Notice Submissions Rule: Single notice, single email

Dear Valued Customer,

Over the last six months, GPW has been experiencing problems with many customers that are still not complying with GPW's rule of **single notice, single email** (with proof of payment or purchase order).

You are advised that effective from **18 January 2016**, all notice submissions received that do not comply with this rule will be failed by our system and your notice will not be processed.

In the case where a Z95, Z95Prov or TForm3 Adobe form is submitted with content, there should be a separate Adobe form completed for each notice content which must adhere to the single notice, single email rule.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an electronic Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

To those customers who are complying with this rule, we say Thank you!

Regards,

Government Printing Works

**SOUTH AFRICAN HERITAGE RESOURCES AGENCY****DECLARATION OF THE GRAVES OF DR JAMES MOROKA AND MR THOMAS
MAPIKELA AS NATIONAL HERITAGE SITES**

By virtue of the powers vested in the South African Heritage Resources Agency, in terms of section 27 (5) of the National Heritage Resources Act (No. 25 of 1999) SAHRA hereby declares the:

The Grave of Dr James Moroka, located in the Thaba Nchu Cemetery 5162 Brant Street

And

The Grave of Mr Thomas Mapikela, located in the Hereo's Acre in Phahameng Cemetery, Bloemfontein

Statement of Significance

The graves of the iconic leaders of the liberation struggle movements are a tangible representation of the intangible heritage aspects of organised resistance and defiance campaigns, against successive racially repressive regimes. They transcend different responses to eighty (80) years of intensification of repressive laws from deputations, passive resistance, defiance campaigns to armed struggle and mass struggles. They represent a conviction to a just political cause and attainment of political freedom leading to denial of personal liberties and an ultimate price of banning orders, house arrest, political assassinations, banishment, exile, political imprisonment and in-detention death.

Dr JAMES SEBE MOROKA – President of the African National Congress (1949-1952) (A medical doctor, Surgeon and politician, who was the president of the ANC between 1949 and 1952)

Dr James Moroka was the great grandson of Chief Moroka 1 of the Barolong Boo Moroka at Thaba Nchu.

He was a medical doctor and politician. In 1942 he became involved in the ANC and with the support of Walter Sisulu, Nelson Mandela and their militant Congress the Youth League. He was became president of the ANC in 1949. During his presidency the ANC became more militant. In April 1952 a mass meeting was held in Red Square, Fordsburg (now called Freedom Square) and in the main centre of the Union, which he addressed.

THOMAS MTOBI MAPIKELA – Founding Father of the African National Congress in 1912 (Political icon, tireless campaigner for African civic representation, craftsman, builder and businessman and symbol of resilience and unity)

In 1909 he was a member of the South African Native Convention deputation to London, England, which tried unsuccessfully to persuade the British parliament to reject the draft constitution. He was elected as a speaker of the South African Native Convention, at the founding Convention in January 1912 a position he held until 1940. He was part of a delegation that went to the Minister of Native Affairs and protested against the impending Native Land Act. He further went to persuade the British King and parliament as apart of a delegation to reconsider the Native Land Act accepted by Parliament in 1913.

Mapikela was one of the organizers of All-African Convention held in 1935, to oppose the second Hertzog Bills and the removal of Africans in the Cape from the Common Voters roll. In 1937 he was elected to serve in the Native Representative Council. Two years before his death in 1943 he was a member of the African Atlantic Charter Committee, which had to study, and discuss problems arising out of the Atlantic Charter in so far as it related to Africa.

In exercising the powers, I have given preference to the maintenance of the Reserve, treated all water users on a basis that is fair and reasonable, considered the actual extent of the water shortage, the likely effects of the shortage on the water users, the strategic importance of any water use and any water rationing or water use limitations by a water services institution having jurisdiction in the area concerned under the Water Services Act 108 of 1997.

Placing limitation on the taking of water use as set out in this notice is an administrative action affecting the rights of the public as contemplated in section 4 of the Promotion of Administrative Justice Act 3 of 2000 (PAJA). After I have taken into consideration all relevant factors, including those referred in section 4 (4) (b) of PAJA, I have decided that it is reasonable and justifiable in the circumstances to depart from the requirements referred to in section 4 (1) (a) to (e), (2) and (3) of PAJA and instituted this limitation without allowing the water users affected and other role players to comment on the matter before I institute the limitation.

This notice overrides any other previous authorization on water restrictions issued by the Department relating to this area.

DEPARTMENT OF TRADE AND INDUSTRY**NOTICE 149 OF 2016****INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF AN INITIATION OF THE INVESTIGATION FOR REMEDIAL ACTION IN THE FORM OF A SAFEGUARD AGAINST THE INCREASED IMPORTS OF CERTAIN FLAT-ROLLED PRODUCTS OF IRON, NON-ALLOY STEEL OR OTHER ALLOY STEEL (NOT INCLUDING STAINLESS STEEL), WHETHER OR NOT IN COILS (INCLUDING PRODUCTS CUT-TO-LENGTH AND 'NARROW STRIP'), NOT FURTHER WORKED THAN HOT-ROLLED (HOT-ROLLED FLAT), NOT CLAD, PLATED OR COATED, EXCLUDING GRAIN-ORIENTED SILICON ELECTRICAL STEEL**

The International Trade Administration Commission of South Africa (the Commission) decided to proceed with an investigation for remedial action in the form of a safeguard against the increased imports of certain flat-rolled products of iron, non-alloy steel or other alloy steel (not including stainless steel), whether or not in coils (including products cut-to-length and 'narrow strip'), not further worked than hot-rolled (hot-rolled flat), not clad, plated or coated, excluding grain-oriented silicon electrical steel.

