| Ordinary National, Provincial                              | 1/4 - Quarter Page       | 250.00        |
| Ordinary National, Provincial                              | 2/4 - Half Page          | 500.00        |
| Ordinary National, Provincial                              | 3/4 - Three Quarter Page | 750.00        |
| Ordinary National, Provincial                              | 4/4 - Full Page          | 1000.00       |

### EXTRA-ORDINARY

All Extra-ordinary National and Provincial gazette notices are non-standard notices and attract a variable price based on the number of pages submitted.

The pricing structure for National and Provincial notices which are submitted as **Extra ordinary submissions** will be charged at **R3000** per page.

## **GOVERNMENT PRINTING WORKS - BUSINESS RULES**

The **Government Printing Works (GPW)** has established rules for submitting notices in line with its electronic notice processing system, which requires the use of electronic *Adobe Forms*. Please ensure that you adhere to these guidelines when completing and submitting your notice submission.

### **CLOSING TIMES FOR ACCEPTANCE OF NOTICES**

1. The *Government Gazette* and *Government Tender Bulletin* are weekly publications that are published on Fridays and the closing time for the acceptance of notices is strictly applied according to the scheduled time for each gazette.
2. Please refer to the Submission Notice Deadline schedule in the table below. This schedule is also published online on the Government Printing works website [www.gpwonline.co.za](http://www.gpwonline.co.za)

All re-submissions will be subject to the standard cut-off times.

**All notices received after the closing time will be rejected.**

| Government Gazette Type                       | Publication Frequency            | Publication Date                               | Submission Deadline                                  | Cancellations Deadline                       |
|---|----------------------------------|--|--|--|
| National Gazette                              | Weekly                           | Friday   | Friday 15h00 for next Friday                         | Tuesday, 15h00 - 3 days prior to publication |
| Regulation Gazette                            | Weekly                           | Friday   | Friday 15h00, to be published the following Friday   | Tuesday, 15h00 - 3 days prior to publication |
| Petrol Price Gazette                          | As required                      | First Wednesday of the month                   | One week before publication                          | 3 days prior to publication                  |
| Road Carrier Permits                          | Weekly                           | Friday   | Thursday 15h00, to be published the following Friday | 3 days prior to publication                  |
| Unclaimed Monies (justice, labour or lawyers) | January / As required 2 per year | Any  | 15 January / As required                             | 3 days prior to publication                  |
| Parliament (acts, white paper, green paper)   | As required                      | Any  |  | 3 days prior to publication                  |
| Manuals                                       | As required                      | Any  | None   | None   |
| State of Budget (National Treasury)           | Monthly                          | Any  | 7 days prior to publication                          | 3 days prior to publication                  |
| Legal Gazettes A, B and C                     | Weekly                           | Friday   | One week before publication                          | Tuesday, 15h00 - 3 days prior to publication |
| Tender Bulletin                               | Weekly                           | Friday   | Friday 15h00 for next Friday                         | Tuesday, 15h00 - 3 days prior to publication |
| Gauteng                                       | Weekly                           | Wednesday                                      | Two weeks before publication                         | 3 days after submission deadline             |
| Eastern Cape                                  | Weekly                           | Monday   | One week before publication                          | 3 days prior to publication                  |
| Northern Cape                                 | Weekly                           | Monday   | One week before publication                          | 3 days prior to publication                  |
| North West                                    | Weekly                           | Tuesday  | One week before publication                          | 3 days prior to publication                  |
| KwaZulu-Natal                                 | Weekly                           | Thursday                                       | One week before publication                          | 3 days prior to publication                  |
| Limpopo                                       | Weekly                           | Friday   | One week before publication                          | 3 days prior to publication                  |
| Mpumalanga                                    | Weekly                           | Friday   | One week before publication                          | 3 days prior to publication                  |
| Gauteng Liquor License Gazette                | Monthly                          | Wednesday before the First Friday of the month | Two weeks before publication                         | 3 days after submission deadline             |
| Northern Cape Liquor License Gazette          | Monthly                          | First Friday of the month                      | Two weeks before publication                         | 3 days after submission deadline             |
| National Liquor License Gazette               | Monthly                          | First Friday of the month                      | Two weeks before publication                         | 3 days after submission deadline             |

**GOVERNMENT PRINTING WORKS - BUSINESS RULES****EXTRAORDINARY GAZETTES**

3. *Extraordinary Gazettes* can have only one publication date. If multiple publications of an *Extraordinary Gazette* are required, a separate Z95/Z95Prov Adobe Forms for each publication date must be submitted.

**NOTICE SUBMISSION PROCESS**

4. Download the latest *Adobe* form, for the relevant notice to be placed, from the **Government Printing Works** website [www.gpwonline.co.za](http://www.gpwonline.co.za).
5. The *Adobe* form needs to be completed electronically using *Adobe Acrobat / Acrobat Reader*. Only electronically completed *Adobe* forms will be accepted. No printed, handwritten and/or scanned *Adobe* forms will be accepted.
6. The completed electronic *Adobe* form has to be submitted via email to [submit.egazette@gpw.gov.za](mailto:submit.egazette@gpw.gov.za). The form needs to be submitted in its original electronic *Adobe* format to enable the system to extract the completed information from the form for placement in the publication.
7. Every notice submitted **must** be accompanied by an official **GPW** quotation. This must be obtained from the eGazette Contact Centre.
8. Each notice submission should be sent as a single email. The email **must** contain **all documentation relating to a particular notice submission**.
  - 8.1. Each of the following documents must be attached to the email as a separate attachment:
    - 8.1.1. An electronically completed *Adobe* form, specific to the type of notice that is to be placed.
      - 8.1.1.1. For National *Government Gazette* or Provincial *Gazette* notices, the notices must be accompanied by an electronic Z95 or Z95Prov *Adobe* form
      - 8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.
    - 8.1.2. A copy of the official **Government Printing Works** quotation you received for your notice . (*Please see Quotation section below for further details*)
    - 8.1.3. A valid and legible Proof of Payment / Purchase Order: **Government Printing Works** account customer must include a copy of their Purchase Order. **Non-Government Printing Works** account customer needs to submit the proof of payment for the notice
    - 8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should **also** be attached as a separate attachment. (*Please see the Copy Section below, for the specifications*)).
    - 8.1.5. Any additional notice information if applicable.
  9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.
  10. To avoid duplicated publication of the same notice and double billing, Please submit your notice **ONLY ONCE**.
  11. Notices brought to **GPW** by “walk-in” customers on electronic media can only be submitted in *Adobe* electronic form format. All “walk-in” customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.
  12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

**GOVERNMENT PRINTING WORKS - BUSINESS RULES****QUOTATIONS**

13. Quotations are valid until the next tariff change.
  - 13.1. **Take note:** GPW's annual tariff increase takes place on **1 April** therefore any quotations issued, accepted and submitted for publication up to **31 March** will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from **GPW** with the new tariffs. Where a tariff increase is implemented during the year, **GPW** endeavours to provide customers with 30 days' notice of such changes.
14. Each quotation has a unique number.
15. Form Content notices must be emailed to the eGazette Contact Centre for a quotation.
  - 15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.
  - 15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.
16. **APPLICABLE ONLY TO GPW ACCOUNT HOLDERS:**
  - 16.1. **GPW** Account Customers must provide a valid **GPW** account number to obtain a quotation.
  - 16.2. Accounts for **GPW** account customers **must** be active with sufficient credit to transact with **GPW** to submit notices.
    - 16.2.1. If you are unsure about or need to resolve the status of your account, please contact the **GPW** Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).
17. **APPLICABLE ONLY TO CASH CUSTOMERS:**
  - 17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.
  18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).
  19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.
    - 19.1. This means that **the quotation number can only be used once to make a payment.**

**GOVERNMENT PRINTING WORKS - BUSINESS RULES****COPY (SEPARATE NOTICE CONTENT DOCUMENT)**

20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03
- 20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

- 20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm;  
Use font size: Arial or Helvetica 10pt with 11pt line spacing;

Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm;  
Use font size: Arial or Helvetica 10pt with 11pt line spacing;

**CANCELLATIONS**

21. Cancellation of notice submissions are accepted by **GPW** according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.
22. Requests for cancellation must be sent by the original sender of the notice and must be accompanied by the relevant notice reference number (N-) in the email body.

**AMENDMENTS TO NOTICES**

23. With effect from 01 October 2015, **GPW** will no longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

**REJECTIONS**

24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email [info.egazette@gpw.gov.za](mailto:info.egazette@gpw.gov.za)). Reasons for rejections include the following:
- 24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.
- 24.2. Any notice submissions not on the correct Adobe electronic form, will be rejected.
- 24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.
- 24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

**GOVERNMENT PRINTING WORKS - BUSINESS RULES****APPROVAL OF NOTICES**

25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.
26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

**GOVERNMENT PRINTER INDEMNIFIED AGAINST LIABILITY**

27. The Government Printer will assume no liability in respect of—
  - 27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;
  - 27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;
  - 27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

**LIABILITY OF ADVERTISER**

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

**CUSTOMER INQUIRIES**

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.

**GPW** has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.

Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.
30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

**GOVERNMENT PRINTING WORKS - BUSINESS RULES****PAYMENT OF COST**

31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.
32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.
33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.
34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: [info.egazette@gpw.gov.za](mailto:info.egazette@gpw.gov.za) before publication.
35. Overpayment resulting from miscalculation on the part of the advertiser of the cost of publication of a notice will not be refunded, unless the advertiser furnishes adequate reasons why such miscalculation occurred. In the event of underpayments, the difference will be recovered from the advertiser, and future notice(s) will not be published until such time as the full cost of such publication has been duly paid in cash or electronic funds transfer into the **Government Printing Works** banking account.
36. In the event of a notice being cancelled, a refund will be made only if no cost regarding the placing of the notice has been incurred by the **Government Printing Works**.
37. The **Government Printing Works** reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the List of Fixed Tariff Rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

**PROOF OF PUBLICATION**

38. Copies of any of the *Government Gazette* or *Provincial Gazette* can be downloaded from the **Government Printing Works** website [www.gpwonline.co.za](http://www.gpwonline.co.za) free of charge, should a proof of publication be required.
39. Printed copies may be ordered from the Publications department at the ruling price. The **Government Printing Works** will assume no liability for any failure to post or for any delay in despatching of such *Government Gazette*(s).

**DEPARTMENT OF AGRICULTURE, FORESTRY AND FISHERIES****NO. 161****02 MARCH 2018****NATIONAL AGRICULTURAL MARKETING COUNCIL****MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, AS AMENDED****(ACT No. 47 OF 1996)**

---

**REQUEST FOR THE CONTINUATION OF STATUTORY MEASURES RELATING TO  
LEVIES, REGISTRATION AND RECORDS & RETURNS IN THE RED MEAT INDUSTRY  
IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT**

---

It is hereby made known that, in terms of section 10 of the Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996) (MAP Act), the Minister of Agriculture, Forestry and Fisheries has received a request from the red meat industry for the continuation of statutory measures relating to levies, registration, the keeping of records and the rendering of returns. The Red Meat Industry Forum (RMIF), representative of most of the role-players in the red meat industry, applied for these statutory measures.

The current statutory measures in the red meat industry will expire on 4 November 2018. The RMIF requested ministerial approval for the continuation of these statutory measures for a new period of two years, from 5 November 2018 to lapse on 4 November 2020. In terms of this application, the red meat industry refers to role-players involved in the production and marketing of cattle, goats, sheep and its products, as well as products purchased for processing.

The proposed statutory measures in the red meat industry will be administrated by the Red Meat Levy Administrator (RMLA), which performed this role for the past few years. The proposed new levies will be as follows:

| <b>Cattle</b>   | From 5/1 / 2018 until 4/11/2019  | From 5/11/2019 until 4/11/2020   |
|---|--|--|
| Deducted and retained from the selling price of each designated animal by any buyer of such animal. In the event the said buyer disposes of such animal other than by sale, export, or delivery to an abattoir for slaughter, or if such animal dies or is stolen before the said buyer disposes of it, the buyer shall pay the levy thus deducted and retained over to the Levy Administrator. For avoidance of doubt, the buyer is only entitled to retain the levy thus deducted where the relevant designated animal is sold, exported or delivered to an abattoir for slaughter. | R6.24 per head   | R6.61 per head   |
| Payable by the owner at slaughter, to the abattoir who slaughters such animal; the abattoir shall be liable to collect such levy from the owner and pay it over to the Levy Administrator. Where the abattoir is the owner, the abattoir shall make payment directly to the Levy Administrator.   | R10.40 per head  | R11.02 per head  |
| Payable by each meat trader to the Levy Administrator, in respect of each outlet through which red meat, red meat products or processed pork is sold.   | R659 per year during which the meat trader sells red meat, red meat products or processed pork | R699 per year during which the meat trader sells red meat, red meat products or processed pork |
| Payable by the importer to the Levy Administrator prior to being issued with an import permit. The levy receipt number is to be submitted with the permit application to the issuing officer.   | R1160 per container or consignment   | R1 230 per container or consignment  |
| Payable by the exporter to the Levy Administrator.  | R10.40 per head exported live  | R11.02 per head exported live  |
| Payable by the livestock agent to the Levy Administrator.   | 0.102% of commission   | 0.108% of commission   |
| Payable by the processor for every hide locally produced to the Levy Administrator. Payable by the exporter for every unprocessed hide exported to the Levy Administrator.  | 2.01c per kg   | 2.13c per kg   |

| <b>Sheep and Goats</b>  | From 5/11/2018 until 4/11/2019 | From 5/11/2019 until 4/11/2020 |
|---|--------------------------------|--------------------------------|
| Deducted and retained from the selling price of each designated animal by any buyer of such animal. In the event the said buyer disposes of such animal other than by sale, export, or delivery to an abattoir for slaughter, or if such animal dies or is stolen before the said buyer disposes of it, the buyer shall pay the levy thus deducted and retained over to the Levy Administrator. For avoidance of doubt, the buyer is only entitled to retain the levy thus deducted where the relevant designated animal is sold, exported or delivered to an abattoir for slaughter. | R1.34 per head                 | R1.42 per head                 |

|   |                                      |                                      |
|---|--------------------------------------|--------------------------------------|
| Payable by the owner at slaughter, to the abattoir which slaughters such animal; the abattoir shall be liable to collect such levy from the owner and pay it over to the Levy Administrator. Where the abattoir is the owner, the abattoir shall make payment directly to the Levy Administrator. | R2.02 per head                       | R2.14 per head                       |
| Payable by each meat trader to the Levy Administrator, in respect of each outlet through which red meat, red meat products or processed pork is sold.   | R659 per year                        | R699 per year                        |
| Payable by the importer to the Levy Administrator prior to being issued with an import permit. The levy receipt number is to be submitted with the permit application to the issuing officer.   | R1 160 per container or consignment. | R1 230 per container or consignment. |
| Payable by the exporter to the Levy Administrator.  | R2.02 per head                       | R2.14 per head                       |
| Payable by the livestock agent to the Levy Administrator.   | 0.102% of the commission             | 0.108% of the commission             |
| Payable by the processor for every skin locally produced to the Levy Administrator. Payable by the exporter for every unprocessed skin exported to the Levy Administrator.  | 2.01c per kg                         | 2.13c per kg                         |

| Processors   | From 5/11/2018 until 4/11/2019 | From 5/11/2019 until 4/11/2020 |
|--|--------------------------------|--------------------------------|
| For red meat products and processed pork purchased by registered meat processors for processing to be paid over to the Levy Administrator. | 2.01c per kg                   | 2.13c per kg                   |

Notes:

- Only one amount of R659 per year is payable by a meat trader in respect of each outlet through which the said meat trader sells red meat, red meat products or processed pork.
- A 3% collection fee may be deducted from the levies collected by the abattoir before the levies are paid over to the Levy Administrator.
- Every import permit issued will attract a minimum of R1 160 statutory levy charge payable by the applicant. Where an import permit is issued for more than one container or load per consignment, then each individual container or load per consignment up to a maximum of 28mt will attract the levy charge payable by the applicant. Where a master import permit is issued the R1 160 statutory levy will be payable by the applicant for every multiple of 25mt.

Exclusions: Where an import permit is issued for the importation of samples, and the quantity to be imported is less than 200kg then the statutory levy shall be waived for that import permit.

The estimated income from the proposed levies is between R45,2 million (for 2018/19) and R47,9 million per annum (for 2019/20). The proposed statutory levies will finance the following functions, namely –

- Consumer communication and education;
- Transformation and development;
- Consumer assurance;
- Research and development;
- Industry liaison;
- Production development;
- Compliance to legislation; and
- Administration.

The MAP Act stipulates that a statutory levy may not exceed 5% of the price released for a specific agricultural product at the first point of sale. The maximum of 5% must be based on a guideline price calculated as the average price at the first point of sale over a period not exceeding three years. The RMIF calculated the guideline price for cattle at R9 100 per head and the proposed levy of R10.40 per head from 5 November 2018, until 4 November 2019 equates to 0.12% of the guideline price. For sheep/goats the guideline price was calculated at R1 600 per head and the proposed levy is R2.02 per head for the first year equates to 0.13% of the guideline price. Both the proposed statutory levies for cattle and sheep/goats of 0.12% and 0.13% of the guideline prices respectively, are well within the requirement of 5% as stipulated in the MAP Act.

The RMIF decided that the proposed statutory levies will be a proportional transaction based levy to ensure that all directly affected groups in the red meat value chain are making a contribution.

The purpose of the statutory measure relating to registration is to compel all relevant role-players in the red meat industry to register with the Levy Administrator. The purpose of the statutory measure relating to records and returns is to compel all relevant role-players in the red meat industry to render records and returns to the Levy Administrator. By prescribing the keeping of records with the rendering of returns on an individual basis, market information for the whole of the industry can be processed and published. These statutory measures are necessary to ensure that continuous, timeous and accurate information relating to the designated animals slaughtered and their products, is available to all role-players. Market information is deemed essential for all role-players in order for them to make informed decisions.

The National Agricultural Marketing Council (NAMC) took cognisance that the proposed continuation of the statutory measures relating to levies, registration, the keeping of records and the rendering of returns in the red meat industry as requested by RMIF, is consistent with the objectives of the MAP Act. The request is currently being investigated by the NAMC and recommendations in this regard will be made to the Minister in the near future.

Directly affected groups in the red meat industry are kindly requested to submit any comments, regarding the proposed statutory measures, to the NAMC on or before 16 March 2018, to enable the Council to finalise its recommendation to the Minister in this regard.

**Submissions should be in writing and be addressed to:**

## DEPARTMENT OF ENVIRONMENTAL AFFAIRS

02 MARCH 2018

**NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998  
(ACT NO. 107 OF 1998)****CONSULTATION ON THE GENERIC ENVIRONMENTAL MANAGEMENT PROGRAMME APPLICABLE TO AN APPLICATION FOR OVERHEAD ELECTRICITY TRANSMISSION AND DISTRIBUTION INFRASTRUCTURE FOR WHICH AN ENVIRONMENTAL AUTHORISATION IS REQUIRED**

I, Bomo Edith Edna Molewa, Minister of Environmental Affairs, hereby publish for public comments, under section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), regulations 19(4) and 23(4) of the Environmental Impact Assessment Regulations, 2014 and Appendix 4 to the regulations, the draft Generic Environmental Management Programme applicable to an application for environmental authorisation for overhead electricity transmission and distribution infrastructure for which an environmental authorisation is required for activity 11 or activity 47 of Environmental Impact Assessment Regulations Listing Notice 1 or for activity 9 of Environmental Impact Assessment Regulations Listing Notice 2, or for any other listed and specified activity necessary for the realisation of such infrastructure, as set out in the Schedule hereto.

Members of the public are invited to submit to the Minister, within 45 days from the date of publication of this Notice in the Gazette, written comments or inputs to the following addresses:

By post to: The Director-General:  
Department of Environmental Affairs  
Attention: Mr Alfred Mocheko  
Private Bag X447  
**PRETORIA**  
0001

By hand at: Reception, Environment House, 473 Steve Biko Road, Arcadia, Pretoria, 0083.

By e-mail: [amochecho@environment.gov.za](mailto:amochecho@environment.gov.za).

Any inquiries in connection with the Notice can be directed to Mr Alfred Mocheko at 012 399 9315.

Comments received after the closing date will not be considered.

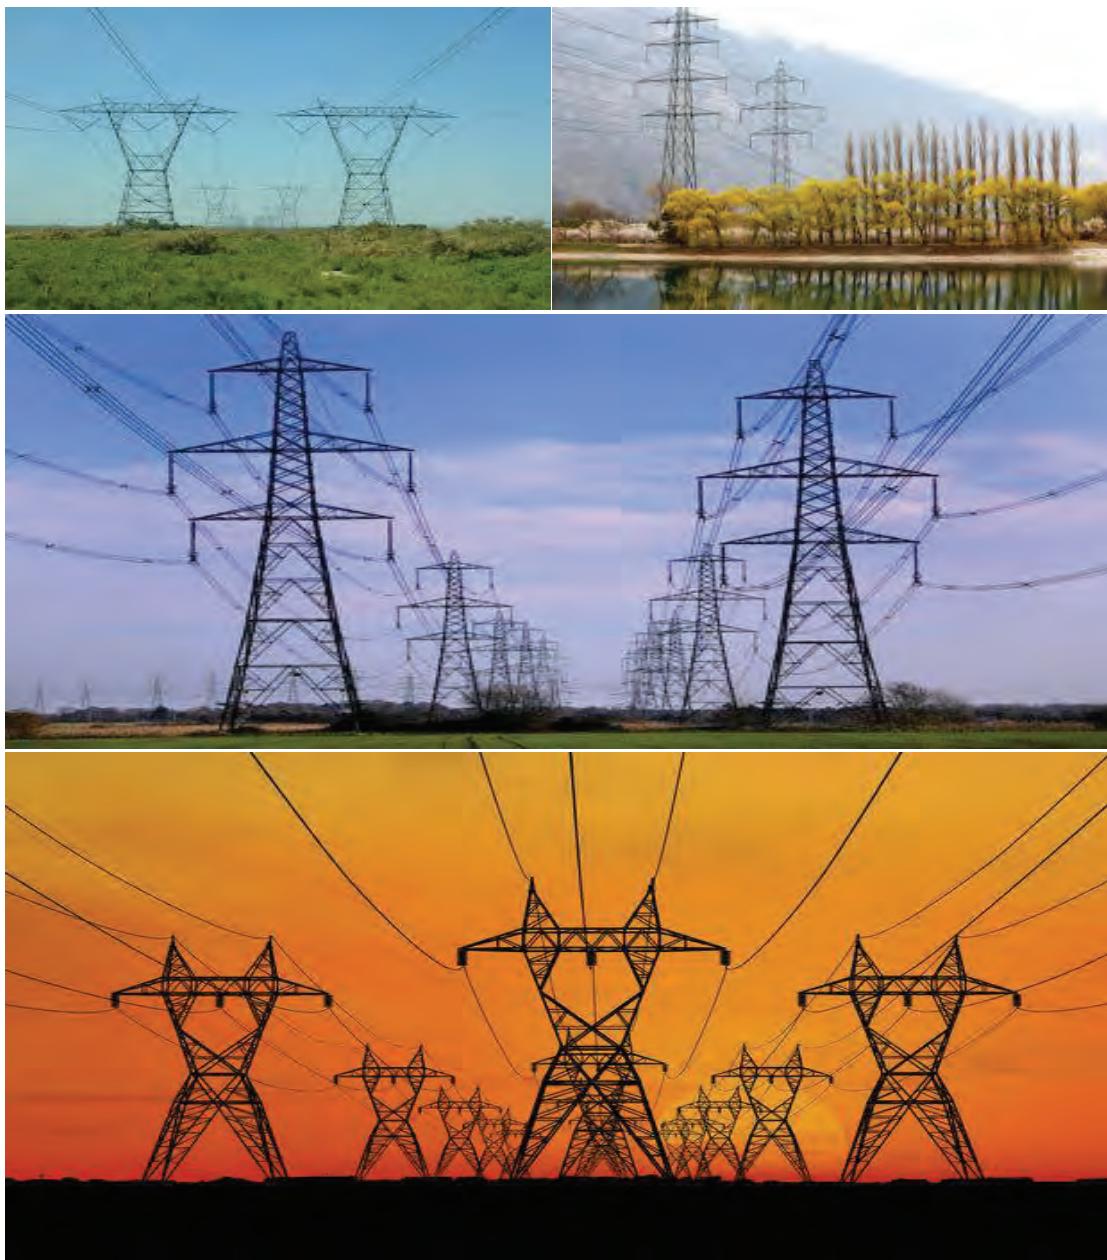

**BOMO EDNA EDITH MOLEWA  
MINISTER OF ENVIRONMENTAL AFFAIRS**

## SCHEDULE

A person applying for an environmental authorisation for overhead electricity transmission and distribution infrastructure, when such facilities trigger—

- activity 11 or 47 of Environmental Impact Assessment Regulations Listing Notice 1 of 2014 and any other listed and specified activities necessary for the realisation of such facilities;
- activity 9 of Environmental Impact Assessment Regulations Listing Notice 2 of 2014; or
- any other listed or specified activity necessary for the realisation of such facilities,

must use the generic Environmental Management Programme, contemplated in regulations 19(4), 23(4) and Appendix 4 to the Environmental Impact Assessment Regulations, 2014. The generic Environmental Management Programme is set out in Appendix 1.

**APPENDIX 1****GENERIC ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) FOR THE  
DEVELOPMENT AND EXPANSION FOR OVERHEAD ELECTRICITY  
TRANSMISSION AND DISTRIBUTION INFRASTRUCTURE****environmental affairs**

Department:  
Environmental Affairs  
**REPUBLIC OF SOUTH AFRICA**

## INTRODUCTION

### 1. Background

The National Environmental Management Act 107 of 1998 (NEMA) requires that an environmental management programme (EMPr) be submitted where an environmental impact assessment (EIA) has been identified as the environmental instrument to be utilised as the basis for a decision on an application for environmental authorisation (EA). The content of an EMPr must either contain the information set out in Appendix 4 of the EIA Regulations, 2014, or must be a generic EMPr relevant to an application as identified and gazetted by the Minister in a government notice. Once the Minister has identified, through a government notice that a generic EMPr is relevant to an application for EA, that generic EMPr must be applied by all parties involved in the EA process, including but not limited to the applicant and the competent authority (CA).

### 2. Purpose

This document constitutes a generic EMPr relevant to applications for the development or expansion for overhead electricity transmission and distribution infrastructure, and all listed and specified activities necessary for the realisation of such infrastructure.

### 3. Objective

The objective of this generic EMPr is to prescribe and pre-approve generally accepted impact management outcomes and actions which can commonly and repeatedly be used for the avoidance, management and mitigation of impacts and risks associated with the development or expansion for overhead electricity transmission and distribution infrastructure. The use of a generic EMPr is intended to reduce the need to prepare and review individual EMPrs for applications of a similar nature.

### 4. Scope

The scope of this generic EMPr applies to the development or expansion overhead electricity transmission and distribution infrastructure requiring EA in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), i.e. with a capacity of 33 kilovolts or more. This generic EMPr applies to activities requiring EA, mainly activity 11 and 47 of the Environmental Impact Assessment Regulations Listing Notice 1 of 2014 and activity 9 of the Environmental Impact Assessment Regulations Listing Notice 2 of 2014, and all associated listed or specified activities necessary for the realization of such infrastructure.

## 5. Structure of this document

This document is structured in three parts with an Appendix as indicated in the table below:

| Part | Section | Heading   | Content  |
|------|---------|---|--|
| A    |         | Provides general guidance and information and is <b>not legally binding</b> | Definitions, acronyms, roles & responsibilities and documentation and reporting.   |
| B    | 1       | Pre-approved generic EMPr template  | <p>Contains generally accepted impact management outcomes and actions required for the avoidance, management and mitigation of impacts and risks associated with the development or expansion overhead electricity transmission and distribution infrastructure, which are presented in the form of a template that has been pre-approved.</p> <p>The template in this section is to be completed by the contractor, with each completed page signed and dated by the holder of the EA prior to commencement of the activity.</p> <p>Once completed and signed, the template represents the EMPr for the activity approved by the CA and is legally binding. The template <b>is not required</b> to be submitted to the CA and <b>does not</b> need approval. Once the generic EMPr is gazetted for implementation, it has been approved by the CA.</p> <p>To allow interested and affected parties access to the pre-approved EMPr template for consideration through the authorisation process, the applicant(s)/proponent(s) or the EAP on behalf of the applicant (s)/proponent (s) must make the location of the document known to the potential registered interested and affected parties. Should the potential registered interested and affected parties not have access to electronic media, the applicant(s) or the EAP must make a hard copy available at a public location.</p> |
|      | 2       | Site specific information   | Contains preliminary infrastructure layout and a declaration that the applicant/holder of the EA will comply with the pre-approved generic EMPr template contained in <u>Part B: Section 1</u> , and understands that the impact management outcomes and actions are   |

| Part | Section | Heading                                | Content   |
|------|---------|--|---|
|      |         |  | <p>legally binding. The preliminary infrastructure layout must be finalized to inform final EMPr that is to be submitted with BAR or EIAR before commencement, ensuring that all impact management outcomes and actions have been either pre-approved or approved in terms of <u>Part C</u>.</p> <p>This section <b>must be</b> submitted to the CA as part of the BAR or EIAR, for consideration of, and decision on, the application for EA. The information submitted for EA will be considered to be incomplete should a signed copy of <u>Part B: section 2</u> not be submitted. Once approved, this Section forms part of the EMPr for the site and is legally binding.</p>  |
| C    |         | Site specific sensitivities/attributes | <p>If any specific environmental sensitivities/attributes are present on the site which require site specific impact management outcomes and actions not included in the pre-approved generic EMPr to manage impacts, these specific impact management outcomes and actions must be included in this section. These specific environmental attributes must be referenced spatially and impact management outcomes and actions must be provided. These specific impact management outcomes and actions must be presented in the format of the pre-approved EMPr template (<u>Part B: section 1</u>)</p> <p>If <u>Part C</u> is applicable to the site, it <b>is required</b> to be submitted as part of the BAR or EIAR, for consideration of, and decision on, the application for EA. The information in this section must be prepared by an EAP and the name and expertise of the EAP, including the curriculum vitae are to be included. Once approved, Part C forms part of the EMPr for the site and is legally binding.</p> <p>This section applies only <b>to additional</b> impact management outcomes and actions that are necessary for the avoidance, management and mitigation of impacts and risks associated with the specific development or expansion</p> |

| Part | Section    | Heading | Content   |
|------|------------|---------|---|
|      |            |         | <p>and which are not already included in <u>Part B: section 1</u>.</p> <p>This section will <b>not be required</b> should the site contain no specific environmental sensitivities or attributes.</p> |
|      | Appendix 1 |         | <p>Contains the method statements to be prepared prior to commencement of the activity. The method statements are <b>not required</b> to be submitted to the competent authority.</p>                 |

## 6. Completion of part B: section 1: the pre-approved generic EMPr template

The template is to be completed prior to commencement of the activity, by providing the following information for each environmental management action:

- For implementation
  - a 'responsible person',
  - a method for implementation,
  - a timeframe for implementation
- For monitoring
  - a responsible person
  - frequency
  - evidence of compliance.

The completed template must be signed and dated by the holder of the EA prior to commencement of the activity. The method statements prepared and agreed to by the holder of the EA must be appended to the template as Appendix 1. Each method statement must be signed and dated on each page by the holder of the EA. This template once signed and dated is legally binding. The holder of the EA will remain responsible for its implementation.

## 7. Amendments of the impact management outcomes and actions

Once the activity has commenced a holder of an EA may make amendments to the impact management outcomes and actions in the following manner:

- Amendment of the impact management outcomes – in line with regulation 37 of the EIA Regulation, 2014
- Amendment of the impact management actions – in line with regulation 36 of the EIA Regulations, 2014

**8. Documents to be submitted as part of part B: section 2 site specific information and declaration**

Part B: Section 2 has three distinct sub-sections. The first and third sub-sections are in a template format. Sub-section two requires a map to be produced.

Sub-section 1 contains the project name, the applicants name and contact details, the site information which includes coordinates of the corridor in which the proposed overhead electricity transmission and distribution infrastructure is proposed as well as the 21-digit Surveyor General code of each cadastral land parcel and where available the farm name.

Sub-section 2 is to be prepared by an EAP or an applicant in the case of exemption, and must contain his/her name and expertise including a curriculum vitae. This sub-section must include a map of the site sensitivity overlaid with the preliminary infrastructure layout. Once the web-based screening tool identified in regulation 16(1)(v) of the EIA Regulations, 2014 is available, the sensitivity map must be prepared from this system. The map is to indicate areas/features of sensitivity based on the findings of the assessment and illustrated according to four tiers, Very High, High, Medium or Low. The sensitivity map shall also identify the nature of each sensitive feature e.g. raptor nest, threatened plant species, archaeological site, etc. Sensitivity maps shall identify features both within the planned working area and any known sensitive features in the surrounding landscape. The overhead transmission and distribution profile shall be illustrated at an appropriate resolution to enable fine scale interrogation. It is recommended that <20 km of overhead transmission and distribution length is illustrated per page in A3 landscape format. Where considered appropriate, photographs of sensitive features in the context of tower positions shall be used.

Sub-section 3 is the declaration that the applicant (s)/proponent (s) or holder of the EA in the case of a change of ownership must complete which confirms that the applicant/EA holder will comply with the 'generic EMPr' in Section 1 and understands that the impact management outcomes and actions are legally binding.

**(i) Amendments to Part B: Section 2 – site specific information and declaration**

Should the EA be transferred, Part B: Section 2 must be completed by the new applicant/proponent and submitted with the application for amendment of the EA in terms of regulations 29 or 31 of the EIA Regulations, 2014. The information submitted for an amendment to an EA will be considered to be incomplete should a signed copy of Part B: Section 2 not be submitted. Once approved, Part B: Section 2 forms part of the EMPr for the site and the EMPr becomes legally binding to the new EA holder once the amendment process has been concluded.

**PART A – GENERAL INFORMATION****1. DEFINITIONS**

In these EMPr any word or expression to which a meaning has been assigned in the NEMA or EIA has that meaning, and unless the context requires otherwise –

**Clearing** means the clearing and removal of vegetation, whether partially or in whole, including trees and shrubs, as specified;

**Contractor** - The Contractor has overall responsibility for ensuring that all work, activities, and actions linked to the delivery of the contract, are in line with the Environmental Management Programme and that Method Statements are implemented as described.

**Construction camp** is the area designated for key construction infrastructure and services, including but not limited to offices, overnight vehicle parking areas, stores, the workshop, stockpile and lay down areas, hazardous storage areas (including fuels), the batching plant (if one is located at the construction camp), designated access routes, equipment cleaning areas and the placement of staff accommodation, cooking and ablution facilities, waste and wastewater management;

**Method Statement** means a written submission by the Contractor to the Project Manager in response to this EMPr or a request by the Project Manager and ECO. The Method Statement must set out the equipment, materials, labour and method(s) the Contractor proposes using to carry out an activity identified by the Project Manager when requesting the Method Statement. This must be done in such detail that the Project Manager and ECO is able to assess whether the Contractor's proposal is in accordance with this specification and/or will produce results in accordance with this specification;

The Method Statement shall cover applicable details with regard to:

- (i) Construction procedures;
- (ii) Plant, materials and equipment to be used;
- (iii) Transporting the equipment to and from site;
- (iv) How the plant/ material/ equipment will be moved while on site;
- (v) How and where the plant/ material/ equipment will be stored;
- (vi) The containment (or action to be taken if containment is not possible) of leaks or spills of any liquid or material that may occur;
- (vii) Timing and location of activities;
- (viii) Compliance/ non-compliance; and
- (ix) Any other information deemed necessary by the Project Manager.

**Hazardous Substances** is a substance governed by the Hazardous Substances Act, 1973 (Act No. 15 of 1973) as well as the Hazardous Chemical and Substances Regulations, 1995;

**Slope** means the inclination of a surface expressed as one unit of rise or fall for so many horizontal units;

**Solid waste** means all solid waste, including construction debris, hazardous waste, excess cement/concrete, wrapping materials, timber, cans, drums, wire, nails, food and domestic waste (e.g. plastic packets and wrappers);

**Spoil** means excavated material which is unsuitable for use as material in the construction works or is material which is surplus to the requirements of the construction works;

**Topsoil** means a varying depth (up to 300 mm) of the soil profile irrespective of the fertility, appearance, structure, agricultural potential, fertility and composition of the soil;

**Works** means the Works to be executed in terms of the Contract

### 3. ROLES AND RESPONSIBILITIES FOR ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) IMPLEMENTATION

The effective implementation of this generic EMPr is dependent on established and clear roles, responsibilities and reporting lines within an institutional framework. This section of the EMPr gives guidance to the various environmental roles and reporting lines.

Table 1: Guide to roles and responsibilities for implementation of an EMPr

| Function                          | Role and Responsibilities  |
|-----------------------------------|--|
| Developer's Project Manager (DPM) | <p><u>Role</u></p> <p>The Project Developer is accountable for ensuring compliance with the EMPr and any conditions of approval from the competent authority (CA). An independent environmental control officer (ECO) must be contracted by the Project Developer to objectively monitor the implementation of the EMPr according to relevant environmental legislation, and the conditions of environmental authorization (EA). The Project Developer is further responsible for providing and giving mandate to enable the ECO to perform responsibilities, and he must ensure that the ECO is integrated as part of the project team while remaining independent.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Be fully conversant with the conditions of the EA;</li> <li>- Ensure that all stipulations within the EMPr are communicated and adhered to by the Developer and its Contractor(s);</li> <li>- Monitor the implementation of the EMPr throughout the project by means of site inspections and meetings. Overall management of the project and EMPr implementation; and</li> <li>- Ensure that periodic environmental performance audits are undertaken on the project implementation.</li> </ul> |
| Developer Site Supervisor (DSS)   | <p><u>Role</u></p> <p>The DSS reports directly to the DPM, oversees site works, liaises with the contractor(s) and the ECO. The DSS is responsible for the day to day implementation of the EMPr and for ensuring the compliance of all contractors with the conditions and requirements stipulated in the EMPr.</p>   |

| Function                            | Role and Responsibilities   |
|-------------------------------------|---|
| Environmental Control Officer (ECO) | <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Ensure that all contractors identify a contractor's Environmental Officer (cEO);</li> <li>- Must be fully conversant with the conditions of the EA. Oversees site works, liaison with Contractor, DPM and ECO;</li> <li>- Must ensure that all landowners have the relevant contact details of the site staff, ECO and cEO;</li> <li>- Will issue all non-compliances to contractors; and</li> <li>- Ratify the Monthly Environmental Report.</li> </ul> <p><u>Role</u></p> <p>The ECO should be employed by the developer for the duration of the project. The ECO should have appropriate training and experience in the implementation of environmental management specifications. The primary role of the ECO is to act as an independent quality controller and monitoring agent regarding all environmental concerns and associated environmental impacts. In this respect, the ECO is to conduct periodic site inspections, attend regular site meetings, pre-empt problems and suggest mitigation and be available to advise on incidental issues that arise. The ECO is also required to conduct compliance audits, verifying the monitoring reports submitted by the cEO. The ECO provides feedback to the DSS and Project Manager regarding all environmental matters. The Contractor, CEO and dEO are answerable to the Environmental Control Officer for non-compliance with the Performance Specifications as set out in the EA and EMPr.</p> <p>The ECO provides feedback to the DSS and Project Manager, who in turn reports back to the Implementing Agent and potential and Registered Interested &amp; Affected Parties' (R&amp;AP's), as required. Issues of non-compliance raised by the ECO must be taken up by the Project Manager, and resolved with the Contractor as per the conditions of his contract. Decisions regarding environmental procedures, specifications and requirements which have a cost implication (i.e. those that are deemed to be a variation, not allowed for in the Performance Specification) must be endorsed by the Project Manager. The ECO must also, as specified by the EA, report to the relevant CA as and when required.</p> <p><u>Responsibilities</u></p> <p>The responsibilities of the ECO will include the following:</p> |

| Function | Role and Responsibilities  |
|----------|--|
|          | <ul style="list-style-type: none"> <li>- Be aware of the findings and conclusions of all EA related to the development;</li> <li>- Be familiar with the recommendations and mitigation measures of this EMPr;</li> <li>- Be conversant with relevant environmental legislation, policies and procedures, and ensure compliance with them;</li> <li>- Undertake regular and comprehensive site inspections / audits of the construction site according to the generic EMPr and applicable licenses in order to monitor compliance as required;</li> <li>- Educate the construction team about the management measures contained in the EMPr and environmental licenses;</li> <li>- Compilation and administration of an environmental monitoring plan to ensure that the environmental management measures are implemented and are effective;</li> <li>- Monitoring the performance of the Contractors and ensuring compliance with the EMPr and associated Method Statements;</li> <li>- In consultation with the Developer Site Supervisor order the removal of person(s) and/or equipment which are in contravention of the specifications of the EMPr and/or environmental licenses;</li> <li>- Liaison between the DPM, Contractors, authorities and other lead stakeholders on all environmental concerns;</li> <li>- Issuing of site instructions to the Contractor for corrective actions required;</li> <li>- Compile a regular environmental audit report highlighting any non-compliance issues as well as satisfactory or exceptional compliance with the EMPr;</li> <li>- Validating the regular site inspection reports, which are to be prepared by the contractor Environmental Officer (cEO);</li> <li>- Checking the cEO's record of environmental incidents (spills, impacts, legal transgressions etc) as well as corrective and preventive actions taken;</li> <li>- Checking the cEO's public complaints register in which all complaints are recorded, as well as action taken;</li> <li>- Assisting in the resolution of conflicts;</li> <li>- Facilitate training for all personnel on the site – this may range from carrying out the training, to reviewing the training programmes of the Contractor and/or sub-contractors;</li> </ul> |

| Function  | Role and Responsibilities |
|---|---------------------------|
| <p>developer Environmental Officer (dEO)</p> <p><u>Role</u></p> <p>The dEOs will report to the Project Manager and are responsible for implementation of the EMPr, environmental monitoring and reporting, providing environmental input to the Project Manager and Contractor's Manager, liaising with contractors and the landowners as well as a range of environmental coordination responsibilities.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- In case of non-compliances, the ECO must first communicate this to the Senior Site Supervisor, who has the power to ensure this matter is addressed. Should no action or insufficient action be taken, the ECO may report this matter to the authorities as non-compliance;</li> <li>- Maintenance, update and review of the EMPr;</li> <li>- Communication of all modifications to the EMPr to the relevant stakeholders.</li> </ul> |                           |

| Function                               | Role and Responsibilities   |
|--|---|
| Contractor                             | <p>- Acting as Developer's Environmental Representative on site and work together with the ECO and contractor;</p> <p>- Audit carried out by an independent auditor/consultant.</p> <p><u>Role</u></p> <p>The Contractor appoints the cEO and has overall responsibility for ensuring that all work, activities, and actions linked to the delivery of the contract are in line with the EMPr and that Method Statements are implemented as described. External contractors must ensure compliance with this EMPr while performing the onsite activities as per their contract with the Project Developer. The contractors are required, where specified, to provide Method Statements setting out in detail how the management actions contained in the EMPr will be implemented during the development or expansion for overhead electricity transmission and distribution infrastructure activities.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- project delivery and quality control for the development services as per appointment;</li> <li>- employ a suitably qualified person to monitor and report to the Project Developer's appointed person on the daily activities on-site during the construction period;</li> <li>- ensure that safe, environmentally acceptable working methods and practices are implemented and that equipment is properly operated and maintained, to facilitate proper access and enable any operation to be carried out safely;</li> <li>- attend on site meeting(s) prior to the commencement of activities to confirm the procedure and designated activity zones;</li> <li>- ensure that contractors' staff (or sub-contractors) repair, at their own cost, any environmental damage as a result of a contravention of the specifications contained in EMPr, to the satisfaction of the ECO.</li> </ul> |
| contractor Environmental Officer (cEO) | <p><u>Role</u></p> <p>Each Contractor affected by the EMPr should appoint a cEO, who is responsible for the on-site implementation of the EMPr (or relevant sections of the EMPr). The Contractor's representative can be the site agent; site engineer; a dedicated environmental officer; or an independent consultant. The Contractor</p>  |

| <b>Function</b> | <b>Role and Responsibilities</b>  |
|-----------------|---|
|                 | <p>must ensure that the Contractor's Representative is suitably qualified to perform the necessary tasks and is appointed at a level such that she/he can interact effectively with other site Contractors, labourers, the Environmental Control Officer and the public. As a minimum the cEO shall meet the following criteria:</p> <p>The cEO ensures that all Sub-contractors working under the Contractor abide by the requirements of the generic EMPr. The Contractor is answerable to the Project Manager for all environmental issues associated with the project.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Be on site throughout the duration of the project and be dedicated to the project;</li> <li>- Ensure all their staff are aware of the environmental requirements, conditions and constraints with respect to all of their activities on site;</li> <li>- Implementing the environmental conditions, guidelines and requirements as stipulated within the EA, EMPr and Method Statements;</li> <li>- Attend the Environmental Site Meeting;</li> <li>- Undertaking corrective actions where non-compliances are registered within the stipulated timeframes;</li> <li>- Report back formally on the completion of corrective actions;</li> <li>- Assist the ECO in maintaining all the site documentation; <ul style="list-style-type: none"> <li>- Prepare the site inspection reports and corrective action reports for submission to the ECO;</li> <li>- Assist the ECO with the preparing of the monthly report; and</li> <li>- Where more than one Contractor is undertaking work on site, each company appointed as a Contractor will appoint a cEO representing that company.</li> </ul> </li> </ul> |

#### 4. ENVIRONMENTAL DOCUMENTATION REPORTING AND COMPLIANCE

To ensure accountable and demonstrated implementation of the EMPr, a number of reporting systems, documentation controls and compliance mechanisms must be in place for all overhead electricity transmission and distribution infrastructure projects as a minimum requirement.

##### 4.1 Document control/Filing system

The holder of the EA is solely responsible for the upkeep and management of the EMPr file. At a minimum, all documentation detailed below will be stored in the EMPr file. A hard copy of all documentation shall be filed, while an electronic copy may be kept where relevant. A duplicate file will be maintained in the office of the DSS (where applicable). This duplicate file will be the responsibility of the ECOs and must remain current and up-to-date. The filing system must be updated and relevant documents added as required. The EMPr file must be made available at all times on request by the CA (in terms of NEMA EIA regulation) or other relevant authorities. The EMPr file will form part of any environmental audits undertaken as prescribed in the EIA Regulations.

##### 4.2 Documentation to be available

At the outset of the project the following documents shall be placed in the filing system and be accessible at all times:

- Full copy of the signed EA from the CA in terms of NEMA, granting approval for the development or expansion;
- Copy of the generic and site specific EMPr as well as any amendments thereof;
- Copy of declaration of implementing generic EMPr and subsequent approval of site specific EMPr and amendments thereof;
- All method statements;
- Completed environmental checklists;
- Minutes and attendance register of environmental site meetings;
- An up-to-date environmental incident log;
- A copy of all instructions or directives issued;
- A copy of all corrective actions signed off. The corrective actions must be filed in such a way that a clear reference is made to the non-compliance record;
- Complaints register.

##### 4.3 Weekly Environmental Checklist

The ECOs are required to complete a Weekly Environmental Checklist, the format of which is to be agreed prior to commencement of the activity. The ECOs are required to sign and date the checklist, retain a copy in the EMPr file and submit a copy of the completed checklist to the DSS on a weekly basis.

The checklists will form the basis for the Monthly Environmental Reports. Copies of all completed checklists will be attached as Annexures to the Environmental Audit Report as required in terms of the EIA regulations, 2014.

##### 4.4 Environmental site meetings

Minutes of the environmental site meetings shall be kept. The minutes must include an attendance register and will be attached to the Monthly Report that is distributed to attendees. Each set of minutes must clearly record "Matters for Attention" that will be reviewed at the next meeting.

#### 4.5 Required Method Statements

The method statement will be done in such detail that the ECOs are enabled to assess whether the contractor's proposal is in accordance with the EMPr.

The method statement shall cover applicable details with regard to:

- development procedures;
- materials and equipment to be used;
- getting the equipment to and from site;
- how the equipment/ material will be moved while on site;
- how and where material will be stored;
- the containment (or action to be taken if containment is not possible) of leaks or spills of any liquid or material that may occur;
- timing and location of activities;
- compliance/ non-compliance with the EMPr; and
- any other information deemed necessary by the ECOs.

Unless indicated otherwise by the Project Manager, the Contractor shall provide the following method statements to the Project Manager no less than 14 days prior to the commencement date of the activity:

- Site establishment – Camps, Lay-down or storage areas, satellite camps, infrastructure;
- Batch plants;
- Workshop or plant servicing;
- Handling, transport and storage of Hazardous Chemical Substance's;
- Vegetation management – Protected, clearing, aliens, felling;
- Access management – Roads, gates, crossings etc.;
- Fire plan;
- Waste management – transport, storage, segregation, classification, disposal (all waste streams);
- Social interaction – complaints management, compensation claims, access to properties etc.;
- Water – use (source, abstraction and disposal), access and all related information, crossings and mitigation;
- Emergency preparedness – Spills, training, other environmental emergencies;
- Dust and noise management methodologies;
- Fauna interaction and risk management – only if the risk was identified – wildlife interaction especially on game farms; and
- Heritage and palaeontology management.

