A message from Government Printing Works

Notice Submissions Rule: Single notice, single email

Dear Valued Customer,

Over the last six months, GPW has been experiencing problems with many customers that are still not complying with GPW's rule of **single notice, single email** (with proof of payment or purchase order).

You are advised that effective from **18 January 2016**, all notice submissions received that do not comply with this rule will be failed by our system and your notice will not be processed.

In the case where a Z95, Z95Prov or TForm3 Adobe form is submitted with content, there should be a separate Adobe form completed for each notice content which must adhere to the single notice, single email rule.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an electronic Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

To those customers who are complying with this rule, we say Thank you!

Regards,

Government Printing Works

Government Printing Works

Notice submission deadlines

Government Printing Works has over the last few months implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submit your notice request.

In line with these business rules, GPW has revised the notice submission deadlines for all gazettes. Please refer to the below table to familiarise yourself with the new deadlines.

ORDINARY GAZETTES

Government Gazette Type	Publishing Frequency	Publication Date	Submission Deadline	Cancellations Deadline
National Gazette	Weekly	Friday	Friday 15h00 for next Friday	Tuesday, 12h00 - 3 days prior to publication
Regulation Gazette	Weekly	Friday	Friday 15h00, to be published the following Friday	Tuesday, 12h00 - 3 days prior to publication

National Liquor License Gazette	Monthly	First Friday of the month	Two weeks before publication	3 days after submission deadline
Mpumalanga Liquor License Gazette	2 per month	Second & Fourth Friday	One week before	3 days prior to publication

CANCELLATIONS

Don't forget!

Cancellation of notice submissions are accepted by GPW according to the deadlines stated in the table above. Non-compliance to these deadlines will result in your request being failed. **Please pay special attention to the different deadlines for each gazette.**

Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

Your request for cancellation must be accompanied by the relevant notice reference number (N-).

AMENDMENTS TO NOTICES

take!
note!

With effect from 01 October, GPW will not longer accept amendments to notices. The cancellation process will need to be followed and a new notice submitted thereafter for the next available publication date.

Until then, amendments to notices must be received before the submission deadline.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While GPW deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

GPW has a **2-working day turnaround time for processing notices** received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

PROOF OF PAYMENTS

REMINDER

GPW reminds you that all notice submissions **MUST** be submitted with an accompanying proof of payment (PoP) or purchase order (PO). If any PoP's or PO's are received without a notice submission, it will be failed and your notice will not be processed.

When submitting your notice request to submit.egazette@gpw.gov.za, please ensure that a purchase order (GPW Account customer) or proof of payment (non-GPW Account customer) is included with your notice submission. All documentation relating to the notice submission must be in a single email.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

FORMS AND GAZETTES

The electronic Adobe Forms and published gazettes can be found on our website: www.gpwonline.co.za

Should you require assistance with downloading forms or gazettes, please contact the eGazette Contact Centre who will gladly assist you.

eGazette Contact Centre

Telephone: 012-748 6200

REMINDER OF THE GPW BUSINESS RULES

- Single notice, single email – with proof of payment or purchase order.
- All documents must be attached separately in your email to GPW.
- 1 notice = 1 form, i.e. each notice must be on a separate form
- Please submit your notice **ONLY ONCE**.
- Requests for information, quotations and inquiries must be sent to the Contact Centre **ONLY**.
- The notice information that you send us on the form is what we publish. Please do not put any instructions in the email body.

For purposes of reference, all Proclamations, Government Notices, General Notices and Board Notices published are included in the following table of contents which thus forms a weekly index. Let yourself be guided by the gazette numbers in the righthand column:

Alle Proklamasies, Goewermentskennisgewings, Algemene Kennisgewings en Raadskennisgewings gepubliseer, word vir verwysingsdoeleindes in die volgende Inhoudopgawe ingesluit wat dus weeklikse indeks voorstel. Laat uself deur die Koerantnommers in die regterhandse kolom lei:

ECONOMIC DEVELOPMENT DEPARTMENT

NO. 425

15 APRIL 2016

COMPETITION COMMISSION

NOTICE IN TERMS OF SECTION 10(7) OF THE COMPETITION ACT NO. 89 OF 1998, AS AMENDED – REFUSAL OF ETIHAD AND ALITALIA EXEMPTION APPLICATION

1. On 21 May 2015, Etihad Airways PJSC (“Etihad”) and Alitalia Societa Aerea Italiana S.p.A (“Alitalia”) applied to the Competition Commission (“the Commission”) to be exempted from certain provisions of Chapter 2 of the Act in terms of section 10(1)(b) of the Competition Act, No.89 of 1998, as amended (“the Act”).
2. The exemption application concerned the parties’ intention to enter into various agreements, including a Commercial Co-operation Agreement, in terms of which the parties would freely cooperate on, *inter alia*, joint pricing, joint route and services schedule coordination, as well as the sharing of commercially sensitive information such as that for passenger bookings/itineraries, frequent flyer programs, fare and fare rules, which is in contravention of the Act.
3. The exemption was sought for a period of five (5) years and was based on the premise that, if approved, the agreements forming the basis of the exemption application would satisfy the objectives contained in sub-section 10(3)(b)(i) and (iii) of the Act in that the proposed arrangement would contribute to (i) the maintenance or promotion of exports; and (ii) change in the productive capacity necessary to stop a decline in an industry; respectively.
4. In terms of section 10(7) of the Act, notice is hereby given of the Commission’s refusal to grant Etihad and Alitalia an exemption in respect of their application filed with the Commission on 21 May 2015.
5. The agreements and/or practices which the parties seek to be exempt amount contraventions in terms of section 4(1)(b)(i) and 4(1)(b)(ii) of the Act. However, the Commission is not satisfied that such agreements and/or practices will contribute towards meeting the objectives as set out in section 10(3)(b)(i) and (iii) of the Act.
6. It should be noted that the parties or any other person with a substantial financial interest affected by the refusal of the exemption may appeal this decision to the Competition Tribunal in the prescribed manner.
7. Such representations must also be directed to either Selelo Ramohlola on SeleloR@compcom.co.za or Marlon Dasarath on MarlonD@compcom.co.za. Kindly refer to the following Case No: **2015MAY0262** in any correspondence.

PREAMBLE

WHEREAS the purpose of the Competition Act 1998 (Act 89 of 1998), as amended (the Act), is to promote and maintain competition in South Africa in order to amongst other, provide consumers with competitive prices and product choices, ensure small and medium sized entities have an equal opportunity in participating in the country's economy and to promote and increase ownership especially of historically disadvantaged persons;

AND WHEREAS the Commission is established in terms of Section 19 of the Act 1998 (Act 89 of 1998), as amended (the Act), to ensure the purpose of the Act is realised in part by inter alia implementing and invoking the provisions of Chapter 2 and 3 of the Act;

AND WHEREAS the the Act in section 21(1)(h) read with sections 3(3)(b) and 82(1) and 82(3) of that Act requires the parties to enter into an agreement in order to:

- a) Identify and establish procedures for the management of concurrent jurisdiction;
and
- b) Co-ordinate and harmonize the exercise of jurisdiction over competition matters within the agricultural industry.

AND WHEREAS the Department in terms of various pieces of legislation, grants rights and/or certain other benefits including permits and financial assistance to 3rd persons and also regulates the fisheries, forestry and agriculture sectors in South Africa, in fulfilment of its mandate,

AND WHEREAS the the granting of such rights and/or benefits to 3rd persons and certain industry roleplayers may impact on the purpose of the Act;

AND WHEREAS FURTHER the parties recognise it would be mutually beneficial to work together in promoting the purpose of the Act and the Department's mandate;

A handwritten signature in black ink, consisting of a stylized 'A' followed by a large, looped 'B'.

NOW THEREFORE the parties agree to co-operate with each other as follows:

1. Objectives and Scope

The objective of this agreement is to establish a formal basis for

- 1.1 Co-operation in the exercise of concurrent jurisdiction over competition matters within the agricultural, forestry and fisheries sector.
- 1.2 Managing areas of concurrent jurisdiction.
- 1.3 Promoting co-operation between the parties in general, including in respect of setting standards or conditions that affect competition in the agricultural, forestry and fisheries sectors, any joint investigations and/or research studies that the parties may agree to undertake and
- 1.4 Providing for the exchange of information and protection of confidential information.

2. Commencement and duration

The Agreement shall commence on the date of signature thereof by the party last to sign it and shall endure until termination in accordance with clause 7.

3. Approval of Merger Transactions

Application for Merger Approval: Concurrent Jurisdiction

- 3.1 Where a transaction appears to the Department or the Commission to require the approval of both parties, the parties may consult each other in terms of clause 3.2 below.
- 3.2 The parties may consult each other for purposes of evaluating the manner in which the transaction may be managed. In doing this, the parties must have regard to the principle that:
 - 3.2.1 the Commission is to exercise primary authority in the review of mergers within the agricultural, forestry and fisheries sector in order to give effect to the the Act; and
 - 3.2.2 the Department has primary authority to exercise powers and perform duties assigned to it in terms of various legislation.

Application for merger approval: No concurrent jurisdiction

- 3.3 Where an application to the Commission or the Department requires the approval of either party, but not both, the following shall apply -
 - 3.3.1 if the Department is the party whose approval is required, it may, if it is required by law or Policy take into account considerations of competition,

and if it deems it necessary consult with and obtain input from the Commission so as to ensure the consistent application of competition principles to the transaction in question.

- 3.3.2 if the Commission is the party whose approval is required, it may, if it deems it necessary to take into account regulatory aspects that affect or relate to the agricultural, forestry and fisheries sector regulated by the Department, consult with and obtain input from the Department so as to ensure the consistent application of regulatory principles to the transaction in question.

4. Investigation of complaints into prohibited practices

- 4.1 Where a complaint is lodged about a practice in respect of which the parties have concurrent jurisdiction, the following process shall be followed –

4.1.1 the party that receives the complaint (“the recipient party”) shall ensure that the said complaint is made available to the other party within seven (7) days after a formal decision to investigate the complaint has been taken;

4.1.2 where the recipient party deems it appropriate, the recipient party may inform the complainant(s) that the matter will be discussed jointly by the Commission and the Department in terms of this Agreement;

4.1.3 the parties shall consult with each other in order to establish how the matter may be managed and/or resolved; and

4.1.4 In evaluating how the complaint may be managed, the parties must have regard to the principle that –

(a) the Commission is to exercise primary authority to detect and investigate alleged prohibited practices in order to give effect to the the Act; and

(b) taking into account the powers and roles of the provincial departments of agriculture, the Department has primary authority to exercise powers and perform duties assigned to it in terms of the relevant legislation.

4.1.5 In the event that the matter is dealt with by the Commission, representatives from the Department may participate in the matter through, inter alia, attending meetings when required, providing inputs during the investigation of the complaint, and making representations at the Competition Tribunal hearing if necessary;

- 4.1.6 In the event that the matter is dealt with by the Department, representatives from the Commission may participate in the matter through, inter alia, attending meetings when required, providing inputs during the case investigation, and making representations at the Department's proceedings if necessary;
- 4.2 If the complaint relates to a matter where either the Commission or the Department has jurisdiction, but there is no concurrent jurisdiction, the following shall apply –
- 4.2.1 the recipient party or the complainant must lodge the complaint with the party that has jurisdiction;
- 4.2.2 if upon receiving a complaint, the party is of the view that it does not have jurisdiction over the matter; the recipient party shall advise the complainant(s) accordingly and recommend that the complainant(s) refer the matter to the relevant party;
- 4.2.3 if the Department is the party that has jurisdiction, it may if it deems it necessary take into account considerations of competition, consult with and obtain input from the Commission so as to ensure the consistent application of competition principles to the matter in question; and
- 4.2.4 If the Commission is the party that has jurisdiction, it may if it deems it necessary take into account regulatory aspects that are subject to the jurisdiction of the Department, consult with and obtain input from the Department so as to ensure the consistent application of the regulatory principles to the matter in question.
- 4.3. The decision by the relevant party that has jurisdiction over the complaint to consult the other regulatory authority shall be discretionary and voluntary.

5. Establishment of a Joint Working Committee

- 5.1 A Joint Working Committee ("the Committee") constituted by representatives of the Commission and the DAFF, as nominated by the respective parties, shall be established pursuant to this Agreement and shall function on an on-going basis.
- 5.2 The functions of the Working Committee shall be to:
- 5.2.1 Manage and facilitate co-operation and consultation in respect of matters dealt with by each regulator in terms of this Agreement;
- 5.2.2 Propose, when necessary, any amendment of or supplementation to this Agreement;

5.2.3 Advise management of both the Commission and the DAFF on issues affecting competition in the agriculture, forestry and fisheries sector, as the case may be, and make recommendations on how to deal with same. Such advice shall be on, but not limited to the following:

- (a) Types of conduct or transactions affected by both the Act and the respective legislation administered by the Department in respect of which concurrent jurisdiction is to be exercised by the parties;
- (b) International approach to issues of jurisdictional overlap between a commission and the Department, as the case may be;
- (c) Amendments to the relevant or applicable statutes that may be necessary from time to time; and
- (d) Any other related matter.

6. Specific Areas of concurrent jurisdiction between the parties

The Department is responsible for the following functional areas which the parties agree may share concurrent jurisdiction with the commission, namely:

6.1 The Marine Living Resources Act No 18 of 1998 (MLRA)

6.1.1 In terms of section 23 of the Marine Living Resources Act No 18 of 1998 provides that no person shall use a fishing vessel or any other vessel to exercise any right of access unless a local fishing licence has been issued to such a person

6.1.2 In terms of section 18 of the Marine Living Resources Act No. 18 of 1998 provides that no person shall undertake commercial fishing or subsistence fishing or operate a fish processing establishment unless a right to undertake or engage in such an activity or to operate such an establishment has been granted to such a person by the Minister

6.1.3 The Policy for the Transfer of Commercial Fishing Rights issued by the Minister and gazetted on the 31 July 2009 makes reference to the creation of a fair competitive industry where no one firm is allowed to dominate. The Transfer policy states that:

- a) Whilst the Department encourages the consolidation of Right Holders in the Fishing Industry, the Department is opposed to monopolies which may operate to the detriment of smaller Right Holders in any fishing sector. The Department will not determine a maximum

threshold of the Total Allowable Catch (TAC) that any one Right Holder may hold or control, but will monitor whether any large Right Holder acts in a manner contrary to fair competition practices.

- b) A licence transfer may constitute a merger in terms of section 12 of the the Act, if the combined annual turnover or assets of both the acquiring and the target firms meet the merger thresholds in the Act (<http://www.comtrib.co.za/assets/Uploads/The-Act/Merger-thresholds-gg31957nn216pg90-96.pdf>)

6.1.4 Therefore the parties recognise concurrency of jurisdiction with regards to the consideration of the effects on competition occasioned by the transfer of a licence in terms of the Policy for the Transfer of Commercial Fishing Rights of the Department and the acquisition of control in terms of section 12(1)(a) of the Act.

7. Exchange of Information

7.1 Subject to paragraph 8 below, the parties shall endeavour to exchange information necessary to give effect to this Agreement.

8. Treatment of Confidential Information

8.1 Any confidential information shared pursuant to this Agreement shall be used only for lawful purposes.

8.2 The Parties shall share confidential information subject to their statutory confidentiality obligations.

8.3 The party providing confidential information pursuant to this Agreement shall clearly indicate what information is confidential to the requesting party.

8.4. The party requesting confidential information may be required to submit a written confidentiality undertaking in respect of the confidential information provided by the other party.

9. Termination

9.1 This Agreement may be terminated by either party on written notice of 2 (two) months to the other party or by written agreement between the parties.

9.2 On termination of the Agreement in accordance with clause 8.1, the parties must negotiate and enter into another agreement consistent with sections 3(3), 21 and 82 of the the Act.

