## SECTION 1: INTRODUCTION

- 1.1 The administration of the Adult Education and Training Act, 2000 (Act No.52 of 2000) and the Continuing Education and Training Act, 2006 (Act No. 16 of 2006) was transferred to the Minister of Higher Education and Training, through Proclamation No.44 of 2009 which was published in Government Gazette No.32367 of 1 July 2009.
- 1.2 The legislative responsibility for the Adult Education and Training (AET) sector was transferred to the Minister of Higher Education and Training (DHET) through the Higher Education and Training Amendment Laws Act, 2010 (Act No.25 of 2010).
- 1.3 The Continuing Education and Training Act, 2006 intends to establish Community Education and Training Colleges (CETCs) as another institutional type within the Post-School Education and Training system.
- 1.4 The implications of the CET Act, 2006 are to repeal the Adult Basic Education and Training Act, 2000. This implies that the CET Act, 2006 will be the legislation governing CETCs and Community Learning Centres (CLCs).
- 1.5 The National Policy on Community Education and Training Colleges serves as an initial process to establish the overarching institutional policy framework for the establishment of CETCs.
- 1.6 The policy acts as a transitory policy framework for the migration of the function of AET sector from the Provincial Departments of Education (PEDs) to the DHET with effect from 01 April 2015. This migration would affect all learners and personnel and other resources in the sector.

## SECTION 2: DEFINITION OF COMMUNITY EDUCATION

- 2.1 Community is defined as being located within and contributing to local needs and local development, building social agency and social cohesion (Ministerial Task Team (Report: 2012)).

- 2.2 The focus on community in the CETCs and CLCs is as much a matter of location (easy access for youths and adults) as it is a matter of orientation, locating this sphere of adult and youth education in communities with strong links to communities in their varied forms, to NGOs and CBOs, to local government and the local economy and labour markets.

### **SECTION 3: BACKGROUND AND CONTEXT**

- 3.1 Education is an essential component of reconstruction, development and transformation of any society. Post 1994 the South African integrated education system has played a significant role in accelerating racial integration through universal access to primary and increasingly secondary education, the expansion of early childhood development and increased access to tertiary institutions.
- 3.2 Notwithstanding the achievements in education over the first twenty years of democracy, it is observed that the system still produces and reproduces inequalities through gender, class and racial divide. These inequalities continue to undermine the vision of the South African Constitution of a prosperous, democratic, non-sexist, non-racist and equal society.
- 3.3 The challenges of inequalities based on gender, class, race, disability, geographic location, age and health status persist with regard to access to educational opportunities in the adult education and training sector.
- 3.4 The provision of education and training alone is not sufficient to significantly reduce these inequalities but the commitment to establish pro-poor institutional structural frameworks and funding modalities are key elements that can assist to accelerate the attainment of the vision of the National Development Plan's (NDP) 2030 agenda that of an egalitarian and prosperous society.
- 3.5 According to the Ministerial Task Team Report on Community Education and Training Centres (CETCs) 2012, the two disadvantaged groups are adults and young people who are outside of the formal economy and formal workplaces, who are not in educational institutions, who have few opportunities for access to first or second-chance learning and lifelong learning.

- 3.6 These groups include close to 12 million adults with less than grade 9 education in 2007; including the nearly 3 million young people not in employment or in education and training (NEETs) between the ages of 18-24 years who are also in need of education and training opportunities.
- 3.7 Access to education and training must be made available through viable institutions to the employed and unemployed, young and old to encourage an economically active population and community participation.
- 3.8 The White Paper for Post-School Education and Training states that, “The education and training system must find ways to cater for the needs of the millions of adults and youth who are unemployed, poorly educated and not studying. The expansion of the university and college systems will make an important difference, but will not be sufficient to meet all the needs. In any case, they are not designed for this. There are many who would not qualify to enter a university or Technical and Vocational Education and Training (TVET) colleges”.
- 3.9 It then concludes that, “A new type of institution has to be built and supported; one that can offer a diverse range of possibilities to people for whom vocational and technical colleges and universities are not possible”.
- 3.10 Prior to the Function Shift of AET on 1 April 2015, the state provided AET through its PEDs. The PEDs operated Public Adult Learning Centres (PALCs), most of which are located in schools and they provide institutional learning to adults on a part-time basis. In terms of the Further Education and Training Amendment Act, 2013 (Act No.1 of 2013), PALCs have been transferred to the control of the Department.
- 3.11 Further to PALCs, there are also private adult learning centres run by faith-based organisations (FBOs), non-governmental organizations (NGOs) and community-based organisations (CBOs) with a diverse range of offerings, which may include formal provisioning of the General Education and Training Certificate (GETC): ABET at National Qualifications Framework (NQF) level 1.
- 3.12 In January 2014, the Minister of Higher Education and Training launched the White Paper for Post-School Education and Training system in which key challenges facing South African higher education and training were identified. The White Paper articulates many weaknesses with regard to the current provisioning of AET due to,