The ECOs shall ensure that the contractors perform in accordance with these method statements. Completed and authorised method statements shall be captured in Appendix 1.

#### 4.6 Environmental Incident Log (Diary)

The ECOs are required to maintain an up-to-date and current Environmental Incident Log (environmental diary). The Environmental Incident Log is a means to record all environmental incidents and/or all non-compliance notice would not be issued. An environmental incident is defined as:

- Any deviation from the listed impact management actions (listed in this EMPr) that may be addressed immediately by the ECOs. (For example a contractor's staff member littering or a drip tray that has not been emptied);
- Any environmental impact resulting from an action or activity by a contractor in contravention of the environmental stipulations and guidelines listed in the EMPr which as a single event would have a minor impact but which if cumulative and continuous would have a significant effect (for example no toilet paper available in the ablutions for an afternoon); and
- General environmental information such as road kills or injured wildlife.

The ECOs are to record all environmental incidents in the Environmental Incident Log. All incidents regardless of severity must be reported to the Developer. The Log is to be kept in the EMPr file and at a minimum the following will be recorded for each environmental incident:

- The date and time of the incident;
- Description of the incident;
- The name of the Contractor responsible;
- The incident must be listed as significant or minor;
- If the incident is listed as significant, a non-compliance notice must be issued, and recorded in the log;
- Remedial or corrective action taken to mitigate the incident; and
- Record of repeat minor offences by the same contractor or staff member.

The Environmental Incident Log will be captured in the EAR.

#### 4.7 Non-compliance

A non-compliance notice will be issued to the responsible contractor by the ECOs via the DSS or Project Manager. The non-compliance notice will be issued in writing; a copy filed in the EMPr file and will at a minimum include the following:

- Time and date of the non-compliance;
- Name of the contractor responsible;
- Nature and description of the non-compliance;
- Recommended / required corrective action; and
- Date by which the corrective action to be completed.
- The contractors shall act immediately when a notice of non-compliance is received and correct whatever is the cause for the issuing of the notice. Complaints received regarding activities on the development site pertaining to the environment shall be recorded in a dedicated register and the response noted with the date and action taken. The ECO should be made aware of any complaints. Any non-compliance with the agreed procedures of the EMPr is a transgression of the various statutes and laws that define the manner by which the environment is managed. Failure to redress

the cause shall be reported to the relevant CA for them to deal with the transgression, as it deems fit. The contractor is deemed not to have complied with the EMPr if, inter alia, There is a deviation from the environmental conditions, management outcomes and actions activities, as approved in generic and site specific EMPr as relevant as set out in the EMPr, which deviation has, or may cause, an environmental impact.

#### 4.8 Corrective action records

For each non-compliance notice issued, a documented corrective action must be recorded. On receiving a non-compliance notice from the DSS, the contractor's cEO will ensure that the corrective actions required take place within the stipulated timeframe. On completion of the corrective action the cEO is to issue a Corrective Action Report in writing to the ECOs. If satisfied that the corrective action has been completed, the ECOs are to sign-off on the Corrective Action Report, and attach the report to the non-compliance notice in the EMPr file. A corrective action is considered complete once the report has signed off by the ECOs.

#### 4.9 Photographic record

A digital photographic record will be kept. The photographic record will be used to show before, during and post rehabilitation evidence of the project as well used in cases of damages claims if they arise. Each image must be dated and a brief description note attached.

The Contractor shall:

1. Allow the ECOs access to take photographs of all areas, activities and actions.

The ECOs shall keep an electronic database of photographic records which will include:

1. Pictures of all areas designated as work areas, camp areas, development sites and storage areas taken before these areas are set up;
2. All bunding and fencing;
3. Road conditions and road verges;
4. Condition of all farm fences;
5. Topsoil storage areas;
6. All areas to be cordoned off during construction;
7. Waste management sites;
8. Ablution facilities (inside and out);
9. Any non-conformances deemed to be "significant";
10. All completed corrective actions for non-compliances;
11. All required signage;
12. All areas before, during and post rehabilitation; and
13. Include relevant photographs in the Final Environmental Audit Report.

#### 4.10 Complaints register

The ECOs shall keep a current and up-to-date complaints register. The complaints register is to be a record of all complaints received from communities, stakeholders and individuals. The Complaints Record shall:

1. Record the name and contact details of the complainant;
2. Record the time and date of the complaint;
3. Contain a detailed description of the complaint;
4. Where relevant and appropriate, contain photographic evidence of the complaint or damage (ECOs to take relevant photographs); and
5. Contain a copy of the ECOs written response to each complaint received and keep a record of any further correspondence with the complainant. The ECO's written response will include a description of any corrective action to be taken and must be signed by the Contractor, ECO and affected party. Where a damage claim is issued by the complainant, the ECOs shall respond as described in (**section 4.11**) below.

#### 4.11 Claims for damages

In the event that a Claim for Damages is submitted by a community, landowner or individual, the ECOs shall:

1. Record the full detail of the complaint as described in (**section 4.10**) above;
2. The ECOs will evaluate the claim and associated damage and submit the evaluation to the Senior Site Representative for approval;
3. Following consideration by the DPM, the claim is to be resolved and settled immediately, or the reason for not accepting the claim communicated in writing to the claimant. Should the claimant not accept this, the ECO shall, in writing report the incident to the Developer's negotiator and legal department; and
4. A formal record of the response by the ECOs to the claimant as well as the rectification of the method of making payments not amount will be recorded in the EMPr file.

#### 4.12 Interactions with affected parties

Open, transparent and good relations with affected landowners, communities and regional staff are an essential aspect to the successful management and mitigation of environmental impacts.

The ECOs shall:

1. Ensure that all queries, complaints and claims are dealt within an agreed timeframe;
2. Ensure that any or all agreements are documented, signed by all parties and a record of the agreement kept in the EMPr file;
3. Ensure that a complaints telephone numbers are made available to all landowners and affected parties; and
4. Ensure that contact with affected parties is courteous at all times;

#### 4.13 Environmental audits

Internal Environmental Audits of the activity and implementation of the EMPr will be undertaken by the ECO. The findings and outcomes of these audits will be recorded in the

EMPr file. The environmental audits and associated reports must be conducted and submitted to the CA at intervals as indicated in the EA.

The ECOs must prepare a monthly EAR. The report will be tabled as the key point on the agenda of the Environmental Site Meeting. The Report is submitted for acceptance at the meeting and the final report will be circulated to the Project Manager and filed in the EMPr file. At a frequency determined by the EA, the ECOs shall submit the monthly reports to the CA in terms of NEMA. At a minimum the Monthly report is to cover the following:

- Weekly Environmental Checklists;
- Deviations and non-compliances with the checklists;
- Non-compliances issued;
- Completed and reported corrective actions;
- Environmental Monitoring;
- General environmental findings and actions; and
- Minutes of the Bi-monthly Environmental Site Meetings.

#### 4.14 Final environmental audits

On final completion of the entire activity, the ECOs are required to prepare a final EAR. The report is to be submitted to the CA for acceptance and approval. The environmental report must comply with Appendix 7 of the EIA Regulations, 2014.

- Details of the independent person who prepared the report;
- Details of the expertise of independent person that compiled the report;
- A declaration that the independent auditor is independent in a form as may be specified by the CA;
- An indication of the scope of, and the purpose for which, the environmental audit report was prepared;
- A description of the methodology adopted in preparing the environmental audit report;
- An indication of the ability of the EMPr, and where applicable, the closure plan to:
  - Sufficiently provide for the avoidance, management and mitigation of environmental impacts associated with the undertaking of the activity on an on-going basis;
  - Sufficiently provide for the avoidance, management and mitigation of environmental impacts associated with the closure of the facility; and
  - Ensure compliance with the provisions of EA, EMPr, and where applicable, the closure plan;
- A description of any assumptions made, and any uncertainties or gaps in knowledge;
- A description of any consultation process that was undertaken during the course of carrying out the EAR;
- A summary and copies of any comments that were received during any consultation process; and
- Any other information requested by the CA.

Submission of the final EAR to the CA will indicate the end of the entire activity.

**PART B: SECTION 1: Pre-approved generic EMPr template****5. IMPACT MANAGEMENT OUTCOMES AND ACTIONS**

This section provides a pre-approved generic EMPr template with activities that are common to the development of overhead electricity transmission and distribution infrastructure. There are 30 doings identified for the development or expansion of overhead electricity transmission and distribution infrastructure, and for each doing a set of prescribed impact management outcomes and associated management actions have been identified. Holders of EAs are responsible to ensure the implementation of these controls for all projects as a minimum requirement for mitigating the impact of activities identified for the development or expansion of overhead electricity transmission and distribution infrastructure.

The template provided below is to be completed by providing the information under each headings for each environmental management action:

The completed template must be signed and dated on each page by both the contractor and the holder of the EA prior to commencement of the activity. The method statements prepared and agreed to by the holder of the EA must be appended to the template as Appendix 1. Each method statement must also be duly signed and dated on each page by the contractor and the holder of the EA. This template once signed and dated is legally binding. The holder of the EA will remain responsible for its implementation.

### 5.1 Environmental awareness training

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| <ul style="list-style-type: none"> <li>– All staff must receive environmental awareness training prior to commencement of the activities;</li> <li>– The Contractor must allow for sufficient sessions to train all personnel with no more than 20 personnel attending each course;</li> <li>– Refresher environmental awareness training is available as and when required;</li> <li>– All staff are aware of the conditions and controls linked to the EA and within the EMPr and made aware of their individual roles and responsibilities in achieving compliance with the EA and EMPr;</li> <li>– The Contractor must erect and maintain information posters at key locations on site;</li> <li>– Environmental awareness training should include as a minimum the following: <ul style="list-style-type: none"> <li>a) Description of significant environmental impacts, actual or potential, related to their work activities;</li> <li>b) Mitigation measures to be implemented when carrying out specific activities;</li> </ul> </li> </ul> |                    |                          |                              |                    |           |

| Impact Management Actions   | Implementation | Monitoring   |
|---|----------------|--|
| <ul style="list-style-type: none"> <li>c) Emergency preparedness and response procedures;</li> <li>d) Emergency procedures;</li> <li>e) Procedures to be followed when working near or within sensitive areas;</li> <li>f) Wastewater management procedures;</li> <li>g) Water usage and conservation;</li> <li>h) Solid waste management procedures;</li> <li>i) Sanitation procedures; and</li> <li>j) Disease prevention.</li> </ul> <ul style="list-style-type: none"> <li>- A record of all environmental awareness training courses undertaken as part of the EMPF must be available;</li> <li>- Educate workers on the dangers of open and/or unattended fires;</li> <li>- A staff attendance register of all staff to have received environmental awareness training must be available.</li> <li>- Course material must be available and presented in appropriate languages.</li> </ul> |                | <p><b>Impact management outcome:</b> Impacts on the environment are minimised when developing new infrastructure and the development footprint are kept to a minimum.</p> <p><b>Site Establishment development</b></p> |

### 5.7 Storm and waste water management

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Appropriate pollution control facilities necessary to prevent discharge of water containing polluting matter or visible suspended materials into watercourses or water bodies must be designed and implemented;</li> <li>- Runoff from the cement/ concrete batching areas must be strictly controlled, and contaminated water must be collected, stored and either treated or disposed of off-site, at a location approved by the project manager;</li> <li>- All spillage of oil onto concrete surfaces must be controlled by the use of an approved absorbent material and the used absorbent material disposed of at an appropriate waste disposal facility;</li> <li>- Natural storm water runoff not contaminated during the development and clean water can be discharged directly to watercourses and water bodies, subject to the Project Manager's approval and support by the ECO;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |  |  |
|--|--|--|
| - Water that has been contaminated with suspended solids, such as soils and silt, may be released into watercourses or water bodies only once all suspended solids have been removed from the water by settling out these solids in settlement ponds. The release of settled water back into the environment must be subject to the Project Manager's approval and support by the ECO. |  |  |
|--|--|--|

### 5.8 Solid waste management

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- All measures regarding waste management must be undertaken using an integrated waste management approach;</li> <li>- Sufficient, covered waste collection bins (scavenger and weatherproof) must be provided;</li> <li>- A suitably positioned and clearly demarcated waste collection site must be identified and provided;</li> <li>- The waste collection site must be maintained in a clean and orderly manner;</li> <li>- Waste must be segregated into separate bins and clearly marked for each waste type;</li> <li>- Staff must be trained in waste segregation;</li> <li>- Bins must be emptied regularly;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |  |
|--|--|
| - General waste produced onsite must be disposed of at recognised waste disposal sites/ recycling company; |  |
| - Hazardous waste must be disposed of at a registered waste disposal site;                                 |  |
| - Certificates of safe disposal for general, hazardous and recycled waste must be maintained.              |  |

### 5.9 Protection of watercourses

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- All watercourses must be protected from direct or indirect spills of pollutants such as solid waste, sewage, cement, oils, fuels, chemicals, aggregate tailings, wash and contaminated water or organic material resulting from the Contractor's activities;</li> <li>- In the event of a spill, prompt action must be taken to clear the polluted or affected areas;</li> <li>- Where possible, no development equipment must traverse any seasonal or permanent wetland;</li> <li>- Development of permanent watercourse crossing must only be undertaken where no alternative access to tower position is available;</li> <li>- When working in or near any watercourse or wetland, the following environmental controls and consideration must be taken:</li> </ul> |                    |                          |                              |                    |           |                        |

|   |
|---|
| a) River levels during the period of construction;  |
| b) During the execution of the Works, appropriate measures to prevent pollution and contamination of the riverine environment must be implemented e.g. including ensuring that construction equipment is well maintained;     |
| c) Where earthwork is being undertaken in close proximity to any watercourse, slopes must be stabilised using suitable materials, i.e. sandbags or geotextile fabric, to prevent sand and rock from entering the channel; and |
| d) Appropriate rehabilitation and re-vegetation measures for the river banks must be implemented timeously. In this regard, the banks should be appropriately and incrementally stabilised as soon as development allows.     |

### 5.10 Vegetation clearing

| Impact Management Actions |                |                    |                          | Monitoring                   |                    |           |                        |
|---------------------------|----------------|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|                           | Implementation | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <b>General:</b>           |                |                    |                          |                              |                    |           |                        |

– Indigenous vegetation which does not interfere with the development must be left undisturbed;

– Protected or endangered species may occur on or near the development site. Special care should be taken not to damage such species;

| <b>Impact Management Actions</b>  | <b>Implementation</b> |                          |                              | <b>Monitoring</b>  |           |
|   | Responsible person    | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| <ul style="list-style-type: none"> <li>Where possible and practical all maintenance of vehicles and equipment must take place in the workshop area;</li> <li>During servicing of vehicles or equipment, especially where emergency repairs are effected outside the workshop area, a suitable drip tray must be used to prevent spills onto the soil. The relevant local authority must be made aware of a fire as soon as it starts;</li> <li>Leaking equipment must be repaired immediately or be removed from site to facilitate repair;</li> <li>Workshop areas must be monitored for oil and fuel spills;</li> <li>Appropriately sized spill kit kept onsite relevant to the scale of the activity taking place must be available;</li> <li>The workshop area must have a bunded concrete slab that is sloped to facilitate runoff into a collection sump or suitable oil</li> </ul> |                       |                          |                              |                    |           |

|   |  |  |  |
|---|--|--|--|
| / water separator where maintenance work on vehicles and equipment can be performed;  |  |  |  |
| - Water drainage from the workshop must be contained and managed in accordance with <b>Section 5.7: Waste water management.</b> |  |  |  |

### 5.19 Batching plants

| Impact Management Actions  |                          | Implementation               |                    |           | Monitoring             |  |  |
|--|--------------------------|------------------------------|--------------------|-----------|------------------------|--|--|
| Responsible person   | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |  |  |
| - Concrete mixing must be carried out on an impermeable surface (such as on boards and/or within a bunded area with an impermeable surface) or make a hard surface and remove when done;     |                          |                              |                    |           |                        |  |  |
| - Concrete mixing areas must be fitted with a containment facility for the collection of cement laden water. This facility must be impervious to prevent soil and groundwater contamination; |                          |                              |                    |           |                        |  |  |
| - Bagged cement must be stored in an appropriate facility and at least 10 m away from any water courses, gullies and drains;   |                          |                              |                    |           |                        |  |  |
| - A washout facility must be provided for washing of concrete associated equipment. Water used for washing must be restricted;   |                          |                              |                    |           |                        |  |  |
| - Hardened concrete from the washout facility or concrete mixer can either be reused or disposed of at an appropriate licenced disposal facility;  |                          |                              |                    |           |                        |  |  |

|  |  |
|--|--|
| - Empty cement bags must be secured with adequate binding material if these will be temporarily stored on site;  |  |
| - Sand and aggregates containing cement must be kept damp to prevent the generation of dust (Refer to <b>Section 5.20: Dust emissions</b> )                  |  |
| - Any excess sand, stone and cement must be removed or reused from site on completion of construction period and disposed at a registered disposal facility; |  |
| - Temporary fencing must be erected around batching plants in accordance with Section 5.5: <b>Fencing and gate installation.</b>                             |  |

#### 5.20 Dust emissions

**Impact management outcome:** dust prevention measures are applied to minimise the generation of dust.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Take all reasonable measures to minimise the generation of dust as a result of project development activities to the satisfaction of the ECO;</li> <li>- Removal of vegetation must be avoided until such time as soil stripping is required and similarly exposed surfaces must be vegetated or stabilised as soon as is practically possible;</li> <li>- Excavation, handling and transport of erodible materials must be avoided under high wind conditions or when a visible dust plume is present;</li> </ul> |                    |                          |                              |                    |           |                        |

|   |  |  |  |   |
|---|--|--|--|---|
|   |  |  |  |   |
| <ul style="list-style-type: none"> <li>– During high wind conditions, the ECO will evaluate the situation and make recommendations as to whether dust-damping measures are adequate, or whether working will cease altogether until the wind speed drops to an acceptable level;</li> <li>– Where possible, soil stockpiles must be located in sheltered areas where they are not exposed to the erosive effects of the wind;</li> <li>– Where erosion of stockpiles becomes a problem, erosion control measures must be implemented at the discretion of the ECO;</li> <li>– Vehicle speeds must not exceed 40km/h along dust roads or 20km/h when traversing unconsolidated and non-vegetated areas;</li> <li>– Appropriate dust suppression measures must be used when dust generation is unavoidable, e.g. dampening with water, particularly during prolonged periods of dry weather in summer. Such measures must also include the use of temporary stabilising measures (e.g. chemical soil binders, straw brush packs, chipping);</li> <li>– Straw stabilisation must be applied at a rate of one bale/10m<sup>2</sup> and harrowed into the top 100 mm of top material, for all completed earthworks;</li> <li>– For significant areas of excavation or exposed ground, spray water or wet areas using trucks to minimise the spread of dust.</li> </ul> |  |  |  | <p><b>Impact management outcome:</b> impact to the environment is minimised through a safe blasting practice.</p> |

### 5.21 Blasting

| Impact Management Actions |  | Implementation     |                          | Monitoring                   |                        |
|---------------------------|--|--------------------|--------------------------|------------------------------|------------------------|

| Responsible person               | Method of implementation | Timeframe for implementation | Responsible person | Frequency         | Evidence of compliance |

|   |
|---|
| <ul style="list-style-type: none"> <li>- All material that is excavated during the project development phase (either during piling (if required) or earthworks) must be stored appropriately on site in order to minimise impacts to watercourses, wetlands and water bodies;</li> <li>- All stockpiled material must be maintained and kept clear of weeds and alien vegetation growth by undertaking regular weeding and control methods;</li> <li>- Stockpiles must not exceed 2 m in height;</li> <li>- During periods of strong winds and heavy rain, the stockpiles should be covered with appropriate material (e.g. cloth, tarpaulin etc.);</li> <li>- Where possible, sandbags (or similar) should be placed at the bases of the stockpiled material in order to prevent erosion of the material.</li> </ul> |
|---|

### 5.25 Finalising tower positions

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- No vegetation clearing must occur during survey and pegging operations;</li> <li>- No new access roads must be developed to facilitate access for survey and pegging purposes;</li> <li>- Project manager, botanical specialist and contractor to agree on final tower positions based on survey within assessed and approved areas;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |  |  |  |
|--|--|--|--|
| - The surveyor is to demarcate (peg) access roads/tracks in consultation with ECO. No deviations will be allowed without the prior written consent from the ECO. |  |  |  |
|--|--|--|--|

#### 5.26 Installation of foundations

**Impact management outcome:** No environmental degradation occurs as a result of the survey and pegging operations.

| Impact Management Actions  |                          | Implementation               |                    | Monitoring |                        |
|--|--------------------------|------------------------------|--------------------|------------|------------------------|
| Responsible person   | Method of implementation | Timeframe for implementation | Responsible person | Frequency  | Evidence of compliance |
| - Batching of cement to be undertaken in accordance with <b>Section 5.19: Batching;</b>              |                          |                              |                    |            |                        |
| - Residual cement must be disposed of in accordance with <b>Section 5.8: Solid Waste Management.</b> |                          |                              |                    |            |                        |

#### 5.27 Assembly and erecting towers

**Impact management outcome:** No environmental degradation occurs as a result of assembly and erecting of towers.

| Impact Management Actions  |                          | Implementation               |                    | Monitoring |                        |
|--|--------------------------|------------------------------|--------------------|------------|------------------------|
| Responsible person   | Method of implementation | Timeframe for implementation | Responsible person | Frequency  | Evidence of compliance |
| - Prior to erection, assembled towers and tower sections must be stored on elevated surface (suggest wooden blocks) to minimise damage to the underlying vegetation; |                          |                              |                    |            |                        |

|   |  |
|---|--|
| <ul style="list-style-type: none"> <li>– In sensitive areas, tower assembly must take place off-site or away from sensitive positions;</li> <li>– The crane used for tower assembly must be operated in a manner which minimises impact to the environment;</li> <li>– The number of crane trips to each site must be minimised;</li> <li>– Wheeled cranes must be utilised in preference to tracked cranes;</li> <li>– Consideration must be given to erecting towers by helicopter or by hand where it is warranted to limit the extent of environmental impact;</li> <li>– Access to tower positions to be undertaken in accordance with access requirements specified in Section 8.4: Access Roads;</li> <li>– Vegetation clearance to be undertaken in accordance with general vegetation clearance requirements specified in Section 8.10: Vegetation clearing;</li> <li>– No levelling at tower sites must be permitted unless approved by the Development Project Manager or Developer Site Supervisor;</li> <li>– Topsoil must be removed separately and stored for later use during rehabilitation of such tower sites;</li> <li>– Topsoil must be stored in heaps not higher than 1m to prevent destruction of the seed bank within the topsoil;</li> <li>– Excavated slopes must be no greater than 1:3, but where this is unavoidable, appropriate measures must be undertaken to stabilise the slopes;</li> <li>– Fly rock from blasting activity must be minimised and any pieces greater than 150 mm falling beyond the Working Area, must be collected and removed;</li> <li>– Only existing disturbed areas are utilised as spoil areas;</li> </ul> |  |
|---|--|

|  |
|--|
| <ul style="list-style-type: none"> <li>– Drainage is provided to control groundwater exit gradient with the spill areas such that migration of fines is kept to a minimum;</li> <li>– Surface water runoff is appropriately channeled through or around spoil areas;</li> <li>– During backfilling operations, care must be taken not to dump the topsoil at the bottom of the foundation and then put spoil on top of that;</li> <li>– The surface of the spoil is appropriately rehabilitated in accordance with the requirements specified in Section 5.29: Landscaping and rehabilitation;</li> <li>– The retained topsoil must be spread evenly over areas to be rehabilitated and suitably compacted to effect re-vegetation of such areas to prevent erosion as soon as construction activities on the site is complete. Spreading of topsoil must not be undertaken at the beginning of the dry season.</li> </ul> |
|--|

## 5.28 Stringing

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| – Where possible, previously disturbed areas must be used for the siting of winch and tensioner stations. In all other instances, |                    |                          |                              |                    |           |                        |

|  |
|--|
| <p>the siting of the winch and tensioner must avoid No-Go areas and other sensitive areas;</p> <ul style="list-style-type: none"> <li>– The winch and tensioner station must be equipped with drip trays in order to contain any fuel, hydraulic fuel or oil spills and leaks;</li> <li>– Refueling of the winch and tensioner stations must be undertaken in accordance with Section 5.17: Hazardous substances;</li> <li>– In the case of the development of overhead transmission and distribution infrastructure, a one metre "trace-line" may be cut through the vegetation for stringing purposes only and no vehicle access must be cleared along "trace-lines". Vegetation clearing must be undertaken by hand, using chainsaws and hand held implements, with vegetation being cut off at ground level. No tracked or wheeled mechanised equipment must be used;</li> <li>– Alternative methods of stringing which limit impact to the environment must always be considered e.g. by hand or by using a helicopter;</li> <li>– Where the stringing operation crosses a public or private road or railway line, the necessary scaffolding/ protection measures must be installed to facilitate access. If, for any reason, such access has to be closed for any period(s) during development, the persons affected must be given reasonable notice, in writing;</li> <li>– No services (electrical distribution lines, telephone lines, roads, railways lines, pipelines fences etc.) must be damaged because of stringing operations. Where disruption to services is unavoidable, persons affected must be given reasonable notice, in writing;</li> </ul> |
|--|

|   |  |  |
|---|--|--|
| - Where stringing operations cross cultivated land, damage to crops is restricted to the minimum required to conduct stringing operations, and reasonable notice (10 work days minimum), in writing, must be provided to the landowner; |  |  |
| - Necessary scaffolding protection measures must be installed to prevent damage to the structures supporting certain high value agricultural areas such as vineyards, orchards, nurseries.  |  |  |

#### 5.29 Temporary closure of site

| Impact Management Actions   | Implementation     |                          |                              | Monitoring             |           |
|---|--------------------|--------------------------|------------------------------|------------------------|-----------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person     | Frequency |
| <ul style="list-style-type: none"> <li>- Bunds must be emptied (where applicable);</li> <li>- Hazardous storage areas must be well ventilated;</li> <li>- Fire extinguishers must be serviced and accessible. Service records to be filed and audited at last service;</li> <li>- Emergency and contact details displayed must be displayed;</li> <li>- Security personnel must be briefed and have the facilities to contact or be contacted by relevant management and emergency personnel;</li> <li>- Night hazards such as reflectors, lighting, traffic signage etc. must have been checked;</li> <li>- Fire hazards identified and the local authority must have been notified of any potential threats e.g. large brush stockpiles, fuels etc.;</li> <li>- Structures vulnerable to high winds must be secured;</li> </ul> |                    |                          |                              | Evidence of compliance |           |

|  |  |  |  |
|--|--|--|--|
| <ul style="list-style-type: none"> <li>- Wind and dust mitigation must be implemented;</li> <li>- Cement and materials stores must have been secured;</li> <li>- Toilets must have been emptied and secured;</li> <li>- Refuse bins must have been emptied and secured;</li> <li>- Drip trays must have been emptied and secured.</li> </ul> |  |  |  |
|--|--|--|--|

### 5.30 Landscaping and rehabilitation

| Impact management outcome: No environmental degradation occurs as a result of the survey and pegging operations.   |                    |                       |                              |
|--|--------------------|-----------------------|------------------------------|
| Impact Management Actions  | Implementation     | Monitoring            |                              |
|  | Responsible person | Method implementation | Timeframe for implementation |
| <ul style="list-style-type: none"> <li>- All areas disturbed by construction activities must be subject to landscaping and rehabilitation;</li> <li>- All spoil and waste will be disposed to a registered waste site and certificates of disposal provided;</li> <li>- All slopes in excess of 2% (1:50) must be contoured in accordance with the Conservation of Agricultural Resources Act, No 43 of 1983;</li> <li>- All slopes in excess of 12% (1:8.3) must be terraced in accordance with the Conservation of Agricultural Resources Act, No 43 of 1983;</li> <li>- Berms that have been created should have a slope of 1:4 and be replanted with indigenous species and grasses;</li> <li>- Where new access roads have crossed cultivated farmlands, that lands must be rehabilitated by tipping to a minimum depth of 600 mm;</li> </ul> |                    |                       | Evidence of compliance       |

|   |
|---|
| <ul style="list-style-type: none"> <li>- Rehabilitation of tower sites and access roads outside of farmland;</li> <li>- Indigenous species will be used for replanting;</li> <li>- Stockpiled topsoil must be used for rehabilitation (refer to Section 5.23: <b>Stockpiling and stockpiled areas</b>);</li> <li>- Stockpiled topsoil will be evenly spread so as to facilitate seeding and minimise loss of soil due to erosion;</li> <li>- Before placing topsoil, all visible weeds from the placement area and from the topsoil must be removed;</li> <li>- Subsoil must be ripped before topsoil is placed;</li> <li>- The project must be timed so that rehabilitation can take place at the optimal time for vegetation establishment;</li> <li>- Where impacted through construction related activity, all sloped areas must be stabilised to ensure proper rehabilitation is effected and erosion is controlled as per the instruction from the ECO;</li> <li>- Sloped areas stabilised using design structures or vegetation as specified in the design to prevent erosion of embankments. The contract design specifications must be adhered to and implemented strictly;</li> <li>- Where required, re-vegetation can be enhanced using a vegetation seed mixture as described below. A mixture of seed can be used provided the mixture is carefully selected to ensure the following: <ul style="list-style-type: none"> <li>a) Annual and perennial plants are chosen;</li> <li>b) Pioneer species are included;</li> <li>c) Species chosen must grow in the area feasible to grow;</li> <li>d) Root systems must have a binding effect on the soil;</li> <li>e) The final product should not cause an ecological imbalance in the area</li> </ul> </li> </ul> |
|---|

**ACCESS TO THE GENERIC EMPR****6**

Once completed and signed, to allow the public access to the generic EMPr, the holder of the EA must make the EMPr available to the public in accordance with regulation 26 (h) of the Environmental Impact Assessment Regulations, 2014.

**PART B: SECTION 2****7 SITE SPECIFIC INFORMATION AND DECLARATION****7.1 Sub-section 1: contact details and description of the project**

7.1.1 Details of the applicant:

Name of applicant:

Tel No:

Fax No:

Postal Address:

Physical Address:

7.1.2 Details and expertise of the EAP:

Name of applicant:

Tel No:

Fax No:

E-mail address:

Expertise of the EAP (Curriculum Vitae included):

7.1.3 Project name:

7.1.4 Description of the project:

7.1.5 Project location:

| NO | FARM NAME( if applicable) | FARM NUMBER( if applicable) | PORTION NAME | PORTION NUMBER | LATITUDE | LONGITUDE |
|----|---------------------------|-----------------------------|--------------|----------------|----------|-----------|
|    |                           |                             |              |                |          |           |
|    |                           |                             |              |                |          |           |
|    |                           |                             |              |                |          |           |

7.1.6 Preliminary technical specification of the overhead transmission and distribution:

- Length
- Tower parameters
  - Number and types of towers
  - Tower spacing (mean and maximum)
  - Tower height (lowest, mean and height)
  - Conductor attachment height (mean)
  - Minimum ground clearance

## 7.2 Sub-section 2: Development footprint site map

This sub-section must include a map of the site sensitivity overlaid with the preliminary infrastructure layout. Once the web-based screening tool identified in regulation 16(1) (v) of the Environmental Impact Assessment Regulations, 2014 is available, the sensitivity map must be prepared from this system. The map is to indicate areas/features of sensitivity based on the findings of the assessment and illustrated according to four tiers, Very High, High, Medium or Low. The sensitivity map shall also identify the nature of each sensitive feature e.g. raptor nest, threatened plant species, archaeological site, etc. Sensitivity maps shall identify features both within the planned working area and any known sensitive features in the surrounding landscape. The overhead transmission and distribution profile shall be illustrated at an appropriate resolution to enable fine scale interrogation. It is recommended that <20 km of overhead transmission and distribution length is illustrated per page in A3 landscape format. Where considered appropriate, photographs of sensitive features in the context of tower positions shall be used.

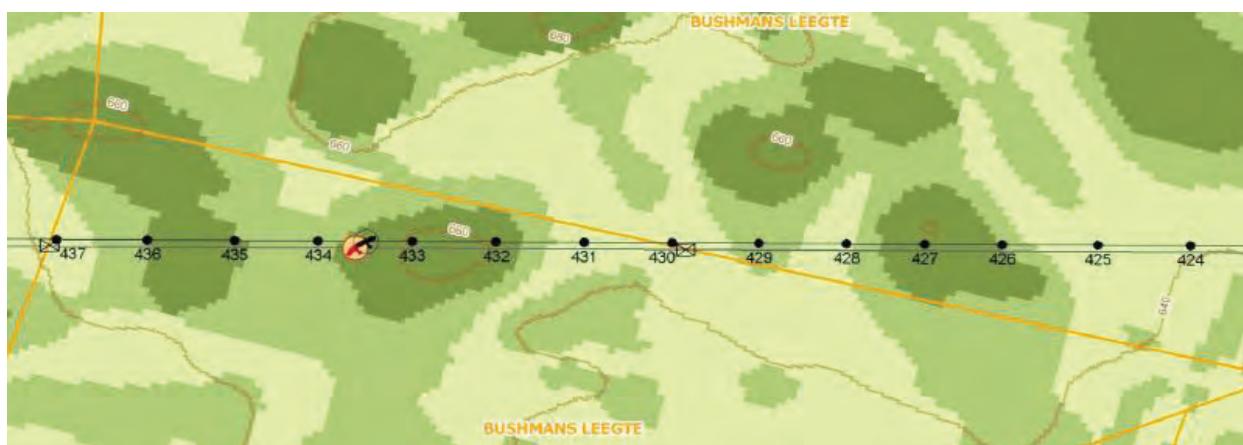

Figure 1: Example of an environmental sensitivity map in the context of a final overhead transmission and distribution profile

## 7.3 Sub-section 3: Declaration

The proponent or applicant or holder of EA affirms that they will abide and comply with the prescribed impact management outcomes and actions as stipulated in part B: section 1 of the generic EMPr and have the understanding that the impact management outcomes and actions are legally binding.

Signature Proponent/applicant/holder of EA

Date:

**7.4 Sub-section 4: amendments to site specific information (Part B; section 2)**

Should the EA be transferred, Part B: Section 2 must be completed by the new applicant and submitted with the application for amendment of the EA in terms of regulations 29 or 31 of the Environmental Impact Assessment Regulations, 2014. The information submitted for an amendment to an environmental authorization will be considered to be incomplete should a signed copy of Part B: Section 2 not be submitted. Once approved, Part B: Section 2 forms part of the EMPr for the development and the EMPr becomes legally binding to the new EA holder.

**PART C****8 SITE SPECIFIC ENVIRONMENTAL ATTRIBUTES**

If any specific environmental sensitivities/attributes are present on the site which require more specific impact management outcomes and actions not included in the pre-approved generic EMPr template to manage impacts, those impact management outcomes and actions must be included in this section. These specific management controls must be referenced spatially, and must include impact management outcomes and actions. The management controls including impact management outcomes and actions must be presented in the format of the pre-approved generic EMPr template. This applies only to additional impact management outcomes and actions that are necessary.

If Part C is applicable to the site, it is required to be submitted to the CA for approval prior to commencement of the activity. The information in this section must be prepared by an EAP and the name and expertise of the EAP, including the curriculum vitae are to be included. Once approved, Part C forms part of the EMPr for the site and is legally binding.

This section will **not be required** should the site contain no specific environmental sensitivities or attributes.

**APPENDIX 1: METHOD STATEMENTS**

To be prepared by the contractor prior to commencement of the activity. The method statements are **not required** to be submitted to the CA.

## DEPARTMENT OF ENVIRONMENTAL AFFAIRS

NO. 163

02 MARCH 2018

**NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998  
(ACT NO. 107 OF 1998)****CONSULTATION ON THE GENERIC ENVIRONMENTAL MANAGEMENT PROGRAMME RELEVANT  
TO AN APPLICATION FOR AN ENVIRONMENTAL AUTHORISATION FOR SUBSTATION  
INFRASTRUCTURE FOR THE TRANSMISSION AND DISTRIBUTION OF ELECTRICITY**

I, Bomo Edna Edith Molewa, Minister of Environmental Affairs, hereby publish for public comment, in terms of section 24(5) of the National Environmental Management Act, 1998 (Act No. 107 of 1998), regulations 19(4) and 23(4) of the Environmental Impact Assessment Regulations, 2014 and Appendix 4 to the regulations, the draft Generic Environmental Management Programme relevant to an application for substation infrastructure for the transmission and distribution of electricity, which require an environmental authorisation for activity 11 or 47 of Environmental Impact Assessment Regulations Listing Notice 1 or for activity 9 of Environmental Impact Assessment Regulations Listing Notice 2, or any other listed and specified activity necessary for the realisation of such infrastructure, as set out in the Schedule hereto.

Members of the public are invited to submit to the Minister, within 45 days from the date of the publication of this Notice in the *Gazette*, written comments or inputs to the following addresses:

By post to: The Director-General:  
Department of Environmental Affairs  
Attention: Mr Alfred Mocheko  
Private Bag X447  
Pretoria  
0001

By hand at: Reception, Environment House, 473 Steve Biko Road, Arcadia, Pretoria, 0083

By e-mail: [amocheko@environment.gov.za](mailto:amocheko@environment.gov.za)

Any inquiries in connection with the Notice can be directed to Mr Alfred Mocheko at 012 399 9315.

Comments received after the closing date will not be considered.

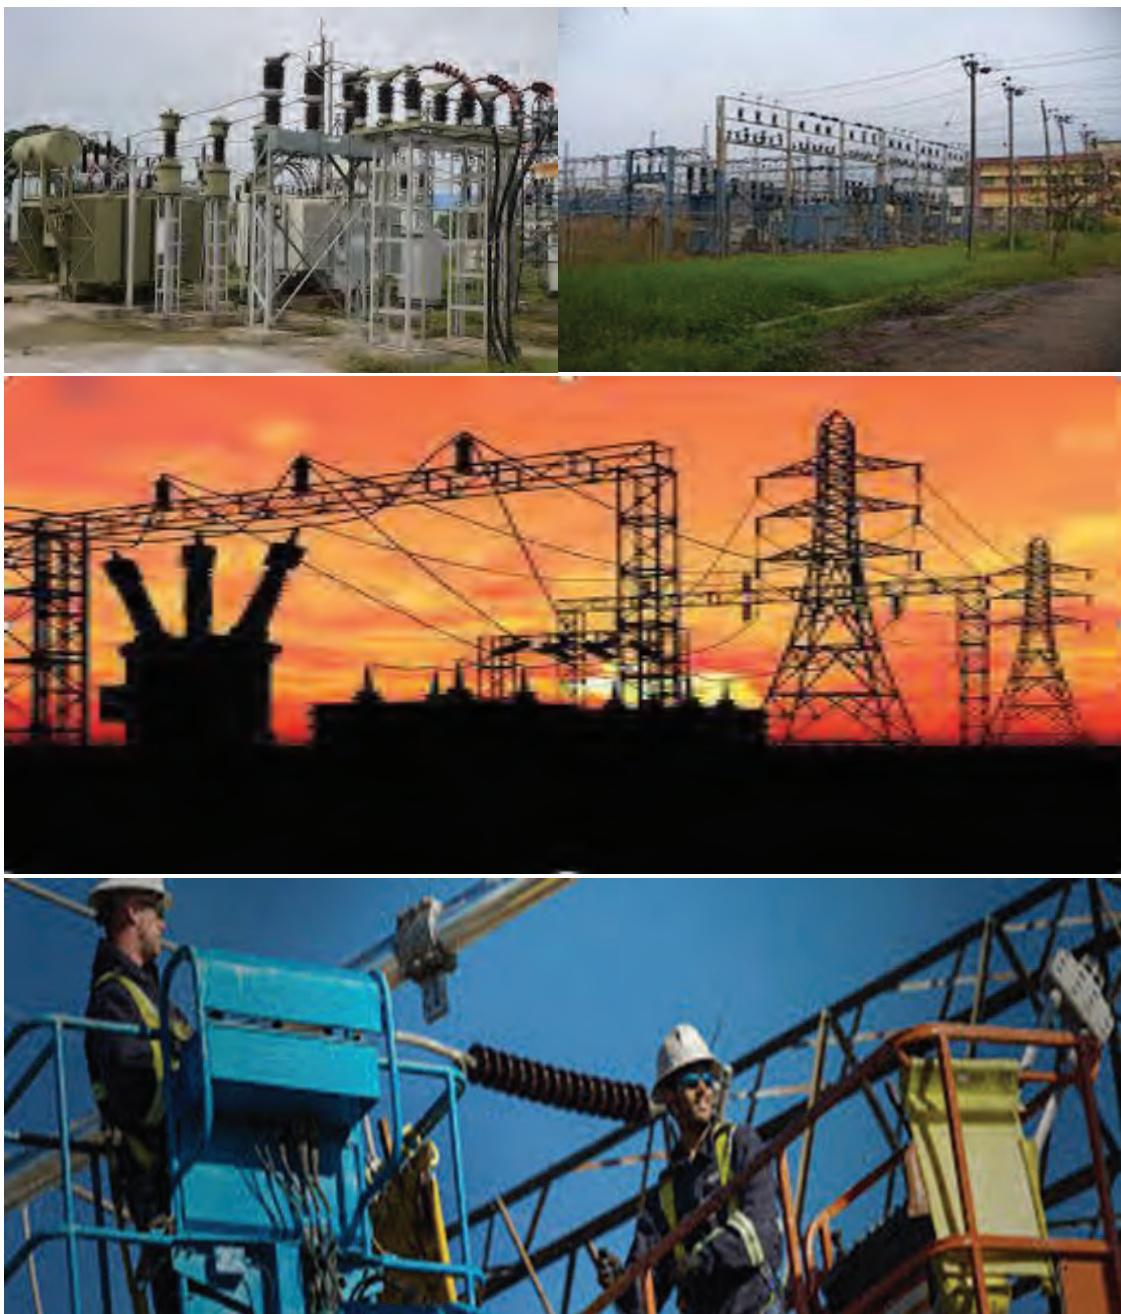

BOMO EDNA EDITH MOLEWA  
MINISTER OF ENVIRONMENTAL AFFAIRS

## SCHEDULE

An applicant for an environmental authorisation for substation infrastructure for the transmission and distribution of electricity, when such facilities trigger—

- activity 11 or 47 of Environmental Impact Assessment Regulations Listing Notice 1 of 2014 and any other listed and specified activities necessary for the realisation of such facilities; or
- activity 9 of Environmental Impact Assessment Regulations Listing Notice 2 of 2014; or
- any other listed or specified activities necessary for the realisation of such facilities;

must use the generic Environmental Management Programme, contemplated in regulations 19(4), 23(4) and Appendix 4 to the Environmental Impact Assessment Regulations, 2014. The draft Generic Environmental Management Programme is set out in Appendix 1.

**APPENDIX 1****ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) FOR THE  
DEVELOPMENT AND EXPANSION OF SUBSTATION INFRASTRUCTURE FOR THE  
TRANSMISSION AND DISTRIBUTION OF ELECTRICITY****environmental affairs**

## INTRODUCTION

### 1. Background

The National Environmental Management Act 107 of 1998 (NEMA) requires that an environmental management programme (EMPr) be submitted where an environmental impact assessment (EIA) has been identified as the environmental instrument to be utilised as the basis for a decision on an application for environmental authorisation (EA). The content of an EMPr must either contain the information set out in Appendix 4 of the EIA Regulations, 2014, or must be a generic EMPr relevant to an application as identified and gazetted by the Minister in a government notice. Once the Minister has identified, through a government notice that a generic EMPr is relevant to an application for EA, that generic EMPr must be applied by all parties involved in the EA process, including but not limited to the applicant, environmental assessment practitioner and the competent authority (CA).

### 2. Purpose

This document constitutes a generic EMPr relevant to applications for EA for the development or expansion of substation infrastructure for the transmission and distribution of electricity and all listed and specified activities necessary for the realisation of such infrastructure.

### 3. Objective

The objective of this generic EMPr is to prescribe and pre-approve generally accepted impact management outcomes and actions which can commonly and repeatedly be used for the avoidance, management and mitigation of impacts and risks associated with the development and expansion of substation infrastructure for the transmission and distribution of electricity. The use of a generic EMPr is intended to reduce the need to prepare and review individual EMPrs for applications of a similar nature.

### 4. Scope

The scope of this generic EMPr applies to the development or expansion of substation infrastructure for the transmission and distribution of electricity requiring EA in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), i.e. with a capacity of 33 kilovolts or more. This generic EMPr applies to activities requiring EA, mainly activity 11 and 47 of the EIA Regulations Listing Notice 1 of 2014 and activity 9 of the EIA Regulations Listing Notice 2 of 2014, and all associated listed or specified activities necessary for the realization and expansion of such infrastructure.

## 5. Structure of this document

This document is structured in three parts with an Appendix as indicated in the table below:

| Part | Section | Heading  | Content  |
|------|---------|--|--|
| A    |         | Provides general guidance and information and is not legally binding | Definitions, acronyms, roles & responsibilities and documentation and reporting.   |
| B    | 1       | Pre-approved EMPr template   | <p>Contains generally accepted impact management outcomes and actions required for the avoidance, management and mitigation of impacts and risks associated with the development or expansion of substation infrastructure for the transmission and distribution of electricity, which are presented in the form of a template that has been pre-approved.</p> <p>The template in this section is to be completed by the contractor, with each completed page signed and dated by the holder of the EA prior to commencement of the activity.</p> <p>Once completed and signed, the template represents the EMPr for the activity approved by the CA and is legally binding. The template <b>is not required</b> to be submitted to the CA and <b>does not</b> need approval. Once the generic EMPr is gazetted for implementation, it has been approved by the CA.</p> <p>To allow interested and affected parties access to the pre-approved EMPr template for consideration through the authorisation process, the applicant (s)/proponent(s) or the EAP on behalf of the applicant/proponent must make the location of the document known to the potential registered interested and affected parties. Should the potential registered interested and affected parties not have access to electronic media, the applicant (s) or EAP must make a hard copy available at a public location.</p> |
|      | 2       | Site specific information  | Contains preliminary infrastructure layout and a declaration that the applicant/holder of the EA will comply with the pre-approved generic EMPr template contained in <u>Part B: Section 1</u> , and understands that the impact   |

| Part | Section | Heading                                | Content  |
|------|---------|--|--|
|      |         |  | <p>management outcomes and actions are legally binding. The preliminary infrastructure layout must be finalized to inform final EMPr that is to be submitted with BAR or EIAR before commencement, ensuring that all impact management outcomes and actions have been either pre-approved or approved in terms of <u>Part C</u>.</p> <p>This section <b>must be</b> submitted to the CA as part of the BAR or EIAR, for consideration of, and decision on, the application for EA. The information submitted for EA will be considered to be incomplete should a signed copy of <u>Part B: section 2</u> not be submitted. Once approved, this Section forms part of the EMPr for the site and is legally binding.</p>   |
| C    |         | Site specific sensitivities/attributes | <p>If any specific environmental sensitivities/attributes are present on the site which require site specific impact management outcomes and actions not included in the pre-approved generic EMPr to manage impacts, these specific impact management outcomes and actions must be included in this section. These specific environmental attributes must be referenced spatially and impact management outcomes and actions must be provided. These specific impact management outcomes and actions must be presented in the format of the pre-approved EMPr template (<u>Part B: section 1</u>)</p> <p>If <u>Part C</u> is applicable to the site, it <b>is required</b> to be submitted as part of the BAR or EIAR, for consideration of, and decision on, the application for EA. The information in this section must be prepared by an EAP and the name and expertise of the EAP, including the curriculum vitae are to be included. Once approved, Part C forms part of the EMPr for the site and is legally binding.</p> <p>This section applies only <b>to additional</b> impact management outcomes and actions that are necessary for the avoidance, management and mitigation of impacts and risks associated</p> |

| Part | Section    | Heading | Content   |
|------|------------|---------|---|
|      |            |         | <p>with the specific development and which are not already included or adequately addressed in <u>Part B: section 1</u>.</p> <p>This section will <b>not be required</b> should the site contain no specific environmental sensitivities or attributes.</p> |
|      | Appendix 1 |         | <p>Contains the method statements to be prepared prior to commencement of the activity. The method statements are <b>not required</b> to be submitted to the competent authority.</p>   |

#### 6. Completion of part B – section 1: the pre-approved generic EMPr template

The template is to be completed prior to commencement of the activity, by providing the following information for each impact management action:

- For implementation
  - a 'responsible person',
  - a method for implementation,
  - a timeframe for implementation
- For monitoring
  - a responsible person
  - frequency
  - evidence of compliance.

The completed template must be signed and dated by the holder of the EA prior to commencement of the activity. The method statements prepared and agreed to by the holder of the EA must be appended to the template as Appendix 1. Each method statement must be signed and dated on each page by the holder of the EA. This template once signed and dated is legally binding. The holder of the EA will remain responsible for its implementation.

#### 7. Amendments of the impact management outcomes and actions

Once the activity has commenced a holder of an EA may make amendments to the impact management outcome and actions in the following manner:

- Amendment of the impact management outcomes – in line with regulation 37 of the EIA Regulation, 2014
- Amendment of the impact management actions – in line with regulation 36 of the EIA Regulations, 2014

## 8. Documents to be submitted as part of part B – section 2: site specific information and declaration

Part B: Section 2 has three distinct sub-sections. The first and third sub-sections are in a template format. Sub-section 2 requires a map to be produced.

