Information

from Government Printing Works

Dear Valued Customers,

Government Printing Works has implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submits your notice request.

Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.

DO use the new Adobe Forms for your notice request. These new forms can be found on our website: www.gpwonline.co.za under the Gazette Services page.

DO attach documents separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment)

DO specify your requested publication date.

DO send us the electronic Adobe form. (There is no need to print and scan it).

DON'T submit request as a single PDF containing all other documents, i.e. form, proof of payment & notice content, it will be **FAILED** by our new system.

DON'T print and scan the electronic Adobe form.

DON'T send queries or RFQ's to the submit.egazette mailbox.

DON'T send bad quality documents to GPW. (Check that documents are clear and can be read)

Eskom Language PolicyUnique Identifier: **32-116**Revision: **1**Page: **3 of 8****1. Introduction**

The Constitution of the Republic of South Africa, Act 108 of 1996, recognises Sepedi, Sesotho, Setswana, Siswati, Tshivenda, Xitsonga, Afrikaans, English, isiNdebele, isiXhosa, and isiZulu as official languages of the Republic. It, furthermore, calls on the state to take practical and positive measures to elevate the status and advance the use of the indigenous languages. Legislative and other measures should be employed to reach this ideal.

In response to this constitutional provision, the National Language Policy Framework (NLPF) was developed and approved by Cabinet in 2003. The purpose of the NLPF was to guide government departments and other state institutions to translate the linguistic constitutional provisions into positive and concrete measures so as to address the linguistic imbalances of the past in a structured and coherent manner.

The Use of Official Languages Act, Act 12 of 2012 ("the Act"), was also compiled in response to the Constitution's call for government to use legislative and other measures to regulate and monitor the use of the country's official languages. This piece of legislation takes precedence over any inconsistencies of any other law on the official languages by national government. This policy has been formulated in line with the provisions of the Constitution and the Act.

2. Policy Content**2.1 Policy Statement**

Taking into account the linguistic diversity of Eskom's employees, customers, and other stakeholders and taking into account Eskom's desire to maintain and strengthen its relationship with these groupings, Eskom's Chief Executive has authorised the issuing of a language policy for the company in line with the provisions of the Use of Official Languages Act (Act 12 of 2012).

2.2 Policy Principles or Rules

2.2.1 Eskom Holdings SOC Limited shall, in all its operations, ensure that the provisions of the Use of Official Languages Act are integrated into the entire business value chain, where applicable, thus empowering Eskom employees, customers, and stakeholders to gain access to Eskom information, products, and services.

2.2.2 English will be used as the language of business and record in Eskom and will, accordingly, be one of the languages referred to in 2.2.3 below. In addition communication with external parties may be done through the relevant foreign language should this be required. Furthermore, documents signed by the Chairman and Chief Executive and meant for external communication shall be reviewed for linguistic and tonal appropriateness.

- 2.2.3** The choice of other languages to be used in both written and oral internal and external communication will be based on the demographics of the workplace and province in which Eskom operates, the target audience, the requirement at the time, and the communication event. The choice of language may also be guided by the latest census results. Interpreting and translation services will be made available on request.
- 2.2.4** Public notices, advertisements, and announcements to be published in the media should be made in the language used by the targeted market and the local, regional, or national media house.
- 2.2.5** In disciplinary hearings, the preferred official language of the employee(s) and witness (es) involved in the process should be used, with the aid of interpreting services, if necessary.
- 2.2.6** In order to reach out to the visually impaired written communication should be converted using the appropriate software format should this be required and in the case of the deaf, South African Sign Language interpreting services will be provided should this be required.
- 2.2.7** Due consideration has to be given to the language preferences of local communities when erecting signage for identifying Eskom facilities and services. This information should be made available in at least three of the official languages dominant in a particular area.
- 2.2.8** If any members of the public believe that their language rights have been violated by Eskom or any person performing an Eskom function, they should lodge a complaint, in writing, with the Chief Executive of Eskom. The complaint may either be delivered to Eskom's Megawatt Park head office in Sunninghill, Sandton, or be sent by registered mail to the following address: Chief Executive, Eskom Holdings SOC Limited, PO Box 1091, Johannesburg, 2000.
- 2.2.9** The complaint must be lodged within three months of it arising. The person lodging the complaint must provide his/her full names, address, and contact information. Such person should also provide a full and detailed description of the complaint for further handling.
- 2.2.10** To ensure company-wide alignment, an integrated language committee representative of all Eskom Groups will, together with the Language Unit, take responsibility for monitoring the implementation of the Language Policy, reporting on it, and periodically reviewing it in accordance with Eskom's guidelines on policy development.
- 2.2.11** The full version of this policy will be made available on the Eskom website and intranet in all 11 of the official languages. The summarised version, together with its translations, will be available in hard copy at all Eskom customer care centres and offices. The policy will also be made available in Braille, on request.

