Government Printing Works

Notice submission deadlines

Government Printing Works has over the last few months implemented rules for completing and submitting the electronic Adobe Forms when you, the customer, submit your notice request.

In line with these business rules, GPW has revised the notice submission deadlines for all gazettes. Please refer to the GPW website www.gpwonline.co.za to familiarise yourself with the new deadlines.

CANCELLATIONS

Don't forget!

Cancellation of notice submissions are accepted by GPW according to the deadlines stated in the table above.

Non-compliance to these deadlines will result in your request being failed. **Please pay special attention to the different deadlines for each gazette.**

Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

Requests for cancellation must be sent by the original sender of the notice and must be accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

take note!

With effect from 01 October, GPW will not longer accept amendments to notices. The cancellation process will need to be followed and a new notice submitted thereafter for the next available publication date.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While GPW deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

GPW has a **2-working day turnaround time for processing notices** received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

PROOF OF PAYMENTS

GPW reminds you that all notice submissions **MUST** be submitted with an accompanying proof of payment (PoP) or purchase order (PO). If any PoP's or PO's are received without a notice submission, it will be failed and your notice will not be processed.

When submitting your notice request to submit.egazette@gpw.gov.za, please ensure that a purchase order (GPW Account customer) or proof of payment (non-GPW Account customer) is included with your notice submission. All documentation relating to the notice submission must be in a single email.

A reminder that documents must be attached separately in your email to GPW. (In other words, your email should have an Adobe Form plus proof of payment/purchase order – 2 separate attachments – where notice content is applicable, it should also be a 3rd separate attachment).

REMINDER OF THE GPW BUSINESS RULES

- Single notice, single email – with proof of payment or purchase order.
- All documents must be attached separately in your email to GPW.
- 1 notice = 1 form, i.e. each notice must be on a separate form
- Please submit your notice **ONLY ONCE**.
- Requests for information, quotations and inquiries must be sent to the Contact Centre **ONLY**.
- The notice information that you send us on the form is what we publish. Please do not put any instructions in the email body.

IMPORTANT NOTICE:

THE GOVERNMENT PRINTING WORKS WILL NOT BE HELD RESPONSIBLE FOR ANY ERRORS THAT MIGHT OCCUR DUE TO THE SUBMISSION OF INCOMPLETE / INCORRECT / ILLEGIBLE COPY.

No FUTURE QUERIES WILL BE HANDLED IN CONNECTION WITH THE ABOVE.

GENERAL NOTICES • ALGEMENE KENNISGEWINGS			
Environmental Affairs, Department of/ Omgewingsake, Departement van			
336	National Environmental Management: Air Quality Act (39/2004): Draft National Greenhouse Gas Emission Reporting Regulations	40054	4

GENERAL NOTICES • ALGEMENE KENNISGEWINGS

DEPARTMENT OF ENVIRONMENTAL AFFAIRS**NOTICE 336 OF 2016****NATIONAL ENVIRONMENTAL MANAGEMENT: AIR QUALITY ACT, 2004
(ACT NO. 39 OF 2004)****DRAFT NATIONAL GREENHOUSE GAS EMISSION REPORTING REGULATIONS**

I, Bomo Edna Edith Molewa, Minister of Environmental Affairs, hereby give notice of my intention to make the National Greenhouse Gas Emission Reporting Regulations, under sections 12(b) and (c) and 53(aA), (o) and (p) read with section 57 of the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004), set out in the Schedule hereto.

Members of the public are invited to submit to the Minister, within 30 days of publication of the notice in the *Gazette*, written representations or objections to the draft regulations to the following addresses:

By post: The Director-General: Department of Environmental Affairs
 Attention: Mr Jongikhaya Witi
 Private Bag X447
 Pretoria, 0001

By hand: Ground Floor (Reception), Environment House, 473 Steve Biko Road, Pretoria.

By email: jwiti@environment.gov.za or by fax: 086 615 4321.

Any inquiries in connection with the draft regulations can be directed to Mr Jongikhaya Witi at 012 399 9154.

Comments received after the closing date may not be considered.