10. Dispute Resolution

Should any dispute or difference arise between the Parties with regard to interpretation and/or implementation of any one or more of the provisions of this Agreement, such dispute or difference must be resolved in a manner other than through judicial proceedings as provided for in section 40(1)(b) of the Intergovernmental Relations Framework Act 13 of 2005.

11. Mutual Cooperation and Good Faith

The parties shall, in their dealings with each other, display the utmost good faith, consult and support each other from time to time with regard to any assistance or advice which they may require in connection with fulfilling the objectives of this Agreement.

12. Representatives

12.1 The parties designate the following individuals who will have the authority to administer this Agreement on their behalf and who will be responsible for the communication between them:

12.1.1 for the Department: The Director General

and

12.1.2 for the Commission: Head: Stakeholder Relations

13. Domicilium citandi ex excutandi

13.1 The parties elect the following addresses as their respective address for purposes of this Agreement. Any notice, request, consent, or other communication made between the parties pursuant to this Agreement shall be in writing and shall be deemed to have been made when delivered in person to representative of the party referred to in clause 11.1 or when sent by registered post, telex, telegram or facsimile to such representative:

DEPARTMENT OF ENVIRONMENTAL AFFAIRS

NO. 427

15 APRIL 2016

**NATIONAL ENVIRONMENTAL MANAGEMENT: BIODIVERSITY ACT, 2004
(ACT NO. 10 OF 2004)****DRAFT BIODIVERSITY MANAGEMENT PLAN FOR HARTEBEESSPRUIT ECOSYSTEM**

I, Bomo Edith Edna Molewa, Minister of Environmental Affairs, hereby under section 43(1)(a)(ii) read with sections 43(3) and 100 of the National Environmental Management: Biodiversity Act, 2004, publish the Biodiversity Management Plan for the Hartebeesspruit Ecosystem, set out in the Schedule hereto.

Members of the public are invited to submit to the Minister, within 30 days of the publication of the notice in a *Gazette*, written representations on, or objections to the draft Biodiversity Management Plan to the following addresses:

Hand delivered to: Department of Environmental Affairs
Attention: Ms Pamela Kershaw
473 Steve Biko Road
Arcadia, Pretoria

By post to: The Director-General
Department of Environmental Affairs
Attention: Ms Pamela Kershaw
Private Bag X447
PRETORIA
0001

By fax to: 086 541 1102 or 012 399 3636.

By e-mail to: pkershaw@environment.gov.za.

An electronic copy of the draft BMP can be downloaded from the link:
<http://www.environment.gov.za/Documents/>.

Comments received after the closing date may not be considered.

BOMO EDITH EDNA MOLEWA
MINISTER OF ENVIRONMENTAL AFFAIRS

Executive Summary

Inter-connectivity between biodiversity conservation, poverty alleviation and sustainable development is well-recognised as an integral part to sustaining life and livelihoods. Humankind and all other forms of life directly depend on biodiversity for their very existence. Our rich biodiversity forms an ecological treasure chest used by humankind for agricultural, medicinal, horticultural, structural, spiritual and many other purposes. Cities take up only about 2% of the world's land area, yet they consume 75% of all resources, and therefore utilise far more resources than those contained within their boundaries. This highlights the critical role that local governments play in the management and conservation of biodiversity in the urban context. Local governments are in the front-line for managing urban biodiversity, and can have a significant impact on conserving and managing the world's biodiversity in a sustainable manner (ICLEI Cities Biodiversity Center Programme).

The Aichi Biodiversity Targets are 20 ambitious goals that make up part of the Convention on Biological Diversity (CBD's) Strategic Plan for Biodiversity 2011–2020, adopted in Nagoya, Japan, in 2010. The targets provide a framework for action by all stakeholders—including cities—to save biodiversity and enhance its benefits for people. Below, are a few of the targets most prevalent to local governments:

AICHI TARGET 1: By 2020, at the latest, people are aware of the values of biodiversity and the steps they can take to conserve and use it sustainably:

No level of government can reach citizens for education, communication, and awareness-raising as regularly, clearly, and effectively as city officers. National governments need to help cities achieve this target.

AICHI TARGET 2: By 2020, at the latest, biodiversity values have been integrated into national and local development and poverty reduction strategies and planning processes and are being incorporated into national accounting, as appropriate, and reporting systems:

Mainstreaming of biodiversity needs to be done at national as well as subnational and local levels to be effective. Biodiversity values are different for each level of "vertical" (i.e., national, provincial, and local) and "horizontal" (i.e., divisions such as environment, planning, transportation, education, finance, and nutrition) government.

AICHI TARGET 15: By 2020, ecosystem resilience and the contribution of biodiversity to carbon stocks has been enhanced, through conservation and restoration, including restoration of at least 15 per cent of degraded ecosystems, thereby contributing to climate change mitigation and adaptation and to combating desertification.

No other level of government does as much restoration as local governments. Many "brown" and transition (ex-industrial) areas under city governments are either in the process of being restored or could be. City governments can also promote the use of green infrastructure and roofing.

In recognition for the need for conservation action, the Department of Environmental Affairs (DEA) developed the requisite legal framework that caters for the protection and sustainable use of natural resources. The National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004) through Articles 9 and 43 (1)(a) provides for the development of Biodiversity Management Plans for Ecosystems (BMP-E). Through the development of BMP-Es, interest and action of landowners, resource users and other key stakeholders are mobilised. BMP-Es also provide a platform for an implementing organisation or responsible entity as appointed by the Minister to monitor and report (annually) on progress.

DEA, in collaboration with key stakeholders – ICLEI, Tshwane Municipality and Friends of Colbyn Valley – initiated the process to develop the BMP-E for the Hartbeesspruit-Colbyn Valley Wetland ecosystem by holding a stakeholder workshop in November 2014 which included the above key stakeholders. The support of the key role players for the BMP process was given, followed by the development of the first draft of the BMP-E. A second stakeholder workshop took place on June 2015, with the aim to further develop the BMP-E by setting in place an action plan with specific objectives for each action and responsibilities for implementation actions assigned to various role players. This was followed by two more focused stakeholder engagements with key stakeholders in September 2015. The draft BMP-E consists of the background and rationale for a BMP-E and sets out an action plan aimed at implementing priority actions over a five year implementation period against the aims and objectives of the BMP-E.

One of the main aims of the development and subsequent implementation of the Hartbeesspruit-Colbyn Valley Wetland BMP-E is that the BMP-E will serve as a pilot for local government support to mainstreaming biodiversity at the local-government level, particularly in achieving protection of the threatened wetland and associated peatland through collaboration and buy-in between various spheres of government, stakeholders and resource users. The BMP-E will furthermore, serve as a pilot to test the robustness of the Norms and Standards for BMP-Es (Government Gazette No 37302 7 February 2014).

The need to protect threatened ecosystems, particularly those occurring within the urban edge, such as the Hartbeesspruit and Colbyn Valley Wetland, is increasingly important, as the threats relating to urban encroachment become more and more apparent. This was highlighted by the recent intention of the City of Tshwane to auction remaining portions of the Farm (Koedoespoort 456-JR) on which the Colbyn Valley Wetland occurs for development (November 2014). This was met with overwhelming opposition from residents and interested and affected stakeholders through many written objections and caused uncertainty around the future existence of the Colbyn Valley Wetland and Nature Reserve. Fortunately the City of Tshwane only intends selling off a small portion of land adjacent to the wetland for development. This however, would most likely be an additional contributing threat to the future integrity of the wetland and thus emphasises the need for a collaborative effort to conserve Colbyn Valley Wetland as a threatened ecosystem, which plays an integral role in water quality and flood attenuation as part of the Hartbeesspruit system, which in turn supplies the Roodeplaas Dam, a source of drinking water for Pretoria.

The Moreletaspruit, which drains the far eastern suburbs of Pretoria, is a tributary of the Hartbeesspruit, joining it a few kilometres downstream of the Colbyn Wetland. The Hartbeesspruit-Moreletaspruit catchment lies in the upper reaches of the Pienaars River catchment, which forms part of the Limpopo Water Management

"Most decisions that impact biodiversity happen in cities, most of the consumption that impacts biodiversity happens in cities."

-Braulio Ferreria de Souza Dias,
Executive Secretary,
Convention on
Biological Diversity

Area. After its confluence with the Moreletaspruit, the Hartbeesspruit winds through the smallholdings of Kameeldrift before its confluence with the Pienaars River in Roodeplaat Dam (Figure 1).

The Colbyn Valley Wetland is protected within the formally declared Colbyn Wetland Nature Reserve (Provincial Gazette, 25 June 2014) and is managed by the City of Tshwane Municipality. The Reserve extends over 80 hectares, adjoining the Pretoria suburbs of Colbyn, Kilner Park and Hatfield, and located only 5 km from Pretoria's central business district. Together with the Meintjieskop ridge, Pretoria National Botanical Garden, and the University of Pretoria experimental farm and sports grounds, Colbyn Valley plays an important role in forming a 'green' corridor in Pretoria's urban landscape, a refuge and migration route for wildlife. The Reserve forms part of a nicely confined urban catchment namely the Moreleta and Hartbeesspruit Catchment. The Moreleta and Hartbeesspruit tributaries drain a number of the southern and eastern suburbs of Pretoria. Aside from its role as an urban biodiversity hotspot, this nature reserve, visible from several major transport routes, also forms a vital part of the aesthetics and sense-of-place of the surrounding suburbs.

According to Natural Vegetation Types for South Africa, Lesotho and Swaziland (updated 2009) the area falls within the Marikana Thornveld Type, which is listed as Vulnerable (National Environmental Management: Biodiversity Act, 2004 (Act 10 of 2004) National List of Ecosystems that are Threatened or in Need of Protection (Government Gazette No. 34809, 9 December 2011).

The Colbyn Wetland Nature Reserve consists of a wetland, peatland and grassland as well as the relatively unspoilt vegetation of the neighbouring rocky ridges. Surveys of the fauna of the Colbyn Valley in 1991 revealed the area to be home to a variety of insect, bird and small mammal species. A rare Lycaenid butterfly species was recorded in the insect survey, and the threatened red rock rabbit has been spotted here in the past. The wetland has been noted to be a top birding spot, with 108 bird species having been recorded in the Colbyn Valley during the 1991 study, 6 of which are considered to be 'threatened'. A list of bird sightings in the greater Colbyn Valley area between 1982 and the present reveals a total of 152 bird species.

The wetland, which covers an area of approximately 15 ha within the Nature Reserve, is formed by back-flooding of the Hartbeesspruit as it flows through a poort between two quartzitic ridges, along with the contribution of groundwater and subsurface drainage from seeps upstream of the poort. This has also resulted in favourable conditions for the accumulation of peat in parts of the wetland. Peat forms in wetlands when low-energy flows and permanent waterlogging enable partially-decomposed plant material to accumulate. Active accumulation of peat depends on a slow rate of decay of organic material in oxygen-deprived (anaerobic) conditions. The Colbyn peatland occupies just over a hectare, or 7%, of the total wetland area. The peat layer is estimated to be about 7 000 years old, and is 2.4 m thick at its deepest point, with an average thickness of 1.5 m.

Though its urban location makes the Colbyn Valley Wetland a fairly unique biodiversity asset, this location also makes the wetland vulnerable to a number of serious and ever-increasing impacts. Threats facing the Colbyn Valley Wetland include increased development in the catchment resulting in increased stormwater inflows and deteriorating water quality, the spread of invasive alien plants, and the influx of vagrants living in and using the wetland area and its resources. There are also threats of new developments in the wetland buffer zone, most seriously, the identification of an area directly adjacent to the wetland as the potential future location of a park-and-ride facility, as proposed in the Hatfield Spatial Development Framework published by the City of Tshwane Municipality in September 2011 and March 2012.

In order to protect the wetland, a broader river ecosystem approach was identified as an important consideration. As such the ecosystem has been delineated to include the Hartbeesspruit, which feeds

into the Colbyn Valley Wetland, which in turn joins the Pienaars River to the north, which then eventually flows into Roodeplaats Dam.

The Colbyn Valley Wetland

Definitions

Biological diversity or biodiversity means the variability among living organisms from all sources including terrestrial, marine, and other aquatic ecosystems and the ecological complexes of which they are part and also includes diversity within species, between species, and of ecosystems.

Biodiversity Management Plan - Ecosystem means an ecosystem management plan in terms of section 43 of the National Environmental Management: Biodiversity Act (No 10 of 2004)

Collaborators means those individuals and/or organisations that will be approached/included in the process to complete the action.

Conservation Authorities means those organisations mandated in terms of legislation with the conservation of South Africa's biota.

Ecosystem means a dynamic complex of animal, plant and micro-organism communities and their non-living environment interacting as a functional unit.

Endangered Ecosystem means any ecosystem listed as endangered in terms of section 56 of NEMBA

Ecological Infrastructure refers to naturally functioning ecosystems that deliver valuable services to people such as fresh water, climate regulation, soil formation and disaster risk reduction. It is the nature-based equivalent of built or hard infrastructure, and is just as important for providing services and underpinning socio-economic development.

Listed Ecosystem means any ecosystem listed in terms of section 52(1) of the National Environmental Management: Biodiversity Act.

Management Authorities means those organisations or individuals managing the land either for themselves where they are the owners or on behalf of the owners through an agreement.

Role player means a natural or juristic person(s) who have a direct role to play in the implementation of the Biodiversity Management Plan for the ecosystem and whose role is captured in this Biodiversity Management Plan.

Species means a kind of animal, plant or other organism that does not normally interbreed with individuals of another kind, and includes any sub-species, cultivar, variety, geographic race, strain, hybrid or geographically separate population.

Stakeholder means a natural or juristic person(s) that has an interest in, or may be affected by, a particular obligation or decision or activity, relating to or resulting from a management plan, either as individuals or representatives of a group and includes land owners where applicable.

Threat means any action that causes a decline in species populations and compromises the future survival of an ecosystem or anything that has a detrimental effect on an ecosystem.

Viable in relation to an ecosystem means the ability to function in such a way that the integrity of the ecosystem is maintained or is in a functional state.

Acknowledgements

The following individuals (in no particular order) are acknowledged for their participation and assistance in the initial workshop to draft the BMP:

Piet-Louis Grundling (Director Centre for Wetland Research and Training (WETREST))
Ryan Nawn (Friends of Colbyn Valley)
Ernst Wohltz (City of Tshwane)
Philip Calinikos (Chairperson of the Friends of Colbyn Valley)
Anneli Kuhn (Adopt Moreletaspruit Forum)
Tamsyn Sherwill (Friends of Colbyn Valley)
Claire Wagner (Friends of Colbyn Valley)
Shannon Mayne (5th Hillcrest-Colbyn Scout Group)

Liz Metcalfe (ICLEI Cities Biodiversity Centre) is acknowledged for her role in arranging and facilitating the 1st Stakeholder Workshop and for compiling the workshop report.

Philip Calinikos (Chairperson of the Friends of Colbyn Valley) is acknowledged for his presentation on the Colbyn Wetland.

Abigail Kamineth and Christina Seegers (Gauteng Provincial Department of Agriculture and Rural Development) are acknowledged for their inputs into the process, advice and support in consulting the City of Tshwane.

Anneli Kuhn (Adopt Moreletaspruit Forum) for her inputs into the draft action plan.

Tinus Prinsloo (City of Tshwane) for providing electronic copies of the City of Tshwane maps of Colbyn Valley.

All participants involved in the draft of the BMP-E for Colbyn Valley (listed in Appendix 1) are thanked for their valuable contribution to the document as and when requested by DEA.

