- c) Audited Financial Statement for the past financial year. In the case of a closed corporation - a full set of Financial Statements which are to be signed by an Accounting Officer and the latest Management Accounts for the last three months. ## EXEMPTION PROCEDURE

### Important note for management:

Any person bound by this agreement may apply for an exemption. It is important to note that exemption applications must be lodged with the bargaining council within 30 days after the BCCEI Agreement has been gazetted / published.

The industry's current wage exemption procedure continues to apply. Any company that is unable to implement the full wage increase may make application to the council to implement wage increases of a lesser amount than those agreed.

If the application is rejected, then an appeal may be immediately lodged with the bargaining council's Independent Exemption Appeals Board which is an independent body established in terms of the Labour Relations Act.

The exemption procedure is detailed hereunder:

- Individual companies seeking exemption must complete the exemption application form detailed in in this document. It is vital that companies utilize the standard application form to expedite the exemption process.
- Companies seeking exemption must consult their employees on the intention to apply for exemption and the application should contain details and proof of this consultation process. It is important to note that the employees' view on the application is not decisive but merely one of the factors that the Council and Board will take into account when considering the application.
- The exemption application must be fully motivated as required. In this regard the guidelines hold relevance.
- The application must be lodged with the council as soon as possible (but by no later than 30 days after the extension to non-parties.)
- The proposed exempted wage increase should be implemented by the company until the exemption process has been concluded, after which any adjustments must be applied retrospectively from date of application of the agreement (i.e. if the exemption is refused, then the full agreed wage increase will apply from the date of publication of the BCCEI Wage and Task Grade Agreement.
- The council will decide on the exemption application. Where the exemption is rejected, an appeal may be lodged with the Independent Exemption Appeals Board.

## EXEMPTION APPLICATION FORM

### Important note for management:

*If the Bargaining Council does not receive your completed form with supporting documentation within 30 days after the extension to non-parties the council will accept that you no longer require this exemption and the file will be closed.*

**1. Introduction**

- 1.1 The purpose of this document is to set out the policies which will apply to the consideration of applications for exemptions.
- 1.2 The Council should determine the appropriate level at which exemption decisions will be made and may choose to implement one of the following approaches in this regard:
  - 1.2.1 Determine the specific types of exemption applications which 'The Exemptions Body' may deal with and those which could be referred to the Office for decision; or
  - 1.2.2 Determine that all exemption applications must be dealt with by the 'The Exemptions Body'.
- 1.3 Exemptions shall be dealt with within 30 days of receipt thereof.
- 1.4 Where the Office or 'The Exemptions Body' is given the authority to deal with an exemption application and an appeal is lodged against the Office or 'The Exemptions Body' decision then this appeal must be referred to the Independent Exemptions Appeal Board for final decision.
- 1.5 Exemption applications must be considered on the basis of criteria established by the Management Committee (MANCO) in order to ensure consistency in the granting or refusing of exemption applications and in accordance with the provisions of Chapter 6, Clause 1 of the Main Agreement.

9  
1.2.1

or in part, or amend the conditions under which the exemption was issued, or amend the conditions of employment and other matters regulated under the exemption.

## 2. Definitions

Unless the contrary intention appears, any expression used in this policy which are defined in the Labour Relations Act 66/95, shall have the same meaning as in the Act and any reference to an Act shall include any amendment to such Act.

Any reference to the singular shall include the plural and vice versa and any reference to any gender shall include the other gender and further unless inconsistent with the context:

'Act' means the Labour Relations Act 66 of 1995

'Council' means the Bargaining Council for the Civil Engineering Industry and any functions to be performed by the Council in terms of this policy may be performed by the Council's General Secretary or any other employee of the Council to which the Council or General secretary has delegated such function in writing.

'Law' includes the common law.

## 3. Fundamental Principles

The following are fundamental principles which are legal obligations imposed on the Office or 'Exemptions Body' by the Council's agreements

The Council hereby establishes an 'Exemptions Body', constituted of persons independent of the Council, to consider all applications for exemption from the provisions of the Council's Agreements. In terms of section 32 (3)(e) of the Act, the council establishes an Independent Exemptions the Appeal Board (IEAB) to hear and decide any appeal brought against the Exemptions Body or Office refusal of an application for exemption from the provisions of an agreement or the withdrawal of an exemption by MANCO.