BOMO EDNA EDITH MOLEWA
MINISTER OF ENVIRONMENTAL AFFAIRS

SCHEDULE

DEFINITIONS

1. (1) In these Regulations any word or expression to which the meaning has been assigned in the Act has that meaning, unless the context indicates otherwise—

“activity data” means data on the magnitude of a human activity resulting in emissions or removals taking place during a given period of time. Data on energy use, metal production, land areas, management systems, lime and fertilizer use and waste arising are examples of activity data;

“combustion emissions” means greenhouse gas emissions occurring during the exothermic reaction of a fuel with oxygen;

“competent authority” means the National Inventory Unit based at the National Department of Environmental Affairs;

“direct emission measurement” means a set of operations having the objective of determining the value of a quantity by means of periodic measurements, applying either measurements in the stack or extractive procedures with a measuring instrument located close to the stack;

“data provider” means any person as classified in regulation 4 and shall include —

- (a) its holding company or corporation or legal entity, registered in South Africa in accordance with the Legislation of South Africa;
- (b) all its subsidiaries and legally held operations, including joint ventures and partnerships where it has a controlling interest, or is nominated as the responsible entity for the purpose of reporting under these Regulations;
- (c) all facilities generally over which it has control, which are not part of another data provider as provided for in these Regulations;

“default IPCC emission factors” are emission factors provided in the 2006 IPCC Guidelines for National Greenhouse Gas Inventories and its associated supplementary information; these emission factors assume a linear relation between the intensity of the process and the resulting emissions and an average or typical process description;

“emissions” are the release of greenhouse gases/and/or their precursors into the atmosphere over a specified area and period of time;

“emission factor” means a coefficient that quantifies the emissions or removals of a gas per unit of activity. Emission factors are often based on a sample of measurement data, averaged to develop a representative rate of emission for a given activity level under a given set of operating conditions;

“IPCC emission source” means any process or activity which releases a greenhouse gas, an aerosol or a precursor of a greenhouse gas into the atmosphere which is identified by IPCC code in Annexure 1;

“facility” means premises, where activities identified in Annexure 1 are being undertaken;

“fugitive emissions” means emissions that are not emitted through an intentional release through stack or vent. This can include leaks from industrial plant and pipelines;

“greenhouse gas” has the meaning assigned to it in section 1 of the Act;

“installation” means a building or place that provides a particular service or is used for a particular industry; an installation generally performs one or more activities as listed in Annexure 1;

“IPCC Guidelines for National Greenhouse Gas Inventories (2006)” means the guidelines developed by the IPCC for the establishment and maintenance of national greenhouse gas inventories and are available on the IPCC website (www.ipcc.ch);

“IPCC” means the Intergovernmental Panel on Climate Change which is the international body for the assessment of climate change established by the United Nations Environment Programme (UNEP) and the World Meteorological Organization (WMO) in 1988;

“National Atmospheric Emission Inventory System” or “NAEIS” means the internet-based emissions reporting system that is a component of the South African Air Quality Information System;

“process emissions” means greenhouse gas emissions other than combustion emissions occurring:

- (a) during use of specific substances;
- (b) as a result of intentional and unintentional reactions between substances or their; transformation, including the chemical or electrolytic reduction of metal ores, the thermal decomposition of substances, and;
- (c) the formation of substances for use as product or feedstock.

“reporting period” means one calendar year.

“South African Air Quality Information System” or “SAAQIS” means the national air quality information system established in terms of the National Framework for Air Quality Management in the Republic of South Africa;

“Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry” means the reporting methodology approved by the competent authority available on the National Department of Environmental Affairs website (www.environment.gov.za);

“the Act” means the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004);

“these Regulations” include the Annexures to these Regulations;

“tier” means a method used for determining greenhouse gas emissions as defined by the “IPCC Guidelines for National Greenhouse Gas Inventories (2006)” and include—

- (a) Tier 1 method: A method using readily available statistical data on the intensity of processes (activity data) and IPCC emission factors (specified in the Technical Guidelines for Monitoring, Reporting and Verification of Greenhouse Gas Emissions by Industry or available in from 2006 IPCC);
- (b) Tier 2 method: similar to Tier 1 but uses country-specific emission factors;
- (c) Tier 3 method: Tier 3 is any methodology more detailed than Tier 2 and might include amongst others, process models and direct measurements as specified in the 2006 IPCC guidelines.