1. Introduction

The quality of life experienced in local communities is fundamental to the human wellbeing of its residents. In South Africa, the Constitution (Act 108 of 1996) creates the overall framework for cooperative governance with three “distinctive, interdependent and interrelated” spheres of government. Concurrent function augmented by the Intergovernmental Relations Framework Act (Act 13 of 2005) allows for decentralised governance. Local government is the implementation arm of the three spheres of government, and is strategically placed to address the needs of its citizens and communities. Service provision is a key priority along with local economic development. Some of the basic essential services to sustain the livelihoods of local residents include transport, housing, clean air, and clean water, energy, health, sanitation, risk and disaster management and recreation.

It is important to note that biodiversity is a key umbrella service from which all other value streams flow. Local authorities are some of the biggest beneficiaries of biodiversity and ecosystem services. Urban areas are the consumption centres of natural resources. However, increasing urbanisation creates new challenges for improving service delivery. Migration of people from the rural areas to the urban areas who are seeking better opportunities for a better quality of life places added pressure on our biological resources to provide the necessary services.

There is global recognition that local actions impact on biodiversity and it is through local actions that the situation can be addressed most effectively. It is therefore becoming increasingly clear, worldwide, that the structures of local or municipal government are better placed than any other sphere of government to manage biodiversity and, in so doing, to raise awareness amongst citizens about the importance of protecting the environment. (Framework for Biodiversity Mainstreaming in Local Authorities, DEA, 2011).

2. Description and significance of the Hartbeesspruit Ecosystem

2.1 *Importance to local governance*

Local governance will be seriously compromised as the tolerance for change is often low at the local level. Current land use patterns in urban environments are locked in with some flexibility provided by open spaces. Ecosystem services could be further compromised which reduces opportunities to mitigate and adapt to climate change. By the end of the century, climate change and its impacts may be the dominant direct driver of biodiversity loss and changes in ecosystem services globally (MEA (2006)).

In addition, the following are just a few of the other threats that contribute to the dire situation at local level:

- Habitat transformation and degradation resulting from uncontrolled urban development;
- The growing occurrence of invasive alien plant species;
- Unsustainable use of natural resources, including all forms of land degradation (rangeland and soil degradation, e.g. overgrazing, soil erosion etc) and the illegal harvesting, especially of marine resources, and of plants for medicinal purposes;
- Domestic, industrial, and agricultural, pollution;
- The over-extraction of water for a range of uses, including agricultural irrigation and industrial and residential consumption are placing aquatic ecosystems under terrible pressure;
- Lack of awareness and understanding at municipal level of the importance of biodiversity and its ecosystem goods and services, underpinning service delivery.

Responses to these challenges are varied at present and tend to be largely policy-driven and derived from legal directives arising from the country's Constitution.

However, recent policy instruments and processes that have emerged have identified local government as a fundamental actor to create better governance mechanisms in cooperative fashion with other stakeholders for the biodiversity challenges presented here.

Local authorities have a profound potential to affect positive change. Innovations in lifestyle, technology and governance by local government are crucial for our transition to a sustainable green economy. During the last few years, several biodiversity initiatives have greatly contributed to ensuring that cities and local authorities become part of the solution in response to the biodiversity challenges that South Africa is facing. This constitutes significant progress in the transition from a policy driven arena towards action oriented implementation on the ground.

The area now known as Colbyn Valley was originally part of the farm Koedoespoort, allocated to Lourens Cornelius Bronkhorst in 1859, whose heir sold the farm to the Wesleyan Methodist Missionary Trust in 1885. The portion of the farm on which the wetland is located was later allocated to the University of Pretoria for agricultural research, and eventually donated to the then Pretoria City Council as a 'nature area'.

The Colbyn Valley comprises grassland, wetland, peatland and the vegetation of a relatively unspoilt koppie. The wetland occurs at an altitude of between 1 335 and 1 320 m above mean sea level, faces east-northeast with a gradual slope of 1.36% and is approximately 15 ha in extent (Grundling, *et al.*, 2000). The wetland is situated on shales of the Silverton Formation and the key point of the wetland is the quartzite ridge of the Daspoort Formation in the North (Grundling, *et al.*, 2000).

The Hartbeesspruit (9.2 kilometers in length) flows through a poort or breach in the quartzite ridge as result of a diabase dyke that penetrated through the quartzite ridge. Localized backflooding of the Hartbeesspruit as a result of restricted flow through the poort and flow from seeps upstream above the poort resulted in the formation of the wetland and the accumulation of peat under the associated favorable conditions (Grundling, *et al.*, 2000). The peat in the wetland is a medium fibrous to fine reed-sedge peat and the stream in which it is located has a hierarchical stream order of 1, which means it occurs at the head of the catchment.

The wetland ecosystem is approximately 15 ha in extent occurring within the 60 ha Colbyn Wetland Nature Reserve. The groundwater and subsurface drainage upstream of the poort contribute water to the wetland, and as such has resulted in favourable conditions for the formation of peat in parts of the wetland (Grundling, *et al.*, 2000).

The Colbyn Wetland Nature Reserve was declared in terms of National Environmental Management: Protected Areas Act, 2003, (Act No. 57 of 2003), as a municipal nature reserve by the Gauteng Province in June 2014 (Provincial Gazette, 25 June 2014) and is managed by the City of Tshwane Metropolitan Municipality. It is situated next to the suburb of Colbyn in the west and the N1/N4 intersection in the east (fig. 1), and is part of a “green corridor” together with adjoining areas Meintjieskop and the Pretoria National Botanical Garden.

The area falls within the Rocky Highveld zone of the Grassveld biome (Low and Rebelo, 1996), with an average summer rainfall of between 650 and 750 mm per annum (Low and Rebelo, 1996; in Grundling and Marneweck, 2000) and falls within the Marikana Thornveld Type, which is listed as Vulnerable, in terms of NEMBA National List of Ecosystems that are Threatened or in Need of Protection (Government Gazette No. 34809, 9 December 2011).

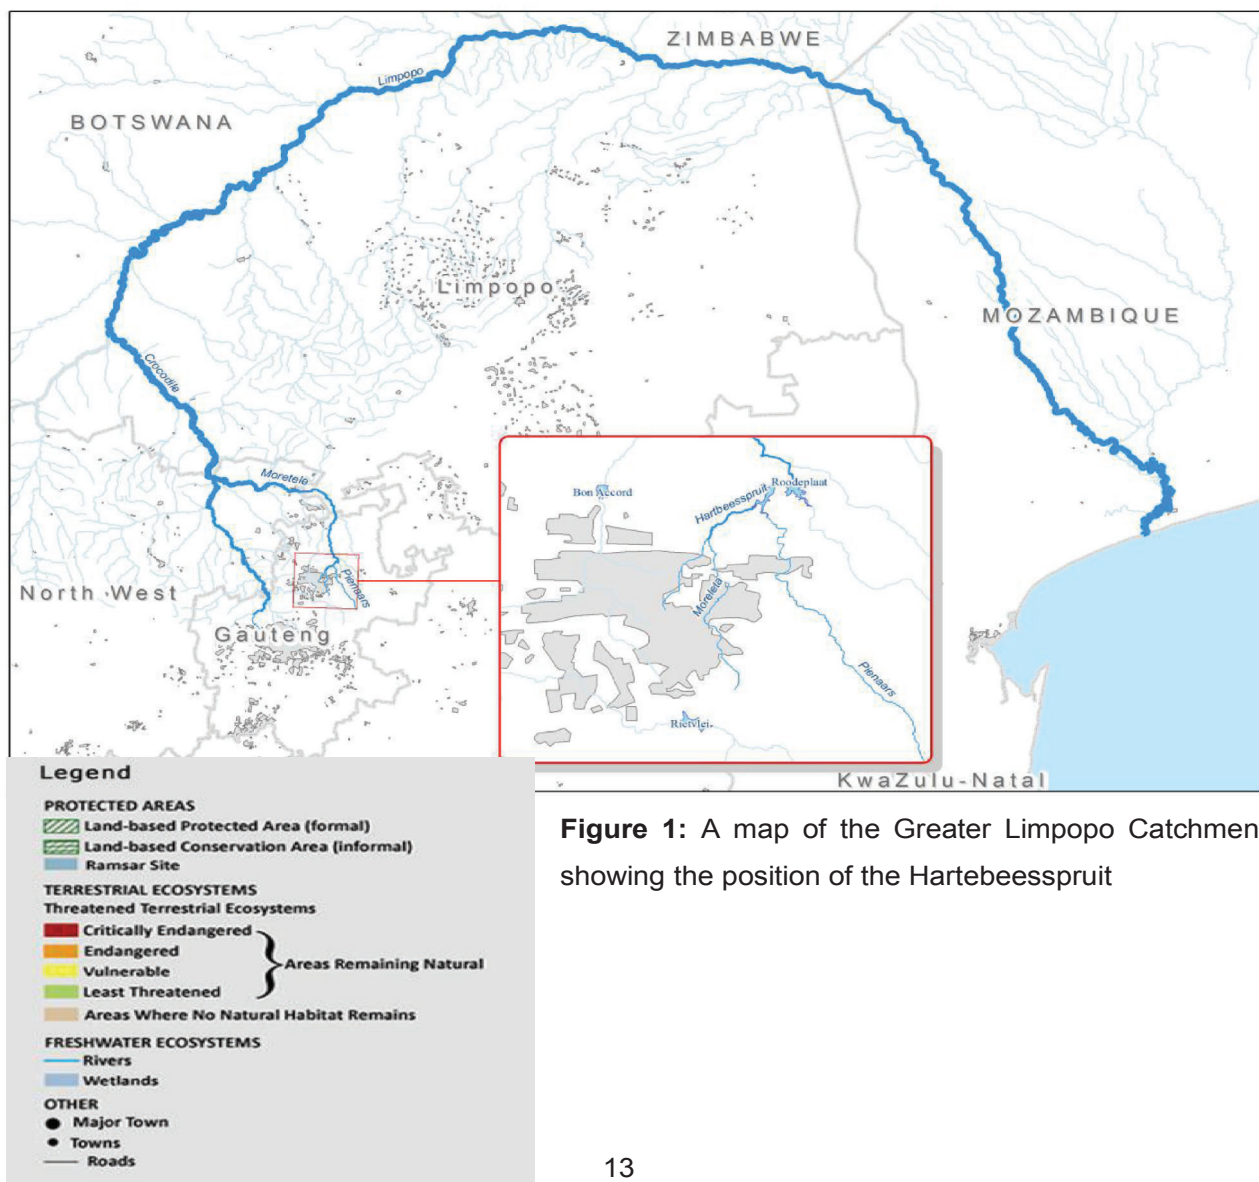

Figure 1: A map of the Greater Limpopo Catchment showing the position of the Hartebeesspruit

Figure 2: City of Tshwane Protected Areas and Terrestrial and Freshwater Ecosystems

role in forming a 'green' corridor in Pretoria's urban landscape, a refuge and migration route for wildlife. In addition, the Hartbeesspruit, which flows through the Colbyn Valley, forms a further important north–south route, linking the Strubenkop and Meintjieskop ridges with the Magaliesberg.

Aside from its role as an urban biodiversity hotspot, this natural area, visible from several major transport routes, also forms a vital part of the aesthetics and sense-of-place of the surrounding suburbs.

The Colbyn Valley is of particular interest due to its distinct wetland structure, as it comprises 15 hectares of wetland containing a unique soil type called Peat within the 60 ha Nature Reserve. Peat soil enhances normal wetland functions by making wetlands highly efficient for nutrient storage and effective filters and are unique as organic sinks containing a quarter of the earth's soil carbon. Peatlands are extremely rare in South Africa, with less than 1% of the world's peatlands found in the Southern Hemisphere, especially in urban areas, as they require specific environmental conditions to form which are more common in the warmer regions of the world. A permanent water source is required for the peatland to function optimally. The water source can be either rainfall or a raised water table or sometimes even both. Conditions under which peat can form include poor drainage and a plant litter production rate that is higher than the decomposition rate. The Colbyn Wetland area falls within the Rocky Highveld zone of the Grassveld biome, with an average summer rainfall of between 650 – 750 mm per annum which fits the natural requirements for a peatland to form.

The Valley has already been partially drained due to agriculture and the development of roads and railways and is receiving increasing pressure from further urban developments. The valley is still home to several species that are in danger from further development and the spread of alien invasive species.

The Reserve is a good site for birding, as a wide variety of bird species occur here. The Nature Reserve thus has potential to generate income from interested birders wanting to visit the Nature Reserve. In addition, a number of mammal species have also been found to occur in the area and are listed below:

Table 1: List of Birds and Mammals found in the Colbyn Valley Nature Reserve

BIRDS	MAMMALS
<i>Asio capensis</i> (Marsh Owl)	<i>Suncus lixus</i> (Greater Dwarf Shrew)
<i>Bubo africanus</i> (Spotted Eagle Owl)	<i>Crocidura cyanea</i> (Reddish-grey Musk Shrew)
<i>Scopus umbretta</i> (Hamerkop)	<i>Elephantulus brachyrhynchus</i> (Short-snouted Elephant Shrew)
<i>Elanus caeruleus</i> (Blackshouldered Kite)	<i>Atelerix frontalis</i> (South African Hedgehog)
<i>Vanellus senegallus</i> (Wattled Plover)	<i>Galago senegalensis</i> (Lesser Bushbaby)
<i>Burhinus capensis</i> (Spotted Dikkop)	<i>Soccostomus campestris</i> (Pouched Mouse)
<i>Apus caffer</i> (Whiterumped Swift)	<i>Mus minutoides</i> (Pygmy Mouse)
<i>A affinis</i> (Little Swift)	<i>Cryptomys hottentotus</i> (Common Mole Rat)
<i>Ceryle rudis</i> (Pied Kingfisher)	<i>Thryonomys gregorianus</i> (Lesser Cane Rat)
<i>Dricurus adsimilis</i> (Forktailed Drongo)	<i>Hystrix africaustralis</i> (Cape Porcupine)
<i>Acrocephalus arundianceus</i> (Great Reed)	<i>Pronolagus rupestris</i> (Red Rock Rabbit)

Warbler)	
	<i>Galerella sanguine</i> (Slender Mongoose)
	<i>Ichneumia albicauda</i> (White-tailed Mongoose)
	<i>Genetta genetta</i> (Small Spotted Genet)

2.2. Ecological Infrastructure and Wetland Protection

The Colbyn Valley Wetland and Hartbeesspruit River ecosystem is furthermore considered to play a crucial role in providing ecological infrastructure in an urban environment. Ecological infrastructure includes, for instance, healthy mountain catchments, rivers, wetlands, coastal dunes, and nodes and corridors of natural habitat, which together form a network of interconnected structural elements in the landscape. Ecological infrastructure essentially enhances built infrastructure. Strategic investment in ecological infrastructure lengthens the life of existing built infrastructure and can reduce the need for additional built infrastructure – often with significant cost savings.

South Africa's wetlands are arguably its most valuable ecological infrastructure. Not only do these special ecosystems support water resources by purifying water and regulating flows, they also act as sponges that store water and release it slowly, filtering pollutants and reducing the impacts of droughts and floods in the process. Sustaining a rich diversity of faunal and floral species, wetlands also support the economic activities of many rural and urban communities, including the provision of food and fuel. Recent studies have shown that wetlands have become South Africa's most threatened ecosystem, with almost 50% listed as Critically Endangered (NBA 2011).

As with all forms of infrastructure, ecological infrastructure needs to be maintained and managed, and in some cases restored. By assessing existing biodiversity and applying systematic biodiversity planning techniques, the management and conservation of wetlands can ensure that this critical ecological infrastructure is secure for the future. Well managed ecological infrastructure can buffer human settlements and built infrastructure against the extreme events that are likely with climate change, playing a crucial and cost effective role in disaster risk reduction. This is predominantly true for wetlands as they play an important role in flood control, water retention and purification. The Colbyn Valley Wetland contains peat soil that makes these wetlands even more valuable from a climate change perspective, as this soil type is a highly effective and extremely rare carbon sink. It is for this reason, that this biodiversity management plan for the Colbyn Valley Ecosystem is so significant.