Sub-section 1 contains the project name, the applicants name and details, the site information which includes coordinates of the property or farm in which the proposed substation infrastructure for the transmission and distribution of electricity is proposed as well as the 21-digit Surveyor General code of each cadastral land parcel and where available the farm name.

Sub-section 2 is to be prepared by an EAP/ or an applicant in the case of exemption, and must contain his/her name and expertise including a curriculum vitae. This sub-section must include a map of the site sensitivity overlaid with the preliminary infrastructure layout. Once the web-based environmental screening tool identified in regulation 16(1)(v) of the EIA Regulations, 2014 is available, the sensitivity map must be prepared from this system. The map is to indicate areas/features of sensitivity based on the findings of the assessment and illustrated according to four tiers, Very High, High, Medium or Low. The sensitivity map shall also identify the nature of each sensitive feature e.g. raptor nest, threatened plant species, archaeological site, etc. Sensitivity maps shall identify features both within the planned working area and any known sensitive features in the surrounding landscape.

Sub-section 3 is the declaration that the applicant (s)/proponent(s) or holder of the EA in the case of a change of ownership must complete which confirms that the applicant/ or EA holder will comply with the 'pre-approved generic EMPr template' in Section 1 and understands that the impact management outcomes and actions are legally binding.

### (i) Amendments to Part B – Section 2: site specific information and declaration

Should the EA be transferred, Part B: Section 2 must be completed by the new applicant/proponent and submitted with the application for amendment of the EA in terms of regulations 29 or 31 of the EIA Regulations, 2014. The information submitted for an amendment to an EA will be considered to be incomplete should a signed copy of Part B: Section 2 not be submitted. Once approved, Part B: Section 2 forms part of the EMPr for the site and the EMPr becomes legally binding to the new EA holder once the amendment process has been concluded.

**PART A – GENERAL INFORMATION****1. DEFINITIONS**

In these EMPr any word or expression to which a meaning has been assigned in the NEMA or EIA regulations has that meaning, and unless the context requires otherwise –

**Clearing** means the clearing and removal of vegetation, whether partially or in whole, including trees and shrubs, as specified;

**Contractor** - The Contractor has overall responsibility for ensuring that all work, activities, and actions linked to the delivery of the contract, are in line with the Environmental Management Programme and that Method Statements are implemented as described;

**Construction camp** is the area designated for key construction infrastructure and services, including but not limited to offices, overnight vehicle parking areas, stores, the workshop, stockpile and lay down areas, hazardous storage areas (including fuels), the batching plant (if one is located at the construction camp), designated access routes, equipment cleaning areas and the placement of staff accommodation, cooking and ablution facilities, waste and wastewater management;

**Method Statement** means a written submission by the Contractor to the Project Manager in response to this EMPr or a request by the Project Manager and ECO. The Method Statement must set out the equipment, materials, labour and method(s) the Contractor proposes using to carry out an activity identified by the Project Manager when requesting the Method Statement. This must be done in such detail that the Project Manager and ECO is able to assess whether the Contractor's proposal is in accordance with this specification and/or will produce results in accordance with this specification;

The Method Statement shall cover applicable details with regard to:

- (i) Construction procedures;
- (ii) Plant, materials and equipment to be used;
- (iii) Transporting the equipment to and from site;
- (iv) How the plant/ material/ equipment will be moved while on site;
- (v) How and where the plant/ material/ equipment will be stored;
- (vi) The containment (or action to be taken if containment is not possible) of leaks or spills of any liquid or material that may occur;
- (vii) Timing and location of activities;
- (viii) Compliance/ non-compliance; and
- (ix) Any other information deemed necessary by the Project Manager.

**Hazardous Substances** is a substance governed by the Hazardous Substances Act, 1973 (Act No. 15 of 1973) as well as the Hazardous Chemical and Substances Regulations, 1995;

**Slope** means the inclination of a surface expressed as one unit of rise or fall for so many horizontal units;

**Solid waste** means all solid waste, including construction debris, hazardous waste, excess cement/concrete, wrapping materials, timber, cans, drums, wire, nails, food and domestic waste (e.g. plastic packets and wrappers);

**Spoil** means excavated material which is unsuitable for use as material in the construction works or is material which is surplus to the requirements of the construction works;

**Topsoil** means a varying depth (up to 300 mm) of the soil profile irrespective of the fertility, appearance, structure, agricultural potential, fertility and composition of the soil;

**Works** means the Works to be executed in terms of the Contract

## 2. ACRONYMS and ABBREVIATIONS

### 3. ROLES AND RESPONSIBILITIES FOR ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) IMPLEMENTATION

The effective implementation of this EMPr is dependent on established and clear roles, responsibilities and reporting lines within an institutional framework. This section of the EMPr gives guidance to the various environmental roles and reporting lines.

Table 1: Guide to roles and responsibilities for implementation of an EMPr

| <b>Function</b>                   | <b>Role and Responsibilities</b>   |
|-----------------------------------|--|
| Developer's Project Manager (DPM) | <p><u>Role</u></p> <p>The Project Developer is accountable for ensuring compliance with the EMPr and any conditions of approval from the CA. An environmental control officer (ECO) must be contracted by the Project Developer to objectively monitor the implementation of the EMPr, and the conditions of EA. The Project Developer is further responsible for providing and giving mandate to enable the ECO to perform responsibilities, and he must ensure that the ECO is integrated as part of the project team while remaining independent.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Be fully conversant with the conditions of the EA;</li> <li>- Ensure that all stipulations within the EMPr are communicated and adhered to by the Developer and its Contractor(s);</li> <li>- Monitor the implementation of the EMPr throughout the project by means of site inspections and meetings. Overall management of the project and EMPr implementation; and</li> <li>- Ensure that periodic environmental performance audits are undertaken on the project implementation.</li> </ul> |
| Developer Site Supervisor (DSS)   | <p><u>Role</u></p> <p>The DSS reports directly to the DPM, oversees site works, liaises with the contractor(s) and the ECO. The DSS is responsible for the day to day implementation of the EMPr and for ensuring the compliance of all contractors with the conditions and requirements stipulated in the EMPr.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Ensure that all contractors identify a contractor's Environmental Officer (eEO);</li> </ul>   |

| Function | Role and Responsibilities   | Role and Responsibilities   |
|----------|---|---|
|          | <ul style="list-style-type: none"> <li>- Must be fully conversant with the conditions of the EA. Oversees site works, liaison with Contractor, DPM and ECO;</li> <li>- Must ensure that all landowners have the relevant contact details of the site staff, ECO and CEO;</li> <li>- Will issue all non-compliances to contractors; and</li> <li>- Ratify the Monthly Environmental Report.</li> </ul> | <p><b>Role</b></p> <p>The ECO should be employed by the developer for the duration of the project. The ECO should have appropriate training and experience in the implementation of environmental management specifications. In this respect, the ECO is to conduct periodic site inspections, attend regular site meetings, pre-empt problems and suggest mitigation and be available to advice on incidental issues that arise. The ECO is also required to conduct compliance audits, verifying the monitoring reports submitted by the CEO. The ECO provides feedback to the DSS and Project Manager regarding all environmental matters. The Contractor, CEO and dEO are answerable to the ECO for non-compliance with the Performance Specifications as set out in the EA and EMPr.</p> <p>The ECO provides feedback to the DSS and Project Manager, who in turn reports back to the Implementing Agent and potential and Registered Interested &amp; Affected Parties' (R&amp;AP's), as required. Issues of non-compliance raised by the ECO must be taken up by the Project Manager, and resolved with the Contractor as per the conditions of his contract. Decisions regarding environmental procedures, specifications and requirements which have a cost implication (i.e. those that are deemed to be a variation, not allowed for in the Performance Specification) must be endorsed by the Project Manager.</p> <p>The ECO must also, as specified by the EA, report to the relevant CA as and when required.</p> <p><b>Responsibilities</b></p> <p>The responsibilities of the ECO will include the following:</p> <ul style="list-style-type: none"> <li>- Be aware of the findings and conclusions of all EA related to the development;</li> <li>- Be familiar with the recommendations and mitigation measures of this EMPr;</li> </ul> |

| Function | Role and Responsibilities   |
|----------|---|
|          | <ul style="list-style-type: none"> <li>- Be conversant with relevant environmental legislation, policies and procedures, and ensure compliance with them;</li> <li>- Undertake regular and comprehensive site inspections / audits of the construction site according to the EMPr and applicable licenses in order to monitor compliance as required;</li> <li>- Educate the construction team about the management measures contained in the EMPr and environmental licenses;</li> <li>- Compilation and administration of an environmental monitoring plan to ensure that the environmental management measures are implemented and are effective;</li> <li>- Monitoring the performance of the Contractors and ensuring compliance with the EMPr and associated Method Statements;</li> <li>- In consultation with the DSS order the removal of person(s) and/or equipment which are in contravention of the specifications of the EMPr and/or environmental licenses;</li> <li>- Liaison between the DPM, Contractors, authorities and other lead stakeholders on all environmental concerns;</li> <li>- Issuing of site instructions to the Contractor for corrective actions required;</li> <li>- Compile a regular environmental audit report highlighting any non-compliance issues as well as satisfactory or exceptional compliance with the EMPr;</li> <li>- Validating the regular site inspection reports, which are to be prepared by the CEO;</li> <li>- Checking the CEO's record of environmental incidents (spills, impacts, legal transgressions etc) as well as corrective and preventive actions taken;</li> <li>- Checking the CEO's public complaints register in which all complaints are recorded, as well as action taken;</li> <li>- Assisting in the resolution of conflicts;</li> <li>- Facilitate training for all personnel on the site – this may range from carrying out the training, to reviewing the training programmes of the Contractor and/or sub-contractors;</li> <li>- In case of non-compliances, the ECO must first communicate this to the Senior Site Supervisor, who has the power to ensure this matter is addressed. Should no action or insufficient action be taken, the ECO may report this matter to the authorities as non-compliance;</li> <li>- Maintenance, update and review of the EMPr;</li> </ul> |

| <b>Function</b>  | <b>Role and Responsibilities</b> |
|--|----------------------------------|
| <p>developer Environmental Officer (cEO)</p> <p><u>Role</u></p> <p>The dEOs will report to the Project Manager and are responsible for implementation of the EMPr, environmental monitoring and reporting, providing environmental input to the Project Manager and Contractor's Manager, liaising with contractors and the landowners as well as a range of environmental coordination responsibilities.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Communication of all modifications to the EMPr to the relevant stakeholders.</li> </ul> <p><u>Role</u></p> <p>The dEOs will report to the Project Manager and are responsible for implementation of the EMPr, environmental monitoring and reporting, providing environmental input to the Project Manager and Contractor's Manager, liaising with contractors and the landowners as well as a range of environmental coordination responsibilities.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Be fully conversant with the EMPr;</li> <li>- Be familiar with the recommendations and mitigation measures of this EMPr, and implement these measures;</li> <li>- Ensure that all stipulations within the EMPr are communicated and adhered to by the Employees, Contractor(s) and its sub-contractor(s);</li> <li>- Confine the development site to the demarcated area;</li> <li>- Conduct environmental internal audits with regards to EMPr and authorisation compliance (on cEO);</li> <li>- Assist the contractors in addressing environmental challenges on site;</li> <li>- Assist in incident management;</li> <li>- Reporting environmental incidents to developer and ensuring that corrective action is taken, and lessons learnt shared;</li> <li>- Assist the contractor in investigating environmental incidents and compile investigation reports;</li> <li>- Follow-up on pre-warnings, defects, non-conformance reports;</li> <li>- Measure and communicate environmental performance to the Contractor;</li> <li>- Conduct environmental awareness training on site together with ECO and cEO;</li> <li>- Ensure that the necessary legal permits and / or licenses are in place and up to date;</li> <li>- Acting as Developer's Environmental Representative on site and work together with the ECO and contractor;</li> <li>- Audit carried out by an independent auditor.</li> </ul> |                                  |

| <b>Function</b>                        | <b>Role and Responsibilities</b>   |
|--|--|
| Contractor                             | <p><b>Role</b></p> <p>The Contractor appoints the cEO and has overall responsibility for ensuring that all work, activities, and actions linked to the delivery of the contract are in line with the EMPr and that Method Statements are implemented as described. External contractors must ensure compliance with this EMPr while performing the onsite activities as per their contract with the Project Developer. The contractors are required, where specified, to provide Method Statements setting out in detail how the management actions contained in the EMPr will be implemented during the development or expansion of substation infrastructure for the transmission and distribution of electricity activities.</p> <p><b>Responsibilities</b></p> <ul style="list-style-type: none"> <li>- project delivery and quality control for the development services as per appointment;</li> <li>- employ a suitably qualified person to monitor and report to the Project Developer's appointed person on the daily activities on-site during the development period;</li> <li>- ensure that safe, environmentally acceptable working methods and practices are implemented and that equipment is properly operated and maintained, to facilitate proper access and enable any procedure to be carried out safely;</li> <li>- attend on site meeting(s) prior to the commencement of activities to confirm the procedure and designated activity zones;</li> <li>- ensure that contractors' staff (or sub-contractors) repair, at their own cost, any environmental damage as a result of a contravention of the specifications contained in the EMPr, to the satisfaction of the ECO.</li> </ul> |
| Contractor Environmental Officer (cEO) | <p><b>Role</b></p> <p>Each Contractor affected by the EMPr should appoint a cEO, who is responsible for the on-site implementation of the EMPr (or relevant sections of the EMPr). The Contractor's representative can be the site agent; site engineer; a dedicated environmental officer; or an independent consultant. The Contractor must ensure that the Contractor's representative is suitably qualified to perform the necessary tasks and is appointed at a level such that she/he can interact effectively with other site Contractors, labourers, the ECO and the public.</p>   |

| Function   | Role and Responsibilities |
|--|---------------------------|
| <p>The cEO ensures that all Sub-contractors working under the Contractor abide by the requirements of the EMPR. The Contractor is answerable to the Project Manager for all environmental issues associated with the project.</p> <p><u>Responsibilities</u></p> <ul style="list-style-type: none"> <li>- Be on site throughout the duration of the project and be dedicated to the project;</li> <li>- Ensure all their staff are aware of the environmental requirements, conditions and constraints with respect to all of their activities on site;</li> <li>- Implementing the environmental conditions, guidelines and requirements as stipulated within the EA, EMPr and Method Statements;</li> <li>- Attend the Environmental Site Meeting;</li> <li>- Undertaking corrective actions where non-compliances are registered within the stipulated timeframes;</li> <li>- Report back formally on the completion of corrective actions;</li> <li>- Assist the ECO in maintaining all the site documentation;</li> <li>- Prepare the site inspection reports and corrective action reports for submission to the ECO;</li> <li>- Assist the ECO with the preparing of the monthly report; and</li> <li>- Where more than one Contractor is undertaking work on site, each company appointed as a Contractor will appoint a cEO representing that company.</li> </ul> |                           |

#### 4. ENVIRONMENTAL DOCUMENTATION REPORTING AND COMPLIANCE

To ensure accountable and demonstrated implementation of the EMPr, a number of reporting systems, documentation controls and compliance mechanisms must be in place for all substation infrastructure for the transmission and distribution of electricity projects as a minimum requirement.

##### 4.1 Document control/Filing system

The holder of the EA is solely responsible for the upkeep and management of the EMPr file. At a minimum, all documentation detailed below will be stored in the EMPr file. A hard copy of all documentation must be filed, while an electronic copy may be kept where relevant. A duplicate file will be maintained in the office of the DSS (where applicable). This duplicate file will be the responsibility of the ECOs and must remain current and up-to-date. The filing system must be updated and relevant documents added as required. The EMPr file must be made available at all times on request by the CA (in terms of NEMA EIA regulation) or other relevant authorities. The EMPr file will form part of any environmental audits undertaken as prescribed in the EIA Regulations.

##### 4.2 Documentation to be available

At the outset of the project the following documents shall be placed in the filing system and be accessible at all times:

- Full copy of the signed EA from the CA in terms of NEMA, granting approval for the development or expansion;
- Copy of the generic and site specific EMPr as well as any amendments thereof;
- Copy of declaration of implementing generic EMPr and subsequent approval of site specific EMPr and amendments thereof;
- All method statements;
- Completed environmental checklists;
- Minutes and attendance register of environmental site meetings;
- An up-to-date environmental incident log;
- A copy of all instructions or directives issued;
- A copy of all corrective actions signed off. The corrective actions must be filed in such a way that a clear reference is made to the non-compliance record;
- Complaints register.

##### 4.3 Weekly Environmental Checklist

The ECOs are required to complete a Weekly Environmental Checklist. The ECOs are required to sign and date the checklist, retain a copy in the EMPr file and submit a copy of the completed checklist to the DSS on a weekly basis.

The checklists will form the basis for the Monthly Environmental Reports. Copies of all completed checklists will be attached as Annexures to the Environmental Audit Report (EAR) as required in terms of the EIA regulations, 2014.

#### 4.4 Environmental site meetings

Minutes of the environmental site meetings must be taken. The minutes must include an attendance register and will be attached to the Monthly Report that is distributed to attendees. Each set of minutes must clearly record "Matters for Attention" that will be reviewed at the next meeting.

#### 4.5 Required Method Statements

The method statement will be done in such detail that the ECOs are enabled to assess whether the contractor's proposal is in accordance with the EMPr.

The method statement shall cover applicable details with regard to:

- development procedures;
- materials and equipment to be used;
- getting the equipment to and from site;
- how the equipment/ material will be moved while on site;
- how and where material will be stored;
- the containment (or action to be taken if containment is not possible) of leaks or spills of any liquid or material that may occur;
- timing and location of activities;
- compliance/ non-compliance with the EMPr; and
- any other information deemed necessary by the ECOs.

Unless indicated otherwise by the Project Manager, the Contractor shall provide the following method statements to the Project Manager no less than 14 days prior to the commencement date of the activity:

- Site establishment – Camps, Lay-down or storage areas, satellite camps, infrastructure;
- Batch plants;
- Workshop or plant servicing;
- Handling, transport and storage of Hazardous Chemical Substance's;
- Vegetation management – Protected, clearing, aliens, felling;
- Access management – Roads, gates, crossings etc.;
- Fire plan;
- Waste management – transport, storage, segregation, classification, disposal (all waste streams);
- Social interaction – complaints management, compensation claims, access to properties etc.;
- Water – use (source, abstraction and disposal), access and all related information, crossings and mitigation;
- Emergency preparedness – Spills, training, other environmental emergencies;
- Dust and noise management methodologies;
- Fauna interaction and risk management – only if the risk was identified – wildlife interaction especially on game farms; and
- Heritage and palaeontology management.

The ECOs shall ensure that the contractors perform in accordance with these method statements. Completed method statements must be appended as Appendix 1.

#### 4.6 Environmental Incident Log (Diary)

The ECOs are required to maintain an up-to-date and current Environmental Incident Log (environmental diary). The Environmental Incident Log is a record of all environmental incidents and/or all non-compliance notice that would not be issued. An environmental incident is defined as:

- Any deviation from the listed impact management actions (listed in this EMPr) that may be addressed immediately by the ECOs. (For example a contractor's staff member littering or a drip tray that has not been emptied);
- Any environmental impact resulting from an action or activity by a contractor in contravention of the environmental stipulations and guidelines listed in the EMPr which as a single event would have a minor impact but which if cumulative and continuous would have a significant effect (for example no toilet paper available in the ablutions for an afternoon); and
- General environmental information such as road kills or injured wildlife.

The ECOs are to record all environmental incidents in the Environmental Incident Log. All incidents regardless of severity must be reported to the Developer. The Log is to be kept in the EMPr file and at a minimum the following will be recorded for each environmental incident:

- The date and time of the incident;
- Description of the incident;
- The name of the Contractor responsible;
- The incident must be listed as significant or minor;
- If the incident is listed as significant, a non-compliance notice must be issued, and recorded in the log;
- Remedial or corrective action taken to mitigate the incident; and
- Record of repeat minor offences by the same contractor or staff member.

The Environmental Incident Log will be captured in the EAR.

#### 4.7 Non-compliance

A non-compliance notice will be issued to the responsible contractor by the ECOs via the DSS or Project Manager. The non-compliance notice will be issued in writing; a copy filed in the EMPr file and will at a minimum include the following:

- Time and date of the non-compliance;
- Name of the contractor responsible;
- Nature and description of the non-compliance;
- Recommended / required corrective action; and
- Date by which the corrective action to be completed;
- The contractors shall act immediately when a notice of non-compliance is received and correct whatever is the cause for the issuing of the notice. Complaints received regarding activities on the development site pertaining to the environment shall be recorded in a dedicated register and the response noted with the date and action

taken. The ECO should be made aware of any complaints. Any non-compliance with the agreed procedures of the EMPr is a transgression of the various statutes and laws that define the manner by which the environment is managed. Failure to redress the cause shall be reported to the relevant CA for them to deal with the transgression, as it deems fit. The contractor is deemed not to have complied with the EMPr if, inter alia, there is a deviation from the environmental conditions, impact management outcomes and actions, as approved in generic and site specific EMPr as relevant as set out in the EMPr, which deviation has, or may cause, an environmental impact.

#### 4.8 Corrective action records

For each non-compliance notice issued, a documented corrective action must be recorded. On receiving a non-compliance notice from the DSS, the contractor's CEO will ensure that the corrective actions required take place within the stipulated timeframe. On completion of the corrective action the CEO is to issue a Corrective Action Report in writing to the ECOs. If satisfied that the corrective action has been completed, the ECOs are to sign-off on the Corrective Action Report, and attach the report to the non-compliance notice in the EMPr file. A corrective action is considered complete once the report signed off by the ECOs.

#### 4.9 Photographic record

A digital photographic record will be filed. The photographic record will be used to show before, during and post rehabilitation evidence of the project as well used in cases of damages claims if they arise. Each image must be dated and a brief description note attached.

The Contractor shall:

1. Allow the ECOs access to take photographs of all areas, activities and actions.

The ECOs shall keep an electronic database of photographic records which will include:

1. Pictures of all areas designated as work areas, camp areas, construction sites and storage areas taken before these areas are set up;
2. All bunding and fencing;
3. Road conditions and road verges;
4. Condition of all farm fences;
5. Topsoil storage areas;
6. All areas to be cordoned off during development;
7. Waste management sites;
8. Ablution facilities (inside and out);
9. Any non-conformances deemed to be "significant";
10. All completed corrective actions for non-compliances;
11. All required signage;
12. All areas before, during and post rehabilitation; and
13. Include relevant photographs in the final Environmental Audit Report.

#### 4.10 Complaints register

The ECOs shall keep a current and up-to-date complaints register. The complaints register is to be a record of all complaints received from communities, stakeholders and individuals. The Complaints Record shall:

1. Record the name and contact details of the complainant;
2. Record the time and date of the complaint;
3. Contain a detailed description of the complaint;
4. Where relevant and appropriate, contain photographic evidence of the complaint or damage (ECOs to take relevant photographs); and
5. Contain a copy of the ECOs written response to each complaint received and keep a record of any further correspondence with the complainant. The ECO's written response will include a description of any corrective action to be taken and must be signed by the Contractor, ECO and affected party. Where a damage claim is issued by the complainant, the ECOs shall respond as described in **(section 4.11)** below.

#### 4.11 Claims for damages

In the event that a Claim for Damages is submitted by a community, landowner or individual, the ECOs shall:

1. Record the full detail of the complaint as described in **(section 4.10)** above;
2. The ECOs will evaluate the claim and associated damage and submit the evaluation to the Senior Site Representative for approval;
3. Following consideration by the DPM, the claim is to be resolved and settled immediately, or the reason for not accepting the claim communicated in writing to the claimant. Should the claimant not accept this, the ECO shall, in writing report the incident to the Developer's negotiator and legal department; and
4. A formal record of the response by the ECOs to the claimant as well as the rectification of the method of making payments not amount will be recorded in the EMPr file.

#### 4.12 Interactions with affected parties

Open, transparent and good relations with affected landowners, communities and regional staff are an essential aspect to the successful management and mitigation of environmental impacts.

The ECOs shall:

1. Ensure that all queries, complaints and claims are dealt within an agreed timeframe;
2. Ensure that any or all agreements are documented, signed by all parties and a record of the agreement kept in the EMPr file;
3. Ensure that a complaints telephone numbers are made available to all landowners and affected parties; and
4. Ensure that contact with affected parties is courteous at all times;

#### 4.13 Environmental audits

Internal Environmental Audits of the activity and implementation of the EMPr will be undertaken by the ECO. The findings and outcomes of these audits will be recorded in the EMPr file. The environmental audits and associated reports must be conducted and submitted to the CA at intervals as indicated in the EA.

The ECOs must prepare a monthly EAR. The report will be tabled as the key point on the agenda of the Environmental Site Meeting. The Report is submitted for acceptance at the meeting and the final report will be circulated to the Project Manager and filed in the EMPr file. At a frequency determined by the EA, the holder of the EA must submit the monthly reports to the CA in terms of NEMA. At a minimum the monthly report is to cover the following:

- Weekly Environmental Checklists;
- Deviations and non-compliances with the checklists;
- Non-compliances issued;
- Completed and reported corrective actions;
- Environmental Monitoring;
- General environmental findings and actions; and
- Minutes of the Bi-monthly Environmental Site Meetings.

#### 4.14 Final environmental audits

On final completion of the entire activity, the ECOs are required to prepare a final EAR. The report is to be submitted to the CA for acceptance and approval. The environmental report must comply with Appendix 7 of the EIA Regulations, 2014.

- Details of the independent person who prepared the report;
- Details of the expertise of independent person that compiled the report;
- A declaration that the independent auditor is independent in a form as may be specified by the CA;
- An indication of the scope of, and the purpose for which, the EAR was prepared;
- A description of the methodology adopted in preparing the EAR;
- An indication of the ability of the EMPr, and where applicable, the closure plan to:
  - Sufficiently provide for the avoidance, management and mitigation of environmental impacts associated with the undertaking of the activity on an on-going basis;
  - Sufficiently provide for the avoidance, management and mitigation of environmental impacts associated with the closure of the facility; and
  - Ensure compliance with the provisions of EA, EMPr, and where applicable, the closure plan;
- A description of any assumptions made, and any uncertainties or gaps in knowledge;
- A description of any consultation process that was undertaken during the course of carrying out the EAR;
- A summary and copies of any comments that were received during any consultation process; and
- Any other information requested by the CA.

Submission of the final EAR to the CA will indicate the end of the entire activity.

**PART B: SECTION 1: Pre-approved generic EMPr template****5. IMPACT MANAGEMENT OUTCOMES AND ACTIONS**

This section provides a pre-approved generic EMPr template with activities that are common to the development or expansion of substation infrastructure for the transmission and distribution of electricity. There are 34 doings identified for the development or expansion of substation infrastructure for the transmission and distribution of electricity, and for each doing a set of prescribed impact management outcomes and associated management actions have been identified. Holders of EAs are responsible to ensure the implementation of these outcomes and actions for all projects as a minimum requirement for managing the impact of activities identified for the development or expansion of substation infrastructure for the transmission and distribution of electricity.

The template provided below is to be completed by providing the information under each headings for each impact management action.

The completed template must be signed and dated on each page by the holder of the EA prior to commencement of the activity. The method statements prepared and agreed to by the holder of the EA must be appended to the template as Appendix 1. Each method statement must also be duly signed and dated on each page by the holder of the EA.

## 5.1 Environmental awareness training

| Impact management actions   | Implementation     |                          |                              | Monitoring         |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| <ul style="list-style-type: none"> <li>– All staff must receive environmental awareness training prior to commencement of the activities;</li> <li>– The Contractor must allow for sufficient sessions to train all personnel with no more than 20 personnel attending each course;</li> <li>– Refresher environmental awareness training is available as and when required;</li> <li>– All staff are aware of the conditions and controls linked to the EA and within the EMPr and made aware of their individual roles and responsibilities in achieving compliance with the EA and EMPr;</li> <li>– The Contractor must erect and maintain information posters at key locations on site;</li> <li>– Environmental awareness training should include as a minimum the following: <ul style="list-style-type: none"> <li>a) Description of significant, actual or potential environmental impacts, related to their work activities;</li> <li>b) Impact management actions to be implemented when carrying out specific activities;</li> <li>c) Emergency preparedness and response procedures;</li> </ul> </li> </ul> |                    |                          |                              |                    |           |

## 5.2 Site Establishment development

**Impact management outcome:** Impacts on the environment are minimised when developing new infrastructure and the development footprint are kept to demarcated development area.

| Impact Management Actions   | Implementation     |                          | Monitoring                   |                        |
|---|--------------------|--------------------------|------------------------------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person     |
| - A Method Statement must be provided by the contractor prior to any onsite activity that includes the layout of the construction camp in the form of a plan showing the location |                    |                          |                              | Evidence of compliance |

|  |
|--|
| of key infrastructure and services (where applicable), including but not limited to offices, overnight vehicle parking areas, stores, the workshop, stockpile and lay down areas, hazardous materials storage areas (including fuels), the batching plant (if one is located at the construction camp), designated access routes, equipment cleaning areas and the placement of staff accommodation, cooking and ablution facilities, waste and wastewater management; |
| – Sites should be located where possible on previously disturbed areas;  |
| – The camp must be fenced in accordance with <b>Section 5.5: Fencing and gate installation</b> ; and   |
| – The contractor staff will be encouraged to use existing accommodation, where possible.   |

### 5.3 No-Go areas

**Impact management outcome:** Access to No go areas prevented.

| Impact Management Actions  | Implementation     |                          |                              | Monitoring                       |           |                        |
|--|--------------------|--------------------------|------------------------------|----------------------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Frequency for Responsible person | Frequency | Evidence of compliance |
| – Identification of No-Go areas is to be informed by the environmental assessment, site walk through and any additional areas identified during development; |                    |                          |                              |                                  |           |                        |
| – Erect, demarcate and maintain a temporary fence around the perimeter of any No-Go area;  |                    |                          |                              |                                  |           |                        |

|  |  |  |
|--|--|--|
| <ul style="list-style-type: none"> <li>- Fencing of No-Go areas is to be undertaken in accordance with Section <b>5.5: Fencing and gate installation</b>; and</li> <li>- Unauthorised access and development related activity inside No-Go areas is prohibited.</li> </ul> |  |  |
|--|--|--|

#### 5.4 Access roads

**Impact management outcome:** Minimise impact to the environment through the planned and restricted movement of vehicles on site.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| <ul style="list-style-type: none"> <li>- Maximum use of existing roads must be utilised;</li> <li>- In circumstances where private roads must be used, the condition of the said roads must be recorded in accordance with section <b>4.9: photographic record</b>; prior to use and the condition thereof agreed by the landowner, the DPM, landowner and the contractor;</li> <li>- All private roads used for access to the site must be maintained and upon completion of the works, be left in at least the original condition; and</li> <li>- As far as possible, access roads must follow the contours in hilly areas, as opposed to winding down steep slopes.</li> </ul> |                    |                          |                              |                    |           |

## 5.5 Fencing and Gate installation

**Impact management outcome:** To minimise impact to the environment and ensure safe and controlled access to the site through the erection of fencing and gates where required.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Use existing gates provided to gain access, where possible;</li> <li>- Existing and new gates to be recorded and documented in accordance with section 4.9: <b>photographic record</b>;</li> <li>- All gates must be fitted with locks and be kept locked at all times during the development phase, unless otherwise agreed with the landowner;</li> <li>- At points where the line crosses a fence in which there is no suitable gate within the extent of the line servitude, on the instruction of the DPM, a gate must be installed at the approval of the landowner;</li> <li>- Care must be taken that the gates must be so erected that there is a gap of no more than 100 mm between the bottom of the gate and the ground;</li> <li>- Where gates are installed in jackal proof fencing, a suitable reinforced concrete sill must be provided beneath the gate;</li> <li>- Original tension must be maintained in the fence wires;</li> <li>- All gates installed in electrified fencing must be re-electrified;</li> <li>- All demarcation fencing and barriers must be maintained in good working order for the duration of electricity substation infrastructure development activities;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |
|--|
| <ul style="list-style-type: none"> <li>- Fencing must be erected around the camp, batching plants and hazardous storage areas;</li> <li>- All fencing must be developed of high quality material bearing the SABS mark;</li> <li>- The use of razor wire as fencing must be avoided;</li> <li>- Fenced areas with gate access will remain locked after hours, during weekends and on holidays if staff is away from site. Site security will be required at all times;</li> <li>- On completion of the project all temporary fences are to be removed and where possible re-used by the contractor at new projects;</li> <li>- The contractor will ensure that all fence uprights are appropriately removed, ensuring that no uprights are cut at ground level but rather removed completely.</li> </ul> |
|--|

## 5.6 Water Supply Management

**Impact management outcome:** Undertake responsible water usage.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- All abstraction points or bore holes must be registered with the DWS and suitable water meters installed to ensure that the abstracted volumes are measured on a daily basis;</li> <li>- Should water abstraction be required and the necessary authorisation from DWS and permission from the landowner has been received, the Contractor must ensure the following:</li> </ul> |                    |                          |                              |                    |           |                        |

|  |  |
|--|--|
| a. The vehicle abstracting water from a river does not enter or cross it and does not operate from within the river; | b. No damage occurs to the river bed or banks and that the abstraction of water does not entail stream diversion activities; and |
| c. All reasonable measures to limit pollution or sedimentation of the downstream watercourse are implemented.        |  |
|  | - Ensure water conservation is being practiced by:   |
|  | a. Minimising water use during cleaning of equipment;  |
|  | b. Undertaking regular audits of water systems; and  |
|  | c. Including a discussion on water usage and conservation during environmental awareness training.                               |

## 5.7 Storm and waste water management

**Impact management outcome:** Impacts to the environment caused by storm water and wastewater discharges during construction are avoided.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| - An effective system of storm water run-off control is implemented;<br>- Appropriate pollution control facilities necessary to prevent discharge of water containing polluting matter or visible suspended;<br>- Materials into watercourses or water bodies must be designed and implemented; |                    |                          |                              |                    |           |                        |

|  |
|--|
| <ul style="list-style-type: none"> <li>– Runoff from the cement/concrete batching areas must be strictly controlled, and contaminated water must be collected, stored and either treated or disposed of off-site, at a location approved by the Project Manager;</li> <li>– All spillage of oil onto concrete surfaces must be controlled by the use of an approved absorbent material and the used absorbent material disposed of at an appropriate waste disposal facility;</li> <li>– Natural storm water runoff not contaminated by development activities and clean water can be discharged directly to watercourses and water bodies, subject to the Project Manager's approval and support by the ECO;</li> <li>– Water that has been contaminated with suspended solids, such as soils and silt, may be released into watercourses or water bodies only once all suspended solids have been removed from the water by settling out these solids in settlement ponds. The release of settled water back into the environment must be subject to the Project Manager's approval and support by the ECO.</li> </ul> |
|  |
|  |
|  |

## 5.8 Solid waste management

**Impact management outcome:** Wastes are appropriately stored, handled and safely disposed of at a recognised waste facility.

| Impact Management Actions | Implementation     |                          |                              | Monitoring         |           |                        |
|---------------------------|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|                           | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
|                           |                    |                          |                              |                    |           |                        |

|   |  |
|---|--|
| - All measures regarding waste management must be undertaken using an integrated waste management approach;         |  |
| - Sufficient, covered waste collection bins (scavenger and weatherproof) must be provided;                          |  |
| - A suitably positioned and clearly demarcated waste collection site must be identified and provided;               |  |
| - The waste collection site must be maintained in a clean and orderly fashion;                                      |  |
| - Waste must be segregated into separate bins and clearly marked for each waste type;                               |  |
| - Bins must be emptied regularly;   |  |
| - General waste produced onsite must be disposed of at recognised landfill waste disposal sites/ recycling company; |  |
| - Hazardous waste must be disposed of at a registered waste disposal site;  |  |
| - Certificates of safe disposal for general, hazardous and recycled waste must be maintained.                       |  |

### 5.9 Protection of watercourses

**Impact management outcome:** Pollution and contamination of the watercourse environment and erosion are prevented.

| Impact Management Actions  | Implementation     |                          | Monitoring                   |                                  |                        |
|--|--------------------|--------------------------|------------------------------|----------------------------------|------------------------|

|--|--|--|--|--|--|--|--|--|--|

oils, fuels, chemicals, aggregate tailings, wash and contaminated water or organic material resulting from the Contractor's activities;

- In the event of a spill, prompt action must be taken to clear the polluted or affected areas;
- When working in or near any watercourse or wetland, the following environmental controls and consideration must be taken:
  - a) River levels during the period of construction;
  - b) During the execution of the Works, appropriate measures to prevent pollution and contamination of the riverine environment must be implemented e.g. including ensuring that construction equipment is well maintained;
  - c) Where earthwork is being undertaken in close proximity to any watercourse, slopes must be stabilised using suitable materials, i.e. sandbags or geotextile fabric, to prevent sand and rock from entering the channel; and
  - d) Appropriate rehabilitation and re-vegetation measures for the river banks must be implemented timely. In this regard, the banks should be appropriately and incrementally stabilised as soon as development allows.

#### 5.10 Vegetation clearing

| Impact Management Actions | Implementation | Monitoring |
|---------------------------|----------------|------------|
|---------------------------|----------------|------------|

**Impact management outcome:** Vegetation clearing is restricted to the authorised development footprint of the proposed infrastructure.

|                 | Responsible person  | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
|-----------------|---|--------------------------|------------------------------|--------------------|-----------|------------------------|
| <b>General:</b> | <ul style="list-style-type: none"> <li>- Indigenous vegetation which does not interfere with the safe development of the substation must be left undisturbed;</li> <li>- Protected or endangered species may occur on or near the development site. Special care should be taken not to damage such species;</li> <li>- Search, rescue and replanting of all protected and endangered species likely to be damaged during project development must be identified by the Botanical Specialist and completed prior to any development or clearing;</li> <li>- Permits for removal must be obtained from the relevant CA prior to the removal of the affected species, and they must be filed;</li> <li>- The Environmental Audit Report must confirm whether identified species have been rescued and replanted;</li> <li>- Rivers, watercourses and other water bodies must be kept clear of felled trees, vegetation cuttings and debris.</li> <li>- Only a registered pest control operator may apply herbicides on a commercial basis and commercial application must be carried out under the supervision of a registered pest control operator, supervision of a registered pest control operator or is appropriately trained;</li> <li>- A daily register must be kept of all relevant details of herbicide usage as stipulated in Act 36 of 1947;</li> <li>- All protected species and sensitive vegetation not removed must be clearly marked and such areas fenced</li> </ul> |                          |                              |                    |           |                        |

|  |  |  |
|--|--|--|
| off if required in accordance with No-Go procedure in<br><b>Section 5.3: No-Go areas.</b>              |  |  |
| – Alien invasive vegetation should be removed and disposed of at a recognised waste disposal facility. |  |  |

### 5.11 Protection of fauna

**Impact Management outcome:** minimise disturbance to fauna.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |

|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>– No interference with livestock must occur without the landowner's written consent and with the landowner or a person representing the landowner being present;</li> <li>– The breeding sites of raptors and other wild birds species must be taken into consideration during the planning of the development;</li> <li>– Breeding sites must be kept intact and disturbance to breeding birds must be avoided. Special care must be taken where nestlings or fledglings are present;</li> <li>– Special recommendations of the avian specialist must be adhered to at all times to prevent unnecessary disturbance of birds;</li> <li>– No poaching must be tolerated under any circumstances. All animal dens in close proximity to the works areas must be marked as No-Go areas.</li> </ul> |                    |                          |                              |                    |           |                        |

## 5.12 Protection of heritage resources

**Impact management outcome:** impact to heritage resources is minimised.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| <ul style="list-style-type: none"> <li>– Identify, demarcate and prevent impact to all known sensitive heritage features on site in accordance with the No-Go procedure in <b>Section 5.3: No-Go areas:</b></li> <li>– Carry out general monitoring of excavations for potential fossils, artefacts and material of heritage importance;</li> <li>– All work must cease immediately, if any human remains and/or other archaeological, palaeontological or historical material are uncovered. Such material, if exposed, must be reported to the nearest museum, archaeologist/ palaeontologist (or the South African Police Services), so that a systematic and professional investigation can be undertaken. Sufficient time should be allowed to remove/collect such material before development recommences.</li> </ul> |                    |                          |                              |                    |           |

## 5.13 Safety of the public

**Impact management outcome:** all precautions are taken to minimise the risk of injury, harm or complaints.

| Impact Management Actions | Implementation |  | Monitoring |
|---------------------------|----------------|--|------------|
|                           |                |  |            |

|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
| <ul style="list-style-type: none"> <li>- Identify fire hazards, demarcate and restrict public access to these areas as well as notify the local authority of any potential threats e.g. large brush stockpiles, fuels etc.;</li> <li>- All unattended open excavations must be adequately fenced or demarcated;</li> <li>- Ensure structures vulnerable to high winds are secured;</li> <li>- Maintain an incidents and complaints register in which all incidents or complaints involving the public are logged.</li> </ul> |                    |                          |                              |                    |           |                        |

#### 5.14 Sanitation

|  |
|--|
| <b>Impact management outcome:</b> clean and well maintained toilet facilities are available to all staff in an effort to minimise the risk of disease and impact to the environment. |
|--|

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Mobile chemical toilets are installed onsite if no other ablution facilities are available;</li> <li>- The use of ablution facilities and or mobile toilets must be used at all times and no indiscriminate use of the void for the purposes of ablutions must be permitted under any circumstances;</li> <li>- Where mobile chemical toilets are required, the following must be ensured: <ul style="list-style-type: none"> <li>a)Toilets are located no closer than 100 m to any watercourse or water body;</li> </ul> </li> </ul> |                    |                          |                              |                    |           |                        |

|   |
|---|
| b) Toilets are secured to the ground to prevent them from toppling due to wind or any other cause;  |
| c) No spillage occurs when the toilets are cleaned or emptied and the contents are managed in accordance with the EMP;                                  |
| d) Toilets have an external closing mechanism and are closed and secured from the outside when not in use to prevent toilet paper from being blown out; |
| e) Toilets are emptied before long weekends and workers holidays, and must be locked after working hours;   |
| f) Toilets are serviced regularly and the ECO must inspect toilets to ensure compliance to health standards;  |
| – A copy of the waste disposal certificates must be maintained.   |

### 5.15 Prevention of disease

| Impact management outcome: All necessary precautions linked to the spread of disease are taken. |   |                              |                          |
|---|---|------------------------------|--------------------------|
| Impact Management Actions   |   | Implementation               |                          |
|   |   | Responsible person           | Method of implementation |
| – Undertake environmentally-friendly pest control in the camp area;                             | – Ensure that the workforce is sensitised to the effects of sexually transmitted diseases, especially HIV AIDS; | Timeframe for implementation | Frequency                |
| – Information posters on HIV AIDS are displayed in the Contractor Camp area;                    |   | Evidence of compliance       |                          |

|  |  |  |
|--|--|--|
| - Information and education relating to sexually transmitted diseases to be made available to both construction workers and local community, where applicable; |  |  |
| - Free condoms will be made available to all staff on site at central points;  |  |  |
| - Medical support must be made available;  |  |  |
| - Provide access to Voluntary HIV Testing and Counselling Services.  |  |  |

### 5.16 Emergency procedures

| <b>Impact management outcome:</b> emergency procedures are in place to enable a rapid and effective response to all types of environmental emergencies.  |                       |                          |                              |                    |           |                        |
|--|-----------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
| <b>Impact Management Actions</b>   | <b>Implementation</b> |                          | <b>Monitoring</b>            |                    |           |                        |
|  | Responsible person    | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Compile an Emergency Response Action Plan (ERAP) prior to the commencement of the proposed project;</li> <li>- The Emergency Plan must deal with accidents, potential spillages and fires in line with relevant legislation;</li> <li>- All staff must be made aware of emergency procedures as part of environmental awareness training;</li> <li>- The relevant local authority must be made aware of a fire as soon as it starts;</li> <li>- In the event of emergency necessary mitigation measures to contain the spill or leak must be implemented (see <b>Hazardous Substances section 5.17</b>).</li> </ul> |                       |                          |                              |                    |           |                        |

## 5.17 Hazardous substances

**Impact management outcome:** safe storage, handling, use and disposal of hazardous substances.

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"><li>- The use and storage of hazardous substances to be minimised and non-hazardous and non-toxic alternatives substituted where possible;</li><li>- All hazardous substances will be stored in suitable containers as defined in the Method Statement;</li><li>- Containers will be clearly marked to indicate contents, quantities and safety requirements;</li><li>- All storage areas will be bunded. The bunded area will be of sufficient capacity to contain a spill / leak from the stored containers;</li><li>- An Alphabetical Hazardous Chemical Substance (HCS) control sheet will be drawn up and kept up to date on a continuous basis;</li><li>- All hazardous chemicals that will be used on site will have Material Safety Data Sheets (MSDS);</li><li>- All employees working with HCS will be trained in the safe use of the substance and according to the safety data sheet;</li><li>- Employees handling hazardous substances / materials must be aware of the potential impacts and follow appropriate safety measures. Appropriate personal protective equipment must be made available;</li></ul> |                    |                          |                              |                    |           |                        |

|   |
|---|
| <ul style="list-style-type: none"> <li>- The Contractor must ensure that diesel and other liquid fuel, oil and hydraulic fluid is stored in appropriate storage tanks or in bowsers;</li> <li>- The tanks/ bowsers must be situated on a smooth impermeable surface (concrete) with a permanent bund. The impermeable lining must extend to the crest of the bund and the volume inside the bund must be 130% of the total capacity of all the storage tanks/ bowsers (110% statutory requirement plus an allowance for rainfall);</li> <li>- The floor of the bund must be sloped, draining to an oil separator;</li> <li>- Provision must be made for refueling at the storage area by protecting the soil with an impermeable groundcover. Where dispensing equipment is used, a drip tray must be used to ensure small spills are contained;</li> <li>- All empty externally dirty drums must be stored on a drip tray or within a bounded area;</li> <li>- No unauthorised access into the hazardous substances storage areas must be permitted;</li> <li>- No smoking must be allowed within the vicinity of the hazardous storage areas;</li> <li>- Adequate fire-fighting equipment must be made available at all hazardous storage areas;</li> <li>- Where refueling away from the dedicated refueling station is required, a mobile refueling unit must be used. Appropriate ground protection such as drip trays must be used;</li> <li>- An appropriately sized spill kit kept onsite relevant to the scale of the activity/s involving the use of hazardous substance must be available at all times;</li> </ul> |
|---|

|  |  |  |
|--|--|--|
| <ul style="list-style-type: none"> <li>- The responsible operator must have the required training to make use of the spill kit in emergency situations;</li> <li>- In the event of a spill, contaminated soil must be collected in containers and stored in a central location and disposed of according to the National Environmental Management: Waste Act 59 of 2008. Refer to <b>Section 5.7 for procedures concerning waste water management and 5.8 for solid waste management.</b></li> </ul> |  |  |
|--|--|--|

### 5.18 Workshop, equipment maintenance and storage

**Impact management outcome:** Soil, surface water and groundwater contamination is minimized.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Where possible and practical all maintenance of vehicles and equipment must take place in the workshop area;</li> <li>- During servicing of vehicles or equipment, especially where emergency repairs are effected outside the workshop area, a suitable drip tray must be used to prevent spills onto the soil. The relevant local authority must be made aware of a fire as soon as it starts;</li> <li>- Leaking equipment must be repaired immediately or be removed from site to facilitate repair;</li> <li>- The responsible operator of equipment must have the required training to make use of the spill kit in emergency situations</li> <li>- Workshop areas must be monitored for oil and fuel spills;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |
|--|
| - Appropriately sized spill kit kept onsite relevant to the scale of the activity taking place must be available;  |
| - The workshop area must have a bunded concrete slab that is sloped to facilitate runoff into a collection sump or suitable oil / water separator where maintenance work on vehicles and equipment can be performed; |
| - Water drainage from the workshop must be contained and managed in accordance Section <b>5.7: Waste water management.</b>   |
|  |

### 5.19 Batching plants

| Impact management outcome: Minimise spillages and contamination of soil, surface water and groundwater  |                          |                              |            |
|---|--------------------------|------------------------------|------------|
| Impact Management Actions   |                          | Implementation               |            |
| Responsible person  | Method of implementation | Timeframe for implementation | Monitoring |
| - Concrete mixing areas must be fitted with a sump facility for the collection of cement laden water. This facility must be impervious to prevent soil and groundwater contamination; |                          |                              |            |
| - Bagged cement must be stored in an appropriate facility and at least 100 m away from any water courses, gullies and drains;   |                          |                              |            |
| - A washout facility must be provided for washing of concrete associated equipment. Water used for washing must be restricted;  |                          |                              |            |

|   |
|---|
| <ul style="list-style-type: none"> <li>– Hardened concrete from the washout facility or concrete mixer can either be reused or disposed of at a recognised disposal facility;</li> <li>– Empty cement bags must be covered with adequate binding material if these will be temporarily stored on site;</li> <li>– Sand and aggregates containing cement must be kept damp to prevent the generation of dust (Refer to <b>Section 5.20: Dust emissions</b>)</li> <li>– Any excess sand, stone and cement must be removed from site and disposed at a registered disposal facility or reused on completion of construction period;</li> <li>– Temporary fencing must be erected around batching plants in accordance with Section 5.5: <b>Fencing and gate installation.</b></li> </ul> |
|---|

## 5.20 Dust emissions

| Impact Management Actions  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>– Take all reasonable measures to minimise the generation of dust as a result of project development activities to the satisfaction of the ECO;           <ul style="list-style-type: none"> <li>– Removal of vegetation must be avoided until such time as soil stripping is required and similarly exposed surfaces must be re-vegetated or stabilised as soon as is practically possible;</li> </ul> </li> </ul> |                    |                          |                              |                    |           |                        |

|  |
|--|
| <ul style="list-style-type: none"> <li>– Excavation, handling and transport of erodible materials must be avoided under high wind conditions or when a visible dust plume is present;</li> <li>– During high wind conditions, the ECO will evaluate the situation and make recommendations as to whether dust-damping measures are adequate, or whether working will cease altogether until the wind speed drops to an acceptable level;</li> <li>– Where possible, soil stockpiles must be located in sheltered areas where they are not exposed to the erosive effects of the wind;</li> <li>– Where erosion of stockpiles becomes a problem, erosion control measures must be implemented at the discretion of the ECO;</li> <li>– Vehicle speeds must not exceed 40km/h along dust roads or 20km/h when traversing unconsolidated and non-vegetated areas;</li> <li>– Appropriate dust suppression measures must be used when dust generation is unavoidable, e.g. dampening with water; particularly during prolonged periods of dry weather in summer. Such measures must also include the use of temporary stabilising measures (e.g. chemical soil binders, straw, brush packs, chipping);</li> <li>– Straw stabilisation must be applied at a rate of one bale/10m<sup>2</sup> and harrowed into the top 100 mm of top material, for all completed earthworks;</li> <li>– For significant areas of excavation or exposed ground, spray water or wet areas using trucks to minimise the spread of dust.</li> </ul> |
|--|

## 5.21 Blasting

**Impact management outcome:** impact to the environment is minimised through a safe blasting practice.

| Impact Management Actions  |  | Implementation     |                          |                              | Monitoring         |           |                        |
|--|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|  |  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| - Any blasting activity must be conducted by a suitably licensed blasting contractor; and  |  |                    |                          |                              |                    |           |                        |
| - Notification of surrounding landowners, emergency services site personnel of blasting activity 24 hours prior to such activity taking place on Site. |  |                    |                          |                              |                    |           |                        |

## 5.22 Noise

**Impact management outcome:** To prevent unnecessary noise to the environment by ensuring that noise from development activity is mitigated.

| Impact Management Actions   |  | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   |  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| - Working hours as determined by the environmental authorisation are adhered to during the development phase. Where not defined, development must be limited to daylight hours. |  |                    |                          |                              |                    |           |                        |

**5.23 Fire prevention**

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |

|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>- Management of dust must be conducted in accordance with Section <b>5.20: Dust emissions</b>;</li> <li>- Management of equipment used for installation must be conducted in accordance with Section <b>5.18: Workshop equipment maintenance and storage</b>;</li> <li>- Management hazardous substances and any associated spills must be conducted in accordance with Section <b>5.17: Hazardous substances</b>; and</li> <li>- Residual solid waste must be recycled or disposed of in accordance with <b>Section 5.8: Solid Waste Management</b>.</li> </ul> |                    |                          |                              |                    |           |                        |

### 5.30 Cabling and Stringing

| <b>Management outcome:</b> No environmental degradation occurs as a result of cabling and stringing.  |                    | <b>Implementation</b>    |                              | <b>Monitoring</b>  |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
| <b>Impact Management Actions</b>  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| – Management of dust must be conducted in accordance with <b>Section 5. 20: Dust emissions;</b>   |                    |                          |                              |                    |           |
| – Management of equipment used for installation must be conducted in accordance with <b>Section 5.18: Workshop equipment maintenance and storage;</b> |                    |                          |                              |                    |           |
| – Management hazardous substances and any associated spills must be conducted in accordance with <b>Section 5.17: Hazardous substances;</b> and       |                    |                          |                              |                    |           |
| – Residual solid waste must be recycled or disposed of in accordance with <b>Section 5.8: Solid Waste Management.</b>                                 |                    |                          |                              |                    |           |

### 5.31 Testing and Commissioning (all equipment testing, earthing system, system integration)

| <b>Management outcome:</b> No environmental degradation occurs as a result of Testing and Commissioning.              |                    | <b>Implementation</b>    |                              | <b>Monitoring</b>  |           |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|
| <b>Impact Management Actions</b>  | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency |
| – Residual solid waste must be recycled or disposed of in accordance with <b>Section 5.8: Solid Waste Management.</b> |                    |                          |                              |                    |           |

### 5.32 Temporary closure of site

**Impact management outcome:** Minimise the risk of environmental impact during periods of site closure greater than five days.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>– Bunds must be emptied (where applicable);</li> <li>– Hazardous storage areas must be well ventilated;</li> <li>– Fire extinguishers must be serviced and accessible. Service records to be filed and audited at last service;</li> <li>– Emergency and contact details displayed must be displayed;</li> <li>– Security personnel must be briefed and have the facilities to contact or be contacted by relevant management and emergency personnel;</li> <li>– Night hazards such as reflectors, lighting, traffic signage etc. must have been checked;</li> <li>– Fire hazards identified and the local authority must have been notified of any potential threats e.g. large brush stockpiles, fuels etc.;</li> <li>– Structures vulnerable to high winds must be secured;</li> <li>– Wind and dust mitigation must be implemented;</li> <li>– Cement and materials stores must have been secured;</li> <li>– Toilets must have been emptied and secured;</li> <li>– Refuse bins must have been emptied and secured; and</li> <li>– Drip trays must have been emptied and secured.</li> </ul> |                    |                          |                              |                    |           |                        |

### 5.33 Dismantling of old equipment

| Impact Management Actions   |  | Implementation   |   | Monitoring   |  |           |                        |
|---|--|--|---|--|--|-----------|------------------------|
|   |  | Responsible person   | Method of implementation  | Timeframe for implementation   | Responsible person   | Frequency | Evidence of compliance |
| - All old equipment removed during the project must be stored in such a way as to prevent pollution of the environment; | - Oil containing equipment must be stored to prevent leaking or be stored on drip trays; | - All scrap steel must be stacked neatly and any disused and broken insulators must be stored in containers; | - Once material has been scrapped and the contract has been placed for removal, the disposal Contractor must ensure that any equipment containing pollution causing substances is dismantled and transported in such a way as to prevent spillage and pollution of the environment; | - The Contractor must also be equipped to contain and clean up any pollution causing spills; and | - Disposal of unusable material must be at a recognised waste disposal site. |           |                        |

**Impact management outcome:** Impact to the environment to be minimised during the dismantling, storage and disposal of old equipment commissioning.