“transparency” means that the assumptions and methodologies used as a basis for reporting should be clearly explained;

“validation” means the establishment of sound approach and foundation. In the context of emissions inventories, validation involves checking to ensure that the inventory has been compiled correctly in line with reporting instructions and guidelines. It checks the internal consistency of the inventory;

“verification” refers to the collection of activities and procedures that can be followed during the planning and development, or after completion of an inventory that can help to establish its reliability for the intended applications of that inventory.

PURPOSE OF REGULATIONS

2. The purpose of these Regulations is to introduce a single national reporting system for the transparent reporting of greenhouse gas emissions, which will be used—
 - (a) to inform policy formulation, implementation and legislation;
 - (b) for the Republic of South Africa to meet its reporting obligations under the United Framework Convention on Climate Change and instrument treaties to which it is bound; and
 - (c) to establish and maintain a National Greenhouse Gas Inventory.

APPLICATION OF REGULATIONS

3. These Regulations apply to the categories of emission sources listed in Annexure 1 to these Regulations and a corresponding data provider as classified in regulation 4 of these Regulations.

CLASSIFICATION OF EMISSION SOURCES AND DATA PROVIDERS

4. (1) For purposes of these Regulations, a data provider is classified as follows:
- (a) **Category A:** any person in control of or conducting an activity marked in the Category A column above the capacity given in the threshold column of the table in Annexure 1 to these Regulations; and
 - (b) **Category B:** any organ of state, research institution or academic institution, which holds greenhouse gas emission data or activity data relevant for calculating greenhouse gas emissions relating to a category identified in table Annexure 1 (Category B Column) to these Regulations.
- (2) Notwithstanding regulation 4(1)(a) of these Regulations, the competent authority may identify additional emission sources and associated data providers and, in writing, request such data providers to register and to submit data for their emissions within a period to be specified by the competent authority.

REGISTRATION

5. (1) A person classified as a data provider in regulation 4(1) Category A of these Regulations must register all facilities where activities listed in Annexure 1 on the National Atmospheric Emissions Inventory System by providing the relevant information as listed in Annexure 2 to these Regulations, within 30 days after the commencement of these Regulations or within 30 days after commencing such an activity once this regulation is in force.
- (2) A data provider must ensure that the registration details in the NAEIS are complete and are an accurate reflection of the IPCC emission sources at each facility.

CHANGES TO REGISTRATION DETAILS

6. (1) A data provider must notify, in writing, the competent authority of any change in respect of the data provider's registration details as listed in Annexure 2 to these Regulations within 30 days from the date the data provider became aware of such change occurring.
- (2) If a data provider transfers ownership or operational control of a facility, or discontinues an activity, the data provider must notify the competent authority in writing within 30 days of such transfer of ownership or operational control or the activity being changed or discontinued.

- (3) A person to whom ownership or operational control of a facility is transferred as contemplated in sub-regulation (2) must within 30 days after taking ownership or operational control of the facility, register on the NAEIS as a data provider.
- (4) Registration of a data provider on the National Atmospheric Emissions Inventory System is deemed withdrawn once the competent authority has within 30 days acknowledged receipt of notification, in writing, provided by a data provider in terms of sub-regulation (2).

REPORTING REQUIREMENTS

7. (1) A Category A data provider who is applying tier 1 or tier 2 methods must submit the greenhouse gas emissions and activity data for the relevant greenhouse gases and IPCC emission sources specified in Annexure 1 to these Regulations for all its facilities and in accordance with the data and format requirements specified in Annexure 3 to these Regulations for the preceding calendar year, to the NAEIS by 30 April of each year.
- (2) Where the 30 April falls on a Saturday, Sunday or public holiday, the submission deadline is the next working day.
- (3) A Category B data provider must submit emissions and activity data collected that is related to the relevant activity or activities set out in Annexure 1 to these Regulations and in accordance with the format and data requirements as specified in Annexure 2 to these Regulations when requested by the competent authority.

REPORTING BOUNDARIES

8. (1) A Category A data provider must define its reporting boundaries based on operational control.
- (2) A Category A data provider must include emissions from regular operations and abnormal events including start-up and shut-down and emergency situations over the reporting period.