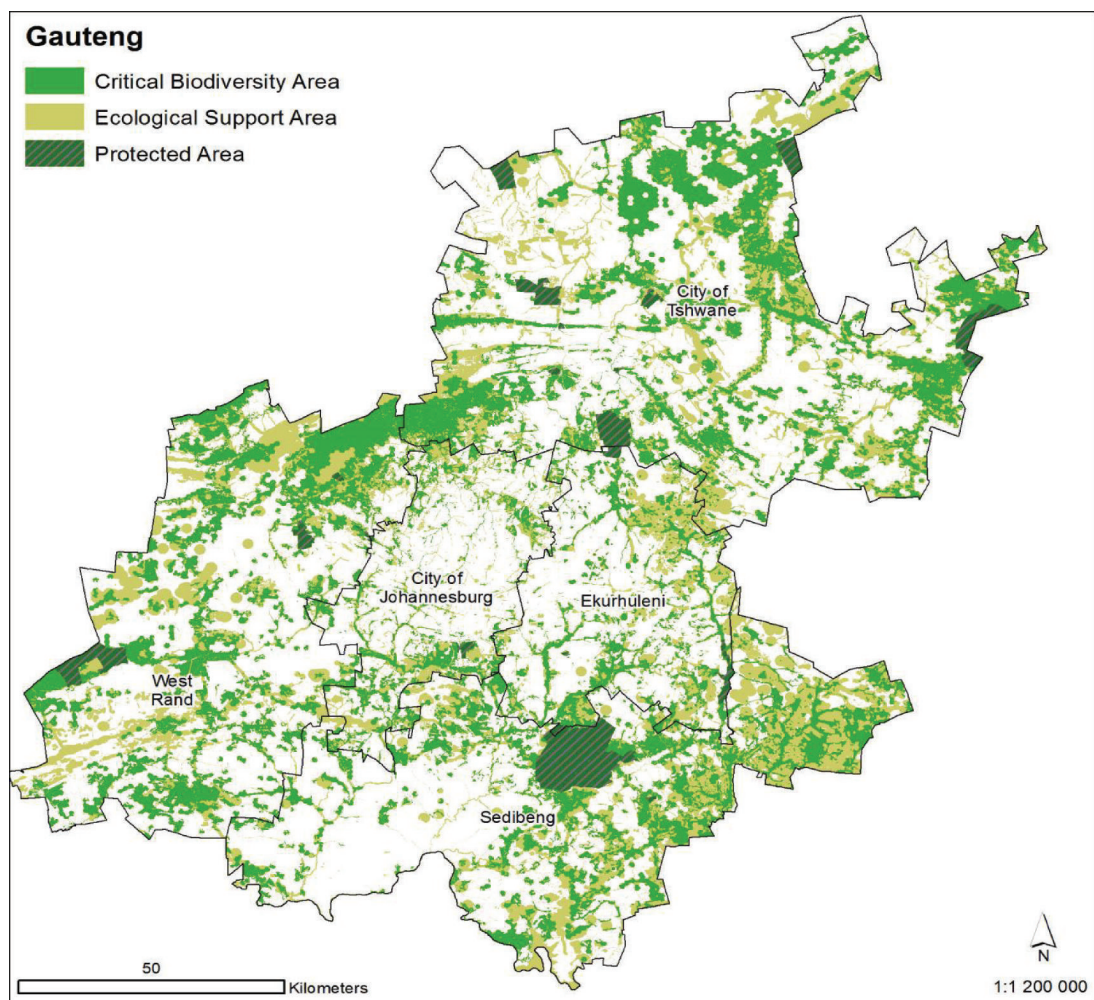

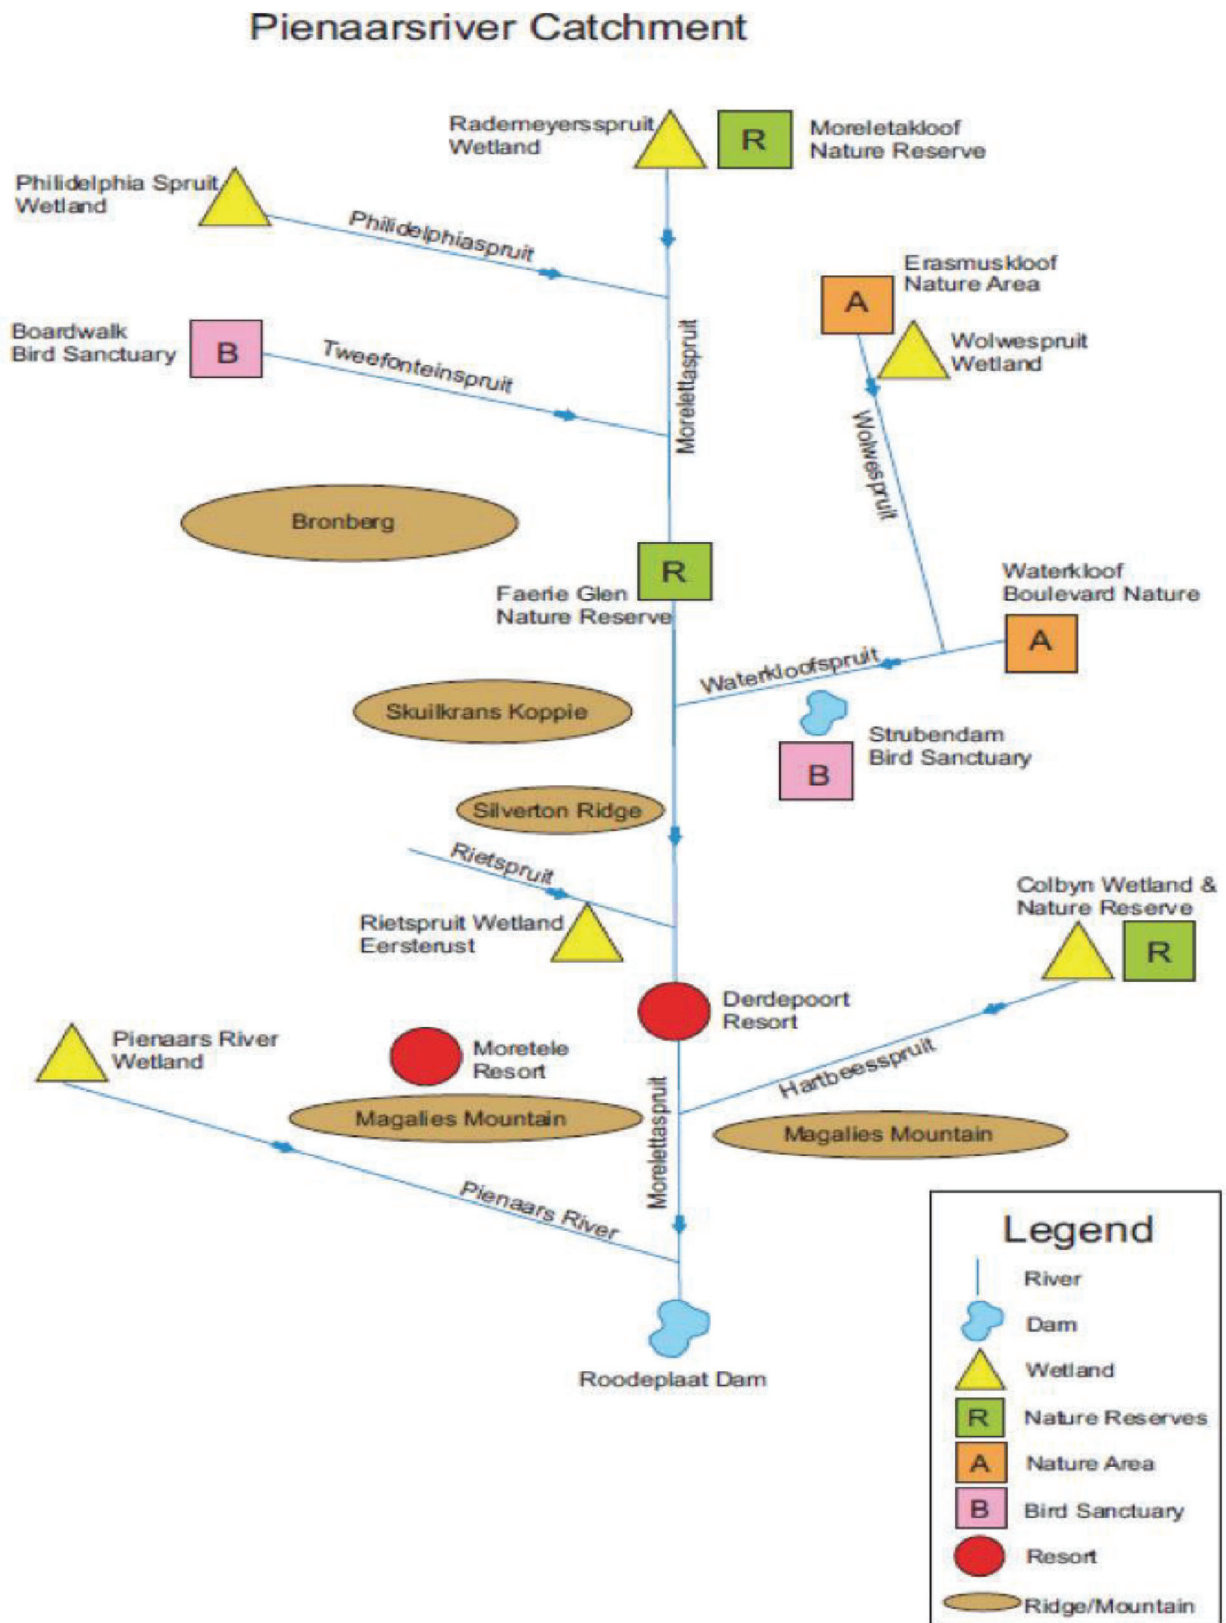

Figure 5: Critical Biodiversity Areas in Gauteng (Gauteng Conservation Plan v3.3, March 2014)

Figure 6: Diagram showing the Pienaarsriver Catchment

Figure 7: Remaining Areas of Primary Vegetation in Gauteng (Gauteng Conservation Plan v3.3, March 2014)

3. The Aim of the Biodiversity Management Plan for an Ecosystem

NEMBA provides for the development and publication of Biodiversity Management Plans for ecosystems (BMP-E). The NEMBA Norms and Standards for BMP-Es were developed and published in February 2014, and provide for a national approach, but with sufficient flexibility to accommodate the variability of ecosystems and their management requirements.

It is important to note from the outset that in order for a management plan to be effective it must be seen as a product of an iterative management planning process. NEMBA specifies that all BMPs are to be revised every five years of implementation. As such, this plan will be the first in a series of five-year iterations where the success of the previous five years is measured and adaptations are made to ensure that the plan for the next five years is appropriate to changing circumstances.

Section 43 of NEMBA makes provision for the development of a BMP-E for:

- an ecosystem which has been listed in terms of Section 52 of the Act, or
- an ecosystem which has not been listed "but which does warrant special conservation attention, such as:

- Threatened ecosystems identified in the National Biodiversity Assessment (NBA)
- Ecosystems in Critical Biodiversity Areas (CBAs)
- Freshwater Ecosystem Priority Areas (NFEPA)
- High water yield areas or groundwater discharge areas
- Focus area for National Protected Area Expansion Strategy (NPAES)
- Buffers or corridors to protected areas
- Ecosystems that play an important role as ecological infrastructure
- Important for ecosystem-based adaptation to climate change

The Department of Environmental Affairs (DEA) identified Colbyn Valley as a threatened wetland ecosystem in an urban environment that would benefit from a Biodiversity Management Agreement, according to the following Norms and Standards for BMP-Es criteria:

- ✓ It falls within the Marikana Thornveld ecosystem listed as Vulnerable, (Central Variation, criterium 6 in the NEMBA National List of Ecosystems that are Threatened or in Need of Protection)
- ✓ It is an important ecological support area within the urban environment
- ✓ It is a peatland of significance, which in this region is rare, and its continued existence in such a vulnerable urban location is even more unusual
- ✓ It plays an important role as ecological infrastructure, supporting the provision of ecosystem services and
- ✓ It is also considered to be important for ecosystem-based adaptation to climate change

In addition:

- ✓ Colbyn Valley, as a natural area, plays an important role as an urban biodiversity hotspot
- ✓ It contributes to the Tshwane's Open Space and Regional Development Framework
- ✓ It is visible from several major transport routes and therefore is of scenic importance
- ✓ It forms a vital part of the aesthetics and sense-of-place of the surrounding suburbs.

Though its urban location makes the Colbyn Valley Wetland a fairly unique biodiversity asset, this location also makes the wetland vulnerable to a number of serious and ever-increasing impacts. Threats facing the Colbyn Valley Wetland include increased development in the catchment resulting in deteriorating water quality and increased stormwater inflows, which could lead to increased erosion of the wetland and a loss of hydrological integrity, as could failure to maintain the series of gabion weirs installed to mitigate against this, the spread of invasive alien plants, and the influx of vagrants living in and using the wetland area and its resources.

It is envisaged that the development and subsequent implementation of the Colbyn Valley Wetland BMP will serve as a good pilot for local government support to mainstreaming biodiversity protection, particularly the protection of the wetland and the associated threatened peatland, through collaboration and buy-in by government, land-owners and resource users.

The overall aim of this BMP is therefore to provide a mechanism to achieve the sustainable use and management of the Colbyn Valley Wetland ecosystem.

4. Benefits of a BMP-E for the Hartbeesspruit Ecosystem

Through a participatory process, comprising stakeholders and interested and affected parties, the following benefits of a BMP-E were identified:

- The consultation process involved in developing a BMP-E increases awareness of the importance of the area and the impacts of activities/stakeholders.
- As BMP-Es are provisioned under NEMBA it is legally binding, ensuring implementation.
- Biodiversity Management Agreements that may form part of the BMP-E are also legally binding, forming a contract with the implementing agent.
- BMP-Es should be considered in revisions of Integrated Development Plans (IDP) and Strategic Development Frameworks (SDF).
- The BMP-E would ensure co-operative governance, and integration of plans. The creation of a BMP forum of key stakeholders would be a useful mechanism here.

Furthermore, apart from the fact that the Colbyn Valley Wetland is mostly under formal protection within the Colbyn Wetland Nature Reserve, declared by the Gauteng Department of Agriculture and Rural Development (GDARD) and managed by the City of Tshwane, many of the threats to the wetland and associated grassland occur outside the boundaries of the nature reserve. A BMP-E for Colbyn Valley Wetland therefore provides an opportunity for wider collaboration and commitment from various role players whose activities impact on the wetland, enabling them to contribute towards more effective management and sustainable utilisation of the wetland and associated grassland ecosystem, which in effect would result in more responsible and improved management of the water quality contributed by the wetland and its river catchment to Roodeplaat Dam.

5. Legislative Context

5.1 National Environmental Legislation

Since the early 1990s, South Africa's policy and legislative framework has been strongly influenced by the principles of sustainable development and other international instruments and processes. With the advent of democratic government in 1994, South Africa embarked on an extensive process to introduce new policies and legislation that aligns with the new Constitution. These laws and policies based on best practice have sought to dismantle the discriminatory laws of the past and create a society based on the principles of equity, non-racialism and non-sexism.