### 5.34 Landscaping and rehabilitation

**Impact management outcome:** No environmental degradation occurs as a result of the survey and pegging.

| Impact Management Actions   | Implementation     |                          |                              | Monitoring         |           |                        |
|---|--------------------|--------------------------|------------------------------|--------------------|-----------|------------------------|
|   | Responsible person | Method of implementation | Timeframe for implementation | Responsible person | Frequency | Evidence of compliance |
| <ul style="list-style-type: none"> <li>– All areas disturbed by construction activities must be subject to landscaping and rehabilitation;</li> <li>– All spoil and waste will be disposed to a registered waste site and certificates of disposal provided;</li> <li>– All slopes in excess of 2% (1:50) must be contoured in accordance with the Conservation of Agricultural Resources Act, No 43 of 1983;</li> <li>– All slopes in excess of 12% (1:8.3) must be terraced in accordance with the Conservation of Agricultural Resources Act, No 43 of 1983;</li> <li>– Berms that have been created should have a slope of 1:4 and be replanted with indigenous species and grasses;</li> <li>– Where new access roads have crossed cultivated farmlands, that lands must be rehabilitated by ripping to a minimum depth of 600 mm;</li> <li>– Rehabilitation of access roads outside of farmland;</li> <li>– Indigenous species will be used for replanting;</li> <li>– Stockpiled topsoil must be used for rehabilitation (refer to Section 5.23: <b>Stockpiling and stockpiled areas</b>);</li> <li>– Stockpiled topsoil will be evenly spread so as to facilitate seeding and minimise loss of soil due to erosion;</li> <li>– Before placing topsoil, all visible weeds from the placement area and from the topsoil must be removed;</li> </ul> |                    |                          |                              |                    |           |                        |

|  |
|--|
| <ul style="list-style-type: none"> <li>- Subsoil must be ripped before topsoil is placed;</li> <li>- The project must be timed so that rehabilitation can take place at the optimal time for vegetation establishment;</li> <li>- Where impacted through construction related activity, all sloped areas must be stabilised to ensure proper rehabilitation is effected and erosion is controlled as per the instruction from the ECO;</li> <li>- Sloped areas stabilised using design structures or vegetation as specified in the design to prevent erosion of embankments. The contract design specifications must be adhered to and implemented strictly; and</li> <li>- Where required, re-vegetation can be enhanced using a vegetation seed mixture as described below. A mixture of seed can be used provided the mixture is carefully selected to ensure the following: <ul style="list-style-type: none"> <li>a) Annual and perennial plants are chosen;</li> <li>b) Pioneer species are included;</li> <li>c) Species chosen must grow in the area feasible to grow;</li> <li>d) Root systems must have a binding effect on the soil;</li> <li>e) The final product should not cause an ecological imbalance in the area</li> </ul> </li> </ul> |
|--|

## 6 ACCESS TO THE GENERIC EMPr

Once completed and signed, to allow the public access to the generic EMPr, the holder of the EA must make the EMPr available to the public in accordance with regulation 26 (h) of the Environmental Impact Assessment Regulations, 2014.

**PART B: SECTION 2****7 SITE SPECIFIC INFORMATION AND DECLARATION****7.1 Sub-section 1: contact details and description of the project**

7.1.1 Details of the applicant:

Name of applicant:

Tel No:

Fax No:

Postal Address:

Physical Address:

7.1.2 Details and expertise of the EAP:

Name of applicant:

Tel No:

Fax No:

E-mail address:

Expertise of the EAP (Curriculum Vitae included):

7.1.3 Project name:

7.1.4 Description of the project:

7.1.5 Project location:

| NO | FARM NAME( if applicable) | FARM NUMBER( if applicable) | PORTION NAME | PORTION NUMBER | LATITUDE | LONGITUDE |
|----|---------------------------|-----------------------------|--------------|----------------|----------|-----------|
|    |                           |                             |              |                |          |           |
|    |                           |                             |              |                |          |           |
|    |                           |                             |              |                |          |           |

**7.2 Sub-section 2: Development footprint site map**

This sub-section must include a map of the site sensitivity overlaid with the preliminary infrastructure layout. Once the web-based environmental screening tool identified in regulation 16(1) (v) of the EIA Regulations, 2014 is available, the sensitivity map must be prepared from this system. The map is to indicate areas/features of sensitivity based on the findings of the assessment and illustrated according to four tiers, Very High, High, Medium or Low. The sensitivity map shall also identify the nature of each sensitive feature e.g. raptor nest, threatened plant species, archaeological site, etc. Sensitivity maps shall identify features both within the planned working area and any known sensitive features in the surrounding

landscape. Where considered appropriate, photographs of sensitive features in the context of the site must be used.

### 7.3 Sub-section 3: Declaration

The proponent or applicant or holder of EA affirms that they will abide and comply with the prescribed impact management outcomes and actions as stipulated in part B: section 1 of this generic EMPr and have the understanding that the impact management outcomes and actions are legally binding.

Signature Proponent/applicant/ holder of EA

Date:

---

---

### 7.4 Sub-section 4: amendments to site specific information (Part B; section 2)

Should the EA be transferred, Part B: Section 2 must be completed by the new applicant and submitted with the application for amendment of the EA in terms of regulations 29 of the EIA Regulations, 2014. The information submitted for an amendment to an EA will be considered to be incomplete should a signed copy of Part B: Section 2 not be submitted. Once approved, Part B: Section 2 forms part of the EMPr for the development or expansion and the EMPr becomes legally binding to the new EA holder once the amendment process has been concluded.

**PART C****8 SITE SPECIFIC ENVIRONMENTAL ATTRIBUTES**

If any specific environmental sensitivities/attributes are present on the site which require more specific impact management outcomes and actions not included in the pre-approved generic EMPr template to manage impacts, those impact management outcomes and actions must be included in this section. These specific management controls must be referenced spatially, and must include impact management outcomes and actions. The management controls including impact management outcomes and actions must be presented in the format of the pre-approved generic EMPr template. This applies only to additional impact management outcomes and actions that are necessary.

If Part C is applicable to the site, it is required to be submitted to the CA for approval prior to commencement of the activity. The information in this section must be prepared by an EAP and the name and expertise of the EAP, including the curriculum vitae are to be included. Once approved, Part C forms part of the EMPr for the site and is legally binding.

This section will **not be required** should the site contain no specific environmental sensitivities or attributes.

**APPENDIX 1: METHOD STATEMENTS**

To be prepared by the contractor prior to commencement of the activity. The method statements are **not required** to be submitted to the CA.

02 MARCH 2018

**NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998  
(ACT NO. 107 OF 1998)****ADOPTION OF THE GAUTENG PROVINCIAL ENVIRONMENTAL MANAGEMENT FRAMEWORK STANDARD AND EXCLUSION OF ASSOCIATED ACTIVITIES FROM THE REQUIREMENT TO OBTAIN AN ENVIRONMENTAL AUTHORISATION IN TERMS OF SECTIONS 24(2)(d) AND 24(10)(a) READ WITH SECTION 24(10)(d) OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998, FOR THE IMPLEMENTATION OF THE GAUTENG PROVINCIAL ENVIRONMENTAL MANAGEMENT FRAMEWORK**

I, Bomo Edna Edith Molewa, Minister of Environmental Affairs, hereby adopt the Gauteng Provincial Environmental Management Framework Standard and exclude associated activities from the requirement to obtain environmental authorisation, in terms of sections 24(2)(d) and 24(10)(a) read with section 24(10)(d) of the National Environmental Management Act, 1998, as set out in the Schedule hereto.

An application for environmental authorisation submitted in terms of the Environmental Impact Assessment Regulations, promulgated in terms of the National Environmental Management Act, 1998, for an activity falling within the scope of the Standard contemplated in this Notice, which application is pending at the time of the publication of this Standard in the Government Gazette or at the coming into effect of this Standard may be withdrawn at any time prior to a decision being made on such application.

If any part of a facility contemplated in the Schedule hereto, falls outside the scope of the Standard contemplated in this Notice, the requirements of the Environmental Impact Assessment Regulations, promulgated in terms of the National Environmental Management Act, 1998, apply.

The provisions of the National Appeal Regulations, 2014 are applicable to an appeal against any decision taken in terms of the Standard contemplated in this Notice.

The Gauteng Provincial Environmental Management Framework Standard is also available from the Department of Environmental Affairs at <https://eqis.environment.gov.za> and from the Gauteng Department of Agriculture and Rural Development at <http://www.gauteng.gov.za/government/departments/agriculture-and-rural-development/Pages/Documents.aspx>

BOMO EDNA EDITH MOLEWA  
MINISTER OF ENVIRONMENTAL AFFAIRS

## SCHEDULE

### **STANDARD AND ASSOCIATED EXCLUDED ACTIVITIES FOR THE IMPLEMENTATION OF THE GAUTENG PROVINCIAL ENVIRONMENTAL MANAGEMENT FRAMEWORK**

**TABLE OF CONTENT**

## CHAPTER 1

### INTERPRETATION, PURPOSE AND APPLICATION

#### Definitions

1. In this Standard, unless the context indicates otherwise, a word defined in the National Environmental Management Act, 1998 (Act No.107 of 1998) or the Environmental Impact Assessment Regulations has the same meaning, and—

**“competent authority”** means the organ of state that would have been designated by section 24C of the Act, in respect of a listed activity or specified activity;

**“days”** means calendar days, excluding public holidays and the period of 15 December to 5 January;

**“Environmental Impact Assessment Regulations”** means the Regulations published in terms of section 24(5) of the Act;

**“excluded activity”** means an activity identified within this schedule and as contemplated in Appendix 1, that is excluded from the requirement to obtain an environmental authorisation;

**“Gauteng Provincial Environmental Management Framework (GPEMF)”** means the Environmental Management Framework for the whole of Gauteng Province, consisting of zones 1 to 5; adopted by the MEC in terms of regulation 5(4) of the Environmental Management Framework Regulations, 2010 under Government Notice No.1655 of 22 May 2015;

**“mitigation measure”** refers to a set of actions undertaken as part of a commitment to reduce environmental impacts;

**“National Appeal Regulations”** means the regulations pertaining to the processing, consideration of and decisions on appeals, made under section 44(1)(a), read with section 43(3), of the National Environmental Management Act, 1998 (Act No. 107 of 1998);

**“proponent”** refers to the person that intends to undertake an excluded activity and is also responsible for ensuring compliance with the Standard;

**“registered development”** means a development that falls within the scope of the Standard and that has been registered;

**“the Act”** means the National Environmental Management Act, 1998 (Act No. 107 of 1998) as amended;

**"Zone 1"** means the geographical area depicted as the *Urban Development Zone* in the Gauteng Provincial Environmental Management Framework in which infill, densification and concentration of urban development is facilitated through the use of excluded activities of which a geographical representation can be found in Appendix 3; and

**"Zone 5"** means the geographical area depicted as the *Industrial and Commercial Focus Zone* in the Gauteng Provincial Environmental Management Framework in which non-polluting industrial and large-scale commercial developments are facilitated through the use of excluded activities, of which a geographical representation can be found in Appendix 3.

### Purpose of the Standard

2. The purpose of the Standard is to provide rules which must be complied with, ensuring –

- (a) compliance to the principles contained in section 2 of the Act and the duty of care, in terms of section 28(1) of the Act;
- (b) sustainable development within Gauteng Province; and
- (c) compliance to management measures, based on which activities are excluded from the requirement to obtain an environmental authorisation.

### Application of the Standard

3. (1) The provisions of the Standard are applicable to activities excluded from acquiring an environmental authorisation, when undertaken within Zone 1 or Zone 5 of the Gauteng Province, as contemplated in Appendix 1.

(2) The provisions of the Standard are not applicable if—

- (a) any part of the footprint of an excluded activity extends outside the boundary of Zone 1 or Zone 5, as contemplated in Appendix 1; or
- (b) such excluded activity is directly related to prospecting, exploration, including primary processing, of a mineral or petroleum resource.

(3) The provisions of the Standard are not applicable if the development requires environmental authorisation for any activity not excluded in terms of the Standard, in which case environmental authorisation must be obtained for all applicable identified activities.

- (4) Compliance with the Standard does not negate the need for the proponent to comply with all other applicable legislation.

## CHAPTER 2

### PROCEDURAL REQUIREMENTS

#### Notification and Registration

4. (1) A proponent must submit to the competent authority the Registration Form as set out in Appendix 4, as well as a report from the web-based screening tool, as contemplated in the Environmental Impact Assessment Regulations.

(2) The competent authority must, within 30 days, issue a registration number to the proponent, or, if not satisfied with the information provided, reject the request for registration.

(3) The competent authority must, where applicable, draw the attention of the proponent to the fact that an appeal may be lodged against the decision in terms of section 43 of the Act and the National Appeal Regulations, if such appeal is available in the circumstances of the decision.

(4) The proponent may commence with any excluded activity or activities within 10 years of receipt of the registration number contemplated in subsection (2), and must notify the competent authority, in writing, 14 days prior to such commencement and such notification must include a date on which it is anticipated that any activity will commence.

(5) Registration lapses if commencement does not occur within 10 years of receipt of the registration number, and the process contemplated in subsections (1), (2), and (3) will apply afresh in such instances.

(6) The competent authority must keep an inventory of all registered developments including as a minimum the—

- (a) name of the proponent;
- (b) project name and description;
- (c) registration number and applicable excluded activities;
- (d) erf number, where development or expansion occurs;
- (e) date on which the registration number was issued; and
- (f) validity period of the registration.

(7) Proof of registration must be made available—

- (a) on site at all times;
  - (b) on request; and
  - (c) where the proponent or owner has a website, on such publicly accessible website.
- (8) Where change of ownership of a registered development in terms of subsection (2) occurs, the new owner must submit the relevant declaration and details contemplated in Appendix 5 within 30 days upon finalisation of such change.

## **CHAPTER 3**

### **ENVIRONMENTAL MANAGEMENT SPECIFICATIONS**

#### **Environmental Management Specifications**

5. The proponent must ensure compliance with the environmental management specifications as contemplated in Appendix 2 for an excluded activity.

## **CHAPTER 4**

### **COMPLIANCE**

#### **Authority Inspections**

6. The proponent must provide the competent authority and any authorised official with access to the facility where the excluded activity is undertaken without prior notification, for the purposes of monitoring compliance with the Standard.

## CHAPTER 5

### TRANSITIONAL ARRANGEMENTS

#### **Transitional Arrangements**

7. (1) An environmental authorisation issued prior to the coming into effect of this Standard remains valid.
- (2) Where an application for environmental authorisation for an activity falling within the scope of this Standard is pending at the time of publication of this Standard in the *Gazette* or at the time of the coming into effect of this Standard, such application must, despite the publication or coming into effect of this Standard be dispensed with in terms of the Environmental Impact Assessment Regulations and if an environmental authorisation is issued for such application, such environmental authorisation remains valid and this Standard does not apply.
- (3) An application for environmental authorisation contemplated in subsection (2) may be withdrawn at any time prior to a decision being made on such application.

#### **Short Title and Commencement**

8. This Standard is called the GPEMF Standard, 2018 and takes effect 60 days from date of publication in the *Gazette*.

**APPENDIX 1: EXCLUDED ACTIVITIES****1. Environmental Impact Assessment Regulations: Listing Notice 1**

1.1 The activities listed are the identified activities for Listing Notice 1 that are excluded from the requirement to obtain an environmental authorisation, within Zone 1:

- a) Activity 6;
- b) Activity 9;
- c) Activity 10 (will only be permissible for developments relating to the bulk transportation of sewage in Zone 1);
- d) Activity 11;
- e) Activity 13;
- f) Activity 27;
- g) Activity 28 (i);
- h) Activity 44;
- i) Activity 45;
- j) Activity 46 (will only be permissible for expansions relating to the bulk transportation of sewage in Zone 1);
- k) Activity 47;
- l) Activity 50;
- m) Activity 56;
- n) Activity 57 (will only be permissible for expansions relating to the treatment of sewage in Zone 1);
- o) Activity 63;
- p) Activity 64; and
- q) Activity 66.

1.2 The activities listed are the identified activities for Listing Notice 1 that are excluded from the requirement to obtain an environmental authorisation, within Zone 5:

- a) Activity 6;
- b) Activity 9;
- c) Activity 10;
- d) Activity 11;
- e) Activity 13;
- f) Activity 14;

- g) Activity 25;
- h) Activity 27
- i) Activity 28(i)
- j) Activity 36;
- k) Activity 38;
- l) Activity 39;
- m) Activity 40;
- n) Activity 41;
- o) Activity 43;
- p) Activity 44;
- q) Activity 45;
- r) Activity 46;
- s) Activity 47;
- t) Activity 50;
- u) Activity 51;
- v) Activity 56;
- w) Activity 57;
- x) Activity 63;
- y) Activity 64; and
- z) Activity 66.

## **2. Environmental Impact Assessment Regulations: Listing Notice 2**

**2.1** The activities listed are the identified activities for Listing Notice 2 that are excluded from the requirement to obtain an environmental authorisation, within Zone 1:

- a) Activity 9; and
- b) Activity 11.

**2.2** The activities listed are the identified activities for Listing Notice 2 that are excluded from the requirement to obtain an environmental authorisation, within Zone 5:

- a) Activity 4;
- b) Activity 7;
- c) Activity 9; and
- d) Activity 11.

# APPENDIX 2

## GPEMF EXCLUDED ACTIVITIES IN TERMS OF THE NEMA, ACT 107 OF 1998

| GENERALLY APPLICABLE ENVIRONMENTAL MANAGEMENT SPECIFICATIONS [should be applied in conjunction with the Activity Specific Specifications]  |  |
|--|--|
| <b>Generally Applicable Specifications (Development phase)</b>   |  |
| 1) All working areas must be supplied with proper sanitation facilities (at least one for every twenty workers).   |  |
| 2) No uncontrolled fires are allowed on site for any purposes.   |  |
| 3) During development and operational phase, the proponent must ensure that there is firefighting equipment on site that is properly working and maintained with trained operators in the event of accidental fires. |  |
| 4) Evidence of environmental awareness training for all employees must be kept on site. Employees must be fully inducted on activities impacting on the environment and mitigation thereof.                          |  |
| 5) Site management must be done in a manner that prevent and minimise pollution.   |  |
| <b>Air Quality Specifications (Development phase)</b>  |  |
| 1) The generation of pollutants such as particulate emissions must be prevented and minimised.   |  |
| 2) The proponent must prevent and minimise dust or offensive odours during development phase.  |  |
| 3) The design and construction of structures must implement energy savings to minimise Green House Gas emissions   |  |
| <b>Noise Specifications (Development phase)</b>  |  |
| 1) The persons responsible for development activities must manage and mitigate the generation of noise, relating to –  |  |
| (a) vehicles and equipment used on site; and   |  |
| (b) development activities during night-time (from 5pm to 7am).  |  |
| <b>Storm Water Management Specifications (Development and Operational phase)</b>   |  |
| 1) Management of storm water runoff must take place as close to the source as possible, according to the hierarchy listed below:   |  |
| 2.1) At source storm water management through inclusion of one or more of the following or similar into the development:   |  |
| a. green roofs;  |  |
| b. rainwater harvesting;   |  |
| c. permeable pavements and parking areas; and  |  |

- d. soakaways.
- 2.2) Local control for storm water runoff management, typically within the road reserves through inclusion of the following or similar into the development where practically possible:
- a. bio-retention areas;
  - b. filter strips;
  - c. infiltration trenches;
  - d. sand filters; and
  - e. swales.

2.3) Regional controls to manage combined storm water runoff from several developments through inclusion of the following or similar into the development where practically possible:

- a. constructed wetlands;
  - b. detention ponds; and
  - c. retention ponds.
- 3) The management of storm water must ensure that additional runoff water is stored and released at a rate that will not impact negatively on the natural flow capacity of rivers, wetlands and streams.
- 4) Development and operational activities must not encroach onto the 32 meter buffer from a water course as per GDARD Requirements for Biodiversity Assessments V3, 2014.

#### **Visual Specifications (Development phase)**

1) The development activities must prevent, manage and mitigate visual impacts, including but not limited to –

- (a) Configuration of development sites to reduce visual intrusions i.e.–
  - i. Siting of waste storage facilities; and
  - ii. Change rooms and ablution facilities;
  - (b) Siting of developments in relation to sensitive features.
  - (c) Installation of screening material during development to reduce visual impacts.
  - (d) Prevent use of highly reflective materials and paints, and where it cannot be prevented, it must be minimised.
  - (e) Prevent lighting up biodiversity features i.e. wetlands, ridges etc. and where it cannot be prevented, it must be minimised.
  - (f) To blend in with the surrounding landscapes, neutral colour pallets for structures must be used.

#### **Hazardous Substances Specifications (Development phase)**

- 1) The relevant Material Safety Data Sheets must be available on site.
- 2) The storage, use and disposal of hazardous substances, including containers, must be in accordance with the relevant Material Safety Data Sheets.
- 3) Hazardous substances must be stored such that the pollution of water, soil and air is prevented.

**4) Storage areas containing hazardous substances / materials must be clearly marked.**

**Waste Specifications (Development phase)**

- 1) Waste must be separated on site to support the waste management hierarchy – "Reduce, re-use, recover and only dispose safely as the last option."
- 2) No burning of waste on site and all waste must be disposed of at a licensed waste disposal facility or in line with the conditions of a valid waste licence.
- 3) Refuse bins must be placed at strategic positions to prevent littering and visual impact.
- 4) All recyclable waste generated on site must be separated into the main line recyclables i.e. paper, plastics, glass, tins and tyres (PPGTT) and building rubble.
- 5) Non-recyclable waste must be disposed of on a licensed waste disposal facility.
- 6) Skip waste containers must be maintained on site.
- 7) Waste stock piles stored in open areas must be covered with an impermeable cover.
- 8) Weatherproof, durable and legible waste disposal signs in at least 3 (three) official languages applicable in the area must be displayed at each entrance to the facility.
- 9) No waste must be buried on site.
- 10) Waste transporters must be registered on Gauteng Waste Information Systems (GWIS).

**Water Resources Specifications (Development phase)**

- 1) Mixing of concrete must be done on a lined surface to prevent contamination of surface and/or ground water.
- 2) Vehicles and equipment must be serviced in a manner that does not impact any sensitive features.
- 3) Contaminated material must be handled and disposed of at a licensed facility to prevent contamination of soil, surface and ground water resources.
- 4) The sewage management system must be designed and operated in a manner that protects the quality and quantity of environmental resources.
- 5) The positioning of the development activities must prevent pollution of watercourses.
- 6) If development takes place within the 32 metre buffer zone from the edge of the riparian zone for rivers or streams, it must comply with the GDARD Requirements for Biodiversity Assessments V3, March 2014.
- 7) If development takes place within the 30 metre buffer zone from the outer edge of the wetland temporary zone, it must comply with the GDARD Requirements for Biodiversity Assessments V3, March 2014.
- 8) For stormwater discharge, a buffer of 100 – 250 metres wide must be maintained between the stormwater outflow and the outer boundary of a wetland –
  - a) The buffer must have mechanisms for dissipating water energy, spreading and slowing water flow as well as preventing erosion.

- 9) Where a linear development will run alongside a wetland and intercept natural hill slope runoff into the wetland, the development must be set back from the boundary of the wetland by at least 30 metres.
- 10) The design and construction of structures must incorporate water savings.

#### **Biodiversity Specifications (Development phase)**

- 1) Perimeter fences must be erected prior to development activities to prevent access and negative impact to any sensitive areas.
- 2) The infestation of alien and invasive plant species must be controlled on site and indigenous species must be used for rehabilitation, during all phases of the development.
- 3) Clearing of indigenous vegetation must be limited to the development footprint during development activities.
- 4) Disturbance or mortality of indigenous fauna must be prevented, where it cannot be prevented, it must be minimised during the development.
- 5) No lethal forms of predator control must be used.
- 6) All development activities must not impact on the breeding of Red List bird species that could potentially occur on site.

#### **Specifications for Pollution Buffers (Development phase)**

- 1) Buffer zones for pollution sources from various industrial facilities, as indicated in point 2 and as per the **Gauteng Pollution Buffer Zones Guidelines**, March 2017, below must be adhered to.
- 2) The specific sizes for the preferred pollution buffer or minimum pollution buffer must be complied with as follows:

**Best case buffer of 1500m and worst case buffer of 750m must be maintained in Category 1 industries, such as Sasol, Arcelor Mittal, Scaw Metal, Eskom power stations etc. as per paragraph 6.2.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 500m and worst case buffer of 250m must be maintained in Category 2 industries, such as container depot In City Deep, panel beater workshops, tanneries etc. as per paragraphs 6.2.2 and 7.1 of the Gauteng Pollution Buffer Zones Guidelines, March 2017.**

**Best case buffer of 100m and worst case buffer of 50m must be maintained in Category 3 industries, such as warehousing and distribution operations as per paragraphs 6.2.3 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 800m and worst case buffer of 500m must be maintained for Sewage treatment works as per paragraphs 6.2.4 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 400m and worst case buffer of 200m must be maintained for general landfill sites (Communal, small, medium and large) as per paragraphs 6.2.5 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 2000m and worst case buffer of 1000m must be maintained for Hazardous Landfill sites as per paragraphs 6.2.5 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 100m and worst case buffer of 0m must be maintained for mine dumps (rock dumps or stockpiles) as per paragraphs 6.2.6 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 1000m and worst case buffer of 500m must be maintained for mine slimes dams and ash dumps as per paragraphs 6.2.7 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

**Best case buffer of 5000m and worst case buffer of 2000m must be maintained for the Pelindaba nuclear facility complex as per paragraphs 6.2.8 and 7.1 of the Gauteng Pollution Buffer Zones Guideline, March 2017.**

#### **Minimum Ridge Specifications (Development phase)**

- 1) The following ridge classes must be adhered to for all the Excluded Activities within Environmental Management Zone 1 and Zone 5. Development activities will only be permitted if it falls within the following development classes as per paragraph 4(3) and 4(4) of the Gauteng Ridges Guideline (2001), as amended:

- (a) class 3 ridge (35 – 64 % transformed);
  - (i) class 3 (A) ridge Low impact development areas;
  - (ii) class 3 (B) ridge High impact development areas; and
- (b) class 4 ridge (65 - 100 % transformed)

- 2) Development activities that are not in contravention with the Gauteng Ridges Guideline must continue while taking the following into consideration:
  - (a) No shining lights must be pointed towards the ridges to ensure minimal disturbance on the biodiversity;
  - (b) No emission of effluents or waste dumping should be permitted on the ridges.

#### **Specifications for Soil Conservation (Development phase)**

- 1) Topsoil from development activities must be stockpiled and contained within a berm to prevent and minimise loss.
- 2) Compaction of topsoil must not inhibit vegetation growth.
- 3) Topsoil must be stockpiled in a designated area away from possible sources of contamination and must be used for re-vegetation/landscaping.

- |  |
|--|
| 4) Overburden (soil/rocks) material must be disposed-of safely at a licensed facility, where it cannot be re-used. |
| 5) Shaping of remaining profile must blend in with the gradients of the surrounding landscape.                     |
| 6) Soil erosion must be controlled on site during all phases of the development.                                   |
| 7) All stockpiles must not cause visual impact in the area.  |

**Heritage Specification (Development and Operational phase)**

- |  |
|--|
| 1) Should an object of archaeological importance be identified, work in that area must be stopped and the incident must immediately be reported to the nearest South African Heritage Resources Agency (SAHRA) offices in order to comply with the National Heritage Resources Act, 1999 (Act No. 25 of 1999). |
|--|

## ACTIVITY SPECIFIC ENVIRONMENTAL MANAGEMENT SPECIFICATIONS

## **APPENDIX 3**

### **GPWEMF ZONES**

**GAUTENG PROVINCIAL ENVIRONMENTAL  
MANAGEMENT FRAMEWORK (GPEMF)  
ZONE 1 FOR THE APPLICATION OF THE  
GPEMF STANDARD**

**DESCRIPTION:**

Map illustrating the location of zone 1 in which the GPEMF Standard is applicable.

**LEGEND:**

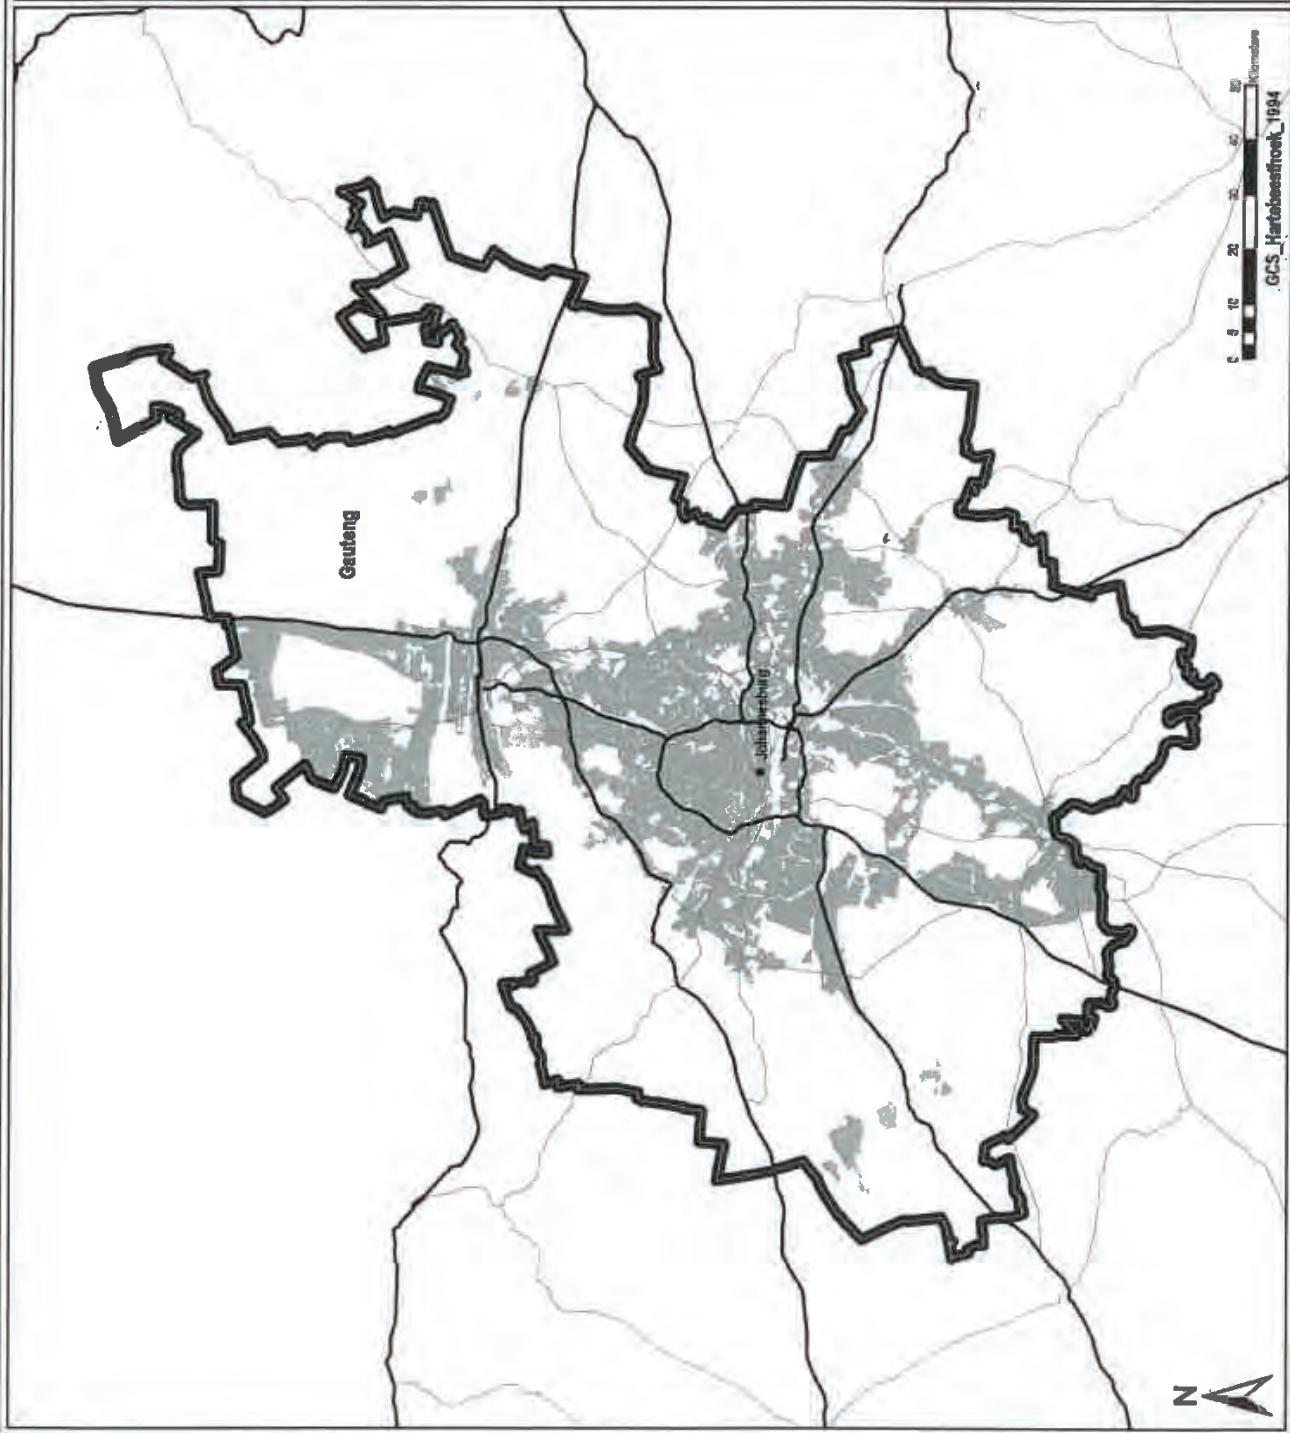

- Cities/Towns
- Aerial Roads
- National Roads
- Zone 1 - Urban Development Zone
- Gauteng Province

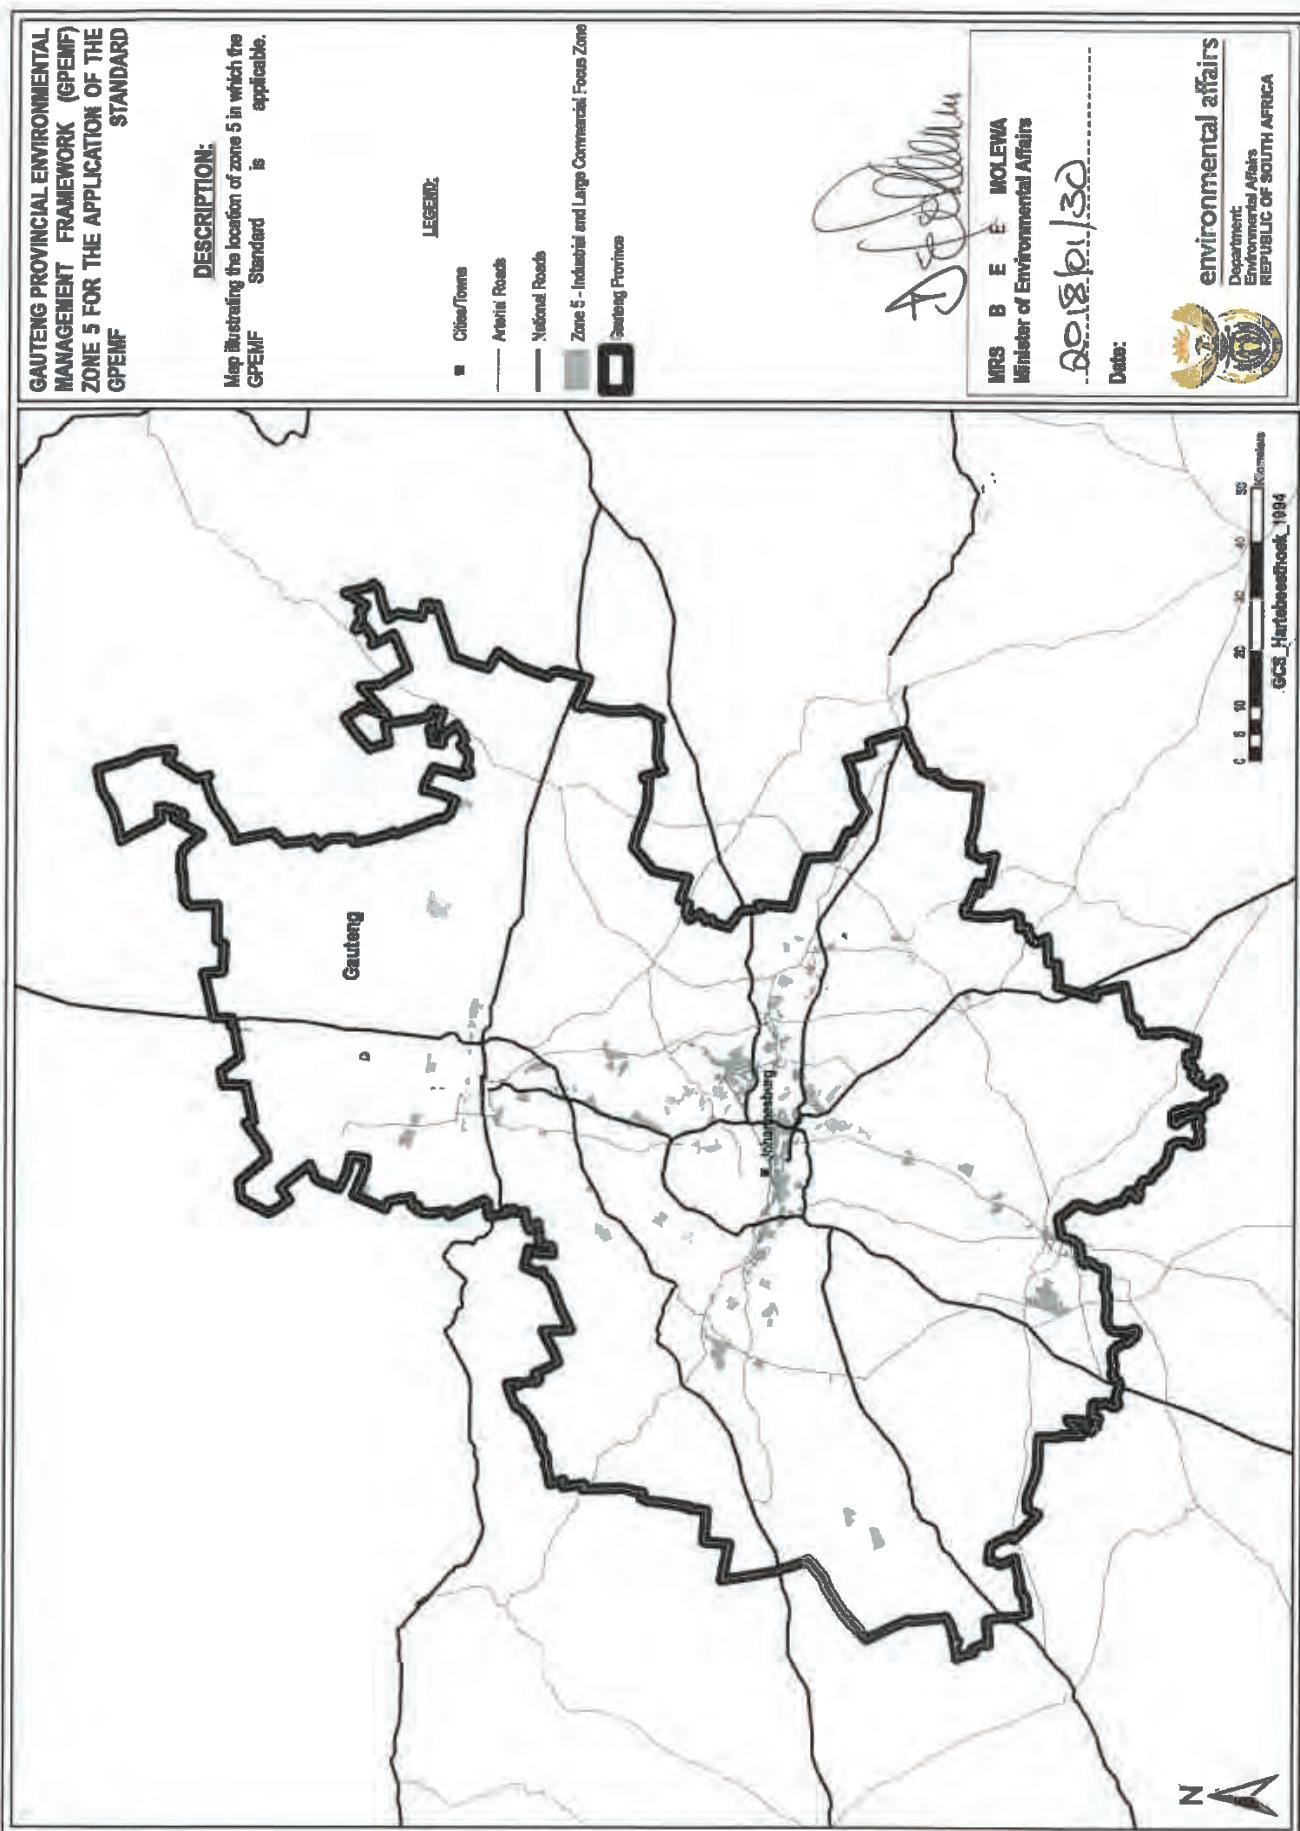

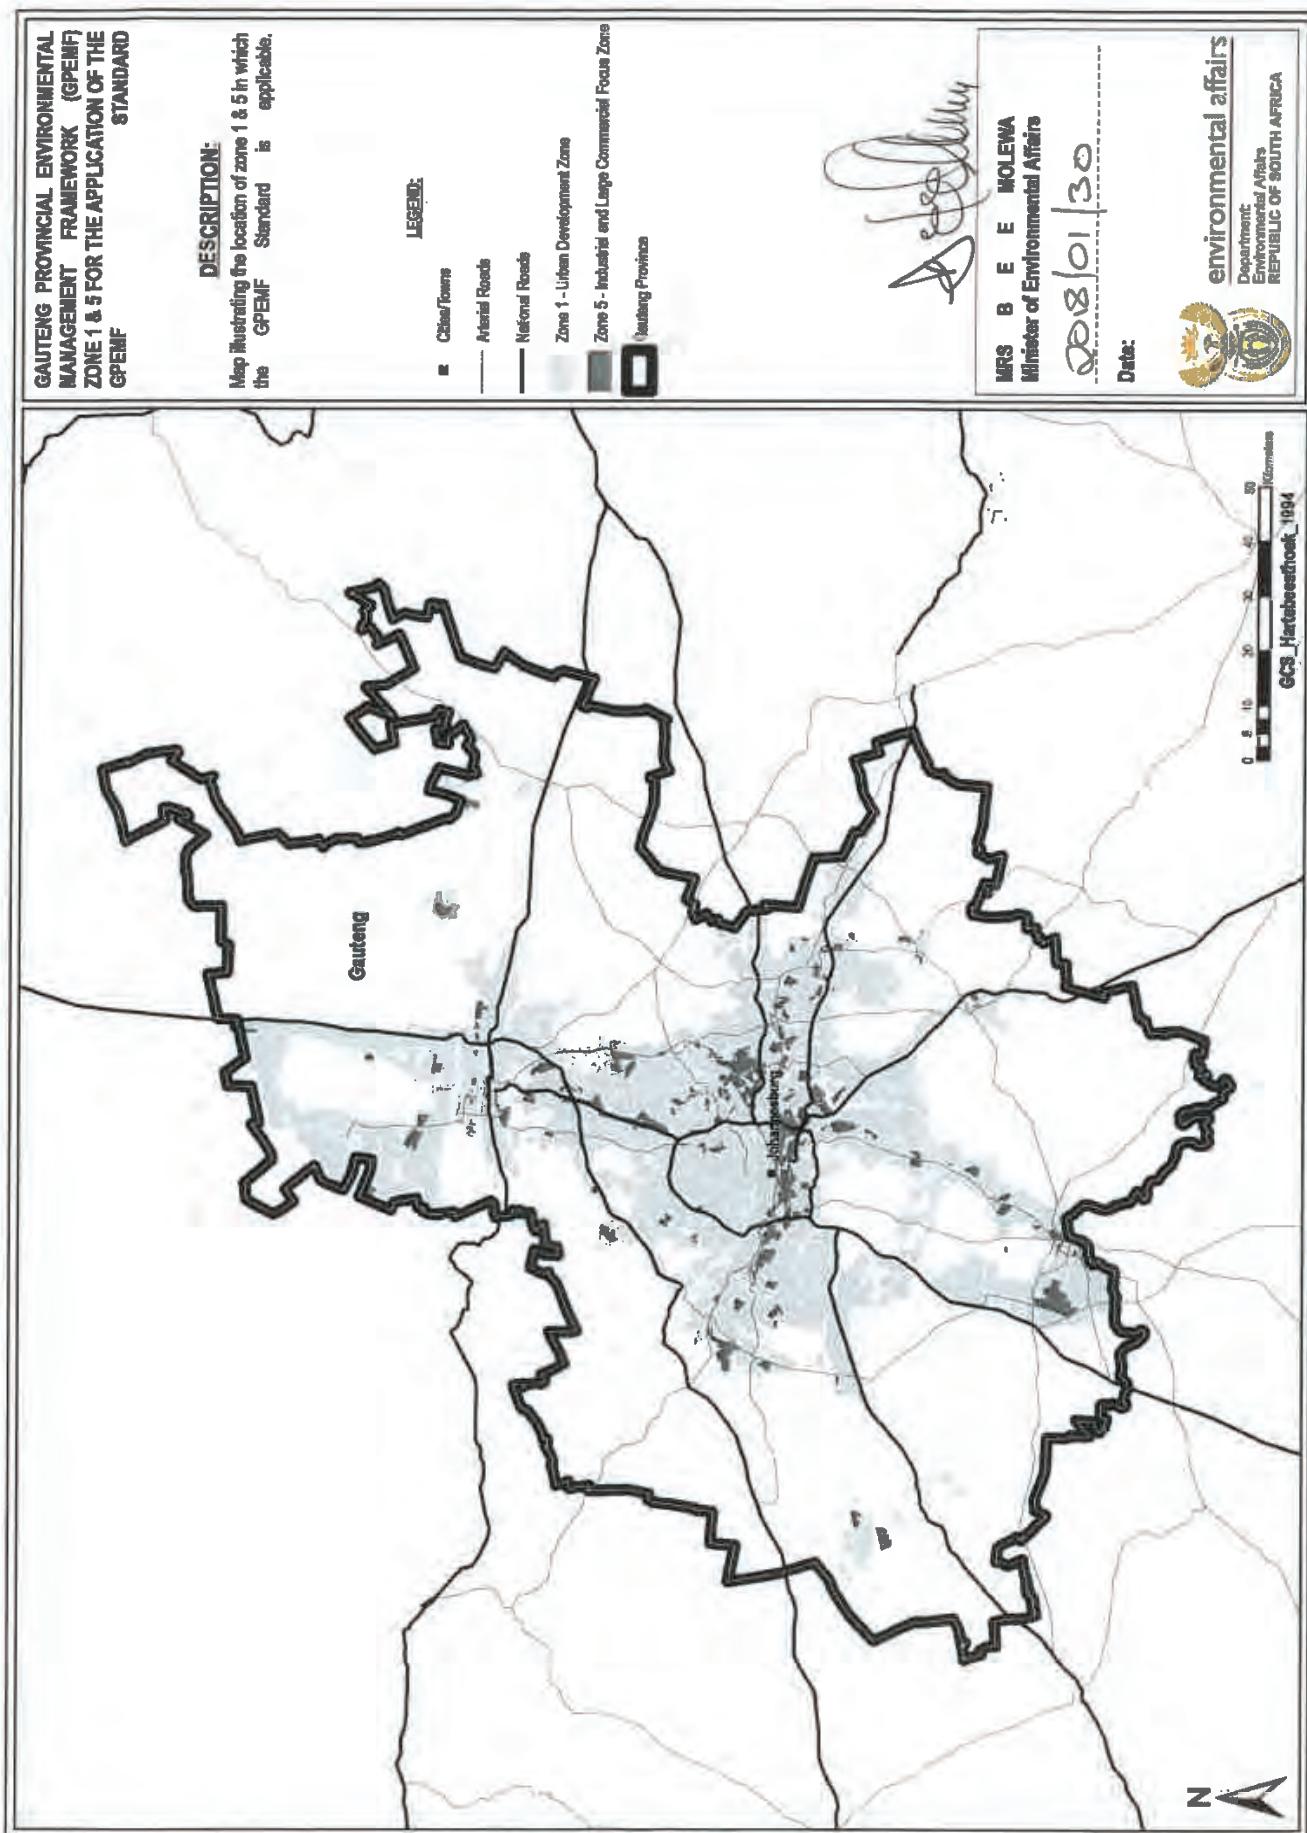

MRS B E E MOLEWA  
Minister of Environmental Affairs

2018/01/30

Date:

