IMPORTANT

Information

from Government Printing Works

Dear Valued Customers,

Government Printing Works has implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submits your notice request.

Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.

DO use the new Adobe Forms for your notice request. These new forms can be found on our website: www.gpwonline.co.za under the Gazette Services page.

DO attach documents separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment)

DO specify your requested publication date.

DO send us the electronic Adobe form. (There is no need to print and scan it).

DON'T submit request as a single PDF containing all other documents, i.e. form, proof of payment & notice content, it will be **FAILED** by our new system.

DON'T print and scan the electronic Adobe form.

DON'T send queries or RFQ's to the submit.egazette mailbox.

DON'T send bad quality documents to GPW. (Check that documents are clear and can be read)

Form Completion Rules

4.	Multi line fields should not have additional hard returns at the end of lines or the field itself. No.	Rule Description	Explanation/example
7. The paragraph breaks are automatically applied by the output software <ul style="list-style-type: none"> ○ Allow the text to wrap automatically to the next line only use single hard return to indicate the next paragraph ○ Numbered lists are allowed, but no special formatting is applied. It maintains the standard paragraph styling of the gazette, i.e. first line is indented.

Definitions

In this Notice a word or expression to which a meaning has been assigned in the Act has that meaning and, unless the context otherwise indicates—

'existing plant' means any plant or process that was legally authorized to operate before 01 April 2010 or any plant where an application for authorization in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) was made before 01 April 2010;

'new plant' means any plant or process where an application for authorization in terms of the National Environmental Management Act, 1998 (Act No.107 of 1998) was made on or after 01 April 2010;

'operator or owner' means a person that owns, manages, or controls—

- (a) small-scale char; or
- (b) small-scale charcoal plants;

'small-scale char' means char plant with a design production capacity not exceeding 20 tons of char per month;

'small-scale charcoal plant' means a charcoal plant with a design production capacity not exceeding 20 tons of char per month; and

'this Notice' include the Annexure to this Notice.

Part 2: General

Purpose

1. The purpose of this Notice is to regulate small-scale char and small-scale charcoal plants.

Application

2. This Notice shall apply to all small-scale char and small-scale charcoal plants which are operating anywhere in the country.

Implementation

3. An Air Quality Officer shall be responsible for coordinating matters pertaining to this Notice.

Compliance timeframes

4. (1) New small-scale char and small-scale charcoal plants must comply with the new plant emission standards as contained in Part 3 immediately.
- (2) Existing small-scale char and small-scale charcoal plants must comply with minimum emission standards for existing plant as contained in Part 3 immediately.
- (3) Existing small-scale char and small-scale charcoal plants must comply with minimum emission standards for new plant as contained in Part 3 by 01 April 2020.

Emission measurements

5. (1) The concentration or mass of pollutant for which emissions standards have been set in this Notice shall be reported as the average of at least three measurements, measured over a minimum sample period of 60 minutes, under normal operating conditions to obtain a representative sample.
- (2) The manner in which measurements shall be carried out must be in accordance with the standard sampling and analysis methods listed in Annexure A of this Notice.
- (3) Methods other than those contained in Annexure A may be used with the written consent of the National Air Quality Officer.
- (4) In seeking the written consent referred, an applicant must provide the National Air Quality Officer with any information that supports the equivalence of the method other than those referred.

4. Once the application documentation is correct, the Regulatory Authority shall formally confirm the date and place to the Applicant for the sample vehicle to be inspected as part of the homologation process (if not already submitted).
5. At the homologation inspection, the Regulatory Authority shall inspect the sample vehicle and verify it against all mandatory requirements and the submitted evidence of conformity in the application documents, to these requirements.
6. Any non-compliances identified in 5 above, shall be resolved by the Applicant, to the satisfaction of the Regulatory Authority.
7. Once the homologation process establishes that the vehicle model complies with all the relevant mandatory requirements of this specification, the Regulatory Authority shall issue a formal Letter of Compliance (Homologation Approval Letter), to the applicant.
8. The original application documents, and copies of supporting evidence of compliance documents, as necessary, shall be taken, and maintained as Homologation Records, by the Regulatory Authority.

Source of evidence

SCHEDULE

COMPULSORY SPECIFICATION FOR MOTOR VEHICLES OF CATEGORY M₂ AND M₃

1 Scope

1.1 This specification covers the requirements for motor vehicle models of category M₂ and M₃, and minibuses, not previously registered or licensed in South Africa, designed or adapted for operation on a public road.

NOTE Except where stated otherwise, a semi-trailer bus should comply with all the requirements of this specification, and, in addition, with any compulsory requirements for the category O or N portions of the combination not covered by this specification.

1.2 The requirements of this specification shall, in so far as the parts already incorporated are concerned, apply in respect of an incomplete motor vehicle model supplied for further manufacture by one manufacturer to another, and the entire specification shall apply to the vehicle after completion thereof by the last-mentioned manufacturer.

1.3 This specification does not apply to experimental or to prototype vehicles constructed or imported by the original manufacturers or importers for the purpose of testing, assessment or development.

