commission ("the Commission") will conduct a market inquiry ("the Grocery Retail Sector Inquiry") to understand the general state of competition in the grocery retail sector.
- 1.2 The purpose of the market inquiry is to examine whether there are features in the grocery retail sector which lessen, prevent or distort competition.
- 1.3 The Terms of Reference ("ToR") proceed as follows: section 2 outlines the legal basis for the market inquiry; section 3 provides the background to the market inquiry; section 4 sets out the scope of the market inquiry; and section 5 outlines the market inquiry process and timelines.

2 LEGAL BASIS FOR THE MARKET INQUIRY

- 2.1 This market inquiry is initiated in terms of Chapter 4A¹ of the Competition Act, No. 89 of 1998 (as amended) ("the Act") and in keeping with the purpose and functions of the Commission as set out in sections 2 and 21 of the Act respectively. Section 21 of the Act calls on the Commission to *inter alia*, "implement measures to increase market transparency."
- 2.2 In order to fulfil these functions, and in line with the purpose of the Act, Chapter 4A of the Act enables the Commission to conduct market inquiries in respect of the "general state of competition in a market for particular goods or services, without necessarily referring to the conduct or activities of any particular named firm".² A market inquiry is thus a general investigation into the state, nature and form of competition in a market, rather than a narrow investigation of specific conduct by any particular firm.
- 2.3 The Commission is initiating the Grocery Retail Sector Inquiry because it has reason to believe that there are features in the sector that may prevent, distort or restrict competition.

¹ Chapter 4A of the Act, which introduces the powers to conduct market inquiries came into effect on 01 April 2013.

² According to section 43B (1)(i) of the Act, the Commission may initiate a market inquiry if it has reason to believe that any feature or combination of features of a market for any goods and services prevents, distorts or restricts competition within the market.

- 2.4 Section 43B (2) requires that the Commission must, at least 20 (twenty) business days prior to the commencement of the market inquiry “publish a notice in the Gazette announcing the establishment of the market inquiry, setting out the terms of reference of the market inquiry and inviting members of the public to provide information to the market inquiry.” The ToR must include “at a minimum, a statement of the scope of the inquiry and the time within which it is expected to be completed.” In accordance with these provisions, this ToR sets out the scope of the Grocery Retail Sector Inquiry, as well as the expected timelines for the inquiry.
- 2.5 Although the ToR delimits the scope of the market inquiry as currently envisaged, additional and related matters not identified herein may arise during the conduct of the inquiry. If the Commission believes that the ToR should be amended in any way, either through the addition of new matters or exclusion of matters currently identified herein, the ToR may be amended in terms of section 43B (5) of the Act.
- 2.6 Upon completing the market inquiry, and in accordance with section 43C of the Act, the Commission:

“(1).....must publish a report of the inquiry in the Gazette, and must submit the report to the Minister³ with or without recommendations, which may include, but not limited to -

- (a) recommendations for new or amended policy, legislation or regulations; and*
- (b) recommendations to other regulatory authorities in respect of competition matters.*

(2) Section 21(3), read with the changes required by the context, applies to a report to the Minister in terms of subsection (1)⁴.

(3) On the basis of the information obtained during a market inquiry, the Competition Commission may -

- (a) initiate a complaint and enter into a consent order with any respondent, in accordance with section 49D, with or without conducting any further investigation;*
- (b) initiate a complaint against any firm for further investigation, in accordance with Part C of Chapter 5;*
- (c) initiate and refer a complaint directly to the Competition Tribunal without further investigation;*
- (d) take any other action within its powers in terms of this Act recommended in the report of the market inquiry; or*

³ The Minister of Economic Development

⁴ Section 21(3) of the Competition Act requires the Minister to table the report in the National Assembly.