**APPENDIX 4**

| <b>REGISTRATION FORM<br/>A REQUEST TO BE REGISTERED AND INTENT TO COMPLY WITH THE GPEMF STANDARD</b> |   |
|--|---|
| <b>FOR OFFICE USE ONLY</b>   |   |
| Date Registration Form Received  |   |
| Outcome of Evaluation of the Registration Form   | <input type="checkbox"/> Accepted <input type="checkbox"/> Rejected |
| If rejected, provide reasons:  |   |
| Registration Number  |   |

**Kindly note that:**

1. All fields must be completed in full; submission of incomplete information will result in automatic rejection.
2. Declaration of whether the registration is a first or a re-submission.
3. This form must be used in all instances for request for registrations that must be subjected to an excluded activity related to the GPEMF Standard in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) as amended.
4. This form is current as of the date of commencement of the Standard, as indicated in the Government Gazette. It is the responsibility of the proponent to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
5. The required information must be typed within the spaces provided in the form. The size of the space provided is not necessarily indicative of the amount of information to be provided. It is in the form of a table that will expand itself as each space is filled with typing.
6. Incomplete documentation will be rejected.
7. The use of "not applicable" in the form must be done with circumspection. Where it is used in respect of material information that is required by the competent authority for assessing the registration, this will result in the rejection of the registration as provided for in the regulations.
8. Unless protected by law, all information contained in, and attached to this registration, will become public information on receipt by the competent authority. Upon request, any interested and affected party should be provided with the information contained in and attached to this registration.
9. An original hard copy (1) of this form must be submitted to the Department at the Registry Office. The competent authority will also accept online submissions as and when the system comes into effect. All information submitted on the hard copy must be duplicated on the soft copy as a PDF document on the CD. The electronic copy on a CD must be accompanied with a shapefile (WGS84).
10. No faxed or e-mailed registration form will be accepted. Only hand delivered or posted registration forms will be accepted.
11. The relevant guidelines as quoted in the GPEMF Standard, can be obtained from the departmental website: [www.gdard.gov.za](http://www.gdard.gov.za) or [www.environment.gov.za](http://www.environment.gov.za) or the relevant departmental Registration Unit.

**INCORRECTLY COMPLETED AND INCOMPLETE REGISTRATION FORMS WILL NOT BE CONSIDERED**

## DEPARTMENT OF HIGHER EDUCATION AND TRAINING

NO. 165

02 MARCH 2018

**HIGHER EDUCATION ACT, 1997 (ACT NO.101 OF 1997)****MINIMUM ADMISSION REQUIREMENTS FOR HIGHER CERTIFICATE, DIPLOMA  
AND BACHELOR'S DEGREE PROGRAMMES FOR HOLDERS OF THE SENIOR  
CERTIFICATE (AMENDED) AND THE REVOCATION OF DESIGNATED LIST OF  
SUBJECTS**

I, Hlengiwe Buhle Mkhize, Minister of Higher Education and Training, in terms of section 3 of the Higher Education Act, 1997 (Act No.101 of 1997), as amended, hereby promulgate an amendment to the policy for the *Minimum Admission requirements for Higher Certificate, Diploma and Bachelor's Degree programmes requiring a Senior Certificate* so as to accommodate candidate awarded a Senior Certificate (amended) issued in terms of the policy, A Résumé of Subjects for the Senior Certificate, Report 550 (2017/07) published in Government Gazette Notice No. 612 and 613 in Government Gazette, No. 37902 dated 11 August 2014.

I am also revoking the designated list of subjects with immediate effect.

This policy will be applicable to all higher education institutions and will be effective immediately.

In that this policy enables Umalusi, the Quality Council for General and Further Education, acting in terms of its mandate and applicable law, to endorse the certificates of qualifying candidates, and in that qualifying candidates in 2015 and 2016 were disadvantaged by the policy vacuum, this policy will be retrospective to January 2015 in order to allow Umalusi to endorse the certificates of qualifying candidates.

  
**Prof HB Mkhize, MP****Minister of Higher Education and Training****Date: 13/12/2017**

## SCHEDULE

### MINIMUM ADMISSION REQUIREMENTS FOR HIGHER CERTIFICATE, DIPLOMA AND DEGREE PROGRAMMES REQUIRING A SENIOR CERTIFICATE (AMENDED)

#### 1. Policy considerations

The Higher Education Act, 1997, ensures that policies for higher education institutions, including admission policies, must be formulated with due regards for its relationship to and influence on education and training in other sectors. In particular such policies are expected to advance the objectives of redress, equity and quality in higher education. This policy provides the statutory minimum or threshold norms for admission to undergraduate Higher Certificate, Diploma and Bachelor's Degree programmes for holders of the Senior Certificate (amended) (SC(a)). This is a qualification for adult learners, and as such the policy fills an important policy vacuum.

The SC(a) will thus provide a gateway into higher education. Where the minimum requirements set out in this policy have been met, a qualifying candidate is not guaranteed admission to any programme of study in higher education. Public higher education institutions have, within the context of this policy, the right to set specific admission requirements to particular programmes in terms of section 37 of the Act. Private higher education institutions may also set additional admission requirements for entry into accredited programmes.

The SC(a) is a qualification aimed at adult learners. However, there will be adult learners who do not achieve a National Senior Certificate (NSC), a National Certificate Vocational (NC(V)) or an SC(a) or equivalent qualification, who can benefit from higher education. Alternative access routes are

available through Universities South Africa and its Matriculation Board, and institutional admissions policies of public and private HEIs.

**2. Minimum requirements for admission to Higher Certificate, Diploma and Bachelor's Degree programmes in public and private higher education institutions in South Africa**

**2.1 Higher Certificate**

The minimum admission requirement is a Senior Certificate issued under the August 2014 regulations for the Senior Certificate published under Government Notices 612 and 613 of August 2014 for the SC(a) with a minimum of 30% in the language of learning and teaching in the case of NSC/SC(a) and with a minimum of 33.3% in the case of SC (Report 550) of the higher education institution as certified by the Quality Council for General and Further Education and Training (Umalusi).

*Institutional and programme needs may require appropriate combinations of subjects and levels of achievement*

**2.2 Diploma**

The minimum admission requirement is a Senior Certificate issued under the August 2014 regulations for the Senior Certificate published under Government Notices 612 and 613 of August 2014 for the SC(a) with a minimum of 30% in the language of learning and teaching in the case of NSC/SC(a) and with a minimum of 33.3% in the case of SC (Report 550) of the higher education institution as certified by the Quality Council for General and Further Education and Training (Umalusi) coupled with:

- (a) If the candidate offered six NSC/SC(a) 20-credit subjects, an achievement rating of 3 (40%) or better in four NSC/SC(a) subjects; or
- (b) If the candidate offered a mix of SC (Report 550), NSC and SC(a) 20-credit subjects, and passes an achievement rating of 3 (40%) or better in at least four subjects, which must be Higher Grade SC and/or NSC and/or

SC(a) subjects, provided that a candidate may complete one Standard Grade SC subject at 50% or better in place of one Higher Grade SC subject at 40% or better.

***Institutional and programme needs may require appropriate combinations of subjects and levels of achievement.***

### **2.3 Bachelor's Degree**

The minimum admission requirement is a Senior Certificate issued under the August 2014 regulations for the Senior Certificate published under Government Notices 612 and 613 of August 2014 for the SC(a) with a minimum of 30% in the language of learning and teaching in the case of NSC/SC(a) and with a minimum of 33.3% in the case of SC (Report 550) of the higher education institution as certified by the Quality Council for General and Further Education and Training (Umalusi) coupled with:

- (a) If the candidate offered six NSC/SC(a) 20-credit subjects, an achievement rating of 4 (50%) or better in four NSC/SC(a) subjects; or
- (b) If the candidate offered a mix of SC (Report 550), NSC and SC(a) 20-credit subjects, and passes an achievement rating of 4 (50%) or better in at least four subjects, which must be Higher Grade SC and/or NSC and/or SC(a) subjects.

***Institutional and programme needs may require appropriate combinations of subjects and levels of achievement***

## DEPARTMENT OF HIGHER EDUCATION AND TRAINING

NO. 166

02 MARCH 2018

## NATIONAL QUALIFICATIONS FRAMEWORK ACT, 2008 (ACT NO. 67 OF 2008)

CALL FOR NOMINATIONS OF A MEMBER FROM THE ORGANISED LABOUR FOR  
APPOINTMENT TO THE BOARD OF THE SOUTH AFRICAN QUALIFICATIONS  
AUTHORITY

I, Hlengiwe Buhle Mkhize, Minister of Higher Education and Training, in terms of section 14(3)(a) and (4)(d) read with section 15(3) of the National Qualifications Framework Act No. 67 of 2008, hereby invite nominations for the appointment to the South African Qualifications Authority (SAQA) Board of a member from organised labour.

All nominations must be submitted by completing the Nomination Form attached hereto as **Schedule 1** which must be accompanied by the following documents:

- A comprehensive *curriculum vitae* of the nominee;
  - Full names of the individual or organisation making the nomination;
  - The nominee's signed written acceptance of the nomination; and
- Certified copies of all qualifications of the nominee.

The closing date for the receipt of nominations is **21 working days** from the date of publication of this Notice.

Please address all correspondence and any related enquiries to:

The Director-General  
Department of Higher Education and Training

Prof HB Mkhize, MP

Minister of Higher Education and Training

Date: 13/12/2017

**SCHEDULE 1****APPOINTMENT OF A MEMBER FROM THE ORGANISED LABOUR ON THE BOARD OF  
THE SOUTH AFRICAN QUALIFICATIONS AUTHORITY****NOMINATION FORM****A The Nominee**

I, \_\_\_\_\_ hereby nominate  
\_\_\_\_\_ whose

curriculum vitae is attached for membership to the South African Qualifications Authority (SAQA) Board.

**B In terms of Section 14(3b)(i-vi), in order to ensure that the functions of the SAQA are performed according to the highest professional standards, the person I am nominating:**

1. Is broadly representative of the education and training sectors and related interests

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

2. Has thorough knowledge and understanding of education and training

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

3. Appreciates the role of education and training in the reconstruction and transformation of the South African economy and society

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

4. Has known and attested commitment to the interests of education and training

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

5. Has knowledge and understanding of qualifications matters and quality assurance in education and training

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

6. Is competent to undertake the governance and oversee the financial affairs of the SAQA

Motivation/Detail: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**C In terms of Section 14(3)(c) the Minister is required to give due attention to the representivity of the Board in terms of such factors as race, gender and disability.**

1. The nominee considers himself/herself to be representative of which **race**: \_\_\_\_\_

2. **Gender**     Male     Female

3. **Disability:**     Yes     No

If Yes to 3, describe: \_\_\_\_\_

**Acceptance of the nomination by nominee:**

I, \_\_\_\_\_ hereby accept the above nomination.

Contact Details (Email, Tel No, Cell No.): \_\_\_\_\_

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**Please complete:**

1. Name of organisation: \_\_\_\_\_
2. Name of mandated official making the nomination: \_\_\_\_\_
3. Designation/Position of the mandated official: \_\_\_\_\_
4. Contact Details of mandated official: \_\_\_\_\_

## DEPARTMENT OF RURAL DEVELOPMENT AND LAND REFORM

NO. 167

02 MARCH 2018

## GENERAL NOTICE IN TERMS OF THE RESTITUTION OF LAND RIGHTS ACT, 1994 (ACT NO. 22 OF 1994), AS AMENDED

Notice is hereby given in terms of Section 11(1) of the Restitution of Land Rights Act (Act No. 22 of 1994), as amended, that a claim for restitution of land rights has been lodged on portion 17 of the farm Belvedere 362 KT and Portions 9,12,15,19,22,25,28,29 and 30 of farm Kennedy's Vale 361 KT - These properties are situated within the Greater Tubatse Local Municipality in Sekhukhune District Municipality of Limpopo Province in the Republic of South Africa.

The properties are claimed by Mosehla Makola Isaac on behalf of Bakgatla Ba Mosehla Community under reference number KRP 805.

The Table below indicates the current description of the properties after the dispossession of Bakgatla Ba Mosehla

**SOUTH AFRICAN REVENUE SERVICE****NO. 169****02 MARCH 2018****DETERMINATION OF THE DAILY AMOUNT IN RESPECT OF MEALS AND  
INCIDENTAL COSTS FOR PURPOSES OF SECTION 8(1) OF THE INCOME  
TAX ACT, 1962 (ACT NO. 58 OF 1962)**

By virtue of the powers vested in me by section 8(1)(c)(ii) of the Income Tax Act, 1962 (Act No. 58 of 1962), I, Thomas Swabihi Moyane, Commissioner for the South African Revenue Service, hereby determine in the Schedule hereto the amounts which shall be deemed to have been actually expended by a person in respect of meals and incidental costs for the purposes of section 8(1)(a)(i)(bb) of that Act.

The amounts determined in this notice apply in respect of the year of assessment commencing 1 March 2018.

**TS MOYANE**  
**COMMISSIONER FOR THE SOUTH AFRICAN REVENUE SERVICE**

## SCHEDULE

1. Unless the context otherwise indicates, any word or expression to which a meaning has been assigned in the Income Tax Act, 1962, bears the meaning so assigned.
2. The following amounts will be deemed to have been actually expended by a recipient to whom an allowance or advance has been granted or paid—
  - (a) where the accommodation, to which that allowance or advance relates, is in the Republic and that allowance or advance is paid or granted to defray—
    - (i) incidental costs only, an amount equal to R128.00 per day; or
    - (ii) the cost of meals and incidental costs, an amount equal to R416.00 per day; or
  - (b) where the accommodation, to which that allowance or advance relates, is outside the Republic and that allowance or advance is paid or granted to defray the cost of meals and incidental costs, an amount per day determined in accordance with the following table for the country in which that accommodation is located—

**Table: Daily Amount for Travel Outside the Republic**

**SUID-AFRIKAANSE INKOMSTEDIENS****NO. 169****02 MAART 2018****BEPALING VAN DAGTOELAE TEN OPSIGTE VAN ETES EN TOEVALLIGE  
UITGAWES VIR DOELEINDES VAN ARTIKEL 8(1) VAN DIE  
INKOMSTEBELASTINGWET, 1962 (WET NO. 58 VAN 1962)**

Kragtens die bevoegdheid aan my verleen deur artikel 8(1)(c)(ii) van die Inkomstebelastingwet, 1962 (Wet No. 58 van 1962), bepaal ek, Thomas Swabihi Moyane, Kommissaris van die Suid-Afrikaanse Inkostediens, hiermee in die Bylae hierby die bedrae wat geag word werklik deur 'n persoon aangegaan te gewees het ten opsigte van etes en toevallige uitgawes by die toepassing van artikel 8(1)(a)(i)(bb) van daardie Wet.

Die bedrag in hierdie kennisgewing bepaal is van toepassing ten opsigte van die jaar van aanslag wat op 1 Maart 2018 begin.

**TS MOYANE  
KOMMISSARIS VAN DIE SUID-AFRIKAANSE INKOMSTEDIENS**

## BYLAE

1. Tensy uit die samehang anders blyk, dra enige woord of uitdrukking waaraan 'n betekenis in die Inkomstebelastingwet, 1962, toegeskryf is die betekenis aldus daaraan toegeskryf.
2. Die volgende bedrae word geag werklik deur 'n ontvanger aan wie 'n toelae of voorskot toegestaan of betaal is, aangegaan te wees—
  - (a) waar die verblyf waarop die toelae of voorskot betrekking het in die Republiek is en daardie toelae of voorskot betaal of toegestaan is —
    - (i) om slegs toevallige uitgawes te bestry, 'n bedrag gelyk aan R128.00 per dag; of
    - (ii) om die koste van etes en toevallige uitgawes te delg, 'n bedrag gelyk aan R416.00 per dag; of
  - (b) waar die huisvesting waarop daardie toelae of voorskot betrekking het, buite die Republiek is en daardie toelae of voorskot betaal of toegestaan word om die koste van etes en toevallige uitgawes te bestry, 'n bedrag per dag bepaal ooreenkomstig die volgende tabel vir die land waarbinne daardie akkommodasie geleë is—

**Tabel A: Daaglikse bedrag vir reise buite die Republiek**

| Land                | Geldeenheid | Bedrag |

**SOUTH AFRICAN REVENUE SERVICE****NO. 170****02 MARCH 2018****RATE PER KILOMETRE FIXED UNDER SECTION 8(1)(b)(ii) AND (iii) OF  
THE INCOME TAX ACT, 1962**

Under section 8(1)(b)(ii) and (iii) of the Income Tax Act, 1962 (Act No. 58 of 1962), I, Knowledge Malusi Nkanyezi Gigaba, Minister of Finance, hereby determine that the rate per kilometre referred to in that section must be an amount determined in accordance with the Schedule hereto.

A handwritten signature in black ink, appearing to read "KMN-GIGABA".**Minister of Finance**

## SCHEDULE

**1. Definition**

In this Schedule, “**value**” in relation to a motor vehicle used by the recipient of an allowance as contemplated in section 8(1)(b)(ii) and (iii) of the Income Tax Act, 1962, means—

- (a) where that motor vehicle (not being a motor vehicle in respect of which paragraph (b)(ii) of this definition applies) was acquired by that recipient under a *bona fide* agreement of sale or exchange concluded by parties dealing at arm’s length, the original cost thereof to him/her, including any value-added tax but excluding any finance charge or interest payable by him/her in respect of the acquisition thereof;
- (b) where that motor vehicle—
  - (i) is held by that recipient under a lease contemplated in paragraph (b) of the definition of “instalment credit agreement” in section 1 of the Value-Added Tax Act, 1991; or
  - (ii) was held by him/her under such a lease and the ownership thereof was acquired by him/her on the termination of the lease,
 the cash value thereof as contemplated in the definition of “cash value” in section 1 of the Value-Added Tax Act; or
- (c) in any other case, the market value of that motor vehicle at the time when that recipient first obtained the vehicle or the right of use thereof, plus an amount equal to value added tax which would have been payable in respect of the purchase of the vehicle had it been purchased by the recipient at that time at a price equal to that market value.

**2. Determination of rate per kilometre**

The rate per kilometre referred to in section 8(1)(b)(ii) and (iii) must, subject to the provisions of paragraph 4, be determined in accordance with the cost scale set out in paragraph 3, and must be the sum of—

- (a) the fixed cost divided by the total distance in kilometres (for both private and business purposes) shown to have been travelled in the vehicle during the year of assessment: Provided that where the vehicle has been used for business purposes during a period in that year which is less than the full period of that year, the fixed cost must be an amount which bears to the fixed cost the same ratio as the period of use for business purposes bears to 365 days;
- (b) where the recipient of the allowance has borne the full cost of the fuel used in the vehicle, the fuel cost; and
- (c) where that recipient has borne the full cost of maintaining the vehicle (including the cost of repairs, servicing, lubrication and tyres), the maintenance cost.

**3. Cost scale**

| Where the value of the vehicle—               | Fixed<br>Cost<br>R | Fuel<br>Cost<br>c/km | Mainte-<br>nance<br>Cost<br>c/km |
|---|--------------------|----------------------|----------------------------------|
| does not exceed R85 000                       | 28 352             | 95.7                 | 34.4                             |
| exceeds R85 000 but does not exceed R170 000  | 50 631             | 106.8                | 43.1                             |
| exceeds R170 000 but does not exceed R255 000 | 72 983             | 116.0                | 47.5                             |
| exceeds R255 000 but does not exceed R340 000 | 92 683             | 124.8                | 51.9                             |
| exceeds R340 000 but does not exceed R425 000 | 112 443            | 133.5                | 60.9                             |
| exceeds R425 000 but does not exceed R510 000 | 133 147            | 153.2                | 71.6                             |
| exceeds R510 000 but does not exceed R595 000 | 153 850            | 158.4                | 88.9                             |
| exceeds R595 000                              | 153 850            | 158.4                | 88.9                             |

**4. Simplified method**

Where—

- (a) the provisions of section 8(1)(b)(iii) are applicable in respect of the recipient of an allowance or advance; and
  - (b) no other compensation in the form of a further allowance or reimbursement (other than for parking or toll fees) is payable by the employer to that recipient,
- that rate per kilometre is, at the option of the recipient, equal to 361 cents per kilometre.

**5. Effective date**

The rate per kilometre determined in terms of this Schedule applies in respect of years of assessment commencing on or after 1 March 2018.

**SUID-AFRIKAANSE INKOMSTEDIENS****NO. 170****02 MAART 2018****SKAAL PER KILOMETER VASGESTEL INGEVOLGE ARTIKEL 8(1)(b)(ii)  
EN (iii) VAN DIE INKOMSTEBELASTINGWET, 1962**

Kragtens artikel 8(1)(b)(ii) en (iii) van die Inkomstebelastingwet, 1962 (Wet No. 58 van 1962), bepaal ek, Knowledge Malusi Nkanyezi Gigaba, Minister van Finansies, hierby dat die skaal per kilometer in daardie artikel bedoel 'n bedrag is wat ooreenkomstig die Bylae hierby vasgestel word.

KMN-GIGABA

**Minister van Finansies**

## BYLAE

**1. Omskrywing**

In hierdie Bylae beteken “**waarde**”, met betrekking tot ’n motorvoertuig deur die ontvanger van ’n toelae gebruik soos in artikel 8(1)(b)(ii) en (iii) van die Inkomstebelastingwet, 1962, beoog—

- (a) waar daardie motorvoertuig (synde nie ’n motorvoertuig ten opsigte waarvan paragraaf (b)(ii) van hierdie omskrywing van toepassing is nie) deur daardie ontvanger verkry is ingevolge ’n *bona fide* verkoop- of ruiloooreenkoms gesluit tussen partye wat onder uiterste voorwaardes beding is, die oorspronklike koste daarvan vir hom/haar, met inbegrip van enige belasting op toegevoegde waarde maar uitgesluit enige finansieringskoste of rente deur hom/haar betaalbaar ten opsigte van die verkryging daarvan;
- (b) waar daardie motorvoertuig—
  - (i) ingevolge ’n verhuringsooreenkoms soos beoog in paragraaf (b) van die omskrywing van “paalement-kredietooreenkoms” in artikel 1 van die Wet op Belasting op Toegevoegde Waarde, 1991, deur daardie ontvanger gehou is; of
  - (ii) ingevolge so ’n verhuringsooreenkoms deur hom/haar gehou was en eiendomsreg daarvan na afloop van die verhuringsooreenkoms deur hom/haar verkry is,
 die kontantwaarde daarvan soos beoog in die omskrywing van “kontantwaarde” in artikel 1 van die Wet op Belasting op Toegevoegde Waarde; of
- (c) in enige ander geval, die markwaarde van daardie motorvoertuig op die tydstip toe daardie ontvanger vir die eerste maal die voertuig of die reg van gebruik daarvan verkry het, tesame met ’n bedrag gelykstaande aan belasting op toegevoegde waarde wat ten opsigte van die aankoop van die voertuig betaalbaar sou gewees het indien dit op daardie tydstip teen ’n prys gelykstaande aan daardie markwaarde deur die ontvanger aangekoop sou gewees het.

**2. Vasstelling van skaal per kilometer**

Die skaal per kilometer in artikel 8(1)(b)(ii) en (iii) bedoel, word, behoudens die bepalings van paragraaf 4, bepaal ooreenkomstig die kosteskaal in paragraaf 3 vervat, en is die som van—

- (a) die vaste koste gedeel deur die totale afstand in kilometers (vir beide private en besigheidsdoeleindes) wat bewys word gedurende die jaar van aanslag in die voertuig afgelê te gewees het: Met dien verstande dat waar die voertuig gedurende ’n tydperk in daardie jaar vir besigheidsdoeleindes gebruik is wat minder is as die volle tydperk van daardie jaar, sal die vaste koste ’n bedrag wees wat in dieselfde verhouding tot die vaste koste staan as die verhouding waarin die tydperk van gebruik vir besigheidsdoeleindes tot 365 dae staan;
- (b) waar die ontvanger van die toelae die volle koste gedra het van die brandstof wat in die voertuig gebruik is, die brandstofkoste; en

- (c) waar daardie ontvanger die volle koste gedra het van die instandhouding van die voertuig (met inbegrip van herstelwerk, diens, smering en bande), die instandhoudingskoste.

### **3. Kosteskaal**

| Waar die waarde van die voertuig—            | Vaste<br>koste<br>R | Brand-<br>stof<br>koste<br>c/km | Instand-<br>houdings-<br>koste<br>c/km |

| R595 000 te bowe gaan                        | 153 850             | 158.4                           | 88.9                                   |

### **4. Vereenvoudigde metode**

Waar—

- (a) die bepalings van artikel 8(1)(b)(iii) ten opsigte van 'n ontvanger van 'n toelae of voorskot van toepassing is; en  
 (b) geen ander vergoeding in die vorm van 'n verdere toelae of terugbetaling (behalwe vir parkering of tolgeld) deur die werkgewer aan die ontvanger betaalbaar is nie,

is die tarief per kilometer, na keuse van die ontvanger, gelykstaande aan 361 sent per kilometer.

### **5. Effektiewe datum**

Die tarief per kilometer kragtens hierdie Bylae bepaal, is van toepassing ten opsigte van jare van aanslag wat op of na 1 Maart 2018 begin.

**UPHIKO LWEZOKUQOQWA KWENTELA ENINGIZIMU AFRIKA**

No. Ndasa 2018

**INANI ELIBEKIWE NGEKHILOMITHA NGAPHANSI KWESIGABA  
8(1)(b)(ii) NO (iii) SOMTHETHO WENTELA YENGENISO WONYAKA WE-  
1962**

Ngaphansi kwesigaba 8(1)(b)(ii) no (iii) soMthetho Wentela Yengeniso Wonyaka, we-1962 (uMthetho No. 58 ka-1962), mina, Knowledge Malusi Nkanyezi Gigaba, uNgqongqoshe Wevezimali, ngalokhu nginquma ukuthi indlelakubala ezosetshenziswa maqondana nekhilomitha ngalinye okukhulunywa ngalo kulesi sigaba kumele ibe yisibalo esinqunywe ngokuhambisana nale Sheduli elandelayo.

**UNgqongqoshe Wevezimali**

## ISHEDULI

**1. Izincuzelo zamagama assetshenzisiwe**

Kule Sheduli, “**inani**” uma kukhulunywa ngemoto esetshenziswa umuntu othola isibonelelo njengoba kuhlinzekelwe esigabeni 8(1)(b)(ii) kanye no-(iii) soMthetho Wentela Yengeniso ka-1962, kushiwo—

- (a) uma leyo moto (okungeyona imoto okukhulunywe ngayo endimeni (b)(ii) yalezi zincazelot) itholwe yilovo muntu ngaphansi kwesivumelwano esisemthethweni sokudayiselana noma sokunikana esisayinwe yizinhlangothi zombili ngokunikana inani layo, kubandakanya yonke intela eyengeziwe yentengo kodwa kungabandakanyi izindleko ze-akhawunti noma inzalo okufanele ikhokhwe uyena mayelana nokuthengwa kwaleyo moto;
- (b) lapho leyo moto—
  - (i) isetshenziswa yilovo muntu ngaphansi kwesivumelwano sokuqashiselana okukhulunywe ngaso endimeni (b) yencazelot ye“sivumelwano sesikweletu esikhokhwa ngamancozuncouz” esigabeni 1 soMthetho Wentela Yentengo Eyengeziwe, ka-1991; noma
  - (iii) yayigcinwe uyena ngaphansi kwesivumelwano sokuqashiselana futhi ethole ubunikazi bayo uma sekuphele isivumelwano sokuqashiselana, inani layo lemali njengoba kuhlinzekelwe encazelweni ye“inani lemali” esigabeni 1 soMthetho Wentela Yentengo Eyengeziwe; noma
- (c) kunoma isiphi esinye isimo, inani lasemakethe laleyo moto ngesikhathi itholwa yilovo muntu okokuqala noma ethola ilungelo lokuyisebenzisa, nemali elingana nentela eyengeziwe yentengo ebizokhokhwa ngesikhathi kuthengwa leyo moto ukube leyo moto ithengwe yilovo muntu ngesikhathi nangemali elingana nentengo ebingathengwa ngayo endaweni okudayiswa kuyna izimoto.

**2. Ukunqunywa kwendlekubala ngekhilomitha ngalinye**

Indlekubala ezosetshenziswa maqondana nekhilomitha ngalinye okukhulunywe ngayo esigabeni 8(1)(b)(ii) no (iii), kuncike kokuhlinzekelwe endimeni 4, kufanele inqunywe ngokwezibalo ezinikezwe endimeni 3, futhi kumele ibe—

- (a) imali yezindleko ezimile ehlukaniswa ngokwebanga elihanjiwe libalwa ngamakhilomitha (ngezinhlos o zomsebenzi noma zangasese) okuvela ukuthi ahanjiwe ngemoto ngalowo nyaka wentela: Kuncike ekutheni uma imoto ibisetshenziselwa izinhlos o zebhizinisi ngesikhathi esithile ngalowo nyaka kodwa kungewona wonke unyaka, izindleko ezimile kumele kube yisamba esiveza ezindlekweni ezimile izilinganiso ezifanayo nezangesikhathi imoto ebitshenziselwa ngaso ibhizinisi esikhathini esiyizinsuku ezingu-365;
- (b) lapho othola isibonelelo ethwale zonke izindleko zikaphethiloli/udizili osetshenziswe emotweni, izindleko zalovo phethiloli/udizili; futhi

- (c) uma lowo muntu ethwale zonke izindleko zokunakekela imoto (kubandakanya izindleko zokuyikhanda, ukuyisevisa, ukuyifaka uwoyela namathayi), izindleko zokuyinakekela.

### **3. Izilinganiso zezindleko**

| Uma inani lemoto —                           | Izindleko ezimile<br>R | Izindleko<br>zikaphe-<br>thiloli /<br>zikadizili<br>c/km | Izindleko<br>zokuyi-<br>nakekela<br>c/km |

## DEPARTMENT OF TRADE AND INDUSTRY

NO. 172

02 MARCH 2018

**NATIONAL REGULATOR FOR COMPULSORY SPECIFICATIONS ACT  
(Act No 5 of 2008), AS AMENDED THROUGH THE LEGAL METROLOGY  
ACT (Act No 9 of 2014)**

**THE PROPOSED COMPULSORY SPECIFICATION FOR POLYMER FILM  
FOR DAMP-PROOFING AND WATERPROOFING IN BUILDINGS**

It is hereby made known under section 13(4) of the National Regulator for Compulsory Specifications Act, (Act 5 of 2008), that the Minister of Trade and Industry, intends to promulgate a compulsory specification for Polymer film for damp-proofing and waterproofing in buildings (VC 9106), as set out in the attached Schedule.

Any person who wishes to comment on the intention to promulgate the compulsory specification concerned, may submit their comments in writing, to the Chief Executive Officer, National Regulator for Compulsory Specifications, Private Bag X25, Brooklyn, 0075, on or before the date two (2) months after the publication of this notice.

**Dr Rob Davies, MP**  
**Minister of Trade and Industry**

## SCHEDULE

VC 9106

### THE COMPULSORY SPECIFICATION FOR POLYMER FILM FOR DAMP-PROOFING AND WATERPROOFING IN BUILDINGS

#### 1. Scope

This compulsory specification specifies requirements for Polymer film for damp-proofing and waterproofing in buildings (herein after referred to as Polymer film) in accordance with the scopes of **SANS 952 parts 1 and 2, Polymer film for damp-proofing and waterproofing in buildings**.

#### 2. Normative references

The following documents are mandatory for the application of this compulsory specification:-

**2.1** National Regulator for Compulsory Specifications Act, 2008 (Act No. 5 of 2008), as amended as amended through the Legal Metrology Act (Act no. 9 of 2014);

**2.2** Regulations in terms of section 36 of the National Regulator for Compulsory Specifications Act, 2008 published in Government Notice No. R. 924 (Government Gazette No. 33615) of 15 October 2010;

**2.3** The NRCS's Conformity Assessment Policy (NRCS- CPO 112);

**2.4** **SANS 952-1, Polymer film for damp proofing and waterproofing in buildings, Part 1: Monofilament and co-extruded products; and**

**2.5** **SANS 952-2, Polymer film for damp proofing and waterproofing in buildings, Part 2: Laminated (non-woven) products, as applicable to the type of the Polymer film.**

### 3. Definitions

**3.1** The definitions in **SANS 952 parts 1 and 2, Polymer film for damp-proofing and waterproofing in buildings** apply for the purposes of this compulsory specification.

**3.2** In addition, the following definitions apply:-

**3.2.1 Approval:** confirmation by the NRCS that a particular supplier (manufacturer/importer) of a type of Polymer film satisfies the requirements of this compulsory specification;

**3.2.2 Applicant:** a manufacturer or importer of a type of Polymer film who must be an established legal business entity within the Republic of South Africa;

**3.2.3 Conformity Assessment Body:** An accredited body that performs conformity assessment services such as testing, inspection and certification against the requirements of SANS 952 parts 1 and 2;

**3.2.4 Conformity of Production:** measures put in place by an Applicant to ensure that subsequent products continue to meet and conform to the approved type and to monitor that these arrangements continue to be effective during the life of the approval;

**3.2.5 A Letter of Authority certificate:** as defined in section 1 of the National Regulator for Compulsory specifications Act of 2008 (Act No. 5 of 2008) as amended through the Legal Metrology Act (Act no. 9 of 2014); and issued in accordance with Annexure A of this compulsory specification.

**3.2.6 NRCS:** the National Regulator for Compulsory specifications as established by the NRCS Act, 2008 (Act No. 5 of 2008) as amended through the Legal Metrology Act (Act no. 9 of 2014);and

**3.2.7 Type of film:** Polymer film of the same construction materials, dimensions and type designation.

#### 4. Specific requirements

4.1 Polymer film for damp-proofing and waterproofing in buildings must comply with the latest editions of **SANS 952-1**, *Polymer film for damp proofing and waterproofing in buildings, Part 1: Monofilament and co-extruded products*; and **SANS 952-2**, *Polymer film for damp proofing and waterproofing in buildings, Part 2: Laminated (non-woven) products*, as applicable to the type of the Polymer film.

4.2 Annexures A in **SANS 952 -1** and **SANS 952 -2** are excluded for the purposes of this compulsory specification.

4.3 Each type of Polymer film must be approved in accordance with the requirements of Annexure A of this compulsory specification before it is imported, sold, or supplied in the Republic of South Africa.

4.4 Polymer film must be manufactured to conform to the type approved under this Compulsory specification. A manufacturer or importer must control production and conduct routine testing in accordance with Annexure B of this compulsory specification to continuously verify that this condition is met.

4.5 In addition to the markings required on the label of each packaged roll of Polymer film in **SANS 952-1** and **SANS 952-2** as applicable, the label must also be marked prominently and legibly with the NRCS approval number in the following format:

**“NRCS/9106/NRCS CUSTOMER NUMBER/SEQUENTIAL NUMBER”**

4.6 An applicant must inform the NRCS of any change(s) in the constructional changes affecting any mandatory requirement of this compulsory specification and/or the conditions of approval. In the event of such change(s), the NRCS may at its discretion, demand the submission of new evidence of conformity or a new application for approval.

**5. Transitional arrangements regarding conformity to referenced South African National Standards (SANS)**

**5.1** For the purposes of this compulsory specification, a new edition of a referenced SANS shall become effective six months from the date of publication.

**5.2** When a new edition of a referenced SANS is published, products originally approved in accordance with the previous edition of that standard may have their approval extended for up to a year from the effective date of the new standard, subject to the requirements of Annexure A of this compulsory specification, unless declared otherwise by the Minister.

**ANNEXURE A**  
**(Normative)**

**THE APPROVAL OF POLYMER FILM FOR DAMP PROOFING AND WATERPROOFING IN BUILDINGS**

**A1. Application for approval**

**A1.1** An applicant must apply to the NRCS for approval of a type of Polymer film by completing and submitting a prescribed application form that shall be obtained from the NRCS.

**A1.2** The application form referred to in A1.1 shall be accompanied by the following:-

**A1.2.1** details of the manufacturing plant(s) where the Polymer film is produced stored and distributed from; or the physical address where the imported products are received, stored and distributed from;

**A1.2.2** information on the composition, type designation and usage of the Polymer film;

**A1.2.3** evidence of conformity, including a test report issued not more than 12 months before the date of submission to the NRCS, by a testing laboratory recognised in by NRCS in terms of the NRCS's Conformity Assessment Policy;

**A1.2.4** information to the satisfaction of the NRCS regarding the implementation of Conformity of Production and routine testing including a sampling plan according to Clause C.2 of Annexure C of SANS 952 -1 and SANS 952-2; as applicable to the type of Polymer film;

**A1.2.5** a sample of the type of Polymer film together with the packaging and label in which it is to be supplied, including an indication on the label of the intended position of the Approval Number referred to in clause 4.5 of this compulsory specification.

**A1.2.5** proof of payment of fees that are applicable for this compulsory specification; and

**A1.2.6** any additional information relevant to the application for clarification purposes, as may be requested by the NRCS.

## **A2. The issuance of approval**

**A2.1** The NRCS shall grant approval for application submitted in accordance with A1 when satisfied that:-

**A2.1.1** the type of type of Polymer film meets the requirements of this compulsory specification;

**A2.1.2** there are satisfactory arrangements for the effective control of the conformity of production in accordance with the provisions of Annexure B of Compulsory specification; and

**A2.1.2** all applicable fees have been paid in full.

**A2.2** The NRCS shall assign a unique Approval Number to each approved type of Polymer film to be marked on the label of the related type of Polymer film in accordance with clause 4.5 of this compulsory specification.

**A2.3** The NRCS shall confirm approval against the requirements of this VC by issuing to the applicant, a Letter of Authority certificate bearing the unique Approval Number referred to in A2.2 of this compulsory specification.

**A2.4** The NRCS may withdraw the approval granted to the applicant for a type of Polymer film granted in accordance with this compulsory specification, by notifying the applicant in writing, if the requirements have not been met or the approval conditions have not been maintained.

**ANNEXURE B:**  
**(Normative)**

**CONFORMITY OF PRODUCTION AND ROUTINE TESTS**

**B1. The responsibilities of the applicant specific to the assessment of Conformity of Production (COP):**

In agreement with the NRCS, the applicant or an appointed Conformity Assessment Body (CAB) shall carry out conformity control on a statistical sampling on basis:

**B1.1** the applicant must conduct routine tests for each type Polymer Film determined in accordance with clause C.2 of Annexure C of **SANS 952 -1** or **SANS 952-2**, as applicable to the type of film, and record the results of the tests to demonstrate continued conformity with specified requirements of this compulsory specification;

**B1.2** analyse the routine test results of each type of test in order to verify and ensure the conformity of production of each type of Polymer film, making allowances for the variations experienced industrial production; and

**B1.3** take and test further samples in the event where test results show non-conformity with to the tests concerned and take necessary steps to restore conformity of the corresponding production and prevent the sale of non-compliant products.

**B2. The duties of the NRCS specific to the assessment of COP:**

**B2.1** The NRCS may at any time assess the effectiveness of the conformity of production arrangements.

**B2.2** An inspector may select samples for laboratory testing upon suspicion of non-conformance of the control of production.

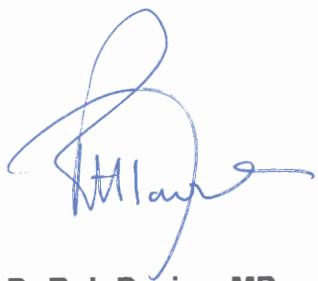

**B2.3** For the production to be considered to conform, tests carried out at a random basis must meet the sampling requirements in table 1 below:

**Table 1: Sampling requirements and type of tests:**

| Tests to be conducted  | Sample size   | Non-compliance criteria   |
|--|---|---|
| Determination of measurement and dimensions (thickness, width and length)                | As required in Regulations under the Legal Metrology Act of 2014 (Act No. 9 of 2014).   | As required in Regulations under the Legal Metrology Act of 2014 (Act No. 9 of 2014). |
| Determination of compositional, mechanical, and physical properties of the Polymer film. | Randomly determined based on lot sizes using appropriately defined criteria to ensure that they are representative of the lot, i.e. taken at random, evenly and throughout. | One non-compliant item.   |
| Marking and packaging requirements   | As required in Regulations under the Legal Metrology Act of 2014 (Act No 9 of 2014).  | One non-compliant item.   |
|  | Randomly determined based on lot sizes using appropriately defined criteria to ensure that they are representative of the lot, i.e. taken at random, evenly and throughout. |   |

**DEPARTMENT OF TRADE AND INDUSTRY****NO. 173****02 MARCH 2018****NATIONAL REGULATOR FOR COMPULSORY SPECIFICATIONS ACT  
(ACT 5 OF 2008) AS AMENDED THROUGH THE LEGAL METROLOGY ACT  
(ACT 9 OF 2014)****AMENDMENT TO THE COMPULSORY SPECIFICATION FOR HYDRAULIC  
BRAKE AND CLUCH FLUID (VC 8013)**

I, Dr Rob Davies, Minister of Trade and Industry, under Section 13(1)(a) of the National Regulator for Compulsory Specifications Act (Act 5 of 2008) hereby declare the amendment of the Compulsory Specification for Hydraulic Brake and Clutch Fluid-VC 8013, as set out in the attached schedule, with effect six (6) months from the date of publication of this notice.

**Dr Rob Davies, MP**  
**Minister of Trade and Industry**

**SCHEDULE****VC 8013****COMPULSORY SPECIFICATION FOR HYDRAULIC BRAKE AND CLUTCH FLUID****1 Scope**

- 1.1 This specification covers the requirements for fluid of the non-petroleum and the non-silicone types suitable for use in automotive hydraulic brake and clutch systems.
- 1.2 Packaging and markings requirements for consumer and non-consumer brake and clutch fluid.

**2 Definitions**

2.1 For the purposes of this specification, the definitions given below and those given in South African National Standard (**SANS**) 1905, *Hydraulic brake and clutch fluid*, shall apply.

**2.1.1 applicant:** a manufacturer including a bottler or packager as defined in 2.1.3 below or importer of hydraulic brake and clutch fluid who is an established legal business entity within the Republic of South Africa.

**2.1.2 packaged (product):** a commodity that is packed in a container, made up as a unit, for which the quantity has been determined and indicated on the package before being offered for sale.

**2.1.3 bottler/packager:** a person who fills containers and/or packs the brake fluid under their own or client brand name or trademark.

**2.1.4 consumer package:** package that is customarily produced for sale to final purchasers through retail sale.

**2.1.5 non-consumer package:** any package, i.e. drums, intermediate bulk containers, intended solely for transportation and/or wholesale distribution to packager/bottler or anyone whom the manufacturer or the importer supplies except retail.

**3 Specific requirements**

- 3.1 Hydraulic brake and clutch fluid shall comply with the requirements of **SANS 1905:2007 Hydraulic brake and clutch fluid**, except for the packing and marking and administrative requirements.

