2. Policy statement

The Authority was established in terms of Section 2 of the Private Security Industry Regulation Act (56 of 2001) in 2002, hereinafter referred to as the "Act". The strategic mandate of PSiRA originates from the Act and the regulations issued in terms thereof. The primary objectives of PSiRA are to regulate the private security industry and to exercise effective control over the practice of the occupation of security service provider in the public and national interest and in the interest of the private security industry itself.

The Authority is funded through annual fees payable by registered security services providers as well as other tariffs as determined by Council. Other income includes registrations fees, training fee income, fine income, infrastructure assessment fees and other charges as determined by the PSIR Act.

The entire revenue is utilized to defray operational and capital expenditure of the PSiRA incurred in the normal course of discharging its mandate in terms of the PSIR Act.

During the course of 2017 financial year, the Authority will embark on a review of the Private Security Levies Act 23 of 2002. The purpose of the review will be to align the Act prior to implementation and to effectively address the funding gaps which currently exist.

3. Background

Currently, PSiRA is fully funded by the annual fees it receives from the registered security service providers representing the industry within its regulatory jurisdiction. These annual fees are used to cover the costs of the Authority to regulate the private security industry and to exercise effective control over the practice of the occupation of security service provider, the public and national interest and the interest of the private security industry itself. The costs associated with meeting this regulatory mandate includes but not limited to;

- Conducting studies ,monitoring and investigations on the rendering of security service,
- Instituting legal proceedings and defend or oppose any legal proceeding against the Authority,
- Receive and consider applications for registration of security service providers,
- Develop and maintain a computerized database.

From time to time, there are changes that impact on these cost drivers and there is a need to consider the significance of short and long term financial sustainability of the entity. In determining the authority's budget forecasts for future years and the levels of fees, the Authority has to make careful assumptions about costs and activity levels; for example amongst others, the volume of applications for registrations received vis-à-vis a reliable information infrastructure to house and store such information as provided for in Sections 4(m) and 24 of the PSIR Act 56 of 2001.

4. Consultation process

The consultation process took into account, the principles as pronounced by the Promotion of Administrative Justice Act, budget of the Authority and the judgment of the Supreme Court of Appeal (SCA) delivered on 15 August 2014 in respect of the Annual Fees Review.

The draft regulation takes into account the categorization of security service provider in the determination of the proposed fees structures. In order to broaden scope and enhance transparency, the consultation process will be in two-fold.

First, the Industry will be given the opportunity to submit their initial written comments and representations on the proposed annual fee review. The second process will be oral representations from the industry and relevant stakeholders. The two processes will run concurrently during the consultation period. The due date for submission of representations from interested parties shall be on **02 February 2018**.

All comments and submissions from interested parties, stakeholders and Industry participants will be considered before a request for concurrence is submitted to the Minister of Police for his independent consideration.

It is anticipated that, upon the Minister's independent consideration and concurrence with the proposed review of the annual fees, final annual fees regulations will be published from the **02 March 2018**.

6. Basis for the review

Historically, the annual fees were reviewed based on inflationary increases of each financial year. The fees were successfully reviewed by the Authority in 2016 after consulting with different industry stakeholders. Due to the continuing increase in operational costs the Authority decided to increase the fees on an annual basis and the increase is based on the CPI and operational costs requirements of the Authority to effectively execute its mandate as required by PSIR Act. In reviewing the current fees the Authority will take the following into account:

- The average CPI for 2017/2018 Financial year;
- The number of security officers employed by a security business or made available by it to render a security service during a calendar month;
- The operational costs as indicated in the 2017/2018 Financial year Budget including increasing PSiRA's footprint, increasing of Inspectorate personnel and acquiring of new ERP system;
- The sectoral determination applicable in 2017/2018 Financial year; and
- Equitable contribution by different classes or categories of security service providers.

7. Method of payment

The payment method of different fees is as follows:

WARNING!!!

To all suppliers and potential suppliers of goods to the Government Printing Works

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.