1.4 The relevant requirements of this specification shall take effect on the dates as specified in schedule 1.

1.5 Where a South African national standard, including an international standard or a UN ECE regulation adopted by South Africa as a national standard, is incorporated by reference into this specification, only the technical requirements/specification for the commodity and the tests to verify the compliance, apply.

2.6

class I vehicle (urban bus excluding a minibus)
category M₂ or M₃ vehicle that is designed and equipped for urban and suburban transport, and that has, in addition to seating, provision and space for standing passengers, so arranged as to allow for passenger movement associated with frequent stops

2.7

class II vehicle (inter-urban bus excluding a minibus)

COMPETITION COMMISSION

**NOTICE IN TERMS OF SECTION 10(7) OF THE COMPETITION ACT 89 OF 1998 (AS
AMENDED): ETIHAD & AIR BERLIN GRANTED CONDITIONAL EXEMPTION**

1. On 07 October 2014, Air Berlin PLC & Co. Luftverkehrs KG (“**Air Berlin**”) and Etihad Airways PJSC (“**Etihad**”), applied to the Competition Commission (“**the Commission**”), in terms of Section 10(1)(b) of the Competition Act, No.89 of 1998, as amended (“**the Act**”), to be exempted from certain provisions of Chapter 2 of the Act.
2. The Exemption Application concerned the parties’ intention to extend their existing free sale codesharing arrangement to cover joint practices/agreements which contravene the Act. The Exemption was sought for a period of five (5) years, and was based on the premise that the free-sale codeshare agreement is required to obtain the objectives contained in sub-section 10(3)(b)(i) & (iii) of the Act, being the maintenance or promotion of exports and change in productive capacity necessary to stop a decline in an industry.
3. Notice is hereby given in terms of Section 10(7) of the Act that the Commission has, in response to the aforesaid application, granted Air Berlin and Etihad conditional exemption for a period of **five (5) years**, commencing **immediately and ending on 31 August 2020**.
4. The agreements and/or practices which have been exempted contravene Sections 4(1)(b)(i) and 4(1)(b)(ii) of the Act. However, the Commission is satisfied that these agreements and/or practices will contribute towards maintaining or promoting exports on the routes considered, and thus meeting the objective set out in Section 10(3)(b)(i) of the Act.

5. It should be noted that Air Berlin and Etihad or any other person with substantial financial interest affected by the conditional granting of the Exemption may appeal the decision to the Competition Tribunal in terms of Section 10(8) of the Act.
6. The Exemption has been granted subject to the following conditions:

PREAMBLE

- (i) *The conditions below only apply to the proposed scope of the alliance as specified in the joint Exemption Application and for the duration of the Exemption applied for and granted by the Competition Commission ("the Commission");*
- (ii) *The proposed scope of the alliance in the joint Exemption Application by Air Berlin PLC & Co. Luftverkehrs KG ("Air Berlin") and Etihad Airways PJSC ("Etihad") involves certain agreements which allows the two airlines to co-operate on joint commercial activities relating to scheduled passenger flights on a free-sale codesharing basis;*
- (iii) *The proposed scope of the alliance shall cover indirect flights between Germany and South Africa, with Abu Dhabi being a connecting hub, and beyond to points in Middle East, Switzerland and Austria. Further, the proposed scope of the alliance shall allow Etihad and Air Berlin to, amongst other things, jointly price and schedule their codeshare activities in both directions between various German cities (i.e. Hamburg, Berlin, Frankfurt, Munich, Nuremberg, Stuttgart and Dusseldorf) and South African cities (Johannesburg, Cape Town and Durban);*
- (iv) *Etihad and Air Berlin agree to notify the Commission in writing of any material changes to their proposed joint codeshare services or activities between Germany and South Africa (both directions);*
- (v) *The Commission has noted the common involvement of Etihad in both the Etihad-SAA exempted co-operation agreement and the proposed Etihad-Air Berlin proposed alliance;*
- (vi) *The Exemption granted herein to Etihad and Air Berlin shall only be applicable to alliance matters falling within the jurisdiction of the Commission.*

LIST OF CONDITIONS

1. *The Exemption is granted on the basis of the facts and the existing agreements and practices described by Etihad and Air Berlin in their joint Exemption Application. Should the facts and existing relevant agreements and practices as described in the application change materially, the Commission must be notified in writing and such a change can only be implemented after the Commission's written approval. Any new arrangement which affects the suite of agreements and practices described in the joint Exemption Application, or any amendment or addendum to the agreements contained in the joint Exemption Application shall not be of force or effect until approved by the Commission.*