## 4 Packaging and marking requirements

### 4.1 General requirements

- 4.1.1 The markings shall be in one of the official South African languages.
- 4.1.2 The manufacture, importer and packager/bottler shall be responsible for ensuring that packages comply with the requirements of this clause at all times and shall put in place the necessary control measures to ensure effective control of the packing process.

### 4.2 Requirements for manufacturers and importers

#### 4.2.1 General requirements

- 4.2.1.1 The manufacturer or importer shall ensure that the non-consumer package shall be in such a condition as to not be detrimental to the quality of the brake fluid during transportation and storage.
- 4.2.1.2 The manufacturer or the importer shall furnish the bottlers/packager or anyone to whom they supply the non-consumer packaged brake fluid with their name, batch identification number and certificate of analysis.
- 4.2.1.3 The manufacturer or the importer shall ensure that the bottler/packager brand name or trade mark is registered with the Regulatory Authority.
- 4.2.1.4 The manufacturer's or importer's name may be supplied in a code format that will be allocated by the Regulatory Authority, e.g. "NRCS XXXX".
- 4.2.1.5 If the commodity is imported using the importer's name instead of the manufacturer's, the name shall be qualified by a phrase that reveals the connection with the product, for example "manufactured for ...", "distributed by ...", "imported by ...".

#### 4.2.2 Marking for non-consumer package

##### 4.2.2.1 Package shall be marked as follows:

- a) commodity's proper name: "HYDRAULIC BRAKE AND CLUTCH FLUID";
- b) manufacturer name or trademark; and
- c) batch identification number.

## 4.3 Requirements for bottlers/packager

### 4.3.1 General requirements

4.3.1.1 The identity and description of the product shall be of a conspicuous feature, be in such type size and so positioned as to make it easy to read, understood and identified.

### 4.3.2 Marking for consumer package

4.3.2.1 Package shall be marked as follows:

- a) description of the product, "HYDRAULIC BRAKE AND CLUTCH FLUID", or in cases where it is only used for one application, it should be clearly stated, i.e. "HYDRAULIC CLUTCH FLUID ONLY";
- b) bottlers/packager brand name or trade mark;
- c) name of the manufacturer or importer in code allocated;
- d) place of business of the packer/bottler, either physical address or postal address or both;
- e) batch number, with traceability to source;
- f) grade of the hydraulic and clutch fluid.
- g) boiling points of equilibrium reflux and wet equilibrium reflux;
- h) standard(s) to which brake fluid complies with;
- i) expiry date, which shall be not more than three (3) years after the date of manufacture unless evidence has been provided supporting a longer time period; and
- j) with the following safety warnings:
  - i) "*Keep brake and clutch fluid clean as contamination with dirt, water, petroleum products or other materials may result in brake and clutch failure*", or words to that effect; and
  - ii) "*Keep container clean and tightly closed to prevent absorption of moisture*".
  - iii) *The bold inscription of the word "CAUTION" followed by at least the following warnings for safe handling:*

1. The bold inscription of the statement “**KEEP OUT OF REACH OF CHILDREN**”;
2. The fluid is not suitable for internal use or ingestion, in case of ingestion obtain medical attention;
3. To avoid eye contact, in case of eye contact to flush with running water and get medical attention;
4. Wear Personal Protective Equipment (PPE) where there is a risk of exposure to the fluid, i.e. inhalation, skin contact, eye contact and ingestion;
5. Use in well ventilated areas; and
6. Any other warnings as may be necessary.

**4.3.3 The consumer packaging for the hydraulic and clutch fluid shall:**

- 4.3.3.1** be impervious to and incapable of reacting with its content.
- 4.3.3.2** be sufficiently strong to prevent leakages arising from ordinary risks of handling, storage or transport.
- 4.3.3.3** have sufficient excess capacity to prevent breakage of the container or leakage of the contents if contents are likely to expand during handling, storage or transport.

## 5 Equivalent requirements

5.1 The requirements of the national standard stated in the appropriate table 1 shall be deemed to have been met if compliance with the equivalent standard given in column 4 of the same table, or to any of their later amendment levels is achieved, providing that the requirements of clauses 5.2.2, *Equilibrium reflux boiling point at a pressure of 101,325 kPa*, and 5.2.3, *Wet equilibrium reflux boiling point at a pressure of 101,325 kPa*, of SANS 1905, *Hydraulic brake and clutch fluid*, are complied with.

**TABLE 1:**  
**Equivalent standards that shall be deemed to comply with SANS 1905**

| 1                                | 2        | 3     | 4           |
|----------------------------------|----------|-------|-------------|
| Item                             | SANS No. | Dated | UN ECE      |
| Hydraulic brake and clutch fluid | 1905     | 2007  | SAE J1703/4 |
|                                  |          |       | ISO 4925    |
|                                  |          |       | FVMSS 116   |

**Annexure A**

(Normative)

**A.1 Administrative Process - Hydraulic Brake and Clutch Fluid**

**A.1.1** The Applicant shall formally submit a request for approval for hydraulic brake and clutch fluid intended to be manufactured, imported or packaged, in writing to the Regulatory Authority, providing information of his/her intention to request approval for hydraulic brake and clutch fluid.

**A.1.2** The Regulatory Authority shall forward to the Applicant the relevant approval application documents for hydraulic brake and clutch fluid, requested in 1 above. The application documents shall stipulate the information to be submitted to the Regulatory Authority, and these shall accompany the submitted application.

**A.1.3** The Applicant shall complete the application and provide the necessary requested supporting documentation, and forward it to the Regulatory Authority. The appropriate fee for the approval, as determined by the Minister by Notice in the Government Gazette, shall be paid to the Regulatory Authority.

**A.1.4** Upon receipt of the completed application and the required documents, the Regulatory Authority shall review the documents for correctness, completeness, and authenticity. Incorrect documentation, or insufficient documentation, will be reported to the applicant, for his/her correction.

**A.1.5** The Regulatory Authority shall inspect the sample of hydraulic brake and clutch fluid and verify it against all mandatory requirements and the submitted evidence of conformity in the application documents, to these requirements.

**A.1.6** Any non-compliances identified in 5 above, shall be resolved by the Applicant, to the satisfaction of the Regulatory Authority.

**A.1.7** Once the approval process establishes that the hydraulic brake and clutch fluid complies with all the relevant mandatory requirements, the Regulatory Authority shall issue a formal Letter of Compliance (Approval Letter), to the applicant.

**A.1.8** The original application documents, and copies of supporting evidence of compliance documents, as necessary, shall be taken, and maintained as Approval Records, by the Regulatory Authority.

## **A.2 Source of evidence**

**A.2.1** The evidence of compliance with any of the requirements of any referred-to standard in this compulsory specification, which requires testing to establish compliance, and a test report issued, will only be recognized by the Regulatory

Authority, from the following sources:

- a) A laboratory that is part of an international or regional mutual acceptance scheme, or
- b) A laboratory that is accredited to ISO/IEC 17025 by SANAS or an ILAC affiliated accreditation body, or
- c) The laboratory has been successfully assessed against the requirements of ISO/IEC 17025 to the satisfaction of the Regulatory Authority.

## NOTICE TO CUSTOMERS

**REPORTING OF ANNUAL FINANCIAL STATEMENTS (AFS) TO BE LODGED  
USING EXTENSIBLE BUSINESS REPORTING LANGUAGE (XBRL) AS FROM  
01 JULY 2018, ANNUAL FINANCIAL STATEMENTS IN PDF ARE  
DISCONTINUED**

As from 1 July 2018 all qualifying entities required to submit Annual Financial Statements according to Section 30 and Regulation 30 of the Companies Act, No. 71 of 2008, as amended by Companies Act 3 of 2011, will be required to do so through the digital financial reporting mechanism of eXtensible Business Reporting Language (XBRL) as the only mechanism of submission. This will replace the current mechanism of reporting Annual Financial Statements through the submission of PDF documents.

Section 30 and Regulation 30 of the Companies Act, No. 71 of 2008, as amended by Companies Act 3 of 2011, prescribes requirements for Annual Financial Statement submissions to the Companies and Intellectual Property Commission of South Africa (CIPC). Regulation 30 (5) (a) prescribes the Commission must establish a system to review Annual Financial Statements with the objective of monitoring compliance with the Act. According to Section 6 (13) (a) (iii) the system to be established by the Commission may use any means of electronic communication to facilitate the automated filing of any information contemplated by the Act.

On the CIPC website ([www.cipc.co.za](http://www.cipc.co.za)) relevant information about mandating of XBRL under the menu item "XBRL Programme" is published.

Ady R Voller  
Commissioner: CIPC

**PRACTICE NOTE 6 OF 2011 (revised)  
COMPANIES ACT, 2008****DETAIL REQUIRED FOR REGISTRATION OF EXTERNAL COMPANIES**

The original practice note 6 of 2011 issued in terms of Regulation 4 of the Companies Regulation, 2011 during May 2011 is hereby revised. The content of the original practice note incorrectly referred to CoR21.1 in paragraph 3, instead of CoR21.2.

In order to ensure that the CIPC has relevant and usable information relating to external companies additional information as per CoR20.1, CoR20.1 Annexure A and CoR21.2 is required.

On the CoR20.1, the CIPC requires both the physical and postal address of the principal office of the external company both within and outside of the Republic.

The person who is authorised to accept service of documents on behalf of the external company may only be a natural person and the physical and postal address must be within the Republic. The following additional information of such person, on both the CoR20.1 and CoR21.2 is required:

- Name and surname
- If South African his/her identity number
- If foreign national his/her passport, date of birth and country of origin
- Postal address within the Republic
- Physical address within the Republic
- E-mail or cell phone number

CoR20.1 Annexure A reflects that only natural persons may be directors of an external company which is erroneous. In instances where a director is a juristic person the reference to full name/former name will refer to the name of the juristic person and identity number and passport number refer to its registration number. The e-mail address and/or cell phone number of the director (regardless whether juristic or natural) must be provided. Lastly, reference to occupation may be ignored.

It should be noted that the indicated additional information is mandatory and forms will be rejected if they do not comply.

Yours faithfully,

.....  
Adv. Rory W Voller  
Commissioner: CIPC  
.....

NO. 187

02 MARCH 2018

**MERCHANDISE MARKS ACT, 1941 (ACT 17 1941)****INVITATION FOR THE PUBLIC TO COMMENT ON THE PROHIBITION ON THE USE OF  
THE EKURHULENI METROPOLITAN MUNICIPALITY LOGO**

I, Dr Rob Davies, Minister of Trade and Industry, hereby advertise for public comment in terms of section 15(1) of the Merchandise Marks Act 1941 the use of the logo as depicted in Annexure 1 or similar drawings which might cause confusion with any trade, business, profession or occupation or event, or in connection with any trade mark, mark or trade description applied to goods, save where the use thereof is by the authority of Ekurhuleni Metropolitan Municipality. Proprietors of identical or similar marks already in use will not be affected by this prohibition. The prohibition of this logo / mark will be perpetual and absolute in nature.

Interested persons may submit written comments on the proposed Ekurhuleni Metropolitan Municipality logo within 30 calendar days from the date of publication of this Notice to:

Director-General, Department of Trade and Industry

## DEPARTMENT OF WATER AND SANITATION

02 MARCH 2018

NATIONAL WATER ACT, 1998  
(ACT NO.36 OF 1998)

## RESERVE DETERMINATION OF WATER RESOURCES FOR THE OLIFANTS-DOORN CATCHMENTS

I, Sifiso Mkhize, in my capacity as the Acting Director-General of the Department of Water and Sanitation, having complied with section 13 of the National Water Act, (Act No. 36 of 1998) ("the Act") and Regulation 3 of the Regulations for the establishment of Water Resource Classification System (No. R. 810 Government Gazette No. 33541, 17 September 2010), and duly authorised in terms of sections 16(1) and 63(1)(a) of the Act, after having complied with section 16(2) and (3) of the Act, hereby publish the Reserve Determination of water resources for the Olifants-Doorn catchments.

Director: Reserve Determination  
Attention: Mr Yakeen Atwaru  
Department of Water and Sanitation  
Ndinaye Building 5084  
178 Francis Baard Street  
Private Bag X313  
Pretoria  
0001

Email: [atwaruy@dws.gov.za](mailto:atwaruy@dws.gov.za)

  
MR. SIFISO MKHIZE  
DIRECTOR-GENERAL (ACTING)  
DATE: 13/12/2017

**RESERVE DETERMINATION OF WATER RESOURCES FOR THE CATCHMENTS OF THE OLIFANTS-DOORN IN TERMS OF SECTION 16(1) AND (2) OF THE NATIONAL WATER ACT, 1998 (ACT NO. 36 OF 1998)**

**SCHEDULE**

**1. DESCRIPTION OF WATER RESOURCE**

- 1.1 The Reserve is determined for all or part of every significant water resource within the catchments of the Olifants-Doorn as set out below:

|                        |   |
|------------------------|---|
| Water Management Area: | Berg-Olfants  |
| Catchment:             | Olifants-Doorn  |
| Drainage Regions:      | E Primary Drainage Region   |
| Rivers:                | Olifants-Doorn River System   |
| Estuary:               | Olifants  |
| Catchments excluded:   | Entire Berg catchment and parts of Olifants catchment<br>(i.e. G30 catchment and F60 catchment) |

- 1.2 The Minister has in terms of section 16 of the National Water Act, 1998 (Act No.36 of 1998) ("the Act"), prescribed a system for classifying water resources by issuing Government Notice No. R. 810, published in Government Gazette No. 33541 dated 17 September 2010. In terms of section 16(1) of the Act, the Minister must, as soon as reasonably practicable after the class of all or part of a water resource has been determined, by Notice in the *Gazette*, determine the Reserve for all or part of that water resource.
- 1.3 The Minister, in terms of section 16(1) and (2) of the Act, declares, the following Reserve for the catchments of the Olifants-Doorn.

**2. RESERVE DETERMINATION AS REQUIRED IN TERMS OF SECTION 16(1) AND (2) ACT**

- 2.1 A selected list of Acronyms and definitions in Item 3.
- 2.2 A summary of the quantity component for the Rivers which include the EWR and the BHN in terms of section 16(1) of the Act for the Olifants-Doorn catchments is set out in Table 4.1.
- 2.3 A summary of the quality component for the Rivers at EWR sites in terms of section 16(1) of the Act for the Olifants-Doorn catchments is set out in Table 5.1 - 5.6.
- 2.4 A summary of the EWR based on the natural flow contribution of the catchments upstream Olifants River Estuary in terms of section 16(1) of the Act for the Olifants-Doorn catchments is set out in Table 6.1 - 6.3.
- 2.5 A summary of the groundwater contribution to the Reserve for Water Quantity & Quality in terms of section 16(1) of the Act for the Olifants-Doorn is set out in Table 7.1 - 8.3.
- 2.6 The Reserve will apply from the date signed off as determined in terms of Section 16(1) of the Act, unless otherwise specified by the Minister.

### 3. ACRONYMS AND DEFINITIONS

#### 3.1 Acronyms

|          |   |
|----------|---|
| BHN      | Basic Human Needs                             |
| EcoSpecs | Ecological Specifications                     |
| EIS      | Estuarine Importance Score                    |
| EWR      | Ecological Water Requirement                  |
| GRA II   | Groundwater Resource Assessment Phase II      |
| GRDM     | Groundwater Reserve Determination Methodology |
| GRUs     | Groundwater Resource Units                    |
| MAR      | Mean Annual Runoff                            |
| MCM      | Million Cubic Metres                          |
| MAR      | Mean Annual Runoff                            |
| PES      | Present Ecological Status                     |
| REC      | Recommended Ecological Category               |
| TEC      | Target Ecological Category                    |
| TPCs     | Thresholds of Potential Concern               |

#### 3.2 Definitions

**Baseflow** is a sustained low flow in rivers during dry or fair weather conditions, but not necessarily all contributed by groundwater; includes contribution from delayed interflow and groundwater discharge.

**EWR** refers to the flow patterns (magnitude, timing and duration) and water quality needed to maintain a riverine ecosystem in a particular condition.

**Recharge** is the addition of water to the zone of saturation, either by downward percolation of precipitation or surface water and/ or the lateral migration of groundwater from adjacent aquifers.

**Reserve** is the quantity and quality of the water required to satisfy the basic human needs by securing a basic water supply and to protect the aquatic ecosystem in order to secure ecologically sustainable development and use of the relevant water resource.

#### 4. SURFACE-WATER - QUANTITY COMPONENT FOR RIVERS

The results for the Reserve determination and ecological categorisation for the Olifants/Doring River System, where the Reserve amounts are expressed as a percentage of the MAR for the respective catchments (cumulative) in terms of section 16(1) of the Act.

Table 4.1: Summary of the quantity component for the Rivers which include the EWR & BHN.

| Quaternary catchment | Water Resource | PES | EIS       | REC | Ecological reserve (Cumulative) (% MAR) | Basic human needs Reserve (% MAR) | MAR (MCM) | Total Reserve (%MAR) |
|----------------------|----------------|-----|-----------|-----|---|-----------------------------------|-----------|----------------------|

**Where:** MAR is the Mean Annual Runoff

MCM is million cubic metres

\*incremental ecological requirement

\*\*In terms of the RDM guidelines the Ecostatus Category should not be less than D (DWAF 1999)

## 5. SURFACE-WATER - QUALITY COMPONENT FOR RIVERS

### Summary of the Quality component at EWR sites

Table 5.1. Ecospecs and TPCs for RU4-Olfants, as represented by EWR Site 1 (RU 4: CITRUSDAL TO CLANWILLIAM DAM)

| DESCRIPTORS USED FOR ECOSPECS           | TPCs   |
|---|--|
| <b>Water Quality</b>                    |  |
| <i>Salts</i>                            |  |
| MgSO <sub>4</sub> (mg/l)                | >37  |
| Na <sub>2</sub> SO <sub>4</sub> (mg/l)  | >51  |
| MgCl <sub>2</sub> (mg/l)                | >51  |
| CaCl <sub>2</sub>                       | >105   |
| NaCl (mg/l)                             | >389   |

## 6. Estuary component

Geographical boundaries of the Olifants Estuary

- Downstream boundary: Estuary mouth ( $31^{\circ} 42.00'S$ ;  $18^{\circ}11.34'E$ ).  
 Upstream boundary: Extent of tidal influence, i.e. the causeway at Lutzville - about 36 km from the mouth ( $31^{\circ}33.80'S$ ;  $18^{\circ}19.78'E$ ).  
 Lateral boundaries: 5 m contour above Mean Sea Level (MSL) along each bank.

**Table 6.1.** The ecological water requirements of the Olifants Estuary.

| Quaternary catchment | Water Resource | PES | EIS       | REC | Ecological reserve (% MAR) | MAR (MCM) | Total Reserve (%MAR) |
|----------------------|----------------|-----|-----------|-----|----------------------------|-----------|----------------------|
| E33H Estuary         | Olifants       | C   | Very high | B   | 56                         | 1055      | 56                   |

## QUANTIFICATION OF ESTUARINE ECOLOGICAL RESERVE

### RECOMMENDED ECOLOGICAL FLOW REQUIREMENT

The Olifants Estuary has been targeted as a Desired Protected Area (DWAF, 2004). According to the guidelines for assigning a recommended REC the estuary, therefore needs to be in a Category A or the Best Attainable State (BAS). However, with large dam developments already existing in the catchment (e.g. Clanwilliam Dam) it will be difficult to improve the Olifants Estuary to a Category of A. It is therefore recommended that the Olifants Estuary be improved to the minimum REC for a 'Highly Important estuary', namely a **Category B. Scenario 2**, i.e. the Present inflow scenario plus the Ecological Water Requirement releases of the River (MAR =  $800.3 \times 10^6 \text{ m}^3$ ) is selected as the recommended Ecological Flow Requirement Scenario for the Olifants Estuary. The flow distributions are summarised below:

**Table 6.2.** Flow distribution for Scenario 2.

| Percentiles | OCT   | NOV   | DEC   | JAN   | FEB   | MAR  | APR   | MAY    | JUN    | JUL    | AUG    | SEP    |

## ECOLOGICAL SPECIFICATIONS

Ecological Specifications are clear and measurable specifications of ecological attributes (in the case of estuaries - hydrodynamics, sediment dynamics, water quality and different biotic components) that define a specific ecological reserve category, in the case of the Olifants Estuary for a **Category B**. Thresholds of potential concern (TPC) are defined as measurable end points related to specific abiotic or biotic indicators that if reached (or when modelling predicts that such points will be reached) prompts management action.

**Table 6.3.** The ecological specifications and associated TPCs

| COMPONENT | ECOLOGICAL SPECIFICATION/  | THRESHOLD OF POTENTIAL CONCERN  |
|-----------|--|---|
| Birds     | Retain the species richness, abundance and diversity of the bird community, representative of resident and migrant waders, wading birds and water fowl as under the Present State, except for that there would be an higher abundance of water fowl (increasing by about 10% from Present State numbers)   | <p>1.1 Community composition or bird numbers deviates by more than 50% of average seasonal baseline counts for two consecutive summer or winter seasons, focusing on waders, wading birds, terns &amp; water fowl (summer and winter), and specifically red data species which are supported by the system (e.g. Pelican, Oyster catchers, Chestnut banded plover)</p> <p>1.2 In the case of water fowl densities decline by 20% of average seasonal baseline counts for two consecutive summer or winter seasons</p>   |
| Fish      | <p>Retain the following fish assemblages in the estuary: estuarine species (35%), partially estuarine dependent species (50-60%), obligate estuarine dependent (e.g. white steenbras) (&gt;1%) and indigenous freshwater species (&gt;1%). Exotic freshwater species (&lt;0.5%)</p> <p>Maintain recruitment of adult and juvenile fish at Reference Condition levels. This requires maintaining sufficient flow for freshwater plume (temperature, salinity and olfactory gradient) entering the sea. This implies that there should be a significant number of 0-1 year old fish and no missing year classes.</p> | <p>2.1 Level of estuarine species drop below 30% of total abundance</p> <p>2.2 Levels of obligate estuarine dependent species drop below 1% of total abundance</p> <p>2.3 Levels of partially estuarine dependent species drop below 50% or above 60% of total abundance</p> <p>2.4 Levels of exotic freshwater species above 0.5% (e.g. Mozambique tilapia out-competing resident species)</p> <p>2.5 Benthic dwellers species drop below 2% of total abundance in estuary above 18 km from the mouth</p> <p>2.6 There are a missing year class within a species</p> |

| COMPONENT     | ECOLOGICAL SPECIFICATION/  | THRESHOLD OF POTENTIAL CONCERN  |
|---------------|--|---|
| Invertebrates | Retain Present State species richness and mix (low species abundance, high dominance). However, under the present state one or two species are always present at high densities compared to others (e.g. <i>Pseudodiaptomus hessei</i> & <i>Ceratonereis kelskama</i> ). For a B Category the higher densities need to be more variable in abundance during the year.    | 3.1 Species richness is greater than 30 for zooplankton and macroinvertebrates respectively (50% increase)  |
|               | Indicator species such as <i>Capitella capitata</i> , should not dominate benthic species at any site  | 3.2 <i>Capitella capitata</i> exceeds 50% abundance of benthic species at any site  |
|               | Calianassa and Upogebia distribution patterns as under Present State   | 3.3 Abundance levels or areas of distribution decreases by more than 50% (mainly lower sandy reaches)   |
| Macrophytes   | Maintain the present distribution (summer 2004) and abundance of the different plant community types ( <i>Zostera capensis</i> (48 ha), intertidal salt marsh (92 ha), supratidal salt marsh (143 ha), floodplain salt marsh (797 ha), reeds and sedges (60 ha)  | 4.1 Greater than 20% change in the area covered by different plant community types  |
|               | Reduce the areas covered by water weeds in the upper reaches by 50% compared to the Present State (summer 2004). Therefore area covered by invasive waterweeds ( <i>Azolla filiculoides</i> ), nuisance filamentous algae (e.g. <i>Enteromorpha</i> , <i>Ulva</i> , <i>Cladophora</i> ) and pondweed ( <i>Potamogeton pectinatus</i> ) should be 30 ha (half of channel) | 4.2 Upper 15 km of estuary with greater than 50% of estuary water channel covered by invasive waterweeds ( <i>Azolla filiculoides</i> ), nuisance filamentous algae (e.g. <i>Enteromorpha</i> , <i>Ulva</i> , <i>Cladophora</i> ) and pondweed ( <i>Potamogeton pectinatus</i> ). |
|               | Control the spread of invasive aliens in the riparian zone (e.g. <i>Sesbania punicea</i> and <i>Eucalyptus</i> spp.).  | 4.3 Greater than 20 % increase in area covered by invasive plants.  |
|               | Maintain reed and sedge areas (60 ha) and brackish salt marsh (~10 ha) as for the Present State (summer 2004) (by preventing salinity of 20 ppt to move further upstream than 8.5 km and remain there for greater than 3 months).  | 4.4 Dieback of reeds and brackish salt marsh at 8.5 km and further upstream from the mouth.   |
|               | Prevent an increase in bareground in the floodplain salt marsh by maintaining groundwater salinity at <70 ppt and depth to the water table at < 1.5 m  | 4.5 Greater than 20% increase in bare ground in salt marsh.   |

| COMPONENT     | ECOLOGICAL SPECIFICATION/   | THRESHOLD OF POTENTIAL CONCERN  |
|---------------|---|---|
| Microalgae    | Maintain a low phytoplankton biomass with a small REI (i.e. 10 ppt to river +1 ppt) zone  | <p>5.1 Phytoplankton biomass exceeds 15 µg/l chlorophyll a in summer and 10 µg/l chlorophyll a in winter</p> <p>5.2 Blue-green algae exceeds 10% of phytoplankton cell counts</p>   |
|               | Maintain microalgal group diversity as measured under Present State (2004)  | 5.3 Flagellates cease to be the dominant group and diatoms become less diverse (<10 taxa per site)  |
|               | Maintain intertidal and subtidal microphytobenthic biomass as measured under Present State (2004).  | 5.4 Benthic microphytobenthic biomass exceeds 40 mg/m <sup>2</sup> chlorophyll a  |
|               | Maintain a low frequency of dinoflagellates   | 5.5 The frequency of dinoflagellates exceeds 5% of the total phytoplankton counts   |
| Water quality | Salinity intrusion should not to cause exceedence of TPCs for fish, invertebrates, macrophytes and microalgae (see above)                   | <p>6.1 Salinity greater than 20 ppt for greater than 3 months at 7 km upstream from the mouth (brackish saltmarsh, reeds and sedges &amp; invertebrates)</p> <p>6.2 Salinity of groundwater increases to 50 ppt and depth to water table to 1 m. (flood plain salt marsh)</p> <p>6.3 Total dissolved solids (measure of 'salinity') of river inflow exceeds 3500 mg/l (phytoplankton)</p> <p>6.4 Salinity in estuary exceeds 35 ppt (prevent hypersalinity) (for phytoplankton)</p> <p>6.5 Salinity greater than 10 ppt occurs above 16 km upstream of the mouth (for fish)</p> |
|               | System variables (Temperature, pH, turbidity, dissolved oxygen, and suspended solids) not to cause exceedence of TPCs for biota (see above) | <p>6.6 River inflow:</p> <ul style="list-style-type: none"> <li>Summer temp &lt; 20°C</li> <li>pH &lt; 6.5</li> <li>'Turbid' river inflow (to be determined)</li> <li>Dissolved oxygen &lt; 4 mg/l</li> </ul>   |
|               |   | 6.7 Secchi disc reading above 8 km from the mouth is greater than 1 m (used as a proxy for turbidity concentrations in estuary)   |
|               |   | 6.8 pH > 8.5 or < 6.5 in river inflow or in estuary   |
|               |   | 6.9 Water column DO drops below 4 mg/l (1 m above bottom except in deep holes) (need to investigate DO level at night in dense macrophyte beds)   |

| COMPONENT         | ECOLOGICAL SPECIFICATION/  | THRESHOLD OF POTENTIAL CONCERN  |
|-------------------|--|---|
|                   | Inorganic nutrient concentrations not to cause exceedance of TPCs for macrophytes and microalgae (see above).  | <p>6.10 When average river inflow is less than 5 m<sup>3</sup>/s and average DIN concentrations exceed 100 µg/l in river inflow and average DIN concentrations in the upper reaches of the estuary (above 16 km from mouth) exceed 100 µg/l.</p> <p>6.11 During high flow season (flows &gt; 20 m<sup>3</sup>/s) average DIN concentrations exceed 500 µg/l in river inflow and average DIN concentrations in the upper reaches of the estuary (above 16 km from mouth) exceed 500 µg/l</p> <p>6.12 Average DRP concentrations exceed 100 µg/l in river inflow and average DRP concentrations in the upper reaches of the estuary (above 16 km from mouth) exceed 100 µg/l.</p> |
|                   | Presence of toxic substances not to cause exceedence of TPCs for biota (see above).  | 6.13 For pesticides/herbicides baseline studies still need to be undertaken before TPCs can be set (special concern in upper reaches with extensive agricultural activities along banks of estuary)   |
| Hydrodynamics     | Maintain a flow regime to create the required habitat for birds, fish, macrophytes, microalgae and water quality   | <p>7.1 River inflow distribution patterns differ by more than 5% from that of Scenario 2 (i.e. recommended flow scenario for the Olifants)</p> <p>7.2 River inflow decreases to below 1.5 m<sup>3</sup>/s at any time</p> <p>7.3 River inflow below 2 m<sup>3</sup>/s persists for longer than 4 months</p>   |
| Sediment dynamics | Flood regime to maintain the sediment distribution patterns and aquatic habitat (instream physical habitat) so as not to exceed TPCs for biota (see above) | <p>8.1 River inflow distribution patterns (flood components) differ by more than 10% (in terms of magnitude, timing and variability) from that of the Present State (2004)</p> <p>8.2 Suspended sediment concentration from river inflow deviates by more than 10% of the sediment load discharge relationship to be determine as part of baseline studies (Present State 2004)</p>   |
|                   | Changes in sediment grain size distribution patterns not to cause exceedance of TPCs in benthic invertebrates (see above).                                 | <p>8.3 The median bed sediment diameter deviates by more than a factor of two from levels to be determined as part of baseline studies (Present State).</p> <p>8.4 Sand/mud distribution in middle reaches (8-20 km) change by more than 20% from Present State (2004)</p> <p>8.5 Changes in the channel bathymetry in the upper reaches (above 20 km upstream of the mouth) change by more than 20% from Present State (2004)</p> <p>8.6 Changes in tidal amplitude below the Lutzville causeway of more than 20% from Present State (2004)</p>  |

## 7. GROUNDWATER - QUANTITY COMPONENT

Groundwater recharge is an important component of hydrogeological characterisation as it has a major influence on groundwater quantity (especially if aquifer transmissivity and storage is favourable) and groundwater quality. Across the Olifants-Doorn WMA groundwater recharge ranges from 0 mm/a to 245 mm/a. The highest groundwater recharge occurs in the Upper Olifants sub-area, especially in the Winterhoek mountain area. Significant recharge also occurs in the Koue Bokkeveld, eastern Doring, and eastern Sandveld sub-areas. For the remaining areas groundwater recharge is quite limited.

The basic human needs Reserve provides for the essential needs of individuals served by the water resource in question and includes water for drinking, food preparation and for personal hygiene. A life-line amount of 25 litres per person per day was used. A summary of the groundwater quantity aspects in terms of BHN and EWR per quaternary is provided in **Table 7.1**.

**Table 7.1:** Groundwater Reserve Determination Results – Quantity Component.

| Quat. catchment | Area (km <sup>2</sup> ) | Recharge (Mm <sup>3</sup> /a) <sup>1)</sup> | Population <sup>2)</sup> | EWR (Mm <sup>3</sup> /a) | BHN (Mm <sup>3</sup> /a) | Total Reserve (Mm <sup>3</sup> /a) |

1) Recharge is extracted from The Classification of Significant Water Resources in the Olifants-Doorn Water Management Area Final Technical Report.

2) Population data estimated from 2011 Census.

## 8. GROUNDWATER - QUALITY COMPONENT

The ambient groundwater quality was compared to the Class 1 recommended value (DWAF, 1996). The lowest or more conservative value of the two is selected. In instances where the ambient value is selected, it is increased by 10 per cent. In instances where the ambient quality, of geological origin exceeds the recommended value, the ambient water quality is used. These poor water quality areas will become exclusion zones in determining the Basic Human Needs Reserve Requirement. The groundwater quality must comply with the target water quality ranges as shown in Table 8.1. Table 8.2 shows a summary of the results for the quality aspects at quaternary level in terms of the BHN. Table 8.3 illustrates the groundwater quality class and parameters of concern for each quaternary catchment. Parameters of concern in this case refer to those with elevated concentrations when compared to the drinking water quality standards.

**Table 8.1:** Classification for the assessment of the suitability of borehole water for potable use.

| Constituent/Parameter         | Units        | Target Water Quality Ranges <sup>1</sup> |                 |                  |             |

- 1) Ref: South African Water Quality Guidelines, Volume 1: Domestic Water Use, 2<sup>nd</sup> Ed. 1996. Department of Water Affairs and Forestry, Pretoria, South Africa.

### NOTE:

- Class 0** This is ideal water quality, suitable for lifetime use, with no adverse health effects on the user. This class is essentially the same as the target water quality range in the 2<sup>nd</sup> edition of the *South African Water Quality Guidelines for Domestic Use* (DWAF, 1996).
- Class I** Water in this class is safe for lifetime use, but falls short of the ideal water quality in that there may be instances of adverse health effects, but these are usually mild, and overt health effects are almost sub-clinical and difficult to demonstrate. Water in Class I does not cause health effects under normal circumstances. Aesthetic effects may, however, be apparent.
- Class II** Water in this class is defined as that where adverse health effects are unusual for limited short-term use. Adverse health effects may become more common particularly with prolonged use over many years, or with lifetime use. This class represents water suitable for short-term or emergency use only, but not necessarily suitable for continuous use over a lifetime.
- Class III** This water has constituents in a concentration range where serious health effects might be anticipated, particularly in infants or elderly people with short-term use, and even more so with longer term use. The water in this class is not suitable for use as drinking water without adequate treatment to shift the water into a lower and safer class.

**Table 8.2:** The results of the Groundwater Component – Quality Aspects

| Chemical Parameter                    | Unit | Quaternary Catchments E10A and E10B |                              |             |                             |
|---------------------------------------|------|-------------------------------------|------------------------------|-------------|-----------------------------|

**DEPARTEMENT VAN WATER EN SANITASIE****NO. 189****02 MAART 2018****NASIONALE WATERWET, 1998****(WET NO. 36 VAN 1998)****BEPALING VAN RESERWE VAN WATERHULPBRONNE VIR DIE OLIFANTS-DOORN-OPVANGGEBIEDE**

Ek, Sifiso Mkhize, in my hoedanigheid as die Waarnemende Direkteur-Generaal van die Departement van Water en Sanitasie, publiseer hierby, ná nakoming van artikel 13 en 16(2) en (3) van die Nasionale Waterwet, 1998 (Wet No. 36 van 1998) ("die Wet"), en Regulasie 3 van die "Regulations for the Establishment of the Classification System" (Goewermentskennisgewing No. R. 810 in Staatskoerant No. 33541 van 17 September 2010), en behoorlik daartoe gemagtig ingevolge artikel 16(1) van die Wet, die bepaling van die Reserwe van die waterhulpbronne vir die Olifants-Doorn-opvanggebiede.

Direkteur: Bepaling van Reserwe  
Aandag: MnR. Yakeen Atwaru

E-pos: [atwaruy@dws.gov.za](mailto:atwaruy@dws.gov.za)

MNR. SIFISO MKHIZE  
DIREKTEUR-GENERAAL (WAARNEMEND)  
DATUM: 13/12/2017

**BEPALING VAN RESERWE VAN WATERHULPBRONNE VIR DIE OLIFANTS-DOORN-OPVANGGEBIEDE INGEVOLGE ARTIKEL 16(1) EN (2) VAN DIE NASIONALE WATERWET, 1998 (WET NO. 36 OF 1998)**

**BYLAE**

**1. BESKRYWING VAN WATERHULPBRON**

- 1.1 Die Reserwe vir die geheel of 'n gedeelte van elke betekenisvolle waterhulpbron binne die Olifants-Doorn-opvanggebiede word bepaal soos hieronder uiteengesit:

|                           |   |
|---------------------------|---|
| Waterbestuursgebied:      | Berg-Olivants   |
| Opvanggebiede:            | Olifants-Doorn  |
| Dreineringstreke:         | Primêre dreineringstreek E  |
| Riviere:                  | Olifants-Doorn-riviersisteem  |
| Riviermonding:            | Olifants  |
| Opvanggebiede uitgesluit: | Die geheel van die Berg-opvanggebied en gedeeltes van die Olifants-opvanggebied (d.i. die opvanggebiede G30 en F60) |

- 1.2 Die Minister het ingevolge artikel 16 van die Nasionale Waterwet, 1998 (Wet No. 36 van 1998) ("die Wet"), 'n stelsel bepaal vir die klassifisering van waterhulpbronne deur Goewermentskennisgewing No. R. 810, gepubliseer in Staatskoerant No. 33541 gedateer 17 September 2010, uit te reik. Ingevolge artikel 16(1) van die Wet moet die Minister so spoedig redelik nadat die klas van die geheel of 'n gedeelte van 'n waterhulpbron bepaal is, by kennisgewing in die *Staatskoerant*, die Reserwe vir die geheel of 'n gedeelte van daardie waterhulpbron bepaal.

- 1.3 Die Minister verklaar, ingevolge artikel 16(1) en (2) van die Wet, die volgende as Reserwe vir die Olifants-Doorn-opvanggebiede.

**2. BEPALING VAN RESERWE SOOS VEREIS BY ARTIKEL 16(1) EN (2) VAN DIE WET**

- 2.1 Geselekteerde afkortings en akronieme en die woordomskrywing word in paragraaf 3 gemeld.
- 2.2 'n Opsomming van die hoeveelheidskomponent vir die riviere wat, ingevolge artikel 16(1) van die Wet, die ekologiese watervereiste (EWV) en die basiese menslike behoeftes (BMB) vir die Olifants-Doorn-opvanggebiede insluit, word in Tabel 4.1 uiteengesit.
- 2.3 'n Opsomming van die gehaltekomponent vir die riviere by die EWV-terreine vir die Olifants-Doorn-opvanggebiede word, ingevolge artikel 16(1) van die Wet, in Tabel 5.1 tot 5.6 uiteengesit.
- 2.4 'n Opsomming van die EWV op grond van die natuurlikevloeibydrae stroomop van die Olifantsriviermonding vir die Olifants-Doorn-opvanggebiede word, ingevolge artikel 16(1) van die Wet, in Tabel 6.1 tot 6.3 uiteengesit.

- 2.5 'n Opsomming van die grondwaterbydrae tot die Reserwe, ten opsigte van die hoeveelheid en die gehalte van die water vir die Olifants-Doorn-opvanggebiede, word, ingevolge artikel 16(1) van die Wet, in Tabel 7.1 tot 8.3 uiteengesit.
- 2.6 Die Reserwe is van toepassing vanaf die datum gepubliseer in die *Staatskoerant*, ingevolge artikel 16(1) van die Wet, tensy anders deur die Minister bepaal.

### **3. AFKORTINGS EN WOORDOMSKRYWING**

#### **3.1 Afkortings**

|     |   |
|-----|---|
| AEK | Aanbevole Ekologiese Kategorie          |
| BMB | Basiese Menslike Behoeftes              |
| DPB | Drempel van Potensiële Besorgdheid      |
| ERK | Ekologiese Reserwe (Kumulatief)         |
| ETB | Estuariese Telling van Betekenisvolheid |
| EWV | Ekologiese Watervereiste                |
| GJA | Gemiddelde Jaarlikse Afloop             |
| HE  | Hulpbroneenheid                         |
| HES | Huidige Ekologiese Status               |
| MKM | Miljoen Kubieke Meter                   |

#### **3.2 Woordomskrywing**

- Aanvulling** is die toevoeging van water tot die versadigingsone deur afwaartse deursyfering van óf neerslag óf oppervlakwater en/of die sywaartse migrasie van grondwater uit aanliggende waterdraers.
- EWV** behels die vloeipatrone (omvang, tydbepaling en duur) en watergehalte wat nodig is om 'n rivier-en-oewer-ekosisteem in 'n besondere toestand te hou.
- Reserwe** is die hoeveelheid en gehalte van water wat nodig is om aan die BMB te voldoen deur die versekering van 'n basiese watervoorsiening en die beskerming van die water-ekosisteem ten einde ekologies volhoubare ontwikkeling en die gebruik van die betrokke waterhulpbron te verseker.

### **4. OPPERVLAKWATER - HOEVEELHEIDSKOMPONENT VIR RIVIERE**

Die resultate vir die bepaling van die Reserwe en die ekologiese kategorisering vir die Olifants/Doorn-riviersisteem, waar die Reserwehoeveelhede uitgedruk word as 'n persentasie van die gemiddelde jaarlikse afloop (GJA) vir die onderskeie opvanggebiede (kumulatief), ingevolge artikel 16(1) van die Wet:

**Tabel 4.1:** Opsomming van die hoeveelheidskomponent vir die riviere, wat die EWV en die BMB insluit

| Kwaternêre opvanggebied | Waterhulpbron | Huidige Ekologiese Status (HES) | Estuariese Telling van Beteekenisvolheid (ETB) | Aanbevole Ekologiese Kategorie (AEK) | Ekologiese Reservé (Kumulatief) (% ERK) | BMB-reservé (% GJA) | GJA (MKM) | Totale Reservé (% GJA) |

## 6. Estuariese komponent

Geografiese grense van die Olifantsriviermonding:

- Grens stroomafwaarts: Riviermonding (31° 42.00'S; 18°11.34'E).  
 Grens stroomopwaarts: Reikwydte van getyinvloed, d.i. die laagwaterbrug by Lutzville - ongeveer 36 km van die mond (31°33.80'S; 18°19.78'E).  
 Laterale grense: 5 m kontoor bo gemiddelde seevlak met elke oewer langs.

**Tabel 6.1: EWV van die Olifantsriviermonding**

| Kwaternäre opvanggebied | Waterhulpbron | Huidige ekologiese status (HES) | Estuariese telling van betekenisvolheid (ETB) | Aanbevole ekologiese kategorie (AEK) | Ekologiese Reserwe (% GJA) | GJA (MKM) | Totale Reserwe (% GJA) |
|-------------------------|---------------|---------------------------------|---|--------------------------------------|----------------------------|-----------|------------------------|

## KWANTIFISERING VAN EKOLOGIESE RESERWE VIR RIVIERMONDING

### AANBEVOLE EKOLOGIESE VLOEIVEREISTE

Die Olifantsriviermonding is aangewys as 'n gewenste beskermde gebied (DWAF, 2004). Die riviermonding moet, ooreenkomsdig die riglyne vir die aanwysing van 'n AEK, in Kategorie A of die bes bereikbare toestand wees. Weens groot damontwikkelings wat reeds in die opvanggebied bestaan (bv. die Clanwilliamdam), is dit moeilik om die Olifantsriviermonding tot 'n Kategorie A te verbeter. Daar word dus aanbeveel dat die Olifantsriviermonding verbeter word tot die minimum AEK vir 'n "hoogs betekenisvolle riviermonding", naamlik 'n **Kategorie B. Scenario 2**, d.i. die huidige invloeiscenario plus die EWV-uitvloeiings van die rivier ( $GJA = 800.3 \times 10^6 \text{m}^3$ ) word gekies as die aanbevole ekologiese vloeivereiste-scenario vir die Olifantsriviermonding. Die vloeiverspreidings word hieronder opgesom:

**Tabel 6.2:** Vloeiverspreiding vir Scenario 2

| Percentiele | OKT   | NOV   | DES   | JAN   | FEB   | MRT  | APR   | MEI    | JUN    | JUL    | AUG    | SEP    |

### EKOLOGIESE SPESIFIKASIES

Ekologiese spesifikasies is duidelike en meetbare spesifikasies van ekologiese attribute (in die geval van riviermondings – hidrodinamika, sedimentdinamika, watergehalte en verskillende biotiese komponente) wat 'n besondere ekologiese Reserwekategorie omskryf – in die geval van die Olifantsriviermonding, 'n **Kategorie B**. Drempels van potensiële besorgdheid (DPB's) word omskryf as meetbare eindpunte wat betrekking het op besondere abiotiese of biotiese aanwysers wat, indien bereik (of wanneer modellering voorspel dat sodanige punte bereik sal word), bestuursoptrede vereis.