(e) *take no further action.*"

3 BACKGROUND TO THE MARKET INQUIRY

- 3.1 The four largest supermarket chains operating in South Africa, collectively account for more than 90% of the market.⁵ These firms are able to operate as grocery anchor tenants in shopping centres and malls of various sizes. Mergers and acquisitions and expansion through greenfields development of the national chains have seen greater consolidation and growth of the formal sector.
- 3.2 Since the 1990s, one of the more prominent features of the South African economy has been the evolution of the townships, peri-urban and rural areas into centres of business activity. The main driver of such a development is the burgeoning of retailers to tap into the growing low to middle income households. The increasing movement of large retailer chains into previously untapped low to middle income segments has resulted in an increase in shopping centre development in these areas.⁶
- 3.3 The movement of national supermarket chains into the townships, peri-urban and rural areas mainly through the construction of shopping centres has affected small, informal and independent retailers in a number of ways. Studies carried out in different townships in South Africa have confirmed that the number of informal businesses decreased immediately after the national supermarket chains moved into townships. For example, in a study by the Bureau of Market Research, in Soshanguve (north of Pretoria), a significant proportion of informal businesses interviewed confirmed a decrease in their business activities during the 6 month period since the opening of a shopping centre in the Soshanguve area. The study found that 75% of informal businesses located less than 1 km from the centre (or about 15 minutes walking time) reported a decline in their profits while only 36,8 % of those located between 4 and 5 km (approximately 1 hour's walk) from the centre experienced a drop in their profitability.⁷

- 3.4 Prior to 1994, small informal businesses supplied residents in these areas with groceries. Despite the importance of small informal businesses in townships, peri-urban and rural areas, they show relatively high attrition rates.⁸ The declining number of small informal businesses is likely to have an adverse effect on employment, income levels and the spread of ownership in this sector.⁹
- 3.5 In addition, the Commission previously investigated the issue of long term exclusive leases and has recently noted increasing concerns relating thereto from market participants as evidenced by complaints it received.¹⁰ The complaints are broadly about the use of long term exclusive lease agreements entered into between financiers, property developers and national supermarket chains as a barrier to entry and expansion. The exclusive clauses in the lease agreements may be causing distortions in the grocery retail sector. In general, the exclusive clauses restrict the landlord from leasing out space in the same shopping centre to potentially competing retailers, whether it is a retailer whose primary business is the sale of foodstuffs, a café or delicatessen which sells fresh fish or meat, grocery, fresh fish shop, butchery, bakery, liquor store or a fruit and vegetable shop. These restrictions tend to mostly affect small and independent retailers who may not be in a position to attract customers if located outside the shopping centre or mall.
- 3.6 In general, the exclusive clauses may affect customers' choice in terms of product range, quality and ultimately affect competition. The quality of service (including pricing and promotions) can be expected to be better where there are competing retailers at the same shopping centre.
- 3.7 Some national supermarket chains also offer opportunities for independent businesses to participate in the grocery retail sector through franchising arrangements. However, some

⁹ See Statistics South Africa (2013), Rise in informal businesses accessed at <http://www.polity.org.za/article/rise-in-informal-businesses-stats-sa-2014-08-14>. In terms of the informal sector's contribution to employment, out of the 15-million employed nationally, the informal sector employs about 1.5-million, which is 10% of the total. The number of persons running informal businesses declined from 2.3-million in 2001, to 1.1-million in 2009, and increased to 1.5m in 2013. The survey found that the main reason people started informal businesses was due to unemployment.

trading conditions such as pricing, packaging and branding are largely determined by the franchisor. Most franchisees do not source supplies on their own but operate as branches of the franchisor and may also enjoy assistance in sourcing funding. They thus appear to operate at an advantage against local and independent retailers. The Commission has also noted that some of the national supermarket chains are buying back their franchised stores leading to further consolidation in the grocery retail sector.

- 3.8 There has also been varied performance of local and foreign owned small informal retailers across the country – some, in particular foreign owned retailers, have been perceived to be more successful than the others and the reasons therefore are unclear. This has led to tensions that have sparked into violence in some instances. Given the importance of the informal sector, it is important to make a deliberate effort to examine the dynamics of competition between local and foreign owned small and independent retailers and to understand whether this may contribute to the decline in small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.