- 3.1 All applications must be in writing on the appropriate application form(s) obtainable from the BCCEI office or website and fully motivated and sent to the Council for consideration. Supporting documentation such as audited financial statements, details of consultations and any other documentation required by the Office or 'The Exemptions Body' from time to time, must be submitted.
- 3.2 In scrutinising an application for exemption, the Office or 'The Exemptions Body' will consider the views expressed by the employer and the workforce together with any other representations received in relation to that application. Applications that affect employees' conditions of service shall not be considered unless the employees or their representatives have been properly consulted and their views fully recorded in an accompanying document
- 3.3 The exemption shall not contain terms that would have an unreasonably detrimental effect on the fair, equitable and uniform application of the Councils' Agreements.
- 3.4 Wage and wage related exemptions should not generally be granted beyond the expiration of the agreement provided that the 'The Exemptions Body' may at its discretion and on good cause shown agree to a longer period (but not an indefinite period).
  - 3.4.1 Application for exemption of the implementation of the minimum wages or bonus payments specified in the Conditions of Employment Agreement will be dealt with after giving consideration to the following:
  - 3.4.2 Clear evidence of financial difficulties including:

- i) The most recent set of annual financial statements and auditor's report signed by the auditor (or accounting officer in the case of CC's);
  - ii) Management accounts covering the period from the date of the above financial statements to two months prior to the date of application;
  - iii) An explanation of the difficulties being faced by the company;
  - iv) A business plan consisting of a time table of how and when the company shall "catch-up" with the minimum wage rate of the industry.
- 3.4.3 The company must notify the council each year of how they are progressing with their business plan;
- 3.4.4 If the company does not comply with the business plan, the exemption will automatically terminate and the company shall have to re-apply.
- 3.5 The employer must consult with the work force, through a trade union representative or, where no trade union is involved, with the work force itself, and must include the views expressed by the work force in the application.
  - 3.5.1 Where the views of the work force differ from that of the employer, the reasons for the views expressed must be submitted with the application.
  - 3.5.2 Where an agreement between the employer and the workforce is reached, the signed written agreement must accompany the application.
- 3.6 The authority of the Council or 'The Exemptions Body' is to consider applications for exemption. In the event of an appeal against the decision of the Council, the General Secretary will on receipt of the appeal submit it to the IEAB for consideration and finalisation.
- 3.7 Retrospectively  
Applications for exemption may not be granted retrospectively. The Office or the 'The Exemptions Body' may, on a request which are substantively explained and motivated, condone a past period.
- 3.8 Urgent applications
  - 3.8.1 In cases of urgent applications, details may be faxed, e-mailed or hand delivered to the Council.
  - 3.8.2 The Chairperson together with the Vice Chairperson and General Secretary may consider the application, make a decision and communicate that decision to the applicant without delay. The decision will be ratified and minuted at the next meeting of the 'The Exemptions Body'
  - 3.8.3 The applicant is expected to put forward a substantive explanation as to the urgency of the application.

The **risk** assessment must consider at least the following:
  - (a) coupling ratio of **explosives**;
  - (b) energy released to protect in situ rock;

- (c) containment of fly rock and air blast;
- (d) blast design and type of explosives;
- (e) geology and type of rock; and
- (f) safety in dealing with misfired holes.

**4.14(3)** the material used for **stemming** and **tamping** complies with SANS 120:2009, Edition 2 “Stemming for use in blasting”;

#### **Amount or mass of explosives in a shot hole**

**4.15** The **employer** at any **mine** must take **reasonably practicable** measures to ensure that the maximum amount or mass of **explosives** used per **shot hole** is according to the **manufacturer's** or supplier's recommendations.

#### **General precautions**

**4.16** The **employer** must take reasonable measures to ensure that:

**4.16(1)** at any **mine** other than a coal **mine**, no **explosive** charges are **initiated** during the shift unless –

- (a) such **explosive** charges are necessary for the purpose of **secondary blasting** or re-initiating the **misfired holes** in development faces;
- (b) written approval for such **initiation** has been granted by a person authorised to do so by the **employer**; and
- (c) reasonable precautions have been taken to prevent, as far as possible, any person from being exposed to smoke, fumes or fly rocks from such **initiation** of **explosive** charges;

**4.16(2)** no **blasting** operations are carried out within a horizontal distance of 500 meters of any public building, public thoroughfare, railway line, power line, any place where people congregate or any other structure, which it may be necessary to protect in order to prevent any significant **risk**, unless:

- (a) a **risk** assessment has identified a lesser safe distance and any restrictions and conditions to be complied with;
- (b) a written application is submitted to the **Principal Inspector of Mines** accompanied by the following documents for approval-
  - (i) a sketch plan indicating the distance from the **blasting** area to the affected structures;
  - (ii) the **risk** assessment;

- (iii) a proof of consultation with the owners of the affected structures; and
    - (iv) restrictions and conditions.
  - (c) a written approval has been granted by the **Principal Inspector of Mines**; and
  - (d) any restrictions and conditions determined by the **Principal Inspector of Mines** are complied with.
- 4.16(3)** at any **mine**, no person smokes, lights a fire or brings a naked light or flame, within a distance of 10 meters of where **explosives** are being loaded, transported, off loaded, handled or **explosive** charges are being prepared;
- 4.16(4)** at any **mine**, **blasting** takes place only at a time determined in writing by the **employer**;
- 4.16(5)** at any surface **mine**, a written procedure is prepared and implemented, after consultation with the **explosive** manufacturer or supplier, to prevent persons from being exposed to the significant **risks** associated with **hot holes**. Such procedure must include:
- (a) where there is a significant **risk** of **hot holes** occurring, that the **competent person** referred to in regulation 4.4(1) measures the temperature of the **shot hole**; and
  - (b) that the temperatures of the **shot holes** are measured at any point throughout the length of the **shot hole** and recorded prior and during charging up operations.
- 4.16(6)** at any **mine**, a written procedure is prepared and implemented after consultation with **explosives** manufacturer or supplier to ensure that **sleep-over blasts** are carried out safely;
- 4.16(7)** at any **mine**, a written procedure is prepared and implemented, after consultation with the **explosive** manufacturer or supplier, to prevent persons from being exposed to significant **risks** associated with **secondary blasting**. The written procedure must include measures to ensure that:
- (a) all persons are moved to a safe area prior to **secondary blasting** taking place;
  - (b) guards are placed at all entrances at a safe distance determined by a **risk** assessment, to the area where **secondary blasting** is to take place; and
  - (c) written approval from a person authorised by the **employer** to do so, is granted before **secondary blasting** is carried out.

**4.16(8) the competent person** referred to in regulation 4.4(1):

- (a) takes all reasonable precautions to safeguard every person assisting such **competent person** in the preparation of **explosive** charges against injury;
- (b) only charges **shot holes** with **explosives** within a reasonable time of **initiation** and after all persons not required to assist in the charging have been removed to a safe distance determined by **risk** assessment;
- (c) charges only the **shot holes** or prepare only the **explosive** charges that are intended to be **initiated** at the next blast and, while **explosives** charges are awaiting **initiation**, ensures that they are not interfered with;
- (d) except as may be necessary to re-initiate a **misfired hole** or specialised blast design for holes more than 4 meters in length; does not insert more than one detonator into an **explosive** charge, provided that in wet workings two detonators may be used only if they are both inserted into the same cartridge and securely fastened to it;
- (e) only uses a means, appliance or material supplied by the **employer** for the purpose of **initiating** of **explosive** charges or testing of a **blasting** circuit; and
- (f) before any charge is **initiated**, takes adequate measures to prevent injury to persons or damage to property caused by **blasting** operations.

**4.17** No person:

**4.17(1)** may drill or cause to be drilled or **blast** any **shot hole** in a subterranean tunnel intended to be used for purposes other than extracting **minerals**, unless -

- (a) a **risk** assessment has identified a safe distance to blast such a **shot hole** and any restrictions and conditions to be complied with;
- (b) a written application accompanied by the following documents is submitted to the **Principal Inspector of Mines** for approval-
  - (i) a sketch plan,
  - (ii) the **risk** assessment,
  - (iii) restrictions and conditions;
- (c) a written approval has been granted by the **Principal Inspector of Mines**; and
- (d) any restrictions and conditions determined by the **Principal Inspector of Mines** are complied with;

- 4.17(2) who is engaged in handling **explosives** or who is travelling in a vehicle in which **explosives** are being transported may carry matches or any other means of producing a flame or a spark;
- 4.17(3) warned of the **initiation** of **explosive** charges as contemplated in regulation 4.6(5)(d) may remain in or enter the unsafe area surrounding the place where the **initiation** of **explosives** is to take place.
- 4.18 Every person at any **mine** must report, in a manner prescribed by the **employer**, without delay any case of gassing, however slight, to ensure that such case receives prompt medical attention.