among other things, insufficient resources, inadequate staffing, weak infrastructure and poor articulation.

Nevertheless, the White Paper notes that, “Despite their weaknesses, the PALCs are currently the only public institutions with a wide distribution around the country and which provide for adults and post-school youth who are not catered for by the TVET colleges and universities. The PALCs have been merged into CETCs which is a new type of post-school institution, as envisaged in the Continuing Education and Training Act, 2006. These colleges are expected to be sensitive to the needs of their communities. They will primarily target youth and adults who for various reasons did not complete their schooling or who never attended school. CETCs will be multi-campus institutions which cluster the PALCs. They will be expanded by adding other campuses where necessitated by their enrolments and programmes. Although they will be public colleges, they may enter into partnerships with community-owned or private institutions such as faith-based organisations or other education and training centres in order to enhance their capacity to meet the education and training needs of youth and adults”.

- 3.13 In addition, the White Paper supports the mainstreaming of education for people with disabilities into community education where appropriate. The 2011 census reveals that 7,8 % of the population are people with disabilities . This constitutes 2,870 130 in number.
- 3.14 Access and success in the AET qualifications is low and its quality is in doubt. More concerning is the lack of impact of the qualification with regard to its contribution to skills development, poverty alleviation and unemployment.
- 3.15 The current AET provision data indicates that very few adults acquire the full GETC qualification, whereas most candidates collect only a few learning area certificates. This means that there is limited progression to further learning.
- 3.16 A further barrier to AET is the lack of accessible provisioning as tuition is usually accorded limited hours. This is partly the result of historical policy interventions and plans that have been under-resourced and sporadically initiated. In many instances the AET centres have little or no clear institutional identity or capacity. PALCs do not have full-time staff and are staffed through short-term contracts. PALCs operate mainly in

the evening and this situation does not afford adequate opportunities for effective tuition.

- 3.17 AET provisioning has concentrated on formal qualification which poses a problem to those learners who may not necessarily want a qualification. The current AET approach and curriculum in the PALCs, focusing on general education, fails to attract large numbers of adults and youth interested not only in completing a school qualification, but also those interested in gaining labour market currency and skills for sustainable livelihoods.
- 3.18 AET provisioning has too few flexible pathways and rigidity in offerings (part or full-time) for youth and adults who have passed the age of compulsory education. There is insufficient focus on quality and there is no diversity of programme offerings.
- 3.19 Out-of-compulsory school-going age youth and adults also experience a number of interrelated barriers to participation in AET, including physiological, psychological, situational and structural barriers. Most of these are directly related to the physical and learning disabilities as well as socio-economic conditions of the youth and adults.
- 3.20 To find a lasting solution to these challenges, the Minister established a Task Team to conceptualise a workable institutional model for community education and training that is distinct in its ethos and mission, provides a diversity of programmes, qualifications or part-qualifications of which articulate with qualifications of existing institutions and is oriented towards provision for communities and ensures lifelong learning opportunities.
- 3.21 The brief by the Minister to the Task Team was to consider policy and legal implications, make recommendations on relevant programmes, investigate and propose appropriate funding modalities and suitable governance mechanisms, develop broad implementation steps to institutionalise the provisioning of community education and training, and to review relevant local and international literature.
- 3.22 The Task Team report proposes the establishment of Community Education and Training Colleges (CETCs) and Community Learning Centres (CLCs) as a third tier of institutional type alongside Universities and TVET Colleges. The CETC sector is envisaged to cater for second-chance learning opportunities for out-of-school youth and adults, by building on the current offerings of the PALCs, which offer general education programmes. They must also add to the general education programmes by