4 SCOPE OF THE MARKET INQUIRY

- 4.1 For the purposes of this inquiry, the grocery retail sector includes all shops that predominantly sell fast moving consumer goods (for example food, toiletries and/or liquor), whether as a wholesaler, retailer, or both. It encompasses all kinds of shops, from small informal businesses such as spaza shops, small independent grocery stores to supermarket chains and wholesale groups/outlets.
- 4.2 The scope of the market inquiry will include the following:
- 4.2.1 The impact of the expansion, diversification and consolidation of national supermarket chains on small and independent retailers in townships, peri-urban and rural areas and the informal economy.
- 4.2.2 The impact of long term exclusive leases entered into between financiers, property developers and national supermarket chains on competition in the grocery retail sector.

- 4.2.3 The dynamics of competition between local and foreign owned small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.
 - 4.2.4 The impact of regulations, including *inter alia* municipal town planning and by-laws on small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.
 - 4.2.5 The impact of buyer groups on small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.
 - 4.2.6 The impact of certain identified value chains on the operations of small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.
- 4.3 The market inquiry may probe, among other things, the following:
- 4.3.1 The competition dynamics in the grocery retail sector, including pricing practices, extent of consumer choice and innovation.
 - 4.3.2 The impact of franchise retailers on small and independent retailers in townships, peri-urban areas, rural areas and the informal economy.
 - 4.3.3 The causes and impact of the decline in small and independent retailers in townships, peri-urban areas, rural areas, and the informal economy.

5 MARKET INQUIRY PROCESS AND TIMELINES

- 5.1 The inquiry will be carried out by a panel of experts in the subject matter assisted by a technical team made up mostly by the staff of the Commission and/or consultants as required.
- 5.2 Without limiting the inquiry panel's methodology, the methods that may be used for gathering information may include the following:
 - 5.2.1 Questionnaires and surveys to identified participants and/or to the general public.

- 5.2.2 Information requests to particular market participants.
 - 5.2.3 Calls for submissions on issues relevant to the market inquiry.
 - 5.2.4 Targeted meetings with key industry stakeholders.
 - 5.2.5 Public hearings.
- 5.3 The participants in the market inquiry process will include firms directly or indirectly involved in the grocery retail sector, as well as those that have an impact on competition in the sector. These include firms in the property market, finance institutions and suppliers. The inquiry will also include participation by business and trade associations, government departments, public entities, regulatory authorities, consumers and consumer groups, and any other stakeholder that may be able to provide information relevant to the market inquiry. Members of the public are encouraged to participate fully in the inquiry process.
- 5.4 The Commission will publish a report at the conclusion of the market inquiry.
- 5.5 The Commission is committed to the principles of fairness, transparency and integrity and will conduct the inquiry in accordance with these principles. The Commission will allow stakeholders fair and reasonable opportunity to provide input into the inquiry process and its outcomes. For this reason the Commission may release interim reports throughout the market inquiry for public consideration and comment at its discretion.

BOARD NOTICE 121 OF 2015**SOUTH AFRICAN COUNCIL FOR THE ARCHITECTURAL PROFESSION**

Framework for the Professional Fees Guideline
in respect of services provided by person(s) registered
in terms of the Architectural Profession Act, 2000 (Act No. 44 of 2000).

This framework provides the context for the application of the Professional Fees Guideline which is published annually by the South African Council for the Architectural Profession in terms of section 34 of the above-mentioned Act.

This Board Notice replaces the Framework for the Professional Fees Guideline published in Board Notice 195 of 2011 and supersedes Board Notice 161 of 2001 and Board Notice 173 of 2010 and is applicable from date of publication of this Notice.

1. Introduction**PROFESSIONAL FEES GUIDELINE**

In terms of section 34 (2) of the Architectural Profession Act, 2000 (Act No. 44 of 2000), hereinafter referred to as the **Act**, the South African Council for the Architectural Profession, hereinafter referred to as **SACAP**, must annually determine guideline professional fees and publish these in the Government Gazette.

