WARNING!!!

To all suppliers and potential suppliers of goods to the Government Printing Works

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.

To confirm the legitimacy of purchase orders, please contact:

NO. 1016

16 SEPTEMBER 2016

INVITATION TO COMMENT:

TO ALL INTERESTED AND AFFECTED PARTIES

The Agricultural Research Council (ARC), a schedule 3A Public Entity, is a premier science institution that conducts research with partners, develops human capital and fosters innovation in support of the agriculture sector.

The ARC's research and development outcomes contribute significantly to South African agriculture by enabling food security, competitiveness, sustainability, growth and a peaceful society.

The Council's interventions aim to increase agriculture production and productivity, including the creation of new areas of agricultural production to enhance food security and income generation. Special focus on expanding agricultural production in communal areas, rural poverty nodes and peri-urban areas where there's high potential for increasing the number of productive farmers.

To ensure sustainable and affordable food security, the ARC has defined the following as being the change imperative for agriculture in South Africa, leading up to the year 2050:

“South Africa's population will increase substantially leading to 2050 resulting in an increase in the demand for agriculture products. Compromised food security and food safety could impact on public welfare and socio-political stability. The mix of food supply will change to meet changing dietary requirements, consumer preferences and affordability.

Agricultural production and productivity will, without intervention, be severely negatively impacted primarily through climate change, changing land use patterns (including industrialisation and urbanisation), deterioration in soil, plant and animal health, energy supply, water availability and quality, pest and diseases outbreaks, reduced biodiversity (e.g. disappearance of pollinators), eco-system changes, and other environmental challenges.

Agricultural input and commodity prices are likely to increase substantially impacting on global competitiveness. This will alter the structure and behaviour of the agricultural market.”

In response to this change imperative, the ARC has developed a Vision 2050, which considers and unpacks the challenges posed by the change imperative and also provides a response as to the measures the sector role players will need to adopt to ensure the resilience and productivity of the sector towards 2050. The ARC wishes to receive comments from all interested and affected parties, on the Vision 2050 Discussion Document, by **no later than 31 October 2016**.

The ARC Vision 2050 Discussion Document can be downloaded from the ARC website (after completion of a form) on: www.arc.agric.za and comments can be e-mailed to Vision2050@arc.agric.za, contact person and number: Ms. Tamara Mbini and (012) 427 9712.

The Constitution of the Republic of South Africa (RSA) 1996 recognises 11 official languages as well as the diminished use and status of indigenous languages in South Africa. The Constitution also requires of the State to take practical and positive measures to elevate the status and advance the use of indigenous languages. The Constitution further requires all official languages to enjoy parity of esteem and equitable treatment.

To this end, the Use of Official Languages Act 12 of 2012 was promulgated to, *inter alia*, provide for the regulation and monitoring of the use of official languages by national government for government purposes. It also calls for the adoption of a language policy by a national department, national public entity and national public enterprise and the establishment of a language unit for a national department, national public entity and national public enterprise.

The Act applies to all national public entities. Umalusi is a national public entity listed as such in Schedule 3A of the Public Finance management Act, 1999. This policy has therefore been developed by Umalusi in compliance with the Act.

2.3 NOTES FOR APPLICANTS

- (a) The 2016 interim SEPA in terms of the notice signed by the Minister of Health is applicable only to the medicines with an effective date no later than 20th May 2016;
- (b) There can only be one SEP submission launched at any given point in time. The applicant cannot request for an update on the SEP or Regulation 9, whilst the submission for interim SEPA is still in process. Similarly, the applicant cannot submit interim SEPA or Regulation 9

application whilst the submission for an SEP update is still in process. Also, an applicant may not submit an interim SEP adjustment whilst a Regulation 9 application is in process;

- (c) In an event where the applicant has made an interim SEPA submission and any other SEP update submissions and/or a Regulation 9 application the interim SEPA submission will become null and void;
- (d) Each submission must include all the applicant's scheduled medicines, including discontinued medicines. Discontinued medicines should be indicated as such, as per the DoP under the status column. Interim SEPA will not be allowed on discontinued medicines;
- (e) It is the applicant's responsibility to ensure that all medicines presented on the template for 2016 interim SEPA are unit priced. When computing the unit prices, the resulting SEPs should not exceed the maximum allowable SEP after the interim adjustment;
- (f) All medicines including those with multiple pack sizes are required by law to be unit priced i.e. all same ingredient and dosage form medicines with related pack sizes must have the same unit price. This non compliance of the submission is factual even if a single medicine is not unit priced with its related pack size(s). This will render the entire submission null and void;
- (g) All submissions for 2016 interim SEPA will be processed within 60 working days (excluding weekends and holidays) upon official receipt of the submission by the PEE Directorate of the Department. - (l) Interim SEPA can only be submitted on the published latest interim SEPA template for 2016 including both Tab 1 and 2. **ANY** modification to the template will result in the submission not being accepted. Any Tab not fully completed will result in the submission being considered incomplete;
- (m) The final date for submissions will be the date determined as per the Minister's notice of Extension;
- (n) An applicant may only submit once for the 2016 interim SEPA. An applicant's portfolio may not be divided into multiple submissions;

- (o) Where 2.90% adjustment is not requested or where the applicant did not adjust the SEP as per the extension notice signed by the Minister of Health, the official SEP shall default to the SEP which was approved in terms of the government gazette No. 39594 published on the 13th January 2016. The medicines introduced post the approval in terms government gazette No. 39594 published on the 13th January 2016 which did not apply for this interim adjustment shall remain at their SEP provided the effective date occurred prior 20 May 2016.