offering vocationally-oriented skills and knowledge programmes leading to sustainable livelihoods outside of the formal sector. Community Education and Training Colleges will be a diverse set of institutions, offering programmes that are appropriate to their particular communities.

3.23 The introduction of Community Education and Training Colleges as a new institutional type is envisaged to play a pivotal role in contributing to improved levels of educational attainment among youth and adults.

3.24 The findings of the 2011 South African Census reveal that 15 918 454 South Africans aged 20 years and above, have not completed Grade 12. This figure represents 60% of the population in the said cohort.

3.25 Census 2011 data further sheds some light on the numbers of youth and adult learners nationally, including learners with disabilities as follows:

- 2 665 874 or 8.6% have no schooling;
- 3 790 134 or 12.2% have some primary schooling;
- 1 413 895 or 4.6% have completed primary schooling; and
- 10 481 577 or 33.9% have some secondary but did not complete grade 12

3.26 This summarises the background and the context within which this policy on CETCs is conceptualised.

#### **SECTION 4: PRINCIPLES UNDERPINNING THE ESTABLISHMENT OF COMMUNITY EDUCATION AND TRAINING COLLEGES**

4.1 The establishment and operations of Community Education and Training Colleges must be founded on a set of principles, which, when construed as a collective, should define what Community Education and Training Colleges are about. ## **SECTION 6: PURPOSE OF THE POLICY**

6.1 The purpose of this policy is to provide a framework that must guide the management of the shifting of the Adult Education and Training function from the PEDs to the national competence of the Department of Higher Education and Training.

6.2 To this effect this policy provides a framework for the establishment of Community Education and Training Colleges, governance and management of these institutional types, employment of staff, the funding framework, programmes and qualification offerings, quality assurance, examinations and assessment, and monitoring and evaluation.

**SECTION 7: APPLICATION**

- 7.1 This policy applies to Community Education and Training Colleges established by the Minister in terms of the Continuing Education and Training Act, 2006.

**SECTION 8: ESTABLISHMENT OF A COMMUNITY EDUCATION AND TRAINING COLLEGE**

- 8.1 The establishment or declaration of a Community Education and Training College vests with the Minister of Higher Education and Training.
- 8.2 The Minister reserves the right to establish Community Education and Training Colleges that transcend geographical boundaries based on the communities of interest or practice. In other words the term community is not limited to a geographical community.

**SECTION 9: PROCESS OF ESTABLISHING COMMUNITY EDUCATION AND TRAINING COLLEGES**

- 9.2 These institutions are known as the Community Education and Training College Administrative Centres (CETCACs). One CETCAC has been established in each province.
- 9.3 The delivery sites of the CETCACs are referred to as Community Learning Centres (CLCs).
- 9.4 The CETCACs are meant to play an administrative role for the management and governance of the renamed PALCs.
- 9.5 The establishment of pilot Community Education and Training Colleges will be a gradual process and will take place on phase-in basis starting with one Community Education and Training College as a pilot project in each province. If resources are not

- immediately available for the nine pilot Community Education and Training Colleges, the Minister may decide to establish fewer pilots.
- 9.6 The purpose of the pilot college is to provide an opportunity for the DHET to begin the process of establishing district based Community Education and Training Colleges and to gain experience that will be useful in rolling out Community Education and Training Colleges in every district in the country. The roll out of Community Education and Training Colleges will be outlined in a further policy instrument.
- 9.7 The DHET may establish new Community Education and Training Colleges and CLCs as the Minister deems necessary. Community Education and Training Colleges may also be established on the basis of partnerships between the DHET and the community-owned or private institutions such as Faith-Based Organisations or other education and training centres. Such partnerships will be entered into in line with the appropriate Ministerial authority.
- 9.8 The adequacy of post school education and training facilities in communities shall be taken into account in order to determine community needs for the additional educational facilities, subject to available funding.
- 9.9 The Minister shall determine the name and seat of a Community Education and Training College, which shall be published in the Government Gazette, together with all its CLCs.
- 9.10 The DHET will develop a strategy for the branding of Community Education and Training Colleges and their Community Learning Centres.