Based on the information submitted, the Commission decided that the applicant submitted prima facie information to indicate:

- Events cited can be regarded as unforeseen developments that led to the increased volumes of imports;
- surge in the volumes of imports; and
- SACU industry is suffering serious injury;
- There is a causal link between the serious injury suffered by the applicant and the surge in volumes of imports.

THE APPLICANT

The application was lodged by South African Iron & Steel Institute (SAISI) an industry body, on behalf of its members producing the subject products.

DESCRIPTION OF THE SUBJECT PRODUCT UNDER INVESTIGATION

The subject product is described as certain flat-rolled products of iron, non-alloy steel or other alloy steel (not including stainless steel), whether or not in coils (including products cut-to-length and 'narrow strip'), not further worked than hot-rolled (hot-rolled flat), not clad, plated or coated, excluding grain-oriented silicon electrical steel, imported under tariff subheading 7208.10, 7208.25, 7208.26, 7208.27, 7208.36, 7208.37, 7208.38, 7208.39, 7208.40, 7208.51, 7208.52, 7208.53, 7208.54, 7208.90, 7211.14, 7211.19, 7225.30, 7225.40, 7225.99, 7226.91 and 7226.99.

DESCRIPTION OF THE LIKE OR DIRECTLY COMPETITIVE SACU PRODUCT

The SACU product is described as certain flat-rolled products of iron, non-alloy steel or other alloy steel (not including stainless steel), whether or not in coils (including products cut-to-length and 'narrow strip'), not further worked than hot-rolled (hot-rolled flat), not clad, plated or coated, excluding grain-oriented silicon electrical steel.

ALLEGATION OF SERIOUS INJURY AND CAUSAL LINK

The period of investigation for data evaluation for the purposes of determining the allegation of serious injury is 01 January 2012 to 31 December 2014 plus additional seven months information for 2012 to 2015 (01 January to 31 July).

The injury analysis relates to information submitted by ArcelorMittal South Africa Limited (AMSA's), a member of SAISI with a collective output of the like or directly competitive products constituting a major proportion (approximately more than 70%) of the total domestic production of those products.

The Applicant alleged and submitted *prima facie* information indicating that it is experiencing serious injury in the form of a decline in sales volumes, output, market share, utilisation of capacity and employment for the period 1 January 2012 to 31 December 2014.

The applicant further experienced serious injury in the form of a decline in sales volumes, output, market share, and utilisation of capacity for the seven months period 1 January to 31 July (2012 – 2015).

On this basis the Commission found that *prima facie* information was submitted to indicate that the SACU industry was suffering serious injury which could be causally linked to the surge in the volumes of imports of the subject products.

UNFORESEEN DEVELOPMENTS

The Applicant submitted that a confluence of events forms the basis of the unforeseen development that supports this application. That is, ultimately the considerable oversupply of steel, and specifically the subject products, in the world today causing a surge in the volumes of imports into the SACU.

The Applicant stated that during the Uruguay Round of negotiations, South Africa did not foresee the following events:

- The unprecedented steep rate of increase in steel production capacity (including the subject products) over the ensuing two decades (more than doubled since 1994) to support growing construction and manufacturing activity, as well as to help build infrastructure, particularly in emerging economies;
- The significant market downturns in emerging (and other) economies and the resultant contraction of demand for steel that contribute to the imbalance between capacity and demand, that is, the global oversupply of steel (including the subject products);
- Record export volumes by countries with excess capacity, fuelled by excess steel supply;
- Given the global nature of the steel industry, excess capacity in one region can potentially displace production in other regions, thus harming producers in those markets. This has already led to several trade actions by major steel markets.

Recent trade measures by those countries are a result of all the above named unforeseen developments, and the fact that their markets are now protected, contracts the global demand for steel even further, exasperating the problem of increased imports into the SACU;

- The oversupply of steel (including the subject products) has led to a deterioration in the financial situation of steelmakers globally and also the SACU. The excess capacity is considered as one of the main challenges facing the global steel sector today; and
- Despite slowing demand growth and the existing excess capacity, there are several new investment projects underway and planned (especially in current net-importing countries) in the steel industry that will result in global steelmaking capacity to continue to expand and causing the SACU to expect further increases of imports of the subject products.

LEGAL FRAMEWORK

This investigation will be conducted in accordance with the International Trade Administration Act, 2002 (ITA Act) and the International Trade Administration Commission Safeguard Regulations (SGR) read with the World Trade Organization Agreement on Safeguards (the Safeguard Agreement).

Please note that if any information is considered to be confidential, a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version, the following rules are strictly applicable and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- in exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality.