**Tabel 6.3:** Ekologiese spesifikasies en geassosieerde DPB's

| KOMPONENT | EKOLOGIESE SPESIFIKASIE  | DREMPEL VAN POTENSIËLE BESORGDHEID (DPB)   |
|-----------|--|--|
| Voëls     | Behou die spesierykheid, volopheid en verskeidenheid van die voëlgemeenskap, verteenwoordigend van stand- en trekvoëls (waad-, moeras- en watervoëls), soos in die huidige situasie, behalwe dat daar meer watervoëls sal wees (10%-toename in huidige getalle). | <p>1.1 Die voëlgemeenskapsamestelling of voëlgetalle wyk af met meer as 50% van die gemiddelde seisoenale basislyntellings vir twee opeenvolgende somer- of winterseisoene, met toespitsing op waad- en moerasvoëls, sterretjies en watervoëls (somer en winter), en in die besonder rooilysspesies wat deur die sisteem ondersteun word (bv. pelikane, swarttobies en die rooibandstrandkiewiet).</p> <p>1.2 Watervoëldighede neem af met 20% van die gemiddelde seisoenale basislyntellings vir twee opeenvolgende somer- of winterseisoene.</p> |

| KOMPONENT    | EKOLOGIESE SPESIFIKASIE   | DREMPEL VAN POTENSIËLE BESORGDHEID (DPB)   |
|--------------|---|--|
| Visse        | Behou die volgende vissamestelling in die riviermonding: estuariese spesies (35%); gedeeltelik estuaries-afhanglike spesies (50-60%); obligate estuaries-afhanglike spesies (bv. witsteenbras) (> 1%); inheemse varswaterspesies (> 1%); en uitheemse varswaterspesies (< 0.5%).  | <p>2.1 Vlak van estuariese spesies daal tot onder 30% van totale visgemeenskap.</p> <p>2.2 Vlakte van obligate estuaries-afhanglike spesies daal tot onder 1% of totale visgemeenskap.</p> <p>2.3 Vlakte van gedeeltelik estuaries-afhanglike spesies daal tot onder 50% of styg tot bo 60% van totale visgemeenskap.</p>    |
|              | Behou aanwas van jong en volwasse visse op die genoemde verwysingsvlakte. Dit vereis die instandhouding van voldoende vloe vir varswaterpluim (temperatuur, soutgehalte en olfaktoriële gradiënt) wat die see binnegaan. Dit beteken 'n beduidende getal visse van 0-1 jaar en geen afwesige jaarklasse.  | <p>2.4 Vlakte van uitheemse varswaterspesies styg tot bo 0.5% van totale visgemeenskap (bv. die Mosambiekse <i>Tilapia</i> verdring standspesies).</p> <p>2.5 Bentiese standspesies daal tot onder 2% van totale visgemeenskap in die riviermonding 18+ km van die mond.</p> <p>2.6 'n Jaarklas is afwesig in 'n spesie.</p> |
| Invertebrata | Behou spesierykheid en spesiesamestelling soos in die huidige situasie (lae spesierykheid; hoë dominansie). In die huidige situasie is een of twee spesies altyd aanwesig in hoë digthede in vergelyking met ander spesies (bv. <i>Pseudodiaptomus hessei</i> en <i>Ceratonereis keiskama</i> ). Vir 'n B-kategorie moet die hoër digthede gedurende die jaar veranderlik wees wat talrykheid betref. | <p>3.1 Spesierykheid is groter as 30% vir onderskeidelik soöplankton en makro-invertebrata ('n 50%-toename).</p>   |
|              | Aanwyserspesies soos <i>Capitella capitata</i> moet bentiese spesies nie op enige terrein oorheers nie.   | 3.2 <i>Capitella capitata</i> oorskry 50%-bentiese-spesierykheid op enige terrein.   |
|              | <i>Calianassa-</i> en <i>Upogebia-</i> verspreidingspatrone soos in die huidige situasie.   | 3.3 Talrykheidsvlakte of verspreidingsgebiede verminder met meer as 50% (hoofsaaklik laer sanderige lope).   |
| Makrofiete   | Handhaaf die huidige verspreiding en rykheid van die verskillende tipe plantgemeenskappe (somer van 2004): <i>Zostera capensis</i> (48 ha); tussengetysoutvleiland (92 ha); bogetysoutvleiland (143 ha); vloedvlaktesoutvleiland (797 ha); riete en watergras (60 ha).  | 4.1 'n Verandering groter as 20% in die gebied gedeck deur die verskillende tipe plantgemeenskappe.  |

| KOMPONENT | EKOLOGIESE SPESIFIKASIE  | DREMPEL VAN POTENSIËLE BESORGDHEID (DPB)   |
|-----------|--|--|
|           | Verminder die gebiede in die bolope gedeelde deur akwasiiese onkruid met 50% in vergelyking met die huidige situasie (somer van 2004). Die gebied gedeel deur indringer- akwasiiese onkruid ( <i>Azolla filiculoides</i> ), lastige draderige alge (bv. <i>Enteromorpha</i> en <i>Ulva</i> , <i>Cladophora</i> ) en fonteinkruid ( <i>Potamogeton pectinatus</i> ) moet 30 ha (die helfte van die kanaal) of minder beslaan. | 4.2 Meer as 50% van die estuariese waterkanaal in die boonste 15 km van die riviermonding bedek deur indringer- akwasiiese onkruid ( <i>Azolla filiculoides</i> ), lastige draderige alge (bv. <i>Enteromorpha</i> , <i>Ulva</i> en <i>Cladophora</i> ) en fonteinkruid ( <i>Potamogeton pectinatus</i> ). |
|           | Beheer die verspreiding van uitheemse indringerplante (bv. <i>Sesbania punicea</i> en <i>Eucalyptus</i> spp.) in die oewersone.  | 4.3 'n Toename in die gebied gedeel deur indringerplante van meer as 20%.  |
|           | Behou die riet- en watergrasgebiede (60 ha) en die soutvleilandgebiede (~ 10 ha) soos in die huidige situasie (somer van 2004) (deur te voorkom dat 'n soutgehalte van 20 ppt verder as 8.5 km stroomopwaarts beweeg en langer as drie maande voorkom).  | 4.4 Die afsterwing van riete en die voorkoms van soutvleilandgebiede 8.5 km en verder stroomopwaarts van die riviermonding.  |
|           | Voorkom 'n toename van kaal grond op die vloedvlaktesoutvleiland deur die grondwatersoutgehalte op < 70 ppt en die diepte tot die watertafel op < 1.5 m te behou.  | 4.5 'n Toename van meer as 20% in kaal grond op die soutvleiland.  |
| Mikroalge | Behou 'n lae fitoplanktonbiomassa met 'n klein rivier-estuarium-skeidingsone (d.i. 10 ppt tot rivier +1 ppt).  | 5.1 Die fitoplanktonbiomassa oorskry 15 µg/l chlorofil a in die somer en 10 µg/l chlorofil a in die winter.  |
|           | Behou mikroalggroepdiversiteit soos gemeet in die huidige situasie (2004).   | 5.2 Blougroen alge oorskry 10% van fitoplanktonsettellings.  |
|           | Behou die tussengety- en subgetymikrofitobentiese biomassa soos gemeet in die huidige situasie (2004).   | 5.3 Flagellata is nie meer die dominante groep nie en die diatome word minder divers (< 10 taksa per terrein).   |
|           | Behou 'n lae hoeveelheid van dinoflagellata.   | 5.4 Mikrofitobentiese biomassa oorskry chlorofil a van 40 mg/m <sup>2</sup> .  |
|           |  | 5.5 Die hoeveelheid dinoflagellata is meer as 5% van die totale fitoplankontelling.  |

| KOMPONENT    | EKOLOGIESE SPESIFIKASIE   | DREMPEL VAN POTENSIËLE BESORGDHEID (DPB)  |
|--------------|---|---|
|              | <p>Die soutindringing moet nie oorskryding van die DPB's vir visse, invertebrata, makrofiete en mikroalge (sien hierbo) tot gevolg hê nie.</p>  | <p>6.1 'n Soutgehalte van 20 ppt langer as drie maande 7 km stroomopwaarts van die monding (soutvleiland, riete en watergras, en invertebrata)</p> <p>6.2 Die soutgehalte van die grondwater neem toe tot 50 ppt en die diepte tot die watertafel tot 1 m (vloedvlaktesoutvleiland).</p> <p>6.3 Totale opgeloste vastestowwe (maat van "southeid") van rivierinvloeい oorskry 3 500 mg/l (fitoplankton).</p> <p>6.4 Die soutgehalte in die estuarium oorskry 35 ppt (voorkom hipersouheid) (vir fitoplankton).</p> <p>6.5 'n Soutgehalte groter as 10 ppt kom voor 16+ km stroomopwaarts van die monding (vir vis).</p>  |
| Watergehalte | <p>Sisteemveranderlikes (temperatuur, pH, troebelheid, opgeloste suurstof (OS), en gesuspendeerde stowwe) moet nie oorskryding van DPB's vir die biota (sien hierbo) tot gevolg hê nie.</p> | <p>6.6 Riverinvloeい<br/>Somertemp. &lt; 20°C<br/>pH &lt; 6.5<br/>Troebelheid van rivierinvloeい (moet nog bepaal word)<br/>Opgeloste suurstof &lt; 4 mg/l</p> <p>6.7 Secchiskyflesing meer as 8 km van die monding is groter as 1 m (gebruik as 'n aanduiding van troebelheidkonsentrasies in estuarium).</p> <p>6.8 pH &gt; 8.5 of &lt; 6.5 in rivierinvloeい of in estuarium.</p> <p>6.9 Die waterkolom-OS daal tot onder 4 mg/l (1 m bo die bodem, uitgesonderd in diep gate) (die OS-vlak in digte makrofietbeddings moet snags ondersoek word).</p>  |
|              | <p>Anorganiese voedingstofkonsentrasies moet nie oorskryding van die DPB's vir makrofiete en mikroalge (sien hierbo) tot gevolg hê nie.</p>   | <p>6.10 Wanneer die gemiddelde rivierinvloeい minder is as 5 m<sup>3</sup>/s en die gemiddelde opgeloste anorganiese stikstofkonsentrasies (OAN-konsentrasies) in die rivierinvloeい groter is as 100 µg/l en die gemiddelde OAN-konsentrasies in die bolope van die estuarium (16+ km van die monding) 100 µg/l oorskry.</p> <p>6.11 In die hoëvloeiseisoen (vloeい &gt; 20 m<sup>3</sup>/s): die gemiddelde OAN-konsentrasies in die rivierinvloeい is meer as 500 µg/l en die gemiddelde OAN-konsentrasies in die bolope van die estuarium (16+ km van die monding) oorskry 500 µg/l.</p> <p>6.12 Die gemiddelde opgeloste reaktiewe fosforkonsentrasies (ORP-konsentrasies) in die rivierinvloeい oorskry 100 µg/l, en die gemiddelde ORP-konsentrasies in die bolope van die estuarium (16+ km van die monding) oorskry 100 µg/l.</p> |

| KOMPONENT        | EKOLOGIESE SPESIFIKASIE   | DREMPEL VAN POTENSIËLE BESORGDHEID (DPB)  |
|------------------|---|---|
|                  | Die aanwesigheid van toksiese stowwe moet nie die oorskryding van die DPB's vir biota (sien hierbo) tot gevolg hê nie.  | 6.13 Wat betref plaagdoders en onkruiddoders moet basislynstudies nog onderneem word voordat die DPB's bepaal kan word (besondere besorgdheid oor bolope weens ekstensiewe landboubedrywighede al langs die oewer van die estuarium).   |
| Hidrodinamika    | Behou 'n vloeiregime om die vereiste habitatte vir voëls, visse, makrofiete en mikroalge te skep, en hou die watergehalte in stand.   | <p>7.1 Die rivierinvloeiverspreidingspatrone verskil met meer as 5% van daardie van Scenario 2 (d.i. die aanbevole vloeiscenario vir die Olifants).</p> <p>7.2 Die rivierinvloeい neem te eniger tyd af tot minder as 1.5 m<sup>3</sup>/s.</p> <p>7.3 'n Rivierinvloeい van minder as 2 m<sup>3</sup>/s hou langer as vier maande aan.</p>  |
|                  | 'n Vloedregime om die sedimentverspreidingspatrone en die akwatische habitat (die fisiese instroomhabitat) te behou ten einde nie die DPB's vir biota (sien hierbo) te oorskry nie. | <p>8.1 Die rivierinvloeiverspreidingspatrone (vloedkomponente) verskil met meer as 10% (wat omvang, tydsberekening en veranderlikheid betref) van daardie in die huidige situasie (2004).</p> <p>8.2 Die gesuspenderde sedimentkonsentrasie weens rivierinvloeい wyk af met meer as 10% van die sedimentvrag-/uitspoelverhouding wat as deel van die basislynstudies bepaal moet word (huidige situasie 2004).</p> <p>8.3 Die mediaanbeddingsedimentdeursnee wyk af met meer as 'n faktor of twee van die vlakke wat as deel van die basislynstudies bepaal moet word (Huidige Stand).</p> |
| Sedimentdinamika | Veranderinge in sedimentkorrelgrootte-verspreidingspatrone moet nie die oorskryding van die DPB's vir bentiese invertebrata (sien hierbo) tot gevolg hê nie.                        | <p>8.4 Die sand/modder-verspreiding in die midlope (8-20 km) verander met meer as 20% van die huidige situasie (2004).</p> <p>8.5 Veranderinge in die kanaalbatimetrie in die bolope (meer as 20 km stroomopwaarts van die monding) van meer as 20% van die huidige situasie (2004).</p> <p>8.6 Veranderinge in die getyamplitude onder die Lutzvillelaagwaterbrug van meer as 20% van die huidige situasie (2004).</p>   |

## 7. HOEVEELHEIDS KOMPONENT VAN GRONDWATER

Grondwaternaamvulling is 'n betekenisvolle komponent van die hidrogeologiese karakter omdat dit 'n groot invloed op die hoeveelheid en gehalte van grondwater het (veral as waterdraertransmissiwiteit en -berging gunstig is). Die grondwaternaamvulling wissel dwarsdeur die Olifants-Doornwaterbestuursgebied (WBG) van 0 mm/a tot 245 mm/a. Die hoogste grondwaternaamvulling kom voor in die Bo-Olifants-subgebied, veral in die gebied van die Winterhoekberge. Beduidende naamvulling kom ook voor in die subgebiede die Koue Bokkeveld, oostelike Doring en oostelike Sandveld. Wat die oorblywende gebiede betref is die grondwaternaamvulling taamlik beperk.

Die BMB-reserwe maak voorsiening vir die wesenlike behoeftes van individue wat deur die betrokke waterhulpbron bedien word met inbegrip van water om te drink, vir voedselvoorbereiding en vir persoonlike higiëne. 'n Lewensondersteunende hoeveelheid van 25 liter per persoon per dag is gebruik. Die aspekte van grondwaterhoeveelheid, ingevolge die BMB en die EWV per kwaternêre opvanggebied, word in **Tabel 7.1** opgesom.

**Tabel 7.1:** Resultate van grondwaterreserwebepaling – hoeveelheidskomponent

| Kwaternêre opvanggebied | Gebied (km <sup>2</sup> ) | Aanvulling (mm <sup>3</sup> /a) <sup>1)</sup> | Bevolking <sup>2)</sup> | EWV (mm <sup>3</sup> /a) | BMB (mm <sup>3</sup> /a) | Totale Reserwe (mm <sup>3</sup> /a) |
|-------------------------|---------------------------|---|-------------------------|--------------------------|--------------------------|-------------------------------------|

1) Die aanvulling is geëkserpeer uit "The classification of significant water resources in the Olifants-Doorn Water Management Area: Final technical report".

2) Bevolking aangeleid uit 2011-sensus.

## 8. GEHALTEKOMPONENT VAN GRONDWATER

Die omgewingsgrondwatergehaltewaarde word met die aanbevoele Klas 1-waarde vergelyk (DWAF, 1996). Die laagste of die konserwatiewer waarde van die twee word gekies. Wanneer die

omgewingswaarde gekies word, word dit met 10 persent verhoog. In gevalle waar die omgewingsgehalte van geologiese oorsprong die aanbevole waarde oorskry, word die omgewingswatergehalte gebruik. Gebiede met 'n swak watergehalte word uitsluitingsones in die bepaling van die BMB-reserwevereiste. Die grondwatergehalte moet voldoen aan die teikenwatergehalteverspreidings wat in **Tabel 8.1** aangedui word. **Tabel 8.2** toon 'n opsomming van die resultate vir die gehalteaspekte ingevolge die BMB op kwaternêre vlak. **Tabel 8.3** illustreer die grondwatergehalteklaas en die parameters van besorgdheid vir elke kwaternêre opvanggebied. Parameters van besorgdheid beteken in hierdie geval daardie met verhoogde konsentrasies wanneer dit met die drinkwatergehaltestandaarde vergelyk word.

**Tabel 8.1:** Klassifikasie vir die beraming van die gesiktheid van boorgatwater as drinkwater

| Bestanddeel/Parameter          | Teikenverspreidings vir watergehalte <sup>1</sup> |        |             |                |             |
|--------------------------------|---|--------|-------------|----------------|-------------|
|                                | Eenhede   | Klas 0 | Klas I      | Klas II        | Klas III    |
| Kalsium as Ca                  | mg/L  | 0-80   | 80-150      | 150-300        | > 300       |
| Magnesium as Mg                | mg/L  | 0-30   | 30-70       | 70-100         | > 100       |
| Natrium as Na                  | mg/L  | 0-100  | 100-200     | 200-400        | > 400       |
| Chloried as Cl                 | mg/L  | 0-100  | 100-200     | 200-600        | > 600       |
| Sulfate as SO <sub>4</sub>     | mg/L  | 0-200  | 200-400     | 400-600        | > 600       |
| Nitrate as NO <sub>x</sub> - N | mg/L  | 0-6    | 6-10        | 10-20          | > 20        |
| Flouried as F                  | mg/L  | 0-1    | 1-1.5       | 1.5-3.5        | > 3.5       |
| Fekale koliform                | tellings/100ml                                    | 0      | 0-1         | 1-10           | > 10        |
| pH (pH-eenhede)                |   | 6-9    | 5-6 & 9-9.5 | 4-5 & > 9.5-10 | < 4 of > 10 |
| Totale opgeloste vastestowwe   | mg/L  | 0-450  | 450-1000    | 1000-2450      | > 2450      |
| Elektriese geleiding           | mS/m  | 0-70   | 70-150      | 150-300        | > 370       |

1) Bron: *Suid-Afrikaanse riglyne vir watergehalte, volume 1: Huishoudelike watergebruik*, 2<sup>de</sup> Uitgawe. 1996. Departement van Waterwese en Bosbou. Pretoria, Suid-Afrika.

#### LET WEL:

- Klas 0** Hierdie is die ideale watergehalte, gesik vir lewenslange gebruik, met geen nadelige gesondheidsgevolge vir die gebruiker. Hierdie klas is wesenlik dieselfde as die teikenwatergehalteverspreiding in die tweede uitgawe van die *Suid-Afrikaanse riglyne vir watergehalte, volume 1: Huishoudelike watergebruik* (DWB, 1996).
- Klas I** Water in hierdie klas is veilig vir lewenslange gebruik, maar beantwoord nie aan die ideale watergehalte nie omdat daar gevalle van nadelige gesondheidsgevolge kan wees. Hierdie gevolge is gewoonlik matig, en die klaarblyklike gesondheidsgevolge is bykans subklinies en moeilik bewysbaar. Water in Klas I het in normale omstandighede geen gesondheidsgevolge nie. Die estetiese gevolge kan egter duidelik wees.
- Klas II** Water in hierdie klas word omskryf as water waarvan die negatiewe gesondheidsgevolge met beperkte korttermyngebruik ongewoon is. Die negatiewe gesondheidsgevolge kan veral met langdurige gebruik oor baie jare, of met lewenslange gebruik, meer algemeen word. Hierdie klas verteenwoordig water wat slegs gesik is vir gebruik oor die kort termyn of in noedsituasies, maar wat nie noodwendig vir deurlopende gebruik oor 'n leeftyd gesik is nie.

**Klas III** Hierdie water bevat bestanddele in 'n konsentrasieverspreiding wat met korttermyngebruik, en des te meer met langtermyngebruik, ernstige gesondheidsgevolge vir veral babas of ouer persone tot gevolg het. Die water in hierdie klas is nie sonder afdoende behandeling, wat die water in 'n laer en veiliger klas plaas, as drinkwater geskik nie.

**Tabel 8.2:** Resultate van aspekte van die gehaltekomponent van grondwater

| Chemiese parameter                       | Eenheid | Kwaternêre opvanggebiede E10A en E10B |  |             |                           |

**ISAZISO SIKARHULUMENTE****R. SIKA2017****ISEBE LEMICIMBI YEZAMANZI NOGUTYULO LOKUNGCOLA NELINDLE****UMTHETHO WAMANZI WESIZWE , KA1998****(UMTHETHO WAMA-36 KA-1998)****ISIGQIBO MALUNGA NOHLELO LWEMIJELO YAMANZI KUMMANDLA WOLAWULO LWAMANZI  
I- DOORN**

Mna, Sifiso Mkhize, uMphathi-jikelele oBambeleyo weSebe leMicimbi yezaManzi noGutyulo lweLindle, ndigunyazisa nguMqathango-13 woMthetho waManzi weSizwe, (uMthetho wama-36 ka-1998), neSolotya-3 loMthetho malunga nokuyilwa kweNdlela yokuHlela iMijelo yaManzi ngokweNdidi njengoko kuxeliwe kuMmiselo-810 weSaziso sikaRhulumente esinguNombolo-33541, esakhutshwa ngoMhla we-17 kuSeptemba ka-2010, nesasigunyazisa yimiqathango -16(1) no-63(1)(a) yoMthetho, ukuba ndibhengeze iSigqibo ngokuhlelwa kweMijelo yaManzi kuMmandla woBoniselo ngaManzi i-Olifants-Doorn.

Imibuzo malunga nesi sigqibo mayithunyelwe ku:  
UMphathi weCandelo leZiggibo zoHlelo lweMijelo yaManzi  
Mnu Yakeen Atwaru  
ISebe lezaManzi noGutyulo  
Ndinaye Building 185 Francis Baard Street  
Private Bag X313  
Pretoria  
0001

**MNU. SIFISO MKHIZE****UMPHATHISWA-JIKELELE (OBAMBELEYO)  
UMHLA: 13/12/2017**

**ISIGQIBO MALUNGA NOHLELO LWEMIJELO YAMANZI KUMMANDLA WOLAWULO LWAMANZI  
I- DOORN NGOKWEMIQATHANGO YESIQENDU 16(1) NO-(2) SOMTHETHO WAMANZI WESIZWE  
(UMTHETHO WAMA-36, KA1998)**

**ULUDWE LWENKQUBO**

**1. SIWUCHAZA NJANI UMJELO WAMANZI**

- 1.1 UHlelo luchaphazela yonke imijelo yamanzi ephantsi kommandla wolawulo lwamanzi i-Olifants-Doorn, njengoko kubonisiwe apha ngezantsi:

UMmandla woLawulo IwaManzi: yi-Berg-Olifants-Doorn

|                              |  |
|------------------------------|--|
| Ingingqi yoFunxo:            | yi-Primary Drainage  |
| Imilambo:                    | yonke imilambo ephantsi kwe-Olifants-Doorn   |
| Ichweba lomlambo:            | yi-Olifants  |
| Imimandla engeyonxalenyenye: | wonke ummandla ophantsi kommandla wolawulo i-Berg, neendawana nje zommandla wolawulo i-Olifants catchment<br>(umzekelo u-G30 no-F60) |

- 1.2 UMphathiswa, ngokwemiqathango yesiqendu-16 soMthetho, ka1998 (uMthetho wama-36 ka1998) ("uMthetho"), ukhuphe ingxelo malunga nendlela yokuhlela imijelo yamanzi kwiSaziso sikaRhulumente esingNombolo-810, esipapashwe kuXwebhu IweZaziso zikaRhulumente olunguNombolo-33541, lomhla we-17 Septemba ka-2010. Ngokwemiqathango yesiqendu-16(1) soMthetho, uMphathiswa makenze oku, futhi enze oko ngokukhupha iSaziso ngokukhawuleza emva kokuba ududu lomjelo wamanzi luxeliwe; abeke/asibale ngokusesikweni iSigqibo soHlelo Iwaloo mjelo wamanzi (uwonke okanye ezo ndawana zavo).

- 1.3 UMphathiswa, ngokwemiqathango yesiqendu-16 soMthetho, u-(1) no-(2), wazisa ngokusesikweni esi Sigqibo soHlelo silandelayo ngommandla wolawulo i-Olifants-Doorn.

**2. ISIGQIBO SOHLELO NGEKWEMIQATHANGO YESIQENDU- 16 SOMTHETHO, U-(1) NO-(2)**

- 2.1 Uluhlu Iwezifinyezi-magama ezikhethiweyo (neenkazo) lukwinqanaba-3.

- 2.2 Isishwankathelo malunga nemithamo yemilambo equka iziza i-EWR ne-BHN ngokwemiqathango yesiqendu-16(1) soMthetho ngokubhekiselele kummandla wolawulo lwamanzi i-Olifants-Doorn njengoko kubonisiwe kwiTafile-4.1.

- 2.3 Isishwankathelo malunga nemeko yokomelela nobuhle bemilambo kwisiza-EWR ngokwemiqathango yesiqendu-16(1) soMthetho ngokubhekiselele kummandla wolawulo lwamanzi i-Olifants-Doorn njengoko kubonisiwe kwiiTafile- 5.1 - 5.6.

- 2.4 Isishwankathelo sesiza-EWR malunga nezinga lokwehla kwamanzi agalela emantla kummandla wolawulo lwamanzi kuchweme lomlambo i-Olifants ngokwemiqathango yesiqendu-16(1) soMthetho ngokubhekiselele kummandla wolawulo lwamanzi i-Olifants-Doorn njengoko kubonisiwe kwiiTafile-6.1 - 6.3.

- 2.5 Isishwankathelo segalelo lamanzi angaphezu komhlaba kuHlelo malunga nomthamo ndawonye nokomelela kwemijelo yamanzi ngokwemiqathango yesiqendu-16(1) soMthetho ngokubhekiselele kummandla wolawulo Iwamanzi i-Olifants-Doorn njengoko kubonisiwe kwiiTafile-7.1 - 8.3.
- 2.6 ISiggibo malunga neHlelo siza kusetyenziswa ukusukela kumhla esityikitywe ngawo ngokwemiqathango yesiqendu-16(1) soMthetho, ngaphandle kokuba umphathiswa ugqibe ngolunye uhlobo.

### 3. IZISHUNQUELELI-MAGAMA NEENCAZO

#### 3.2 linkcazo

|                    |  |
|--------------------|--|
| <b>Isichenene</b>  | amanzana asoloko ebonakala (emilanjeni) ngamaxhesha embalela futhi ingekuba sisuka kumanzi angaphezu komhlaba includes contribution from delayed interflow and groundwater discharge.  |
| <b>I-EWR</b>       | ibhekisa kuhlobo olunye lokunkcenkceza kwamanzi (kujongwe kwisixa, ixesha, nethuba ankcenkceza ngalo) nemiba yomthamo wamanzi owamkelekileyo khunukuze izilwanyana zasemanzini zikwazi ukuphila kwiimeko ezithile.   |
| <b>Ukuvuselela</b> | Le yimeko yokumana kugalelwa/kunkinkishwa amanzi kwindawo atshe kuyo, mhlawumbi ngokuncitshisa kokunyuka komphunga wamanzi okanye amanzi asemhlaben, okanye ke kususwe/kuthuthwe amanzi kwindawo yogcino Iwawo esisiwa kwenye ngenxa yemeko ethile (umzekelo ngexesha leempuphuma).  |
| <b>UHlelo</b>      | Libhekisa kumthamo nobumnandi/coceko Iwamanzi afunekayo khonukuze abe anele okanye alungele ukusetyenziswa ngabantu. Le nto yenziwa ngokuthi kubekwe mbinana ethile asisiseko eya kwanelisa imfuno yabantu, kwandule kukhuselwe loo ndawo ithile yogcino Iwamanzi ukuqinisekisa ukuba izilwanyana zasemanzini zisoloko zinawo amanzi ukuze ziphile, futhi loo manzi abe anele rhoqo kuza kusetyenziswa loo mjelo uthile wamanzi. |

#### 4. AMANZI ANGAPHEZU KOMHLABA- UMTHAMO WAMANZI EMILAMBO

Iziphumo zeSiggibo soHlelo lwemijelo yamanzi kwimilambo ephantsi kommandla wolawulo lwamanzi i-Olifants/Doring. Amanani-miyinge oHlelo aboniswe ngeepesenti ze-MAR kuyo yonke imamandla yolawulo lwamanzi ngokwemiqathango yesiqendu-16(1) soMthetho.

**Itafile-4.1:** Isishwankathelo malunga nemithamo yemilambo, oko kuquka iziza- EWR no-BHN.

| Ummandla wolawulo lwamanzi | Umjelo wamanzi | i-PES | i-EIS    | i-REC | Umjelo wezilwanyan a eziphiла emanzini (uyaguqu-guquka) (% MAR) | Umjelo weemfuno zamanzl zoluntu (% MAR) | i-MAR (MCM) | UHlelo lulanke (%MAR) |

## UHLELO LWEMIJELO EHLALA IZILWANYANA NGOKUMETA IMITHAMO YAWO

### UMYINGE OVUNYIWEYO WOKUHAMBA KWAMANZI

Uchweme Iwe-Olifants luxelwe njengetyona ndawo emelwe kukhuselwa (DWAF, 2004). Ngokwemiqathango yesikhokelo yokuxela umyinge ovunyiweyo wokuhamba kwamanzi (i-REC) uchweme elo malube kwiBakala-A kungenjalo lube kweyona meko intle yaziwayo (kwinqanaba i-BAS) noko kunjalo, kuba uphuhliso Iwamadama amakhulu sele lughubeka kulo mmandla wolawulo Iwamanzi (umzekelo idama i-Clanwilliam) kuza kuba nzima ukupuhlisa i-Olifants ide ifikelele kwiBakala-A. Kungoko sicebisa ukuba uchweme lomlambo i-Olifants lupuhhliswe ukuya kufikelela kuphela kubuncikane be- REC emiselwe "amachweme abaluleke kakhulu", abizwa ngokuba ngamachweme eBakala-Category B, uMboniso-2, oko kukuthi umboniso wohambo Iwamanzi okhoyo nomyinge wokuhamba kwamanzi ovunyiweyo kwimjelo yamanzi ehlala izilwanyana. ( $I\text{-MAR} = 800.3 \times 10^6 \text{ m}^3$ ) ngumyinge ovunyiweyo wokuhamba kwamanzi kuchweme lomlambo i-Olifants. Imiyinge yokuhamba kwamanzi eyabelwe olu chweme ibonisiwe apha ngezantsi:

Itafile-6.2. Umyinge owabelwe uMboniso-2.

| iiPercentile | OCT   | NOV   | DEC   | JAN   | FEB   | MAR  | APR   | MAY    | JUN    | JUL    | AUG    | SEP    |

## IMIQATHANGO NGEMIJELO EHLALA IZILWANYANA

Le yimiqathango ecace gca nekulula ukuyihlolxa kujongisiwa iimpawu zemijelo ehlala izilwanyana. Xa sibhekiselele kumachweme omlambo sithetha ngokuhlol uguquguquko lwamaza, ubuhle nococeko lwamanzi nezinye iimpawu ezahlukayo kuba ezi nkukacha zibonisa iBakala elithile ekulo imijelo ehlala izilwanyana (iBakala-B xa sibhekiselele kuchweme lomlambo i-Olifant). Impawu ezibonisa ukuba kukho ingxaki zichazwa njengezalathisi ezhlolekayo ezithi ukuba ude wafikelela kuzo xa usenza uhlolo kunyanzeleke ukuba uqalise ukuza nesisombululo sengxaki leyo.

**Itafile-6.3.** imiqathango ngemijelo ehlala izilwanyana nee-TPC ezibandakanyekayo

| UDIDI LWESILWANYANA | IMIQATHANGO YOMJELO  | UPHAWU OLUBONISA UBUKHO BENGXAKI   |
|---------------------|--|--|
| lintaka             | Umjelo mawugcine: ubuhle bodidi (Iweentaka), ubuninzi neentlobonarlobo zeentaka, umele ezo zihlalayo nezo zifudukayo, eziphumayo neziphila emanzini kuphela ngokwemeko yelo xesha (ngaphandle kwamaxa zixhaphakile ezi ziphila emanzini kuphela (xa zisanda kangange-10% kunamanani esiqhelo)          | <p>1.1 Amanani eentaka aguquguquka kangange-50% nangaphezulu xa kuthelekiswa nesimo esiqhelekileyo ngamaxhesha athile omnyaka, mhlawumbi de ibe yiminyaka emibini elandeelanayo isenzeka lee nto (ehlotyeni okanye ebusika)</p> <p>1.2 Xa ubunzu lu bamanzi busehla kangange-20% xa kuthelekiswa nesimo esiqhelekileyo de ibe yiminyaka emibini elandeelanayo isenzeka lee nto (ehlotyeni okanye ebusika) de ibe yiminyaka emibini elandeelanayo isenzeka lee nto (ehlotyeni okanye ebusika)</p>   |
| lintlanzi           | Ugcine ezi ntlobo zentlanzi: ezhhlala ngqo/oko eluchwemeni lomlambo (35%), zihlala zimana ziphumaphuma eluchwemeni lomlambo (50-60%), eziryanzelisayo ukuhlala eluchwemeni (>1%), ezikhola kukuhlala emanzini amnandi nacocekileyo (>1%). Ezizingcayo ngokuhlala emanzini amnandi nacocekileyo (<0.5%) | <p>2.1 Xa ibakala leentlanzi ezhhlala eluchwemeni lisehla kangange-30% kunenani elikhulu lesiqhelo</p> <p>2.2 Xa ibakala leentlanzi ezinyanzelekileyo ukuba zihlale eluchwemeni lisehla kangange-1% kunenani elikhulu lesiqhelo</p> <p>2.3 Xa ibakala leentlanzi ezhhlalayo ze zimana ziphumaphuma eluchwemeni lomlambo lisehla kangange- 50% okanye 60% kunenani elikhulu lesiqhelo</p> <p>2.4 Xa ibakala leentlanzi ezizingcayo ngokuhlala emanzini amnandi nacocekileyo lingaphezu kwe-0.5%</p> <p>2.5 Xa ibakala leentlanzi ezhhlala kwi-Benthic lisihla nge-2% kunenani elikhulu lesiqhelo kuchweme olungaphezulu kwee-km ezili-18 ukusuka emlonyeni wochweme</p> |

| UDIDI<br>LWESILWANYANA | IMIQATHANGO YOMJELO  | UPHAWU OLUBONISA UBUKHO BENGXAKI  |
|------------------------|--|---|
|                        | <p>Ukhuthaze ukumenywa kweentlanzi ezindala nezincinane kurnabakala eemeko ngeemeko (lo mqathango ufuna ugcine amanzi ahambayo/nangena ngokwaneleyo elwandle khonkuze ahlale epholile emnandi (ngokobushushu nangokobukho betyuwa) . Le nto ithetha ukuthi mazibe ninzi lintlanzi ezineminyaka e: 0 -1 ziphila.</p>  | 2.6 Xa kukho ezo zifuduka zimke kangangonyaka kwiindidi ezithile zentlanzi  |
| Ezingenamqolo          | <p>Ugcine ubuhle bodidi lwezi zilwanyana, zihlale zixubile (ezininzi nezimbalwa). Kodwa ngokwemeeko yangoku lubakho olo didi luninzi ukwedlula olunye.</p> <p>NgeBakala-B ezo zongameleyo mazibe ziintlobontlo ezininzi phakathi enyakeni.</p>   | 3.1 Ubuhle bodidi lwezi zilwanyana bungaphezu kwe 30% ne50% nge-zooplankton ne-macroinvertebrates ngokulandeelanayo   |
|                        | <p>Ugcine Udidi oluyi- Capitella capitate malungabi luninzi ukwedlula olwebenthic</p>  | 3.2 i-Capitella capitate idlula i-benthic nge-50%   |
|                        | <p>Ugcine ipethini yokuhanjiswa kodidi i- Calianassa nodidi i-Upogebia, njengoko isimo sangoku sibonisa</p>  | 3.3 amabakala obuninzi okanye iindawo ezithuthelwa kuzo ehla kangange-50% (isikakhulu ezo zihlala ezantsi esantini)   |
| ii-Macrophytes         | <p>Ugcine isimo sangoku sokuhanjiswa (uhlobo luka2004) nobuninzi bezityalo eziziintlobo ngeentlobo (umzekelo ii- <i>Zostera capensis</i> (48 ha), intertidal salt marsh (92 ha), supratidal salt marsh (143 ha), floodplain salt marsh (797 ha), reeds and sedges (60 ha)</p> <p>Unciphise indawo egqunywe lukhula kumphezulu wochweme kangange- 50% xa uthelkisa nemeko yangoku (uhlobo luka2004). Ngoko ke indawo egqunywe ngamakhula (afana nala: <i>Azolla filiculoides</i>, nuisance filamentous algae, <i>Enteromorpha</i>, <i>Ulva</i>, <i>Cladophora</i> nepondweed (<i>Potamogeton pectinatus</i>) ube yi-30 ha</p> <p>Ulawule ukusasazeka kwamakhula atshabalalisayo ngengala: i-<i>Sesbania puricea</i> ne-<i>Eucalyptus</i> spp.</p> <p>Ugcine indawo yeengcongolo nenqoboka (60 ha) netyuwa engange(~10 ha) ngokwesimo sangoku (uhlobo luka2004) (ngokunqanda amanzi anetywa eninzi )</p> | <p>4.1 lungaphezulu kwe-20% utshintsho kwindawo ethiwe jize/egqunywe ziintlobo ngeentlobo zezityalo</p> <p>4.2 i-15 km kumphezulu wochweme kummandla i- 50% kwindlela yamanzi ochweme olugqunywe lukhula (i-<i>Azolla filiculoides</i>), i-nuisance filamentous algae (umzekelo i- <i>Enteromorpha</i>, <i>Ulva</i>, <i>Cladophora</i>) nepondweed (<i>Potamogeton pectinatus</i>).</p> <p>4.3 anyuke ngaphezulu kwe- 20 %</p> <p>4.4 iiingcongolo neetywa kumgama i- 8.5 km ukuya kutsho phaya emantla ukusuka emlonyeni wochweme.</p> |

## 7. AMANZI ANGAPHEZU KOMHLABA – UMTHAMO WOMJELO

Ukuvuselelwa kwemijelo yamanzi angaphezulu komhlaba yinto ebaluleke kakhulu ekuchazweni kwemo yamanzi kuba lunefuthe kumthamo wamanzi angaphezulu komhlaba (ngakumbi ukuba iindawo zogcino lwamanzi nendlela aphethwe ngayo amanzi kwezi ndawo zisoloko zikwimeko entle. Kuwo wonke ummandla wolawulo lwamanzi i-Doorn amanzi avuselelwa kangange- 0 mm/a to 245 mm/a. uvuselelo lwamanzi oluthe kraty Iwenzeka emantla omlambo i-Olifants, ngakumbi kummandla wentaba i-Winterhoek. Uvuselelo olubaruleke kakhulu Iwenzeka kwimimandla i-Koue Bokkeveld, iMpuma-Doring, eMpuma-Sandveld. Kwezinye nje iindawo ezingaxelwanga uvuselelo lwamanzi aluluninzanga kuyaphi.

UHlelo malunga neemfuno ezisisiseko zamanzi luzithathela ingqalelo iimfuno zoluntu ezibalulekleyo ngomjelo ngamnye futhi ziqluka amanzi okusela, okwenza ukuya nokuzigcina usempilwensi. Kusetyenziswa isikhokelo esizillitre ezingama-25 ngomntu ngamnye njengemfuno esisiseko. Isishwankathelo malunga neenkukacha zamanzi angaphezu komhlaba ngokubhekiselele kwi-BHN ne-EWR kummandla ngamnye wolawulo lwamanzi siboniisiwe kwitafile-7.1 apha ngezantsi.

Itafile- 7.1: Iziphumo zophando malunga noHlelo lwamanzi angaphantsi komhlaba – Umthamo womjelo

| Ummandla<br>wolawulo<br>lwamanzi | Indawo<br>(km <sup>2</sup> ) | Ukuvuselela<br>(Mm <sup>3</sup> /a) <sup>1)</sup> | Abemi <sup>2)</sup> | i-EWR<br>(Mm <sup>3</sup> /a) | i-BHN<br>(Mm <sup>3</sup> /a) | Lufonke uHlelo<br>iReserve<br>(Mm <sup>3</sup> /a) |

- 1) Uhlelo malunga namanzi ovuselelo luthatyathelwe kwimijelo yamanzi ephambili yommandla wolawulo Iwamanzi i-Olifants-Doorn (INgxelo yoBugcisa yokugqibela).
  - 2) Inkazo ngabemi etyatyathelwe kuBalo luka2011.

#### **8. AMANZI ANGAPHEZULU KOMHLABA – UBUHLE NOCOCEKO**

Ucoceko Iwamanzi angaphezulu komhlaba luthelekiswe nexabiso elivunyiweyo leHlelo1 (DWAF, 1996). Kukhethwe elona xabiso lisezantsi nelingundoqo phakathi kwalawo mabini. Kwiimeko apho kuye kukhethwe ixabiso elingundoqo liye linyuswe kangangeepesenti ezili- 10. Kwiimeko apho ucoceko Iwamanzi luye lubethe ngaphaya kwexabiso elivunyiweyo kuye kusetyenziswe yona loo nkucukacha. lindawo ezinamanzi amtyuba ziye zixelwe njengeemimandla engenakusetyenziswa njengemfuneko yoHlelo olumalunga neemfuno zabantu ezisisiseko. Isimo sococeko Iwamanzi angaphezulu komhlaba masiyilandele imiqathango yococeko Iwamanzi elinlelekileyo njenoko kubonisiwe **kwitafile-8.1. Itafile-8.2** ibonisa isishwankathelo seziphumo malunga nemiba yococeko Iwamanzi kummandla othile wolawulo Iwamanzi ngokwemiqathango ye-BHN. **Itafile-8.3** ibonisa ihlelo lococeko Iwamanzi angaphezulu komhlaba nemida/iindawana ezibonisa ingxaki yamanzi kuloo mmandla wolawulo Iwamanzi uthile. Xa kuthethwa ngeendawana eziyingxaki kubhekiswa kuloo manzi abonisa ubukho bemixube ethile xa kuthelekiswa nemiqathango elinlelekileyo ngamanzi aselekayo.

**Itafile-8.1:** Uhlelo/iziphumo zohlololwemingxunya-sitsala-manzi ukujonga ukuba ikulungele na ukugcina amanzi anokusetyenziswa luluntu.

| Ummandia /Ubunjani bento | Amabakala ococeko Iwamanzi ajongiweyo <sup>1</sup> |          |           |           |            |
|--------------------------|--|----------|-----------|-----------|------------|
|                          | Imivo  | Ihlelo 0 | Ihlelo I  | Ihlelo II | Ihlelo III |

- 1) Ngokubhekiselele: KwiMiqathango yoCoceko IwaManzi eMzantsi Afrika (South African Water Quality Guidelines, Volume 1: Domestic Water Use, 2<sup>nd</sup> Ed. 1996). ISebe leMicimbi yezaManzi naMahlathi (Department of Water Affairs and Forestry, Pretoria, South Africa).

#### QAPHELA:

**iHlelo-0** Olu Iucoceko Iwamanzi olufunekayo, lulkulungele ukusetyenziswa ubomi bonke, alunamakhwiniba ngokubhekiselele kwimpilo yomntu. Olu hlelo Iuyafana nebakala ellindelekileyo Iococeko Iwamanzi ekuthethwe ngalo kuxhwebhu Iwesibini olumalunga nococeko Iwamanzi ( i- 2<sup>nd</sup> edition of the *South African Water Quality Guidelines for Domestic Use* (DWAF, 1996).

**iHlelo-1** Amanzi eli hlelo ayaseleka, kodwa alide lifikelele nciam kucoceko Iwamanzi olufunekayo kuba asenokuba nobungozi empilweni yomntu: kodwa ubungozi obo abuxhalabis futhi amakhwiniba avelayo ayanyangeka kwaye akazivelvi ngendlela embi. Amanzi eHlelo-1 kahlekahe akanabo ubungozi empilweni yomntu xa sele sithetha, noxa zisenobakho nje ezo mpawu zalatha ingxaki.

**Class II** Amanzi eli hlelo singawachaza ngokuba zibakho iingxaki (abakho amaxesha o-) zobungozi okwexeshana. Kodwa ubungozi bawo bona buba nefuthe ixesha elide empilweni yomntu, ngakumbi xa liza kuman'ukufika elo xeshana lubungozi bawo minyaka le. Singathi eli hlelo lamanzu limele kusetyenziswa nje okwethutyana, okanye ngaloo maxesha kaXakeka, hayi ubomi bonke.

**Class III** Amanzi eli hlelo anemixube emininzi kuwo futhi anobungozi kakhulu, ngakumbi ebantwaneni nabantu abadala. Amanzi anje akamele ze asetyenziselwe ukusela engakhange acocwe khonukuze ahlele kwinqanaba elisezantsi nelikhuselekileyo.

### NATIONAL NUCLEAR REGULATOR ACT, 1999 (ACT NO 47 OF 1999)

Notice in terms of section 28 of the National Nuclear Regulator Act, 1999 (Act No 47 of 1999), on fees for Nuclear Authorisations.

1. I David Mahlobo, Minister of Energy acting under section 28 of the National Nuclear Regulator Act, 1999 (Act No. 47 of 1999), hereby determine in the Schedule, the fees payable to the Regulator in respect of —
  - (a) any application for the granting of a nuclear authorisation;
  - (b) an annual nuclear authorisation fee for the financial year (2017/2018)
2. The fees shall be payable to the National Nuclear Regulator of South Africa, for the period of 01 April 2017 to 31 March 2018 by the licensed holders concerned.

**INDEPENDENT COMMUNICATIONS AUTHORITY OF SOUTH AFRICA**  
**NOTICE 94 OF 2018**

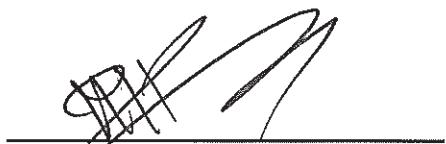

**Independent Communications Authority of South Africa**  
Pinmill Farm, 164 Katherine Street, Sandton  
Private Bag X10002, Sandton, 2146

**GENERAL NOTICE**

**EXPIRY OF INDIVIDUAL ELECTRONIC COMMUNICATIONS NETWORK SERVICES (I-ECNS) AND INDIVIDUAL ELECTRONIC COMMUNICATIONS SERVICES (I-ECS) LICENCES ISSUED TO BLUE IQ INVESTMENT HOLDINGS**

1. The Independent Communications Authority of South Africa (ICASA) hereby gives notice that Blue IQ Investment Holdings, to which Individual Electronic Communications Network Services Network and Individual Electronic Communications Services licenses were issued on 15 January 2009, had not, after due inquiry by the Authority, met their licence obligations. The licensee failed to commence operations or request extension to commence operations as prescribed in regulation 5, Schedule 2 for Individual ECNS and regulation 5, schedule 3 for Individual ECS of the Regulations Regarding Standard Terms and Conditions for Individual Licences, 2010. The licensee also failed to submit the Annual Financial Statements or pay General Licence fees as prescribed in terms of the General Licence Fees Regulations, 2009. The licensee further failed to pay Universal Service Annual Fees (USAf) as prescribed in terms of the USAf Regulations, 2011.
2. ICASA, accordingly, declares as follows:
  - a. That the Electronic Communications Service licenses (No 0109/IECNS/Jan/09 and 0109/IECS/Jan/09) issued in terms of the Electronic Communications Act 36 of 2005 to **Blue IQ Investment Holdings** with address 1<sup>st</sup> Floor Central Place Building, Newtown and Postal Address P. O. Box 10420, Johannesburg are declared to have expired on the date of this Government Gazette: either since these licences have not become operative within the time period prescribed by Regulations or since the licensee has ceased its operations without having applied to ICASA for more time to do so.

3. Any queries must be directed to Ms. Lindisa Mabulu on e-mail: [lmabulu@icasa.org.za](mailto:lmabulu@icasa.org.za) or Tel: 011 566 3217 or Physical Address: Block D, Pinmill Farm, 164 Katherine Street, Sandton Postal Address: Private Bag X10002, Sandton, 2146.

**PART 1: DEFINITIONS****1 Definitions and Interpretation**

(1) In these rules, any word or expression to which a meaning has been assigned in the Act, unless the context otherwise indicates, shall have that meaning and the following words shall have the following meanings -

**"auditor"** has the meaning set out in the Auditing Profession Act, 2005 (Act 26 of 2005);

**"bank"** means a bank registered as such in terms of the Banks Act, 1990 (Act No. 94 of 1990), referred to in the Act as a "deposit taking institution";

**"conflict of interest"** includes any situation in which a livestock agent or an employee has an actual or potential interest that may, in rendering a service to a principal -

(a) influence the objective performance of his obligations to that principal; or

(b) prevent a livestock agent or employee from rendering an unbiased and fair service to that principal, or from acting in the best interests of that principal including, but not limited to-

(i) a financial interest;

(ii) an ownership interest;

(iii) any relationship with a third party;

**"employee"** means a person employed by a livestock agent for the purposes of selling or buying livestock on behalf of the principal of his employer;

**"financial interest"** means a direct interest of a financial, monetary or economic nature, or to which a monetary value may be attributed, other than an immaterial financial interest;

**"livestock"** means agricultural produce of the kinds specified in Part B of Schedule 1 of the Act;

**"immaterial financial interest"** means any financial interest with a determinable monetary value, the aggregate of which does not exceed R10 000 (ten thousand Rand) in any calendar year from the same third party in that calendar year received by-

- (a) a livestock agent; or
- (b) an employee for his direct or indirect benefit;
- (c) a livestock agent, who for its benefit or that of some or all of its employees, aggregates the immaterial financial interest paid to its employees;

**"interrelated"**, when used in respect of three or more persons, means persons who are related to one another in a linked series of relationships, such that two of the persons are related in the manner contemplated in sub-rule (4), and one of them is related to the third in any such manner, and so forth in an unbroken series;

**"juristic person"** includes –

- (a) a foreign company; and
- (b) a trust, irrespective of whether or not it was established within or outside the Republic;

**"ownership interest"** means-

- (a) any equity or proprietary interest, owned by a livestock agent, other than equity or a proprietary interest held as an approved nominee on behalf of another person; and
- (b) includes any dividend, profit share or similar benefit derived from that equity or ownership interest;

**"public regulation"** means any national, provincial or local government legislation or subordinate legislation, or any license, permit, directive or similar authorisation issued by a regulatory authority or pursuant to any statutory authority;

**"related"** when used in respect of two persons, means persons who are connected to one another in any manner contemplated in sub-rule (6) below;

**"the Act"** means the Agricultural Produce Agents Act, 1992 (Act No. 12 of 1992);

**"third party"** means any person, other than the principal concerned, who in terms of an agreement or arrangement with a livestock agent or an employee or a person related to a livestock agent or an employee, provides a financial interest to a livestock agent or any of its employees or to any person related to a livestock agent or an employee, whether such financial interest relates to a specific transaction or to the occupation of the livestock agent in general;

**"writing"** includes communication by telefax or any appropriate electronic medium that is accurately and readily reducible to written or printed form; and '**written**' has a corresponding meaning.

- (2) When, in these Rules a particular number of "business days" is provided for between the happening of one event and another, the number of days must be calculated by-
  - (a) excluding the day on which the first such event occurs;
  - (b) including the day on or by which the second event is to occur; and
  - (c) excluding any public holiday, Saturday or Sunday that falls on or between the days contemplated in paragraphs (a) and (b), respectively.
- (3) These Rules must be construed -
  - (a) in conjunction with the provisions of the Act and in a manner conducive to the promotion and achievement of the objectives of the Act; and
  - (b) as being in addition to any other law not inconsistent with these provisions and not as replacing any such law.

- (4) In the case of any inconsistency or conflict between a provision of these Rules and a provision of any other law specifically regulating conduct pertaining to the rendering of services by livestock agents in respect of livestock, the provisions of that other law, unless inconsistent or in conflict with the Rules, shall prevail.
- (5) The provisions of these Rules apply, unless stated otherwise herein or otherwise by law, to all livestock agents and employees notwithstanding where they practice their occupation, and irrespective of the nature of their remuneration.
- (6) For purposes of these Rules-
- (a) an individual is related to another individual if they –
- (i) are married, or live together in a relationship similar to a marriage; or
- (ii) are separated by no more than two degrees of natural or adopted consanguinity or affinity;
- (b) an individual is related to a juristic person if the individual directly or indirectly controls the juristic person, as determined in accordance with sub-rule (7); and
- (c) a juristic person is related to another juristic person if-
- (i) either of them directly or indirectly controls the other, or the business of the other, as determined in accordance with sub-rule (7);
- (ii) either is a subsidiary of the other; or
- (iii) a person directly or indirectly controls each of them, or the business of each of them, as determined in accordance with sub-rule (7).
- (7) For the purpose of this sub-rule (7), a person controls a juristic person, or its business, if-
- (a) in the case of a juristic person that is a company-

- (i) that juristic person is a subsidiary of the first person, as determined in accordance with section 3(1)(a) of the Companies Act, 2008; or
  - (ii) the first person together with any related or interrelated person, is-
    - (aa) directly or indirectly able to exercise or control the exercise of a majority of the voting rights associated with securities of that company, whether pursuant to a shareholder agreement or otherwise; or
    - (bb) has the right to appoint or elect, or control the appointment or election of, the directors of that company who control a majority of the votes at a meeting of the board of that company;
  - (b) in the case of a juristic person that is a close corporation, that first person owns the majority of the members' interests, or controls directly, or has the right to control, the majority of members' votes in the close corporation;
  - (c) in the case of a juristic person that is a trust, that first person has the ability to control the majority of the votes of the trustees or to appoint the majority of the trustees, or to appoint or change the majority of the beneficiaries of the trust; or
  - (d) that first person has the ability to materially influence the policy of the juristic person in a manner comparable to a person who, in ordinary commercial practice, would be able to exercise an element of control referred to in paragraph (a), (b) or (c).
- (8) For all purposes of these Rules, the male gender shall include the female and neuter genders and vice versa.