1. INTRODUCTION

- 1.1. South Africa is a multicultural society that is characterised by its rich linguistic diversity. Language is an indispensable tool that can be used to deepen our democracy and also contribute to the social, cultural, intellectual, economic and political life of South African society.
- 1.2. The country's linguistic landscape changed dramatically after the advent of democracy in 1994, when the Constitution provided a legal and regulatory framework for the formal recognition and promotion of linguistic diversity. The current multilingualism dispensation allows for the former marginalised languages to flourish.
- 1.3. Section 6 of the Constitution guarantees equal status to 11 official languages, namely Afrikaans; English; isiNdebele; isiXhosa; isiZulu; Sepedi; Sesotho; Setswana; Siswati, Tshivenda and Xitsonga.
- 1.4. By virtue of its constitutional mandate to provide the public with information that is timely, accurate and accessible, the GCIS is responsible for providing strategic leadership and coordinating government communications to ensure that the public is informed and has access to government programmes and policies that benefit them. The organisation has over the past years been consistently producing some of its communication material in all the official languages.
- 1.5. By fostering equitable access to government services, knowledge and information as part of its constitutional and moral obligation, the GCIS actually ensures redress for the previously marginalised languages, which have since been given an official status.

- 3.1.2. Development and promotion of all official languages in the spirit of *Batho Pele*.

 - 3.1.5. The important role language plays in facilitating communication between government and the people.
 - 3.1.6. The need to provide for the communication needs of people with language barriers, such as the visually and/or hearing impaired.
 - 3.1.7. The legislative and constitutional mandate to promote multilingualism to ensure effective and efficient communication between government and the public.
- 3.2. The GCIS shall use plain language to enhance communication.

4. PURPOSE AND SCOPE

- 4.1. The purpose of this policy is to comply with the legislative and constitutional mandate to promote multilingualism and to ensure effective and efficient communication between government and the public in accordance with the objectives of the Act and the Constitution.
- 4.2. This policy is binding on all branches and employees of the GCIS.
- 4.3. The Branch: Corporate Services will be the official custodian of this policy.

5. LEGISLATIVE MANDATE

The policy is based on the following legal frameworks:

6. ABOUT THE GCIS

- 6.1. The GCIS was previously established in terms of Section 239 of the Constitution and as a strategic unit in The Presidency in terms of Section 7 of the Public Service Act, 1994 (Act 103 of 1994). The GCIS was abolished at the end of September 2014 and the new Department of Communications established from 1 October 2014. However, in November 2014, The Presidency issued a directive for the GCIS to be re-established with effect from 1 April 2015 as a Schedule 1 national department reporting to the Minister of Communications.
- 6.2. The GCIS is mandated to coordinate, guide and advise on government communication, including media liaison, development communication and marketing. Its goal is to achieve integrated, coordinated and clear communications between government and South African citizens, which enables the public to be involved in the country's transformation.
- 6.3. The main service of the GCIS is to provide accurate and timely government information to the citizens of South Africa through mediated and unmediated communication methods. The GCIS uses different products and platforms to meet the information needs of various target audiences. The GCIS provides this service as a constitutional right to the citizens of South Africa wherein Section 195(g) of the Constitution stipulates that to foster transparency, the public should be provided with information that is timely, accurate and accessible.
- 6.4. By virtue of the aforementioned mandate the GCIS renders services across all geographical areas of South Africa.

- 7.3. It collaborates with other linguistic organisations, and contributes to the development and promotion of the previously marginalised languages.
- 7.4. The Language Services Unit will be responsible to implement this policy and to advise all stakeholders on the contents hereof.

