from Government Printing Works

Dear Valued Customers,

Government Printing Works has implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submits your notice request.

Please take note of these guidelines when completing your form.

GPW Business Rules

1. No hand written notices will be accepted for processing, this includes Adobe forms which have been completed by hand.
2. Notices can only be submitted in Adobe electronic form format to the email submission address submit.egazette@gpw.gov.za. This means that any notice submissions not on an Adobe electronic form that are submitted to this mailbox will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
3. Notices brought into GPW by "walk-in" customers on electronic media can only be submitted in Adobe electronic form format. This means that any notice submissions not on an Adobe electronic form that are submitted by the customer on electronic media will be **rejected**. National or Provincial gazette notices, where the Z95 or Z95Prov must be an Adobe form but the notice content (body) will be an attachment.
4. All customers who walk in to GPW that wish to submit a notice that is not on an electronic Adobe form will be routed to the Contact Centre where the customer will be taken through the completion of the form by a GPW representative. Where a customer walks into GPW with a stack of hard copy notices delivered by a messenger on behalf of a newspaper the messenger must be referred back to the sender as the submission does not adhere to the submission rules.
5. All notice submissions that do not comply with point 2 will be charged full price for the notice submission.
6. The current cut-off of all Gazette's remains unchanged for all channels. (Refer to the GPW website for submission deadlines – www.gpwonline.co.za)
7. Incorrectly completed forms and notices submitted in the wrong format will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za)
8. All re-submissions by customers will be subject to the above cut-off times.
9. All submissions and re-submissions that miss the cut-off will be rejected to the customer to be submitted with a new publication date.
10. Information on forms will be taken as the primary source of the notice to be published. Any instructions that are on the email body or covering letter that contradicts the notice form content will be ignored.

You are therefore advised that effective from **Monday, 18 May 2015** should you not comply with our new rules of engagement, all notice requests will be rejected by our new system.

Furthermore, the fax number **012- 748 6030** will also be **discontinued** from this date and customers will only be able to submit notice requests through the email address submit.egazette@gpw.gov.za.

DO use the new Adobe Forms for your notice request. These new forms can be found on our website: www.gpwonline.co.za under the Gazette Services page.

DO attach documents separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment)

DO specify your requested publication date.

DO send us the electronic Adobe form. (There is no need to print and scan it).

DON'T submit request as a single PDF containing all other documents, i.e. form, proof of payment & notice content, it will be **FAILED** by our new system.

DON'T print and scan the electronic Adobe form.

DON'T send queries or RFQ's to the submit.egazette mailbox.

DON'T send bad quality documents to GPW. (Check that documents are clear and can be read)

APPENDIX A: Risk Matrix (Excel spreadsheet and Risk Assessment Protocol, both available on DWS Website, under section 21 (c) and (i) water use)

Risk is determined after considering all listed control measures. Borderline LOW/MODERATE risk scores can be manually adapted downwards up to a maximum of 25 points (from a score of 80) with list of additional mitigation measures considered and listed in RED font.

Nr.	Phases	Activity	Aspect	Impact	Severity					
					Flow Regime	Physico & Chemical (Water Quality)	Habitat (Geomorph+Vegetation)	Biota	Severity	
1		Example: Clearing of vegetation in close proximity to or in a watercourse	Creating Access roads for infrastructure	Impact posed by damage to bank. Loss of biodiversity & habitat; impeding the flow of the watercourse						

Risk being posed to four "resource quality characteristics of a watercourse" must be scored according to the Risk Rating Table for Severity. Severity is automatically calculated.