**PART II: CODE OF CONDUCT FOR LIVESTOCK AGENTS AND EMPLOYEES****2 Fiduciary duty and Conflict of Interest**

- (1) Every livestock agent and every employee owes a fiduciary duty to his principal and must, therefore, at all times render his services-
  - (a) honestly and in good faith;

- (b) with due skill, care and diligence reasonably expected of a person-
- (i) carrying out the same functions in relation to the principal as those carried out by that livestock agent or that employee, whichever is the case; and
- (ii) having the general knowledge, skill and experience of that livestock agent or that employee, whichever is the case; and
- (c) subject to the provisions of rule 2(8) below, in the best interests of his principal.
- (2) Subject to the provisions of these rules, a livestock agent and an employee must at all times avoid a conflict of interest between his and his employer's personal interests and their principal's interests, and this involves that he must-
- (a) not make secret profits and he must account to his principal for profits;
- (b) not misappropriate opportunities intended for his principal;
- (c) not unreasonably compete with his principal;
- (d) disclose financial interests and ownership interests;
- (e) communicate to his principal at the earliest opportunity any relevant information that comes to his attention, unless he reasonably believes that such information is immaterial to the principal or is generally available to the public, or known to his principal.
- (3) A livestock agent and an employee must avoid and where this is not possible, mitigate and disclose, in writing, any conflict of interest between the livestock agent and his principal or the employee and the said principal;
- (4) A livestock agent and an employee must, in writing, and within 10 (ten) business days after he has been employed or mandated by his principal or if he is already so employed or mandated, at the earliest reasonable opportunity-

- (a) disclose to his principal the nature and extent of any conflict of interest in respect of that principal to be used for purposes of this rule until changed or withdrawn by further notice from that livestock agent or employee, including-
- (i) the measures taken or to be taken, in accordance with the conflict of interest management policy of the livestock agent referred to in rule 4(1), to avoid or mitigate the conflict;
- (ii) any financial interest, other than an immaterial financial interest, that the livestock agent and/or any one of his employees may have or may become eligible for, including its general nature and any material information relating thereto;
- (iii) the nature of any relationship or arrangement with a third party that gives rise to a conflict of interest, in sufficient detail to his principal to enable the principal to understand the exact nature and extent of the relationship or arrangement and the nature and extent of the conflict of interest;
- (b) inform his principal of the conflict of interest management policy referred to in rule 4(1) and how it may be accessed.
- (5) When a livestock agent or an employee renders a service to his principal the livestock agent and the employee involved, must not directly or indirectly deal in any livestock of his principal for his own benefit, account or interest to the detriment of his principal.
- (6) A livestock agent shall maintain an impartial approach in practicing his occupation, and for this purpose be free of any influence or relationship that, either directly or indirectly, could impair his judgment or independence.
- (7) A livestock agent shall maintain such integrity and objectivity in the practicing of his occupation as is necessary to enable him to apply unbiased judgment and objective consideration in forming an opinion or arriving at decisions.
- (8) A livestock agent shall not unduly discriminate between principals.

**3. Financial Interests**

- (1) A livestock agent or its employees may only receive or offer the following financial interest from, or to a third party-
- (a) any consideration, if the receipt or payment of that consideration has been specifically approved by a principal in writing following proper disclosure of that interest in the manner contemplated in rule 2(4)(a)(iii) above, or despite having been approved without proper disclosure of that interest, it has subsequently been ratified by the principal concerned in writing following proper disclosure of that interest; provided however that such approval may be withdrawn at the discretion of that principal on giving the livestock agent at least 40 (forty) business days' written notice of his intention to do so; provided further, that such withdrawal shall not bar the livestock agent from receiving any consideration which he became entitled to receive, before he was so notified. Notwithstanding anything to the contrary herein, under no circumstances whatsoever shall a livestock agent or an employee be permitted, after having received the notice referred to above, to sell his principal's livestock to, or, procure, for and on behalf of his principal, services from a business or juristic person in which the livestock agent or employee or a person related to that livestock agent or that employee has a financial interest.
- (b) fees or remuneration for the rendering of a service by a third party, which fees or remuneration are reasonably commensurate to the service being rendered
- (c) subject to any other law, an immaterial financial interest; and
- (d) a financial interest, not referred to under subparagraph (a) to (c) above, for which a consideration, fair value or remuneration that is reasonably commensurate to the value of the financial interest, is paid, promised, given or offered by that livestock agent or employee at the time of receipt thereof.
- (2) A livestock agent may not give, and may not offer any financial interest to an employee of that livestock agent for giving, promising or offering –

- (a) undue preference to the quantity of business secured for the livestock agent to the detriment of the quality of the service rendered to principals; or
  - (b) undue preference in whatever manner to a specific principal or to the livestock of a specific principal, to the detriment of another principal represented by that livestock agent.
- (3) When a livestock agent or an employee acquires a financial interest in any agreement or other matter in which his principal has a material interest, or knows that a related person has acquired a financial interest in that matter, after the agreement or other matter has been approved by the principal concerned, the livestock agent or employee, as the case may be, must promptly disclose to the principal concerned, the nature and extent of that interest, and the material circumstances relating to the livestock agent's or employee's or a related person's acquisition of that interest.

#### **4 Conflict of Interest Management Policy**

- (1) Every livestock agent, other than an employee, must adopt, maintain and implement a conflict of interest management policy that complies with the provisions of the rules, and a copy thereof must be made available to the Registrar once it has been adopted in terms of rule 4(3) below.
- (2) A conflict of interest management policy must-
  - (a) provide for the management of conflicts of interest;
  - (b) include mechanisms for the identification of conflicts of interest;
  - (c) include measures for the avoidance of conflicts of interest, and where avoidance is not possible, the reasons therefore and the measures for the mitigation of such conflicts of interest;
  - (d) include measures for the disclosure of conflicts of interest;
  - (e) include processes, procedures and internal controls to facilitate compliance with the policy;

- (f) describe consequences of non-compliance with the policy by the livestock agent's employees;
  - (g) include a list of all its related persons;
  - (h) include the names of any third parties in which the livestock agent holds an ownership interest or a financial interest;
  - (i) include the names of any third parties that hold an ownership interest or a financial interest in the livestock agent;
  - (j) include the nature and extent of the ownership interest or financial interest referred to in subparagraphs (h) and (i) above; and
  - (k) be drafted in an easily comprehensible form and manner.
- (3) A conflict of interest management policy must be adopted by the sole proprietor of a livestock agent, the board of directors of a livestock agent which is a company or, in the case where a livestock agent is not a company, the governing body of that livestock agent.
- (4) A livestock agent must ensure that its employees are aware of the contents of its conflict of interest management policy and provide for appropriate training and educational material in this regard.
- (5) A livestock agent must continuously monitor compliance with its conflict of interest management policy and annually conduct a review of the policy.
- (6) A livestock agent must inform his principals in writing that he has adopted a conflict of interest management policy in appropriate media and ensure that it is made available to his principals at their written request and is also easily accessible for public inspection at all reasonable times.
- (7) A livestock agent or employee may not avoid, limit or circumvent or attempt to avoid, limit or circumvent compliance with this rule through an associate or an arrangement involving an associate.

- (8) The livestock agent, must on annual basis and before 31 August of each year, provide the Registrar with a written report on the livestock agent's conflict of interest management policy, such report to deal with the matters referred to in rule 4(2)(f) – (j) and rule 4(6) above, and must include a statement confirming compliance with rule 4(5) above, and if any changes have been made to the conflict of interest management policy, such changes must be brought to the attention of the Registrar.
- (9) The report referred to in sub-rule (8) must report on at least the implementation, monitoring and compliance with, and the accessibility of the conflict of interest management policy.

## **5 Other duties of livestock agents and employees**

- (1) When a livestock agent or an employee renders a service to his principal-
  - (a) representations made and information provided to a principal by the livestock agent or the employee-
    - (i) must be factually correct;
    - (ii) must be provided in plain language, avoid uncertainty or confusion and not be misleading;
    - (iii) must be adequate and appropriate in the circumstances of the particular type of service, taking into account the level of knowledge of the principal;
    - (iv) must be provided timeously so as to afford the principal reasonably sufficient time to make an informed decision;
    - (v) may, subject to the provisions of these Rules, be provided orally and, at the principal's written request, confirmed in writing within a reasonable time after such request;

- (vi) must, where provided in writing or by means of standard forms or format, be in a clear and readable print size, spacing and format;
  - (vii) must, as regards all amounts, sums, values, charges, fees, remuneration or monetary obligations mentioned or referred to therein and payable to a third party or to the livestock agent, be reflected in specific monetary terms; provided that where any such amount, sum, value, charge, fee, remuneration or monetary obligation is not reasonably pre-determinable, its basis of calculation must be adequately described; and
  - (viii) need not be duplicated or repeated to the same principal unless material or significant changes affecting that principal occur, or the nature of the service renders it necessary, in which case a disclosure of the changes to the principal must be made without delay;
- (b) he must disclose to his principal whether the livestock agent holds guarantees or professional indemnity or fidelity insurance cover or not and, if so, the nature and extent thereof;
- (c) he must disclose to his principal by way of a separate disclosure (and not mere disclosure of an all-inclusive fee or charge) of any charges and fees to be levied against that principal for any service rendered or to be rendered, including-
- (i) the amount, rate or basis of calculation and the frequency of payment thereof;
  - (ii) particulars of the identity of the recipient of such fees or charges but only if so demanded by his principal, in writing, and then within 20 (twenty) business days of that written demand; and
  - (iv) the services or other purpose for which each fee or charge is levied;
  - (v) the nature, extent and frequency of any incentive, remuneration, consideration, commission, fee or brokerages ('valuable consideration'), which will or may become payable to the livestock agent or an employee or person related to the livestock agent or employee, directly or indirectly, by any third party, or for which the livestock agent, employee, or person related to the livestock agent or

- employee, may become eligible, as a result of rendering of the services, as well as the identity of the third party providing or offering the valuable consideration;
- (d) the services must be rendered in accordance with the contractual relationship and/or reasonable requests or instructions of the principal, which must be executed as soon as reasonably possible and with due regard to the interests of the principal which must be afforded appropriate priority over any interests of the livestock agent and the employee; and
- (e) all transactions of whatever nature concluded on behalf of a principal must be accurately and timeously accounted for.
- (2) A livestock agent and an employee, on behalf of the livestock agent, must-
- (a) in making contact arrangements, and in all communications and dealings with his principal, act honorably, professionally and with due regard to the convenience of his principal; and
- (b) at the commencement of any contact, visit or call initiated by the livestock agent, explain the purpose thereof.
- (3) Notwithstanding the provisions of rule 5 (1) above, the livestock agent shall within 10 (ten) business days of being mandated by his principal procure that he and his principal execute and sign a service level agreement setting out the terms and conditions governing their relationship or in the absence of such signed a service level agreement the livestock agent must communicate in writing to his principal the terms and conditions governing their relationship which shall as a minimum include (but not be limited to) the following-
- (a) the identity of the livestock agent and each representative of the livestock agent if the livestock agent is a juristic person and the registration number (if any), physical address, postal address, telephone number, e-mail address, facsimile number and VAT registration number of the livestock agent;

- (b) the identity of the principal and each representative of the principal if the principal is a juristic person and the registration number (if any), physical address, postal address, telephone number, e-mail address, facsimile number and VAT registration number of the principal;
  - (c) the duties, responsibilities and risk attributable to each party;
  - (d) the nature, manner and basis in which the price payable for livestock is to be calculated, and if the livestock agent and the principal agree on a minimum guaranteed price, this fact should be stipulated on a separate document which is to be signed by both parties and which document should as a minimum stipulate who bears the risk should the minimum guaranteed price not be achieved;
  - (e) the liability of the principal and/or livestock agent for damages and/or losses suffered by the principal;
  - (f) full particulars of the insurance (as contemplated in rule 10 below) held by the livestock agent;
  - (g) full and comprehensive details of the payment terms; and
  - (h) the particulars referred to in rule 5(1)(c)(iv) above.
- (4) A livestock agent must have appropriate procedures and systems in place to-
- (a) record such verbal and written communications and reports relating to a service rendered to a principal as are contemplated in the Act or in these Rules;
  - (b) store and retrieve such records and any other material documentation relating to the principal or services rendered to the principal; and
  - (c) keep such records, reports and documentation safe from destruction.
- (5) All such records must be kept for a period of five years after the rendering of the service concerned.

- (6) Livestock agents are not required to keep the records at their premises but must ensure that they are available for inspection within 5 (five) business days of the Registrar's request.
- (7) Records may be kept in an appropriate electronic or recorded format, which are accessible and readily reducible to written or printed form.
- (8) A livestock agent and an employee may not disclose any confidential information acquired or obtained from a principal in regard to such principal, unless the prior written consent of the principal has been obtained or disclosure of the information is required in the public interest or under any law.
- (9) A livestock agent shall maintain his knowledge and skills at such a level that he is able to conduct his business in accordance with the applicable laws, regulations and rules as well as the technical and professional standards common to his occupation.
- (10) A livestock agent shall-
  - (a) ensure that his employees comply with the laws, regulations and rules applicable to his occupation, and for that purpose he shall-
  - (b) provide the necessary training to his employees;
  - (c) adequately supervise his employees;
  - (d) procure that each livestock agent and each employee shall attend all regulatory courses and pass all regulatory examinations or training set by or on behalf of the Council within the period determined by the Registrar, but in the case of a livestock agent not later than 12 (twelve) months after that livestock agent has been issued with a registration certificate.
  - (e) bring to the attention of the Council and other responsible authorities any non-compliance or suspected non-compliance of applicable laws, regulations or rules by his employee or by other livestock agent and shall furnish the Council with copies of all documentation which could be used to support such alleged non-compliance or suspected non-compliance;

- (f) at all times whilst acting on behalf of his principal, act in a transparent manner.

## **6 INFORMATION ABOUT SERVICE PROVIDERS**

- (1) A livestock agent must on demand whenever his principal or the Registrar so requires in writing, furnish the principal or the Registrar, as the case may be, in writing with full particulars of the following information about all service providers contracted or utilised on behalf of or for the benefit of the principal during the previous 3 (three) years-
- (a) name, physical location, and postal, telephone and e-mail contact details of the service provider;
- (b) the nature and extent of his or a related person's contractual relationship with that service provider (if any), and whether the livestock agent has contractual relationships with other service providers;
- (c) where applicable, the fact that the livestock agent -
- (i) directly or indirectly holds more than 10% (ten percent) of the relevant service provider's shares, or has any equivalent substantial financial interest in the service provider;
- (ii) during the preceding 12 (twelve) month period received more than 30% (thirty percent) of his total income, including commission, from the service provider, and the livestock agent must convey any changes thereafter in regard to such information at the earliest opportunity to the principal and the Registrar.
- (2) A livestock agent must, where the relevant, terms of employment or mandate enables such livestock agent to provide principals with services in respect of a choice of service providers, exercise judgment objectively in the interest of the principal concerned.

- (3) A livestock agent may not, in dealing with a principal, compare different service providers or livestock agents unless the differing characteristics of each are made clear, and may not make inaccurate, unfair or unsubstantiated criticisms of any service provider or livestock agent.

## 7 INFORMATION ON BUYERS TO WHOM CREDIT WAS GRANTED

- (1) Where a livestock agent in compliance with such policies on the granting of credit as the Council may from time to time implement and with the prior written consent of his principal and on his principal's behalf and at the risk of the principal grants credit to a buyer, the livestock agent must at the written request of his principal furnish the principal with full particulars of the following information and, where such information is provided orally, must confirm such information within 5 (five) business days in writing-
- (a) full business and trade names, registration number (if any), postal and physical addresses, telephone and, where applicable, cellular phone number, and internet and e-mail addresses, in respect of that buyer, as well as the names and contact details of appropriate contact persons or offices;
- (b) a copy of a document which records the amount for which, the terms and conditions on which, and the period (not to exceed the period referred to in rule 31(5) below) for which credit was granted;
- (c) concise details of the legal and contractual status of the buyer, and whether the livestock agent holds guarantees or any other form of security for the outstanding debt or not, to be provided in a manner which can reasonably be expected to make it clear to the principal which person or entity accepts responsibility for the payment of the outstanding debt and the extent to which the principal will have to accept such responsibility.

## 8 INFORMATION ABOUT SERVICES RENDERED

- (1) Subject to the provisions of these rules, a livestock agent must where applicable, at the written request of a principal, provide the principal with a copy

of the statement of account referred to in Rule 28 below, reflecting all services rendered to his principal or on behalf of his principal.

- (2) No livestock agent may in the course of the rendering of a service request any principal to sign any written or printed form or document unless all essential details required to be inserted thereon by the principal or on behalf of the principal have already been inserted.

## **9 ACCESS TO INFORMATION**

- (1) In the event of any other public regulation requiring a person acting as a livestock agent to keep and retain the information referred to in these Rules, then such livestock agent shall be deemed to have complied with the provisions of these Rules, if and to the extent that the said livestock agent complied with the said public regulation, provided that such other public regulation is in this regard not less onerous than these Rules.
- (2) The rights of access to information set out in this rule are in addition to, and not in substitution for, any rights a principal may have to access information in terms of –
- (i) section 32 of the Constitution of the Republic of South Africa, 1996;
- (ii) the Promotion of Access to Information Act, 2000 (Act 2 of 2000); or
- (iii) any other public regulation.

## **10 RISK MANAGEMENT**

### **Control measures**

- (1) A livestock agent must at all times have and effectively employ such resources, procedures and appropriate technological systems that can reasonably be expected to eliminate as far as reasonably possible, the risk that principals will suffer loss or damage through theft, fraud, other dishonest acts, negligence, or other culpable omissions.

**Specific control objectives**

- (2) A livestock agent, excluding an employee, must, without limiting the generality of sub-rule (1), structure his internal control procedures so as to provide reasonable assurance that-
- (a) the relevant business can be carried on in an orderly and efficient manner;
  - (b) financial and other information used or provided by the livestock agent will be reliable;
  - (c) all funds will be properly and timeously accounted for; and
  - (d) all applicable laws and rules will be complied with.
- (3) A livestock agent must-
- (a) display a certified copy of each registration certificate issued to him and to every employee in a prominent and durable manner within every business premises of the livestock agent;
  - (b) ensure that a reference to the fact that such a registration certificate is held by such livestock agent, is contained in all business documentation, advertisements and other promotional material;
  - (c) ensure that all registration certificates are at all times immediately or within a reasonable time available for production to any person requesting proof of registration under authority of a law or for the purpose of entering into a business relationship with the livestock agent.

**Insurance**

- (1) A livestock agent shall consult with his principal regarding the matters stipulated in this sub-rule and shall, to the extent reasonably required by his principal in writing, maintain in force a suitable guarantee acceptable to his principal or professional indemnity or fidelity insurance cover, to cover his principal against -

- (a) the risk of losses or damages suffered due to theft committed by the livestock agent or his staff of any monies or livestock handed over by or on behalf of his principals to him; and
  - (b) the risk of losses or damages suffered due to dishonest conduct by a livestock agent or his staff insofar as such conduct relates to monies or livestock handed over by or on behalf of his principal to him.
- (2) Full details of the guarantee or insurance cover obtained must be provided, in writing, by the livestock agent upon written request by the principal or the Council, and such details are to include a copy of the certificate of insurance or guarantee (as the case may be), and provided further that any change in such details shall forthwith be communicated by the livestock agent to his principal and to the Council.
- (3) In the event of a claim, the livestock agent shall process the claim fully and use all reasonable endeavors to succeed in such claim. Any excess deductible from the claim value shall be for the principal's account.

## **11 Remuneration**

- (1) No livestock agent may claim remuneration in an amount or at a higher price, rate or scale than the agreed remuneration, unless the prior written approval of the principal has been obtained.
- (2) A livestock agent shall not –
- (a) overreach his principal in any manner whatsoever;
  - (b) charge remuneration or recover costs or expenses at an amount, rate or scale which in the view of the Council is unreasonably high, having regard to all relevant circumstances.
  - (c) present any remuneration as a cost or an expense which is not normally regarded as a cost or expense.

**12 Acceptance of gifts**

No livestock agent or a member of his family shall otherwise than in accordance with generally accepted business practices accept any goods, service or hospitality that results or could result in a conflict of interest or an impairment of his independent judgment in the practicing of his occupation.

**13 Financial obligations**

A livestock agent shall at all times ensure that financial obligations incurred by him will not impair or cause to impair his independence.

**14 Publicity and advertisements**

- (1) A livestock agent may by means of publicity and advertisements bring his business and the nature of the services rendered by him to the notice of the public, provided –
- (a) a due sense of responsibility towards the industry and the public is displayed therein; and
  - (b) the contents and presentation thereof in the opinion of the Council, bear testimony of good taste, and
  - (c) the livestock agent concerned does not draw comparisons with or disparage the services of other livestock agents.
- (2) An advertisement by any livestock agent must-
- (a) not contain any statement, promise or forecast which is fraudulent, untrue or misleading;
  - (b) if it contains-
    - (i) performance data (including awards and rankings), include references to their source and date;
    - (ii) illustrations, forecasts or hypothetical data-

- (aa) contain support in the form of clearly stated basic assumptions (including but not limited to any relevant assumptions in respect of performance, turnover, costs and charges) with a reasonable prospect of being met under current circumstances; and
  - (bb) make it clear that they are not guaranteed and are provided for illustrative purposes only.
- (iii) information about past performances, also contain a warning that past performances are not necessarily indicative of future performances.

## **15 Canvassing and touting**

A livestock agent may canvass for business on condition that he does not —

- (a) propagate any false or misleading or questionable information of any nature whatsoever;
- (b) interfere directly or indirectly with the sale, handling or inspection of livestock handed over for sale to another livestock agent;
- (c) directly or indirectly influence purchasers not to buy certain livestock, from a certain livestock agent, or from a certain principal, unless he can show good cause therefore.

## **16 Relations with other livestock agents, principals and the Council**

- (1) The behavior of a livestock agent towards other livestock agents, his principals and the Council shall be of such nature that it will foster co-operation and good relations.
- (2) A livestock agent shall not, express any malicious or unfounded criticism on the activities of another livestock agent.
- (3) No livestock agent shall receive, accept or handle any livestock dispatched to or intended for delivery to or sale by another livestock agent unless such other livestock agent does not have a representative to accept the delivery, and then only after all reasonable attempts have been made to notify the livestock agent concerned of that delivery.

**PART III: COMPLAINTS AND WAIVER OF RIGHTS****17 General**

- (1) In rules 17-20 -

**'complaint'** means a specific complaint relating to a service rendered by a livestock agent or employee to the complainant or to the conduct of a livestock agent or employee and in which complaint it is alleged that the livestock agent or employee-

- (a) has contravened or failed to comply with a provision of the Act or of these rules irrespective of whether as a result thereof the complainant has suffered or is likely to suffer loss or damage;
- (b) has willfully or negligently rendered a service to the complainant which has caused loss or damage to the complainant or which is likely to result in such loss or damage; or
- (c) has treated the complainant unfairly, unprofessionally or improperly;
- (d) has through any other act or omission conducted himself unprofessionally, improperly or disgracefully.

**'internal complaint resolution system and procedures'**, in relation to a livestock agent and a person, means the system and procedures established and maintained by the livestock agent in accordance with these rules for the resolution of complaints by principals or other persons;

**'resolution'**, or **'internal resolution'**, in relation to a complaint and a livestock agent, means the process of the resolving of a complaint through and in accordance with the internal complaint resolution system and procedures of the livestock agent;

- (2) A livestock agent must-

- (a) request that any person who has a complaint against the livestock agent must lodge such complaint in writing;

- (b) maintain a record of such complaints for a period of five years;
- (c) handle complaints in a timely and fair manner;
- (d) take steps to investigate and respond promptly to such complaints; and
- (e) where such a complaint is not resolved to the complainant's satisfaction, advise the complainant that other steps are available to the complainant in terms of the Act and these rules.

## **18 Basic principles of systems and procedures**

A livestock agent, excluding an employee must maintain an internal complaint resolution system and procedures based on the following-

- (a) maintenance of a comprehensive complaints policy outlining the livestock agent's commitment to, and system and procedures for, internal resolution of complaints;
- (b) transparency and visibility: ensuring that complainants have full knowledge of the procedures for resolution of their complaints;
- (c) accessibility of facilities: ensuring the existence of easy access to such procedures at any office or branch of the livestock agent open to clients, or through ancillary postal, fax, telephone or electronic helpdesk support; and
- (d) fairness: ensuring that a resolution of a complaint can during and by means of the resolution process be effected which is fair to both complainants and the livestock agent and its staff.

## **19 Resolution of complaints**

The internal complaint resolution system and procedures of the livestock agent must be designed to ensure the existence and maintenance of at least the following for purposes of effective and fair resolution of complaints-

- (a) availability of adequate manpower and other resources;

- (b) adequate training of all relevant staff, including imparting and ensuring full knowledge of the provisions of the Act, and the rules with regard to resolution of complaints;
- (c) ensure that responsibilities and mandates are delegated to facilitate complaints resolution of a routine nature;
- (d) ensure that there is provision for the escalation of non-routine serious complaints and the handling thereof by staff with adequate expertise;
- (e) internal follow-up procedures to ensure avoidance of occurrences giving rise to complaints, or to improve services and complaint systems and procedures where necessary.

## **20 Specific obligations**

- (1) Subject to the other provisions of rules 17 - 20, the internal complaint resolution system and procedures of a livestock agent must contain arrangements which-
  - (a) must-
    - (i) reduce the details of the internal complaint resolution system and procedures of the livestock agent, including all subsequent updating or upgrading thereof, to writing;
    - (ii) provide that access to the procedures is at all times available to complainants at any relevant office or branch of the livestock agent, or by electronic medium, and that such availability is appropriately made known by public press or electronic announcements or separate business communications to existing principals;
  - (vi) include in the details envisaged in subparagraph (i), a reference to the duties of the livestock agent and the rights of a complainant set out in rules 17 to 20 above;
  - (iv) include in such details a clear summary of the provisions of the Act, which will apply whenever the complainant, after dismissal of a complaint by the livestock agent, wishes to pursue further proceedings before the Council; and

- (v) include in such details the name, address and other contact particulars of the Registrar;
  - (b) must stipulate that complaints must, if possible, be submitted in writing and must contain all relevant information, and that copies of all relevant documentation must be attached thereto;
  - (c) must provide that the receipt of complaints is promptly acknowledged in writing to the complainant, with communication particulars of contact staff to be involved in the resolution of the complaint, and are properly internally recorded by the relevant staff for purposes of compliance with rule 20(3) below;
  - (d) must make provision that after the receipt and recording of a particular complaint, the complaint will as soon as practically possible be forwarded to the relevant staff appointed to consider its resolution, and that-
    - (i) the complaint receives proper consideration;
    - (ii) appropriate management controls are available to exercise effective control and supervision of the consideration process;
    - (iii) the complainant is informed of the results of the consideration within six weeks of receipt of a complaint; provided that if the outcome is not favourable to the complainant, full written reasons must be furnished to the complainant within six weeks of receipt of a complaint, and the complainant must be advised that the complaint may within six months be pursued with the Council whose name, address and other contact particulars must simultaneously be provided to the complainant.
- (2) In any case where a complaint is resolved in favor of a complainant, the livestock agent must ensure that a full and appropriate level of redress is offered to the complainant without any delay.
- (3) A livestock agent must maintain records for a minimum period of five years regarding complaints received, together with an indication whether or not any such complaint has been resolved.

**21 Termination of Agreement or Business**

- (1) A livestock agent must –
  - (a) subject to any contractual obligations, give immediate effect to a request of a principal who voluntarily seeks to terminate any agreement or mandate with the livestock agent;
  - (b) where the principal makes the request on the advice of the livestock agent, the livestock agent must take reasonable steps to ensure that the principal fully understands all the implications of the termination;
- (2) A livestock agent, other than an employee, who ceases to operate as such, must immediately notify all affected principals accordingly and take, where reasonably necessary or appropriate in consultation with the principals, reasonable steps to ensure that any outstanding business is completed promptly or transferred to another livestock agent selected by the affected principals; and
- (3) Where an employee ceases to be employed by that livestock agent, such livestock agent must immediately take, where reasonably necessary or appropriate in consultation with the employee concerned, reasonable steps to notify all affected principals accordingly and ensure that outstanding business is completed or transferred to another employee of that livestock agent or such other livestock agent as selected by the principal concerned.

**22 Waiver of Rights**

No livestock agent may request or induce in any manner his principal to waive any right or benefit conferred on his principal by or in terms of any provision of the Act or these Rules, or recognise, accept or act on any such waiver by the principal, and any such waiver is null and void.

**PART IV: REGISTRATION CERTIFICATES****23 Applications for registration certificates**

- (1) An application for a registration certificate shall be made every 2 (two) years, not later than 20 (twenty) business days before each anniversary of the date of issue of the registration certificate concerned on a form available from the Council for this purpose.
- (2) Such form shall –
- (a) be completed in full in accordance with the directions indicated thereon, and shall be signed by the applicant or by a person duly authorised thereto, on behalf of the applicant;
- (b) be accompanied by-
- (i) the applicable application fee determined by the Council for this purpose, as well as the other applicable particulars and documents indicated thereon; and
- (ii) a tax clearance certificate issued to the applicant by the South African Revenue Services which tax clearance certificate is not older than 3 (three) months since date of issue;
- (c) be forwarded by post to the Council to, or be delivered to the Council at, the address indicated thereon; and
- (d) authorise holders of personal data to furnish information regarding the applicant's credentials to the Council and/or its duly authorised verification agent.
- (3) In order to determine whether the applicant and the persons referred to in sub-rule 5 (a) below are fit and proper persons, the application form submitted to the Council shall provide particulars of such persons and shall also deal with the matters referred to in sub-rules 5 (a) – (b) below.

- (4) A livestock agent must in the application to the Council, be candid and accurate and must, of his own accord, disclose all facts and information at his disposal or which may be accessible to him, and which may be relevant for purposes of a decision by the Council.
- (5) The Council must, on receipt of an application by a livestock agent for the issue of a registration certificate, consider the application on the basis of all information disclosed in the application, or otherwise obtained in terms of the Act or these rules, relating to the proposed issue of a registration certificate and of the following criteria and guidelines-
- (a) that the applicant and the persons who are in charge or in control of the applicant-
- (i) are fit and proper persons;
- (ii) have sufficient and appropriate knowledge of the provisions of the Act and the Rules, and particularly of all duties and obligations imposed on the applicant in terms of the Act and the Rules and of duties and obligations to be discharged by the applicant in the enforcement of any rights granted by the Act;
- (iii) will, as regards the relevant business, have adequate resources available to ensure proper compliance monitoring, including as regards the activities of the employees of the livestock agent concerned;
- (iv) will be able to function adequately independently or objectively;
- (v) will be able and enabled to keep a written record of all activities undertaken in the course of the business including, but not limited to, accounting records and relevant financial transactions;
- (vi) will be able to function in a manner ensuring that no actual or potential conflicts of interest arise either internally or externally;
- (vii) will be able to liaise directly with the Registrar; and
- (b) the number of regulatory courses or training attended and regulatory examinations or training passed by the persons referred to in sub-rule (5)(a).

- (6) in the exercise of the approval function, the Council is vested with a discretion and may grant an approval temporarily, provisionally, conditionally or unconditionally and in a particular case notwithstanding that the Council is not satisfied that any particular criterion or guideline is fully met in any such case; provided that the Council shall not grant an approval where non-compliance with rule 23(5)(a) (i), (ii), (v) or (vi) is found.

**24 Payment for and maintenance of registration certificates**

- (1) The Council shall not issue a registration certificate to a livestock agent unless the amount referred to in rule 24 (7) has been paid in full to the Council.
- (2) The amount required from a livestock agent by the Council in terms of sub-rule (1) above shall be determined by the Council on an annual basis and shall be paid to the Council simultaneously with the application referred to in rule 23 (1) above.
- (3) Such payment, together with any interest accrued in terms of sub-rule (4) (if applicable), shall reach the Council on or before 30 June first following the date of the relevant notice referred to in sub-rule (1).
- (4) The total outstanding amount owing from time to time in terms of sub-rule (1) shall bear interest at the mora interest rate determined from time to time in terms of the Prescribed Rate of Interest Act, 55 of 1975.
- (5) The Council shall annually not later than 30 April in writing notify each livestock agent and each employee who is the holder of a registration certificate, of the amount determined in terms of section 16(9)(a) of the Act, that is payable for the maintenance of such certificate, which payment is to be made not later than the date determined by the Council.
- (6) The Council may suspend a livestock agent from conducting his business as livestock agent, if-

- (a) that livestock agent has failed to make the payment referred to in sub-rule (2) above; or
  - (b) on written demand by the Registrar, has failed to-
    - (i) comply with rule 31 (3) below and give satisfactory reasons for the failure to furnish the required report; or
    - (ii) show satisfactory cause for the livestock agent to continue conducting his business as such.
- (7) If the Council orders a suspension as contemplated in sub-rule (6), any interested person may apply in the prescribed manner and form to the Council, to cancel the suspension of the livestock agent; provided however that if such request is made by or on behalf of the livestock agent concerned, the Council shall cancel the suspension of the livestock agent only after the livestock agent has complied with his outstanding obligations in terms of sub-rules (3), (5) and rule 31 (3) below (as the case may be).

## PART V: RECEIPT AND SALE OF LIVESTOCK

### 25 Register of livestock received

- (1) Each livestock agent shall keep a register at his business address in which he shall record the following particulars in respect of all livestock received by him for sale-
  - (a) The date of receipt of the livestock.
  - (b) The name and address of the principal from whom it was received.
  - (c) The number of the delivery note which accompanied it.
  - (d) The kind and gender and description of livestock received.
  - (e) The quantity received.
- (2) The particulars referred to in sub-rule (1) shall –

- (a) be recorded in such register in chronological order of receipt of the livestock concerned; and
  - (b) be thus recorded not later than the business day first following the day of receipt of the livestock concerned.
- (3) If a livestock agent uses more than one register simultaneously, he shall notify the Council in writing of the number of registers that are in use.
- (4) Records kept in terms of this rule may be kept in the electronic format approved of by the Council.

## **26 Marking and Reports on unsold livestock**

- (1) A livestock agent shall, on receipt of the livestock for sale mark each animal or other livestock product in such manner that it is identifiable and distinguishable from any other animal or livestock product received for sale.
- (2) A livestock agent shall at all times comply with the provisions of the Stock Theft Act, 1959 (Act No. 57 of 1959) and the Animal Identification Act, 2002 (Act No. 6 of 2002) to the extent that they apply to livestock agents.
- (3) If the livestock is not fully sold within 2 (two) business days after the receipt thereof, the livestock agent concerned shall forthwith inform his principal in writing of the extent and condition of the unsold livestock and a copy of such a report shall be retained for inspection by his principal or by the Council.
- (4) Similar written reports shall thereafter be provided to a principal on a daily basis until all livestock have been sold or otherwise disposed of and copies of such reports shall be retained for inspection by his principal or by the Council.
- (5) A livestock agent or his employee shall on demand provide the Registrar or the Council of copies of the reports referred to in sub-rules (3) and (4).
- (6) A livestock agent shall not be entitled to destroy the reports referred to sub-rules (3) and (4) before the expiry of the period referred to in rule 5(5) above.

**27      Sale of Livestock**

- (1) A livestock agent who sells his principal's livestock by way of an auction, shall comply with the provisions of section 45 of the Consumer Protection Act, 2008 (Act No. 68 of 2008) and the regulations promulgated in terms of that Act, to the extent that they apply to the sale of livestock by auctioneers.

**28      Sales notes**

- (1) A livestock agent shall forthwith after each sales transaction issue a sales note and before the livestock concerned is removed from his custody or from the custody from anyone who held the livestock concerned on his behalf, also issue a removal certificate which complies with the provisions of section 8 of the Stock Theft Act, 1959 (No. 57 of 1959) to the purchaser thereof.
- (2) The following particulars shall be indicated on a sales note-
- (a) A serial number.
  - (b) The name or code mark of the livestock agent concerned.
  - (c) The date of the sale concerned.
  - (d) The name of the principal concerned.
  - (e) In the case of a credit sale, the name and physical and postal address of the purchaser concerned.
  - (f) The kind, gender and description of livestock sold, and the quantity and/or mass so sold.
  - (g) The price at which each such quantity and/or mass was sold.
  - (h) The designation of the premises at which such sale took place.
- (3) The sales note referred to in sub-rule (1) may be produced in electronic form approved of by the Council.

**29 Payments for sales by Buyers**

- (1) Payment made by a buyer to a livestock agent for livestock sold by the livestock agent on behalf of his principal to the buyer shall be made in cash, by way of an electronic funds transfer to the credit of the livestock agent's bank account or by way of a crossed cheque in favour of the livestock agent.
- (2) A cheque or electronic funds transfer as payment for livestock sold that is presented to or made in favour of a livestock agent as payment for livestock sold by him shall be made out in favour of the livestock agent concerned, and if a cheque, be crossed and be endorsed with the expression "not transferable" or "nie oordraagbaar".
- (3) If a cheque does not comply with the requirements set out in sub-rule (1), the livestock agent concerned shall forthwith cross it, and endorse it in the manner provided in sub-rule (1).

**PART VI: ACCOUNTING TO PRINCIPALS****30 Accounting to principals**

- (1) A livestock agent shall not later than 1 (one) business day after having sold livestock on behalf of his principal, issue a statement to his principal on which the following particulars are indicated-
  - (a) A serial number.
  - (b) The name of the livestock agent concerned.
  - (c) The name and address of the principal concerned.
  - (d) The date of sale of the livestock concerned.
  - (e) The number of the delivery note (if any) that accompanied the delivery of the livestock.
  - (f) The kind, gender and description of livestock received, the quantity thereof that has been sold, and the selling price and gross amount realised.

- (g) The number of the relevant sales notes referred to in rule 28, in sequence of the date of issue thereof.
- (h) The amount and nature of each deduction in respect of expenses incurred in connection with the sale and delivery of the livestock concerned or in respect of any other service rendered by the livestock agent to the principal at the written request of the principal.
- (i) The amount, rate or scale at which remuneration was claimed, and the amount of such remuneration.
- (j) Particulars of livestock that have in terms of some or other law been found to be unsuitable to be presented for sale or have for another reason been withdrawn from sale.
- (k) in the event of a sale of livestock having taken place on credit, particulars of the purchaser of such livestock as required by rule 7 above and an indication whether such credit was granted by the livestock agent or by his principal and the extent thereof.
- (2) Copies of the relevant sales notes referred to in rule 28 shall forthwith be made available to the principal at his written request.
- (3) The serial number indicated on a statement in terms of sub-rule (1)(a) shall not later than the business day first following the date of issue of the statement concerned, be recorded in the relevant register referred to in rule 25 opposite the particulars of the livestock concerned.
- (4) If a livestock agent intends to recover any amount other than a deduction referred to in sub-rule (1)(i) from the proceeds of a sale, he shall –
- (a) be in possession of a written consent from the principal concerned in which such deduction is authorised; and
- (b) indicate full particulars of such recovery on the relevant statement referred to in sub-rule (1).

- (5) When a livestock agent indicates particulars referred to in sub-rule(1)(j) on a statement, he shall, when requested thereto by his principal or by the Council, provide him with a copy of the order by the appropriate authority that the livestock concerned has in terms of some or other law been found to be unsuitable to be presented for sale.

### **31 Payments to principals**

- (1) Payment made by a livestock agent to his principal for livestock sold by him on behalf of his principal shall be made in cash, by way of an electronic funds transfer to the credit of his principal's bank account or by way of a crossed cheque drawn on his bank account in favour of his principal.
- (2) Unless a livestock agent has sold the livestock of his principal on his principal's credit, he shall make payment to his principal not later than 1 (one) business day after the livestock concerned has been sold, unless his principal agrees, in writing, that payment may be extended to a date which shall not be later than the last business day of the month in which the livestock concerned was sold.
- (3) The amount of such payment shall correspond with the amount due indicated on the relevant statement issued to the principal concerned in terms of rule 30; provided that the amounts due as indicated on two or more such statements may be combined for the purpose of making a single payment, in which case the livestock agent concerned shall also issue a summarised statement to his principal on which the following particulars are indicated-
- (a) the serial numbers of each of the statements referred to in rule 30(1), as well as the net amount due in terms of each such statement;
- (b) the total net amount owing; and
- (c) the number of the cheque or reference of the electronic transfer concerned.
- (4) The date of issue indicated on any cheque drawn or any electronic transfer made to effect payment, shall not be later than the date on which it has to be forwarded to the principal concerned in terms of sub-rule (2).

- (5) A livestock agent shall not be entitled without the prior written approval of his principal, who approved such credit either for a specific buyer, or generally for a category of potential buyers and the specific buyer falls within that category to sell his principal's livestock on the credit of his principal; provided however that such credit shall not be granted for a period longer than 30 (thirty) days after date of the sales transaction concerned and provided further that the livestock agent shall-
- (a) also comply with the provisions of rule 6; and
- (b) make payment in full to his principal, without any right of set-off, on the first business day following the expiry of the 30 (thirty) day period referred to in rule 31(5), unless his principal agrees, in writing, that payment may be extended to a date not later than the last business day of that month. Payment shall be made with full written particulars of the amount received, the identity of the buyer who made payment, the sales transaction to which such payment relates and the amount remaining outstanding after such payment has been made.
- (6) An employee shall not be entitled to sell the livestock of his employer's principal on credit, without the prior written consent of his employer.

## PART VII: CONTROL AND ADMINISTRATION OF ACCOUNTING ACCOUNTS

### 32 Addresses at which accounting records are kept

- (1) Every livestock agent shall keep at his business address entered in the records of the Council, accounting records of-
- (a) all monies received, kept or expended by him;
- (b) all his assets and liabilities;
- (c) all his financial transactions; and
- (d) all livestock received, kept, sold and lawfully destroyed by him;

and shall retain such accounting records for a period of at least three years after the last entry in respect of any transaction made therein, together with the vouchers, receipts and other documents relating to those accounting records.

- (2) Notwithstanding the provisions of sub-rule (1), the Council may at the request of a livestock agent grant written approval that such records may be kept at another address specified in the approval concerned.

**33 Accounting Records to be audited**

- (1) Every livestock agent shall cause his accounting records to be audited at his expense by an auditor within 4 (four) months after the final date of every financial year of the livestock agent, which final date shall not be amended by him without the prior written approval of the Council.
- (2) Notwithstanding the provisions of Rule 33 (1), the Council may, on good cause shown, at any time order any livestock agent by notice in writing to submit to the Council within a period stated in such notice, but not less than 30 (thirty) business days, an audited statement fully setting out the state of affairs in respect of the matters referred to in Rule 33 (1).
- (3) The accounting records of a livestock agent shall represent fully and accurately in accordance with the financial reporting standards applicable to the business of the livestock agent the state of affairs and business of the livestock agent and explain the transactions completed on behalf of his principal.
- (4) The accounting records shall distinguish in readily discernible form between transactions concluded on his own behalf and transactions concluded on behalf of his principals.
- (5) A livestock agent shall make and keep proper back-ups of his accounting records which shall be kept off site in a locked and fireproof safe, and he shall ensure that his auditors shall, annually, in the report referred to in rule 34(1) below, certify that the livestock agent complied with his duties in this regard.

**34 Auditor's Report**

- (1) A livestock agent shall cause the auditor referred to in rule 33(1), immediately after having completed the audit contemplated in rule 33(1) above, to submit to the Council a report in the form determined by the Council regarding his findings, and a copy thereof to the livestock agent concerned. Such report shall be accompanied by the audited financial statements of the livestock agent concerned.
- (2) If a livestock agent fails or is, in the opinion of the Registrar unlikely to comply with the provisions of rules 33(1) and/or 34(1), the Registrar may designate an auditor to comply with those provisions on behalf of and at the expense of the livestock agent concerned.

**35 Bank Accounts**

- (1) The bank account to be kept and held by a livestock agent other than his employee shall be a cheque account and for that purpose every livestock agent shall-
  - (a) open and keep a bank account at a commercial bank; and
  - (b) unless otherwise agreed, forthwith deposit therein the proceeds of the sale of livestock sold by him on the instructions of or on behalf of his principal.
- (2) A livestock agent shall within 5 (five) business days after a cheque account has been so opened, provide the Council with the particulars of his bank account.
- (3) Any change in connection with a bank account referred to in sub-rule (2) above shall be brought to the attention of the bank concerned and be reported to the Council in writing within 5 (five) business days after such change has been effected.

**36 Deposits in bank accounts, withdrawals and transfers from bank accounts**

- (1) The proceeds of the sale of livestock to be deposited into the bank account of a livestock agent shall be deposited in his cheque account.

- (2) A payment or withdrawal from a bank account shall, in the case of a cheque account, not be made otherwise than by means of an electronic transfer of funds or the issuing of a crossed cheque, which cheque, unless the livestock agent is trading as a sole proprietor, shall be countersigned by at least 2 (two) signatories, and which transfer of funds shall be authorised by at least 2 (two) persons authorised thereto by the livestock agent concerned and shall be made payable to or to the order of a payee specifically designated; provided however that a livestock agent shall be entitled to make cash payments to principals who do not have bank accounts.
- (3) No livestock agent shall withdraw any amount from the account referred to in sub-rule (1) in respect of his remuneration as a livestock agent or for other expenses incurred by him in connection with the sale of livestock unless –
- (a) the proceeds of the sale of the livestock concerned have already been deposited in such account or paid to the principal in cash;
  - (b) in the case of such other expenses, they have already been incurred by him; and
  - (c) he is in possession of documentary proof to substantiate such withdrawal.
  - (d) the remuneration or expense has been correctly debited in his accounting records.

## PART VIII: MISCELLANEOUS PROVISIONS

### 37 Certain convictions to be reported to Council

- (1) Whenever a livestock agent or any of his employees are convicted of an offence involving an element of dishonesty, such livestock agent shall within 5 (five) business days after the date of sentencing, notify the Council by registered post or email of the date of conviction, the nature of the offence, the sentence imposed, and by which court.

- (2) Whenever an employee leaves the employment of the livestock agent who employed him, such livestock agent and such employee shall within 5 (five) business days after the date of termination of employment, notify the Council by registered post or e-mail of the date of termination of employment and the reasons for the termination of his employment.

**38 Payment of unclaimed moneys to Council**

- (1) If the amount to be paid by a livestock agent to his principal has not been claimed by the principal within 200 (two hundred) days after the sale, that livestock agent shall pay the amount from his bank account to the Council, and furnish the Council with the particulars required in the rules in connection therewith.
- (2) A payment of unclaimed moneys to the Council in terms of sub-rule (1) shall be accompanied by a copy of the relevant sales note referred to in rule 28 (1).
- (3) Payments referred to in sub-rule (2) shall annually be made to the Council during March and September to reach the Council not later than the last business day of each of the said months.
- (4) Whenever a person becomes entitled to receive any money out of the fund kept by the Council for the receipt of unclaimed monies, proof of identity as well as proof of the fact that the person has become entitled to payment must be submitted to the Council, and such person shall comply with the Council's requirements.

**39 Payment of moneys**

Any amount payable to the Council in terms of the Act or these rules shall be paid by crossed cheque, electronic funds transfer, postal order or money order made out in favor of or for the credit of the Agricultural Produce Agents Council.

**PART IX: GENERAL****40 Address of Council**

The address of the Council shall –

- (a) for the purposes of documents forwarded by post, be Suite Number 69, Private Bag X 9, East Rand 1462;
- (b) for the purposes of documents delivered by hand, Benvista Office Park, Unit 5, Edgar Road, Jansen Park (Boksburg); and
- (c) for purposes of notices and other communications at [admin@apacouncil.co.za](mailto:admin@apacouncil.co.za).

**41 Title of rules**

These rules shall be called the Rules in respect of Livestock Agents, 2017.

**BOARD NOTICE 29 OF 2018****FINANCIAL MARKETS ACT, 2012****PROPOSED AMENDMENTS TO THE JSE LISTINGS REQUIREMENTS:  
TRANSFERABILITY OF SECURITIES**

I, Dube Phineas Tshidi, Registrar of Securities Services, hereby give notice under section 11(6)(c) of the Financial Markets Act, 2012 (Act No. 19 of 2012) that the proposed amendments to the JSE Listing Requirements have been published on the official website of the Financial Services Board ([www.fsb.co.za](http://www.fsb.co.za)) for public comment. All interested persons who have any objections to the proposed amendments are hereby called upon to lodge their objections with the Registrar of Securities Services, at the following email address: [Michael.Kabai@fsb.co.za](mailto:Michael.Kabai@fsb.co.za), within a period of 14 days from the date of publication of this notice.

# **WARNING!!!**

## **To all suppliers and potential suppliers of goods to the Government Printing Works**

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.

To confirm the legitimacy of purchase orders, please contact:
