Notice Submissions Rule: Single notice, single email

Dear Valued Customer,

Over the last six months, GPW has been experiencing problems with many customers that are still not complying with GPW's rule of **single notice, single email** (with proof of payment or purchase order).

You are advised that effective from **18 January 2016**, all notice submissions received that do not comply with this rule will be failed by our system and your notice will not be processed.

In the case where a Z95, Z95Prov or TForm3 Adobe form is submitted with content, there should be a separate Adobe form completed for each notice content which must adhere to the single notice, single email rule.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an electronic Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

To those customers who are complying with this rule, we say Thank you!

Regards,

Government Printing Works

Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

Your request for cancellation must be accompanied by the relevant notice reference number (N-).

AMENDMENTS TO NOTICES

take!
note!

With effect from 01 October, GPW will not longer accept amendments to notices. The cancellation process will need to be followed and a new notice submitted thereafter for the next available publication date.

Until then, amendments to notices must be received before the submission deadline.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While GPW deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

GPW has a **2-working day turnaround time for processing notices** received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

PROOF OF PAYMENTS

GPW reminds you that all notice submissions **MUST** be submitted with an accompanying proof of payment (PoP) or purchase order (PO). If any PoP's or PO's are received without a notice submission, it will be failed and your notice will not be processed.

When submitting your notice request to submit.egazette@gpw.gov.za, please ensure that a purchase order (GPW Account customer) or proof of payment (non-GPW Account customer) is included with your notice submission. All documentation relating to the notice submission must be in a single email.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

Significance

The Klasies River Cave Complex has yielded some of the earliest and most extensive evidence for anatomically modern humans in southern Africa, and some of the oldest behavioural evidence for a coastal economy through the extensive use of marine resources in Africa. The site also preserves the most extensive record on stone artefact technology, food gathering and settlement organisation in the Middle Stone Age in sub-Saharan Africa.

The Malapa Palaeo-anthropological site has produced some of the most complete assemblages of early human ancestors ever found, and the most complete remains of any hominid dating to around two million years ago, the newly discovered species of human ancestor known as *Australopithecus sediba*. In addition, skeletons of a sabre-toothed cat, antelopes, mice and hares have also been discovered.

BOARD NOTICE 31 OF 2016**HSRC Language Policy 1998 – Amended 2015**

Subject: Use of Official Language Policy at the HSRC

HSRC: Communication & Stakeholder Relations (RIA)

1.) Purpose

To provide the HSRC clear policy guidance, procedures and instructions for language use within the HSRC as stipulated in the Use of Official Languages Regulations, 2013, and the National Language Policy Framework, 2003. All these documents are ultimately intended to give effect to section 6 of the Constitution of the Republic of South Africa.

2.1) Authority

HSRC Board and Executive Management

3.1) Owner

The Director of Communication & Stakeholder Relations, Research Use and Impact Assessment (RIA).

4.1) Scope

This document deals with the policy, procedures and instructions on the use of language within the HSRC and to its stakeholders.

5.1) Responsibility:

It is the responsibility of:

- Every staff member to ensure that he/she complies with the policy.
- Every line manager/supervisor/project leader to ensure that this policy is enforced and complied with.

6.1) Definitions

- Official language(s): any one (or more) of the 11 official languages of South Africa as recognised in Section 6 of the South African Constitution, Act No. 108 of 1996.
- Language of business: In the context of a multilingual language policy the language of the business is the language that the organisation uses.
- Responsible person: Person (line manager/supervisor/project leader) who ensures that the language policy is enforced and that funds are available. He/She must ensure that all standards are applied for editing and or translation of all documents.

- Professional attention: Document submitted to the Language Committee for editing or translation. If this cannot be done by a competent editor or translator within the Committee then it can be outsourced to a competent person or company.

7.1) Rationale

As a research institution that serves all the people of South Africa and closely co-operates with the international scientific community, the HSRC requires an appropriate language policy, and procedures and instructions to implement this policy.

The Department of Science and Technology (DST) has indicated to all its entities that three of our 11 official languages will be utilised until all other languages are phased in over the next few years.

As English is the language of common use in Parliament, the DST, South African government departments, the public entities reporting to the DST and international business and science communication, one of the three official languages used by the DST will be English. According to the 2011 census, isiZulu and Sepedi are the most widely spoken first languages in the two largest South African language groups Nguni and Sotho. These two languages have been selected by the DST and its entities.

Policy

8.1 General Character

- The HSRC's language policy represents the organisation's commitment to multilinguality. The policy stipulates the minimum requirements agreed to with regard to language use in and by the HSRC. It by no means restricts the wider use of the official languages of South Africa or even the appropriate use of international languages.
- the HSRC recognises all 11 official languages of South Africa and uses them singularly, consecutively or simultaneously in any combination as practically needed for all its activities, taking into account:
 - language usage
 - practicality (the business language for the organisation)
 - expense
 - regional circumstances
 - needs and preferences of its clients
 - those who collaborate in its projects.

8.2 External communication

- Communication with our external stakeholders will be in English and will be translated into one or more of the official languages. In the case of correspondence to people outside of South Africa it will be done in an appropriate language(s). For instance, all reports will be in English. Executive summaries (annual reports, research reports) will be translated in one or more of the other official languages if needed. In terms of questionnaires and interview schedules these will be translated in accordance with the research protocol.
- Communication with persons outside the HSRC is, where practical, in the language preferred by the individual. This applies to limited readership documents, such as letters, invitations and reports for specific clients.

8.3 Internal communication

- Communication involving most or all staff members is, where practicable, in more than one of the official languages. This applies to documents such as in-house magazines, corporate notices and strategic information, events and functions such as general staff meetings.

Internal communication involving small groups of staff members will be done in one or more of the official languages. This applies to communication within, for example, a research group, division, section, unit and programme, and to meetings, internal workshops and training classes.

The choice of the language for communication with an individual staff member is guided by respect for the individual's language preference, courtesy and the language knowledge of both parties.

8.4 General

- The HSRC is committed to promote a high standard of language use, particularly in official documents.
- The implementation of the HSRC language policy is supported by:
 - The establishment of a language unit which is responsible for monitoring the implementation of this language policy and for making recommendations on these matters in the HSRC.
 - The provision of language assistance and direction to staff members.

- Complaints will be dealt with in terms of Regulation 2(2) of the Use of Official Languages Regulations.

9. Review of language policy

This policy will be reviewed at least every two years.

Authorisation:

This Policy Document was approved by the HSRC Board and the CEO on 29 **May 2015** after consultation with interested parties.