AIDS HELPLINE: 0800-0123-22 Prevention is the cure

The concept of a homeopathic 'vaccine' does not exist in the philosophy of Homeopathy or in Homeopathic methodology, nor is it proven or demonstrable that an antigen-antibody reaction is caused with resultant antibody titres after the administration of any homeopathic substance.

The Council, after due consideration and in consultation with the PBHNP, has therefore resolved that:

- (a) No education and training that would promote the concept of homeopathic 'vaccines' or instruct in any way the substitution of registered vaccines with homeopathic substances, may take place by any person or institution;
- (b) The administration, dispensing or any recommendation to patients or legal guardians of any homeopathic substance purported to be a 'vaccine' is deemed **unprofessional conduct** for practitioners of Homeopathy; and
- (c) No homeopathic substance may be administered in purported fulfilment of the Road to Health Chart: Expanded Program on Immunisation Vaccines (EPI) or as any other substitute for a registered vaccine.

Should the Council become aware of any practitioner of Homeopathy engaging in any of the abovementioned prohibited practices, such practitioner shall face disciplinary action in terms of Sections 23 – 30 of the Act, as amended.

The above notice does not prevent the execution of any other ordinary function of a homeopathic practitioner in terms of his/her prescribed scope of practice that may seek to prevent any illness, disease or condition.

In terms of sections 5(2) of the Construction Industry Development Board Act, 2000 (Act No. 38 of 2000) (the Act), the Construction Industry Development Board is empowered to promote best practice Standards. This best practice Standard for Contractor Performance Reports for use on Construction Works Contracts (Grade 1) provides for a uniform and consistent method of assessment of the performance of a contractor with respect to the following project parameters:

- time management;
- cost management;
- quality management;
- health and safety management; and
- management of site conditions.

The standard is limited to General Building and Civil Engineering classes of construction works within tender values equivalent to cidb Grade 1.

MS LINDELWA TERESA MYATAZA

CHAIRPERSON: CONSTRUCTION INDUSTRY DEVELOPMENT BOARD

Standard for Contractor Performance Reports for use on Construction Works Contracts (Grade 1)

1. Scope

This standard for contractor performance reports provides for a uniform and consistent method of assessment of the performance of a contractor with respect to the following project parameters:

- time management;
- cost management;
- quality management;
- health and safety management; and
- management of site conditions

Subject to sufficient contractor performance reports being available, contractor performance reports can be used, amongst others, for the purpose of managing procurement risks through:

- assessing the suitability of contractors and
- adjudication for the award of a contract.

Contractor performance reports also allow for the contractor to benchmark its performance against national norms – thus encouraging performance improvement.

This standard sets out:

- the process and responsibilities by which the contractor performance report is to be completed; and
- the information required.

The standard is limited to General Building and Civil Engineering classes of construction works within tender values equivalent to cidb Grade 1.

2. Terms and Definitions

For the purposes of this document, the following terms and definitions apply:

class of construction works: the class of construction works referred to in Schedule 3 of the Construction Industry Development Regulations 2004 as amended and published in terms of the Construction Industry Development Board Act of 2000 (Act 38 of 2000);

Construction Industry Development Board (CIDB): the board established in terms of the Construction Industry Development Board Act of 2000 (Act 38 of 2000);

contract amount: financial value of the contract at the time of the award of the contract, exclusive of all allowances and any value added tax or sales tax which the law requires the employer to pay to the contractor;

employer: person or organization entering into the contract with the contractor for the provision of goods, services, or engineering and construction works;

NOTE: Practical completion is commonly understood to be a state of readiness for occupation of the whole works although some minor work may be outstanding. Practical completion in a construction works contract occurs when:

- a) FIDIC Short Form of Contract: the date when the Employer considers that the Works have been completed in accordance with the Contract, except for minor outstanding work and defects which will not substantially affect the use of the Works for their intended purpose;
- b) GCC 2010: "Practical Completion" means the date when the Engineer certifies that the whole or portion of the Works has reached a state of readiness, fit for the intended purpose, and occupation without danger or undue inconvenience to the Employer, although some work may be outstanding;
- c) JBCC Minor Works Agreement: the date when the principal agent decides that the completion of the works has substantially been reached and can be used for the purpose intended;

WARNING!!!

To all suppliers and potential suppliers of goods to the Government Printing Works

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.
