Short title and commencement

MEMORANDUM ON THE OBJECTS OF THE SOUTH AFRICAN NATIONAL ROADS AGENCY LIMITED AND NATIONAL ROADS AMENDMENT BILL

1. PURPOSE OF BILL

1.1 The purpose of The South African National Roads Agency Limited and National Roads Amendment Bill (“Bill”) is to amend The South African National Roads Agency Limited and National Roads Act, 1998 (Act No 7 of 1998) (“Act”) in order to address the public outcry that arose as a result of the implementation of the Gauteng Freeway Improvement Project. As the public consultation process on that project was not conducted to the satisfaction of the public, there is a need to strengthen consultation with the Premier of a province and the Municipal Council wherein the road to be tolled lies by requiring a majority vote in favour of the proposed declaration in the relevant provincial legislature.

1.2 Furthermore, the Bill seeks to require that an alternative road to every toll road be identified and continuously maintained to allow those who may not be able to afford the tolls to reach their desired destination. What this Bill seeks to do is to place further checks and balances on the declaration of a toll road and by making certain that an alternative and affordable route is available ensure that the general public is not further financially burdened by the declaration of a toll road.

2. CONTENTS OF BILL

2.1 Clause 1 of the Bill seeks to amend section 27 of the Act by inserting in paragraph (4) a subparagraph which requires that before the Agency declares a road a toll road, a majority vote in the relevant provincial legislature in favour of the proposal must be obtained. A further subparagraph is inserted that requires the Agency to first identify an alternative route of comparable distance, which must be a tar road, be maintained adequately and be suitable for increased usage. The Agency is further required to consult with the relevant provincial Premier and Municipal Council after receiving the comments on the proposal to declare a toll road in terms of the Act.

2.2 Section 27 is further amended to require that when applying for the Minister’s approval for the declaration of a toll road, in addition to the report on the comments and representations, the Agency must forward to the Minister a report on an economic viability assessment, an environmental impact assessment and the consultations conducted. In that report, the Agency must indicate the extent to which any matters raised in those comments, representations, assessments and consultations have been accommodated in those proposals.

2.3 The Bill further requires that before a road can be declared a toll road, the Premier in whose province the road proposed as a toll road is situated must provide 30 days after the consultation process for objections against the proposed declaration to be filed in his or her office. The Premier must also call for a referendum if a threshold of 55% and above objections against the proposed declaration is received. The referendum must be called within six weeks so that interested persons in that province may vote on such declaration. The outcome of that referendum must be reported to the

Minister.

7. PARLIAMENTARY PROCEDURE

7.1 The Parliamentary Legal Adviser is of the opinion that this Bill must be dealt with in accordance with the procedure established by section 76 of the Constitution, 1996 since it contains provisions that affect a Schedule 4 legislative competency in a substantial manner. The content of the Bill affects the interests, concerns and capacities of provinces.

7.2 The Parliamentary Legal Adviser is of the opinion that it is not necessary to refer the Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