- 10.2 All the deemed Community Education and Training Colleges have been merged to become CLCs of the 9 newly established and distinct provincially-based CETCACs

**DEPARTMENT OF WATER AND SANITATION  
DEPARTEMENT WATER EN SANITASIE**

No. 572

3 July 2015

**PONGOLA-MZIMKHULU WATER MANAGEMENT AREA – LIMITING THE USE OF WATER IN TERMS OF ITEM 6 OF SCHEDULE 3 OF THE NATIONAL WATER ACT OF 1998 FOR IRRIGATION, DOMESTIC AND URBAN PURPOSES FROM GOEDERTROUW, HAZELMERE, KLIPFONTEIN, HLUHLUWE, LAKE MERTHLEY, UMZINTO, EJ SMITH AND BUFFALO SYSTEMS IN KZN**

I, *Margaret Ann-Diedricks*, in my capacity as Director-General of the Department of Water and Sanitation, on reasonable grounds believe that a water shortage exists in the uMhlathuze River upstream of Goedertrouw Dam catchment, Hazelmere Dam, Klipfontein Dam, Hluhluwe Dam, Lake Merthley Dam and the Buffalo System in KZN due to insufficient rains and that it is necessary to limit the taking of water from these Dams/Systems.

The Minister of Water and Sanitation may in terms of item 6 (1) of Schedule 3 to the Act limit the use of water in the area concerned if the Minister on reasonable grounds believes that a water shortage exists within the area concerned. This power has been delegated to me in terms of section 63 (1) (b) of the Act.

Therefore in my capacity as the Director-General of the Department of Water and Sanitation, I hereby under delegated authority in terms of item 6 (1) of Schedule 3 to the Act limit the taking of water from these Systems by all users as follows-

1. From Goedertrouw Dam

- a) 70% restriction on the use of water for irrigation purposes
- b) 30% restriction on the use of water for domestic use
- c) 10% restriction on the use of water for industrial use

2. Hazelmere Dam

- a) 30% restrictions on Domestic and Industrial use
- b) 100% restrictions on irrigation use

3. Klipfontein Dam

- a) 15% Restriction on domestic water use
- b) 50% restriction on irrigation water use

4. Hluhluwe Dam

- a) 10% Restriction on domestic water use (to be confirmed)
- b) 40% restriction on irrigation water use

## 5. Lake Merthley System

- a) 30% Restriction on domestic water use

## 6. Umzinto and EJ Smith Dam

- a) 25% Restriction on domestic water use

## 7. Buffalo System

- a) 30%
- b) 100% Restriction on irrigation water use

The limitations apply from the date of this notice until further notice.

In exercising the powers, I have given preference to the maintenance of the Reserve, treated all water users on a basis that is fair and reasonable, considered the actual extent of the water shortage, the likely effects of the shortage on the water users, the strategic importance of any water use and any water rationing or water use limitations by a water services institution having jurisdiction in the area concerned under the Water Services Act 108 of 1997.

Placing limitation on the taking of water use as set out in this notice is an administrative action affecting the rights of the public as contemplated in section 4 of the Promotion of Administrative Justice Act 3 of 2000 (PAJA). After I have taken into consideration all relevant factors, including those referred in section 4 (4) (b), I have decided that it is reasonable and justifiable in the circumstances to depart from the requirements referred to in section 4 (1) (a) to (e), (2) and (3) and instituted this limitation without allowing the water users affected and other role players to comment on the matter before I institute the limitation.

This notice overrides any other previous authorization on water restrictions issued by the Department relating to this area.

**DIRECTOR-GENERAL**

DATE: 23 June 2015