5.1.1 South Africa's Constitution and Bill of Rights

The Bill of Rights in South Africa's Constitution recognises the importance of a healthy environment. Section 24 of the Constitution enshrines the right to an environment that is not harmful to any citizen's health. This right has important implications for the development of national legislation and the ratification of international conventions and it states:

Everyone has the right:

- (a) to an environment that is not harmful to their health and well-being; and
- (b) to have the environment protected, for the benefit of present and future generations, through reasonable legislative and other measures that:
 - (i) prevent pollution and ecological degradation;
 - (ii) promote conservation; and
 - (iii) secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development.

In addition, the Constitution makes provision for a single sovereign state, in which the national government has full powers to pass legislation on matters other than those that fall within the exclusive mandate of the provinces. The provinces have only those powers and functions allocated to them by the Constitution.

Schedules 4 and 5 of the Constitution allocate certain powers to both national and provincial spheres of government, and certain powers exclusively to the provinces. Most areas of functional relevance to the conservation and use of biodiversity are set out in Schedule 4. Here, the Constitution provides mechanisms to enable national and provincial government to perform functions for other levels of government, on an agency or delegation basis; agencies outside of government can also be given specific tasks on a contractual basis.

In conclusion, national government can make and administer laws on residual matters and matters listed in Part A of schedule 5 of the constitution. Provincial government can make and administer laws on matters listed in Part A of schedules 4 and 5. Local government can make and administer laws on matters listed in part B of schedules 4 and 5. Environment is a concurrent competence of National and Provincial.

Provincial legislature

- Any matter within a functional area listed in schedules 4 and 5 of constitution
- Any matter outside 4 & 5 assigned by national legislation
- Any matter for which the Constitution envisages enactment of provincial legislation

Local government

- Matters listed in parts B of schedules 4 & 5.

Table 2: Constitutional functional areas of local government

Schedule 4- Functional areas of concurrent national and provincial competence	
PART A	PART B (Local Government)
<ul style="list-style-type: none"> • Agriculture • Environment • Health services • Housing • Disaster management • Pollution control • Public Transport • Public works • Population development • Regional planning and development • Tourism • Urban & rural development • Trade 	<ul style="list-style-type: none"> • Air pollution • Municipal planning • Local tourism • Municipal health services • Municipal public transport • Municipal public works • Pontoons, ferries, jetties, piers and harbours • Stormwater management in built-up areas • Water and sanitation services (ltd – potable water supply systems & domestic waste water & sewage disposal systems)
Schedule 5- Functional areas of exclusive provincial competence	
PART A	PART B (Local Government)
<ul style="list-style-type: none"> • Provincial planning 	<ul style="list-style-type: none"> • Beaches & amusement facilities • Billboards and display of advertisements in public spaces • Cleansing • Control of public nuisances • Noise pollution

	<ul style="list-style-type: none"> • Refuse removal • Refuse dumps • Solid waste disposal
--	--

5.1.2 The National Environmental Management Act (No. 107 of 1998)

This Act, widely known as NEMA, is the first of several Acts related to environmental issues enacted since 1994. It has provided a solid foundation on which subsequent Acts have been based. Its purpose is to provide for co-operative environmental governance by establishing: principles for decision-making on matters affecting the environment; institutions that promote co-operative governance; procedures for co-ordinating environmental functions exercised by organs of state. Table 2 lists the specific sections applicable to local government.

Table3: Sections of the National Environmental Management Act applicable to local government

Sections applicable	Implications for local government
Section 17 (1) <i>Fair decision-making and conflict management: with reference to conciliation</i>	<i>Any municipal council may consider the desirability of first referring a matter to conciliation where a difference or disagreement arises concerning the exercise of any of its functions which may significantly affect the environment, or before which an appeal arising from a difference or disagreement regarding the protection of the environment is brought under any law.</i>
Section 35 (1) <i>Environmental-management co-operation agreements: the conclusion of agreements</i>	<i>A municipality may enter into environmental-management co-operation agreements with any person or community for the purpose of promoting compliance with the principles laid down in this Act.</i>
Section 45 (2) <i>Administration of the Act: regulations for the management of co-operation agreements</i>	<i>A municipal council may substitute its own regulations or by-laws, as the case may be, for the regulations issued by the Minister, provided that such provincial regulations or municipal by-laws comply with the principles laid down in this Act</i>
Section 46 (2,3) <i>Administration of the Act: model environmental-management by-laws</i>	<i>Any municipality may request the Director-General to assist it with the preparation of by-laws on matters affecting the environment and the Director-General may not unreasonably refuse such a request. The Director-General may institute programmes to assist municipalities with the preparation of by-laws for the purposes of implementing this Act.</i>

NEMA is an example of broad or 'pillar-type' legislation that needs further Acts to provide meaning and detail to its broad statements. It has therefore resulted in the crafting of several additional Acts influenced by several processes including multilateral environmental agreements. It is noteworthy to mention how international governance mechanisms through multilateral environmental agreements have shaped and informed our legislation, particularly biodiversity legislation.

5.1.3 National Environmental Management: Biodiversity Act (No. 10 of 2004)

This Act, also known as NEMBA, is of particular importance in relation to South Africa's commitments under the CBD. The Act seeks to resolve the fragmented nature of biodiversity-related legislation that existed at national and provincial levels by consolidating different laws and giving effect to the principle of co-operative governance, while responding to commitments made under the CBD where for the first time, the CBD allocating time to hear the voice of local municipalities during the annual meeting of its governing body, the Conference of the Parties (COP), in 2008. This resulted in the COP

agreeing to Decision IX/28, which elevated biodiversity issues in local government areas to the international level. Further decisions also prompted national governments to engage with their respective municipalities to develop strategies and plans to combat biodiversity loss. Further international advocacy for local action culminated in Decision X/23 in 2010 of the contracting parties to the CBD which endorsed a Plan of Action on subnational governments, cities and other local authorities for biodiversity, which recognises the crucial role that local authorities play in conserving biodiversity

In line with the objectives of the CBD, NEMBA provides for, *inter alia*:

- the management and conservation of biodiversity in South Africa and of the components of such biodiversity;
- the use of indigenous biological resources in a sustainable manner;
- the fair and equitable sharing among stakeholders of the benefits arising from bio-prospecting involving indigenous biodiversity;
- the management and conservation of South Africa's biodiversity within NEMA's framework;
- the protection of species and ecosystems that warrant national protection

Table 4: Sections of the National Environmental Management: Biodiversity Act applicable to local government

Sections applicable	Implications for local government
<i>Section 48 (1)</i>	<i>The national biodiversity framework, bioregional plans and biodiversity management plans may not conflict with any integrated development plan (IDP) adopted by municipalities.</i>
<i>Section 54</i>	<i>Municipalities must adopt an IDP that takes into account the need for the protection of listed ecosystems.</i>
<i>Section 76 (2)</i>	<i>Municipalities must prepare an invasive-species monitoring, control and eradication plan for land under their control, as part of their IDP-related environmental plans in accordance with Section 11 of this Act.</i>

As indicated above, NEMBA is a piece of legislation that articulates the commitments that South Africa made in ratifying the CBD. Several policy frameworks and strategies that need to be implemented by local government are derived from this Act.

5.1.4 Other Acts applicable to local governments

5.1.4.1 The National Environment Management: Air Quality Act (No. 39 of 2004)

To quote from the Act, the purpose of the National Environment Management: Air Quality Act is:

"To reform the law regulating air quality in order to protect the environment by providing reasonable measures for the prevention of pollution and ecological degradation, and for securing ecologically sustainable development while promoting justifiable economic and social development...."

5.1.4.2 The National Environmental Management: Waste Management Act (No. 59 of 2008)

South Africa's waste management record has generally been poor in the past. This has had a negative impact, at both local and global levels, often leaving poorer communities' worst affected. This Act aims to address this situation. The Act has a three-tiered perspective on waste; in other

words, the first priority is to avoid waste entirely, the second is to ensure that waste is minimised, re-used, recycled or recovered, and the third is to safely treat and dispose of waste as a last resort. The Act seeks to generally give effect to Section 24 of the Constitution to secure an environment that is not harmful to the health and well-being of people.

5.1.4.3 SPATIAL PLANNING AND LAND USE MANAGEMENT ACT

The **Spatial Planning and Land Use Management Act 16 of 2013** aims to provide a uniform, effective and comprehensive system of spatial planning and land use management throughout South Africa. It emphasises redressing spatial-developmental imbalances of the past, while promoting the sustainable and efficient use of land. The Act inter alia provides for:

- A nested hierarchy of spatial development frameworks, from the national to the provincial and the local spheres respectively;
- The management and facilitation of land use by means of means of legally-binding land use schemes;
- Aligning land use measures with environmental management instruments;
- Strategic assessments of environmental pressures and opportunities within municipal areas; and
- A 20-year spatial development perspective for municipal planning.

6. Threats to the Hartbeesspruit Ecosystem

Ecosystem threat status tell us about the degree to which ecosystems are still intact or alternatively losing vital aspects of their structure, function and composition, on which their ability to provide ecosystem services ultimately depends.

Healthy terrestrial ecosystems are vital for healthy catchments, which supply South Africa's water, one of the scarcest of natural resources. Rivers store and transport water and combined with manmade storage and transfer schemes, bring water to urban areas, take away waste and provide cultural and aesthetic services.

Wetlands are exceptionally high value ecosystems that make up a small fraction of the country. Given their strategic importance as ecological infrastructure for ensuring water quality and regulating water supplies, investments in conserving, managing and restoring wetlands are likely to generate disproportionately large returns.

Wetland ecosystems are vital for purifying water and regulating water flows, acting as sponges that store water and release it slowly, filtering pollutants and easing impacts of droughts and floods in the process. They also support a rich diversity of species, which have both intrinsic and economic value. The main pressures faced by the Hartbeesspruit and wetland ecosystem were identified as follows

- Increased development in the catchment area leading to increased high energy runoff and deteriorating water quality and increased stormwater inflows and potentially increased erosion of the wetland
- loss of hydrological integrity of the wetland, i.e. drainage of the wetland due to head-ward erosion of the stream/Hartbeesspruit
- Inadequate management of gabion weirs

- Increased pollution of waterway with litter and refuse
- Spread of invasive alien plants
- Influx of vagrants
- Illegal/accidental and uncontrolled fires

Protected areas alone are unlikely ever to do the full job of protecting wetlands, which are vulnerable to impacts in their catchments beyond the boundaries of protected areas. This highlights the importance of integrated water resource management in securing the quality quantity and timing of freshwater flows on which the functioning of wetlands depends.

Figure 8: Gabion infrastructure constructed to control erosion in the Colbyn Valley Wetland

7. Biodiversity Management Plan for the Hartbeesspruit Ecosystem

7.1 Long-term Objectives of the BMP

The following are the views expressed by the workshop participants (November 2014) and should be considered to reflect some of the aspirations for the long-term outcome of the BMP for Colbyn Wetland:

That Colbyn Valley Wetland and Hartbeesspruit Ecosystem would be viewed as a resource, both in terms of the benefits that wetlands and open spaces provide and in terms of the Nature Reserve providing the ideal location for an environmental education centre, which could provide schools, universities, community groups, and researchers with a centre of excellence for wetland environmental education and/or wetland research.

It would furthermore, provide a safe, secure area for people to enjoy the wetland and to benefit from the recreational value of the area through trails, signage, etc. This could be secured through corporate sponsorship.

7.2 Aim

The overall aim of the BMP is as follows:

Improve the overall management of the ecosystem and, to ensure the ecological integrity of Colbyn Valley Wetland and Hartbeesspruit River Ecosystem is maintained and that Colbyn Wetland is a safe place to visit.

7.3 Action Plan

The action plan below was agreed upon by all the stakeholders:

Action Plan Summary

GOAL	ACTIONS
Operational Goal 1: Financial sponsorship/management budget is secured	Action 7.1.1 Source funding to secure a capital operational budget for Colbyn Valley Wetland and Hartbeesspruit River ecosystem
Operational Goal 2: Commitment from City of Tshwane Council to support community/citizen science initiatives	Action 7.2.1 Support community/citizen scientist activities and initiatives within the Hartbeesspruit and Colbyn Valley Wetland Ecosystem
	Action 7.2.2 Measuring community/citizen scientist activities and initiatives within the Hartbeesspruit and Colbyn Valley Ecosystem
Operational Goal 3: <i>Conservation Management of Colbyn Valley Wetland and Hartbeesspruit River Ecosystem</i>	Action 7.3.1 Identify and manage impacts on the River Catchment
	Action 7.3.2 Database for baseline data for Colbyn Valley Nature

	Reserve established and maintained
	Action 7.3.3 Active management of Colbyn Valley Wetland Ecosystem
	Action 7.3.4 Colbyn Valley Nature Reserve Management Plan completed and implemented
	Action: 7.3.5 Integrate City of Tshwane and Provincial river and wetland projects
Operational Goal 4: Create public awareness of Colbyn Valley Wetland and Hartbeesspruit River Ecosystem	Action: 7.4.1 Increased stakeholder collaboration through the Friends group
	Action 7.4.2 Brand Colbyn Valley catchment and host regular public-stakeholder awareness events
Operational Goal 5: <i>Monitoring and Evaluation</i>	Action 7.5.1 Establish indicators for effective monitoring and reporting in management of Colbyn Valley NR and the Hartbeesspruit River
	Action 7.5.2 Establish a Colbyn Valley Wetland/Water Catchment Working Group

The objectives and aim have been presented in section 7.1 and 7.2 respectively and consultations with the role players confirmed that these are relevant and serve as the point of departure for the identification of further components necessary to complete the BMP-E.

In recognition of the need for planning statements which increase in their level of specificity each of the objectives are broken down into a series of operational goals which have been articulated according to the "SMART" rule, i.e. specific, measurable, attainable, realistic and time-bound. Each of these are then broken down into the actions which specify the nature of the action, responsibilities, resource requirements, time frames and indicators of achievement. The latter will be used for monitoring and evaluation and to track implementation.

Operational Goal 1: Financial sponsorship/management budget is secured

Action 7.1.1: Source funding to secure a capital operational budget for Colbyn Valley Wetland and Hartbeesspruit River ecosystem	
Responsibility	City of Tshwane
Timeline	First financial year of implementation
Resources needed	Internal and external (human and financial)
Collaborators	Friends of Colbyn Valley, SANBI, Universities, private sector, DEA (NRM)
Deliverables	<ul style="list-style-type: none"> • Collaboration with identified funders • A clear indication of responsibilities and targets must be specified • All stakeholders and role players have to be allocated responsibilities within their respective capacities.
Measurable outcomes	An operational budget established

Operational Goal 2: Commitment from City of Tshwane Council to support community/citizen science initiatives

Action 7.2.1: Support community/citizen scientist activities and initiatives within the Hartbeesspruit and Colbyn Valley Wetland Ecosystem	
Responsibility	City of Tshwane
Timeline	Within first year of implementation
Resources needed	Financial and human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit
Deliverables	<ul style="list-style-type: none"> • Specific goals and priorities for community/citizen science support established • Responsibilities set according to the respective capacities of community/citizen scientists
Measurable outcomes	Goals, priorities and responsibilities established for community support

Action 7.2.2: Measuring community/citizen scientist activities and initiatives within the Hartbeesspruit and Colbyn Valley Wetland Ecosystem	
Responsibility	City of Tshwane
Timeline	Annually over 5 year implementation period
Resources needed	Financial and human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit
Deliverables	<ul style="list-style-type: none"> • Reports on activities and initiatives developed
Measurable outcomes	Annual monitoring reports on community/citizen science activities and initiatives

Operational Goal 3: Conservation Management of Colbyn Valley Wetland and Hartbeesspruit River Ecosystem

Action 7.3.1 : Identify and manage impacts on the River Catchment	
Responsibility	CoT
Timeline	Ongoing
Resources needed	Annual operational budget, human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit, private sector, DEA WfWet, (NRM)
Deliverables	<p>Hydrology- Identify all water inlet to the wetland catchment.</p> <ul style="list-style-type: none"> - Install pollution control structures at all water inlet points - Install biological oxygen traps in the water flowing system that feed the wetland system. <p>Geomorphology:</p> <ul style="list-style-type: none"> - Monitor erosion - Prevent infilling - Do rehabilitation where needed <p>Vegetation:</p> <ul style="list-style-type: none"> - Do alien plant control
Measurable outcomes	Management reports

Action 7.3.2: Database for baseline data for Colbyn Valley Nature Reserve established and maintained	
Responsibility	City of Tshwane and SANBI
Timeline	Initiated within first year of implementation and annually over period of implementation
Resources needed	Annual operational budget, human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit
Deliverables	<ul style="list-style-type: none"> • Database established and maintained
Measurable outcomes	Annual database reports

Action 7.3.3: Active management of Colbyn Valley Wetland Ecosystem	
Responsibility	City of Tshwane
Timeline	Annually over 5 year implementation period
Resources needed	Annual operational budget, internal and external human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit, private sector, DEA WfWet (NRM)
Deliverables	<ul style="list-style-type: none"> • Identify and prioritise all threats to wetland • Establish physical protection measures of prioritised threats • Set targets within capacity and resources available • Implement physical protection measures on wetland
Measurable outcomes	Annual management plan reports Improved management of Colbyn Valley Wetland

Action 7.3.4: Colbyn Valley Nature Reserve Management Plan completed and implemented	
Responsibility	City of Tshwane
Timeline	Reserve management plan completed within first year of implementation of BMP-E and implemented annually over 5 year implementation period
Resources needed	Annual operational budget, internal and external human resources
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit, private sector, DEA WfWet,(NRM)
Deliverables	<ul style="list-style-type: none"> • Identify and prioritise all threats to wetland • Establish physical protection measures of prioritised threats • Set targets within capacity and resources available • Implement physical protection measures on wetland
Measurable outcomes	Annual management plan reports Improved management of Colbyn Valley Wetland

Action: 7.3.5. Integrate City of Tshwane and Provincial river and wetland projects	
Responsibility	City of Tshwane
Timeline	Annually within 5 year implementation period
Resources needed	Operational budget, human resources (internal and external)
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit, private sector, DEA WfWet, (NRM)
Deliverables	Communicate management plans with role players - Management plan should be in line with CoT Ecological Management Plans and Wetland Management plans. Wetland Forum meetings
Measurable outcomes	Minutes and reports of Wetland Forum meetings

Operational Goal 4: *Create public awareness of Colbyn Valley Wetland and Hartbeesspruit River Ecosystem*

Action: 7.4.1. Increased stakeholder collaboration through the Friends group	
Responsibility	Friends of Colbyn
Timeline	Ongoing (To be determined)
Resources needed	Internal and external
Collaborators	City of Tshwane, Provincial Conservation Authority, Friends of Colbyn Valley, SANBI, private sector
Deliverables	Roles and responsibilities are clearly stated and revised every five years Establish "adopt a wetland" program Streamline wetland forums
Measurable outcomes	Forum broadened

Action 7.4.2 : Brand Colbyn Valley catchment and host regular public-stakeholder awareness events	
Responsibility	City of Tshwane
Timeline	Ongoing
Resources needed	Internal and external
Collaborators	Friends of Colbyn Valley, SANBI, Universities, Adopt Moreletaspruit
Deliverables	<ul style="list-style-type: none"> • Brand wetlands with information and signage • Develop educational programs
Measurable outcomes	Information boards erected as strategic points School education programmes undertaken Wetland Forum established with wetland role players

Operational Goal 5: Monitoring and Evaluation

Action 7.5.1 : Establish indicators for effective monitoring and reporting in management of Hartebeesspruit and Colbyn Valley Nature Reserve	
Responsibility	City of Tshwane
Timeline	Within first year of implementation
Resources needed	Operational budget, human resources (internal and external)
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority
Deliverables	Indicators developed for monitoring and reporting Monitoring reports
Measurable outcomes	Monitoring reports

Action 7.5.2 : Establish a Colbyn Valley Wetland/Water Catchment Working Group	
Responsibility	City of Tshwane
Timeline	Within first year of implementation
Resources needed	Internal and external
Collaborators	Friends of Colbyn Valley, Universities, SANBI, Provincial Conservation Authority, Adopt Moreletaspruit, private sector, DEA WfWet (NRM)
Deliverables	Terms of reference developed
Measurable outcomes	Colbyn Valley Wetland/Water Catchment Working Group established Meeting reports and action plans

8. Monitoring and evaluation

The actions captured in section 5 above should clearly indicate applicable and measurable outcomes where relevant. From these it will be possible to derive an overall understanding of performance of this BMP.

An annual report reflecting the progress made within the following over-arching outcomes:

1. Enhanced and sustained cooperation between role players through the Colbyn Valley Wetland/Water Catchment Working Group.
2. Comprehensive and up to date population census and habitat condition data.
3. Enhanced conservation status of the wetland and water catchment area.
4. Enhanced ecosystem management.
5. Improved wetland ecosystem functioning and maintaining of integrity towards improved water quality.

On the basis of this annual progress report, relevant officials from CoT, DEA and SANBI must facilitate the review of the BMP in collaboration with the Colbyn Valley Wetland/Water Catchment Working Group and make recommendations to amend and adapt it where necessary.

9. Useful contacts

Table 5: A list of role players required for the development of this management plan

Name	Organisation
Mr Piet-Louis Grundling	Centre for Wetland Research and Training
Ms Althea Grundling	Agricultural Research Council
Ms Shela Patrickson	ICLEI
Mr Ryan Nawn	Friends of Colbyn Valley
Mr Andre Swart	Friends of Colbyn Valley, Hatfield Village community group
Mr Alexander Heunis	City of Tshwane
Mr Eric Munzhedzi	Working for Wetlands
Mr Conride Mhlari	Working for Wetlands
Mr Retief Grobler	Working for Wetlands
Mr Ernst Wohltitz	City of Tshwane
Mrs Hlengiwe Cele	Friends of Colbyn Valley
Mr Piet Snyman	Friends of Colbyn Valley/Agricultural Research Council
Ms Wilma Lutsch	Department of Environmental Affairs
Mr Philip Calinikos	Friends of Colbyn Valley
Ms Anneli Kuhn	Adopt Moreletaspruit Forum
Ms Tamsyn Sherwill	Friends of Colbyn Valley
Ms Claire Wagner	Friends of Colbyn Valley
Mr Mike Silberbauer	Adopt Moreletaspruit, Dept Water & Sanitation
Mr Matthys Dippenaar	University of Pretoria
Ms Siobhan Muller	Ward Councillor, Friends of Colbyn Valley
Ms Santhuri Naidoo	Department of Environmental Affairs
Ms Lucia Motaung	Department of Environmental Affairs
Ms Pamela Kershaw	Department of Environmental Affairs
Ms Shannon Mayne	5 th Hillcrest-Colbyn Scout Group/Friends of Colbyn Valley
Ms Liz Metcalfe	ICLEI Cities Biodiversity Centre
Dr Geoff Cowan	Department of Environmental Affairs
Mr Karl Naude	Department of Environmental Affairs
Ms Budu Manake	South African National Biodiversity Institute
Ms Abigail Kamaneth	Gauteng Provincial Department of Agriculture and Rural Development
Ms Christina Seegers	Gauteng Provincial Department of Agriculture and Rural Development
Mr Petrus Links	Gauteng Provincial Department of Agriculture and Rural Development

DEPARTMENT OF TRADE AND INDUSTRY

NO. 438

15 APRIL 2016

**NATIONAL REGULATOR FOR COMPULSORY SPECIFICATIONS ACT
(Act No. 5 of 2008), AS AMENDED THROUGH LEGAL METROLOGY ACT (Act No.
9 of 2014)**

**AMENDMENTS TO THE COMPULSORY SPECIFICATION FOR EARTH LEAKAGE
PROTECTION DEVICES (VC 8035)**

It is hereby made known under section 13(4) of the National Regulator for Compulsory Specifications Act, (Act 5 of 2008) as amended, that I, Dr Rob Davies, Minister of Trade and Industry, on the recommendation of the NRCS, intends to amend the Compulsory Specification for earth leakage protection devices as set out in the attached schedule.

Any person, who wishes to comment on the prepared amendment the Compulsory Specification concerned, may submit their comments, in writing, to the Chief Executive Officer, National Regulator for Compulsory Specifications, Private Bag X 25, Brooklyn, 0075, on or before the date two (2) months after the publication of this notice.

Dr Rob Davies, MP
Minister of Trade and Industry

SCHEDULE

COMPULSORY SPECIFICATION FOR EARTH LEAKAGE PROTECTION DEVICES (VC 8035)

1. SCOPE

1.1 This compulsory specification covers earth leakage protection devices, the main contacts of which are intended to be connected to circuits, the rated voltage of which does not exceed 1 000 V a.c. or 1 500 V d.c.; *rated currents not exceeding 125A and a rated earth leakage not exceeding a tripping current of 30mA.*

1.2 This compulsory specification does not cover the following:

- Circuit-breakers
- Switches, disconnectors, switch-disconnectors and fuse combination units

2. DEFINITIONS

2.1 For the purposes of this document, the definitions in the **SANS 556 series**, shall apply.

2.2 In addition, the following definitions shall apply:

2.2.1 **applicant**: the manufacturer or importer seeking approval for a earth leakage protection device(s). The applicant shall be an existing legal entity within the Republic of South Africa.

2.2.2 **approval**: confirmation by the NRCS that a particular earth leakage protection device satisfies the requirements of this compulsory specification.

2.2.3 **conformity of production**: proof that earth leakage protection device(s) have been manufactured to the approved design and continue to comply with the requirements of this compulsory specification.

2.2.4 **declaration report**: a report that is issued by an accredited conformity assessment body, indicating the equivalence of products and/or standards.

2.2.5 **NRCS**: National Regulator for Compulsory Specifications as established by the National Regulator for Compulsory Specifications Act, 2008 (Act No. 5 of 2008).

2.2.6 **proof of conformity**: documented evidence of conformity with the requirements of this compulsory specification.

2.2.7 **product certification**: is a certification system described in requirement 7.2.2 of this compulsory specification.

2.2.8 **ordinary person**: a person who is neither a skilled nor an instructed person.

2.2.9 **valid test report**: a copy of an original test report.

3. GENERAL REQUIREMENTS

- 3.1 The applicant shall ensure that each type of earth leakage protection device has been approved by the NRCS before offering it for sale, in accordance with the requirements of Annex A.
- 3.2 The applicant shall inform the NRCS of any change in design or materials affecting any mandatory requirement in terms of this compulsory specification. In the event of such change(s) the NRCS may, at its discretion, demand that the applicant submit a new application for approval.
- 3.3 The applicant shall, on request, provide the NRCS, within 5 working days, with satisfactory proof of approval in respect of any type of earth leakage protection device included in the scope of this compulsory specification.
- 3.4 Failure to provide such proof shall constitute reasonable grounds for suspicion of non-compliance with the requirements of this compulsory specification.
- 3.5 All earth leakage protection devices shall comply with the requirements of the product certification system defined in 2.2.7 of this compulsory specification.

4. SPECIFIC REQUIREMENTS

- 4.1 **Earth leakage circuit-breakers** shall comply with the requirements of **SANS 556-2-1**, *Earth leakage circuit-breakers*,
- 4.2 **Earth Leakage Switches** shall comply with the requirements of **SANS 556-2-2**, *Earth leakage switches*,
- 4.3 **Modular earth leakage devices** shall comply with the requirements of **SANS 556-2-3**, *Low-voltage switchgear: Modular earth leakage devices (without integral current breaking)*,
- 4.4 **Portable earth leakage devices** shall comply with the requirements of **SANS 556-2-4**, *Low-voltage switchgear: Portable earth leakage devices without integral overcurrent protection for household and similar use*,
- 4.5 **Earth Leakage Switches without overcurrent protection** shall comply with requirements of **SANS 556-2-5**, *Switches incorporating residual current protection*.

5. EQUIVALENCE OF STANDARDS

Standards issued by different standardization bodies such as ISO and EN, will only be accepted if it is proven, in the form of a declaration report from an accredited conformity assessment body, that they are technically equivalent to the relevant South African National Standard. The applicant shall be responsible for obtaining such a declaration report. Proof of conformity with such a standard shall be accepted as conformity with the corresponding South African National Standard.

6. CONFORMITY TO REFERENCED STANDARDS

- 6.1 For the purposes of this compulsory specification, a new edition of a referenced standard shall become effective twelve (12) months from the date of publication as a South African National Standard.
- 6.2 New products, or products resubmitted for approval because of a change in design or materials, shall in all cases be evaluated against the requirements of the latest edition of any referenced standard.
- 6.3 When a new edition of a referenced standard is published, products originally approved in accordance with the previous edition of that standard may have their approval extended for up to five (5) years from the effective date of the new

standard, subject to the requirements of Annex A, unless declared otherwise by the Minister.

7. EVIDENCE OF CONFORMITY

The following evidence shall be submitted to the NRCS as proof of conformity with the requirements of this compulsory specification:

- 7.1 A product certificate and a valid test report issued by an appropriately accredited and internationally recognized body being a member of an IAF/ILAC/IECEE mutual recognition scheme in accordance with the NRCS's conformity assessment policy.
- 7.2 The certification system administered by the product certification body in 7.2.1 shall include testing of the products and assessment of the quality system of the manufacturer. Surveillance of the quality system shall be conducted and representative samples of earth leakage protection devices of each type or representative of the family of earth leakage protection devices or of generically the same design in respect of components wiring methods, intended to comply with the requirements of this compulsory specification, shall be taken from the point of production and shall be assessed through inspection and/or testing for on-going conformity.

The certification system shall include the following:

- samples from the point of production requested by the certification body;
- determination of the characteristics of the samples by testing;
- initial assessment of the production process and quality system;
- evaluation of the test reports;
- decision on certification of the manufacturer;
- granting certification to the manufacturer;
- surveillance of the production process and quality system, and
- surveillance by testing of samples from the factory and the market.

A system 5 certification contemplated in ISO/IEC 17067 standard (conformity assessment-fundamentals of product certification) which covers the requirements of this clause shall be deemed to comply with these requirements.

ANNEX A APPROVAL OF EARTH LEAKAGE PROTECTION DEVICES

A.1 APPLICATION FOR APPROVAL

An application for approval of each type of earth leakage protection device (or family of earth leakage protection devices of generically the same construction) intended for sale shall include:

A.1.1 Details of the type of earth leakage protection device(s) for which approval is sought and the standard(s) to which it is claimed to conform;

A.1.2 Details of the manufacturing plant(s) in which the earth leakage protection device type is produced;

A.1.3 For new applications, proof of conformity as described in requirement 7.2 of this compulsory specification, with all the requirements of this compulsory specification, issued less than 36 months before the date of submission to the NRCS;

A.1.4 On expiry of the approval (LOA), an application for a new LOA may be granted, provided that all the conditions of the product certification were met. In this case, a valid product certificate (as determined by conformity assessment body) and conformity of production shall be required;

A.1.5 Identification markings and other information appearing on the product; and

A.1.6 Any reasonable additional information in order to clarify the above that may be requested by the NRCS.

A.2 APPROVAL

A.2.1 The NRCS shall assess the evidence of conformity supplied by the applicant and shall decide to grant approval or not, at its sole discretion.

A.2.2 The NRCS shall assign a unique number to each approval.

A.2.3 The NRCS shall issue a letter of authority certificate (LOA) for each successful application, to the applicant, when all the requirements have been met. The validity period of an LOA shall be three (3) years and three (3) years for an extension.