COMPLETENESS

9. For Category A data providers, monitoring and reporting must be complete and cover all process and combustion emissions from all emission sources and source streams belonging to activities listed in Annexure 1 of these Regulations, taking into account the activity dependent capacity thresholds as listed in Annexure 1 to these Regulations.

METHODS

10. (1) A Category A data provider must determine the emissions to be reported according to the tiers specified for the relevant categories in Annexure 1 to these Regulations using the methods as set out in the "Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry".

- (2) Where a data provider referred to in these Regulations reasonably believes that any emission factor referred to in the Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emission in South Africa for a particular activity is not appropriate under the specific conditions of emission, a data provider may make a submission to the competent authority and providing the information set out in Annexure 4 to these Regulations, requesting a review of the applicable emission factor.
- (3) The competent authority must review any submission contemplated in sub-regulation (1) within 30 days after the submission date.
 - (a) If this submission is approved by the competent authority, the accepted method will be included in the Technical guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry
 - (b) If this submission is not approved, the data provider must resubmit the emission and related data, using a method from the Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry, compliant with sub-regulation (1).
- (4) The data provider's submission is deemed accepted if the competent authority does not respond to the data provider with questions for clarification or corrections within 30 days from the date of the data provider's submission.

VERIFICATION AND VALIDATION OF INFORMATION

11. (1) The competent authority must assess, in accordance with the assessment procedures in the Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry, the data submitted by a category A data provider within 30 days after the submission date. This assessment may include a comparison with methods defined in the Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry, with earlier submissions, with submissions from similar facilities and with other independent data.
- (2) The data provider's submission is deemed accepted if the competent authority does not respond to the data provider with questions for clarification or corrections within 30 days from the date of the data provider's submission.
- (3) If the after the assessment in terms of sub-regulation (1) the competent authority reasonably believes that the information submitted to the NAEIS might not be transparent, complete, or correct, the competent authority must instruct, in writing, a data provider to verify and validate the information submitted and to provide the supporting information required to substantiate the submission within 60 days after receiving the written instruction from the competent authority.

- (4) A data provider is liable for all costs incurred in connection with compliance with an instruction from the competent authority in terms of sub-regulations (2) (3).
- (5) The competent authority may conduct on-site or installation specific verification and validation of emissions estimated using tier 2 and tier 3 methods by Category A data providers at its discretion.

CONFIDENTIALITY OF INFORMATION

- 12. (1)** The competent authority must ensure that no person discloses confidential information obtained in terms of these Regulations at any time, unless
- (a) the information is disclosed in compliance with the provisions of any law;
 - (b) the person is ordered to disclose the information by a court of law;
- (2) The competent authority must destroy all confidential information by any data provider, not later than five years after the information was provided to the competent authority.

RECORD KEEPING

- 13. (1)** A data provider must ensure transparency of the submission by archiving all data, measuring reports, algorithms, procedures and technical references used to estimate greenhouse gas emissions.
- (2) A data provider must keep a record of the information submitted to the NAEIS and all information mentioned in sub-regulation (1) for five years and such record must, on request, be made available for inspection by the competent authority.

PUBLISHING DATA AND INFORMATION

- 14. (1)** The competent authority may only place NAEIS data and information in the public domain if it does not—
- (a) promote unfair competition in terms of the Competition legislation;
 - (b) contravene section 36 of the Promotion of Access to Information Act, 2000 (Act No. 2 of 2000); or
 - (c) it does not contravene section 17 of the Statistics Act, 1999 (Act No. 6 of 1999).

TRANSITIONAL ARRANGEMENTS

- 15.** A data provider may for a transitional period of up to five years from the date of commencement of these Regulations apply lower tiers than those referred to in Annexure 1 to these Regulations, with tier 1 method being the minimum.

OFFENCES

16. A person commits an offence if that person —
- (a) provides false or misleading information to the competent authority; or
 - (b) fails to comply with regulations 5(1), 5(2), 6(1), 6(3), 7, 9, 10, 11 or 12.