This Framework for the Professional Fees Guideline describes the professional services and the context within which the services are performed.

THE ARCHITECTURAL PROFESSIONAL'S SERVICE**Context**

A **client** appoints an **architectural professional** to provide a service for a **project** as contemplated by the Architectural Profession Act, 2000 (No 44 of 2000), the National Building Regulations and Building Standards Act, 1977 (No 103 of 1977) as amended and the National Building Regulations published in terms of this **Act**. The **architectural professional** accepts the appointment to exercise reasonable professional skill, care and diligence in the performance of obligations, for a fee as defined in a **written agreement**.

The **architectural professional** is authorised to act for the **client** when providing an architectural service. For the construction stage of a **project**, current standard **contracts** used in the building industry, such as the **JBCC** suite of contract documents are used. For this stage the relationship between the **client**, **contractor** and **architectural professional** as agent, or **principal agent** is defined in the **building contract**. The **architectural professional** enters into a contract of agency in a formal **agreement**. Typical **agreements** provide for a standard service in terms of 1.1 below and for partial services provided herein in terms of 1.2 below.

A standard service comprises appointment as **architectural professional**, **principal consultant** and **principal agent**. The parties to the **agreement** select the **architectural professional's** service applicable to the **project**. Services additional to the standard service may be selected. These additional services are selected as the parties may deem appropriate, and are provided for herein under 1.2.1 below.

The Professional Fees Guideline as published annually in a **board notice** by **SACAP** in the Government Gazette is deemed to provide a fair and reasonable remuneration to the **architectural professional** in order to provide an appropriate quality of service.

Fees description

The calculation of fees based on a percentage of **project** cost is the normal basis for determining professional fees and represents the accepted basis by the Built Environment Professions for remuneration of professional services. Such fees are referred to as **project cost-based fees**.

An alternative to a **project** cost-based fee is a time-based fee.

Project cost-based fee

A **project** cost-based fee is appropriate when there is a well-defined scope of service for the **architectural professional**. This is based on a **budget** for the **works** for fee calculation purposes, and shall be adjusted on the final cost of the works.

The **project** cost-based fee results in a sliding scale which arises from the series of percentages related to the value of the **works**. The primary fee is stated as an appropriate value to smooth the sliding scale.

The adjustment provided for in the professional fee guideline is based on the reduced aggregate of the value of the **works** and/or **project** from which the **budget** for the **works** for fee purposes is derived. This arises from the provision that fees for architectural services are calculated on the total value of the **works** and represent an average over all elements of the **works** and/or **project**.

The project cost based fee referred to in the Guideline Fee Board Notice xx of 2015, table 1 is based on the full scope of standard services being provided.

Where a fee is calculated as a project cost-based fee, the fee consists of a primary fee (Column C) plus a secondary fee. The secondary fee is calculated as a percentage (Column D) of the value of the works on the balance over per cost bracket indicated in Column E. See example below and refer to the Guideline Fees in Board Notice xx of 2015, Table 1

Formula:

Professional fee = primary fee (C) for applicable cost bracket of value of works + secondary fee for applicable cost bracket of value of works calculated as (applicable value of works **minus** Column E) x % in terms of Column D.

Example:

For Value of Works of		R 3 000 000
Primary Fee	is	R 268 750
Secondary Fee	is	(R 3 000 000 – R 2 000 001) x 10.50% R 999 999 x 10.50% R 104 999.90
Professional Fee	=	Primary Fee + Secondary Fee R 268 750 + R 104 999.90 R 373 749.90

Time-based fee

Where the scope of service is not clearly defined, or the service relates to small scale **projects**, or the service is of an unusual or specialised nature, a time-based fee is used as the basis of remuneration. Where fees for **architectural professional** services are time based, such fees are based on an hourly rate. Refer to the Guideline Fee in Board Notice xx of 2015, Table 2.