A.2.4 The approval granted with respect to each type of earth leakage protection device that is pursuant to this compulsory specification may be withdrawn at any time, after the manufacturer has been notified in writing, if the requirements have not been met or maintained.

DEPARTMENT OF TRANSPORT

NO. 439

15 APRIL 2016

NATIONAL RAILWAY SAFETY REGULATOR ACT, 2002 (ACT NO.16 OF 2002)

DETERMINATION OF PERMIT FEES UNDER SECTION 23(2) (a) OF THE
NATIONAL RAILWAY SAFETY REGULATOR ACT, 2002

I, Dipuo Peters, Minister of Transport, in terms of section 23(2)(a) of the National Railway Safety Regulator Act, 2002 (Act No. 16 of 2002) as amended, hereby determine as indicated in the Schedule, fees that the Railway Safety Regulator must charge for safety permits, with effect from 1 April 2016 to 31 March 2017.

The Safety Permit Fees are published for compliance and general information.

DIPUO PETERS, MP

MINISTER OF TRANSPORT

DATE: 31/03/2016

SCHEDULE

PERMIT FEES PAYABLE TO THE RAILWAY SAFETY REGULATOR

DEFINITIONS

1. For the purpose of calculating fees:-

“annual passengers” means the total number of passengers transported aboard railway operator’s passenger or commuter rolling stock between two points (i.e. a station of boarding and of disembarkation) with the exception of a train operator’s personnel, over the period of an operator’s most recently completed financial year;

“annual tons” The total sum of the mass of dangerous or general goods loaded onto a locomotive by a train operator in the preceding financial year, and transported along the portion of a rail network for which the train operator has a permit to traverse;

“cape gauge” railway track where the distance between the two rails of the track is 1,067 millimetres in length;

“general freight or passenger operators” means network, train or station operators (or a combination thereof) whose operations include the transportation of passengers and freight that excludes dangerous and/or mining goods;

“non-rail related revenue” means revenue generated by Train Operators, Network Operators or Station Operators whose railway operation is incidental to its main business;

“passengers” means people transported by a train between two points (i.e a station of boarding and of disembarkation) with the exception of a train operator’s personnel;

“rail-related revenue” means the gross inflow of cash arising from all rail operating activities of an operator;

“relevant risk based fee rate” means the rand value equivalent of the risks attributable to rail activities. The units of measurement include R/Kilometers (for network operations), R/number of stations (for station operator), R/passenger kilometers (for passenger operations), and R/ton kilometer (for freight operations);

“standard gauge” railway track where the distance between the two rails of the railway track is 1,435 millimetres in length; and

“tourist passengers” means passengers transported aboard railway operator’s rolling stock between two points (i.e. a station of boarding and of disembarkation) for recreational purposes, with the exception of a train operator’s personnel and commuter passengers.

APPLICATION FEES

2. A non-refundable application fee must accompany an application for a safety permit. The fees specified in the categories OPERATOR CATEGORY AND AMOUNT column of the Schedule shall be payable in respect of the corresponding APPLICATION FEES FOR GENERAL SAFETY PERMIT that is applied for as specified in the first column of the Schedule indicated as follows:

APPLICATION FEES FOR GENERAL SAFETY PERMIT	OPERATOR CATEGORY AND AMOUNT (RANDS)		
	Transportation of Mining Goods by mining operators	Transportation of Dangerous Goods	Transportation of passengers or General Freight
Group A: Train, Network and Station operators Application Fee	R 47 300	R 47 300	R 47 300
Group B: Train, Network and Station Operators Application Fee	R 15 500	R 15 500	R 2800
Group C: Train, Network and Station Operators Application Fee	R 6500	R 6500	R 2800

OTHER SAFETY PERMITS FEES FOR RAILWAY OPERATIONS

3. The fees specified in the categories OPERATOR CATEGORY AND AMOUNT column of the Schedule shall be payable in respect of the corresponding APPLICATION FEES FOR OTHER SAFETY PERMIT being applied for specified in the first column of the Schedule indicated as follows:

APPLICATION FEES FOR OTHER SAFETY PERMITS	OPERATORS CATEGORY AND AMOUNT		
	GROUP A	GROUP B	GROUP C
Temporary Safety Permit	R 107 500	R 86 000	R 11 825
Construction Train Safety Permit	R 537 500	R 69 875	R 3225
Test and Commissioning Safety Permit	R 1 075 000	R 107 500	R 43 000

PERMIT FEE RATES FOR NON RAIL-RELATED REVENUE GENERATING TRAIN OPERATORS, NETWORK OPERATORS AND STATION OPERATORS

4.1 The fees payable shall be calculated by multiplying the unit specified in Column 3 with the relevant risk based fee rate specified in Column 4 in respect of the corresponding activities specified in Column 2 of the Schedule, except where a flat rate has been indicated.

COLUMN 1 Operator Category	COLUMN 2 Rail Activities	COLUMN 3 Unit	COLUMN 4 Relevant Risk Based Fee Rate		
			Mine Operations	Dangerous Goods Operations	Transportation of Passenger or general freight
(a) Train	Running Lines for Tourist / Passengers	Total annual passenger number x Total length of running line (Km)	N/A	N/A	5.8115878
	Private Siding Lines for General Freight/ Dangerous Goods	Annual Tons x Total length of siding (Km)	Flat Fee Rate: R50 000.00	Flat Fee Rate: R300 000.00	Flat Fee Rate: R7 976.50
	Private Siding Lines for Tourist / Passengers	Total annual passenger number x Total length of siding (Km)	N/A	N/A	Flat Fee Rate: R7 976.50
(b) Network	Running Lines for Cape Gauge	Total length of Cape Gauge running line (Km)	N/A	N/A	N/A
	Siding Lines for Cape Gauge	Total length of Cape Gauge siding (Km)	29.12132	10769.12	2695.707
(c) Station	On and off boarding sites/ zones for passengers	Number of stations	N/A	N/A	Flat Fee Rate: R 88 687.50

PERMIT FEE RATES FOR RAIL-RELATED REVENUE GENERATING TRAIN OPERATORS, NETWORK OPERATORS AND STATION OPERATORS

4.2 The Operators have been grouped as follows:-

(a) Group A: Train Operators, Network Operators and Station Operators

- All operators involved with the movement of passengers/commuters;
- All operators involved with the movement of dangerous goods exceeding 50 000 net tons per annum;
- All operators involved with the movement of general freight exceeding 500 000 net tons per annum; and
- Railway manufacturing and maintenance companies involved with the movement of locomotives, empty wagons/coaches and any other rail-bound maintenance vehicles exceeding 500 000 gross tons per annum

(b) Group B: Train Operators, Network Operators and Station Operators

- All operators involved with the movement of tourists;
- All operators involved with the movement of dangerous goods less than or equal to 50 000 net tons per annum;
- All operators involved with the movement of general freight from 200 000 to 500 000 net tons per annum; and
- Railway manufacturing and maintenance companies involved with the movement of locomotives; and empty wagons/coaches and any other rail-bound maintenance vehicles between 200 000 to 500 000 gross tons per annum.

(c) Group C: Train Operators, Network Operators and Station Operators

- All operators involved with the movement of general freight less than 200 000 net tons per annum;
- Railway manufacturing and maintenance companies involved with the movement of locomotives/empty wagons/coaches and any other rail-bound maintenance vehicles less than 200 000 gross tons per annum; and
- Group C operators are liable to pay a flat fee of R 7976.50.

4.3 (a) The formula below is used as a basis to calculate Group A

Operators annual safety permit fee:

$$W = (Y - U - V) * X/Z$$

Where:-

- i. **U** is the total amount of the railway safety levy payable by all Group C Operators for the most recently completed and audited financial year **(R 47 164.23)**;
- ii. **V** is the total amount of the railway safety levy payable by all Group B Operators for the most recently completed and audited financial year **(R 2 342 082.40)**;
- iii. **W** is the amount of railway safety levy payable by the relevant Group A Operators for the most recently completed and audited financial year (use formula to determine contribution);
- iv. **X** is the annual rail-related revenue of the relevant Group A Operators for the most recently completed and audited financial year;
- v. **Y** is the total amount of the railway safety permit levies due to the Railway Safety Regulator for the 2016/17 financial year; **(R 123 000 000.00)**; and
- vi. **Z** is the total annual rail-related revenue of all the Group A Operators for the most recently completed and audited financial year **(R 71 505 501 168.80)**.

(b) Table below is used as a basis to calculate railway Operators annual safety permit fee:-

OPERATOR GROUP	BAND	PERMIT FEE PAYABLE (Proportionate revenue distribution)
GROUP A <ul style="list-style-type: none"> • Train • Station • Network 	Dangerous goods ≥ 50 000t General goods ≥ 500 000t All passengers	W = (Y-U-V) * X/Z
GROUP B <ul style="list-style-type: none"> • Train • Station • Network 	Dangerous goods < 50 000t General goods ≥ 200 000t and < 500 000t All tourists	0.12% of relevant (with respect to the most recently completed and audited financial year) annual rail-related revenue
GROUP C <ul style="list-style-type: none"> • Train • Station • Network 	General goods < 200 000t	Flat Rate: R7 976.50

APPLICATION OF NOTICE

5.1. The permit fee rates and formulae specified in sections 4.1 and 4.3 of this schedule do not apply to the following legal entities:-

- (a) Transnet SOC Ltd : Acting through its operating division Transnet Freight Rail (TFR); Acting through its operating division Transnet Port Terminals; Acting through its operating division Transnet Engineering; Acting through its operating division Transnet National Ports Authority and Acting through its operating division Transnet Pipelines;
- (b) Passenger Rail Agency of South Africa (PRASA) ;
- (c) Bombela Operating Company;
- (d) All registered non-South African train operators operating in the Republic of South Africa.

5.2 The permit fee rates determined for the 2016/17 financial year shall apply to the following entities:-

- (a) Transnet SOC Ltd:-
 - Acting through its operating division Transnet Freight Rail (TFR):
R 68,290,560.00;
 - Acting through its operating division Transnet National Ports Authority:
R 247 192.00;
 - Acting through its operating division Transnet Port Terminals:
R 250 107.00;
 - Acting through its operating division Transnet Engineering:
R1 154 386.64; and
 - Acting through its operating division Transnet Pipelines: **R 8 651.72.**
- (b) Passenger Rail Agency of South Africa (PRASA): **R 26 247 296.00;**
- (c) Bombela Operating Company: **R 3 100 000.00;** and
- (d) Non-South African train operators operating in the Republic of South Africa will pay their 2015/16 permit fee amounts plus a 10% annual levy.

SHORT TITLE AND COMMENCEMENT

6. This notice is called the Determination of Permit Fees for the 2016/17 financial year, and will come into operation at a date to be determined by the Minister.

GENERAL NOTICES • ALGEMENE KENNISGEWINGS

DEPARTMENT OF AGRICULTURE, FORESTRY AND FISHERIES**NOTICE 204 OF 2016****SA OLIVE INDUSTRY
APPLICATION FOR THE CONTINUATION OF STATUTORY MEASURES
ON OLIVE PRODUCTS**

NAMC REQUESTING COMMENTS / INPUTS FROM INDUSTRY ROLE PLAYERS

On 4 April 2016, the Minister of Agriculture, Forestry and Fisheries received a request from SA Olive (SA Olive Industry Association) for the continuation of statutory measures (registration, records & returns and levies) on imported and local produced volumes of olive products in terms of the Marketing of Agricultural Products Act (MAP Act) 1996. The current statutory measures will expire on 31 May 2016.

It is proposed that the following statutory measures be implemented for a new four-year period, effective from date of publication:

- Levies (in terms of Section 15 of the MAP Act);
- Records & Returns (in terms of section 18 of the MAP Act); and
- Registration (in terms of section 19 of the MAP Act).

The purpose and objective of the statutory measures relating to **records & returns and registration** are to compel DAGs (directly affected groups) in the olive industry to register with SA Olive. By combining compulsory registration with the keeping of information and the rendering of returns on an individual basis, market information for the whole of the industry can be processed and disseminated and will form the basis for the collection of levies. This is necessary to ensure that continuous, timeous and accurate information is available to all role players.

The **payment of the levy**, will be used to finance the following:

- Research and technology development & technology transfer;
- Information and statistics;
- Quality control and certification;
- Communication, consumer education and market development; and
- Transformation and training.

Council members: Mr AD Young (Acting Chairperson), Mr AM Cronje, Ms MM Gill, Mr A Hendricks, Dr LL Magingxa, Dr JL Purchase, Ms JM van der Merwe and Ms TE Zimu.

The proposed levy amounts applicable on both local production and imports are the same as the current levies. The current and proposed levies are as follows:

	Current levy	Proposed new levy amount
Table olives levied on a per kilogram basis (p/kg)	8c p/kg	8c p/kg
Olive oil levied on a per liter basis (p/l)	40c p/l	40c p/l

Proposed budget for the four (4) year period:

			2016/17	2017/18	2018/19	2019/20
			R	R	R	R
1	Technical Research, Development & Transfers	15%	414,000	414,000	414,000	414,000
2	Communication, Consumer Education & Market Development	40%	1,104,000	1,104,000	1,104,000	1,104,000
3	Statistics & Information	5%	138,000	138,000	138,000	138,000
4	Quality Control & Certification	15%	414,000	414,000	414,000	414,000
5	Transformation and Training.	20%	552,000	552,000	552,000	552,000
6	Administration	5%	138,000	138,000	138,000	138,000
Total Budget		100%	2,760,000	2,760,000	2,760,000	2,760,000

The NAMC believes that the measures requested are consistent with the objectives of the MAP Act (as set out in section 2 of the Act).

Directly affected groups (e.g. producers, packers, importers and processors) in the olive industry are kindly requested to submit any comments, in writing, regarding the proposed statutory measures, to the NAMC on or before 13 May 2016, to enable the Council to finalise its recommendation to the Minister in this regard.

GOVERNMENT

GAZETTE,

**DEPARTMENT OF TOURISM
DEPARTEMENT VAN TOERISME**

**No. R....
2016**

**TOURISM ACT, 2014 (Act No. 3 of 2014)
REGULATIONS FOR TOURIST GUIDING**

The Minister of Tourism has, under section 61(1)(c), read with Chapter 6 of the Tourism Act, 2014 (Act No. 3 of 2014), made the regulations in the Schedule.

SCHEDULE

1. Definitions

In these Regulations, a word or expression to which a meaning has been assigned in the Act has the meaning so assigned, unless the context indicates otherwise-

“**Act**” means the Tourism Act, 2014 (Act No. 3 of 2014).

“**Adventure tourist guide**” means a tourist guide that conduct any outdoor recreation leisure activities with an element of risk involved such as abseiling, hiking, mountain climbing, paddling etc. and the interpretation of such sites may be provided from a culture or nature perspective and having attained specific competencies to do so.

“**Culture tourist guide**” means a tourist guide that interpret the cultural heritage of sites to visitors by educating them about the different aspects of a particular area and is knowledgeable about the cultural aspects of that particular area and may specialise in certain fields i.e. art, township history, cultural experiences in rural villages, museums, historic buildings etc.

“**National tourist guide**” means a tourist guide who is qualified to conduct tours all over South Africa, crossing all provincial boundaries and have acquired the knowledge and practical skills to guide in all nine Provinces of South Africa.

“Nature tourist guide” means a tourist guide that interprets the natural heritage of sites to visitors by educating them about the different aspects of a particular area and are knowledgeable about the natural environment including the flora and fauna, birding, tracking, guiding in dangerous game areas, botany etc. of a particular area.

“Site tourist guide” means a tourist guide who is qualified to guide at a specific/clearly defined area or site like a museum, cultural village, aquarium etc. and have acquired the relevant knowledge and practical skills to enable them to guide in that particular area or site.