2. *The Exemption applied for and granted by the Commission relates to scheduled passenger airline services offered by Etihad and Air Berlin on the routes as identified in the Preamble above.*
3. *For the duration of the Exemption, Etihad and Air Berlin must always inform their passengers at the time of ticketing, of the carrier actually operating the flight on each sector of their journeys.*
4. *For the duration of the Exemption, Etihad and Air Berlin shall only sell tickets in line with the applicable country to country Air Services Agreements.*
5. *The Exemption granted by the Commission shall only be applicable if Etihad and Air Berlin together operate at least a minimum of seven (7) flying frequencies per week on the Germany to Johannesburg primary route. Should Etihad and Air Berlin decide for any reason to reduce their weekly flying frequencies below the stipulated minimum level, the Commission must be notified and written consent will be required from the Commission for such a change, which consent shall not be unnecessarily withheld or delayed.*
6. *For the duration of the Exemption, Etihad and Air Berlin must comply in all material respects with all statutes, rules, regulations and policies which have the force of law in the airline industry in the Republic of South Africa. These include but not limited to all regulations by regulatory bodies such as the Department of Transport (DOT), the South African Civil Aviation Authority (SACAA) and the Airport Company of South Africa (ACSA).*
7. *For the duration of the Exemption and to prevent possible sharing of competitively sensitive information, discussions between Etihad and Air Berlin in the context of the Exemption will not be disclosed to other airlines.*
8. *For the duration of the Exemption, Etihad and Air Berlin must jointly submit an annual report to the Commission detailing the extent to which they have complied with the set of conditions listed above.*

INTERNATIONAL TRADE ADMINISTRATION COMMISSION
CUSTOMS TARIFF APPLICATIONS
LIST 10/2015

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comments on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>.

These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- ❑ Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ❑ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ❑ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).

Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

1. APPLICATION FOR A REDUCTION IN THE RATE OF CUSTOMS DUTY ON OTHER CANNED MUSSELS IN AIRTIGHT METAL CONTAINERS

The reduction in the rate of customs duty of other canned mussels in airtight metal containers will be through the deletion of tariff subheading 1605.53.20 and the creation of two new tariff subheadings for "smoked" and "other" mussels in airtight metal containers under tariff subheading 1605.53.

kmzinjana@itac.org.za]

REASONS FOR THE APPLICATION AS SUBMITTED BY THE APPLICANT:

- There is no local production of canned smoked mussels and the duty brings additional hardship on the smoked mussel consumer.
- The increase in the rate of customs duty has the effect of increasing the retail price of smoked canned mussels. The average selling price will increase by approximately 27% per unit (including VAT), thus making the subject product an expensive protein.
- The tariff amendment for an increase of duties from 5.5c/kg to 25% ad valorem was incorrect in its application.

PUBLICATION PERIOD:

Representations should be submitted to the above address within **four (4) weeks** of the date of this notice.

2. INCREASE IN THE GENERAL RATE OF CUSTOMS DUTIES ON:

“Aluminium extrusions classifiable under tariff heading 7604.21.15; 7604.29.15; and 7604.29.65, from 5% *ad valorem* to 15 % *ad valorem*”

REASONS FOR THE APPLICATION:

The applicant cited, *inter alia*, the following reason:

- i) Eroded local share of extrusion market as imports of the subject products have increased dramatically.
- ii) The import of low priced extrusion products has had a significant impact on the local extrusion manufacturing and this has forced downsizing of local production;
- iii) Since ITAC implemented the 5% *ad valorem* duty in 2011, the domestic capacity has been eroded; and
- iv) Imports are largely high volume fast moving aluminium extrusion sections. The local extruder is left with low volume, slow moving and more complex extrusions to produce, diminishing their ability to achieve economies of scale and optimum manufacturing cost.

PUBLICATION PERIOD:

Representation must be made within **four (4)** weeks of the date of this notice.

3. INCREASE IN THE GENERAL RATE OF CUSTOMS DUTY ON:

“Steel wire rod classifiable under tariff subheadings 7213.91 and 7227.90, from free of duty to 10% *ad valorem*.”

REASONS FOR THE APPLICATION:

The applicant submitted, *inter alia*, the following reasons for the application:

- i) Chinese wire rod capacity has continued to expand and it is far outstripping local demand;
- ii) Third-country markets are increasingly unavailable to the Chinese product due to their own domestic oversupply and trade measures against Chinese imports;
- iii) Without any immediate action being taken, the increase in imports from China experienced in the market will increase exponentially. This will further exacerbate the injury already being experienced by the domestic manufacturers;
- iv) The local industry wire rod producers (all primary steel manufacturers) have been at a significant competitive disadvantage compared to the imported product thereby incurring significant injury due to low-priced imports; and
- v) The imposition of tariff protection will assist to restore the competitive position of the local manufacturers, ensuring that end-users have a reliable environmentally sustainable local source of wire rod supply. Also it will curb job losses and restore the economic and financial stability within the value chain.

- ii) Tariff support would curb further job losses as large retrenchments have already taken place in the industry;
- iii) Tariff support would encourage the local manufactures to continue investing in the local industry and create further employment;
- iv) It would also assist upstream and downstream service and product providers and enable further investment into the industry value chain; and
- v) The total value chain cannot exist without a primary steel producer. It is essential for South Africa to have the benefits of a fully integrated value chain. Without a primary steel producer the iron ore will be exported and the downstream industry will be exposed to international price fluctuations and supply distortions.