Where a **project** cost-based fee is applied, the final fee is calculated on the final cost of the **works**.

This is based on a **budget** for the **works** for fee calculation purposes, and shall be adjusted on the final cost of the work.

1.3.2 Project cost-based fees for standard and partial services

The fees consist of a Primary fee (Column C) plus a Secondary fee. The Secondary fee is calculated as a percentage (Column D) of the value of the works on the balance over per cost bracket indicated in Column E. See example on page 2 and refer to the Guideline Fees in Board Notice 122 of 2015, Table 1.

These derive from bracketed project values, and are determined annually by SACAP and published as a board notice.

Whenever the project cost-based fee structures are revised and published as a board notice, the new rates shall apply to work performed after the effective date of such a revision or in terms of the written agreement between the architectural professional and the client.

For a partial service, assuming the fee is a project cost-based fee, the percentage of the fee for each work stage to be performed is agreed between the client and architectural professional. See 1.3.4 below.

The budget for fee purposes excludes VAT, contingencies and provision for escalation.

1.3.3 Project cost-based fees for a reduced service

Where the architectural professional is not the principal agent, a reduction of the fee for the work not exceeding 10% of the fee for stages 5 and 6 can be considered.

1.3.4 Apportionment of fees between work stages:

The fee applicable to each work stage is apportioned according to the table below, and may be adjusted by agreement.

Work stages 1 to 6	Proportion of fee	Cumulative total
1	5%	5%
2	15%	20%
3	20%	40%
4.1	20%	60%
4.2	10%	70%
5	27%	97%
6	3%	100%

1.3.5 Guideline fees for additional services:

Unless otherwise agreed, the fee for additional services is time based, and is based on hourly rates as in the current board notice.

1.3.6 Time-based fees

Where fees for the architectural professional's services are time-based fees, the hourly rates as in the current board notice apply. Whenever these rates are revised the new rates shall apply to work performed after the effective date of such revision.

The categories to which the rates are applicable are the following:

Principal	Specialist	The published time charge rate per hour applies
Principal	>10 years' experience	The published time charge rate per hour applies
Principal	<10 years' experience	The published time charge rate per hour applies
Salaried Staff	Associates and managers	The published time charge rate per hour applies
Salaried Staff	Registered architectural professionals performing work of an architectural nature and carrying direct responsibility for activities related to a project	The published time charge rate per hour applies
Salaried Staff	Registered architectural professionals performing work of an architectural nature under direction and control	The published time charge rate per hour applies
Salaried Staff	Staff performing work of an architectural nature and/or to support architectural work outputs under direction and control	The published time charge rate per hour applies

In the above, "principal" means the proprietor, partner, director or member who bears the risks of practice and takes full responsibility for the potential liabilities of practice.

The hourly rates referred to above shall be deemed to include establishment charges and charges for time expended by clerical staff.

Staff who perform work of an architectural nature and who carry direct responsibility for one or more specific activities related to a **project** shall have time-based, rate per hour charges agreed on before the work is executed.

Staff who perform work of an architectural nature and who work under direction and control shall have time-based, rate per hour charges agreed on before the work is executed.

Certain staff performing work of an architectural nature and/or to support architectural work outputs under direction and control shall have time-based, rate per hour charges agreed on before the work is executed.

1.3.7 Guideline fees for additions and/or alterations

The fee for work that includes alterations is based on the total **project** cost and increased for that portion of the work comprising or affected by alterations by 30% (130% of the fee).

1.3.8 Guideline fees for services provided with respect to the restoration of buildings subject to heritage legislation

The fee for work that includes restoration to buildings subject to heritage legislation is based on the total **project** cost and increased for that portion of the work comprising or affected by heritage considerations by 40% (140% of the fee).