“Provincial tourist guide” means a tourist guide that is qualified to guide in a particular province or in a number of provinces and have acquired the relevant knowledge and practical skills to enable them to guide in that particular province or provinces.

2 Registration of Tourist Guides

(1) Application form

A person who wishes to be registered as a tourist guide must apply to the Provincial Registrar in the following manner:

- (a) The application must be on Form A.
- (b) The application must be accompanied by-
 - (i) proof of the competence contemplated in section 50(2) read with section 51 of the Act, which must include a valid first aid certificate;
 - (ii) proof of having passed the quality assurance process;
 - (iii) the registration fee of R240-00 (two hundred and forty rands); and
 - (iv) four (4) recent, clear, unmounted and identical full face colour photographs of the applicant (showing only the head and shoulders), measuring 30 x 25 mm.

(2) Registration Fee

An application for registration, renewal of registration or an additional competence must be accompanied by a fee of R240-00 (two hundred and forty rands).

(3) Registration certificate and badge

- (a) The registration certificate referred to in section 50(6) of the Act must be as in Annexure A.

(b) The badge referred to in section 50(6) of the Act must be as in Annexure B.

(4) Renewal of registration

An application for the renewal of registration in terms of section 50(8)(a) of the Act must be on Form A.

(5) Additional competence

A tourist guide who wishes to obtain a new registration certificate and badge reflecting the acquisition of a competence in a field of specialisation or an additional competence within such a field, must apply in writing on Form A.

(6) Damaged, destroyed or lost certificate of registration or badge

If badge or certificate of registration is damaged, destroyed or lost, the tourist guide to whom it was issued must within fifteen (15) days of such damage, destruction or loss, apply in writing on Form A for the replacement of the badge or certificate of registration.

3. Issue of Registration Certificate and Badge

(1) The Provincial Registrar must issue a certificate of registration and a badge upon satisfying himself or herself that the applicant—

(a) has fully completed Form A and has met all the requirements for registration;

(b) complies with the competence for registration as a tourist guide;

(c) has declared that he or she knows, understands and considers himself or herself to be bound by the code of conduct and ethics referred to in section 52 of the Act; and

(d) is not subject to any disqualification mentioned in section 50(3) of the Act.

(2) A tourist guide must return a damaged certificate or badge, to the Provincial Registrar and complete Form A.

(3) In the case where a certificate or badge is damaged, destroyed or lost, the tourist guide must submit an affidavit to that effect and complete Form A.

4. Endorsement in Provincial Register regarding suspension of registration of tourist guide

An endorsement in the Provincial Register against the name of a tourist guide whose registration is suspended in terms of sections 54(5) and 55(5) must—

- (a) mention the provision of the Act in terms of which the suspension was done;
- (b) contain a brief summary of the allegations giving rise to the suspension;
- (c) state the date of commencement of the suspension;
- (d) state the period of suspension; and
- (e) state the date on which the suspension will expire.

5. Provincial Register

The Provincial Register of tourist guides referred to in section 49(2)(a)(i) of the Act must contain the particulars of each registered tourist guide as required in section A of Form A.

6. Code of conduct and ethics

Preparation and publication of code of conduct and ethics

- (1) The National Registrar must, after consultation with the MEC, Provincial Registrars and stakeholder groupings and before adopting the code of conduct and ethics –
 - (a) give notice of the proposed code of conduct and ethics in the Gazette;
 - (b) invite members of the public to submit to the National Registrar, within the period determined in the notice, written representations regarding the proposed code of conduct and ethics;
 - (c) consider what steps, if any, are appropriate to bring the contents of the proposed code of conduct and ethics to the attention of interested persons, and take those steps which the National Registrar considers to be appropriate; and
 - (d) consider any written representations so received.

- (2) The National Registrar may, after following the procedure set out in sub-regulation (1), review the code of conduct and ethics.
- (3) The National Registrar must publish the final code of conduct and ethics in the Gazette and submit copies of the code to the Provincial Registrars.

7. Disciplinary measures

The Provincial Registrar may, for the purposes of section 55(4)(b) of the Act, impose a fine mentioned in Annexure C.

8. Appeals

- (1) A person who is aggrieved by a decision of a Provincial Registrar may appeal against that decision to the National Registrar within thirty (30) days from the date on which he or she is notified of the decision of the Provincial Registrar:
- (2) The appeal must be lodged in writing and must outline the grounds for the appeal.
- (3) The appellant must submit a copy of the appeal to the Provincial Registrar:
- (4) The Provincial Registrar must, within ten (10) days from the date of receipt of the copy of the appeal from the appellant submit to the National Registrar his or her reasons for the decision.
- (5) The appeal must be accompanied by a fee of R200-00 (two hundred rands).
- (6) The National Registrar must, within thirty (30) days from the date of receipt of the reasons submitted by the Provincial Registrar, make a decision on the appeal and notify the appellant of the decision.

9. Repeal

The Regulations Pertaining to Tourist Guides, 1994, and the Regulations in Respect of Tourist Guides, 2001, are hereby repealed.

10. Short title and commencement

These regulations are called Regulations for Tourist Guiding, 2016, and come into operation on.....

“**Molao**” e ra Molao wa tša Boeti, 2014 (Molao 3 wa 2014).

“**Hlahli ya baeti ya bohlagahlaga**” e ra hlahli ya baeti ye sepetšago mahlahla afe goba afe a boitapološo bja ka ntle ao a nago le kotsi go swana le go theoga, go haeka, go namela thaba, go phetlela bjalo bjalo mme hlathollo ya mafelo a e ka dirwa go ya ka ponelo ya setšo goba hlago a hweditše bokgoni bja go dira seo.

“**Hlahli ya baeti ya setšo**” e ra hlahli ya baeti yeo e hlathollago bohwa bja setšo bja mafelo go baeti ka go ba ruta ka ga dintlha tše farologanego tša lefelo le itšego mme e na le tsebo ka dintlha tša setšo tša lefelo leo ebile e ka šoma mafelong a itšego i.e. bokgabo, histori ya motsesetoropo, boitemogelo bja setšo bja go dula metsemagaeng, dimusiamo, meago ya bogologolo bjalo bjalo.

“**Hlahli ya baeti ya Bosetšhaba**” e ra hlahli ya baeti yeo e nago le boitemogelo bja go phethagaletša maeto mo Afrika Borwa, go tloiswa mellwane ka moka ya diprofense mme e hweditše tsebo le bokgoni bja hlahlo diprofenseng ka moka tše senyane mo Afrika Borwa.

“**Hlahli ya baeti ya hlago**” e ra hlahli yeo e hlathollago bohwa bja hlago bja mafelo go baeti ka go ba ruta ka ga dintlha tše farologanego tša lefelo le itšego mme e na le tsebo ka tikologo ya hlago go akaretšwa dibjalo le diphedi, ka ga

dinonyane, go nyaka mohlala, hlahlo mafelong a kotsi a dipapadi, tša dimela bjalo bjalo tša lefelo le itšego.

“Hlahli ya baeti ya lefelong” e ra hlahli ya baeti yeo e nago le boithutelo bja go hlahla lefelo le itšego/le hlalošitšwego bjalo ka musiamo, motse wa setšo, akhwariamo bjalo bjalo mme o hweditše tsebo ye malebana le bokgoni bja go dira go mo kgontšha go hlahla lefelong le itšego.

“Hlahli ya baeti ya profense” e ra hlahli yeo e nago le boithutelo profenseng ye itšego goba diprofenseng tše itšego mme e hweditše tsebo ye malebana le bokgoni bja go dira bakeng sa go e kgontšha go hlahla profense goba diprofenseng tše itšego.

2 Ngwadišo ya Dihlahli tša baeti

(1) Foromo ya kgopelo

Motho yo ratago go ka ngwadišwa bjalo ka hlahli ya baeti o swanetše go dira kgopelo go Mongwadiši wa Profense ka tsela ye latelago:

- (a) Kgopelo e swanetše go dirwa go foromo A.
- (b) Kgopelo e swanetše go sepela le-
 - (i) bohlatse bja bokgoni bjo hlalošitšwego go karolo 50(2) e balwa le karolo 51 ya Molao, bo swanetše go akaretša setifikeiti sa kgonthe sa thušo ya tšhoganyetšo;
 - (ii) bohlatse bja go laetša katlego tshepetšong ya netefatšo ya boleng;
 - (iii) tefišo ya R240-00 (diranta tše makgolopedi le masomenne); le
 - (iv) diswantšho tša sefahlego se se feletšego tše nne (4) tša bjale, tše bonalago gabotse, tše sepelago ka nnoši mme tše swanago tša mmala tša modirakgopelo (tše bontšhago hlogo le magetla fela) tša tekanyo ya 30 x 25 mm.

(2) Tefišo ya ngwadišo

Kgopelo ya ngwadišo, mpshafatšo ya Ngwadišo goba bokgoni bja tlaleletšo di swanetše go sepela le R240-00 (diranta tše makgolopedi le masomenne).

(3) Setifikeiti sa ngwadišo le petšhe

- (a) Setifikeiti sa ngwadišo se hlalošitšwego go karolo 50(6) ya Molao se swanetše go ba go selomaganyo A.

- (b) Petšhe ye hlalošitšwego go karolo 50(6) ya Molao e swanetše go ba go Selomaganyo B.
- (4) Mpshafatšo ya ngwadišo
Kgopelo ya mpshafatšo ya ngwadišo go ya ka karolo 50(8)(a) ya Molao e swanetše go ba go Foromo A.
- (5) Bokgoni bja tlaleletšo
Hlahli ya baeti yeo e ratago go ka hwetša setifikeiti sa ngwadišo se sefsa le petšhe ye laetšago khwetšo ya bokgoni lefelong la botsebi goba bokgoni bja tlaleletšo lefelong leo, e swanetše go dira kgopelo ka tsela ya lengwalo go Foromo A.
- (6) Ditifikeiti tša ngwadišo goba petšhe ye senyegilego, goba ye lahlegilego.
Ge petšhe goba setifikeiti sa ngwadišo se senyegile goba se lahlegile, hlahli ya baeti yeo e bego e neilwe setifikeiti e swanetše, mo matšatšing a lesomehlano (15) a tshenyego goba tahlego ye, go dira kgopelo ya petšhe goba setifikeiti sa ngwadišo sa peobakeng.

3. **Kabo ya Setifikeiti sa Ngwadišo le Petšhe**

- (1) Mongwadiši wa Profense o swanetše go nea setifikeiti sa ngwadišo le petšhe ge a kgotsofetše gore modirakgopelo–
- (a) o tladitše Foromo A mme o fihleletše dingwaka ka moka;
- (b) o obamela tša bokgoni bja ngwadišo bjalo ka hlahli ya baeti;
- (c) o begile gore o tseba, hlaloganya ebile o ipona a tlangwa ke molao wa maitshwaro le maitshwaro a botse a hlalošitšwego go karolo 52 ya Molao; gape
- (d) ga se a ganetšwa go ya ka kganetšo ye hlalošitšwego go karolo 50(3) ya Molao.
- (2) Hlahli ya baeti e swanetše go bušetša setifikeiti goba petšhe ye senyegilego, go Mongwadiši wa Profense mme a tlatše Foromo A.
- (3) ge setifikeiti goba petšhe e senyegile goba e lahlegile, hlahli ya baeti e swanetše go hwetša afitafiti ye laetšago seo mme e tlatše Foromo A.

4. **Thekgo go Retšisetara ya Profense malebana le phego ya ngwadišo ya hlahli ya baeti**

Thekgo go Retšisetara ya Profense kgahlanong le leina la hlahli ya baeti yeo ngwadišo ya yona e fegilwego go ya ka karolo 54(5) le 55(5) e swanetše go-

- (a) laetša taelo ya Molao yeo phego e dirilego ka wona;
- (b) hwetša kakaretšokopana ya ditatofatšo tšeo di hlotšwego phego ;
- (c) bega letšatši la go thoma go šoma ga phego ;
- (d) bega nako ya phego ; mme
- (e) bega letšatši leo phego e felelwago ke nako ka lona.

5. Retšisetara ya Profense

Retšisetara ya Profense ya dihlahli tša baeti yeo e hlalošitšwego go karolo 49(2)(a)(i) ya Molao e swanetše go ba le dintlha tša hlahli ye nngwe le ye nngwe ye ngwadišitšwego bjalo ka ge go hlokeka go karolo A ya Foromo A.

6. Molao wa maitshwaro le maitshwaro a mabotse

Peakanyo le kgatišo ya molao wa maitshwaro le maitshwaro a mabotse

(1) Mongwadiši wa Bosetšhaba, morago ga ditherišano le MEC, Bangwadiši ba Profense le dihlopha tša beng dišere mme pele a amogela molao wa maitshwaro le maitshwaro a mabotse, o swanetše go -

- (a) nea Tsebišo ya molao wa maitshwaro le maitshwaro a mabotse a šišintšwego Kuranteng ya mmušo;
- (b) laletša maloko a setšhaba go romela Mongwadišing wa Bosetšhaba, mo nakong ye laeditšwego Tsebišong, baemedi ka tsela ya lengwalo, malebana le molao wa maitshwaro le maitshwaro a mabotse a šišintšwego;
- (c) eleletša gore ke magato a fe, ge a le gona, a swanetšego go iša dikagare tša molao wa maitshwaro le maitshwaro a mabotse go batho bao ba nago le kgahlego mme a tšee magato ao Mongwadiši wa Bosetšhaba a bonago a swanetše; gape
- (d) eleletša boemedi bja tsela ya lengwalo bjo hweditšwego.

0

(2) Mongwadiši wa Bosetšhaba a ka, morago ga go latela tshepedišo ye laeditšwego go mmolawana (1), feteleka molao wa maitshwaro le maitshwaro a mabotse.

- (3) Mongwadiši wa Bosetšhaba o swanetše go gatiša molao wa maitshwaro le maitshwaro a mabotse tša mafelelo Kuranteng ya mmušo mme a romele dikhophi tša molao go Bangwadiši ba Profense.

7. Magato a kgalemo

Mongwadiši wa Mosetšhaba a ka, bakeng sa karolo 55(4)(b) ya Molao, gapeletša faene ye hlalošitšwego go Selomaganyo C.

8. Boitekanelo

- (1) Motho yo a nago le ngongorego ka sepheto sa Mongwadiši wa Profense a ka dira boipelaetšo kgahlanong le sepheto go Mongwadiši wa Bosetšhaba mo matšatšing a masometharo (30) go tloga ka letšatšikgwedi leo a tsebišwago ka ga sepheto sa Mongwadiši wa Bosetšhaba ka lona.
- (2) Boipelaetšo bo swanetše go dirwa ka tsela ya lengwalo mme go hlalošwe mabaka a boipelaetšo.
- (3) Moipelaetši o swanetše go romela khophi ya boipelaetšo go Mongwadiši wa Bosetšhaba:
- (4) Mongwadiši wa Profense, mo matšatšing a lesome (10) go tloga ka letšatšikgwedi la khwetšo ya khophi ya boipelaetšo gotšwa go moipelaetši, o swanetše go romela go Mongwadiši wa Bosetšhaba, mabaka a gagwe a sepheto seo.
- (5) Boipelaetšo bo swanetše go sepela le tefišo ya R200-00 (diranta tše makholopedi).
- (6) Mongwadiši wa Bosetšhaba, mo matšatšing a lesometharo go tloga ka letšatšikgwedi la kgwetšo ya mabaka a rometšwego ke Mongwadiši wa Profense, o swanetše go dira sephetho ka boipelaetšo mme a tsebiše moipelaetši ka sepheto seo.

9. Phumolo

Melawana ye Malebana le Dihlahli tša Baeti, 1994, le Melawana Malebana le Dihlahli tša Baeti, 2001 e a phumolwa.