Severity	Spatial scale	Duration	Consequence	Frequency of activity	Frequency of impact	Legal Issues	Detection	Likelihood	Significance	Risk Rating
										L

Consequence, Likelihood and finally Significance scores are automatically calculated with rest of parameters according to respective Risk Rating Tables

Risk Rating	Control Measures	Borderline LOW MODERATE Rating Classes	Type Watercourse
L			

RISK = CONSEQUENCE x LIKELIHOOD
CONSEQUENCE = SEVERITY + SPATIAL SCALE + DURATION **LIKELIHOOD = FREQUENCY OF THE ACTIVITY + FREQUENCY OF THE IMPACT + LEGAL ISSUES + DETECTION**

RISK RATINGS CLASS

RATING	CLASS	MANAGEMENT DESCRIPTION	AUTHORISATION
1 – 55	(L) Low Risk	Acceptable as is or consider requirement for mitigation. Impact to watercourses and resource quality small and easily mitigated. Wetlands are excluded.	GA
56 – 169	(M) Moderate Risk	Risk and impact on watercourses are notably and require mitigation measures on a higher level, which costs more and require specialist input. Wetlands are excluded.	WUL
170 – 300	(H) High Risk	Always involves wetlands. Watercourse(s) impacts by the activity are such that they impose a long-term threat on a large scale and lowering of the Reserve.	WUL

Only low risk rating class of all activities planned on the proposed project in the extent of the water course will constitute for a GA in this Notice. Medium and High risk rating class will require a Section 21 c and I water use licence.

Purpose of the “Emergency Protocol”

The purpose of this protocol is to set out the process to be followed and actions to be taken by State Owned Companies (SOC's) or other entities to provide assurance to the DWS in ensuring emergency incidents can be responded to, while at the same time ensuring compliance to the requirements of the National Water Act.

The agreement relates to situations where any person or entity is required to immediately respond by taking necessary action to an emergency situation (defined as an emergency). It is noted that this does not include routine or planned maintenance or to deal with poor project planning.

Emergency Protocol

This “Emergency Protocol” spells out what protocol needs to be followed to remedy “emergency situations”. In terms of Section 67 of the National Water Act” *Dispensing with certain requirements of Act*” the NWA states the following:

(1) In an emergency situation, or in cases of extreme urgency involving the safety of humans or property or the protection of a water resource or the environment, the Minister may

(b) dispense with notice periods or time limits required by or under this Act;

(c) authorise a water management institution to dispense with

(i) the requirements of this Act relating to prior publication or to obtaining and considering public comment before any instrument is made or issued; and

(ii) notice periods or time limits required by or under this Act.

(2) Anything done under subsection (1)

(a) must be withdrawn or repealed within a maximum period of two years after the emergency situation or the urgency ceases to exist; and

(b) must be mentioned in the Minister's annual report to Parliament."

(3) An incident is an event that requires immediate attention that might lead to potential disruption of service delivery.

Examples include the following:

Replacement of stolen or vandalised or damaged underground cables or, overhead power lines, burst pipelines, flooded or damaged bridges and /or related infrastructure, the replacement of/ or repairs to damaged infrastructure.

Described below is the proposed process and definitions.

Process to respond to Emergency Incidents that have a water use implication in terms of section 21 water uses of the NWA.

Definitions:

Emergency incident: As defined in the NWA.

Protocol to be followed:

Any person that must attend to an emergency must notify the regional office or CMA about the emergency immediately and provide all required documents to the relevant region(s) within 1 month thereafter according to the specified protocol in this document. Should the incident take place over a weekend or public holiday (outside DWS working hours), the documents can be forwarded to DWS and receipt be followed-up on the day after the weekend or holiday.

- 1) **Relevant DWS regional office to be notified about the emergency incident** by means of an email and or 24 hour hotline of DWS.

The document emailed must as a minimum contain the following information:

 - a. Date of occurrence of the emergency incident
 - b. Date at which any person became aware of the emergency incident
 - c. Nature of emergency incident
 - d. A motivation and definition of the emergency
 - e. Description, location and receiving environmental sensitivity of emergency incident
 - f. Description of the actions and environmental management and rehabilitation emergency plan required to be taken to respond to the emergency incident
 - g. Date(s) when the actions will be taken (or taken place)
 - h. Contact persons details
- 2) **Risk Matrix to be used to determine the level of risk posed to the resource quality characteristics of the watercourse** in terms of the action required to be undertaken in response to the emergency incident.

3) The following is a list of the required information that must be submitted to the relevant regional office of DWS within 1 month following the incident to enable the regional office or CMA to determine whether the activities qualifies for this Notice or whether another entitlement should be applied for (*post facto* licence)