1.3.9 Guideline fees for a project that includes repeated buildings

For a **project** consisting of a number of repeated buildings erected under a single **building contract** for a single **client**, the fee may be reduced by agreement, subject to the **architectural professional** being retained for a full service and the repeated buildings being –

- built on one site or a series of adjoining or closely related sites;
- either entirely apart from each other or linked with screen walls, common walls or other similar means; and
- repetitions of one or more prototype designs for units, blocks or elements and built from the repeated use of one or more sets of drawings and related documents with nominal or no modification for each re-use.

The guideline fee for repeated buildings provides for a full fee for the origination of the first buildings, prior to the repeated buildings, known as prototypes. Thereafter the fee adjustment is applied to the repeated buildings.

The reduced fee applies to work stages 1 to 4 inclusive. The reduced guideline apportionment is 35% of the guideline for stages 1 to 4 inclusive.

The reduced fee does not apply to work stages 5 and 6. The full guideline fee for these stages shall apply.

1.3.10 Guideline fees for buildings repeated under separate building contracts

The architectural professional is entitled to be paid full fees on the originating building designs. Unless otherwise agreed, where repeated buildings are erected under separate **building contracts** and the drawings and related documents for a **project** are re-used for subsequent **projects** with nominal or no modification, the fee may be adjusted.

1.3.11 Guideline fees for an appointment where the architectural professional takes over incomplete work of another practitioner

The stage of completion shall be agreed on, and an appropriate **budget** for the **works** agreed on, and the fee for the incomplete work stage or the stage in which the service is commenced is subject to an increase of 25%.

1.3.12 Guideline fees for deployment of employees

Where an employee of the **architectural professional** is deployed on site for extended inspection or other agreed purposes, the amount of the reimbursement shall be the total cost of employment plus 30%.

1.3.13 Extended initial contractual contract period

In the event that the initial **contract** period is exceeded by more than 10%, through no fault of the **architectural professional**, the **architectural professional** is to be remunerated for all additional work resulting from the extension of time at the hourly rates according to the current **board notice** together with related reimbursable expenses. The **architectural professional** must inform the client in writing that the allocated period for providing professional services has been exceeded with 10% and therefore the services will be charged at the hourly rates according to the current **board notice** together with related reimbursable expenses.

1.3.14 Adjustment of guideline fees and disbursements

The guideline fees and disbursements are based on the following parameters:

Scope of services
Scope of the **project/works**
Project programme
Cost of the **works**
Cost of the **project**
Appointment of other **consultants**
Appointment of **contractor**

Should any material variation to the parameters as stated occur, the guideline fees and disbursements are to be adjusted.

1.3.15 Adjustments to the project programme

Adjustment to the project programme, commonly known as 'fast tracking', that requires the application of additional resources by the **architectural professional**, may attract an additional fee. The **architectural professional** shall motivate to the client the additional resource needed to complete the project within the allocated time and shall be at the total cost of employment plus 30%

1.3.16 Travelling time

Where the fee is a **project** cost-based fee, time charges shall apply at 100% of hourly rate for travel greater than 1 hour and 50 km per trip (being 2 hours and 100 km per return trip) or as negotiated between the client and the **architectural professional**.

Where the fee is on a time basis, time charges shall apply to the full round trip regardless of distance.

1.3.17 Guideline fees on termination by the client

Where the **agreement** between the **client** and the **architectural professional** is terminated, the **client** shall pay for that portion of the service that has been executed.

Termination of the **project** will attract an additional fee equal to 10% of the full fee in the stage in which termination occurs.

1.3.18 Guideline fees for dispute resolution services

For acting as expert witness, adjudicator, mediator or arbitrator, the fee shall be the time charge fee for specialists at the hourly rates published in the **board notice**.

Where **projects** are referred to dispute resolution, **architectural professionals** retained on that **project** are to be reimbursed for the additional service required of the **architectural professional** in relation to the dispute resolution process according to the hourly rates published in the **board notice** as necessary.

1.3.19 Payment of professional accounts

The architectural professional's accounts are due and payable on presentation.

The architectural professional shall be entitled to render interim accounts. Fee and reimbursement invoices may be invoiced separately.