This is the resulting unit SEP of the medicine, considering its pack size and quantity of presentation as per the MCC approved package insert (PI). The unit price should be obtained by dividing the requested SEP by the pack size divided and by the quantity of presentation:

- a) This is the price of a unit of the medicine, e.g. one tablet, capsule, millilitre, gram, etc. The unit price as described in the Regulations Relating to a Transparent Pricing System for Medicines and Scheduled substances (section 22G of the Medicines and Related Substances Act) is the SEP divided by the number of units of the product. Note that unit pricing applies to all medicines with the same proprietary name, strength and dosage form;
- b) For injections the unit price shall be calculated per ml of reconstituted volume, even where the total volume of the medicine administered to a single patient is less than 1 ml;
- c) For inhalers, where the pack size is described in the MCC approved PI as doses or puffs the unit price will be for 1 dose or puff;
- d) The unit price is the SEP divided by the pack size and then further divided by the quantity [the "quantity" represents the multiples in which the medicine is packed/the number of pack sizes e.g. for injections, the "quantity" for 50 vials containing 500mg powder for injection packed in 20ml vial to be reconstituted with 10ml of diluents is 50].

The unit price must be represented as a numerical field and contents should be displayed as decimal places with no currency symbols. This column should be indented to the right.

Where a medicine does not have a comparator product from Australia, Canada, New Zealand & Spain all other countries where the medicine is being sold must be listed and provided as alternate countries. Extra columns must be inserted for each alternate country.

- 3.2.3 Where the exact pack size does not exist in the international market, the closest pack size will be used e.g. if there is 30 pack size in South Africa and only 28's and 100's in Spain the 28 pack size will be used as the closest pack to 30's. The related quantity refers to the quantity in which the pack size of the medicine is being sold in that country and allows for a like comparison of the South African medicine.

For the columns "Country matching pack price in Rands" this should be the price in Rands of the relevant Country price for the related South African pack size and quantity. An example will be provided in the template for demonstration purposes. The principle is that where a 30's pack size is available in South Africa, the international price calculated in Rands should be for the equivalent 30's pack size.

For the columns "Comment on Country Price Provided" - these columns should be used to put in all comment related to the price, pack size, quantity or any other field that may affect the comparisons of the price of the South African medicine with the price of the medicine in the comparator country.

3.2.4 The exchange rate will be the average over the 12 month period (i.e. 01 October 2015 to 30 September 2015). This value will be published in the template for consistency as specified below:

BREED-GOURITZ AND BERG-OLIFANTS WATER MANAGEMENT AREAS LIMITING THE USE OF WATER IN TERMS OF ITEM 6 OF SCHEDULE 3 OF THE NATIONAL WATER ACT OF 1998 FOR URBAN, IRRIGATION AND INDUSTRIAL (INCLUDING MINING) PURPOSE IN THE CATCHMENT AREAS OF THE DAMS SUPPLYING THE WESTERN CAPE WATER SUPPLY SYSTEM AND FROM THE SYSTEM

I, **Margaret-Ann Diedericks**, in my capacity as Director-General of the Department of Water and Sanitation, on reasonable grounds believe that a water shortage may exist on/in the Western Cape Water Supply System (WCWSS) and/including other areas in/of the Berg River, Palmiet River and Riviersonderend River catchment areas due to insufficient rains and restricted rainfall predictions for the oncoming winter season and that it is necessary to limit the taking of water that feeds the major dams and is taken from the Western Cape Water Supply System.

The WCWSS comprises of several dams, mostly located in the upper regions of the Berg River and Breede River catchments. The system supplies raw water to the City of Cape Town, the West Coast District Municipality (DM) for domestic supply to Swartland Local Municipality (LM), Saldanha Bay LM and Bergrivier LM, the Stellenbosch LM to augment the supply to Stellenbosch, and to agricultural users downstream of the Berg River Dam, Voëlmei Dam and Theewaterskloof Dam.

The Minister of Water and Sanitation may in terms of item 6 (1) of Schedule 3 of the National Water Act of 1998 (Act 36 of 1998) (The Act) limit the use of water in the area concerned if the Minister on reasonable grounds believes that a water shortage exists within the area concerned. This power has been delegated to me in terms of section 63 (1) (b) of the Act.

Therefore in my capacity as the Director General of the Department of Water and Sanitation, I hereby under delegated authority in terms of item 6 (1) of Schedule 3 to the Act limit the taking of water from the Western Cape Water Supply System (including all areas within the Berg-Olifants and Breede - Gouritz Water Management Areas) by all users as follows:

1. 20% of curtailment on all water use in the aforementioned areas.
2. The limitation applies from the date of this notice until further notice.

In exercising the powers, I have given preference to the maintenance of the Reserve, treated all water users on a basis that it is fair and reasonable, considered the actual extent of the water shortage, the likely effects of the shortage on the water users, the strategic importance of any water use and any water rationing or water use limitations by a water services institution having jurisdiction in the area concerned under the Water Services Act 108 of 1997.

Placing limitation on the taking of water use as set out in this notice is an administrative action affecting the rights of the public as contemplated in section 4 of the Promotion of Administrative Justice Act 3 of 2000 (PAJA). After I have taken into consideration all relevant factors, including those referred in section 4 (4) (b), I have decided that it is reasonable and justifiable in the circumstances to depart from the requirements referred to in section 4 (1)(a) to (e), (2) and (3) and instituted this limitation without allowing the water users affected and other role players to comment on the matter before I institute the limitation.

This notice overrides any other previous authorization on water restrictions issued by the Department relating to this area.