PENALTIES

17. A person convicted of an offence in terms of regulation 16 of these Regulations is liable in the case of a first conviction to a fine not exceeding R5 million or to imprisonment for a period not exceeding five years and in the case of a second or subsequent conviction to a fine not exceeding R10 million or imprisonment for a period not exceeding 10 years and in respect of both instances to both such fine and such imprisonment.

SHORT TITLE AND COMMENCEMENT

18. These Regulations are called the National Greenhouse Gas Emissions Reporting Regulations, 2015.

ANNEXURE 1

LIST OF ACTIVITIES FOR WHICH GHG EMISSIONS MUST BE REPORTED TO THE COMPETENT AUTHORITY

The table below lists all activities, as defined in the IPCC 2006 Guidelines' source categories, where data providers must report greenhouse gas emissions and related data if such activity takes place on the data provider's premises. Copies of the IPCC guidelines are available on the IPCC website www.ipcc.ch.

Category A data providers shall report the relevant greenhouse gases and associated activity data for all IPCC source categories where their capacity is equal or above the threshold indicated, using the methods indicated in column 3 of the table below. Technical Guidelines for Monitoring, Reporting, Verification and Validation of Greenhouse Gas Emissions by Industry stipulates the greenhouse gases relevant for each IPCC code. Category B data providers shall provide data upon request where indicated, using any method provided in the Technical Guidelines.

Where no method is given in Category A or the Category B columns, registration and reporting is not required.

Code	Name	Category A		
		shall report when their total installed capacity for this activity is over the threshold	Threshold	Transitional Arrangement Applicability (Regulation 15)
1	ENERGY			
1A	Fuel Combustion Activities			
1A1	Energy Industries			
1A1a	Main Activity Electricity and Heat Production	Tier 2 or 3	10 MW(th)	YES
1A1b	Petroleum Refining	Tier 2 or 3	none	YES
1A1c	Manufacture of Solid Fuels and Other Energy Industries	Tier 2 or 3	none	YES
1A2	Manufacturing Industries and Construction			
1A2a	Iron and Steel	Tier 2 or 3	10 MW(th)	YES
1A2b	Non-Ferrous Metals	Tier 2 or 3	10 MW(th)	YES
1A2c	Chemicals	Tier 2 or 3	10 MW(th)	YES
1A2d	Pulp, Paper and Print	Tier 2 or 3	10 MW(th)	YES
1A2e	Food Processing, Beverages and Tobacco	Tier 2 or 3	10 MW(th)	NO

ANNEXURE 2 REGISTRATION ON NAEIS

Identifying the data provider in the NAEIS registration

Registration Item	Details	Comment
Data Provider ID		To be generated by the system
Data Provider – Physical Address		
Contact Person		Name, Contact number, e-mail address
Facility/ies		
Facility 1 –		Physical Address
Relevant IPCC Code/s for each facility		See Annexure 1 for IPCC codes
Non – combustion sources		Where tier 1 and tier 2 methodology is used, reporting should be done by process/technology/product type
Combustion source		Where tier 1 or tier 2 methods are used, reporting should be done by fuel type

ANNEXURE 4:**INFORMATION TO ACCOMPANY SUBMISSION IN TERMS OF REGULATION 10(2)**

REQUEST FOR REVIEW OF EMISSION FACTOR	
<i>Administrative information</i>	
Data Provider	
Data Provider Country:	
Data Provider Contact	
Date Calculated	
Date submitted to competent authority by Data provider	
<i>Technical information</i>	
Greenhouse gas	
Relevant IPCC Source-Category in terms of 2006 IPCC or later Guidelines	
Parameter	Type / name
	Value
	Unit
	95% confidence interval
Method	Technique/standard
	Date(s) of measurement
	External QA/QC
	Comments data provider
	Comments others (e.g. independent verifier)

WARNING!!!

To all suppliers and potential suppliers of goods to the Government Printing Works

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.

To confirm the legitimacy of purchase orders, please contact:

Renny Chetty (012) 748-6375 (Renny.Chetty@gpw.gov.za),

Anna-Marie du Toit (012) 748-6292 (Anna-Marie.DuToit@gpw.gov.za) and

Siraj Rizvi (012) 748-6380 (Siraj.Rizvi@gpw.gov.za)
